for the other part, and in view of the fact that the garages are located far from the main thoroughfare (Greystone avenue) and are concealed most of the year by heavy foliage and that the streets that are adjacent (West 240th street and Dash place) are unopened streets, unpaved and uncurbed and that the existing garages are not intended to be permanent fixtures, since the income derived from them is not even sufficient to pay taxes and penalties, and they are only being maintained until such time as a permanent improvement can be erected on the site; and

WHEREAS, under Cal. 5-44-A, the Board denied an appeal on these premises; report of committee in this case, Cal. 5-44-A covered conditions on plot; that two buildings in question are only ones on the lot; that the barn was erected many years ago and occupied as a stable and carriage house; that the stable was remodeled under Plan #1340-1895, which is the only record in files of Dept. of Housing and Buildings; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board in connection with previous appeal Cal. 5-44-A; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7, subdivision e of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted,* under section 7e thereof, for a term of two years from the date of this resolution, to permit the occupancy of the two existing buildings as proposed, *on condition* that not more than fifteen (15) motor vehicles shall be stored therein; that such motor vehicles shall be of the pleasure-car type; that during the term of this variance, the premises shall be used for no other purpose than that herein permitted; and that all permits required shall be obtained and all work completed within three months from the date of this resolution and that a certificate of occupancy shall be obtained.

40-45-BZ

APPLICANT—Daniel Santoro, for Gus Stanzione and Rose Stanzione, owners.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use E area district, the erection of a three-car garage (for light delivery trucks) as an accessory to a baker-grocery business on the front of plot in a local retail D area district.

PREMISES AFFECTED—705 Forest avenue, north side, 310.66 ft. west of Bement avenue (Block 168, Lot 68), West Brighton, Borough of Richmond.

APPEARANCES—

For Applicant: Daniel Santoro.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (40-45-BZ)

WHEREAS, Daniel Santoro, for Gus and Rose Stanzione, owners, filed January 29, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a residence use, E area district, the erection of a three car garage (for light delivery trucks) as an accessory to a bakery and grocery business in a local retail, D area district on front of lot, affecting premises 705 Forest avenue, north side, 310.66 ft. west of Bement avenue (Block 168, Lot 68), West Brighton, Borough of Richmond; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 10, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Myrtle avenue is in a residence use, E area and class 1¾ height district; Forest avenue is in a local retail, D area and class 1¾ height district; Bement avenue is in a retail 1 and residence use, D and E area and class 1¾ height district; and

WHEREAS, the decision of the borough superintendent, dated January 19, 1945 on Alt. Applic. 7-45 reads:

> "1. This proposed non-fireproof 3 car garage to be used as accessory to a bakery is not permitted in a residential use zone, as being contrary to amended zoning resolution. Art. II, Sec. 3, 9a.
>
> 2. This proposed non-fireproof 3 car garage is not permitted in an E area district as a 25 ft. rear yard is required. Amended zoning resolution. Art. IV, Sec. 15a."

and

WHEREAS, the applicant states that the premises consist of a plot, 52.46 ft. frontage by 148 ft. and 155 ft. in depth, on which is located a 1 and 2 story, class 3 constructed building, 24 ft. and 27 ft. by 100 ft. and 28 ft. in area at 1st story and 24 ft. by 65 ft. above, occupied as a grocery and bakery, two car garage and flour storage, and it is proposed to use the present two car garage for flour storage and build a new three car garage at the rear, leaving a 23 ft. rear yard; and

WHEREAS, the applicant contends that the plot is 52.46 ft. front and 148 ft. and 155 ft. in depth; that the present building erected in 1938, is 24 ft. front and 100 ft. in depth; that the local retail zone extends 100 ft. from the front, so that the balance of the plot is in the residential zone; that lot is same size since 1916; that due to greatly curtailed labor, the owners who conduct a bakery and grocery business on the premises covered by the application, propose to change the present layout and machinery, by substituting up to date labor saving machinery and equipment; that it is proposed to install a new oven, slicing and mixing machine: that in order to accomplish this, it will be necessary to extend the present building into the residential zone, 28 ft. one story high; that this proposed addition will be used as a garage for light delivery trucks for the business; and

WHEREAS, the frontage along Forest avenue was formerly zoned for business use and the existing use district zoning was adopted on January 23, 1942; and

WHEREAS, the premises and the surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7, subdivision c and section 21 of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7c thereof, to permit the extension into the residence area as proposed for the construction of a garage, as indicated on plans filed with this application marked "Received January 29, 1945", *on condition* that the building and use shall not be further increased; that the balance of the plot shall be maintained landscaped, with a substantial steel picket or heavy wire mesh fence supported on steel posts on the side and rear lot lines and across the driveway at the end thereof; that no windows shall be constructed on the lot line wall to the west; that this garage shall be used solely as proposed, for the storage of motor vehicles used in conjunction with the business conducted on the premises by the owner; that the exterior of the proposed garage shall be of masonry construction, blending with the existing finish of the exterior of present building; that no repairing of motor vehicles shall be performed on the premises and no private gasoline system or pump shall be installed on the premises; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that a certificate of occupancy shall be obtained; and that all

permits required shall be obtained and all work completed within one (1) year from the date of this resolution.

52-45-BZ

APPLICANT—Joseph H. Cornell, for Frances Greenrose, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, a one-story extension for dining room and kitchen to an existing restaurant in the first story of an existing business and residence building.

PREMISES AFFECTED—214 Beach 90th street, east side, 106 ft. north of Rockaway Beach boulevard (Block 574, Lots 1, 2 and 5), Rockaway Beach, Borough of Queens.

APPEARANCES—

For Applicant: Joseph H. Cornell and Hugh Quinn.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (52-45-BZ)

WHEREAS, Joseph H. Cornell, for Frances Greenrose, owner, filed February 3, 1945, an application under section 7c of the zoning resolution, to permit in a residence use district, a one-story extension for dining room and kitchen to an existing restaurant in the 1st story of an existing residence and business building; affecting premises: 214 Beach 90th street, east side, 106 ft. north of Rockaway Beach boulevard (Block 574, Lots 1, 2 and 5), Rockaway Beach, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 10, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Beach 90th street is in a business and residence use, A area and Class 1 height district; Rockaway Beach boulevard is in a business use, A area and Class 1 height district; Long Island Railroad Right of Way is in a residence use, A area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated January 24, 1945, re Alt. Applic. 1425-44 reads:

"M. The erection of extension in residence district for business use is in violation of Sec. 3, Art. 2 of the Zoning Resolution.

Consideration denied on Objection No. 1."

and

WHEREAS, the applicant states the premises consist of a plot 116 ft. frontage by 125 ft. in depth, on which is located a 3-story, Class 3 construction building, 51 ft. by 108 ft. in area on the 1st story and 25 ft. by 64 ft. in area above, occupied as bar and grill in 1st story and residence above and that it is proposed to extend the building on the 1st story for new dining room and kitchen; and

WHEREAS, the applicant contends that the use district at this location was changed in 1938 by the City Plan Commission from unrestricted to residential use; that portion of plot adjacent to Long Island Railroad was used as large express office by them and this building was demolished in 1940; the present 3-story building has been used as bar and grill and restaurant on first floor and with apartments on second and third floors, since 1890; that it is proposed to extend the first floor of present building, to create new dining room and kitchen, etc., as per plans, and the new extension built on portion of the site of former express office; that this property lies between business on Rockaway Beach boulevard, and the Long Island Railroad, with frontage of 116 ft. on Beach 90th street and is definitely useless for residential purposes; that at rear of site is a large two-story public garage, which has been there for a long time; that opposite the site on Beach 90th street, is a bottling establishment and garage to same, and two old houses badly in need of repairs and that the vacant lot adjoining the railroad formerly had a freight track run in there and this siding was removed when the railroad was elevated; that with these surroundings, it is respectfully requested the Board grant a variance under Section 7c to permit the proposed extension; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application to and it hereby is *granted* under section 7c thereof, to permit the extension of the existing building into the residence use district substantially as shown on plans filed with this application marked "Received February 5, 1945", *on condition* that the existing frame building on the southerly portion of the lot shall be removed and there shall be constructed along the interior southerly lot line where existing brick walls of adjoining buildings do not occur, a substantial brick masonry wall not less than 6 ft. in height and properly coped; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

56-45-BZ

APPLICANT—George W. Swiller, for R. and A. Building Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7A of the zoning resolution, to permit in a business use district, abutting a residence use district, the extension of a show window more than 25 feet beyond the intersection of the two streets.

PREMISES AFFECTED—125-131 East 170th street and 1401-1405 Wythe place, northwest corner (Block 2843, Lot 98), Borough of The Bronx.

APPEARANCES—

For Applicant: George W. Swiller.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (56-45-BZ)

WHEREAS, George W. Swiller, for R. and A. Building Corporation, owner, filed February 6, 1945, an application under section 7A of the zoning resolution, to permit in a business use district, abutting a residence use district, the extension of a show window more than 25 feet beyond the intersection of the two streets, affecting premises: 125-131 East 170th street and 1401-1405 Wythe place, northwest corner (Block 2843, Lot 98), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 10, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Wythe Place is in a business and residence use, B area and Class 1¼ height district and East 170th street is in a business use, B area and Class 1¼ height district; and

MINUTES

WHEREAS, the decision of the borough superintendent, dated January 30, 1945, re Alt. Applic. 644-44, reads:

"15. Show window on Wythe Place, over 25 feet from intersection of East 170th street is prohibited by Section 7-A Building Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 102.1 ft. frontage by 86.2 ft., irregular in depth, on which is located a two-story (32 ft. 6 in. high), Class 1 constructed building, 102.1 ft. by 86.2 ft. in area, occupied as stores, restaurant, billiard parlor and office and that it is proposed to occupy the building as stores, restaurant office and sales room and add a new 7 ft. show window alongside of the existing 20 ft. 6 in. show window on the corner of Wythe Place and East 170th street; and

WHEREAS, the applicant contends that the building is a two-story fireproof structure; present occupancy first floor—stores and restaurant; second floor—offices and billiard parlor; that it is proposed to extend the store front display window of corner store along Wythe place, an additional 7 ft., by installing a new display window as shown on plans; that the total length of distance from the intersection of East 170th street and along Wythe place to remote point of display window will be 31 ft.; that it is impossible to display the various designed suits in present store front along Wythe place, due to the fact that each style requires a certain number of square feet of window display; therefore, the additional show window is essential; that it is obvious that the front on Wythe place will be beautified, due to the increase of the newly designed store front; and

WHEREAS, the applicant further contends that the existing show window extends 20 ft. 6 in. along Wythe place from the intersection of East 170th street; that there is also a show window at the rear of Wythe place, extending to the entrance to the second story; that it is proposed to close up this rear show window with masonry construction and to alter one of the existing windows adjacent to the corner show window, so as to create an additional 7 ft. wide show window, all to be within 31 ft. of the intersection of East 170th street; that this is an appropriate case for the Board to act on under the provisions of Section 7A and is in harmony with the general purpose and intent of the section; that the proposed condition will afford a greater protection to the residential district in the rear along Wythe place and will facilitate the display of the goods sold on the first story of the premises in question; that the entire alteration will enhance the value of property in the neighborhood and will in no wise tend to depreciate the value of or interfere with the enjoyment of the property in the residence district on Wythe place; that a recent amendment of the Zoning Resolution would permit the erection of a large open entrance-way leading to a loading platform or parking area within the building at any point on Wythe place frontage, without requiring any protection for the adjoining residence use district; that the proposal herein not only provides protection for the residence district, but actually improves the protection now existing, by removing further south, all semblance of business activity on the first floor of these premises; and

WHEREAS, the applicant stated that the proposed tenant is not to have occupancy of the cellar and no openings will be provided from the first floor store to such cellar space; and that if the cellar space is occupied by others, such exits shall be provided as the law requires; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant under section 7-A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7-A, to permit the extension of show windows, substantially as proposed on plans filed herewith marked "Received February 6, 1945", *on condition* that such extension does not exceed 7 feet as shown and that no additional show window shall be constructed or maintained northerly therefrom along Wythe place; that a second means of exit from the store may, however, be constructed as permitted under Section 7-A; that similar ashlar, now on the Wythe place elevation, shall be continued across the store front proposed to be discontinued; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within one year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

731-44-A

APPLICANT—Franklin W. Gilman, for Loft Candy Corporation, owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—38-38 9th street (Hamilton street), west side, 244 ft. south of 38th avenue (Freeman avenue); 2nd and 3rd floors (Block 476, Lot 1), Long Island City, Borough of Queens.

95-42-A

APPLICANT—L. D. Kauffman, for Wallabout Basin Storage, Inc., lessee; New York Dock Co. 1, owner.
SUBJECT—Application reopened January 23, 1945—re Appeal from an order of the fire commissioner.
PREMISES AFFECTED—290-304 Furman street, west side, 306 ft. 1¼ in. north of Joralemon street (Block 245, part of Lot 15), Borough of Brooklyn.
APPEARANCES—
For Applicant: L. D. Kauffman.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Resolution amended.
THE VOTE TO AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (95-42-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 290-304 Furman street, west side, 306 ft. 1¼ in. north of Joralemon street (Block 245, part of Lot 15), Borough of Brooklyn, was granted by the Board on April 17, 1942, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, this case was reopened by vote of the Board on January 23, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, Order No. 98569-LC, issued by the fire commissioner January 8, 1945, reads:

"With reference to application dated October 20, 1944, for a permit to store 500,000 Matchmans Gross of matches, at above premises, please be advised that the Fire Department, is without power to issue such a permit for the reason that a recent inspection of the premises shows same to be occupied for factory purposes. This is a violation of C19-46-b-1, of the Administrative Code, which reads as follows:

'No permit shall be issued for the storage or sale of matches within the city in quantities aggregating more than 60 Matchmans gross for any premises, which are occupied as a tenement house, dwelling, school, work shop, factory, theatre, or other place of public amusement or assembly.'

"1. You are, therefore, ordered to reduce the stock of matches stored on the premises to not more than 60 Matchmans Gross. C19-46-b-1, Administrative Code."

and

WHEREAS, the applicant now proposes to store 500,000 Matchmans gross of safety matches and to discontinue the storage of 300 drums of alcohol previously permitted; and

WHEREAS, the applicant contends that the building is used solely as an industrial warehouse; that while it is adjacent to a building used for manufacturing purposes, it is separated from such building by a wall and such manufacturing is conducted as a separate entity; that the matches proposed to be stored will be at least 150 ft. from the building used for manufacturing and will have a second wall intervening; that the building is fully protected by sprinklers; that if the Board grants this permission subject to installation of protective devices suggested by the Division of Combustibles, Fire Department, the applicant will be willing to comply.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of April 17, 1942, so that as amended, the resolution shall read:

"Resolved, that the order of the fire commissioner, Order 98569-LC, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the matches to be stored shall be of a type approved by the fire commissioner and shall be stored in the original cartons and shall not exceed in gross quantity 500,000 Matchmans Gross; that the alcohol previously proposed to be stored, shall not be stored on the premises; that there shall be maintained a fireproof dividing partition, separating the portion of the building to be occupied for the storage of matches and the portion used for factory work, in accordance with the requirements of the resolution adopted under Cal. 517-25-A, as amended April 17, 1942; that the sprinkler system shall be maintained throughout the building to the satisfaction of the fire commissioner; that the so-called standpipe system connected with the sprinkler system shall be dismantled and discontinued and the connections with the sprinkler piping plugged or capped unless the dry pipe valve is removed and the sprinkler system restored, so as to be a wet system at all times."

165-45-A

APPLICANT—Control Instrument Co., Inc., lessee, for Bush Terminal Buildings Co., owner.
SUBJECT—Appeal from a decision re an order of the fire commissioner.
PREMISES AFFECTED—33-67 35th street and east side of 2nd avenue 1300 ft. 4 in. north of 39th street (2nd floor—West Sec. A, Building 5); (Block 687, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: Charles W. Olsen.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (165-45-A)

WHEREAS, Control Instrument Company, Incorporated, lessee, for Bush Terminal Buildings Company, owner, filed March 27, 1945, an appeal from an order of the fire commissioner, affecting premises 33-67 35th street, east side of 2nd avenue, 1300 ft. 4 in. north of 39th street (2nd floor, west section A, Building No. 5); (Block 687, Lot 1), Borough of Brooklyn; and

WHEREAS, Order 97994-C, issued by the fire commissioner November 2, 1944, and repeated in a decision of the fire commissioner dated March 7, 1945, reads:

"1. You are hereby notified that Fire Department Permit #21253, expiring May 25, 1945, and authorizing the storage of Paint, etc. on above premises is revoked until the following is done:

7. Reduce quantity of volatile inflammable oil (naphtha). Plans and specifications in duplicate must be filed with and approved by Department of Housing and Buildings, before the above work may be commenced. C-19-51.0, Administrative Code."

and

WHEREAS, the applicant states the building is 6 stories, (83 ft.) in height; 75 ft. by 700 ft. in area; of Class 1 construction; erected 1911; located in an unrestricted use district, and used and occupied as follows: 1st floor, shipping, receiving and storage of raw materials, 36 persons; 2nd floor, punch press and finishing department, 82 persons; 3rd floor, engraving, gear cutting, burring, salvage, tool room and inspection, 145 persons; 4th floor, Gold Car Heating & Lighting Co., 20 persons; 5th floor, maintenance, assembly and testing, 72 persons; 6th floor, L. M. Peterson & Co., 40 persons; and

WHEREAS, the applicant states the building is equipped with a two source sprinkler system, standpipe system, two stairways, 7 ft. 3 in. wide, in Section A of the building, enclosed in steel and concrete partitions, equipped with fireproof, Class A self-closing doors and leading to the roof, and one of which leads to the street and two fire escapes leading to the roof by a ladder and to the street and the yard by stairs and that windows on the course of the fire escape are fireproof; and

WHEREAS, the applicant contends that permission is requested to increase the quantity of naphtha stored in the paint storage room from 5 gallons to one 55 gallon drum; that naphtha is the only solvent which can be used for cleaning purposes in the applicant's assembly line in accord-

ance with U. S. Navy specifications; that it is necessary to submerge small parts in naphtha to eliminate foreign particles and grease before assembling; that this submerging operation is done in small approved type safety cans; that due to increase in production, the quantities previously used are not sufficient; that it is proposed to store the naphtha in approved type safety storage tank, using approved type explosionproof pumps and transferring the naphtha from the drum to the tank by means of an air pressure barrel drainer; that both of these items, the tank and the barrel drainer will be manufactured by Bowser, Incorporated, and will be of a type approved by the Fire Underwriters.

Resolved, that the decision of the fire commissioner as to Order 97994-C, Item 7, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition,* that not more than one (1) drum of naphtha as proposed shall be used on the premises; that such drum shall be stored within a paint storage room and upon delivery, shall be immediately decanted into the proposed Bowser tank; that such decanting shall be by means of a pump attached to the drum as approved for such use by the Underwriters' Laboratories, Inc. or the Factory Mutual Laboratories; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. Nos. 32-32-A, 782-42-A and 117-43-S; that all other items of the order shall be complied with.

199-45-A

APPLICANT—Artel Manufacturing Co., for N. Y. City Housing Authority, owner (Hanson Manufacturing Co., lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—2072-2074 Third avenue, west side, 82 ft. 8 in. south of East 114th street (Block 1641, Lot 37), Borough of Manhattan.

For Applicant: Alexander Mann, F. C. Fredman and Albert A. Hilderbrand.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (199-45-A)

WHEREAS, Artel Manufacturing Company, for New York City Housing Authority, owner (Hanson Manufacturing Company, lessee), filed April 4, 1945, an appeal from an order of the fire commissioner, affecting premises 2072-2074 Third avenue, west side, 82 ft. 8 in. south of East 114th street (Block 1641, Lot 37), Borough of Manhattan; and

WHEREAS, Order 40679-LC, issued by the fire commissioner February 23, 1945, and repeated in a decision of the fire commissioner dated April 2, 1945, reads:

"1. Discontinue the storage of ammunition, fireworks and matches on the same premises in violation of Section C19-38-d-6, C19-41-C-8 and C19-46-b-3.

2. Discontinue the storage of unapproved matches. C19-47.0-a.

3. Discontinue the storage of matches not packed according to provisions of C19-47-d.

4. File copy of certificate of occupancy from Department of Housing and Buildings approving factory occupancy.

8. If it is decided to store fireworks—an approved sprinkler system must be provided. C19-41.0-2."

and

WHEREAS, the applicant states the building is one story (14 ft.) in height; 32 ft. 8 in. by 100 ft. in area; of Class 3 construction; erected 1924; located in a business use, B area, Class 1½ height district, and used and occupied since December, 1944, as follows: defense work (Army Air Force-C-1 Vest-Packing), 30 persons; and

WHEREAS, Certificate of Occupancy 7971 was issued April 12, 1924, permitting the use of the building for stores with an occupancy of 15 persons; and

WHEREAS, the applicant contends that if required to comply with the Fire Department order, the applicant would be forced to discontinue the entire operation for the U. S. Army Air Force, since the ammunition, etc. mentioned in the order is all packed in C-1 emergency vests under contract with the U. S. Army; that no materials are stored; that the vests contain many critical items; that the matches stored are wood matches and not more than one case containing 100,000 matches will be stored on the premises; that the fireworks referred to in the order are small flares packed one gross to a carton, not more than 3,000 flares will be stored on the premises; that the ammunition referred to is 45 caliber packed 72 packages of 20 rounds each to a tin lined wooden case; that not more than 40 cases to be stored on the premises; that the matches are furnished by the Government and the method of packing is in accordance with Army specifications, over which the applicant has no control; that all materials referred to in the order over and above the quantities herein stated, will actually be stored at Ft. Totten, Long Island, by arranging with the Army and deliveries of small quantities will be made to the plant as required.

Resolved, that the decision of the fire commissioner as to Order 40679-LC, Items 1, 2 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the storage of cartridges, flares and matches shall be as proposed; that such supply shall be stored in a room toward the front of the building separated from the balance of the building by walls of fireproof construction with a fire-retarded ceiling and a self-closing fireproof door; that only a quantity of cartridges, flares and matches shall be taken from the storeroom as are required for immediate use; that this variance shall continue only during the term of the present emergency; as to item 8, that the requirements for a sprinkler system may be waived, provided a sprinkler head fed from the domestic water supply shall be installed in the ceiling of the above referred to storage room; that such room shall not exceed an area of 80 sq. ft.; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and denied as to item 4.

66-25-A

APPLICANT—Samuel Rosenblum, for Mott Properties Corporation, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from an order of the fire commissioner.

PREMISES AFFECTED—245 West 55th street north side, 140 ft. east of Eighth avenue (Block 1027, Lot 7), Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (66-25-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 245 West 55th street, north side, 140 ft. east of Eighth avenue (Block 1027, Lot 7), Borough of Manhattan, was granted by the Board on May 19, 1925, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution so as to permit greater film storage in view of the construction of vaults approved by the Building Department under Alt. Applic. 1941-27, 707-30, 2601-30 and 713-33.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of May 19, 1925, by adding thereto:

"that in the event lawful film storage vaults are erected, the amount of film storage may be permitted as may be lawfully stored within such vaults, irrespective of the limitation hereinbefore referred to."

492-42-A

APPLICANT—A. Michael Katz, for Emanay Holding Corporation, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from an order of the fire commissioner (previously granted on condition).

PREMISES AFFECTED—2283-2285 Eighth avenue, west side, 50 ft. 11 in. south of West 123d street and 254 St. Nicholas avenue (Block 1949, Lot 33), Borough of Manhattan.

APPEARANCES—

For Applicant: A. Michael Katz and Irving Goldstein.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (492-42-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 2283-2285 Eighth avenue, west side, 50 ft. 11 in. south of West 123rd street and 254 St. Nicholas avenue (Block 1949, Lot 33), Borough of Manhattan, was granted by the Board on July 23, 1942, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 23, 1942, so that as amended, the resolution shall read:

"Granted on condition that the space occupied for the storage of wholesale drugs shall be restricted to the area shown on the plans filed with this appeal and may consist of the entire section of the southerly building extending from St. Nicholas avenue to 8th avenue and the westerly portion of the northerly building as well as the cellars under both buildings; that such space on the first floor shall be separated from other tenants by partitions, provided the partitions are covered on one side with plaster board and stamped metal; that entrance to the cellar shall be provided from 8th avenue, consisting of an engineer's ladder to each of the cellar sections; that the existing gate, giving access to the rear yard and through to St. Nicholas avenue, shall be maintained; that a door from the rear portion of the first floor northerly section shall be constructed and maintained to such yard; that only such drugs shall be stored on the premises as meet the approval of the fire commissioner, excluding explosives and volatile inflammable liquids; that a three hour fire door shall be installed and maintained in the wall, separating the spaces occupied on the first floor; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto."

426-44-A

APPLICANT—Manuel Selengut, for American Zyloptic Company, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—334-338 East 32nd street, south side, 206 ft. west of First avenue (Block 937, Lot 48), Borough of Manhattan.

APPEARANCES—

For Applicant: Manuel Selengut.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (426-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 334-338 East 32nd street, south side, 206 ft. west of First avenue (Block 937, Lot 48), Borough of Manhattan, was granted by the Board on July 18, 1944, on certain conditions; and

WHEREAS, the resolution was amended on October 17, 1944 and the applicant requested a further amendment of the resolution; and

WHEREAS, the applicant contends that in lieu of the sources provided for in Section C26-1375.0 in the Administrative Code, it is proposed to install a 10,000 gallon gravity tank, erected on steel supports 20 ft. above the roof, a 6 in. connection to 12 in. city main and an approved siamese Fire Department connection * * *.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions of July 18, 1944 and October 17, 1944, by adding thereto:

"that in the event the owner constructs a lawful vault so as to have a lawful capacity of 1500 cu. ft., the amount of celluloid may be increased to not exceeding 10,000 lbs."

APPLIANCE SUBMITTED FOR APPROVAL

2-45-SA

APPLICANT—Automatic Switch Co., owner.

SUBJECT—Asco Solenoid Valves for Automatic Interlocking of Paint Spray Gun and Ventilating Equipment.

APPEARANCES—

FOR Applicant: John C. Cox.

ACTION OF BOARD—Appliance approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (2-45-SA)

WHEREAS, the Automatic Switch Co., owner, filed on January 3, 1945, an application with the Board of Standards and Appeals for approval of the appliance known as Asco Solenoid Valves, for Automatic Interlocking of Paint Spray Gun and Ventilating Equipment; and

WHEREAS, this appliance was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 2-45-SA

Subject: Asco Solenoid Valves for Automatic Interlocking of Paint Spray Gun and Ventilating Equipment, approval of.

March 19, 1945.

The Automatic Switch Co., of New York City, owner, filed an application with the Board of Standards and Appeals for the approval of their solenoid valves (Fig. 2, showing typical valve) when used as shown in Fig. 1 for clearing the atmosphere of paint spray fumes as required by Rule 3.2 of the Rules Governing the Use of

MINUTES

Equipment for Spraying and Drying of Paints, Varnishes, Lacquers, and other Flammable Surface Coatings and Storage of Such Materials, adopted under Cal. No. 353-30-SR.

DESCRIPTION

The method of connecting applicant's solenoid valves is shown on Fig. 1. Applicant requests consideration of their regular valves and also those approved for use in explosive atmospheres so as to permit the installation of the latter within ten feet of the spray booth or space where spraying is being performed. Samples of these valves of both types have been submitted to the Board.

Solenoid operated valves (Fig. 2) as per Bulletins 8210 and 8211, pages 4 and 5 of Catalog Section 4-V, enclosed, and Bulletins 8260 and 8261 of Catalog Section 6-V. These valves of both types are furnished in sizes from ½" to 2½" and for handling air up to 200 lbs. maximum. Valves are of the single seat globe type with bronze bodies and trim, and Jenkins type renewable composition disc for tight seating service. Models 8210 and 8260 valves are with standard solenoids, and Models 8211 and 8261 with explosion-proof solenoids approved by Underwriters for installation in Class 1, Group D, Hazardous Locations, Electrical 12264 Application number 35C2333. The arrangement of equipment for automatic control is by means of a solenoid operated valve connected in the air supply line to the spray booth. This valve may be installed either outside or inside of the spray booth, depending on which location is most convenient. Valves installed outside of the spray booth in non-hazardous locations are equipped with standard solenoids. Valves installed inside of spray booths or in locations otherwise hazardous are equipped with explosion-proof solenoids approved by Underwriters for installation in Class 1, Group D, Hazardous Locations, and all wiring to the solenoid in hazardous location shall be approved explosion-proof. Solenoid valves are of the normally closed, i.e., closed when de-energized type and are of packless construction. Solenoid valve coil is wired in parallel with fan motor so that switch used to start fan motor will energize the solenoid valve. Thus, before spray painting can start, it is necessary to close the switch energizing the solenoid valve, to provide a supply of air to spray gun and it is impossible to provide this supply of air without starting ventilating fan.

These valves are listed in the various sizes from ⅜" to 2½" in applicant's bulletin 8210 and 8211, pages 4 and 5 of Catalogue section 4-V, and Bulletin 8260 and 8261 of Catalogue 6-V.

An examination and inspection of the valves were made by the Committee on Tests.

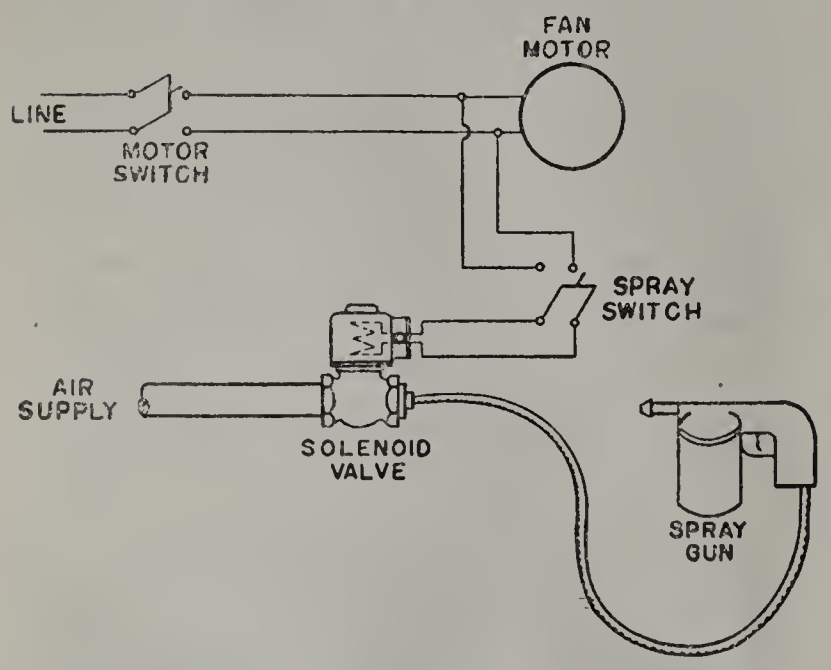

Fig. 2

RECOMMENDATIONS

The Committee on Tests has examined the applicant's Standard Solenoid Valve and the Valve for use in Explosive Atmospheres and finds that they function as designed and when connected in the manner shown in Fig. 1 will interlock the operation and the fan so as to accomplish the intent of Rule 3.2 of the Board's Rules Governing the Use of Equipment for Spraying and Drying of Paints, Varnishes, Lacquers and other Flammable Surface Coatings and Storage of such Materials, thus allowing the air to be cleansed of paint fumes. Accordingly on the basis of the data contained herein the Committee recommends that the Solenoid Valves as described herein, in sizes from ⅜" to 2½" for air pressures up to 200 lbs. be approved under the Board's powers granted by the Charter of the City of New York, Section 661, Subd. 1, 2, provided that when the solenoid valves are required to be located within 10 ft. of the spray booth, only such valves as are approved for use in explosive atmospheres be installed and that an explosion-proof condulet be provided on the explosion-proof valve for making electrical connections to incoming power sources.

The Committee on Tests further recommends that all layouts including the subject valves when submitted to the authorities having jurisdiction shall comply with Fig. 1 and shall bear a label reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 2-45-SA."

(Sgd.) BERNARD A. SAVAGE,
Commissioner,
CHARLES M. BLUM,
Commissioner,
LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as Asco Solenoid Valves for Automatic Interlocking of Paint Spray Gun and Ventilating Equipment, *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 12:20 P.M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, APRIL 10, 1945.

Present: Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

230-44-A

APPLICANT—Henry George Greene, for Sheraton Hotel Corp., owner.

SUBJECT—Appeal reopened March 27, 1945—re Appeal from a decision of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—297-303 Lexington avenue and 133-139 East 37th street, northeast corner (15th floor and penthouse); (Block 893, Lot 25), Borough of Manhattan.

APPEARANCES—

For Applicant: Henry George Greene.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (230-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 297-303 Lexington avenue and 133-139 East 37th street, northeast corner (15th floor and penthouse); (Block 893, Lot 25), Borough of Manhattan was withdrawn on June 6, 1944; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on March 27, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, the decision of the borough superintendent, dated March 14, 1945, acting on Alt. Applic. 307-44, reads:

"3. The means of egress, from Penthouse Floor and Roof Terrace which are proposed to be changed to Dining Room and Cabaret, shall conform with C26-281(4), C26-273 and C26-1438 N.Y.B. Code.

4. The Floor and Roof Construction are inadequate for required live load of 100 lb. per sq. ft. as per C26-344.B.C."

and

WHEREAS, the applicant states the building is 15 stories and penthouse (150 ft.) in height, 98 ft. 7½ in. by 140 ft. in area, Class 1 construction; erected in 1925 and located in residence use, B area district; and

WHEREAS, the applicant further states that it is now proposed to occupy the building as follows: Cellar, boilerroom and storage, 10 persons; 1st floor—hotel and diningroom, 300 persons; 2nd floor to 15th floors, inclusive, hotel, 60 persons per floor—; penthouse—and roof terrace, diningroom and cabaret, 234 persons; that the building is equipped with two 3 ft. 8 in. fireproof stairs from the roof bulkhead to the first floor; and

WHEREAS, the applicant now contends that it is proposed to use the enclosed portion of the penthouse story and the open terrace as a cabaret with a total occupancy of 150 persons; that the enclosed area will be used only during the winter months and the open terrace during the summer months, but at no time will both areas be used simultaneously; that the occupancy of 150 persons will be limited to each individual area at different times; that the stairways will accommodate 128 persons; that it is proposed to install an additional stairway leading to the 15th floor and from there, through an uninterrupted passage to the existing stairways at the 15th floor; that the combined capacity of the three stairways will equal 166 persons, which exceeds the number proposed for the penthouse floor; that in addition, the 15th floor and the lower floors have an allowable occupancy under the present Certificate of Occupancy of 60 persons per floor; that the stairs on the lower floors have an actual capacity of 98 persons and the surplus can easily be taken up from the penthouse floor in the event of emergency; that the present floor load capacity of the penthouse is under that required for restaurant occupancy; however, since the occupancy of both areas proposed is only 150 persons, it will in no way exceed the present floor loading capacity; that it is proposed in the area designated for dance floor use, that reinforcement be provided to insure support of at least 100 pounds per sq. ft.; that with these areas reinforced, any overloading factor will be removed; it is therefore requested the Board give favorable consideration to this appeal.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 307-44, objections 3 and 4, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

501-44-A

APPLICANT—Raymond Irrera, for Lillian M. Huber, owner (Agnes Gallagher, lessee).

SUBJECT—Appeal from a decision of the borough superintendent (previously denied; reopened January 9, 1945 re consideration of new proposal).

PREMISES AFFECTED—114-68 Mexico street, northwest corner of 115th avenue (Block 10392, Lot 23), St. Albans, Borough of Queens.

APPEARANCES—

For Applicant: Raymond Irrera and Joseph W. McGovern.

For Opposition: Michael N. Compson and others.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (501-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 114-68 Mexico street, northwest corner of 115th avenue (Block 10392, Lot 23), St. Albans, Borough of Queens, was denied by the Board on November 8, 1944; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar, for consideration based on a new proposal; and

WHEREAS, this case was reopened by vote of the Board on January 9, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, the decision of the borough superintendent, dated December 14, 1944 (amendment dated December 5, 1944), filed with Alt. Applic. 848-44, reads:

"6. Repeat Obj. #1. Proposed use of frame dwelling for a hospital is contrary to Sec. 4.2.1. as to height and area; see also Sec. 4.1.3. Subd. 6.

7. Repeat Obj. #2. Stair width, construction and enclosure to comply with Sec. 26-292.0.

a. Stairs less than required width, Sec. 6.4.1.2.

b. Stairs to be of incombustible material, Sec. 6.4.1.7.1.

c. Stairs to upper floors to lead to street, Sec. 6.4.1.11.

d. Above and below grade to be enclosed with 3 hr. fire rating materials, Sec. 6.4.1.8.1."

and

WHEREAS, the applicant states that the building is 2 stories and attic (27 ft. 6 in.) in height, 31 ft. 6 in. by 33 ft. in area, of class 4 construction, erected in 1909, located in a residence, D area district and used as a one family dwelling; and

WHEREAS, the applicant further states that it is now proposed to occupy the building as follows: cellar, boiler room, kitchen, dining room and mortuary, 5 persons; 1st floor, sanitarium and office, 9 persons; 2nd floor, dwelling, 4 persons; attic, storage, no persons; and

WHEREAS, the applicant contends that it is now proposed to use the 1st floor only of this building for a maternity sanitarium and in this connection, the cellar will be used as a kitchen, dining room, boiler room, coal room and mortuary; that the mortuary is a requirement of the regulations relating to the maintenance of private proprietary hospitals and sanatoria and consists of a room having a floor area of at least 80 sq. ft., provided with adequate ventilation, running water and a floor drain; that although such a mortuary is proposed, statistics show that it will seldom be used; that the first floor will consist of two patients rooms, one being the former living room accommodating 6 beds, the other the former dining room, accommodating 3 beds; that the former kitchen will be used as a delivery room and the former pantry as a nursery room; that the front porch will be used as an office of the sanitarium; that from the 1st floor, there are three means of egress; that the 2nd floor will be maintained for dwelling use for living quarters of the operators; that the attic will be maintained for storage purposes only; that the vacant portion of the plot, indicated on plans filed with this appeal as a garden, will be used as such with benches available for use of the nurses during summer weather; that the operations of the sanitarium will consist of the feeding and caring for prospective mothers and for the care of mothers and babies for a period of 10 days after delivery; that permits from the Department of Health and Department of Hospitals will be obtained; that the staff will consist of five registered nurses, in addition to the operator and two persons performing the domestic and dietary work; that the present two car garage will be maintained as an accessory use to the sanitarium; that by using the first floor only, the portion used for sanitarium will be less than 20 ft. above grade; that the building has an exterior wall construction that varies from the conventional type of frame construction, in that there is 4 in. of concrete on all sides of the building from the foundation to the roof rafters; that in view of the type of construction and the portion used for sanitarium to be limited to the 1st floor and cellar, the applicant requests that the decision of the borough superintendent be modified and permission granted to use the building for the occupancy requested; and

WHEREAS, the applicant contends as to Objection 7a, that the existing stairway serving the 2nd floor is 2 ft. 5 in. wide and since there will be no change in the 2nd floor occupancy, the present condition should remain unaltered; as to Objection 7b, that the existing stair of wood construction be permitted to remain, inasmuch as there is no change in the occupancy above the 1st floor and the first floor occupancy as a sanitarium does not offer any hazard; as to Objection 7c, permission is requested to permit access to the street through the living room and porch or to the side yard, as the occupants using the stairway will be the operator of the sanitarium and the help; as to Objection 7d, the present stair in the cellar is to be enclosed in 3 in. gypsum block partition plastered both sides, equipped with a fireproof self-closing door at the cellar level, thus completely separating any portion of the cellar from the upper floor; that it is requested the Board permit the balance of the stairway serving the dwelling occupancy on the 2nd floor, to remain an open stairway from the 1st floor level to the next intermediate platform and to accept the existing stud and plaster enclosure from the platform to the 2nd floor; and

WHEREAS, the premises and area have been inspected by a committee of the Board; and

WHEREAS, the Board deemed that considering the construction and proposed arrangement and use, that there was no justification for granting a variance of the Code provisions as cited.

Resolved, that the decision of the borough superintendent on Alt. Applic. 848-44, objections 6 and 7, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

577-44-A

APPLICANT—Joseph J. Furman, for Peoples Realty Corp., owner (Tom Mooney Hall Association, Inc., lessee).

SUBJECT—Application reopened and restored to calendar March 20, 1945 re Appeal from a decision of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—13-15 Astor place, northwest corner of Lafayette street, 136-146 East 8th street (10th and 11th floors); (Block 545, Lot 65), Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph J. Furman, Leonard Feldman and Abraham Bernkauft.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (577-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 13-15 Astor place, northwest corner of Lafayette street and 136-146 East 8th street (10th and 11th floors); (Block 545, Lot 65), Borough of Manhattan, was withdrawn on October 31, 1944; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on March 20, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, the decision of the borough superintendent, dated February 28, 1945, on Alt. Applic. 209-45, reads:

"1. Repeat. Stair capacity not adequate for specified number of persons on 11th floor sec. 6.4.1.1.B.C.

3. Repeat. New stair should be a fire tower sec. 6.5.1.B.C.

4. Minimum liveload of 100 lbs. should be specified for restaurant and meeting hall use on 10th floor and 11th floor and construction shown adequate to support such loads, Section C 26-344.0 Ad. Code."

and

WHEREAS, the applicant states the building is 11 stories (approximately 125 ft.) in height, 149 ft. 6 in. by 159 ft. 3 in. in area; of Class 1 construction; erected 1890; located in a business use, D area, district and used since January, 1943, as follows: Cellar, storage and boiler room; 1st floor, stores, 60 persons; 2nd to 9th floors, offices, 50 persons per floor; 10th floor, restaurant, 150 persons; 11th floor, meeting and ball room, 150 persons; proposes to be used and occupied as follows: Cellar, same; 1st floor, same; 2nd to 9th floors, offices, 100 persons per floor; 10th floor, restaurant and clubroom, 400 persons; 11th floor, meeting and ball room, 650 persons; and

WHEREAS, the applicant further states that it is now proposed to erect a new fireproof stairs, 5 ft. 6 in. wide from the 11th floor to 8th floor and 3 ft. 8 in. wide from 8th to

1st floor, to enclose same with fireproof partitions, equipped with fireproof, self-closing doors; and

WHEREAS, the applicant contends as to Objection 1 of the borough superintendent's decision, that for the 11th floor, the new stair and platforms will accommodate 118 persons; that two existing stairs each accommodate 42 persons, making a total capacity of 202 persons; that it is requested that the Board accept the tiled roof space of approximately 2000 sq. ft., which is separated from the 11th floor space by 6 in. terra cotta blocks, plastered both sides, having fireproof self-closing openings, as a horizontal exit, thus doubling the stair capacities to 404 persons; that inasmuch as the 10th and 11th floors will be used mostly at night and when the remaining floors are practically unoccupied, it is requested that the Board consider the 11th floor similarly to one wherein there would be uninterrupted passage to the street, such as a floor within 32 ft. from curb level under Special Occupancies and allow a total of 650 persons for this floor; that for the 10th floor, the new stair will accommodate 98 persons and the present two stairs 42 persons each, making a total of 182 persons; that by erecting a new 4 in. gypsum block partition plastered both sides, separating the space adjoining the present stairways from the main floor space, a horizontal exit will be created, thus doubling the stair capacities to 364 persons; it is requested that the Board allow 400 persons on this floor; that all stair capacities are computed in accordance with Section 6.4.1.1.a2; and

WHEREAS, the applicant contends as to Objection 3, that it is requested that the fire tower be waived and the new stairway be accepted, as it is impractical to create a fire tower, due to existing construction of the building and the inability of providing a straight line of stairs in a vertical position, as the terminal of the stair on the first floor must be in the present entrance lobby; and

WHEREAS, the applicant contends as to Objection 4, that the Board is requested to accept a liveload of 75 lbs. in lieu of 100 lbs. required; that the present cinder concrete arches are good for 75 to 96 lbs., depending on the spans between beams, and the steel beams and girders are good for a minimum of 75 lbs. in most places and slightly more in other places.

Resolved, that the decision of the borough superintendent on Alt. Applic. 209-45, Objections 1 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed stairway on the East 8th street side, as indicated on revised plans marked "Received March 28, 1945", shall be constructed and maintained and the exit from such stairway shall be re-arranged, so as to lead directly to East 8th street; that such stairway shall be enclosed in lawful partitions through all stories including the 11th floor; that the kitchen, shown on the 10th floor toward the Lafayette street side, shall be moved to some other location on the floor, so as not to block any means of exit; that the fire escape on Lafayette street shall have a run of stairs in place of the vertical ladder leading to the 11th floor; that the storage room on the East 8th street side on the 11th floor shall be so arranged that there will be an adequate passage at all times through same from the terrace at the 11th floor to the stair and elevator lobby; that the stair and elevator lobbies shall be separated from the meeting rooms by fireproof partitions with fireproof self-closing doors; that the number of persons permitted to occupy the 10th floor and 11th floor jointly shall not exceed 650 persons, but not over 450 persons at any time on the 11th floor; that the proposed new stairway may be accepted in lieu of the required fire tower; as to objection 4, that the liveload on the 10th and 11th floors shall not be less than 75 lbs. per superficial foot; that the fire escape shall be maintained in good condition, including the counterbalanced stair to grade; that the standpipe system shall be maintained in accordance with the requirements therefor; that the occupancy as herein provided for shall not be permitted until the requirements of this resolution are complied with; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

632-44-A

APPLICANT—Interborough Engineering Co., for Long Island Star-Journal, owner (Petrometer Corporation, lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner and a decision of the borough superintendent.

PREMISES AFFECTED—42-26 to 42-30 28th street, northwest corner of 42nd road (5th floor); (Block 422, Lot 32), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Ribelle Perotto.

For Administration: Peter Maher, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (632-44-A)

WHEREAS, Interborough Engineering Company for Long Island Star-Journal, owner (Petrometer Corporation, lessee), filed November 8, 1944, an appeal from an order of the fire commissioner and a decision of the borough superintendent, affecting premises 42-26 to 42-30 28th street, northwest corner 42nd road (5th floor); (Block 422, Lot 32), Long Island City, Borough of Queens; and

WHEREAS, order 4557-LF, issued by the fire commissioner April 3, 1940, and referred to in a decision of the fire commissioner dated October 20, 1944, reads:

"2. Remove all partitions not built of incombustible material as per Sections 263 and 270 of the Labor Law."

and

WHEREAS, a decision of the borough superintendent, dated March 27, 1945, on Misc. Applic. 883-45, reads:

"1. The erection of wood partitions in a fireproof factory is contrary to Sec. 270, Sub. 6, of the Labor Law."

and

WHEREAS, the applicant states the building is 5 stories (75 ft.) in height; 67 ft. 6 in. by 100 ft. in area; of Class 1 construction; erected in 1919; located in an unrestricted use, B area, Class 1½ height district, and used and occupied since 1919 as follows: cellar, boiler room and storage, 2 persons; 1st floor, office, 25 persons; 2nd floor, office, 100 persons; 3rd floor, dress manufacturing, 40 persons; 4th floor, machine shop, 15 persons; 5th floor, gauge manufacturing, 14 persons, for which no certificate of occupancy has been issued; that the building is equipped with a two source sprinkler system; that there are two 42 in. concrete fireproof enclosed stairs from the roof bulkhead directly to the street; and

WHEREAS, the applicant contends that the lessee of the 5th floor is engaged in manufacturing U. S. Navy equipment; that due to the man power situation, they have encountered great difficulty in securing help to meet the contracts on time; that to remove the wood partitions would further interfere with production; it is requested the Board permit the partitions to remain for the duration of the war at which time they will be replaced with metal partitions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Misc. Applic. 883-45, and that the appeal be and it hereby is *granted* as to Objection 1, *on condition* that the wood partitions on the 5th floor, as indicated on plans filed with this appeal marked "Received November 8, 1944," shall be removed or replaced by lawful partitions within two (2) years from the date of this resolution, and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 587-25-A.

634-44-A

APPLICANT—George D. Brown, Jr., for 227 East 56th Street Corp., owner.

MINUTES

SUBJECT—Appeal reopened February 20, 1945—re Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—227-229 East 56th street, north side, 260 ft. east of 3rd avenue (Block 1330, Lot 11), Borough of Manhattan.
APPEARANCES—
For Applicant: George D. Brown, Jr.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Resolution amended.
THE VOTE TO AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (634-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 227-229 East 56th street, north side, 260 ft. east of 3rd avenue (Block 1330, Lot 11), Borough of Manhattan, was granted by the Board on December 19, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, this appeal was reopened by vote of the Board, on February 20, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a decision of the borough superintendent, dated February 5, 1945, on Alt. Applic. 1257-44, reads:

"10. Bldg. should comply with Sec. 270 Labor Law. See Resol. Bd. S. & A. Cal. 634-44-A. Note that bldg. erected as a new bldg. except portions of side walls, under Alt. 286 of 1917.

a. From every floor there should be two exits remote from each other, one of which on every floor above the ground floor should be an interior or exterior enclosed stair and the other such a stair or a horizontal exit. Stairs should have a min. width of 44 in.

b. Stairs should lead to street or to a fireproof passage leading to street.

c. All exit doors opening on stairway should have a min. width of 44 in. and should swing in direction of egress and should not obstruct passage or stairs."

and

WHEREAS, the applicant states the building is six stories, (74 ft. 11 in.) in height; 50 ft. by 90 ft. in area; of Class 1 construction; erected 1887; located in a business use, B area, Class 1½ height district, and used and occupied since April, 1944, for the storage of antique furniture, with one person on each of the 1st, 2nd, 4th, 5th and 6th stories, and 10 persons on the 3rd story; that no change in use or occupancy is proposed; that the building is equipped with one 3 ft. 8 in. wide stair, enclosed in terra cotta blocks, equipped with kalamein self-enclosing doors and extending from the roof to the street, and one fire escape at the northwest corner, extending to the roof by stairs and to the yard by stairs with egress through the adjoining property by a gate in the fence; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant further states that the resolution adopted by the Board December 19, 1944, requires that in all other respects, the building and occupancy shall comply with the Labor Law and all other laws, rules and regulations applicable thereto; that the borough superintendent has determined that since more than 5 persons were employed in the work shop, the building should contain two interior stairs, as per Section 270 of the Labor Law; that it was the impression of the applicant that the Board in adopting the resolution, had agreed that the building as now constructed and occupied, did not constitute a fire hazard, inasmuch as there are never more than 10 persons in the work shop on the 3rd floor, which shop is immediately adjacent to the interior fire stair and since there is a well constructed exterior iron stairs at the rear, leading to the roof and through a wicket to the adjoining yard.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted on December 19, 1944, so that as amended it shall read:

"Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1257-44, objections 2 and 10, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the resolution adopted by the Board under Cal. 746-17-A, as to the second means of exit, shall be complied with and maintained; and *granted* only so long as the number of persons employed above the first floor shall at no time exceed a total of ten (10) persons, including those engaged in factory work; that while this condition maintains, the exits as indicated shall be accepted, in lieu of the requirements of the Labor Law; and that in all other respects, all laws other than the Labor Law applicable to the building and occupancy shall be complied with."

723-44-A

APPLICANT—Alfred Di Blasi, for Woodside Tool and Manufacturing Co., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—70-15 to 70-17 51st avenue, north side, 125 ft. east of 70th street (2nd floor); (Block 2440, Lots 48 and 49), Woodside, Borough of Queens.
APPEARANCES—
For Applicant: James P. Gangi and A. J. Coco.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (723-44-A)

WHEREAS, Alfred Di Blasi, for Woodside Tool and Manufacturing Company, owner, filed December 12, 1944, an appeal from a decision of the borough superintendent, affecting premises 70-15 to 70-17 51st avenue, north side, 125 ft. east of 70th street (2nd floor); (Block 2440, Lots 48 and 49), Woodside, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated November 30, 1944, on Alt. Applic. 1260-44, reads:

"1. Two remote exits from each floor area as required by section 270 (3) of the Labor Law not provided."

and

WHEREAS, the applicant states that the building is 2 stories (26 ft. 2 in.) in height, 49 ft. by 105 ft. in area, at first floor, 28 ft. 6 in. by 36 ft. in area at second floor, of class 3 construction, erected in 1921, located in an unrestricted use, C area, class 1½ height district and used and occupied since May 1943 as follows: First floor—toolmaking and manufacturing—15 persons; 2nd floor—office—3 persons; proposed to be used and occupied as follows: 1st floor—toolmaking and manufacturing—25 persons; 2nd floor—office—3 persons; that the building is equipped with one 3 ft. 8 in. iron stairs enclosed in stud partition, surfaced with wire lath and one inch cement mortar both sides, leading from the 2nd floor directly to the street, equipped with self-closing, fireproof one hour door and that a ladder and scuttle to the roof is provided; and

WHEREAS, the applicant contends that the existing 2nd floor is only 864 sq. ft. in area; that if another stairway is required, it would create a hardship, due to the area that would have to be used and the fact that no manufacturing is done on the second floor and no hazardous condition exists that would endanger the health of the three persons who occupy the second floor doing office work; that the existing 3 ft. 8 in. iron stair is sufficient for the three persons occupying the second floor; that if an emergency arises, quick exit may be had from the rear windows on the 2nd

floor, opening to the present roof of the one story portion of the building; that the building is used for manufacturing small airplane parts on the first floor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1260-44, objection 1, and that the appeal be and it hereby is *granted on condition* that the existing exit from the first floor directly to 51st avenue and the exit from the storage room and garage to 51st avenue shall be maintained; that doors shall be constructed within the openings leading from the factory to the storage room and storage room to the garage; that the ceiling of the one-car garage shall be fire-retarded; that as to the second floor, the existing primary means of exit shall be maintained and means shall also be provided to reach the roof through the rear windows, from both rear offices, and ladder of sufficient length to reach 51st avenue shall be maintained on the roof toward the westerly portion near the street; that the second story shall be used only for office purposes as proposed; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, and the building shall not be increased in height or area.

51-45-A

APPLICANT—American Chicle Co., owner.
SUBJECT—Appeal from a decision of the fire commissioner.
PREMISES AFFECTED—30-30 Thomson avenue, south side and 47th avenue, north side, from 30th place (Manly street) to 31st (Mount) street (ground, 1st, 2nd, 4th and 5th floors); (Block 277, Lot 1), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: John J. Morris and Herbert A. Lehman.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (51-45-A)

WHEREAS, American Chicle Company, owner, filed January 26, 1945, an appeal from a decision of the fire commissioner, affecting premises 30-30 Thomson avenue, entire block bounded by Thomson avenue, Mount street, Nelson avenue and Manly street (ground, 1st, 2nd, 4th and 5th floors); (Block 277, Lot 1) Long Island City, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, dated December 26, 1944, reads:

"We have your application dated December 21, 1944, requesting an amendment to the resolution of the Board of Standards and Appeals established March 15, 1921, permitting your employees to smoke in certain designated areas of your premises.

Your request must be denied for the reason that the Fire Commissioner is without authority to amend any resolutions made by the Board of Standards and Appeals."

and

WHEREAS, the applicant states that the building is 5 stories (80 ft.) in height, 200 ft. by 600 ft. in area, of class 1 construction, erected in 1919, located in an unrestricted use, A area, class 2 height district and used and occupied as follows: cellar—chewing gum manufacturing and storage—117 persons; 1st floor—chewing gum manufacturing, storage and office—242 persons; 2nd floor chewing gum manufacturing, storage and cafeteria—180 persons; 3rd floor—chewing gum manufacturing—374 persons; 4th floor—chewing gum manufacturing, lithographing, storage and office—200 persons; 5th floor—office—220 persons; that no change in use or occupancy is proposed; that the building is equipped with a two source sprinkler system, a standpipe system and an interior fire alarm system and that fire drills are maintained; that there are six 6 ft. wide fireproof stairs from street to roof; and

WHEREAS, the applicant states that permission is requested to amend the smoking permit issued to the cafeteria, pursuant to the resolution adopted by the Board under Cal. 759-20-S on March 15, 1921; that the cafeteria has been moved from the 5th floor to the 2nd floor and permission is requested to smoke in the cafeteria on the 2nd floor and to include the general offices on the 5th floor and the executive offices on the 1st floor, the reception room on the ground floor, the boiler and engine room, the tenant's office on the 4th floor, all as indicated on plans filed with this appeal; and

WHEREAS, the applicant contends that all partitions are of metal and glass; that the owner maintains an active fire organization, that is kept up to date at all times; that the plant is engaged in assembling and packaging of K rations and 10-in-1 rations in large quantities for the U. S. Army; that permission to smoke in the designated areas will assist the owners in their efforts to prevent smoking in any other portions of the manufacturing divisions; it is therefore requested that this appeal be granted; and

WHEREAS, Certificate of Occupancy 31623 permits the present use of the building with an occupancy of 576 persons on each of the basement to 4th floors inclusive and 220 persons on the 5th floor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the fire commissioner dated December 26, 1944, and that the appeal be and it hereby is *granted on condition* that no smoking shall be carried on except in the spaces as indicated on plans filed with this appeal marked "Received March 29, 1945," consisting of the enclosed offices and laboratory on the 1st floor, cafeteria on the 2nd floor, enclosed offices on the 5th floor, tenant's space on the 4th floor, the reception lobby on the ground floor and the boiler room and engine room in cellar; that such signs shall be posted as the fire commissioner shall direct, indicating spaces wherein smoking is permitted under this resolution; that the sprinkler system, standpipe system, interior fire alarm system and fire drills shall be maintained in accordance with the requirements therefor, and to the satisfaction of the fire commissioner; that this variance shall continue during the term of the present emergency; that this resolution shall be deemed superseding the resolution applicable to this building, adopted by the Board under Cal. 759-20-S, on March 15, 1921; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 565-40-S.

70-45-A

APPLICANT—Levy and Berger, for Josam Garage, Inc., owner (Armstrong Engineering Co., lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—151-165 35th street, north side, 100 ft. west of 4th avenue (1st floor); (Block 688, Lot 48), Borough of Brooklyn.
APPEARANCES—
For Applicant: Joseph Levy, Jr. and Herbert J. Johnson.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (70-45-A)

WHEREAS, Levy and Berger, for Josam Garage, Inc. owner (Armstrong Engineering Company, lessee), filed February 14, 1945, an appeal from a decision of the borough

superintendent, affecting premises 151-165 35th street, north side, 100 ft. west of 4th avenue (1st floor); (Block 688, Lot 48), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, re Alt. Applic. 130-45, dated February 13, 1945, reads:

"1. Approval of temporary occupancy as a factory for a period of 5 years with the privilege of reverting to the previous use as garage for more than 5 motor vehicles cannot be granted, as a possible change from the present zoning of unrestricted could make the original use a prohibited use for the new zoning designation. Denied."

and

WHEREAS, the applicant states that the building is one story (13 ft. 6 in.) in height, 200 by 100 ft. in area; Class 3 construction; erected in 1920; located in an unrestricted use, B area, Class 1½ height district; and used and occupied since 1921 as follows: Cellar, boilerroom; 1st floor, garage for more than five motor vehicles; proposed to be used and occupied: Cellar, boiler room, 1 person; 1st floor, temporary occupancy as factory for a period of at least 3 to 5 years and to revert to garage use for more than five motor vehicles; factory occupancy to consist of the manufacture of Aerosol Insecticide Dispensers—65 persons; and

WHEREAS, the applicant contends that the premises have been leased to contractors for the War Department, manufacturing Aerosol Insecticide Dispensers for the armed forces, for the prevention of malaria and other tropical diseases; that it is proposed to continue to manufacture these dispensers for the duration of the war and for the army of occupation and it is on this basis that the option to extend the lease was determined; that the building is located in an unrestricted use district and inasmuch as this temporary occupancy is for the war effort, it is requested the use as a garage for more than five motor vehicles be permitted upon termination or prior cancellation of lease between the owner and the tenant.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 130-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that if the factory is occupied for the use proposed, other than a garage for a temporary term of five years from the date of this resolution, the garage use may be reinstated at the end of such term, provided that meanwhile, the building is not increased in height or area and is in conformance with all requirements for such garage occupancy; that in the meantime, any gasoline storage system shall be sealed to the satisfaction of the fire commissioner.

77-45-A

APPLICANT—Fred F. French Management Co., Inc., lessee, for Fred F. French Investing Co., owner.

SUBJECT—Appeal from a decision of the fire commissioner.

PREMISES AFFECTED—340 East 43rd street, south side, 90 ft. west of Prospect place (Block 1335, Lot 37), Borough of Manhattan.

APPEARANCES—

For Applicant: Charles N. Blakeley and Harry Loeb Moston.

For Administration: Peter Maher, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (77-45-A)

WHEREAS, Fred F. French Management Co., Inc., lessee, for Fred F. French Investing Company, owner, filed February 16, 1945, an appeal from a decision of the fire commissioner, affecting premises 340 East 43rd street, south side, 90 ft. west of Prospect place (Block 1335, Lot 37), Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, dated January 17, 1945, reads:

"Disapproved: Reason

The fire alarm rules of the Board of Standards and Appeals require an approved interior fire alarm system to be installed in all premises where a Department of Health permit is required for the accommodation of more than 30 children."

and

WHEREAS, the applicant states that the building is 3 stories and basement (40 ft.) in height, 16 ft. 8 in. by 50 ft. in area; Class 3 construction; located in a residence use, B area, Class 2 height district; used and occupied: Cellar, ordinary; basement—nursery and kindergarten, 18 persons; 1st floor, school, 30 persons; 2nd and 3rd floors combined, dwelling—1 family; proposed to be used and occupied without change; that the building is equipped with one 27 in. wide wood stairs, enclosed in wood and plaster partitions, equipped with wood doors which are self-closing and lead from the roof bulkhead directly to the street; that there is also a scuttle and ladder provided to the roof; there are three fire escapes, one at the rear and two at the front, leading to the roof by a ladder and to the street by two exterior stairs at the front and to the yard at the rear; and

WHEREAS, the application to the Fire Department upon which the decision appealed from was based, stated that it was proposed to occupy the building for eighteen children of four to six years of age and thirty children over six years of age; that the application was for an existing occupancy and a renewal of permit by the Health Department; and

WHEREAS, the applicant contends that on December 27, 1944, violation was complied with by the installation of an additional toilet and ventilating duct to the rear yard; that a violation issued regarding the plastering of cellar ceiling was also complied with; that the cellar ceiling is now fire-retarded; that all violations placed by the Department of Housing and Buildings have been corrected; that on the plan filed with this appeal marked "Basement Floor Nursery & School", eighteen children of pre-school age use the rear classroom and the front playroom; that the rear classroom has a door opening directly to the rear yard and the playroom opens on a foyer with direct access up two steps to the street; that on the plan marked "First Floor Elementary School Rooms", the rear classroom leads directly to the exterior fire stairs, emptying into the rear yard; that the front classroom enters into the foyer hall, thence through the vestibule, down the exterior stairs to the street; that thirty children use these rooms; that the school has been operated for 12 years and up to this year, took no children under grade school age; that there are three paid instructors under the direction of the operator of the school; that fire drills are held at specified times, through the use of push-button alarm, which consists of a bell buzzer which can be distinctly heard on both floors of the school and on two upper floors of the building; that these are operated through four dry-cell batteries.

Resolved, that the decision of the fire commissioner, dated January 17, 1945, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that a substandard fire alarm system with dry-cell batteries, push buttons and six inch gongs satisfactory to the fire commissioner, shall be installed within the basement and the first floor stories; that such an alarm shall be used only in connection with fire drills which shall be held at least once every two weeks under the charge of competent instructors; that the existing exits as described herein and as indicated on plans filed with this appeal marked "Received February 16, 1945", shall be maintained; that all doors within the building used as nursery shall be made to swing in the direction of egress; that an additional door leading to the lobby or corridor shall be installed on the basement floor and the first floor toward the rear of such rooms; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, sub-

ject to the certificate of occupancy; that no children attending the nursery school shall remain overnight; that the total number of children shall not exceed 50.

105-45-A

APPLICANT—William Gold and Anthony M. De Rose, for Universal Metal Products Co., Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—351-361 Grand Concourse, west side, 131.40 ft. north of East 140th street and 350-358 Walton avenue (Block 2345, Lot 14), Borough of The Bronx.
APPEARANCES—
For Applicant: William Gold and Anthony M. De Rose.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (105-45-A)

WHEREAS, William Gold and Anthony M. De Rose, for Universal Metal Products Co., Inc., owner, filed March 3, 1945, an appeal from a decision of the borough superintendent, affecting premises 351-361 Grand Concourse, west side, 131.40 ft. north of East 140th street and 350-358 Walton avenue (Block 2345, Lot 14), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated February 2, 1945, on amendment to Alt. Applic. 16-45, reads:

"2: Exits must comply with Section 270 Labor Law."

and

WHEREAS, the applicant states that the building is two stories (39 ft.) in height, 142 ft. by 28 ft. and 34 ft. in area at 1st floor (at Grand Concourse level), 142 ft. and 100 ft. by 158 ft. in area at 2nd floor (at Walton avenue level), Class 3 construction; erected in 1926; located in an unrestricted use, A area, Class 1½ height district and used and occupied since 1943 as follows: cellar, boiler room; 1st floor, stores; 2nd floor, public garage; proposed to be used and occupied: cellar, boiler room; 1st floor—storage and factory, 25 persons; 2nd floor—factory—60 persons; that the building to be used for the manufacture of tools and dies, metal stamping and metal products; that it is equipped with one 3 ft. 8 in. iron stair, leading directly from the 2nd story to the street, enclosed in brick at the first story and metal lath and cement partitions on the 2nd story; and that stair enclosure is equipped with metal, self-closing doors; and

WHEREAS, Violation 933 issued March 8, 1943, was for changing the occupancy of 2nd floor from public garage to factory use, contrary to Certificate of Occupancy 957-26; and

WHEREAS, the applicant contends that the first story (Grand Concourse frontage) is of fireproof construction; that the 2nd story is of Class 3 construction; that the 2nd story on the Grand Concourse frontage for a depth of 31 feet, being the first floor on the Walton avenue frontage for a depth of 124 feet is separated and divided into two distinct areas by an 8-inch brick wall with fireproof doors; that there are three standpipe outlets on this floor; that there is a 4 ft. wide street stairway from the 2nd floor Grand Concourse frontage directly to the street, enclosed in an 8-inch brick wall at first story and wood stud with metal lath and cement plaster on the 2nd floor; that the present owners' business consists of manufacturing tools and dies, metal stamping and metal products, sixty persons engaged in war work; that the first floor on Grand Concourse will be used for office, storage space, showrooms and inspection; that no combustible materials are stored or manufactured; that the 2nd story on the Grand Concourse frontage has an average depth of 31 feet, being the first floor on the Walton avenue frontage for a depth of 124 is in fact two separate areas; that 80% of the building is actually a one-story building and has a ceiling covered with 26 gauge metal and on the Walton avenue front has two wide entrances equipped with sliding doors and a 3 ft. wide exit door will be provided in the sliding doors, leading directly to the street at Walton avenue; that as a secondary exit there is a 3 ft. 8 in. clear stairway directly to Grand Concourse, enclosed in brick; that the first floor on the Grand Concourse frontage will have two wide doors sufficient to allow an automobile truck to enter, one at the northerly and one at the southerly end of the premises, in each of which there will be two 3 ft. wide, 7 ft. high exit doors, directly to the street and in addition, a double door 6 ft. in width in the direct center of the building will be provided; it is submitted that the special and unique construction and layout of the building should be accepted for the present number of occupants and a variation of Section 270 of the Labor Law granted.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, on amendment to Alt. Applic. 16-45, objection 3, and that the appeal be and it hereby is *granted on condition* that the exits, as indicated on plans filed with this appeal marked "Received March 3, 1945", shall be maintained; that the stairway leading to Grand Concourse from the second floor may be enclosed in fire-retarded partitions within the second story; that the scuttle within the stair enclosure shall be maintained; that an additional scuttle shall be constructed near the Walton avenue side, adjacent to the north wall, with a double-rung ladder leading thereto, and an easy-opening device provided thereto; that the building shall not be increased in height and area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that a new certificate of occupancy shall be obtained.

117-45-A

APPLICANT—General Cable Corporation, lessee, for Schulte Realty Corporation, owner.
SUBJECT—Appeal from a decision of the fire commissioner.
PREMISES AFFECTED—47-09 to 47-51 Austel place (Anable avenue), northwest corner of 27th (Creek) street (Block 97, Lot 4), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Edward Pearman.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (117-45-A)

WHEREAS, General Cable Corporation, lessee, for Schulte Realty Corporation, owner, filed on March 5, 1945, an appeal from a decision of the fire commissioner, affecting premises 47-09 to 47-51 Austel place (Anable avenue), northwest corner 27th (Creek) street (Block 97, Lot 4), Long Island City, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, dated February 21, 1945, reads:

"In answer to your letter of February 16th requesting permission to designate smoking areas within your plant, we are without power to comply with your request.

It will be necessary for you to appeal to the Board of Standards and Appeals, Room 1015, Municipal Building, Manhattan, as this privilege was extended to the former occupant under conditions existing at the time of their occupancy."

and

WHEREAS, the applicant states the building is 3 stories and

penthouse (42 ft.) in height; 400 ft. by 100 ft. in area; of Class 1 construction; erected 1916; located in an unrestricted use, A area, Class 2 height district, and used and occupied since 1944 as follows: cellar, boiler room, 1 person; 1st floor, office, storage and receiving, 50 persons; 2nd floor, cafeteria, 10 persons; 3rd floor, manufacturing wire, 90 persons; penthouse, training offices and maintenance, 45 persons, and proposed to be used and occupied: cellar, same; 1st floor, same; 2nd floor, manufacturing wire and cafeteria, 120 persons; 3rd floor, manufacturing wire, 125 persons; penthouse, training offices and maintenance, 75 persons; that the building is equipped with a two source sprinkler system, a standpipe system and a fire alarm system; that there are five 48 in. wide reinforced concrete stairs leading directly to the street and three of which lead to the roof; and

WHEREAS, Certificate of Occupancy 8199, issued February 2, 1924, permits the use and occupancy as follows: 1st floor, garage and warehouse, 650 persons; 2nd floor, factory, 600 persons; 3rd floor, factory, 500 persons; penthouse, factory, 120 persons; and

WHEREAS, the applicant requests that appropriate smoking areas be designated in this plant; and

WHEREAS, the applicant contends that there are no areas now designated for smoking in the plant; that employees are not allowed to leave the building without special passes, due to plant protection purposes; that even if passes were issued, inclement weather would make any such arrangement practically impossible; that due to such restrictions, morale and production are suffering; that the product manufactured is field wire used by the U. S. Signal Corps.; that partitions are hollow tile construction; that fire extinguishers of the soda, pyrene and carbon dioxide types are located throughout the plant; that a well organized fire brigade is maintained; that a regular patrol system, consisting of 6 guards for each shift, is maintained at the plant.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* of the requirements of the Labor Law as cited in a decision of the fire commissioner dated February 21, 1945, and that the appeal be and it hereby is *granted on condition* that no smoking shall be carried on within the building, except in the enclosed office spaces and cafeteria on the 2nd floor, as indicated on plans filed with this appeal marked "Received March 5, 1945"; that this permission does not include smoking within the aisle space or the maintenance shop on the 4th floor; that such signs shall be posted as the fire commissioner shall direct, indicating spaces wherein smoking is hereby permitted; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 268-43-S; that the resolution previously adopted for the prior tenants under Cal. 505-43-S, shall be deemed superseded by this resolution; that this variance shall continue only during the term of the present emergency; that the two source sprinkler system and standpipe system shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner; that a certificate of occupancy shall be obtained.

138-45-A

APPLICANT—Elias K. Herzog, for 215 East 37th Street Corporation, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—213 East 37th street, north side, 180 ft. east of Third avenue (Block 918, Lot 10), Borough of Manhattan.
APPEARANCES—
For Applicant: Elias K. Herzog.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (138-45-A)

WHEREAS, Elias K. Herzog, for 215 East 37th Street Corporation, owner, filed March 9, 1945, an appeal from a decision of the borough superintendent, affecting premises 213 East 37th street, north side, 180 ft. east of Third avenue (Block 918, Lot 10), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated March 6, 1945, on amendment to Alt. Applic. 1847-44, reads:

"6. Fire escape shown cannot be accepted as building was erected after October 1, 1913. Two exits remote from each other are required from every floor area including cellar. Reconsideration denied."

and

WHEREAS, the applicant states the building is 8 stories (95 ft. 6 in.) in height; 29 ft. by 93 ft. in area at 1st floor; 29 ft. by 81 ft. in area at typical floor; of Class 1 construction; erected 1925, and located in an unrestricted use, B area, Class 1½ height district, now vacant; proposed to be used and occupied as follows: cellar, storage; 1st to 8th floors, factory, 50 persons each floor; that the building is equipped with a two source sprinkler system and that a standpipe system will be provided; that an interior fire alarm system will be provided and fire drills will be maintained; that the building is equipped with one interior stairs 3 ft. 8 in. wide of fireproof construction, leading from the roof bulkhead to the street and proposed to be equipped with one fire escape at the rear, extending to the roof by stairs and to the yard by a stair with egress from its termination through a fire passage to the street; that windows and door openings on the course of the fire escape will be fireproof, self-closing; that the building to the west is five stories and on the east there is no building; and

WHEREAS, the applicant contends that the building was erected in 1925, in accordance with the Labor Law and Certificate of Occupancy 10493 issued, permitting the use of the building throughout as a factory with 70 persons per floor; that in 1939, the Port Authority acquired part of the building in connection with the Midtown Tunnel Drive; that the portion acquired by the Tunnel Authority was demolished and it is now intended to alter the remainder for a useful occupancy; that the building is at present equipped with one 3 ft. 8 in. wide stairs, legal in every detail, and it is proposed to provide a fire escape in the rear as a secondary exit, with egress through a fire passage to the street; that the erection of additional stairs as required, would reduce the rentable area and due to the requirement for the use of more critical material and construction, it would jeopardize the chance of approval by the War Production Board for prosecution of the work.

Resolved, that the decision of the borough superintendent acting on amendment to Alt. Applic. 1847-44, Objection 6, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

141-45-A

APPLICANT—Sidney L. Strauss, for Mary Murphy, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—232 East 198th street, south side, 30.48 ft. east of Valentine avenue (1st floor); (Block 3301, Lot 51), Borough of The Bronx.
APPEARANCES—
For Applicant: Sidney L. Strauss.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn .. 4
Negative: 0

THE RESOLUTION (141-45-A)

WHEREAS, Sidney L. Strauss, for Mary Murphy, owner, filed March 10, 1945, an appeal from a decision of the bor-

ough superintendent, affecting premises 232 East 198th street, south side, 30.48 ft. east of Valentine avenue (1st floor); (Block 3301, Lot 51), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated March 23, 1945 on amendment to Alt. Applic. 109-45, reads:

"1. No frame building may be used for business purposes. (Sec. 4.2.1). Reconsideration denied.

4. Lawful outer courts or side yards should be provided as per Article 4, Sec. 12a, zoning resolution. Rooms are not properly ventilated where marked. Reconsideration denied. Walls enclosing side yards used for ventilation of living rooms on 1st floor may not be extended. (Sec. 18 zoning resolution.)"

and

WHEREAS, the applicant states the building is 2½ stories (36 ft.) in height; 22 ft. by 73 ft. in area at 1st floor; 21 ft. by 60 ft. in area at typical floor; of Class 4 construction; erected 1905; located in a business use, B area, Class 1¼ height district and used and occupied since 1905 as follows: basement boiler and storage room; 1st floor, dwelling, one family; 2nd and attic, dwelling, one family; that the building is equipped with two 3 ft. wide interior wood stairs, enclosed in partitions of wood studs, lath and plaster, equipped with wood doors which are not self-closing and a ladder and scuttle to the roof are provided; and

WHEREAS, the applicant states that it is proposed to create a store in the front portion of the building, as indicated on plans filed with this appeal; that all new construction will be in accordance with requirements of law; that the entire business portion created will be separated from the dwelling portion with fire retarded walls and ceiling; and

WHEREAS, the applicant contends that in this district which is zoned for business use, a number of buildings have been improved in a similar fashion; it is therefore requested that the Board permit the alteration as proposed.

Resolved, that the decision of the borough superintendent, acting on amendment to Alt. Applic. 109-45, objections 1 and 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the existing court shall be maintained; that the proposed extension shall be constructed of Class 3 construction and that the store may be extended within the present front portion of the building, provided the walls and ceilings of such portion used for business occupancy are fire-retarded with metal lath and one-inch cement plaster; that the cellar below shall be similarly fire-retarded; that the building shall not be further increased in height or area and that in all other respects, shall comply with all laws, rules and regulations applicable thereto; that the requirements of Sections 12a and 18 shall be complied with, as to any court for ventilation in connection with any living-room proposed in the proposed extension to the building.

164-45-A

APPLICANT—Western Electric Co., Inc., lessee, for Packard Motor Car Co., owner.

SUBJECT—Appeal from a decision of the fire commissioner.

PREMISES AFFECTED—783-787 11th avenue, west side, between West 54th street and West 55th street, 617 West 54th street and 606-614 West 55th street (1st, 3rd, 5th, 6th, 7th and 8th floors); (Block 1102, Lot 29), Borough of Manhattan.

APPEARANCES—

For Applicant: George F. Knapp and Vincent McLean.

For Administration: Peter Maher, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn .. 4

Negative: 0

THE RESOLUTION (164-45-A)

WHEREAS, Western Electric Company, Inc., lessee, for Packard Motor Car Co., owner, filed March 22, 1945, an appeal from a decision of the fire commissioner, affecting premises 783-787 11th avenue, west side, between West 54th and West 55th streets, 617 West 54th street, 604-614 West 55th street (1st, 3rd, 5th, 6th, 7th and 8th floors); (Block 1102, Lot 29), Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner dated February 20, 1945 reads:

"In reply to your request for a permit to smoke in several non-factory areas in the above factory building, you are advised that it is not the practice of this Department to issue permits for smoking in any portion of a factory building except as provided for in the Smoking Rules of the Board of Standards and Appeals and which do not apply in these premises.

Your request must therefore be denied.

An appeal from this decision may be filed with the Board of Standards and Appeals within 30 days."

and

WHEREAS, the applicant states that the building is 8 stories (100 ft.) in height, 225 ft. by 200 ft. in area, of class 1 construction, erected in 1928, located in an unrestricted use, A area class 2 height district and used and occupied as follows: cellar—storage and service—50 persons; 1st floor—auto sales and service—office and shipping—40 persons; 2nd floor—auto sales and service—152 persons; 3rd floor—manufacturing electronic equipment and instrument assembly—376 persons; 4th floor—manufacturing electronic equipment and instrument assembly—520 persons; 5th floor—office, cafeteria, recreation and first aid—505 persons; 6th floor—manufacturing electronic equipment and assembly of instruments and offices—628 persons; 7th floor—manufacturing electronic equipment, instrument assembly and storage—330 persons; 8th floor—manufacturing electronic equipment, instrument assembly, packing and testing—393 persons; that no change in use or occupancy is proposed; that the building is equipped with a two source sprinkler system, a standpipe system, an interior fire alarm system and that fire drills are maintained; that there are three fireproof stairs from the roof to the street, 3 ft. 8 in. in width; and

WHEREAS, the applicant states that permission is requested to smoke in the employment office area on the first floor, the watch and fire headquarters on the 3rd floor, the dining room, recreation area, doctor's office, the private offices in the southeast corner and the private office and conference room in the southwest corner, all on the 5th floor, the four private offices along the south wall on the 6th floor, the private offices in the southeast corner of the 7th and 8th floors and the three private offices near the northeast corner of the 8th floor, all as indicated on the plans filed with this appeal; that the partitions separating the rooms proposed for smoking from the adjacent work spaces are 3 in. gypsum block, plastered both sides, or walls of superior fire rating, except that the southwest office and conference room on the 5th floor are enclosed by steel and glass office partitions to the ceiling; that the employee's dining room and recreation area are separated from adjacent general office space by fire-resistive walls; the employment offices on the 1st floor are isolated from the remainder of the building by fire-resistive walls; that ample fire extinguishers and waste receptacles are provided in the employee's dining room and recreation area; that the chairs, tables and other furniture in the dining room are of sturdy wood and metal construction and there are no flammable drapes in this room; that in the recreation area, the drapes are flameproofed; that in the event permission to smoke is granted, suitable receptacles for smoking waste will be provided and supervision maintained, to assure that smoking wastes are properly extinguished and are not carried out into other areas; that the lunch periods are of half hour duration and are supplemented by two 10 minute rest periods, which are staggered to assure ample space for employees in the dining room and recreation area; and

WHEREAS, the applicant contends that the plant operates 24 hours a day, six days a week, manufacturing electronic equipment, critically needed by the Armed forces; that as

the work involves both physical and mental strain, an opportunity should be afforded employees to smoke and relax in designated areas adequately protected against fire hazard; that where certain specific rooms are set aside for recreation and smoking, employees limit their smoking to those areas under responsible supervision; that as the areas for which permission to smoke is requested are equipped with an automatic sprinkler system and adequate fire extinguishers and are at all times safeguarded and supervised the granting of permission to smoke would not constitute a hazard; that present labor conditions are such that it is difficult to procure and obtain the maximum number of employees essential to full production; that if the permission to smoke as herein requested is denied, it is expected that production will be seriously curtailed, that employees may seek other employment and an actual stoppage of work may even occur.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the fire commissioner dated February 20, 1945, and that the appeal be and it hereby is *granted on condition* that no smoking shall be carried on throughout the building, except in the spaces as proposed and indicated on plans filed with this appeal, marked "Received March 22, 1945", and under such conditions in such spaces as are proposed; that such signs shall be posted as the fire commissioner shall direct, indicating spaces wherein smoking is hereby permitted; that this variance shall continue only during the term of the present emergency; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 51-29-S; that sprinkler and standpipe systems and other fire-fighting devices shall be maintained as the fire commissioner shall direct.

170-45-A

APPLICANT—New York City Housing Authority, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—Block bounded by East Houston street, to East 6th street and between Avenue D and East River Drive (Lillian Wald Houses); (Block 356, Lot 1), Borough of Manhattan.
APPEARANCES—
For Applicant: John P. Riley and Fred A. Severud.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn .. 4
Negative: 0

THE RESOLUTION (170-45-A)

WHEREAS, New York City Housing Authority, owner, filed February 26, 1945 an appeal from a decision of the borough superintendent affecting premises: Block bounded by East Houston street, East 6th street, Avenue D and East River Drive (Block 356, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated February 6, 1945, relating to N. B. Applications 214 to 230-44, reads:

"This refers to your letter of February 2, 1945, regarding the approval of incinerator hopper doors opening directly upon the public halls.

You are advised that this Department will not approve such an installation without the installation of a one hour door on the public hall in addition to the hopper door."

and

WHEREAS, the applicant states that the buildings in question will be class 1 construction, four of which will be ten stories and twelve 13 stories in height, occupied as multiple dwellings for 1805 families, located in a residence and retail use, D area class 1 height district; and

WHEREAS, the applicant contends that the incinerators are of non-fuel fired type and therefore not subject to the same degree of heat or fire hazard as fuel oil fired incinerators; that the incinerator openings will be provided with self-closing hopper doors and frames having a one hour fire test rating and therefore it is unnecessary to add any further protection; that in accordance with the code, any hopper service door placed a foot or more off the required lines of egress travel would be acceptable without the use of a protective door; that this could not, therefore, be construed to give any more protection to the egress enclosure in which most incinerator openings are located; that in buildings where such protective doors have been installed, said doors have not only been a continual nuisance to the tenants by interfering with the convenient operation of the hopper door but also have been the cause of people spilling refuse, thereby creating an unsanitary condition; that people's clothes become soiled every time they use the incinerator, as they must lean against the protective door to hold it open; that in general, this additional door is very impractical; that most buildings heretofore using this protective door have been of the nonfireproof construction, whereas all these buildings will be class 1 fireproof structures.

Resolved, that the decision of the borough superintendent, acting on N.B. Applications 214 to 230-44, inclusive, as to incinerator hopper doors, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed incinerator hopper assembly of the type approved by the Board, as meeting the requirements for one-hour rate may be installed.

171-45-A

APPLICANT—New York City Housing Authority, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—Block bounded by East Houston street, to East 6th street and between Avenue D and East River Drive (Lillian Wald Houses); (Block 356, Lot 1), Borough of Manhattan.
APPEARANCES—
For Applicant: John P. Riley and Fred A. Severud.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn .. 4
Negative: 0

THE RESOLUTION (171-45-A)

WHEREAS, New York City Housing Authority, owner, filed February 26, 1945 an appeal from a decision of the borough superintendent affecting premises: Block bounded by East Houston street, East 6th street, Avenue D and East River Drive (Block 356, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated February 6, 1945, on N. B. Applications 214 to 230-44, reads:

"This refers to your letter of February 2, 1945, regarding the use of a minimum total thickness of concrete columns of 11½ inches.

You are advised that this Department may not approve a reinforced concrete column less than 12 inches in minimum dimension."

and

WHEREAS, the applicant states that the buildings in question will be class 1 construction, four of which will be ten stories and twelve will be 13 stories in height, occupied as multiple dwellings for 1805 families, located in a residence and retail use, D area class 1 height district; and

WHEREAS, the applicant contends that the Building Code provides in Section 8.5.26, that principal reinforced concrete columns shall have a minimum total thickness of 12 inches; that the American Concrete Institute Regulations for Reinforced Concrete which were the result of a study made by

the Joint Committee of the American Concrete Institute, reflect later thinking in the field of concrete and reinforced concrete than the Building Code; that Section 1101 of the Regulations adopted by the American Concrete Institute states in part: "Principal columns in buildings shall have a minimum diameter of 12 inches, or in the case of rectangular columns, a minimum thickness of 10 inches, and a minimum gross area of 120 square inches."; that it is proposed to use principal columns having a minimum dimension of 11½ inches, square columns having, therefore, a gross area of 132 square inches; that the minimum dimension and minimum area proposed are above the minimum adopted by the American Concrete Institute; that the reinforcing design of the columns is based on the actual cross section area, thus providing adequate safety; that the use of 11½ inch columns will prove considerably more economical and practicable, because of the elimination of waste in the construction of the forms, and in addition by providing more available space; that in view of the fact that the recommended practices as adopted in 1941 by the American Concrete Institute are generally accepted in structural design, it is requested that this appeal be given favorable consideration; and

WHEREAS, the applicant proposes that the columns be 11½" square and that the proposed dimensions are within the limitations for rectangular columns as provided in Sec. 1101 of the American Concrete Institute's Building Regulations for Reinforced Concrete, ratified July 21, 1941 (AC1 318-41); and

WHEREAS, the columns in all other respects will be designed and proportioned for the loading and restraint conditions in accordance with the pertinent provisions and stresses of the Administrative Building Code.

Resolved, that the decision of the borough superintendent, acting on N.B. Applications 214 to 230-44, inclusive, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the construction shall be substantially as proposed and shall be designed, in accordance with the foregoing clause.

262-44-A

APPLICANT—Irving M. Fenichel, for General Linen Supply and Laundry Co., owner (Cascade Laundry, lessee).

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—557-575 Marcy avenue (553-563 displayed) and 86-102 Stockton street, southeast corner (Block 1747, Lots 1-7, inclusive and Lots 60-69, inclusive), Borough of Brooklyn.

APPEARANCES—

For Applicant: Irving M. Fenichel.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (262-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 557-575 Marcy avenue (553-563 displayed) and 86-102 Stockton street, southeast corner (Block 1747, Lots 1-7, inclusive and Lots 60-69, inclusive), Borough of Brooklyn, was granted by the Board on May 23, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of May 23, 1944, so that as amended, the resolution shall read:

"Resolved, that the decision of the borough superintendent, acting on Misc. Applic. 102-44, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* to permit the installation of the additional one thousand (1,000) gallon tank, constructed and maintained as proposed, *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the system shall comply in all other respects, with the approval of the Board under Cal. 1047-41-SA; and, *granted* only so long as the dry-cleaning is accessory to the main use as a laundry.

Resolved further, that the decision of the borough superintendent acting on Misc. Applic. 102-44, Objection of April 2, 1945, be and it hereby is *modified* so as to permit a tank of the capacity of 550 gallons to be installed and maintained in lieu of the 275 gallon tank covered under the resolution adopted by the Board under Cal. 1047-41-SA; that the additional tank hereinbefore permitted with a capacity of 1,000 gallons may be increased to 1500 gallons."

640-44-A

APPLICANT—Charles A. Levitt, for 114 North 4th Street Corporation, owner; Lewis Steel Products Corporation, lessee.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—76-116 North 4th street, south side, from Wythe avenue to Berry street, 203 Wythe avenue and 176-180 Berry street (Block 2350, Lots 4-13 inclusive), Borough of Brooklyn.

APPEARANCES—

For Applicant: Charles A. Levitt.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (640-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 76-116 North 4th street, south side, from Wythe avenue to Berry street, 203 Wythe avenue and 176-180 Berry street (Block 2350, Lots 4-13 inclusive), Borough of Brooklyn, was granted by the Board on March 13, 1945, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 13, 1945 by adding thereto:

"that a portion of the wall to the east of the proposed conveyor structure may be constructed of masonry instead of corrugated steel as proposed and as indicated on revised plans marked "Received April 3, 1945".

ZONING CASES

170-37-BZ

APPLICANT—Hermine Corliss, owner.
SUBJECT—Application for consideration—reopening and extension of time and permit—re Application (decision of the commissioner of buildings) previously granted on condition under section 21 of the zoning resolution permitting in a business use district, the erection and maintenance of a gasoline service station for a temporary term of ten years.
PREMISES AFFECTED—79-05 Little Neck road, southeast corner of Union turnpike (Block 12, Lots 4, 5 and 6), Floral Park, Borough of Queens.
APPEARANCES—
For Applicant: Saul Stenlauf, William O. Staber, Hermine Corliss and Albert T. Kaufman.
For Opposition: Alfred Gross.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened, time and permit extended.
THE VOTE TO REOPEN AND EXTEND TIME AND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (170-37-BZ)

WHEREAS, this application, under section 21 of the zoning resolution, permitting in a business use district the erection and maintenance of a gasoline service station, affecting premises 79-05 Little Neck road, southeast corner of Union turnpike (Block 12, Lots 4, 5 and 6), Floral Park, Borough of Queens, was granted by the Board April 12, 1938, on certain conditions; and

WHEREAS, on October 11, 1938, plans were approved by the Board, in accordance with the resolution of April 12, 1938; and

WHEREAS, time was extended to obtain permits and complete the work, on October 3, 1939 and October 8, 1940; and

WHEREAS, on March 18, 1941, under section 7f of the

zoning resolution, the permit was extended for a term of ten (10) years; and

WHEREAS, a further extension of time to obtain permits and complete the work, was granted on May 5, 1942, June 8, 1943 and May 9, 1944; and

WHEREAS, the applicant requested a further extension of time and a further extension of the permit; and

WHEREAS, the Board deemed that the time to complete should be extended as well as the term of the variance, in view of the conditions that have prevailed under which no construction could be done, as to a building deemed unessential for the war effort.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of April 12, 1938, as amended through May 9, 1944, only in so far as it has reference to the term of the permit and the time within which permits are to be obtained and work completed, so that as amended, these portions of the resolution shall read:

"*Granted* under section 7f for a temporary term of ten (10) years from the date of this *amended* resolution; that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolutions of April 12, 1938 and October 11, 1938, shall be complied with and that a certificate of occupancy shall be obtained (Permit 969-37)."

1015-41-BZ

APPLICANT—Socony-Vacuum Oil Company, Inc., owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted under section 7c of the zoning resolution, permitting partly in a business use and partly in a residence use district, the extension and reconstruction of an existing gasoline service station.

PREMISES AFFECTED—1200 Victory boulevard and 1262 Clove road, southwest corner (Block 651, Lots 8 and 12), West Brighton, Borough of Richmond.

APPEARANCES—

For Applicant: Stanley L. Clarke.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (1015-41-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting partly in a business use and partly in a residence use district, the extension and reconstruction of an existing gasoline service station, affecting premises 1200 Victory boulevard and 1262 Clove road, southwest corner (Block 651, Lots 8 and 12), West Brighton, Borough of Richmond, was granted by the Board on May 5, 1942, on certain conditions; and

WHEREAS, plans were filed with the Board by the applicant under the terms of the resolution and were approved on April 3, 1943; and

WHEREAS, on April 4, 1944, time was extended to obtain permits and complete the work and the applicant requested a further extension of time for the same purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of May 5, 1942, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of May 5, 1942, shall be complied with and that a certificate of occupancy shall be obtained."

890-42-BZ

APPLICANT—Socony-Vacuum Oil Co., Inc., owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district, the alteration and extension of an accessory building (used as office, lubritory, car washing, brakes and repairs) located upon a plot occupied as a gasoline service station and also upon the unrestricted use part of the plot used for parking more than five vehicles.

PREMISES AFFECTED—378-394 Coney Island avenue, 86-90 Kermit place, southwest corner and 843-849 Caton avenue, northwest corner (Block 5322, Lots 80 and 84); (Lot 84 was formerly Lots 84 and 85), Borough of Brooklyn.

APPEARANCES—

For Applicant: Stanley L. Clarke.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (890-42-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district, the alteration and extension of an accessory building (used as office, lubritory, car washing, brakes and repairs) located upon a plot occupied as a gasoline service station and, also, upon the unrestricted use portion of the plot used for parking more than five (5) motor vehicles; premises 378-394 Coney Island avenue, 86-90 Kermit place, southwest corner and 843-849 Caton avenue, northwest corner (Block 5322, Lots 80 and 84); (Lot 84 was formerly Lots 84 and 85), Borough of Brooklyn, was granted by the Board on April 27, 1943, on certain conditions; and

WHEREAS, the plans required to be filed with the Board under the resolution adopted April 27, 1943, were duly approved on July 13, 1943; and

WHEREAS, on April 4, 1944, time was extended to obtain permits and complete the work and the applicant requested a further extension of time for the same purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of April 27, 1943, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of April 27, 1943, shall be complied with and that a certificate of occupancy shall be obtained."

(Remaining minutes of the meeting of April 10, 1945 will be printed in the Bulletin of April 24, 1945.)

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

APRIL 24, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, April* 24, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

25-45-BZ—Application, January 17, 1945, under sections 7c, 7e and 21 of the zoning resolution, of Paul Friedman, applicant, on behalf of Tuscan Dairy Farms, Inc., owner (Lakewood Farms, Inc., lessee), to permit in a residence use district, the change of occupancy from existing garage, milk distribution station and office to garage for more than five motor vehicles, offices, storage of insulating and roofing materials and indoor loading platform; premises 211-213 (205-213 displayed) Highland place, east side, 260 ft. north of Atlantic avenue (Block 3959, Lot 7), Borough of Brooklyn.

106-45-BZ—Application, March 5, 1945, under section 21 of the zoning resolution, of James E. Casale, applicant, on behalf of 18 East 71st Corp., owner, to permit in a restricted retail use B area district, the change of occupancy of a residence building to a private hospital, the building occupying more than 65 per cent of the lot area; premises 18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

93-45-BZ—Application, February 24, 1945, under section 21 of the zoning resolution, of Seelig and Finkelstein, applicants, on behalf of A. Milder and Sons and Trustees of the Leake and Watts Orphan House in the City of New York, owners, to permit in a retail use and D area district, the change of occupancy of an existing residence building to a commercial building covering more than 55% of the area of the lot; premises 233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

330-29-BZ—Application of Lama and Proskauer, applicants, on behalf of Hannah Harmon, owner, reopened January 23, 1945, under section 7f of the zoning resolution, to permit in a business and residence use district, the continued use of a gasoline service station beyond the temporary period granted by the Board of Standards and Appeals, under Cal. 330-29-BZ, Vol. I; premises 70-58 to 70-66 Kissena boulevard and 153-08 to 153-18 Vleigh (70th) road, southwest corner (Block 6697; Lot 1), Flushing, Borough of Queens.

660-44-BZ—Application, November 21, 1944, under sections 7a and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Doris Gordon, owner, to permit in a residence use district, the change of occupancy on first story of a store, office and residence building from store, apartment and garage to stores; premises 200 East Tremont avenue and 1884 Monroe avenue, southwest corner (Block 2804, Lot 7), Borough of The Bronx.

136-45-BZ—Application, March 9, 1945, under sections 7i and 7A of the zoning resolution, of Paul Friedman, applicant on behalf of William A. White, Jr. (as executor and trustee under will of William A. White, deceased) and Nettie H. White, owners (General Outdoor Advertising Co., Inc., lessee), to permit in a business use district, the erection of an automobile showroom and salesroom and motor vehicle repair shop, incidental to salesroom and showroom only, with driveway entrance more than 25 ft. from Merrick boulevard, premises 224-01 to 224-09 Merrick boulevard and 133-29 to 133-37 224th street, northeast corner (Block 12963, Lot 308), Laurelton, Borough of Queens.

109-43-BZ—Application, March 12, 1943, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Samuel Sym, owner, to permit in a business use district, the extension in area of a building used as a wet wash laundry; premises 64-08 Perry avenue, south side, 47.73 ft. east of Willow avenue (Block 2716, part of Lot 12), Maspeth, Borough of Queens.

607-40-BZ—Application of John H. W. Krogmann, applicant, on behalf of Wells-Smith Corporation, owner (John F. Dubar, lessee), reopened March 27, 1945, for consideration as to extension of variance—Application previously granted on condition, under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 89-16 to 89-32 Sutphin boulevard, west side, 384.11 ft. north of Jamaica avenue (Block 9676, Lot 13), Jamaica, Borough of Queens.

23-45-BZ—Application, January 17, 1945, under sections 7c and 21 of the zoning resolution, of M. Martin Elkind, applicant, on behalf of Santa Fazzini, owner, to permit in a residence use D area district, the extension of a garage for more than five motor vehicles (trucks of the owner) without providing the rear yard required by the zoning resolution; premises 107-28 157th street, west side, 250 ft. south of 107th avenue (Block 10135, Lots 39, 41, 42 and 43), South Jamaica, Borough of Queens.

796-23-BZ—Application, of Lama and Proskauer, applicants, on behalf of 1507-1535 Coney Island Avenue Corporation, owner, reopened October 10, 1944, under section 21 of the zoning resolution, to permit in a business use district, the alteration of a garage and gasoline service station (previously granted by the Board) to include a room for display and sale of new and used cars; premises 1507-1537 Coney Island avenue and 1101-1111 Avenue L, northeast corner (Block 6722, Lot 49), Borough of Brooklyn.

123-45-BZ—Application, March 5, 1945, under section 21 of the zoning resolution, of Benjamin H. Whinston, applicant, on behalf of Young Israel Synagogue of Claremont Parkway, Inc., owner, to permit in a B area district, the conversion and extension in area of a building now occupied as a two family dwelling into a synagogue without complying with the area requirements for a B area district; premises 1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2784, Lot 2), Borough of The Bronx.

Appeals from Administrative Decisions

124-45-A—1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2784, Lot 2), Borough of The Bronx.

107-45-A—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

94-45-A—233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

731-44-A—38-38 9th street (Hamilton street), west side, 244 ft. south of 38th avenue (Freeman avenue); 2nd and 3rd floors (Block 476, Lot 1), Long Island City, Borough of Queens.

CALENDAR

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (288-44-A)

WHEREAS, Wabash Appliance Corporation, lessee, for Carroll Street Realty, Incorporated, owner, filed May 10, 1944, an appeal from an order of the fire commissioner, affecting premises 335 Carroll street, north side, 230 ft. east of Hoyt street (Block 444, part of Lot 18), Borough of Brooklyn; and

WHEREAS, Order 96877-LC, issued by the fire commissioner April 14, 1944, reads:

"You are hereby notified that an inspection of the above premises, used to store and use lacquers, thinners, etc., shows that the following must be done before the permit requested by you can be issued:

FORTHWITH

1. Discontinue delivery of lacquer from drums into dipping tanks under pressure and provide tanks of not more than 60 gallons individual capacity, designed, constructed and approved by the Board of Standards and Appeals."

and

WHEREAS, the applicant states the building is 3 stories in height; 60 ft. by 100 ft. in area; of Class 3 construction; erected 1883; located in an unrestricted use, A area district and used as follows: cellar, manufacturing incandescent lamps and storage, 8 persons; 1st floor, manufacturing incandescent lamps, 30 persons; 2nd floor, same, 15 persons; 3rd floor, same, 80 persons; that the building is equipped with a one source sprinkler system; that the building is equipped with one 43 in. wide wood stairs with soffits protected by metal lath and cement plaster reinforced concrete backing, enclosed in brick partitions, equipped with metal self-closing doors and extending from roof bulkhead direct to street, and one fire escape extending from the top story to the yard by stairs with egress through the adjoining building; that windows on the course of the fire escape are glazed with wire glass and steel sash; and

WHEREAS, the applicant contends that it uses air pressure of not more than 7 lbs., which is introduced into 53 gallon lacquer drums for the purpose of sustaining a constant level of lacquers in an open dip tank; that the dip tank is an open shallow tank, 150 gallons capacity, constructed of stainless steel, 5 ft. by 8 ft. in area, and varying in depth from 8 in. in front to 2½ in. in back, with an exhaust system for lacquer fumes and equipped with a completely automatic CO_2 fire extinguishing system; that there are two or more conveniently placed hand operated CO_2 extinguishers maintained adjacent thereto; that from 50 to 100 gallons of lacquer are used per day; that two of the drums are connected to a common air line and a common lacquer line; that each drum is equipped with individual valves for air and lacquer; that in addition, there is a reducing valve and a master valve on the common air line and a master valve on the dip tank on the common lacquer line; that the drums are Underwriter's approved and capable of sustaining from 3 to 4 times the pressure used; that the air pump is not capable of supplying more than 10 lbs. pressure; that only one drum is in operation at a time, the valves to the 2nd drum being closed; that before opening the valves to the second drum, all valves to the first drum are closed; that the CO_2 tanks are kept loaded at all times and regularly checked for workability.

Resolved, that Order 96877-LC issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Item 1, *on condition* that not more than two (2) drums shall be maintained as proposed and as indicated on plans filed with this appeal marked "Received May 13, 1944"; that a mechanical float or other device shall be maintained in the dipping tank to prevent overflow by stopping the flow of lacquer from the drums; that such overflow device and the entire equipment shall be maintained to the satisfaction of the fire commissioner; that the drums shall be constructed under specifications of the Interstate Commerce Commission; that approved fire doors shall be maintained at the passage indicated to the adjoining building; that the sprinkler sys-

tem shall be maintained in accordance with the requirements and to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

REGULAR MEETING

TUESDAY MORNING, APRIL 17, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, April 10, 1945, and Tuesday afternoon, April 10, 1945, were approved, as printed in Bulletin No. 16, Volume 30.

ZONING CASES

330-29-BZ

APPLICANT—Lama and Proskauer, for Hannah Harmon, owner.

SUBJECT—Application reopened January 23, 1945 (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business and residence use district, the continued use of a gasoline service station, beyond the temporary period granted by the Board of Standards and Appeals under Cal. 330-29-BZ.

PREMISES AFFECTED—70-58 to 70-66 Kissena boulevard and 153-08 to 153-18 Vleigh road, southwest corner (Block 6697, Lot 1), Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 24, 1945 at 10 A. M., pending an inspection by a committee of the Board.

660-44-BZ

APPLICANT—Henry Nordheim, for Doris Gordon, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7a and 21 of the zoning resolution, to permit in a residence use district, the change of occupancy on first story of a store, office and residence building from store, apartment and garage to stores.

PREMISES AFFECTED—200 East Tremont avenue and 1884 Monroe avenue, southwest corner (Block 2804, Lot 7), Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim and A. B. Gordon.

For Opposition: Nicholas Falcone.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustave Goldman, Board of Education.

ACTION OF BOARD—Laid over to April 24, 1945 at 10 A. M., pending an inspection by a committee of the Board. No further argument.

93-45-BZ

APPLICANT—Seelig and Finkelstein, for A. Milder and Sons and Trustees of Leake & Watts Orphan House, in the City of New York, owners.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use and D area district, the change of occupancy of an existing residence building covering more than 55% of the area of the lot.

PREMISES AFFECTED—233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

APPEARANCES—

For Applicant: None.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 24, 1945 at 10 A. M., on written request of applicant.

136-45-BZ

APPLICANT—Paul Friedman, for William A. White, Jr. (as executor and trustee u/w of William A. White, deceased) and Nettie H. White, owners (General Outdoor Advertising Co., Inc., lessee).

SUBJECT—Application (decision of the borough superintendent) under sections 7i and 7A of the zoning resolution, to permit in a business use district, the erection of an automobile showroom and salesroom and motor vehicle repair shop, incidental to salesroom and showroom only, with driveway entrance more than 25 ft. from Merrick boulevard.

PREMISES AFFECTED—224-01 to 224-09 Merrick boulevard and 133-29 to 133-37 224th street, northeast corner (Block 12963, Lot 308), Laurelton, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Mrs. C. W. Laderburg, Regina F. Scott, Florence Finnell, Charmion Nuebling and Mr. Levigne.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 24, 1945 at 10 A. M., pending an inspection of a committee of the Board. No further argument.

157-45-BZ

APPLICANT—Charles M. Lobejager, for Laurenceville Realty Co., owner of lot 48 and Bulova Watch Co., owner of lot 23 and lessee of lot 48 (Bulova School for Watchmaking, user).

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use B area district, the erection of a lunch and rest room for disabled War veterans without providing the rear yard required by the zoning resolution.

PREMISES AFFECTED—40-23 62nd street, east side, 215.20 ft. south of Woodside avenue (rear); (Block 1337, Lot 23 and part of Lot 48), Woodside, Borough of Queens.

APPEARANCES—

For Applicant: Charles M. Lobejager.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 1, 1945 at 10 A. M., for further consideration.

57-45-BZ

APPLICANT—Ralph J. Gurfield, for Storch and Hirsche, owners.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use, B area district, the extension of the first story of an existing building to cover the entire lot.

PREMISES AFFECTED—733 Ninth avenue, west side, 117.13 ft. north of West 49th street (Block 1059, Lot 34), Borough of Manhattan.

MINUTES

APPEARANCES—
For Applicant: None.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application withdrawn on written request of applicant.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

671-44-BZ

APPLICANT—Charles H. Richter, for Terry and McMichael, Inc., owner.
SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the erection of a one-story garage for eight (8) trucks used by the owner in the conduct of his business in substitution for an existing smaller frame garage building.
PREMISES AFFECTED—424 Weirfield street, east side, 100 ft. south of Wyckoff avenue (Block 3407, Lot 31), Borough of Brooklyn.
APPEARANCES—
For Applicant: Charles H. Richter, John F. Donnelly and Frank G. Terry.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (671-44-BZ)

WHEREAS, Charles H. Richter, for Terry & McMichael, Inc., owner, filed November 27, 1944, an application under section 7c of the zoning resolution, to permit in a residence use district, the erection of a one-story garage for eight (8) trucks used by the owner in the conduct of his business in substitution for a smaller frame garage building; affecting premises: 424 Weirfield street, east side, 100 ft. south of Wyckoff avenue (Block 3407, Lot 31), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 17, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Weirfield street is in a residence use, C area and Class 1 height district; Halsey street is in an unrestricted use, C area and Class 1 height district; Wyckoff avenue is in a business and unrestricted use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated November 10, 1944, re N. B. Applic. 211-44, reads:

"Construction.

1. The erection of a building to be used as a non-storage garage on premises located in a residential zone is contrary to Article II Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 40 ft. frontage by 100 ft. in depth, on which is located a one-story frame stable, 20 ft. by 75 ft. in area; that this plot is part of a larger plot 100 ft. by 100 ft., comprising lots 29 and 31, occupied as a coal yard with three coal pockets, an office and a railroad siding and that it is proposed to demolish this frame building and erect a Class 3 construction 40 ft. by 50 ft. non-storage garage for eight trucks; and

WHEREAS, the applicant contends that this appeal is brought under section 7c of the zoning resolution; that the frame stable on plot is in an unsafe condition and has been occupied continuously for many years previous to July 25, 1916, also occupied as a non-storage garage; that the premises across the street are occupied by lumber yards; that the owners will use this new brick garage for their own eight trucks and will not rent out any part; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7c thereof, to permit the erection of the garage for storage of not over eight (8) trucks, used as accessory to the existing use on Lots 31 and 29 as a coal yard, *on condition* that the present frame building shall be demolished; that only trucks shall be stored in the proposed garage that are used in connection therewith; that no motor vehicle repairing shall be carried on; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

94-45-A

APPLICANT—Seelig and Finkelstein, for A. Milder and Sons and Trustees of Leake and Watts Orphan House in the City of New York, owners.
SUBJECT—Appeal from a decision of the borough superintendent.

692-44-A

APPLICANT—Sheffield Farms Co., Inc., owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—130-05-B 94th avenue, north side, 65 ft. east of 130th street (1st floor); (Block 9375, Lot 261), Jamaica, Borough of Queens.
APPEARANCES—
For Applicant: H. McNabb.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (692-44-A)

WHEREAS, Sheffield Farms Co., Inc., owner, filed November 30, 1944, an appeal from an order of the fire commissioner, affecting premises 130-05-B 94th avenue, north side, 65 ft. east of 130th street (1st floor); (Block 9375, Lot 261), Jamaica, Borough of Queens; and

WHEREAS, Order 98105-LC, issued by the fire commissioner November 1, 1944, reads:

"You are hereby notified that an inspection of the above premises, used as a non-storage garage, shows that the following must be done before the permit requested by you can be issued:

FORTHWITH

1. Separate boiler from remainder of building by unpierced wall of solid masonry at least 8" in thickness. Entrance to boiler room to be from exterior of building only. C19-72, Administrative Code."

and

WHEREAS, the applicant states that the building is 3 stories (44 ft. 6 in.) in height, 100 ft. by 151 ft. irregular in area, of class 1 construction, erected in 1923, located in an unrestricted use, A area class 1½ height district, and used and occupied since 1923 as follows: cellar—wagon storage—1 person; 1st floor—same—0 persons; 2nd floor—wagon works, paint shop and offices—46 persons; 3rd floor—stable and hay storage—3 persons; proposed to be used and occupied: cellar—same; 1st floor—car storage; 2nd floor—wagon works, paint shop, offices—46 persons; 3rd floor—stable and hay storage—3 persons; that the building is equipped with a one source sprinkler system on the 2nd floor and a standpipe system and that there are two 3 ft. 8 in. fireproof stairs from the roof bulkhead directly to the street; and

WHEREAS, the applicant contends that the boiler room in question is not in the garage building, but is in the basement of an adjoining building; that the first floor of Building No. 2 is connected to the boiler room in basement of Building No. 3 by a fireproof ramp, closed at both ends by fire doors; that the boiler room is sufficiently remote and protected from the garage portion by the ramp and fire doors; that the closing of the exit from the boiler room and the construction of an exit to the exterior of the building from the boiler room, would have certain disadvantages from the safety standpoint; that such an exit would open on the railroad platform and since it would not normally be used for ingress and egress, there is a possibility that it may be obstructed by the loading and unloading on the railroad platform; that there are a number of workmen in the boiler room and in case of hazard, the workmen would have greater difficulty in obtaining egress from the boiler room than by the present method; it is therefore requested that the Board permit the existing exit condition to remain.

Resolved, that order 98105-LC issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to objection 1, *on condition* that the fire doors as shown shall be maintained to the satisfaction of the fire commissioner; that such doors shall be fireproof, self-closing and tight-fitting and the door in the wall between buildings 2 and 3 shall be kept closed; that no gasoline shall be stored within Building 2, except that contained in the tanks of the automobiles stored on the premises; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

195-45-A

APPLICANT—The Gilfred Corp., lessee, for Edmal Realty Co., owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—26-32 West 17th street, south side, 403 ft. west of 5th avenue (12th floor); (Block 818, Lot 66), Borough of Manhattan.
APPEARANCES—
For Applicant: Lewis A. Pinkussohn, B. H. Whinston and Samuel Kanner.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (195-45-A)

WHEREAS, The Gilfred Corporation, lessee, for Edmal Realty Company, owner, filed April 2, 1945, an appeal from an order and a decision of the fire commissioner, affecting premises: 26-32 West 17th street, south side, 403 ft. west of 5th avenue (12th floor); (Block 818, Lot 66), Borough of Manhattan; and

WHEREAS, Order 40670-C, issued by the fire commissioner February 28, 1945, and repeated in his decision of March 28, 1945, reads:

"Surrender to bearer your Fire Department permit numbered 221549 dated to expire November 18th, 1945, which is hereby revoked:

REASON: Premises lighted by fluorescent lights. C19-112.0.

YOU ARE THEREFORE ORDERED AND REQUIRED TO:

1. Forthwith discontinue the storage or use of nitrocellulose products on the above premises."

and

WHEREAS, the applicant states that the building is 12 stories (144 ft.) in height, 93 ft. 6 in. by 92 ft. in area at first floor; 93 ft. by 85 ft. in area at typical floor; Class 1 construction; located in an unrestricted use, Class 2 height district; erected in 1908; used and occupied since 1935 as follows: Cellar, furniture storage; 1st floor, furniture showroom, 5 persons on combined floors; 2nd floor, mfg. slippers and offices, 50 persons; 3rd floor, mfg. coat fronts, 40 persons; 4th floor, mfg. clothing, 8 persons; 5th floor, mfg. clothing, 102 persons; 6th floor, mfg. luggage, 29 persons; 7th floor, mfg. coats, 88 persons; 8th floor, mfg. sportswear, 75 persons; 9th floor, mfg. luggage, 12

MINUTES

persons; 10th floor, mfg. ladies belts, 30 persons; 11th floor, mfg. sportswear, 50 persons; 12th floor, button mfg., 25 persons; mfg. leggings and spats, 20 persons; mfg. pens and pencils, 16 persons; that no change in use or occupancy is proposed; that the building is equipped with two 4 ft. wide steel and slate stairs, enclosed in terra cotta and plaster partitions, equipped with kalamein, self-closing doors and leading from the roof bulkhead directly to the street, and two fire escapes leading to the roof by ladder and to the street by ladder and to the yard by ladder, with egress from yard through court-yard and by 2nd floor; that windows on the course of the fire escapes are fireproof, but not self-closing; and

WHEREAS, the applicant contends that the lessee is engaged in contracts for the Army and Navy; that the building is equipped with an automatic sprinkler system and a standpipe system; that prior to December, 1944, incandescent lights had been used and permit granted for the storage and use of nitrocellulose; that in December, 1944, to improve working conditions due to close tolerances used in the manufacturing process, fluorescent lights were installed; that the fixtures are placed over the work benches at sufficient height, 4 ft. 7 in., to preclude the possibility of any celluloid articles coming in contact with fluorescent bulbs; that no portable lights on extension cords are used; that the nitrocellulose when stored, is placed in a metal, well-ventilated vault, equipped with a sprinkler head; that this vault is located away from the manufacturing operations; that all waste nitrocellulose is placed in metal receptacles, containing water and kept there until removal from the premises, which removal takes place once every 48 hours; that four windows provide ample natural ventilation; that there is a skylight through which a metal flue carries the dust from the polishing machine to the roof; that the installation of the fluorescent fixtures was inspected by the Department of Water Supply, Gas and Electricity and certificate issued; that the fixtures are equipped with a fibre disc and lock, in order to lock the lamp holders at each end of the fluorescent lamps, so that no vibration could occur; it is therefore requested the Board grant the variation, to permit the installation of the fluorescent lights to remain.

Resolved, that order 40670-C of the fire commissioner, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to objection 1, *on condition* that the premises shall be maintained to the satisfaction of the fire commissioner; that the cutting of the nitro-cellulose products shall be carried on so as to preclude an accumulation of waste; that all waste nitro-cellulose material shall be immediatcly immersed in water and so maintained in metal receptacles until removed from the premises; that the amount of celluloid on the premises shall not exceed 200 pounds at any one time; that no other inflammable material shall be used near such nitro-cellulose products, unless protected to the satisfaction of the fire commissioner; that ample natural ventilation to the outer air shall be provided at all times; that no portable lights on extension cords shall be maintained in any room where nitro-cellulose products are handled or stored; that the lighting fixtures shall be equipped with a fibre disc and lock, to lock the lamp holders at each end of the fluorescent lamps, to protect same against vibration and to prevent the falling of lamps from sockets; that electrical lighting installation shall be approved by the Department of Water Supply, Gas and Electricity and the New York Board of Fire Underwriters; that the sprinkler system throughout the building shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Adjourned: 11:55 A. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, APRIL 17, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

635-44-A

APPLICANT—Boro Hall Corporation, owner (Alfred J. and Caroline Giordano, lessees (d/b/a Paramount Recreation Center).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—43 Debevoise place, east side, 100 ft. south of Lafayette street and 432 Hudson avenue (Block 2085, Lot 7), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred J. Giordano.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (635-44-A)

WHEREAS, Boro Hall Corporation, owner, for Alfred J. and Caroline Giordano, lessees (doing business as Paramount Recreation Center), filed November 1, 1944, an appeal from a decision of the borough superintendent, affecting premises 43 Debevoise place, east side, 100 ft. south of Lafayette street and 432 Hudson avenue (Block 2085, Lot 7), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated October 10, 1944, on Alt. Applic. 2860-44, reads:

"1. The stair capacity is insufficient to accommodate the number of persons under Section 6.4.1.1 of Building Code. (Section 6.1.10 not being applicable to bowling alleys.) The increase in occupancy of the 2nd floor materially changes the conditions under which the Board of Standards and Appeals approved the original application, therefore the proposition must be referred to the Board for approval."

and

WHEREAS, the applicant states the building is 3 stories (40 ft.) in height; 100 ft. by 100 ft. in area at 1st floor; 100 ft. by 90 ft. in area at 2nd floor; fireproof construction; located in an unrestricted use, B area, Class 2 height district and used and occupied since 1939 as follows: cellar, auto service and repair, 6 persons; 1st floor, automobile showroom; 2nd floor, bowling alleys, bar and restaurant, 75 persons; 3rd floor, bowling alleys, 75 persons; proposed to be used and occupied as follows: cellar, same, 20 persons; 1st floor, same, 20 persons; 2nd floor, same, 350 persons; 3rd floor, same, 200 persons; that Certificate of Occupancy 93506 was issued September 11, 1939, permitting the present use and occupancy; that the building is equipped with an interior fire alarm system, but that fire drills are not maintained; that there are two 3 ft. 6 in. wide fireproof stairs from the roof bulkhead directly to the street and one fire escape at the rear, extending by exterior stairs to the yard and egress thru the yard to the street; and

WHEREAS, the applicant contends that an application for a certificate of occupancy was filed, to increase the number of persons on the basement, 2nd and 3rd floors and denied by the borough superintendent, on the grounds that it should be referred to the Board of Standards and Appeals; that it is proposed to increase the occupancy as stated herein, as at the time of the previous appeal, the architect did not take into consideration the overlapping change of patrons on the 2nd and 3rd floors, which are used as bowling alleys, bar

and restaurant; that this overlapping change takes place during a period of about 30 minutes; that the architect only took into consideration the maximum number of persons who could bowl on the alleys at any one time; that when a group is finishing bowling, another group is waiting to take over the alleys; that no changes in the means of egress have been made since the Board acted under Cal. 344-39-A; that the building is 100% fireproof construction in concrete and brick including all fireproof doors and trim.

Resolved, that the decision of the borough superintendent on Alt. Applic. 2860-44, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the occupancy shall not exceed the number of persons per floor that would be permitted if the capacity of stairs were calculated under Section C26-281.0; that this resolution shall be deemed to modify the resolutions of the Board adopted under Cal. 344-39-A as to number of persons permitted per floor, but all the exits as proposed therein shall be maintained.

653-44-A

APPLICANT—Samuel Rosenblum, for Adon Realty Corporation, owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—80-84 Nassau street, east side, 99 ft. 9 in. north of John street (cellar); (Block 78, Lot 38), Borough of Manhattan.

APPEARANCES—

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (653-44-A)

WHEREAS, Samuel Rosenblum, for Adon Realty Corporation, owner, filed November 17, 1944, an appeal from an order and a decision of the fire commissioner, affecting premises 80-84 Nassau street, east side, 99 ft. 9 in. north of John street (Cellar); (Block 78, Lot 38), Borough of Manhattan; and

WHEREAS, Order 14554-LF, issued by the fire commissioner May 16, 1942, and repeated in a decision of the fire commissioner dated October 20, 1944, reads:

"You are hereby ordered and required, within 30 days from the date of the service of this order, to:

1. Provide a fixed fire extinguishing system or other means for the extinguishment of fire satisfactorily to the Fire Commissioner in cellar. Section C19-161.0 Administrative Code."

and

WHEREAS, the applicant states the building is 4 stories (55 ft.) in height; 85 ft. 10 in. by 102 ft. 7 in. in area at first floor; 85 ft. 10 in. by 92 ft. 3 in. in area at typical floor; of Class 1 construction; erected 1930, located in an unrestricted use, B area, Class 2½ height district, and used and occupied since 1936 as follows: cellar, kitchen and sales room, 100 persons; 1st floor, salesroom, 300 persons; 2nd, 3rd and 4th stories, jewelry manufacturing and repair and offices, 50 persons each story; that no change in use or occupancy is proposed; that the building is equipped with an interior fire alarm system and that fire drills are maintained; that there are two 3 ft.. 8 in. fireproof stairs leading directly to the street, one of which leads to the roof; and

WHEREAS, Certificate of Occupancy 22302 issued April 8, 1937, permits the use of the cellar for storage, kitchen, and sales store, 100 persons, 120 lbs. live load; 1st story, sales store and restaurant, 300 persons, 120 lbs. live load; 2nd to 4th stories, offices, 50 persons each, 75 lbs. live load each story; and

WHEREAS, the applicant contends that the first floor and cellar is occupied by the Woolworth Five and Ten cent store; that in addition to the building stairs, there is a wide accommodation stair from 1st floor to cellar, as granted by the Board under Cal. 390-36-S; that there is also a horizontal exit in the rear of the cellar, leading to the premises on Dutch street, under the same management; that this exit is protected by fireproof doors and it is proposed to install sprinkler equipment in the cellar of the Dutch street section, in accordance with the resolution adopted by the Board under Cal. 764-42-A; that the storage and shipping facilities of the tenants are in the Dutch street premises; that the portion of the premises, which is the subject of this appeal, is used as a sales and display room; that there is no storage of combustible merchandise in this area; that the basement is occupied for mercantile purposes similar to the first floor; that the cellar is accessible thru the wide accommodation stair at the front and the horizontal exit in the rear and is provided with ventilating louvres under the show windows at the front; that ample aisle space has been provided and housekeeping conditions are good; that the cellar sales room is easily reached from all sides and in view of the fact that all of the storage and shipping facilities will be protected, it is requested that the Board grant a variance, so that the owner will not be required to install a sprinkler system at 80 to 84 Nassau street; and

WHEREAS, the premises were inspected by a Committee of the Board.

Resolved, that the decision of the fire commissioner as to Order 14554-LF, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that at least three (3) sprinkler heads shall be installed within the kitchen portion of the cellar, as indicated on revised plans filed with this appeal marked "Received March 19, 1945"; that such sprinkler heads may be attached to the domestic water supply; that the fire doors between the cellar and the rear building shall be maintained in good working condition, to the satisfaction of the fire commissioner and the Underwriters; that the sprinkler system in the rear building shall be maintained in accordance with the resolution adopted by the Board under Cal. 764-42-A; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

656-44-A

APPLICANT—Morris Whinston, for A. R. R. Realty Corp., owner.

SUBJECT—Application reopened and restored to calendar on March 6, 1945—Appeal from decisions of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—24-26 East 21st street, south side, 148 ft. 6 in. east of Broadway (Block 849, Lot 58), Borough of Manhattan.

APPEARANCES—

For Applicant: Morris Whinston.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (656-44-A)

WHEREAS, Morris Whinston, for A. R. R. Realty Corporation, owner, filed November 20, 1944, an appeal from decisions of the borough superintendent, affecting premises 24-26 East 21st street, south side, 148 ft. 6 in. east of Broadway (Block 849, Lot 58), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated November 16, 1944, on Alt. Applic. 1338-44, reads:

"2. Two means of egress required for each floor remote from each other extending from cellar to roof and leading to street. Section 271 Labor Law.

5. Stairs should be adequate to accommodate the number of persons as computed under section 6.1.2.3dB.C.

6. Present fire-escape not acceptable as egress at bottom is thru principal means of egress for building at 2nd floor, and becomes a common means of egress to street. Section 271 Labor Law.

7. Elevator shaft should be enclosed in fireproof material, Section 271-2.

12. All windows should be fireproof. Sect. 246-66 Labor Law.

15. Required live load for manufacturing is 120 lbs. per sq. ft. Section 7.3.2.3B.C."

and

WHEREAS, said objections were repeated in a decision of the borough superintendent dated December 26, 1944; and

WHEREAS, the applicant stated that the building is nine stories (90 ft.) in height, 50 ft. by 110 ft. at first story, 50 by 100 ft. in area at typical floor; Class 1 construction; erected in 1903; located in an unrestricted use, B area, 2 times height district; and used and occupied as follows: Cellar, storage and boiler room, 1 person; 1st floor, stores, 10 persons per store; 2nd floor, offices and showrooms, 12 persons; 3rd floor, offices and manufacturing furs, 12 persons; 4th floor, offices and manufacturing chemicals, 12 persons; 5th floor, offices and manufacturing ties, 12 persons; 6th floor, offices and manufacturing wigs, 12 persons; 7th floor, offices and printing, 12 persons; 8th floor, offices and manufacturing leather, 12 persons; 9th floor, offices and manufacturing bags, 12 persons; that the building is equipped with a standpipe system, interior fire alarm system and that fire drills are maintained; that there is one 3 ft. wide fireproof stair from the top story directly to the street and leading to the roof by a scuttle and ladder; that the doors are fireproof and wood and are self-closing; that in addition, there is one fire escape in the west court, leading to the roof by a ladder and to the street, through a fireproof door at second floor and down to the street through the main corridor; that the windows and doors on the course of fire escape are fireproof, self-closing.

WHEREAS, the applicant contended as to objection 2, that there are two means of egress as remote as possible, both extending to the roof, the stair extending by a scuttle and iron ladder and the present fire escape by stair, and both leading to the street; as to objection 5, that the stair is 3 ft. wide and is sufficient to accommodate the small number of persons occupying the building; as to objection 6, that the egress from the fire escape at the 2nd floor main hall is the only place where persons can be discharged from the upper floors and the 2nd floor is the only floor where this common means of egress occurs; as to objection 7, that the elevator shafts are enclosed in three hour partitions and fireproof doors on 1st floor, with wrought iron enclosure and doors on the 2nd to 9th floors and basement; that it is now proposed to enclose the elevator shafts as described in this appeal; as to objection 12, that all windows are fireproof, self-closing, except in the front wall where windows are wood and plain glass; that these windows have been the same since the building was erected; as to objection 15, that the floors are designed for 75 lb. liveload from the 2nd to 9th floors inclusive, and 150 lbs. for the 1st floor; that these were the liveloads required under the 1903 Building Code; that assuming the dead load is about 50 lbs. per sq. ft., making a total of 125 lbs. and increasing this amount by ⅛ which is the increase in the stress under the present code, will allow an increase of about 15 lbs., making the present floor good for 90 lbs. per sq. ft.; and

WHEREAS, the applicant further contends that the building is equipped with a fire alarm system and standpipe system throughout and fireproof, self-closing doors in the public halls; that there is also a Labor Law fire escape in the west court from the 2nd floor to the roof; that the iron elevator enclosure has been in the building since its erection in 1903 and will now be enclosed from the 2nd floor to the roof and at the cellar with ¾ in. asbestos cement boards, on present wire mesh and the present elevator shaft doors to be similarly covered; and

WHEREAS, the applicant contends further, that the building has had a mixed occupancy of offices and light manufacturing since 1925, requiring the employment of a small number of persons for each tenant; that the floors are of ample strength for the superimposed liveloads, by reason of the light occupancy and the applicant requests that the Board grant relief from complying with the objections of the borough superintendent, due to the hardships involved; and

WHEREAS, the amendment filed with the borough superintendent indicates that it is proposed to extend the corridor leading to the fire escape and to extend the fire escape balcony as indicated on plans filed with this appeal marked "Received December 27, 1944"; and

WHEREAS, Order 3113-1F issued by the Fire Department December 14, 1914 required the owner to provide an enclosure of fire-retarding material about elevator shaft at all stories; and

WHEREAS, the report of the inspector of Fire Prevention dated November 20, 1916 filed with Cal. No. 966-17-A, indicates that the building is occupied as a factory building with 41 persons engaged in manufacturing throughout; and

WHEREAS, Labor Department record indicates that violation was issued July 13, 1916, to prohibit the operation of factories in the building above the 2nd floor until at least two legal means of exit have been provided, to provide additional means of exit from each floor remote from present exit and stating that a fire escape at west side of building will be accepted as an exit, to provide continuous safe unobstructed passageways on each floor leading directly to several means of egress including outside fire escape, to make all openings in interior stairway fire-resistive; and

WHEREAS, report of inspector of Fire Prevention dated June 12, 1917, indicated that the Labor Department order had not been complied with; and

WHEREAS, report of inspector dated October 27, 1923, filed in Fire Department folder 21E24.01, indicates that the manufacturing occupancy was limited to five persons; and

WHEREAS, on January 23, 1945, this appeal was withdrawn by the applicant, at which time the Board stated that the applicant may request reopening after approval of plans and compliance in all respects except floor loads, which the Board may then consider; and

WHEREAS, this appeal was reopened and restored to the calendar March 6, 1945 to consider floor loads (objection 15 of November 16, 1944); and

WHEREAS, the applicant has amended his appeal to indicate the building is 9 stories, 99 ft. 8 in. in height; and

WHEREAS, the applicant has amended his specification sheet filed with Alt. Applic. 1338-44, so as to indicate that it is proposed to use the 2nd and 9th floors for offices and manufacturing, 20 persons each floor; and

WHEREAS, the applicant has filed an amendment with the alteration application in the office of the borough superintendent dated March 15, 1945, wherein it is stated "to amend the plans so as to increase the number of persons on each floor to 20, to reconstruct the present fire escape in west court, so that it will comply with all provisions of the Labor Law and as shown now on plans, height of building changed from 85 ft. to 99 ft. 8 in.; height to highest floor level is 89 ft. 8 in."; and

WHEREAS, the amendment filed April 9, 1945, was to amend plans so as "to cut the 2nd floor floor beams and erect a new iron stair, marble treads, with fireproof partition around the stair on the easterly side of the building, extending from the 1st to 2nd floors, as shown on amended plans filed herewith;" and

WHEREAS, the decision of the borough superintendent dated March 26, 1945, on such amendment reads: "this amendment cannot be approved until application is approved;" and

WHEREAS, the premises were inspected by a committee of the Board.

MINUTES

Resolved, that the decision of the borough superintendent on Alt. Applic. 1338-44 be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to objection 15 of November 16, 1944, *on condition* that the liveload throughout shall be not less than 90 lbs. per superficial foot; that a new stair from the 2nd floor to the street shall be installed in accordance with the requirements therefor, in the location as indicated on revised plan marked "Received April 4, 1945"; that the fire escape in the interior court and stairway with brick entrance to such court leading to East 21st street shall comply with all the requirements of the Labor Law and rules of the Board and new door shall be constructed as indicated on such revised plans; that the windows on the front above the second story may be continued with present wood frames and sash, provided the glass is plate glass commonly considered as ¼ inch in thickness and with no light of glass exceeding 720 sq. in.; that all doors shall open in the direction of exit; that wood doors and trim from rooms to hall may be continued, provided they are of hard wood; that the elevators shall be enclosed as proposed; that the existing wrought iron grille shall be removed and ¾ inch transite, set in the present iron frame substituted; that the occupancy per floor shall not exceed the number of lawfully permitted, based on the primary means of exit not exceeding twenty persons per floor as proposed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

685-44-A

APPLICANT—Kops Brothers, Inc., lessee, for Kops Brothers Realty Corp., owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—100-02 Rockaway boulevard, southwest corner of 101st street (1st floor); (Block 9539, Lot 1), Ozone Park, Borough of Queens.
APPEARANCES—
For Applicant: William E. Smith.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (685-44-A)

WHEREAS, Kops Brothers, Inc., lessee, for Kops Brothers Realty Corp., owner, filed November 8, 1944, an appeal from an order of the fire commissioner, affecting premises 100-02 Rockaway boulevard, southwest corner of 101st street (1st floor); (Block 9539, Lot 1), Ozone Park, Borough of Queens; and

WHEREAS, Order 13675-LF, issued by the fire commissioner October 21, 1944, reads:

"1. Arrange iron screens on all windows on all stories so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for the purpose of egress, as per Section 272 of the Labor Law."

and

WHEREAS, the applicant states the building is two stories (30 ft.) in height, 200 ft. by 65 ft. in area; Class 1 construction; located in an unrestricted use, A area, Class 1 height district; erected in 1922 and used and occupied since 1922, as follows: Cellar, boilerroom and storage, 10 persons; 1st floor, office, stock and shipping, 87 persons; 2nd floor, stock and manufacturing corsets, girdles, parachutes and sleeping bag cases, 270 persons; that the building is equipped with a two-source sprinkler system, a standpipe system and three interior iron and concrete stairs, enclosed in steel and concrete, equipped with iron and steel, self-closing doors and extending from the roof bulkhead directly to the street; that two stairs are 48 in. in width and one is 72 in. in width; and

WHEREAS, Certificate of Occupancy Q31020, issued May 22, 1944, permits the present use and occupancy; and

WHEREAS, the applicant states that 28 windows are affected on the street side of the building; that means of egress from the first story affected are five double exit doors, equipped with panic bolts; and

WHEREAS, the applicant contends that the wire screens were arranged upon recommendation of the Plant Security Division of the United States Army and that the screens cover only a small part of the windows on the first story only on the street side; and

WHEREAS, the applicant has filed copy of the recommendation of the Second Service Command, Plant Security Division, requiring the installation of wire screens in all basement and 1st story clear glass windows opening on the streets.

Resolved, that the Board of Standards and Appeals does hereby make a *variation* in the requirements of the Labor Law as cited in a decision of the fire commissioner as to Order 13675-LF and that the appeal be and it hereby is *granted,* as to Item 1, *on condition* that screens shall be installed only on such windows as are indicated on plans filed with this appeal marked "Received November 8, 1944" (one sheet) and "Received April 12, 1945" (one sheet); that all existing exits indicated thereon shall be maintained; that the sprinkler system and standpipe system shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 705-42-S; that this variance shall continue only during the term of the present emergency and for six (6) months thereafter.

722-44-A

APPLICANT—Dominick Salvati, for Harold W. Holcombe, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—91 Marlborough road (East 15th street), east side, 107 ft. 5 in. south of Church avenue (2nd and 3rd floors); (Block 5096, Lot 60), Borough of Brooklyn.
APPEARANCES—
For Applicant: Arnold W. Lederer.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (722-44-A)

WHEREAS, Dominick Salvati, for Harold W. Holcombe, owner, filed December 12, 1944, an appeal from a decision of the borough superintendent, affecting premises 91 Marlborough road (East 15th street), east side, 107 ft. 5 in. south of Church avenue (2nd and 3rd floors); (Block 5096, Lot 60), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated December 7, 1944, on Alt. Applic. 1365-44, reads:

"1. Increase in height of attic and area devoted to living purposes contrary to Sec. 8.7.2.1 (C26-536.0) of the Bldg. Code."

and

WHEREAS, the applicant states that the building is 2½ stories (34 ft.) in height, 38 ft. by 56 ft. at 1st floor, 38 ft. by 51 ft. at 2nd floor; Class 4 construction; located in residence use, F area, Class 1 height district; erected about 40 years ago; and occupied since erection as a one family dwelling and proposed to be occupied as follows: Cellar, household storage; 1st floor and part of second floor, dwelling, one family; 2nd floor and attic, dwelling, one family. that the building is equipped with two wood stairs, enclosed in lath and plaster partitions, equipped with wood doors,

which are not self-closing; one stair is 2 ft. 8 in. wide and the other 3 ft. wide; and

WHEREAS, the applicant states it is proposed to re-locate bath-rooom in attic; that the two attic rooms will be squared out, as indicated on plans filed with this appeal; that a multiple dwelling law type of fire escape will be installed; that the stairs to the attic will be widened and the side entrance created as shown; that no cooking will be done in the attic, as the kitchen will be installed on the 2nd floor; and

WHEREAS, the applicant contends that in view of the nature of the alterations involved and in view of the improvements in exits as proposed, it is requested that this appeal be granted.

Resolved, that the decision of the borough superintendent on Alt. Applic. 1365-44, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the alterations as proposed, shall be carried out as shown on plans filed with this appeal marked "Received December 12, 1944" including the proposed exterior fire escape, as indicated thereon, from the third story; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable to a two family dwelling; that at no time shall this building be occupied for more than two (2) families and no cooking shall be permitted in the attic story.

81-45-A

APPLICANT—Kolb and Miller, for A. Schrader's Son, Division of Scovill Manufacturing Co., Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—465-471 Adelphi street, east side, 258 ft. north of Atlantic avenue (basement and 1st floor); (Block 2008, Lot 9), Borough of Brooklyn.

APPEARANCES—

For Applicant: Eugene Miller.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (81-45-A)

WHEREAS, Kolb and Miller, for A. Schrader's Son, Division of Scoville Manufacturing Company, Inc., owner, filed on February 19, 1945, an appeal from a decision of the borough superintendent, affecting premises 465-471 Adelphi street, east side, 258 ft. north of Atlantic avenue (basement and 1st floor); (Block 2008, Lot 9), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 1468-44, dated January 31, 1945, reads:

"Means of egress do not comply with Section C26-273.o-b(3) Bldg. Code Section 6.1.2.2.3, as ramp does not constitute a means of egress unless it complies with Section C26-273.o-a(3). Bldg. Code Section 6.1.2.1."

and

WHEREAS, the applicant states the building is 1 story and basement (23 ft.) in height; 101 ft. by 100 ft. in area; of Class 3 construction; erected 1931; located in an unrestricted use, B area, Class 1½ height district and used and occupied since April, 1944, as follows: cellar, boiler room; basement, garage for more than five cars, 5 persons; 1st floor, garage for more than 5 cars, 6 persons, for which certificate of occupancy 6286 was issued January 15, 1931, upon completion of work under Permit 9277-30, and the building is proposed to be occupied as follows: cellar, boiler room; basement, garage for more than 5 cars and warehouse, 5 persons; 1st floor, warehouse, 6 persons; that the building is equipped with one 4 ft. wide iron stairs, enclosed in 8 in. brick, equipped with metal covered self-closing doors and extending from the roof bulkhead directly to the street and one 11 ft. 9 in. wide concrete ramp, brick enclosed on the basement story, having a grade of 12½%; and

WHEREAS, the applicant contends that it is proposed to use the 1st floor for warehouse and basement floor as warehouse and garage; that the borough superintendent objects to the use of the ramp as a second means of egress; that the basement floor is 5 in. concrete on ground; the 1st floor and basement columns are steel fireproofed and with cinder concrete arches having a 1 inch cement finish; that the roof is steel frame with wood joists, covered on the underside with half-inch plaster boards and 26 gauge metal; that the basement is 2 ft. 6 in. below street level and the 1st floor is 12 ft. above; that there is a boiler room below ground level, accessible to the street; that the ramp has a level section where grade changes and is closed off from the basement story by an 8 in. brick wall and has a slope of 1 ft. in 8 ft.; that the ramp does not comply with the Code, in that it is not closed off from the 1st story; that it is requested the Board accept the ramp as a secondary means of egress, as it is less than 100 ft. from any part of the first floor to either the stairway or the ramp and in view of the light occupancy, the Board is requested to grant this appeal.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 1468-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that no materials shall be stored in the basement except metal; that such material shall not be in combustible cases or crates; that the ramp leading to the first floor from grade shall be separated from the basement story at all points with fireproof construction; that this variance shall continue only so long as the building is occupied as proposed and no manufacturing is carried on therein and the stairway as indicated on plans filed with this appeal marked "Received February 19, 1945" is maintained in accordance with the requirements; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

89-45-A

APPLICANT—Joseph Kleinberger, for Atlantic Leasing Co., Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1580-1590 Broadway, 200 West 48th street, southeast corner and 710-720 7th avenue (Block 1019, Lot 36), Borough of Manhattan.

APPEARANCES—

For Applicant: Henry Cash and Joseph Kleinberger.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (89-45-A)

WHEREAS, Joseph Kleinberger, for Atlantic Leasing Co., Inc., owner, filed February 20, 1945, an appeal from a decision of the borough superintendent, affecting premises 1580-1590 Broadway, 200 West 48th street, southeast corner and 710-720 7th avenue (Block 1019, Lot 36), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent dated January 23, 1945, on B.N. Applic. 2338-44, reads:

"You are hereby advised that the approval of the subject Building Notice and permission to build under the approval is hereby revoked as the approval was granted in error."

and

WHEREAS, the applicant states that the building is 2 stories and mezzanine (40 ft.) in height, 93 ft. 9⅛ in. by 125 ft. 5 in. in area, of class 1 construction, erected in 1912, located in a retail use, B area class 2 height district and used and occupied as follows: cellar—storage and restaurant—500 persons; 1st floor—stores—100 persons; 2nd floor—restaurant and cabaret—650 persons; mezzanine—kitchen—20 persons; and

WHEREAS, the decision of the borough superintendent, dated April 5, 1945 addressed to the applicant, reads as follows:

"This refers to your letter of April 5, 1945 in which you ask the specific section under which the approval of the subject application was revoked by our letter of January 23, 1945.

You are advised that this action was taken as the sign is neither a flat nor right angle sign.

A similar condition under Sec. C26-220.0, was reviewed by the Board of Standards and Appeals under Cal. 1183-38-A and was denied."

and

WHEREAS, the applicant states that the proposed signs will be closed faced with the advertising matter painted thereon and illuminated by reflectors; and

WHEREAS, plans filed with this appeal indicate the proposed construction of four signs which will project from 1 ft. 3 in. to 7 ft. 10 in. beyond the walls of the building in question; and

WHEREAS, the applicant contends that plans were filed November 10, 1944, for the erection of the signs in question; that shortly thereafter, the erection of these signs was discussed with the Department Engineer, who stated he would accept all but one item which referred to the use of removable sign panels; that the matter was then submitted to the Chief Engineer of the Department of Housing and Buildings, who instructed the examiner to accept the construction of the signs; that being assured of obtaining a permit, contracts were prepared and signed and shop work was to start at once and erection of steel members to start at the earliest possible date; that plans were approved and permit issued on January 19, 1945; that shop work had progressed so that the contractor was able to start erection January 22, 1945 and in a few days, had erected most of the steel brackets on the Broadway side of the building; that on January 26th, notice of revocation was received; that the applicant assumed that when the examiner and the Chief Engineer of the Department raised no question, there would be no question as to the legality of the signs; that signs of like projection, exist in almost every prominent location in Manhattan, Brooklyn, Flushing and Sunnyside; that the borough superintendent informed the applicant that signs of like projection have not been permitted since 1938, but apparently not all of the engineers in the Department were aware of any such order; that a memorandum was sent to the engineers subsequent to the decision herein appealed, that they shall not accept illuminated signs coming under the provisions of B26-13.0 of the Administrative Code, unless such signs are perpendicular to the building line; that there has been no change in the law regarding signs which has been in effect since 1916 and as late as 1930, the Corporation Counsel rendered an opinion that signs projecting as much as 8 ft. could be triangular, parallel or V shaped beyond the building line; that if all the engineers in the Department did not know of the Department's policy how were those on the outside supposed to know about it; that the applicant, not knowing about this departmental change, had a right to rely upon the practice which was prevalent in all boroughs; that there are many examples of similar projecting signs in the area of the building in question; that the borough superintendent did not establish a rule so as to charge prospective sign applicants with a notice of the departmental change in policy; that the applicant should not be adversely affected by this serious departmental omission; and

WHEREAS, the applicant further contends that he cannot agree with the borough superintendent's statement that the approval was granted in error; that there was no error on the part of the Department's engineer in approving the signs, as they followed the precedent adopted in the Department back in 1930, when the Corporation Counsel gave an opinion that such signs were legal; that the signs in question are not "electric signs"; and

WHEREAS, the applicant has submitted a list containing the locations of signs of similar projection, accompanied by drawings illustrating the extent of projection; and

WHEREAS, the plans and applications filed with the borough superintendent do not indicate that the signs will be constructed entirely of metal or other incombustible material; that amendment filed December 22, 1944, not approved, but recommended for approval, indicates the proposed use of combustible materials; that plans filed with the borough superintendent do not indicate whether the signs will cover windows, thus interfering with ingress and egress under Section B26-15.0 of the Administrative Code; and

WHEREAS, it is proposed to extend the parapet walls in height at the location of the corner signs; and

WHEREAS, plans filed with the borough superintendent do not indicate the method of illumination of the proposed signs; and

WHEREAS, on January 24, 1939, under Cal. 1183-38-A, the Board in acting on an appeal relating to the proposed erection of a V shaped illuminated sign 10 ft. above grade having three panels consisting of a panel 3 ft. wide by 7 ft. high and two side panels 10 ft. 9 in. by 4 ft. high extending 7 ft. outside the building line, held that a study of the Administrative Code does not indicate that a sign as proposed is specifically permitted and that the proposed sign should not be permitted to extend beyond the building line in the form and for the distance proposed; and

WHEREAS, the applicant contended that the manufacturer acted in good faith, not knowing of any new rules relating to same; that the sign had been built and ready for erection and that failure to permit the erection would result in great hardship to the manufacturer; and

WHEREAS, the Board deemed, after study of the records and the provisions of law and a public hearing, that the action of the Borough Superintendent in revoking the approval of the Building Notice filed and the permission to construct the sign, should be sustained; and

WHEREAS, it also appears that no compensation insurance policy has been exhibited, as required before construction is started.

Resolved, that the decision of the borough superintendent on B. N. Applic. 2338-44 be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

149-45-A

APPLICANT—Harry P. Jaenike, for Guaranty Trust Company (trustee u/w of Theodore Roosevelt), owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—186 William street, east side, 48 ft. 4½ in. north of Spruce street (2nd, 3rd and 4th floors); (Block 103, Lot 3), Borough of Manhattan.

APPEARANCES—

For Applicant: Harry P. Jaenike.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (149-45-A)

WHEREAS, Harry P. Jaenike, for Guaranty Trust Company of New York (trustee u/w of Theodore Roosevelt), owner, filed March 14, 1945, an appeal from a decision of the borough superintendent, affecting premises 186 William

street, east side, 48 ft. 4½ in. north of Spruce street (2nd, 3rd and 4th floors); (Block 103, Lot 3), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 251-45, dated March 5, 1945, reads:

"1. As this building was structurally altered and extended in 1920, the proposal to convert the building into a factory would classify it as a building erected after October 1, 1913 and the exits therefore should comply with Sec. 270 of the Labor Law.

2. All floors to be used for manufacturing should be good for 120 lbs. per sq. ft. 7.3.2.3. B.C."

and

WHEREAS, the applicant contends that the building is four stories (45 ft.) in height; 30 ft. 11 in. by 101 ft. 10¼ in. in area at first floor; 30 ft. 11 in. by 45 ft. in area at typical floor; of Class 3 construction; located in an unrestricted use, B area, Class 2½ height district, and used and occupied since 1920 as follows: cellar, storage, 2 persons; 1st floor, store, 6 persons; 2nd to 4th floors, offices, 7 persons each floor, and proposed to be used and occupied—cellar, storage and boiler room, 6 persons; 1st floor, store, 20 persons; 2nd to 4th floors, office, showroom and manufacturing, 15 persons each floor; that the building is equipped with one 3 ft. wide wood stairs, enclosed in partitions of wood studs, wire lath and Portland cement plaster, equipped with kalamein self-closing doors and leading from the roof to the street; and

WHEREAS, the building to the north is 42 ft. in height, and to the south 45 ft. in height and to the east 40 ft. in height; and

WHEREAS, the applicant contends that the character of the neighborhood has changed to such an extent that it is almost impossible to rent space for office purposes; that the building is in an unrestricted use district; that when the building was erected, manufacturing was permitted and when the building was extended, it was changed to an office building; that this alteration consisted of less than ⅓ of the volume of the building; that the size and the layout of the building is such that to run an additional stairway would cause a hardship; that an additional stairway would reduce the percentage of floor area to such an extent as to render the space undesirable; that the existing stairway is of sufficient size to take care of the complete occupancy of the building; that it is proposed to install a factory type fire escape on the front, as a secondary means of egress; that this is in line with the buildings adjacent to it; that the present floor construction, walls and columns other than girders are of sufficient strength to permit a liveload of 100 lbs. and it would be a difficult and expensive construction job to reinforce the floors to carry the additional 20 lb. liveload; that the cutting down of the spaces by the introduction of additional girders and columns would render this space undesirable; it is therefore proposed to reinforce the girders where necessary, to carry 100 lb. liveload above the first floor; and

WHEREAS, the premises was inspected by a Committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 251-45, and that the appeal be and it hereby is *granted*, as to objection 1, *on condition* that the primary means of exit shall be maintained as proposed and as indicated on plans filed with this appeal marked "Received March 14, 1945", and that in addition, a fire escape, complying with the requirements of the Labor Law, shall be constructed on the front of the building as proposed, so as to provide a second means of exit; that such fire escape shall have a gooseneck ladder to the roof; that the stair furnishing the primary means of exit shall be maintained to the roof as shown; and as to objection 2, that all the floors used for manufacturing shall be reinforced, as required by the borough superintendent, so as to sustain a liveload of not less than 100 lbs. per superficial foot; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

167-45-A

APPLICANT—William Sambur, for Samuel Litt, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—126-18 Liberty avenue, southwest corner of 127th street (Block 9580, Lot 4), Richmond Hill, Borough of Queens (Under section 35, General City Law re bed of mapped street—127th street).
APPEARANCES—
For Applicant: William Sambur.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn..... 3
Negative: Commissioner Savage..... 1

THE RESOLUTION (167-45-A)

WHEREAS, William Sambur, for Samuel Litt, owner, filed March 23, 1945, an appeal from a decision of the borough superintendent and an application pursuant to Section 35 of the General City Law, to permit the extension of a building into the bed of a mapped street (127th street), as cited in a decision of the borough superintendent, affecting premises 126-18 Liberty avenue, southwest corner 127th street (Block 9580, Lot 4), Richmond Hill, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated March 14, 1945, on Alt. Applic. 312-45, reads:

"1. The increase in area of a frame business building is contrary to Sec. 4.2.1 of the Building Code.

2. The extension of a building into the bed of a mapped street, is contrary to Sec. 35 of the General City Law."

and

WHEREAS, the applicant states the building is 1 and 2 stories (23 ft.) in height; 51 ft. by 87 ft. 6 in. in area; of Class 3 and Class 4 construction; erected 1934; located in a business use, D area, Class 1 height district, and used and occupied since 1934 as a lumber yard and offices and proposed to be used and occupied as follows: 1st floor, lumber yard and offices, 10 persons; 2nd floor, trim storage, 2 persons; that the building will be equipped with one 44 in. wide iron stairs, enclosed in 4 in. fireproof blocks, equipped with kalamein, self-closing doors and leading indirectly to the street; that a ladder and scuttle to the roof will be provided; and

WHEREAS, the applicant contends that the existing building is Class 4 construction; that the proposed extension will be of Class 3 construction, with the exception that the existing frame exterior wall is to be used for the support of one end of the extension roof beams; that the owner agrees to furnish a letter to the Board to the effect that no reimbursement will be expected from the City for the structure to be erected in the bed of the mapped street in the event of an actual street widening; and

WHEREAS, the Borough Superintendent has ruled that the premises should not be classified under the Zoning Resolution as a lumber yard, which is a prohibited use in a business use district under Article 2, Section 4 (a) (31) and the Board is not passing on this question.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 312-45, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, as to objection 1, *on condition* that the extension as proposed, toward 127th street, shall be constructed of masonry exterior walls, as proposed and indicated on plans filed with this appeal marked "Received March 23, 1945"; that such extension shall be used for offices and display show room, as proposed; and as to objection 2, *granted* under the powers vested in the Board under section 35 of the General City Law, permitting the extension of the proposed building into the bed of the mapped street, as proposed and

shown on plans filed with this appeal, *on condition* that in the event the street widening is carried through, the buildings within the bed of the street shall be removed at the owner's expense and no claim made for condemnation thereof, other than for the value of the land itself; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

183-45-A

APPLICANT—Max Horn, for Maxel Holding Corporation, owner (Spatz Furniture Co., lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—1037-1041 Beach 20th street, west side, 204 ft. 8 in. south of Mott avenue (1st and 2nd floors); (Block 212, Lot 60), Far Rockaway, Borough of Queens.
APPEARANCES—
For Applicant: Max Horn and Samuel Spatz.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn..... 3
Negative: Commissioner Savage..... 1

THE RESOLUTION (183-45-A)

WHEREAS, Max Horn, for Maxel Holding Corporation, owner (Spatz Furniture Co., lessee), filed March 28, 1945, an appeal from a decision of the borough superintendent, affecting premises 1037-1041 Beach 20th street, west side, 204 ft. 8 in. south of Mott avenue (1st and 2nd floors); (Block 212, Lot 60), Far Rockaway, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated March 20, 1945, on Alt. Applic. 287-45, reads:

"1. Exit facilities for the number of occupants in accordance with Sec. 6.1.2.3 (d) does not comply with Art. 6 of the Building Code."

and

WHEREAS, the applicant states that the building is 3 stories (33 ft.) in height, 122 ft. by 60 ft. in area, of class 3 construction, erected in 1881, located in a business use, C area, class 1 height district and used and occupied: cellar—boiler room—no persons; 1st floor—stores—3 persons; 2nd floor—apartment (vacant); 3rd floor—apartment (vacant); proposed to be used and occupied as follows: cellar—same; 1st floor—same; 2nd floor—display room—10 persons; 3rd floor—apartment (vacant); that the building is equipped with one 3 ft. 1 in. wide wood stair, enclosed in partitions of stud and plaster, equipped with one hour test self-closing doors and leading to the street and is provided with a ladder and a scuttle to the roof; that there is also one fire escape at the rear, extending to the roof by a ladder and to the yard by a drop ladder, with egress from the termination through the hall and store to the street; and

WHEREAS, the applicant contends that the building is divided by brick walls into three units; that the 1st floor is occupied by stores; that the 2nd floor in 1041-43 is occupied by a restaurant and the third floor in 1041-3 is occupied by the restaurant owner; that the 2nd and 3rd floors of the balance of the building originally were occupied as dwellings, but have been vacant for many years; that the lessee of ½ of the 1st floor of 1041-43 proposes to use the 2nd floor of 1037-1039 for display of light furniture; that a brick wall with a self-closing fire door separates the store from the 2nd floor display room; that the third floor will remain unoccupied and will be closed off except for an access door; that the 2nd floor showroom will be used only by an attendant who will take occasional customers to that floor; that the objection is based on the assumption that every 25 sq. ft. shall accommodate one person; that this should not be made to apply in this case, as furniture will take up much of the floor space, so that the actual occupancy will be small; that exits from the second floor consist of a 3 ft. wide stair leading to the street, a horizontal exit through the brick wall, equipped with a 3 ft. 8 in. wide fire-door and stairs to the store and an existing fire escape to the yard at the rear; that it is proposed to fire-retard the 2nd floor hall on both sides with ½ in. plaster board and plaster and to fire retard the 1st floor stud partition only on the hall side; that the 3rd floor will be closed off with a stud partition and a small access door; that in view of these facts and the small number of occupants proposed and the three existing exits, plus the fire retarding on top of present plaster, it is requested that the Board accept the conditions as proposed.

Resolved, that the decision of the borough superintendent as to Alt. Applic. 287-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the occupancy of the second floor shall be substantially as proposed; that all of the exits as proposed and as indicated on plans filed with this appeal marked "Received March 28, 1945" from such second floor shall be maintained; that egress shall also be provided by means of the exterior windows from the 2nd floor, leading to the roof of the existing one story buildings, so as to permit exit by means of an exterior fire stair leading to Mott avenue as shown; that the floor load of the 2nd floor shall not be less than 70 lbs. per superficial foot and so posted; that the occupancy of the 2nd floor shall be used only as a display room as proposed for household furniture and that at no time shall the floor loading be exceeded; that the third floor shall remain vacant; that the access door thereto as proposed may be retained; that the building shall not be increased in height or area.

193-45-A

APPLICANT—Michael Glick, for Jennie Lapin, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—1074 Franklin avenue, south side, 249.70 ft. east of 3rd avenue (1st and 2nd floors); (Block 2607, Lot 37), Borough of The Bronx.
APPEARANCES—
For Applicant: Michael Glick and Stanley Lapin.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (193-45-A)

WHEREAS, Michael Glick, for Jennie Lapin, owner, filed March 26, 1945, an appeal from a decision of the borough superintendent, affecting premises 1074 Franklin avenue, south side, 249.70 ft. east of 3rd avenue (1st and 2nd floors); (Block 2607, Lot 37), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 134-45, dated March 20, 1945, reads:

"2. Exits must comply with Section 270 of the Labor Law."

and

WHEREAS, the applicant states that the building is two stories (25 ft.) in height; 27 ft. 8 in. by 125 ft. in area; of Class 3 construction; erected in 1922 and located in a business use, B area, Class 1¼ height district; equipped with one 3 ft. 6 in. wide wood interior stairs to be enclosed in fire retarded partitions and equipped with fireproof, self-closing doors and leading directly to the street and provided with a ladder and scuttle to the roof, and proposed to be provided with a fire escape at the front, with a counter-balanced ladder leading to the street; that windows and doors on the course of the fire escape will be made fireproof, self-closing; and

MINUTES

WHEREAS, Certificate of Occupancy 344, issued May 26, 1922, permits the use of the building as a one family dwelling and garage with 40 lbs. live load on the 2nd floor; and

WHEREAS, the applicant contends the building is used for the manufacture of airplane kits on the 1st floor with an occupancy of 10 persons and with offices on the 2nd floor with an occupancy of 3 persons; that to be required to construct an additional stairway in conformance with Section 270 of the Labor Law for this narrow building would be a severe hardship, as sufficient space is required at the front of the building for deliveries and shipments; that there is a 75 ft. deep yard and large rear door leading thereto; that there is a door from the rear on the 2nd floor, opening to the extension of the 1st floor roof, permitting employees to leave the premises on short notice; that the applicant requests the Board to permit the erection of a counter-balanced ladder at the front and to allow the present stairway of 3 ft. 6 in. and the front exit door of 2 ft. 6 in., as these conditions exist and cannot be easily altered; it is requested that present wood partitions be permitted to remain around the stair enclosure, as it is proposed to fire retard them with wire lath and Portland cement mortar from the 1st floor to ceiling of the 2nd floor; that these partitions were previously approved for garage use and the proposed use is less hazardous.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 134-45, objection 2, and that the appeal be and it hereby is *granted on condition* that the primary means of exit shall be fire-retarded as proposed and a second means of exit from the second floor shall be provided by means of a balcony and counter-balanced stair to the street, as indicated on plans filed with this appeal, marked "Received March 26, 1945;" that the main door at the foot of the stairs, comprising the primary means of exit, may be continued if not less than 2 ft. 6 in. in width; that a gooseneck ladder shall be provided from the roof of the first story extension, leading to the rear yard; that the occupancy of the second floor shall not exceed five persons and for office work only; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 314-24-A; that a new certificate of occupancy shall be obtained.

216-45-A

APPLICANT—Abraham Schwartz, for National Railway Publishing Co., owner (Kraft Products Corp., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—424-438 West 33rd street, south side, 268 ft. 9 in. west of 9th avenue (3rd floor); (Block 730, Lot 63), Borough of Manhattan.

APPEARANCES—

For Applicant: Abraham Schwartz and Sol Ader.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (216-45-A)

WHEREAS, Abraham Schwartz, for National Railway Publishing Company, owner (Kraft Products Corporation, lessee), filed April 11, 1945, an appeal from a decision of the borough superintendent, affecting premises 424-438 West 33rd street, south side, 268 ft. 9 in. west of 9th avenue (3rd floor); (Block 730, Lot 63), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated March 16, 1945, on B. N. Applics. 298-45 and 299-45, reads:

"1. Ventilation of storage room not in accordance with Rule 4.2.1. of Rules of the Board of Standards and Appeals, which calls for a 'window opening to the outer air, etc.'"

and

WHEREAS, this appeal relates only to BN. Applic. 299-45; and

WHEREAS, the applicant states the building is 13 stories (175 ft.) in height; 131 ft. 3 in. by 98 ft. 9 in. in area; of Class 1 construction; erected 1912; located in an unrestricted use, A area, Class 1½ height district and used and occupied since 1921 as follows: cellar, repair and sale of paper cutting machines; 1st floor, same; 95 persons; 2nd floor, printing, 50 persons; 3rd floor, electroplating, 45 persons; 4th floor, printing, 41 persons; 5th floor, radio manufacturing, 50 persons; 6th floor, lithographing and printing, 45 persons; 7th floor, radio manufacturing, 30 persons; 8th floor, engraving, 50 persons; 9th floor, printing, 40 persons; 10th floor, printing, 40 persons; 11th floor, offices, 52 persons; 12th floor, printing, 63 persons; 13th floor, radio manufacturing, 33 persons; that no change in use or occupancy is proposed; that the building is equipped with a two source sprinkler system, a standpipe system, an interior fire alarm system and that fire drills are maintained; that there are four 3 ft. 2 in. wide steel stairs from the roof to the street, enclosed in 6 in. terra cotta partitions, plastered both sides and equipped with fireproof, self-closing doors; and

WHEREAS, the applicant contends that the lessee of the 3rd floor is engaged in electroplating almost exclusively on war work; that in lieu of the window to the outer air as required by Rule 4.2.1, it is proposed to install a 8 in. round galvanized iron duct, extending from the rear wall of the paint storage room (at a point 12 in. above the floor), to a window facing the rear yard; that this will give adequate ventilation, as the room is small and holds only 500 gallons of paint; that the paint is removed as required and placed in small metal paint container located in spray room; that the paint storage room is constructed to comply in all respects with the Rules of the Board; that the floor and ceiling are of concrete; that the walls are 4 in. cinder concrete blocks, plastered on two sides and the door is an Underwriters label 3 hour test door; that the room is equipped with a sprinkler head and that all the windows on the 3rd floor are 7 ft. 9 in. from the rear lot line and there is no other building within 20 ft. of the exhaust duct.

Resolved, that the decision of the borough superintendent, acting on B. N. Applic. 299-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the paint storage room shall be constructed substantially as proposed and as indicated on plans filed with this appeal marked "Received April 11, 1945"; that the 8 in. duct shall be not less than 20 gauge; that an electric fan shall be provided at the outer terminus; that the duct from the spray booth, as shown passing through the paint storage room, shall be wrapped with metal fabric and asbestos plaster, so as to render it substantially leakproof; that the sprinkler system, standpipe system, fire alarm system and fire drills shall be maintained to the satisfaction of the fire commissioner; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

407-42-A

APPLICANT—Raymond Irrera, for 28th Properties, Inc., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—31-81 Steinway street, east side, 100 ft. north of Broadway (Block 678, Lot 9), Astoria, Borough of Queens.

APPEARANCES—
For Applicant: Raymond Irrera.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (407-42-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 31-81 Steinway street, east side, 100 ft. north of Broadway (Block 678, Lot 9), Astoria, Borough of Queens, was granted by the Board on April 6, 1943, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted April 6, 1943, only so far as it has reference to the requirement that the side walls of the 3-story building shall be brick-filled, so that as amended, resolution shall read:

"*Resolved,* that the decision of the borough superintendent acting on Alt. Applic. 564-42, Objs. 1 and 2 of February 2, 1943, be and it hereby is *modified* and that the appeal be and it here is *granted on condition* that the building shall not be increased in height or area, that this variance shall continue only while the occupancy is retail sale and display of household furniture; that the side walls of the three-story building shall be brick-filled; that no new opening in the sidewalls shall be constructed; that the floors in the three-story building shall be reinforced in a manner similar to that proposed and to the satisfaction of the borough superintendent, so as to provide a floor loading per superficial foot of 75 lbs., except for the office space on the second floor over the show windows, which may have a floor loading of 50 lbs. per superficial foot; that the main interior stairs shall be enclosed as proposed on the basement, first, second and third floors, and the rear stairs from the second story to the underside of roof beams on the third story with a 1-hour enclosure with fireproof self-closing doors; that the existing fire escape shall be provided with a gooseneck ladder to roof of third story; that a loose iron ladder shall be provided on the roof of the one-story extension of sufficient length to reach the rear yard; that a scuttle and ladder shall be provided within the main stairway enclosure at third story to provide access to roof; that at least one window at rear of 1st story shall be changed to a door to provide access to rear yard from which access shall be provided through adjoining premises, and the consent of the adjoining owner for such access through fence shall be filed with the borough superintendent; that trap doors in sidewalk now in front of the main entrance shall be relocated southerly as proposed and shown; that not less than three well holes shall be constructed at intervals of 25 feet in the first floor with removable covers not less than 1 foot square, located substantially in line with the center of building for Fire Department use in the event of a cellar fire, and maintained unobstructed; that the number of occupants employed throughout the building shall not exceed ten (10); that such portable fire fighting appliances shall be maintained as the fire commissioner shall require; that in all other respects, the building and its use and occupancy shall comply with all laws, ordinances and regulations applicable thereto.

Resolved further, that any side walls of any portion of the building that are not masonry or brick-filled between studs shall be filled in between studs for the full height, with Vermiculite concrete or Vermiculite plaster."

236-43-A

APPLICANT—Schuman and Liebenstein, for American Heat Treating Corporation, owner.
SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from an order and a decision of the fire commissioner and a decision of the borough superintendent (previously granted on condition).
PREMISES AFFECTED—517 West 47th street, north side, 250 ft. west of Tenth avenue (Block 1073, Lot 22), Borough of Manhattan.
APPEARANCES—
For Applicant: Sidney Schuman.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—

Negative: 0

THE RESOLUTION (236-43-A)

WHEREAS, this appeal from an order and a decision of the fire commissioner and a decision of the borough superintendent, affecting premises 517 West 47th street, north side, 250 ft. west of Tenth avenue (Block 1073, Lot 22), Borough of Manhattan, was granted by the Board on September 28, 1943, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted September 28, 1943, so that as amended, the resolution shall read:

"*Resolved,* that the order of the fire commissioner, Order 33951-LC, and the decision of the borough superintendent, Misc. Applic. 615-43, Objection 1, be and they hereby are *modified* and that the appeal be and it hereby is *granted on condition* that not more than 4,000 gallons of lubricating oil shall be stored on the premises; that such oil shall have a flash point of not less than 350 degrees F. and shall be stored in steel containers on the first floor as indicated on plan filed with this appeal marked "Received May 18, 1943"; that such oil shall be used only for the purpose as proposed; that such foamite or other portable extinguishers shall be maintained as the fire commissioner shall direct; that such oil shall be delivered to the premises only in approved 55-gallon drums; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance shall continue only during the term of the present emergency.

Resolved further, that in the event these premises are operated by the Zenith HeatTreating Corporation in the same line of business, the variance as herein granted shall apply."

MINUTES

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on March 13, 1945, as they appeared in Bulletin No. 12, Vol. 30, are hereby corrected to read as follows:

21-45-A

APPLICANT—Samuel Rosenblum, for Jessie Ridley, owner (Abbott Glass Co., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—154-164 East 120th street, south side, 111 ft. 9 in. east of Lexington avenue (1st and 2nd floors); (Block 1768, Lot 46), Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (21-45-A)

WHEREAS, Samuel Rosenblum, for Jessie Ridley, owner (Abbott Glass Company, lessee), filed January 16, 1945, an appeal from a decision of the borough superintendent, affecting premises 154-164 East 120th street, south side, 111 ft. 9 in. east of Lexington avenue (1st and 2nd floors); (Block 1768, Lot 46), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent dated March 2, 1945, on amendment to Alt. Applic. 1227-44, reads:

"2. The means of egress shall conform with Section 270 Sub. 3, 4 and 5, Labor Law.

5. The subdividing partitions shall conform with C26-637 also C26-667, Sub. 10.9.2.5 B. Code."

and

WHEREAS, the applicant states that the building is 2 stories (30 ft.) in height, 100 ft. by 100 ft. 11 in. in area, of class 1 construction; erected in 1913, located in a business use, B area, class 1½ height district and used and occupied since 1944 as follows: cellar—boiler room—no persons; 1st floor—office, glass cutting *and non-storage garage for five cars*—12 persons; mezzanine—office—3 persons; 2nd floor—storage and cutting of glass, polishing and mirror silvering—24 persons; one tenant throughout the building; that the building is equipped with one interior fireproof stairs, 3 ft. 8 in. wide, fireproof enclosed, equipped with fireproof, self-closing doors and extending from the roof bulkhead, directly to the street at the center of the building, and a secondary stairs, 2 ft. 8 in. and 3 ft. 4 in. wide at easterly side of the building, extending from the 1st story to the 2nd story; that there is also one fire escape at the rear, extending to the roof by a ladder and to the yard by stair with egress proposed through the adjoining premises to the south; that the windows and door openings on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that plans for the new building were filed subsequent to October 1, 1913; that the building was formerly used for garage purposes and is now being used by one tenant for the cutting of glass, polishing and silvering of mirrors, with a maximum occupancy not to exceed 24 persons above the grade floor; that the interior fireproof stairs conforms to the Labor Law; that the secondary stairs, which is fireproof, is enclosed on the 2nd and mezzanine floors in fireproof partitions; that it does not conform to Section 270 of the Labor Law; that the stair from the mezzanine to the 2nd floor is 2 ft. 8 in. wide, enclosed on top and bottom with fireproof, self-closing doors; that from the mezzanine, there is a 3 ft. 4 in. iron stair leading to the grade floor; that in addition to these two means of egress, there is an iron stair in the rear court, terminating in the court, but proposed to be provided with a fireproof door to the adjoining premises to the south under the same ownership; that as the proposed occupancy will not exceed the capacity of the primary means of egress, it is requested that this appeal be granted.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the labor law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1227-44, and that the appeal be and it hereby is *granted,* as to objection 2, *on condition* that the means of egress shall be maintained as indicated on plans filed with this appeal marked "Received March 8, 1945"; that the fireproof door, in the lot line wall of the adjoining garage building to the south, shall be maintained so long as the adjoining premises are under the same ownership and free access shall be possible at all times through such building to East 119th street; that the means of access to the roof as indicated, shall be maintained; as to Objection 5, that the temporary partitions indicated on first floor and second floor, may be continued for a term of two years, provided such partitions are covered on both sides with approved plaster board; that the building shall not be increased in height or area; that the occupancy throughout shall be by one tenant; that the boiler room shall be separated from the balance of the building by fireproof construction; that any gasoline storage system previously used, shall be sealed to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws and rules applicable thereto.

---

* Correction—The words *"and non-storage garage for five cars"* inserted in line 20 of resolution.

NOTICE

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31. 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

Minutes of Regular Meeting, April 24, 1945, at 2 P. M., Affecting Calendar Numbers 627-44-A, 732-44-A, 72-45-A, 144-45-A, 187-45-A, 206-45-A, 207-45-A, 219-45-A, 45-43-A, 282-44-A, 645-44-A, 184-45-A, 189-45-A, 647-44-A, 657-44-A, 703-44-A, 715-44-A, 100-45-A, 608-29-BZ, 678-30-BZ and 272-36-BZ.

(Remaining minutes of the meeting of April 24, 1945 will be printed in the Bulletin of May 8, 1945.)

COURT DECISION.

Matter of Pinchot v. Murdock—On May 16, 1944, the Board affirmed the decision of the Borough Superintendent, acting on Alt. Applic. 99-43, Objection 11, and denied appeal re manufacturing use on 1st and basement floors; Cal. No. 433-43-A; premises 387-393 Fourth Avenue and 101-113 East 27th Street, Borough of Manhattan.

Mr. Justice Hammer, Supreme Court, Special Term, sustained the Board and dismissed certiorari without prejudice to petitioner making an application for a variance, as suggested by Board. Following is the full decision, as printed in N. Y. Law Journal, Page 1503, April 20, 1945:

Matter of Pinchot (Murdock)—The record is capable of but one interpretation. The twelve-story building in question, according to the building department records, was erected under an approved new building application filed in 1909 for lofts, and was so occupied until 1911 when, under an approved alteration application 1,003, the occupancy on the first floor was changed to that of store. In 1926, an owner's application, which was approved, permitted use for offices and alteration application 801-32 approved about May 31, 1932, showed an office building and stores. An approved alteration application No. 99 of 1943, showed the use of the building as that of factory from second to twelfth floors and store on the first floor. The inspector's report of February 16, 1943, showed the occupancy as stores and offices on first floor, lofts and offices on the remaining floors. The Labor Law as interpreted by the labor department and accepted by the building department is that old lofts by implication mean used for factory work. The record shows the building was designed for and then approved by the building department for manufacturing and factory occupancy in its entirety and the construction in accordance therewith was completed in 1910. In 1909 the owners leased the building to the Manufacturers Building Company for a ten-year term. The lessee sublet various floors to subtenants who were with a few exceptions manufacturers who carried on factory work in the building. About 1911, on approval obtained from the building department, the first floor was changed to store occupancy. On July 25, 1916, except for the basement and the first or store floor and some office space on the upper floors, the building was occupied by manufacturers for factory work. While the first floor and basement, since 1911, were not occupied for manufacturing purposes, such portions and in fact the entire building was designed and constructed for such use.

From the foregoing it is clear that the determination of the board of standards and appeals was warranted by the evidence. The suggestion made by the chairman that a building zone application be filed for use of the store floor and basement for the purposes now pursued therein stated the appropriate remedy, which should have been followed, and it is assumed will be granted. Section 6, subdivision b, of Article 2 of the Building Zone Resolution originally provided any use existing in any building or premises on July 25, 1916, and not conforming to the regulations of the use district in which it is maintained may be changed, and such use may be extended throughout the building provided no structural alterations shall be made, &c.

The building in this matter is in a business district. By amendments of July 18, 1940, the words "and such use may be extended throughout the building" were omitted. The previous permission allowed by the resolution to extend an existing use throughout the building was thus withdrawn.

The extension, even if previously it was a matter of right, has ceased to exist as such. Although this may seem harsh in the present case, the court must accept the legislation as it is written. Upon this application we see no clear abuse or disregard of plain duty by the board in its determination. The order of certiorari is dismissed, and the determination of the board of standards and appeals is sustained, without prejudice to petitioners to present a building zone application for use variance as suggested by the board's chairman, or to pursue such other remedy as they may be advised.

Order signed.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases filed up to April 24, 1945.

Cal. No. Dept. Premises Affected

228-45-A—H.B.Bx.—1921 Colden avenue, west side, 215 ft. north of Rhinelander avenue (cellar); (Block 4267, Lot 53), Borough of The Bronx, Amendment to Alt. 438-44.

229-45-A—F.D.—302-322 Butler street, south side, 150 ft. east of 3rd avenue (3rd floor); (Block 413, Lot 15), Borough of Brooklyn, 99079-C and Decision.

230-45-SA—Steiner-Ives Indirect Gas-Fired Industrial Baking Oven, Appliance.

231-45-A—H.B.M.—2 East 64th street, southeast corner of 5th avenue (Block 1378, Lot 69), Borough of Manhattan, Amendment to Alt. 448-45.

232-45-BZ—H.B.Bx.—681-683 East Fordham road, northeast corner of Cambreling avenue (Block 3273, part of Lot 177), Borough of The Bronx, Amendment to Alt. 125-45.

233-45-A—H.B.M.—120-134 Park avenue, 76-82 East 42nd street, southwest corner and 57-63 East 41st street (1st floor); (Block 1276, Lot 33), Borough of Manhattan, Amendment to P.A. 973-43.

234-45-A—H.B.B.—6201-6223 15th avenue, east side, between 62nd and 63rd streets (3rd floor); (Block 5530, Lot 1), Borough of Brooklyn, Amendment to N.B. 21-42.

235-45-A—F.D.—311-333 West 49th street, north side, 124 ft. 9⅝ in. west of 8th avenue (2nd floor); (Block 1040, Lot 14), Borough of Manhattan, Decision.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, APRIL 24, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, April 17, 1945, and Tuesday afternoon, April 17, 1945, were approved as printed in Bulletin No. 17, Volume 30.

ZONING CASES

330-29-BZ

APPLICANT—Lama and Proskauer, for Hannah Harmon, owner.

MINUTES

SUBJECT—Application reopened January 23, 1945 (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business and residence use district, the continued use of a gasoline service station, beyond the temporary period granted by the Board of Standards and Appeals under Cal. 330-29-BZ.

PREMISES AFFECTED—70-58 to 70-66 Kissena boulevard and 153-08 to 153-18 Vleigh road, southwest corner (Block 6697, Lot 1), Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 15, 1945 at 10 A. M., for further consideration. Applicant to file revised plans.

109-43-BZ

APPLICANT—Lama and Proskauer, for Samuel Sym, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the extension in area of a building used as a wet wash laundry.

PREMISES AFFECTED—64-08 Perry avenue, south side, 47.73 ft. east of Willow avenue (Block 2716, part of Lot 12), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 8, 1945 at 10 A. M., for further consideration.

136-45-BZ

APPLICANT—Paul Friedman, for William A. White, Jr. (as executor and trustee u/w of William A. White, deceased) and Nettie H. White, owners (General Outdoor Advertising Co., Inc., lessee).

SUBJECT—Application (decision of the borough superintendent) under sections 7i and 7A of the zoning resolution, to permit in a business use district, the erection of an automobile showroom and salesroom and motor vehicle repair shop, incidental to salesroom and showroom only, with driveway entrance more than 25 ft. from Merrick boulevard.

PREMISES AFFECTED—224-01 to 224-09 Merrick boulevard and 133-29 to 133-37 224th street, northeast corner (Block 12963, Lot 308), Laurelton, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 15, 1945 at 10 A. M., for further consideration.

93-45-BZ

APPLICANT—Seelig and Finkelstein, for A. Milder and Sons and Trustees of Leake & Watts Orphan House, in the City of New York, owners.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use and D area district, the change of occupancy of an existing residence building covering more than 55% of the area of the lot.

PREMISES AFFECTED—233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.

APPEARANCES—

For Applicant: Harry Finkelstein.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn on request of applicant.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

106-45-BZ

APPLICANT—James E. Casale, for 18 East 71st street Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a restricted retail use B area district, the change of occupancy of a residence building to a private hospital, the building occupying more than 65 per cent of the lot area.

PREMISES AFFECTED—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Casale.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn on request of applicant.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

123-45-BZ

APPLICANT—Benjamin H. Whinston, for Young Israel Synagogue of Claremont Parkway, Inc., owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a B area district, the conversion and extension in area of a building now occupied as a two family dwelling into a synagogue without complying with the area requirements for a B area district.

PREMISES AFFECTED—1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2784, Lot 2), Borough of The Bronx.

APPEARANCES—

For Applicant: B. H. Whinston, Daniel Pressner and Frank Lustig.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn after discussion.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

796-23-BZ

APPLICANT—Lama and Proskauer, for 1507-1535 Coney Island Avenue Corp., owner.

SUBJECT—Application reopened October 10, 1944 (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a business use district, the alteration of a garage and gasoline service station (previously granted by the Board) to include a room for display and sale of new and used cars.

MINUTES

PREMISES AFFECTED—1507-1537 Coney Island avenue and 1101-1111 Avenue L, northeast corner (Block 6722, Lot 49), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred A. Lama.
For Opposition: Pini Halper.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (796-23-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 1507-1537 Coney Island avenue and 1101-1111 Avenue L, northeast corner (Block 6722, Lot 49), Borough of Brooklyn, was granted by the Board on July 24, 1923, on certain conditions; and

WHEREAS, on November 18, 1932, the resolution was amended, to permit the inclusion of a gasoline service station; and

WHEREAS, the applicant requested a further amendment of the resolution, to include a room for display and sale of new and used cars; and

WHEREAS, this case was reopened by vote of the Board on October 10, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 24, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Coney Island avenue is in a business use, C area and Class 1¼ times height district; East 10th street and East 12th street are in a residence use, C area and Class 1¼ height district; and Avenue L is in a residence and business use, C area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated August 30, 1944 on Alt. Applic. 2478-44, reads:

"1. Proposed change of occupancy to include room for display and sales of new and used cars must be considered by Board of Standards and Appeals under their Cal. 796-23-BZ."

and

WHEREAS, the applicant states the premises consist of a plot, 275 ft. frontage by 100 ft. in depth; on which is located a one story, Class 3 constructed building, 100 ft. by 275 ft. irregular in area, occupied as a garage for more than five motor vehicles on one-half the front at the Avenue L end of the plot and that it is proposed to alter the building by erecting a showroom at the southerly end of the northerly half of the building; and

WHEREAS, the applicant contends that the premises in question has a frontage of 275 ft. on Coney Island avenue, 100 ft. on Avenue L, 275 ft. on the easterly lot line and 100 ft. on the northerly lot line; that it is improved with a one story masonry building used as a public garage and a gasoline service station, that these uses were granted by the Board under Cal. 796-23-BZ; that it is the desire of the owner to construct an automobile showroom in the present building, approximately 34 ft. by 56 ft.; also to remove a portion of the brick wall facing Coney Island avenue for show windows, also enlarge the present toilet facilities; that it is also proposed to construct a room of glass brick; to remove the present parapet of the northerly portion of the existing building, same to be constructed as shown on the plan marked proposed; that this additional use will in no way affect the general surroundings; that an automobile showroom is permissible in a business zone and it is therefore respectfully requested that this application be granted.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted on July 24, 1923, as amended by resolution adopted November 18, 1932, by adding thereto:

"* * * that in the event the owner desires an additional use, namely, the sale of new and used automobiles, and to construct a showroom substantially as indicated on revised plans marked 'Received September 26, 1944', such additional use may be permitted and the building may be constructed as shown on such plans, provided the illuminated tower as indicated does not extend in height more than 12 feet above the roof of the building; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, except as permitted under the resolution adopted by the Board under Cal. 796-43-BZ and in all other respects such resolution shall be complied with; and that all permits required shall be obtained and all work completed within one year from the day of this *amended* resolution."

607-40-BZ

APPLICANT—John H. W. Krogmann, for Wells-Smith Corp., owner (John F. Dubar, lessee).

SUBJECT—Application reopened March 27, 1945, for consideration as to extension of variance—Application previously granted on condition (decision of the borough superintendent) under section 7h of the zoning resolution, for a term of two years, permitting in a business use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—89-16 to 89-32 Sutphin boulevard, west side, 384.11 ft. north of Jamaica avenue (Block 9676, Lot 13), Jamaica, Borough of Queens.

APPEARANCES—
For Applicant: None.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (607-40-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 89-16 to 89-32 Sutphin boulevard, west side, 384.11 ft. north of Jamaica avenue (Block 9676, Lot 13), Jamaica, Borough of Queens, was granted by the Board on January 14, 1941, on certain conditions; and

WHEREAS, the permit was extended on January 19, 1943 and the applicant requested a further extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on March 27, 1945, restored to the calendar and set for hearing on April 24, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting on April 24, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 14, 1941, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended*, the conditions of the resolution of January 14, 1941, shall be complied with and that a Certificate of Occupancy shall be obtained (Misc. Applic. 3289-40)."

660-44-BZ

APPLICANT—Henry Nordheim, for Doris Gordon, owner.
SUBJECT—Application (decision of the borough superintendent) under sections 7a and 21 of the zoning resolution, to permit in a residence use district, the change of occupancy on first story of a store and office and residence building from store, apartment and garage to stores.
PREMISES AFFECTED—200 East Tremont avenue and 1884 Monroe avenue, southeast corner (Block 2804, Lot 7), Borough of The Bronx.
APPEARANCES—
For Applicant: Henry Nordheim and A. B. Gordon.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (660-44-BZ)

WHEREAS, Henry Nordheim, for Doris Gordon, owner, filed November 11, 1944, an application under sections 7a and 21 of the zoning resolution, to permit in a residence use district, the change of occupancy on the first story (of a 3-story dwelling and stores) from store, apartment and garage to stores; affecting premises 200 East Tremont avenue and 1884 Monroe avenue, southeast corner (Block 2804, Lot 7), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 24, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Grand Concourse and Monroe avenue are in a residence use, B area and Class 1¼ height district; East Tremont avenue is in a business and residence use, B area and Class 1¼ height district; Mount Hope Place is in a residence use, B area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent dated January 26, 1945, re amendment to Alt. Applic. 537-44, reads:

"1. The change from an apartment and accessory use to stores in a residence district is contrary to Art. 2, Section 3 Building Zone Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 110.25 ft. frontage by 100 ft. in depth, on which is located a 3-story apartment and stores building 24.5 ft. by 110.25 ft. with a one-story garage portion at the rear, 50 ft. in depth on the 1st story and 24.5 ft. by 61 ft. in area above, occupied as apartments, dentist's office, stores and garage (5 cars); that it is proposed to reconstruct the 1st story, so as to occupy this entire story for stores; and

WHEREAS, the applicant contends that this garage on subject plot is 20 ft. by 50 ft., one story high and has been vacant since present owner took title to the property; that it is therefore a non-producing unit on this land and yet subject to taxation; that on the same lot is a 3-story building with a store on the first story; that the second floor is occupied as a dental office and in the extension between the 3-story building and the garage, a day nursery is conducted, thus about three-quarters of the lot area is presently occupied by business use; that under these circumstances, a request to convert the balance of the structure would seem reasonable; that the garage size is sufficient to contain six cars and by eliminating that use, the danger of driving cars across the sidewalk is also eliminated in a residential district; that garage doors are to be removed and replaced by show windows and would present a better aspect along this front; that the rear lot line of this site abuts the business area of the Tremont avenue frontage east of Monroe avenue and in the very next building to this corner on the Tremont avenue side, is a store, 202 Tremont avenue, also in the residential area; that the building on the west side of Monroe avenue on Block 2801, Lot 31, was originally erected as an apartment house, but is now occupied almost exclusively by physicians, and while that occupancy is not in conflict with the zoning provisions, it is nevertheless a business use and brings a great many cars to the neighborhood, as shown in photograph No. 1, filed with this application; that the valuation placed on this parcel by the Tax Department is $34,000 with but one store, two apartments and a nursery to cover the carrying charges; that the income from such present occupancy makes it impossible for the owner to hold the property unless some relief is granted; that this site is an ugly shaped affair, L-shaped, with a lot of land inaccessible at the rear, which perhaps adds to the valuation in the opinion of an assessor, but from the standpoint of revenue producing is a liability; that with the above-mentioned conditions and the fact the premises are partly given over to business use already, it is asked the Board grant favorable action on the relief sought; and

WHEREAS, the premises and the surrounding area were inspected by a committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision a of the zoning resolution, and that the applicant failed to substantiate a basis of appeal under section 21 of the zoning resolution and was, therefore, not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent in acting on Alt. Applic. 537-44, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

23-45-BZ

APPLICANT—M. Martin Elkind, for Santa Fazzini, owner.
SUBJECT—Application (decision of the acting borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use D area district, the extension of a garage for more than five motor vehicles (trucks of the owner) without providing the rear yard required by the zoning resolution.
PREMISES AFFECTED—107-28 157th street, west side, 250 ft. south of 107th avenue (Block 10135, Lots 39, 41, 42 and 43), South Jamaica, Borough of Queens.
APPEARANCES—
For Applicant: M. Martin Elkind.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (23-45-BZ)

WHEREAS, M. Martin Elkin, for Santa Fazzini, owner, filed January 17, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a residence use D area district, the extension of a garage for more than 5 motor vehicles (trucks of the owner) without providing the rear yard required by the zoning resolution; affecting premises 107-28 157th street, west side, 250 ft. south of 107th avenue (Block 10135, Lots 39, 41, 42 and 43), South Jamaica, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 24, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 107th avenue and 108th avenue, 156th and 157th streets are in a residence use, D area and Class 1½ height district, and

WHEREAS, the decision of the borough superintendent, dated January 12, 1945, re Alt. Applic. 1185-44, reads:

"1. The extension of an existing garage for use of more than five (5) motor vehicles, in a residence district, is contrary to Section 3 of the Zone Law.

2. The erection of extension without providing the required rear yard in a residence use, "D" area district is contrary to Section 14 of the Zone Law. Not further considered."

and

WHEREAS, the applicant states the premises consist of a plot, 125 ft. frontage by 100 ft. in depth; on which is located a one story frame dwelling, a private garage, a gasoline pump, a two story frame dwelling and at the rear of the lot, a one story, Class 3 construction building, 50 ft. by 35 ft. in area, occupied for five commercical vehicles for the owner's contracting business, 1 ft. 6 in. from the rear lot line; that it is proposed to extend this garage, so that the area will be 90 ft. by 35 ft. and to occupy the building for 7 commercial cars of the owner; and

WHEREAS, the applicant contends that the proposed work consists of altering the existing one story garage at the rear of the property, by removing the southerly wall and erecting an extension 40 ft. by 35 ft.; that as to objection 1, a variance is requested, to permit the extension of the existing garage, in accordance with the powers of the Board to grant such variance under Section 7c; that the extension of this existing garage will not adversely affect the character of the district; that although the use was changed from unrestricted use to residence use in 1941, there can be no possible expectation that a residential development will take place in this district; that vacant property in this area amounts to only about 10%; that the character of the buildings on the improved properties consist in general of frame dwellings, about 25 years old or more, on narrow lots, many in poor repair, with a good sprinkling of rickety old buildings and frame private garages; that by no virtue of desirability of location, transportation or other favorable factors, does this area invite residential improvement; that it is further submitted that the trucks stored in this garage leave early in the morning and return at the end of the day; that there is no traffic at all hours of the day; that a further safeguard exists, in that the owner and his family occupy the two story dwelling on the same lot; that as to objection 2, a variance is requested to permit the proposed extension to be erected close to the rear lot line and in line with the existing garage, on the ground of practical difficulty and unnecessary hardship; that the existing garage was erected in 1935 by the present owner, for the purpose of storing his own trucks used in his business, the S & S Carting Company and has been so used ever since; that in 1935, the number of trucks consisted of four and were average size dump trucks; that expansion of business has resulted in an increase in the number of trucks and, furthermore, successful operation has demanded that improved and larger truck bodies be used; that as a result, it has become very difficult to maneuver the trucks in the limited space and there is continual damage to the truck bodies by collision, scraping, etc. due to this condition; that a new truck has been ordered and will be delivered shortly and it will be impossible to store this without expanding the garage; that it would therefore be a great hardship to require a 15 ft. yard behind the extension, creating an offset from the present garage and also creating a practical difficulty in maneuvering the vehicles into storage position; and

WHEREAS, the applicant further contends in support of the appeal as to objection 2, that the total area of the buildings as proposed on the property, will only occupy about 45% of the lot area; that the proposed extension being only one story in height, will not materially affect the light or ventilation of adjoining properties and that the properties adjoining the rear of subject premises as well as those on either side of same, have garage buildings located along the respective rear property lines; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant under section 7c of the zoning resolution as to extension of use and that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship as to area.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district requirements of the zoning resolution, and that the application be and it hereby is *granted* under sections 7c and 21 thereof, *on condition* that the building shall be constructed of the size described and indicated on plans filed with this application marked "Received January 17, 1945;" that the building shall not be increased further in height and area; that no additional building shall be erected on the premises, other than those shown on such plans; that this garage shall be a private garage, to be occupied solely for the trucks of the owner engaged in the contracting business; that the building shall be a non-storage garage; that there shall be no openings in the rear wall of the proposed extension; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within one year from the date of this resolution.

25-45-BZ

APPLICANT—Paul Friedman, for Tuscan Dairy Farms, Inc., owner (Lakewood Farms, Inc. lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the change of occupancy from existing garage, milk distribution station and office to garage for more than five motor vehicles, offices, storage of insulating and roofing materials and indoor loading platform.

PREMISES AFFECTED—211-213 (205-213 displayed) Highland place, east side, 260 ft. north of Atlantic avenue (Block 3959, Lot 7), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (25-45-BZ)

WHEREAS, Paul Friedman, for Tuscan Dairy Farms, Inc., owner (Lakewood Farms, Inc., lessee), filed January 17, 1945, an application under section 7c of the zoning resolution, to permit in a residence use district, the change of occupancy from existing garage, milk distribution station and office to garage for more than five motor vehicles, offices, storage of insulating material and indoor loading platform; affecting premises: 211-213 (205-213 displayed) Highland place, east side, 260 ft. north of Atlantic avenue (Block 3959, Lot 7), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, April 24, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Atlantic avenue is in a residence use, C area and Class 1 height district; Highland place and Hale avenue are in a residence use, C area and Class 1 height district; Fulton street is in a business use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated January 15, 1945 and as amended February 27, 1945, re Alt. Applic. 3826-44, reads:

"1. Proposed change of occupancy of one-story structure of Class 3 construction, from public garage for

more than five motor vehicles to a combination of uses, partly as a garage for more than five motor vehicles and partly for offices, storage of insulating and roofing materials, and indoor loading platforms, violates Art. II, Sec. 3 and Art. II, Sec. 6a Zoning Resolution, since this structure is located in a residence use district."

and

WHEREAS, the applicant states the premises consist of a plot 50 feet frontage by 100 ft. in depth, on which is located a one-story, Class 3 constructed building, occupied as a garage, milk distributing station and office; that it is proposed to occupy the building as a garage for more than five motor vehicles, one indoor loading platform, office and storage of insulating and roofing materials; and

WHEREAS, the applicant contends that an amendment dated May 15, 1941, changed Atlantic avenue from an unrestricted use district to residence use and changed Highland place and Hale avenue from a line 100 feet south of Fulton street, from unrestricted use to residence use; that the building on the site under appeal was completed in 1926 and Certificate of Occupancy 37776 was issued January 28, 1926, for public garage and Certificate of Occupancy 92289 was issued June 14, 1939, for garage and milk distribution station, on Alt. Applic. 2044-39, which was approved to include "office"; that it is proposed to:

1. Replace existing wood and glass sash and door with new steel sash, new glass blocks, new office door and new face brick;
2. Replace existing projecting sign with new flat sign;
3. Install at southern wall two ¾ hour fireproof, self-closing, wire glass windows, 5 ft. by 4 ft. with flush sills, to provide supplementary light and air for offices and lavatory;
4. Install new ventilating skylights over new offices and lavatory;
5. Install a new tile lavatory and new tool room;
6. Remove dwarf partitions for offices at the rear and install new fire-retarded partitions with metal lath and ¾ inch Portland cement plaster outside and two coats of gypsum mortar on rock lath inside;
7. Install new wooden floors for offices on 2 in. by 4 in. sleepers over present concrete;
8. Remove existing refrigerators at the rear and use said area for storage and as part of indoor loading platform; and

WHEREAS, the applicant contends further that the Board has jurisdiction to grant an application "to permit, where premises are devoted to a nonconforming use, the extension of a use into a district restricted against the proposed use under such conditions as will safeguard the neighborhood"; that this is an appropriate case for the Board to grant relief, because the proposed use will decrease the automobile storage from 30 motor vehicles to an actual occupancy of less than ten; that the proposed materials to be stored on the premises will be non-hazardous in nature and not required to be excluded from a storage garage by C19-65 of the Administrative Code; that the appearance of the building will be substantially more attractive by the use of new glass blocks, a new office door and new face brick, and by the replacement of the existing projecting sign with a flat sign; that the character of the district will be safeguarded, as the proposed uses are more desirable than the present use, because the proposed additional uses are of a class permitted in a business district, while the present use is permitted as a conforming use only in an unrestricted district; that the proposed use would not be inharmonious, because the existing building is already used as a garage, milk distribution station and office and many nonconforming uses exist in the neighborhood and within the area of notification; that it is therefore requested that this application be granted, subject to such conditions as the Board may deem necessary in the public interest: and

WHEREAS, the premises and the surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant under section 7e of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7e of the zoning resolution, for a term of five years from the date of this resolution, to permit the premises to be occupied as proposed as a private garage for the storage of not more than eight (8) cars and for the storage of building materials and offices as proposed, *on condition* that such cars shall be used solely by the occupant in connection with his business; that the existing gasoline storage system may be continued for use in connection with such owner's cars; that the sign on the front of the building, advertising the garage use, shall be removed; that any new sign constructed shall be erected in the sign space, as indicated, advertising the use of the building as proposed; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that all loading and unloading shall take place within the building; that the work of loading and unloading shall be done only between the hours of 8 A. M. and 6 P. M.; that the building shall not be increased in height or area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that a new certificate of occupancy shall be obtained; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

690-44-A

APPLICANT—John J. Beatty, for Atco Tank Service, Inc., owner.
SUBJECT—Appeal from an order of the fire commissioner re Transportation of Petroleum oil in tank truck (capacity of tank not in conformity with Administrative Code requirements covering Tank Trucks) in New York City.
APPEARANCES—
For Applicant: John J. Beatty.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Laid over to May 8, 1945 at 10 A. M., for further consideration.

731-44-A

APPLICANT—Franklin W. Gilman, for Loft Candy Corporation, owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—38-38 9th street (Hamilton street), west side, 244 ft. south of 38th avenue (Freeman avenue); 2nd and 3rd floors (Block 476, Lot 1), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: F. W. Gilman and Lillian Kaltman.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Removed from calendar for further examination. New date for hearing to be set.

94-45-A

APPLICANT—Seelig and Finkelstein, for A. Milder and Sons and Trustees of Leake and Watts Orphan House in the City of New York, owners.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan.
APPEARANCES—
For Applicant: Harry Finkelstein.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to May 1, 1945 at 10 A. M. Applicant to file revised plans.

MINUTES

107-45-A

APPLICANT—James E. Casale, for 18 East 71st Street Corporation, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.
APPEARANCES—
For Applicant: James E. Casale.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to May 1, 1945 at 10 A. M. Applicant to file revised plans.

124-45-A

APPLICANT—Benjamin H. Whinston, for Young Israel Synagogue of Claremont Parkway, Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2784, Lot 2), Borough of The Bronx.
APPEARANCES—
For Applicant: B. H. Whinston, Daniel Pressner and Frank Lustig.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal withdrawn on request of applicant.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

708-44-A

APPLICANT—Lanova Corp., lessee, for Jacob Freidus and Samuel Aaron, owners.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—27-01 Bridge Plaza North, north side, from 27th to 28th streets (5th floor); (Block 416, Lots 10 and 19), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: William Hamilton.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (708-44-A)

WHEREAS, Lanova Corporation, lessee, for Jacob Freidus and Samuel E. Aaron, owners, filed November 30, 1944, an appeal from an order of the fire commissioner, affecting premises 27-01 Bridge Plaza North, north side, from 27th to 28th streets (5th floor); (Block 416, Lots 10 and 19), Long Island City, Borough of Queens; and

WHEREAS, order 98109-C issued by the fire commissioner, November 6, 1944, reads:

"2. Reduce the storage of furnace oil to 10 gallons and provide a safety can for its storage or provide an approved buried storage system for the 8 drums of Diesel oil. C19-51.0, Administrative Code."

and

WHEREAS, the applicant states that the building is 6 stories and basement (90 ft.) in height, 199 ft. 9 in. by 352 ft. 4½ in. in area, of class 1 construction, erected in 1910, located in an unrestricted use, B area class 1½ height district and used and occupied as follows: basement—storage and boiler room—75 persons; 1st floor—storage, garage and manufacturing of airplane accessories—200 persons; 2nd floor—manufacturing of lighting fixtures—350 persons; 3rd floor—manufacturing of electrical instruments—550 persons; 4th floor—same—350 persons; 5th floor—manufacturing and engine testing—400 persons; 6th floor—manufacturing electrical instruments—250 persons; that the building is equipped with a two source sprinkler system, a standpipe system, an interior fire alarm system, but that fire drills are not maintained; that the building is equipped with five interior stairs, one of which is not in use, of fireproof construction, leading from the roof bulkhead directly to the street; and

WHEREAS, the applicant contends that it is impossible to comply with the Fire Department order and requests the Board to grant a variance for the following reason: that during test work, Diesel fuel is consumed in excess of ten gallons per hour; that to comply with the order would necessitate refilling small containers at short intervals and would seriously interfere with normal test procedure; that since the plant is located on the fifth floor, unreasonable expenses would be incurred in purchasing and installing pumping equipment to pump the fuel oil from an underground tank and an additional fire hazard would be involved, because of the possibility of leakage in the pipe lines; that the equipment required to comply with the order is difficult to obtain under wartime restrictions; that the oil used is #2; that the oil is pumped to a 15 gallon overhead tank, from which it feeds by gravity to the individual tank being tested; that the laboratory is well ventilated by five windows and two exhaust fans in the outside wall and no open flames are permitted in the laboratory; it is therefore requested that the order be modified and the applicant be permitted to store fuel oil in a quantity not to exceed 400 gallons in steel drums on the premises as follows: maximum of three drums to be kept on hand in the laboratory for engine testing; a maximum of seven drums to be stored in the first floor garage and the total number of full drums both in the laboratory and in storage shall be limited to eight drums.

Resolved, that the decision of the fire commissioner as to Order 98109-C be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that not more than eight 55 gallon drums of #2 fuel oil shall be maintained on the premises; that not more than three such drums shall be maintained within the laboratory on the fifth floor, in the location as indicated on plans filed with this appeal marked "Received March 22, 1945"; that the other five drums may be stored elsewhere within the fireproof portion of the building as proposed; that the oil shall be used only for testing the Diesel engines as proposed and as arranged provided same is maintained to the satisfaction of the fire commissioner; that the sprinkler system, standpipe system and interior fire alarm system shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner.

751-44-A

APPLICANT—Abe Rothenberg, lessee, for J. Stern, owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—1681-1683 McDonald avenue, east side, 180 ft. north of Avenue O (1st floor); (Block 6583, Lots 67 and 68), Borough of Brooklyn.
APPEARANCES—
For Applicant: Abe Rothenberg.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (751-44-A)

WHEREAS, Abe Rothenberg, lessee, for J. Stern, owner, filed December 29, 1944, an appeal from an order of the fire commissioner, affecting premises: 1681-1683 McDonald avenue, east side, 180 ft. north of Avenue O (1st floor); (Block 6583, Lots 67 and 68), Borough of Brooklyn; and

WHEREAS, Order 98343-LC, issued by the fire commissioner, December 4, 1944, reads:

"You are hereby notified that an inspection of the above premises used to store and use oxygen, shows that the following must be done before the permit requested by you can be issued:

FORTHWITH:

2. Have each operator supervising the operation of a blow-pipe or other similar device or apparatus for heating, melting or welding, apply for and secure a Certificate of Fitness. Examinations every day 9 A.M. to 3 P.M. Saturdays 9 to 11 A.M. Each applicant must file two unmounted photographs of himself at least 2 x 3 inches. C19-93.0-b, Admin. Code.

3. Discontinue use of blow torches not approved for such use by Board of Standards and Appeals."

and

WHEREAS, the applicant states that the building is two stories (25 ft.) in height, 40 ft. by 50 ft. in area at first floor, 40 by 40 ft. in area at 2nd floor; Class 3 construction; erected in 1930; located in business use, C area, Class 1 height district; used and occupied since June, 1944, as follows: 1681 McDonald Avenue:

Cellar, storage of glass—no persons
1st floor, glass, specialties factory, 15 persons
2nd floor—dwelling, one family.
1683 McDonald Avenue:
1st floor—Glass specialties factory—20 persons
2nd floor—dwelling, two families.

that the building is equipped with one 3 ft. 10 in. wide wood stair leading directly to the street and a ladder to a scuttle in the roof is provided; and

WHEREAS, the applicant contends as to item 2 of the Fire Commissioner's order, that the Labor Law permits the employment of persons 16 years of age and over; that the Fire Department will issue certificates of fitness only to persons 19 years of age and over; that at least half of the number of persons employed are not qualified, because they have not yet reached the minimum required age; that all the employees have been trained in their respective duties and it is difficult to find and train new employees; it is better that those who have reached qualifying age and have certificates of fitness, be permitted to be in direct responsible charge of the operation of apparatus and to permit the other employees not so qualified, to operate under their supervision; and contends as to item 3 of the order, that the same conditions exist today as existed at the time the Board acted on Cal. 573-42-A, relating to premises 983 McDonald avenue, previously occupied by this tenant; that there is no apparatus which has ever been approved for the specific type of blow torch used in the work involved; that a diligent effort has been made to have the manufacturer of the present burner submit their apparatus for approval; that the burners have been in continuous use for more than seven years without mishap and every precaution is taken to assure the safety of employees and property: it is therefore requested the Board permit the continuance of the use of the present burners until such time as approved burners are obtainable.

Resolved, that the decision of the fire commissioner as to Order 98343-LC, item 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that on each manifold at each tank, there shall be at least three operators holding Certificates of Fitness and not over two operators not holding Certificates of Fitness; that such operators holding Certificates of Fitness shall be in attendance at such manifolds at all times during working hours; as to item 3, that the blow torches permitted under Cal. 573-42-A for this same lessee when located at 983 McDonald avenue, may be used on these premises under the same terms as previously permitted under such appeal; that all equipment shall be maintained to the satisfaction of the fire commissioner; that such portable fire extinguishers shall be maintained as the fire commissioner shall direct; that this variance shall continue only during the term of the present war emergency.

102-45-A

APPLICANT—Emil Koeppel, for Alvis Speaker Corporation, owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—1631-1641 63rd street, north side, 250 ft. east of 16th avenue (1st floor); (Block 5531, Lot 20), Borough of Brooklyn.
APPEARANCES—
For Applicant: Emil Koeppel.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (102-45-A)

WHEREAS, Emil Koeppel, for Alvis Speaker Corporation, owner, filed March 2, 1945, an appeal from an order and a decision of the fire commissioner, affecting premises 1631-1641 63d Street, north side, 250 ft. east of 16th avenue (1st floor); (Block 5531, Lot 20), Borough of Brooklyn; and

WHEREAS, Order 98439-LC issued by the Fire Commissioner December 18, 1944, and repeated in his decision of March 2, 1945, reads:

"Pursuant to the requirements of the rules governing the use of equipment for spraying of paints, varnishes, lacquers and other flammable surface coatings, adopted by the Board of Standards and Appeals, the following must be done:

4. Provide that the gas fired drying ovens shall be of a type as approved by the Board of Standards and Appeals. Rule 4.3.1 Spray Rules."

and

WHEREAS, the applicant states that the building is one story (13 ft.) in height, 100 ft. by 200 ft. in area; Class 3 construction, located in an unrestricted use, C area, Class 1 height district; erected in 1928 and used and occupied since 1944 as follows: Cellar, boiler room; 1st floor, manufacture of radio parts, 60 persons; that no change of use or occupancy is proposed; that Certificate of Occupancy 53502 issued November 5, 1928, permits the use of the building as a public garage for more than 5 cars; that the building is equipped with a one source sprinkler system; and

WHEREAS, the applicant contends that the Board is requested to accept the installation of the gas-fired baking oven, which was constructed by the lessees for this specific installation; that the oven is properly ventilated, constructed of 2 in. x 2 in. angle iron, 2 ft. on centers, covered with 24 gauge sheet metal on both sides and provided with 8 inches of insulation between walls, as indicated on diagram filed with this appeal.

Resolved, that the decision of the fire commissioner as to Order 98439-LC, Item 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that no additional ovens shall be constructed or used unless of a type approved by this Board; that the oven involved in this appeal shall be constructed and maintained in accordance with the requirements of the Spray Rules of the Board in all respects.

111-45-A

APPLICANT—B. H. Aircraft Co., Inc., owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—27-01 Bridge Plaza North, north side, from 27th to 28th street and 41-35 27th street (5th floor); (Block 416, Lot 10), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Frank A. Nichol.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal dismissed, improperly before the Board.

THE VOTE TO DISMISS—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (111-45-A)

WHEREAS, B. H. Aircraft Co., Inc., owner, filed March 2, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 27-01 Bridge Plaza North, north side, from 27th to 28th street and 41-35 27th street (5th floor); (Block 416, Lot 10), Long Island City, Borough of Queens; and

WHEREAS, order 13845-LF, issued by the fire commissioner November 21, 1944 and referred to in a decision of the fire commissioner dated March 1, 1945, reads:

"2. Have gas fired ovens thermostatic controls for saltpetre tanks conform to Spray and Dipping Rules Board of Standards and Appeals, and Section C19-10.0 Administrative Code, and also comply with the following: A. Provide an extra switch to permit the operation of the fans when the gas supply is off. Each oven shall be equipped with approved gas burning equipment with electrical controls so arranged as to shut off the gas valve when the ignition fails or the gas supply pressure drops to 2 inches of water."

and

WHEREAS, the applicant states that the building is 6 stories (96 ft.) in height, 201 ft. by 353 ft. in area, of class 1 construction, erected in 1910, located in an unrestricted use, B area, Class 1½ height district and used and occupied as follows: cellar—storage and boiler room—50 persons; 1st floor—garage and manufacturing aviation parts—160 persons; 2nd floor—manufacturing aviation parts—150 persons; 3rd floor—manufacturing electrical instruments—575 persons; 4th floor—same—225 persons; 5th floor—manufacturing aviation parts—450 persons; 6th floor—manufacturing electrical instruments—160 persons; that the building is equipped with a one source sprinkler system, a standpipe system, an interior fire alarm system, but that fire drills are not maintained; that there are four interior fireproof stairs from the roof to the street; and

WHEREAS, the applicant contends that each saltpetre tank is supplied by an individual gas compressor, to compress the city gas from line pressure to four pounds per square inch; that the gas at four pounds, supplies ten individual inspirators and burner nozzles on each furnace; that the air required for the combustion of the gas is furnished through the inspirator located close to the burner nozzle, so that the only combustible air gas mixture is between the inspirator and the burner nozzle; that each saltpetre tank is equipped with an electric automatic temperature control for maintaining constant temperature in the tank; that each saltpetre tank has a partlow limit switch, set at 965 degrees (50 degrees over pyrometer setting), to prevent overheating and will operate and shut off the current from the tank in case of any current failure; that this switch has manual re-set; that each tank has a Maxon gas valve 1½ in. and this will close when current goes off and shut off the gas from the compressors and tank; that this valve has manual re-set; that the saltpetre tanks and equipment are under constant supervision of operators and maintenance men on all three shifts and careful inspection of the underside or bottom of the tanks are made daily, to check for signs of burning out; that no trouble of any kind has been experienced since December 1942; that two spare tanks are on hand for emergencies; that a special concrete floor 15 ft. x 18 ft., six inches thick above the original floor with a concrete curbing or dike at least 4 in. thick and 6 in. to 15 in. high encloses the tank area, any leaking would be confined here; and

WHEREAS, in the opinion of the Board this order is not properly based on the Spray and Dipping Rules of the Board of Standards and Appeals nor on Section C19-10.0 of the Administrative Code.

Resolved, that the appeal be and it hereby is *dismissed* as being improperly before the Board.

153-45-A

APPLICANT—Saul Goldsmith, for 35-18 37th Street Corporation, owner (Kurman Electric Co., lessee).
SUBJECT—Appeal from a decision re an order of the fire commissioner.
PREMISES AFFECTED—35-18 37th street, west side, 165 ft. south of 35th avenue (cellar); (Block 640, Lot 31), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Saul Goldsmith and N. Kurman.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (153-45-A)

WHEREAS, Saul Goldsmith, for 35-18 37th Street Corporation, owner (Kurman Electric Company, lessee), filed March 16, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 35-18 37th street, west side, 165 ft. south of 35th avenue (Cellar); (Block 640, Lot 31), Long Island City, Borough of Queens; and

WHEREAS, Order 97639-LC, issued by the fire commissioner August 15, 1944, and repeated in a decision of the fire commissioner dated March 8, 1945, reads:

"You are hereby notified that an inspection of the above premises, used to store and use paints, etc. shows that the following must be done before the permit requested by you may be issued.

2. Discontinue storage and use of hydrogen gas as such use creates a grave fire hazard, and is against the interest of public safety. C19-11.0, Administrative Code."

and

WHEREAS, the applicant states the building is 2 and 3 stories (45 ft.) in height; 95 ft. by 90 ft. in area; of Class 3 construction; erected 1925; located in an unrestricted use, B area, Class 1½ height district and used and occupied since 1943 for the manufacture of electrical timing devices and electrical relays, 100 persons in the cellar, 140 persons on the 1st floor; 80 persons on the 2nd floor and 40 persons on the 3rd floor; that the building is equipped with a one source sprinkler system, two interior stairs, complying with Section 270 of the Labor Law and leading from the roof bulkhead directly to the street; and

WHEREAS, the applicant contends that hydrogen gas is used in connection with a hydrogen furnace in order to process and heat treat magnetic materials; that it is of the utmost importance to carry out the operation in this manner; that the hydrogen furnace is manufactured by the Hoskins Manufacturing Company; that they have been advised of the necessity of securing Board of Standards and Appeals approval for the furnace; that they have already taken steps to secure such approval; that two cylinders of hydrogen gas are attached to the furnace and two drums of hydrogen gas are kept in reserve; that the furnace and gas are now used and stored in the cellar of the building; that an amendment has been filed in the Department of Housing & Buildings under Alt. 3086-41, in order to construct a new fireproof cellar extension at the rear yard level; that the plans indicate the entire construction with the two cylinders of hydrogen located within the furnace room and two cylinders of hydrogen located outside of the furnace room; that the plant is engaged in 100% war work with many secret and restricted devices being manufactured and developed; that electrical relays and timing devices are manufactured for Communications, Signal Corp and Radar Division; that the sprinkler system is hooked up to Central station alarm and is patrolled by watchman service 24 hours a day; that the building is owned and occupied by the same principals; that the Board is requested to grant a modification for the use and storage of hydrogen gas as proposed, outside of the building proper and located in a separate building at the rear yard cellar level.

Resolved, that the decision of the fire commissioner as to Order 97639-LC, Item 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that not more than four (4) cylinders of hydrogen shall be stored on the premises as proposed, two of which are to be spare and located in the outer air under the roof, as indicated on plans filed with this appeal marked "Received March 28, 1945" and two in use within the furnace room attached to a manifold, all maintained in a rigid position to the satisfaction of the fire commissioner; that in addition to the ventilation shown on such plan, a wind-driven ventilator shall also be installed in the roof directly over the point where the live cylinders are stored; that such approved regulating devices shall be installed and maintained as the fire commissioner shall direct; that the person in charge shall hold a Certificate of Fitness; that the sprinkler system shall be maintained within the furnace room as proposed.

MATERIALS SUBMITTED FOR APPROVAL

490-44-SM

APPLICANT—Anchor Hocking Glass Corporation, owner.
SUBJECT—Anchor Hocking Glass Corporation's "Boston Round" Glass Bottles in 4 oz., 6 oz., 8 oz., 16 oz. and 32 oz. sizes, approval of.
APPEARANCES—
For Applicant: None.
ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (490-44-SM)

WHEREAS, the Anchor Hocking Glass Corporation, owner, filed on August 14, 1944, an application with the Board of Standards and Appeals for approval of the material known as the Anchor Hocking Glass Corporation's "Boston Round" Glass Bottles in 4 oz., 6 oz., 8 oz., 16 oz. and 32 oz. sizes; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 490-44-SM
Subject: Anchor Hocking Glass Corporation "Boston Round" Glass Bottles in 4, 6, 8, 16 and 32 oz. sizes, approval of.

March 16, 1945.

The Glass Container Association of America, New York, New York, filed an application in behalf of the Anchor Hocking Glass Corporation, for approval of glass containers as herein described for the packaging of combustible and inflammable mixtures as prescribed in C19-2.0, subd. 11 and C19-2.0, subd. 22, respectively of Chapter 19 of the Administrative Code.

Manufacture of Glass Containers

The basic materials are silica, sodium oxide and calcium oxide, purchased by specification. The materials are carefully weighed in batches and checked for purity and constancy of composition. A proportion of finely broken glass called Cullet derived from used glass constitutes from 15 to 25% of each batch. After the material is weighed out and mixed in batches for a predetermined period of time, they are charged into a continuous type of melting furnace and subjected to a temperature of approximately 2700 deg. F. for a period of not less than 15 hours. In the molten stage the glass is drawn from the furnace and conveyed to the fabricating machine. The appropriate amount of glass is delivered into the parison mold which forms the inner and outer surfaces of the neck and forms a small cavity into the glass mass. From there it is transferred to a blow mold in which the cavity is expanded to conform to the contours of the mold wall. The bottle is now in its final shape and is inspected at the forming machine for color spots and wall thickness. The bottles then proceed to the annealing leer where they are cooled under a graduation of controlled temperatures. In this leer the containers are permitted to cool gradually so as to control the stresses remaining in the final bottle. At the leer the bottles are further examined under a special light for defects affecting mechanical strength, chinks or cracks, inclusions and fabrication irregularities.

Tests

Chapter 19 of the Administrative Code specifies the capacity of glass containers for the packaging of inflammables and combustibles in domestic and general use. Samples of the applicant's bottles were subjected to physical tests as herein below specified to develop integrity of these bottles for the purpose of packaging these materials. The results of these tests are as follows:

Identification of Samples Tested

All samples were received late in 1944 or in January 1945 and correspond to the specifications for Boston Rounds, Drawing No. 16, September 20, 1943, Exhibit Series 80-00, of the War Production Board Order L-103, filed with this application.

The Serial Numbers for the samples tested are listed in the Table Below.

WPB Serial Numbers

32 oz.	16 oz.	8 oz.	6 oz.	4 oz.
80-75*	80-50*	82-25*	80-19*	80-13*

Samples marked with an asterisk (*) were amber in color; all other were colorless glass.

1. ASTM Hydrostatic Pressure Test, ASTM C147-43 (Simulating internal pressure of vapors produced by accidental heating of a sealed container.) The test was started at the 100 psi. level for the 32 oz. size and increased in 25 psi. increments until the bottle broke. For the 16, 8, 6 and 4 oz. sizes the starting pressures were 150, 200, 225 and 250 psi., respectively. The bursting pressures for each of the three bottles tested of each type are recorded in the following table:

Bursting Pressure in p.s.i.

32 oz.	16 oz.	8 oz.	6 oz.	4 oz.
175	200	250	250	350
125	200	250	300	325
125	200	250	300	250

2. ASTM Polariscope Examination ASTM C148-43. (Quality of Annealing as Manufactured; Temper #1 through #5 are excellent commercial quality with respect to inherent resistance to all types of applied mechanical and thermal shock stresses.)

Annealing Grades (Temper Numbers)

32 oz.	16 oz.	8 oz.	6 oz.	4 oz.
2	2	1	1	2
2	2	1	1	2
3	2	1	1	2

3. ASTM Thermal Shock Test, ASTM C149-43 (*Supplementary tests February 5, 1945; 3 bottle samples.) Three bottles of each type were tested, unless otherwise indicated. Six bottles tested in original test. The 50% breakage level near the bottom of the table is the single figure that best represents the relative strength.

4. Impact Test: Preston Automatic Ball Dropper. One inch diameter steel balls (weight .1465 lb.) are dropped from a given height onto the sidewall of the empty bottle, laid on sidewall, rotated and shoved along on two rollers, so that the impacted points are in a spiral extending from the bottom to the shoulder. A 12" height corresponds to 1.76 inch pounds. Glassware, in this repeated impact, normally stands 10" to 14" corresponding to 1.5 to 2.0 inch pounds.

The number of balls dropped onto the various sized bottles at each height is as follows:

Size, ozs.	32	16	8	6	4
Number of Balls....	44	36	30	24	20

Three bottles of each type were tested at 12", then 14" and finally 16" height.

Breakage is recorded in the following table:

Impact Breakage

(*) denotes new bottle; X denotes breakage.

Height	32 oz.	16 oz.	8 oz.	6 oz.	4 oz.
12"	OK OK OK	OK OK X	OK X X	X OK X	X OK X
14"	OK OK OK	X OK OK*			
16"	X OK OK	X* X X*			
Minimum Thickness	.078"	.096"	.070"	.085"	.085"
Initial Breakage	16"	12"	12"	12"	13½"

5. Drop Test: Individual Bottles Filled With Water. Two filled and capped bottles of each type were dropped on wooden planks lying flat on the floor from a height of three feet. This was repeated at 4, 5 and 6 feet free fall using the same bottles. One was dropped from an upright position—usually striking at the bottom. The second was dropped from an inverted position—usually striking on the cap or shoulder. Survivors of the 6 foot drop are indicated as "OK" in the following table:

Breakage Height in Drop Test in Feet

General

The manufacture of all glass containers including the "Boston Rounds", the subject of this application, are controlled by WPB order L-103 as amended September 20, 1943 and the bottles offered for approval are glass meeting all the requirements of this specification. While the applicant may have offered sizes of glass bottles exceeding the permissive sizes for the packaging of inflammables and combustibles, the data covering the physical tests of these bottles are included in this report so that, should a specific action arise, where the Board may desire to consider a variation of any pertinent provision of the Administrative Code, the data to form a basis for such variation will be available in this record.

Recommendations

On the basis of the foregoing data, the Committee on Tests recommends the approval of "Boston Round" Glass Bottles in 4, 6, 8, 16 and 32 oz. sizes, as manufactured by the Anchor Hocking Glass Corporation of Lancaster, Ohio, when manufactured of the properties and specifications as contained herein and when furnished with a metal or plastic closure provided with a suitable gasket to insure the bottle from venting and when packaged in cartons in a manner so that each bottle is separated from the adjoining bottle by a layer of corrugated cardboard or equivalent separation for uses and in sizes as follows:

Inflammable Mixtures

For the packaging of inflammable mixtures for domestic or household use, approval is recommended for use of the applicant's glass bottles of a capacity not exceeding 4 oz. as specified in C19-59.0c. Bottles of a size not exceeding 12 oz. may be used for other than domestic and household use as permitted in C19-58.0. Bottles of a larger size shall not be permitted to be filled with inflammable mixtures unless specifically authorized by the Board.

Combustible Mixtures

For the packaging of combustible mixtures for commercial or business use, approval is recommended for use of the applicant's glass bottles in sizes of 4, 6, 8, 16 and 32 oz., as specified in C19-62.0, be as amended November 28, 1940. Bottles of larger sizes than 32 oz. shall not be permitted sizes to be filled with combustible mixtures unless specifically authorized by the Board.

Each mixture packaged in these containers shall procure the required permits as specified in C19-58.0 of the Administrative Code, when the filling operation of these

containers is performed within New York City. When the filling operation is performed outside the confines of New York City, the certificate of approval as specified in C19-59.0 shall be applied for and obtained from the Fire Department, prior to their being offered for sale in New York City.

THE RESOLUTION (491-44-SM)

WHEREAS, the Armstrong Cork Company, owner, filed on August 14, 1944, an application with the Board of Standards and Appeals for approval of the material known as the Armstrong Cork Company's "Boston Round" Glass Bottles in 16 oz. and 32 oz. sizes; and

WHEREAS, this material was referred to the Committee on tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS.

April 3, 1945.

Re: Cal. 491-44-SM
Subject: Armstrong Cork Company "Boston Round" Glass Bottles in 16 and 32 oz. sizes, approval of.

The Glass Container Association of America, New York, New York, filed an application in behalf of the Armstrong Cork Company for approval of glass containers as herein described for the packaging of combustible and inflammable mixtures as prescribed in C19-2.0, subd. 11 and C19-2.0, subd. 22, respectively, of Chapter 19 of the Administrative Code.

MANUFACTURE OF GLASS CONTAINERS.

The basic materials are silica, sodium oxide and calcium oxide, purchased by specification. The materials are carefully weighed in batches and checked for purity and constancy of composition. A proportion of finely broken glass called Cullet derived from used glass constitutes from 15 to 25% of each batch. After the material is weighed out and mixed in batches for a predetermined period of time, they are charged into a continuous type of melting furnace and subjected to a temperature of approximately 2700 deg. F. for a period of not less than 15 hours. In the molten stage the glass is drawn from the furnace and conveyed to the fabricating machine. The appropriate amount of glass is delivered into the parison mold which forms the inner and outer surfaces of the neck and forms a small cavity into the glass mass. From there it is transferred to a blow mold in which the cavity is expanded to conform to the contours of the mold wall. The bottle is now in its final shape and is inspected at the forming machine for color spots and wall thickness. The bottles then proceed to the annealing leer where they are cooled under a graduation of controlled temperatures. In this leer the containers are permitted to cool gradually so as to control the stresses remaining in the final bottle. At the leer the bottles are further examined under a special light for defects affecting mechanical strength, chinks or cracks, inclusions and fabrication irregularities.

TESTS.

Chapter 19 of the Administrative Code specifies the capacity of glass containers for the packaging of inflammables and combustibles in domestic and general use. Samples of the applicant's bottles were subjected to physical tests as herein below specified to develop integrity of these bottles for the purpose of packaging these materials. The results of these tests are as follows:

Identification of Samples Tested.

All samples were received late in 1944 or in January 1945 and correspond to the specifications for Boston Rounds, Drawing No. 16, September 20, 1943, Exhibit Series 80-00, of the War Production Board Order L-103, filed with this application.

The Serial Numbers for the samples tested are listed in the table below:

WPB Serial Numbers

32 oz.	16 oz.
80-76*	80-50

Samples marked with an asterisk (*) were amber in color; all others were colorless glass.

1. ASTM Hydrostatic Pressure Test, ASTM C147-43 (Simulating internal pressure of vapors produced by accidental heating of a sealed container). The test was started at the 100 p.s.i. level for the 32 oz. size and increased in 25 p.s.i. increments until the bottle broke. For the 16 oz. size the starting pressure was 150 p.s.i., respectively. The bursting pressures for each of the three bottles tested of each type are recorded in the following table:

Bursting Pressures in p.s.i.

32 oz.	16 oz.
150	175
150	175
175	250

2. ASTM Polariscope Examination ASTMC 148-43 (Quality of Annealing as Manufactured; Temper #1 through #5 are excellent commercial quality with respect to inherent resistance to all types of applied mechanical and thermal shock stresses).

Annealing Grades (Temper numbers)

32 oz.	16 oz.
1	3
1	3
1	3

3. ASTM Thermal Shock Test ASTM C149-43 (*Supplementary tests February 5, 1945; 3 bottle samples).

Three bottles of each type were tested, unless otherwise indicated. #Six bottles tested in original test. The 50% breakage level near the bottom of the table is the single figure that best represents the relative strength.

REPORT OF COMMITTEE ON TESTS

Re: Cal. 494-44-SM

Subject: Fairmount Glass Works, Inc., "Boston Round" Glass Bottles in 8, 16 and 32 oz. sizes, approval of

March 16, 1945

The Glass Container Association of America, New York, New York, filed an application in behalf of the Fairmount Glass Works, Inc., for approval of glass containers as herein described for the packaging of combustible and inflammable mixtures as prescribed in C19-2.0, subd. 11 and C19-2.0, subd. 22, respectively, of Chapter 19 of the Administrative Code.

Manufacture of Glass Containers

The basic materials are silica, sodium oxide and calcium oxide, purchased by specification. The materials are carefully weighed in batches and checked for purity and constancy of composition. A proportion of finely

broken glass called Cullet derived from used glass constitutes from 15 to 25% of each batch. After the material is weighed out and mixed in batches for a predetermined period of time, they are charged into a continuous type of melting furnace and subjected to a temperature of approximately 2700 deg. F. for a period of not less than 15 hours. In the molten stage the glass is drawn from the furnace and conveyed to the fabricating machine. The appropriate amount of glass is delivered into the parison mold which forms the inner and outer surfaces of the neck and forms a small cavity into the glass mass. From there it is transferred to a blow mold in which the cavity is expanded to conform to the contours of the mold wall. The bottle is now in its final shape and is inspected at the forming machine for color spots and wall thickness. The bottles then proceed to the annealing leer where they are cooled under a graduation of controlled temperatures. In this leer the containers are permitted to cool gradually so as to control the stresses remaining in the final bottle. At the leer the bottles are further examined under a special light for defects affecting mechanical strength, chinks or cracks, inclusions and fabrication irregularities.

Tests

Chapter 19 of the Administrative Code specifies the capacity of glass containers for the packaging of inflammables and combustibles in domestic and general use. Samples of the applicant's bottles were subjected to physical tests as herein below specified to develop integrity of these bottles for the purpose of packaging these materials. The results of these tests are as follows:

Identification of Samples Tested

All samples were received late in 1944 or in January 1945 and correspond to the specifications for Boston Rounds, Drawing No. 16, September 20, 1943, Exhibit Series 80-00, of the War Production Board Order L-103, filed with this application.

The Serial Numbers for the samples tested are listed in the Table below.

W.P.B. Serial Numbers

32 oz.	16 oz.	8 oz.
80-76*	80-50	80-25*

Samples marked with an asterisk(*) were amber in color; all others were colorless glass.

1. ASTM Hydrostatic Pressure Test, ASTM, C147-43. (Simulating internal pressure of vapors produced by accidental heating of a sealed container.) The test was started at the 100 psi. level for the 32 oz. size and increased in 25 psi. increments until the bottle broke. For the 16 and 8 oz. sizes, the starting pressures were 150 and 200 psi., respectively. The bursting pressure for each of the three bottles tested of each type are recorded in the following table:

Bursting Pressure in psi.

32 oz.	16 oz.	8 oz.
125	200	400
125	175	325
125	200	200

2. ASTM Polariscope Examination ASTM C148-43. (Quality of Annealing as Manufactured; Temper #1 through #5 are excellent commercial quality with respect to inherent resistance to all types of applied mechanical and thermal shock stresses.)

Annealing Grades (Temper Numbers)

32 oz.	16 oz.	8 oz.
3	1	1
3	1	1
4	2	1

3. ASTM Thermal Shock Test ASTM C149-43. (* Supplementary tests February 5, 1945; 3 bottle samples.) Three bottles of each type were tested, unless otherwise indicated. # Six bottles tested in original test. The 50% breakage level near the bottom of the table is the single figure that best represents the relative strength.

Differential °F.	32 oz.# broken	32 oz.# total	16 oz. broken	16 oz. total	8 oz. broken	8 oz. total

(6 bottles)

4. Impact Test: Preston Automatic Ball Dropper. One inch diameter steel balls (weight .1465 lb.) are dropped from a given height onto the sidewall of the empty bottle, laid on sidewall, rotated and shoved along on two rollers, so that the impacted points are in a spiral extending from the bottom to the shoulder. A 12" height corresponds to 1.76 inch pounds. Glassware, in this repeated impact, normally stands 10" to 14" corresponding to 1.5 to 2.0 inch pounds.

The number of balls dropped onto the various sized bottles at each height is as follows:

Size, ozs.	32	16	8
Number of balls	44	36	30

Three bottles of each type were tested at 12", then 14" and finally at 16" height.

Breakage is recorded in the following table:

Impact Breakage

(*) denotes new bottle; X denotes breakage.

Height	32 oz.	16 oz.	8 oz.
12"	XXX	XXX	XXX
14"	—	—	—
16"	—	—	—
Minimum thickness	.070"	.087"	.071"
Initial Breakage	12"	12"	12"

5. Drop Test: Individual Bottles filled with water. Two filled and capped bottles of each type were dropped on wooden planks lying flat on the floor from a height of three feet. This was repeated at 4, 5 and 6 feet free fall using the same bottles. One was dropped from an upright position—usually striking on the bottom. The second was dropped from an inverted position—usually striking on the cap or shoulder. Survivors of the 6 foot drop are indicated as "OK" in the following table:

Breakage Height in Drop Test in Feet

* Struck concrete and broke on bounce from plank.
** Struck plank on shoulder.

32 oz. Base	32 oz. Top	16 oz. Base	16 oz. Top	8 oz. Base	8 oz. Top

MINUTES

General

The manufacture of all glass containers including the "Boston Rounds" the subject of this application, are controlled by WPB order L-103 as amended September 20, 1943 and the bottles offered for approval are glass meeting all the requirements of this specification. While the applicant may have offered sizes of glass bottles exceeding the permissive sizes for the packaging of inflammables and combustibles, the data covering the physical tests of these bottles are included in this report so that, should a specific action arise, where the Board may desire to consider a variation of any pertinent provision of the Administrative Code, the data to form a basis for such variation will be available in this record.

Recommendations

On the basis of the foregoing data, the Committee on Tests recommends the approval of "Boston Round" Glass Bottles in 8, 16 and 32 oz. sizes, as manufactured by the Fairmount Glass Works, Inc., of Indianapolis, Ind., when manufactured of the properties and specifications as contained herein and when furnished with a metal or plastic closure provided with a suitable gasket to insure the bottle from venting and when packaged in cartons in a manner so that each bottle is separated from the adjoining bottle by a layer of corrugated cardboards or equivalent separation for uses and in sizes as follows:

Inflammable Mixtures

For the packaging of inflammable mixtures for domestic or household use, approval is recommended for use of the applicant's glass bottles of a capacity not exceeding 4 oz. as specified in C19-59.0c. Bottles of a size not exceeding 12 oz. may be used for other than domestic and household use as permitted in C19-58.0. Bottles of a larger size shall not be permitted to be filled with inflammable mixtures unless specifically authorized by the Board.

Combustible Mixtures

For the packaging of combustible mixtures for commercial or business use, approval is recommended for use of the applicant's glass bottles in sizes of 8, 16 and 32 oz., as specified in C19-62.0, b as amended November 28, 1940. Bottles of larger sizes than 32 oz. shall not be permitted sizes to be filled with combustible mixtures unless specifically authorized by the Board.

Each mixture packaged in these containers shall procure the required permits as specified in C19-58.0 of the Administrative Code, when the filling operation of these containers is performed within New York City. When the filling operation is performed outside the confines of New York City, the certificate of approval as specified in C19-59.0 shall be applied for and obtained from the Fire Department, prior to their being offered for sale in New York City.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Fairmount Glass Works, Inc., "Boston Round" Glass bottles in 8, 16 and 32 oz. sizes. *on condition* that the material be manufactured, used and labelled in accordance with the above report.

495-44-SM

APPLICANT—Owens-Illinois Glass Company, owner.

SUBJECT—Owens-Illinois Glass Company's "Boston Round" Glass Bottles in 4 oz., 6 oz., 8 oz., 16 oz. and 32 oz. sizes, approval of.

APPEARANCES—
For Applicant: J. D. Laird.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (495-44-SM)

WHEREAS, the Owens-Illinois Glass Company, owner, filed on August 14, 1944, an application with the Board of Standards and Appeals for approval of the material known as the Owens-Illinois Glass Company's "Boston Round" Glass Bottles in 4 oz., 6 oz., 8 oz., 16 oz. and 32 oz. sizes; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 495-44-SM
Subject: Owens-Illinois Glass Company "Boston Round" Glass Bottles in 4, 6, 8, 16 and 32 oz. sizes, approval of.

March 16, 1945

The Glass Container Association of America, New York, New York, filed an application in behalf of the Owens-Illinois Glass Company for approval of glass containers as herein described for the packaging of combustible and inflammable mixtures as prescribed in C19-2.0, subd. 11 and C19-2.0, subd. 22, respectively of Chapter 19 of the Administrative Code.

Manufacture of Glass Containers

The basic materials are silica, sodium oxide and calcium oxide, purchased by specification. The materials are carefully weighed in batches and checked for purity and constancy of composition. A proportion of finely broken glass called Cullet derived from used glass constitutes from 15 to 25% of each batch. After the material is weighed out and mixed in batches for a pre-determined period of time, they are charged into a continuous type of melting furnace and subjected to a temperature of approximately 2700 deg. F. for a period of not less than 15 hours. In the molten stage the glass is drawn from the furnace and conveyed to the fabricating machine. The appropriate amount of glass is delivered into the parison mold which forms the inner and outer surfaces of the neck and forms a small cavity into the glass mass. From there it is transferred to a blow mold in which the cavity is expanded to conform to the contours of the mold wall. The bottle is now in its final shape and is inspected at the forming machine for color spots and wall thickness. The bottles then proceed to the annealing leer where they are cooled under a graduation of controlled temperatures. In this leer the containers are permitted to cool gradually so as to control the stresses remaining in the final bottle. At the leer the bottles are further examined under a special light for defects affecting mechanical strength, chinks or cracks, inclusions and fabrication irregularities.

Tests

Chapter 19 of the Administrative Code specifies the capacity of glass containers for the packaging of inflammables and combustibles in domestic and general use. Samples of the applicant's bottles were subjected to physical tests as herein below specified to develop integrity of these bottles for the purpose of packaging these materials. The results of these tests are as follows:

General

The manufacture of all glass containers including the "Boston Rounds", the subject of this application, are controlled by WPB order L-103 as amended September 20, 1943 and the bottles offered for approval are glass meeting all the requirements of this specification. While the applicant may have offered sizes of glass bottles exceeding the permissive sizes for the packaging of inflammables and combustibles, the data covering the physical tests of these bottles are included in this report so that, should a specific action arise, where the Board may desire to consider a variation of any pertinent provision of the Administrative Code, the data to form a basis for such variation will be available in this record.

Recommendations

On the basis of the foregoing data, the Committee on Tests recommends the approval of "Boston Round" Glass Bottles in 4, 6, 8, 16 and 32 oz. sizes, as manufactured by the Owens-Illinois Glass Company of Toledo, Ohio, when manufactured of the properties and specifications as contained herein and when furnished with a metal or plastic closure provided with a suitable gasket to insure the bottle from venting and when packaged in cartons in a manner so that each bottle is separated from the adjoining bottle by a layer of corrugated cardboard or equivalent separation for uses and in sizes as follows:

Inflammable Mixtures

For the packaging of inflammable mixtures for domestic or household use, approval is recommended for use of the applicant's glass bottles of a capacity not exceeding 4 oz. as specified in C19-59.0c. Bottles of a size not exceeding 12 oz. may be used for other than domestic and household use as permitted in C19-58.0. Bottles of a larger size shall not be permitted to be filled with inflammable mixtures unless specifically authorized by the Board.

Combustible Mixtures

For the packaging of combustible mixtures for commercial or business use, approval is recommended for use of the applicant's glass bottles in sizes of 4, 6, 8, 16 and 32 oz., as specified in C19-62.0, b as amended November 28, 1940. Bottles of larger sizes than 32 oz. shall not be permitted sizes to be filled with combustible mixtures unless specifically authorized by the Board.

Each mixture packaged in these containers shall procure the required permits as specified in C19-58.0 of the Administrative Code, when the filling operation of these containers is performed within New York City. When the filling operation is performed outside the confines of New York City, the certificate of approval as specified in C19-59.0 shall be applied for and obtained from the Fire Department, prior to their being offered for sale in New York City.

THE RESOLUTION (497-44-SM)

WHEREAS, the Thatcher Manufacturing Company, owner, filed on August 14, 1944, an application with the Board of Standards and Appeals for approval of the material known as the Thatcher Manufacturing Company's "Boston Round" Glass Bottles in 4 oz., 16 oz. and 32 oz. sizes; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 497-44-SM
Subject: Thatcher Manufacturing Company "Boston Round" Glass Bottles in 4 oz., 16 oz. and 32 oz. sizes, approval of.

March 16, 1945.

The Glass Container Association of America, New York, New York, filed an application in behalf of the Thatcher Manufacturing Company for approval of glass containers as herein described for the packaging of combustible and inflammable mixtures as prescribed in C19-2.0, subd. 11 and C19-2.0, subd. 22, respectively of Chapter 19 of the Administrative Code.

Manufacture of Glass Containers

The basic materials are silica, sodium oxide and calcium oxide, purchased by specification. The materials are carefully weighed in batches and checked for purity and constancy of composition. A proportion of finely broken glass called Cullet derived from used glass constitutes from 15 to 25% of each batch. After the material is weighed out and mixed in batches for a pre-determined period of time, they are charged into a continuous type of melting furnace and subjected to a temperature of approximately 2700 deg. F. for a period of not less than 15 hours. In the molten stage the glass is drawn from the furnace and conveyed to the fabricating machine. The appropriate amount of glass is delivered into the parison mold which forms the inner and outer surfaces of the neck and forms a small cavity into the glass mass. From there it is transferred to a blow mold in which the cavity is expanded to conform to the contours of the mold wall. The bottle is now in its final shape and is inspected at the forming machine for color spots and wall thickness. The bottles then proceed to the annealing leer where they are cooled under a graduation of controlled temperatures. In this leer the containers are permitted to cool gradually so as to control the stresses remaining in the final bottle. At the leer the bottles are further examined under a special light for defects affecting mechanical strength, chinks or cracks, inclusions and fabrication irregularities.

General

The manufacture of all glass containers including the "Boston Rounds", the subject of this application, are controlled by WPB order L-103 as amended September 20, 1943 and the bottles offered for approval are glass meeting all the requirements of this specification. While the applicant may have offered sizes of glass bottles exceeding the permissive sizes for the packaging of inflammables and combustibles, the data covering the physical tests of these bottles are included in this report so that, should a specific action arise, where the Board may desire to consider a variation of any pertinent provision of the Administrative Code, the data to form a basis for such variation will be available in this record.

Recommendations

On the basis of the foregoing data, the Committee on Tests recommends the approval of "Boston Round" Glass Bottles in 4, 16 and 32 oz. sizes, as manufactured by the Thatcher Manufacturing Co. of Elmira, N. Y., when manufactured of the properties and specifications as contained herein and when furnished with a metal or plastic closure provided with a suitable gasket to insure the bottle from venting and when packaged in cartons in a manner so that each bottle is separated from the adjoining bottle by a layer of corrugated cardboard or equivalent separation for uses and in sizes as follows:

Inflammable Mixtures

For the packaging of inflammable mixtures for domestic

or household use, approval is recommended for use of the applicant's glass bottles of a capacity not exceeding 4 oz. as specified in C19-59.0c. Bottles of a size not exceeding 12 oz. may be used for other than domestic and household use as permitted in C19-58.0. Bottles of a larger size shall not be permitted to be filled with inflammable mixtures unless specifically authorized by the Board.

Combustible Mixtures

For the packaging of combustible mixtures for commercial or business use, approval is recommended for use of the applicant's glass bottles in sizes of 4, 16 and 32 oz., as specified in C19-62.0, b as amended November 28, 1940. Bottles of larger sizes than 32 oz. shall not be permitted sizes to be filled with combustible mixtures unless specifically authorized by the Board.

Each mixture packaged in these containers shall procure the required permits as specified in C19-58.0 of the Administrative Code, when the filling operation of these containers is performed within New York City. When the filling operation is performed outside the confines of New York City, the certificate of approval as specified in C19-59.0 shall be applied for and obtained from the Fire Department, prior to their being offered for sale in New York City.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Thatcher Manufacturing Company's "Boston Round" Glass Bottles in 4, 16 and 32 oz. sizes, *on condition* that the material be manufactured, used and labelled in accordance with the above report.

53-45-SM

APPLICANT—Interborough Engineering Co., for Alpha Tank Co., Inc., owner.

SUBJECT—Alpha 275 Gallon Fuel Oil Storage Tanks, Cylindrical and Obround, approval of.

APPEARANCES—
For Applicant: Ribelle Perotto.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (53-45-SM)

WHEREAS, the Interborough Engineering Co., for the Alpha Tank Co., Inc., owner, filed on February 5, 1945, an application with the Board of Standards and Appeals for approval of the material known as the Alpha 275 Gallon Fuel Oil Storage Tanks, Cylindrical and Obround; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 53-45-SM
Subject: Alpha 275 Gallon Fuel Oil Storage Tanks, Cylindrical and Obround—Approval of.

March 30, 1945.

The Alpha Tank Co., Inc. of 8840—77th Avenue, Brooklyn 27, New York, filed an approval of the Alpha 275 Gallon Fuel Oil Storage Tank, Cylindrical and Obround, under the provisions of the Oil Burner Rules of the Board of Standards and Appeals.

Description

The obround tanks are made with long diameter, either vertical or horizontal, both obround and cylindrical are constructed of #10 U. S. Gauge commercial grade hot rolled sheet steel in two sheets with one lateral seam welded. The heads are convex of 7 gauge steel for cylindrical tank and 10 gauge for obround tanks with weld offset two inches.

The tanks are provided with standard pressed steel pipe support lugs. Total weight without legs 400 pounds each for obround tanks and 450 pounds for cylindrical tanks.

TEST

Three sample tanks, one cylindrical, one obround horizontal and one obround vertical, were subjected to a pressure test at the applicant's plant in the presence of the Committee on Tests of the Board and the representatives of the Division of Combustibles of the Fire Department and successfully met the requirements of rule 10.3.1 of the Oil Burner Rules. Details of construction, workmanship and protection of steel were found to comply with the rules of the Board.

RECOMMENDATION

On the basis of the foregoing data the Committee on Tests recommends that the Alpha 275 Gallon Obround and Cylindrical Fuel Oil Tanks be approved for use in fuel oil installation in New York City, when constructed in accordance with the details of this report and drawings filed with this application, but nothing herein shall be deemed to waive any requirements of the Oil Burner Rules of the Board. It is further recommended that all welding conform to the Fusion Welding and Gas Cutting Rules of the Board and that the permanent affixed plate required by Rule 5.3.2 of the Oil Burner Rules, in addition to the wording thereon, shall have the following wording: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 53-45-SM."

REGULAR MEETING

TUESDAY AFTERNOON, APRIL 24, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

627-44-A

APPLICANT—Herman Goldman, for Kastenhuber and Lehrfeld, owners.

MINUTES

SUBJECT—Appeal from an order and decisions of the fire commissioner.
PREMISES AFFECTED—32-42 Flushing avenue and 1-17 North Portland avenue, southeast corner (Block 2028, Lots 15, 21 and 26), Borough of Brooklyn.
APPEARANCES—
For Applicant: Henry Hoffman and Raymond S. Baron.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (627-44-A)

WHEREAS, Herman Goldman, for Kastenhuber and Lehrfeld, owners, filed November 4, 1944, an appeal from an order and decisions of the fire commissioner, affecting premises 32-42 Flushing avenue and 1-17 North Portland avenue, southeast corner (Block 2028, Lots 15, 21 and 26), Borough of Brooklyn; and

WHEREAS, order 13244-LF, issued by the fire commissioner, August 2, 1944, reads:

"You are hereby ordered and required within 30 days from the date of the service of this order, to:

1. Arrange bars on all windows on 1st and 2nd stories so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows, for the purposes of egress, as per Section 272 of the Labor Law."

and

WHEREAS, said order was referred to in decisions of the fire commissioner dated September 21, 1944 and October 27, 1944; and

WHEREAS, the applicant states that the building is 1 and 2 stories (25 ft.) in height, 65 ft. by 125 ft. irregular in area, of class 3 construction, erected in 1912, located in a manufacturing use, A area, class 1½ height district and used and occupied as follows: 1st floor—refining of precious metals—9 persons; 2nd floor—laboratory work—5 persons; that there is one 4 ft. wide wood stairway, covered with metal, enclosed in partitions consisting of a brick wall, asbestos and metal, equipped with metal self-closing doors and leading from the roof to the 1st floor; and

WHEREAS, the applicant states that there are six windows involved on the North Portland avenue side of the ground floor, eight windows on the Flushing avenue side, including garage and eight windows in the rear of 42 Flushing avenue; that egress from the areas affected consist of three doors on Flushing avenue and one door leading into the yard and egress from the second floor is by means of a door leading to the roof; and

WHEREAS, Certificate of Occupancy 4247 was issued September 20, 1923, for use of the building for gold refining work and garage; and

WHEREAS, the applicant contends that it is engaged in the business of refining precious metals and has conducted its business at the premises in question for thirty years, during which time the immovable metal bars encased in the windows have been existing; that the nature of the business makes it absolutely imperative that the additional protection provided by the bars be retained; that if the bars were arranged to make them movable, it is apparent that the applicant would be faced with tremendous burglary risks; that the applicant maintains at all times on the premises approximately one half million dollars worth of precious metals; that with one or two exceptions, practically all of the windows involved are over 3 ft. from the ground, a large number of which are over 5 ft. from the ground, thus rendering them unusable as a means of egress; that there are sufficient exits on the premises to cope with any need for egress in the event of fire; however, any additional exits required by the Board will be installed.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the fire commissioner, acting on Order 13244-LF, item 1, and that the appeal be and it hereby is *granted on condition* that iron guards shall be maintained only on such windows as are indicated on plans filed with this appeal, three sheets, marked "Received November 4, 1944," except that the guards shall not be installed on the three 4 ft. 6 in. windows on the second story rear; that all exits indicated on such plans shall be maintained, and in addition, an exit leading to North Portland avenue from approximately the center of that front of the building; that such exit may have a panic bolt; that a loose ladder shall be maintained on the one story roof of sufficient length to reach the street from the roof parapet of the one story section; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

732-44-A

APPLICANT—Max Wechsler, for Margaret A. Jackson, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—200-202 East 116th street and 2121-2123 Third avenue, southeast corner (2nd and 3rd floors); (Block 1665, Lot 48), Borough of Manhattan.
APPEARANCES—
For Applicant: Max Wechsler.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (732-44-A)

WHEREAS, Max Wechsler, for Margaret A. Jackson, owner, filed December 18, 1944, an appeal from a decision of the borough superintendent, affecting premises: 200-202 East 116th street and 2121-2123 Third avenue, southeast corner (2nd and 3rd floors); (Block 1665, Lot 48), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated November 28, 1944, on Alt. Applic. 1557-44, reads:

"1. The building being converted into a Public Building as per C26-235, shall be of fireproof construction, conforming with C26-754 Building Code. Building is of Class 3 construction over 20 ft. high.

2. Means of egress shall conform with C26-273.0. Building Code.

3. The required stairways must conform with C26-272.0.

4. The floor construction shall be sufficient for 100 lb. per sq. ft. at 2nd and 3rd floors."

and

WHEREAS, the applicant states the building is four stories (47 ft.) in height, 40 ft. 11 in. by 80 ft. in area; Class 3 construction; located in business use, B area, Class 1½ height districts; erected in 1872; used and occupied as follows: Cellar, boilerroom and storage, restaurant kitchen, 3 persons; 1st floor, stores, 10 persons; 2nd floor—club and dentist's office, 100 persons; 3rd floor—clubs, 175 persons; 4th floor—two apartments, 10 persons; proposed to be used and occupied without change, except that the 3rd floor occupancy will be increased to 192 persons; that the building is equipped with one 3 ft. 6 in. wide stairs, equipped with kalamein and wood doors, and two fire escapes, one extending to the roof by a ladder and one to the yard by a ladder, with egress to adjoining the premises to the south; that windows on the course of the fire escapes are not fireproof, self-closing; and

WHEREAS, Violation 9727-43 was issued on November 3, 1944, for changing the occupancy from that permitted by Certificate of Occupancy 2156 to a bank, public assembly without obtaining a new certificate of occupancy; and

WHEREAS, Certificate of Occupancy 2156 issued September 22, 1920, permits the use of the cellar for storage; 2nd floor, offices, 45 persons; 3rd floor—offices, 30 persons; 4th floor, dwelling; and

WHEREAS, the applicant contends that the building was used as a bank and offices on 1st, 2nd and 3rd floors up to about 1938 and then remained vacant for a long time; that the only occupant that can use this type of building are clubs, which now use the 2nd and 3rd floors; that it would be impractical to alter this building to a fireproof building; that the existing stairway and fire escapes provide two means of egress from each floor; that the existing beams on the 2nd and 3rd floors are 3 in. x 12 in. spruce 16 in. on centers and are good for 90 lbs. liveload; that the capacity of the stairs and platform from the 1st to 2nd floors is 50 persons; that the capacity of stairs and hallways from 2nd to 3rd floors is 90 persons; it is suggested that a multiple dwelling type sprinkler system be installed, in order to increase the capacity to 100 persons on the 1st to 2nd floors and 175 persons on 2nd to 3rd floors; that stairhalls and public halls are fire-retarded throughout, equipped with hardwood doors, except where noted as kalamein, approximately 1⅜ in. thick, which will be made self-closing; that the cellar ceiling is fire-retarded throughout, with wire lath and portland cement mortar; that the store ceiling is fire-retarded throughout, with wire lath and portland cement mortar and that no dancing will be conducted in the clubrooms; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 1557-44, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

72-45-A

APPLICANT—Saul Goldsmith, for C. W. H. Carter, Inc., owner (Maurella Products Co.. lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—94-100 Varick street and 68 Watts street, northeast corner (Block 477, Lot 35), Borough of Manhattan.

APPEARANCES—

For Applicant: Saul Goldsmith.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (72-45-A)

WHEREAS, Saul Goldsmith, for C. W. H. Carter, Inc., owner (Maurella Products Co., lessee), filed February 14, 1945, an appeal from a decision of the borough superintendent, affecting premises 94-100 Varick street and 68 Watt street, northeast corner (Block 477, Lot 35), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated February 14, 1945, on Alt. Applic. 1162-43 reads:

"1. Sec. 270 Labor Law requires two remote enclosed F. P. Stairways from cellar, 1st & 2nd floors. Exit doors to swing in direction of egress and to be at least 44 in. wide.

2. The stairways shall conform with Sec. 270 sub. 4. Also Sec. 272 sub. 2 Labor Law.

3. Second floor construction to be sufficient for 120 lb. per sq. ft. liveload. C26-345 B. C."

and

WHEREAS, the applicant states the building is two stories and attic (38 ft.) in height, 106 ft. by 35 ft. and 56 ft. in area; Class 3 construction; located in an unrestricted use, B area and Class 1½ height district; erected in 1920; used and occupied since 1943 as follows: Cellar, boiler room and storage, factory, 5 persons; 1st floor, offices and factory, 15 persons; 2nd floor, factory, 25 persons; attic, vacant; no change proposed, that the building is to be used throughout by one tenant for compounding and bottling perfumes and toilet waters; that the building is equipped with one 3 ft. 8 in. steel stairs, enclosed in brick walls, having kalamein doors, and extending from the roof bulkhead to the 1st floor, with egress through an alley to the street; that the building is also equipped with one open stairs; and

WHEREAS, Certificate of Occupancy 9396 issued March 26, 1925, permits the use of the building as follows: Basement, storage; 1st floor, offices and storage; 2nd floor, offices and storage; and

WHEREAS, the applicant contends that the building faces on two streets; that the first tier is concrete; that all rear east lot line windows are kalamein frames and sash and wire glass; that the prime use of the building is bottling, labeling, storage and shipping of perfumes and toilet waters, alcohol and essential oils, 324 gallons and 250 gallons each, respectively in drums and stored in a fireproof room in the cellar; that all mixing is done in a fireproof room in the cellar; that the boiler room is fireproof, enclosed; that the total occupancy of the cellar is 5 persons; that egress from the cellar is by fireproof enclosed stairway, with egress through an alleyway to Watts street and by a wood stairs leading to the first floor, enclosed in the cellar by fireproof partitions and with a kalamein, self-closing door; that the total occupancy of the first floor will be 15 persons; that egress from the first floor is by fireproof enclosed stairway to an alleyway leading to Watts street and doors leading directly to Varick street; that the liveload in the office and showroom portion is 60 lbs. and for the north factory portion of the first floor, is 160 lbs. per sq. ft; that the second floor will be used for storage, laboratory and factory with an occupancy of 25 persons; that egress from this floor will be by means of the fireproof stairway, leading to an alleyway and by a 3 ft. 8 in. open wood stair, leading to the 1st floor; that the liveload on the 2nd floor is 60 lbs. per sq. ft.; that the use and occupancy will be such that a 60 lb. per sq. ft. liveload will not be exceeded; that the first and second floor ceilings are plastered; that the fireproof stairway leads from cellar to a flat portion of the roof at the rear, over the 2nd story and egress is to the alleyway at the intermediate platform between the cellar and the first floor; that this stairway complies with Section 270 of the Labor Law, with the exception that the door is 3 ft. 6 in. in width; that the alleyway leading from this stairway to Watts street has been in common use since 1817; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent, acting on Alt. Applic. 1162-43, and that the appeal be and it hereby is *granted* as to Objections 1 and 2, *on condition* that the existing exits, as indicated on plans filed with this appeal marked "Received February 14, 1945," shall be maintained; that all doors shall swing in the direction of exit and shall conform with the requirements as to width, except that the door leading to the rear fireproof stair may be not less than 3 ft. 6 in. in width as shown; as to Objection 3, that the floor loading of 60 lbs. per superficial foot may be retained, provided the factory work at no time exceeds this loading; that such loading shall be posted; that this variance shall continue only so long as the building is occupied substantially as proposed and for the manufacturing use as set forth; that the boiler room shall be kept free from storage; that another means shall be constructed for entering the storage and powder mixing room, other than from the boiler room and the door between the boiler room and such room shall be blocked up; that the exit shall be available at all times, by means of the sidewalk elevator shaft out of the boiler room; that in all other respects, the building and occupancy shall comply with all rules and laws applicable.

MINUTES

144-45-A

APPLICANT—Abraham Landow, for Fannie Edelman, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—810 Myrtle avenue, south side, 150 ft. west of Marcy avenue (Block 1754, Lot 37), Borough of Brooklyn.
APPEARANCES—
For Applicant: Abraham Landow.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum 3
Negative: Deputy Chief Gunn 1

THE RESOLUTION (144-45-A)

WHEREAS, Abraham Landow, for Fannie Edelman, owner, filed March 13, 1945, an appeal from a decision of the borough superintendent, affecting premises 810 Myrtle avenue, south side, 150 ft. west of Marcy avenue (Block 1754, Lot 37), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 468-45, dated March 9, 1945, reads:

"1. Means of egress to comply with Section 270 of the Labor Law."

and

WHEREAS, the applicant states that the building is four stories (42 ft.) in height; 25 ft. by 65 ft. in area; of Class 3 construction; located in an unrestricted use, B area, Class 1½ height district, erected prior to 1913, and used and occupied as follows: cellar, storage; 1st floor, store and one family; 2nd, 3rd and 4th floors, dwelling, two families each floor (all vacant); proposed to be used and occupied as follows: cellar, storage and boiler room; 1st floor, clothing store and manufacturing clothing, 15 persons; 2nd to 4th floors, clothing factory, 15 persons each floor; that the building is equipped with one interior 3 ft. wide wood stairs at the front, enclosed in partitions of 2 in. by 4 in. studs, ½ in. plaster boards and two coats of gypsum mortar and leading from the roof bulkhead to the street, equipped with fireproof, self-closing doors and proposed to be equipped with one fire escape at the front of the building, extending from the top story, with egress from the lowest balcony to the street by a ladder; that windows and doors on the course of the fire escape will be fireproof, self-closing; that the building to the west is 3 stories in height and the building to the east is 2 stories in height; and

WHEREAS, the applicant contends that the building should come under section 271 of the Labor Law, as it was erected prior to 1913 and the fire retarded stairways should be permitted; that the building is only 24 ft. 6 in. in width and 64 ft. long on the interior and to erect fireproof stairways under section 270 of the Labor Law would be costly and would occupy 25% of the floor area; that it is proposed to erect an interior fire retarded stairway with a bulkhead to the roof; that all walls are to be covered with ½ in. plaster boards and two coats of gypsum mortar; that all doors are to be self-closing fireproof 1 hour test; that it is also proposed to erect on the front of the building, a new labor law fire escape, complying with all rules and regulations for the same and it is therefore requested that the Board permit the exits as herein proposed; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the Board of Standards and appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent, acting on Alt. Applic. 468-45, Objection 1, and that the appeal be and it hereby is *granted on condition* that any windows opening on the interior court facing an existing tenement house, shall either be bricked up on all stories or equipped with fireproof, self-closing windows, glazed with wire glass; that the proposed primary means of exit shall be maintained, consisting of an interior enclosed stair leading directly to Myrtle avenue and as a second means of exit, a labor law fire escape, all as indicated on plans filed with this appeal marked "Received March 13, 1945"; that in all other respects, the building and occupancy shall comply with all rules and laws applicable.

187-45-A

APPLICANT—Harry P. Jaenike, for 137 West 108th Street Corporation, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—137-143 West 108th street, north side, 300 ft. east of Amsterdam avenue (Block 1863, Lot 13), Borough of Manhattan.
APPEARANCES—
For Applicant: Harry P. Jaenike.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (187-45-A)

WHEREAS, Harry P. Jaenike, for 137 West 108th Street Corporation, owner, filed February 23, 1945, an appeal from a decision of the borough superintendent, affecting premises 137-143 West 108th street, north side, 300 ft. east of Amsterdam avenue (Block 1863, Lot 13), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent on amendment to Alt. Applic. 258-45, dated April 20, 1945, reads:

"1a. Provide two fireproof enclosed stairs 3 ft. 8 in. wide to lead directly to the street, all in accordance with Section 270-3 Labor Law.

Note: Present interior stairs enclosed in 4 in. terra cotta.

Exterior stairs is open iron stairs leading within 1st floor.

b. Provide clearance of 3 ft. 8 in. in landings from swing of doors.

c. If safe egress may be had from the roof.—required exits to lead to the roof. Section 270-4 Labor Law.

d. Windows to be fireproof Section 264-6a Labor Law."

and

WHEREAS, the applicant states the building is five stories (65 ft.) in height, 100 ft. by 93 ft. 10 in. in area at the first floor, 100 ft. by 90 ft. 11 in. in area at typical floor; erected in 1925; of Class 1 construction; located in an unrestricted use, B area, Class 1½ height district; used and occupied since 1927 for a garage for more than five motor vehicles; proposed to be used and occupied throughout as a motor vehicle repair shop, storage garage for more than five cars, service station and automobile showroom for new and used cars, 30 persons per floor; that the building is equipped with an interior alarm system; that there is one 3 ft. 8 in. fireproof stairs from the roof bulkhead to the street and an exterior iron stairway 3 ft. 8 in. wide at the rear from the top story to the yard, with egress through the first floor to the street; that windows and door openings on the course of the exterior will be fireproof, self-closing; and

WHEREAS, the applicant contends as to Objection 1a, that as the occupancy will be only 30 persons per floor and the building is fireproof, it is requested that the 3 ft. 8 in. exterior stairs be accepted as a second means of egress and that the existing 4 in. terra cotta enclosure on the main stairs be permitted to remain, provided it is given a 1 in. plaster cement finish on both sides; that the existing exterior stairs in the rear court, will egress through the building and

clearance will be maintained for passage by the installation of a 3 ft. 8 in. pipe rail; and contends as to Objection 1b, that the Board is requested to allow the existing clearances to remain as follows:

Front Stairs 2nd floor, 45 in.
3rd floor, 41 in.
4th floor, 37 in.
5th floor, 40 in.
Rear stairs 2nd floor, 17½ in.
3rd floor, 33½ in.
4th floor, 33 in.
5th floor, 50 in.

as the primary means of egress is more than adequate for the contemplated occupancy; and contends as to objection 1c, that the Board is requested to accept the existing condition; that the front stairs extend to the roof and the rear stairs stop at the 5th floor; that the adjoining building to the west is 55 ft. in height and to the east there is a vacant lot; and requests as to objection 1d, that the Board allow the windows on the street to have plain glass in lieu of wire glass, as the street is 60 feet in width and no light is in excess of 720 sq. in.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the Borough Superintendent on amendment to Alt. Applic. 258-45, and that the appeal be and it hereby is *granted* as to Objections 1a and 1b, *on condition* that the existing primary means of exit shall be maintained substantially as shown; that a secondary exit, consisting of an exterior open screen stair, shall be constructed and maintained with a passage therefrom through the first floor, substantially as indicated on plans filed with this appeal marked "Received February 23, 1945", except that a continuous wall, forming the passage from such stair to street, shall be constructed, instead of the pipe rail as shown; that in such wall there may be panels of structural glass block, 6 in. by 6 in. without openings; that such rear fire stairs shall be continued to the roof; as to Objection 1c, that the proposed steel stairway shall extend to the roof and the stairway of the primary means of exit shall be maintained to the roof as shown; as to Objection 1d, that all windows facing the yard and on the side lot line, shall be fireproof, self-closing; that the windows along the street may be retained, provided the building is not increased in height or area, and the sash and frames are of incombustible material and the size of the lights reduced to 720 sq. in.; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

206-45-A

APPLICANT—Frank D. Hutchinson, for Murray Manufacturing Corp., owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—1171-1183 Atlantic avenue, northeast corner of Perry place (Buildings 9 and 10); (Block 1866, Lots 1-7), Borough of Brooklyn.
APPEARANCES—
For Applicant: Frank D. Hutchinson and John H. Lawrence.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (206-45-A)

WHEREAS, Frank D. Hutchinson, for Murray Manufacturing Corp., owner, filed April 5, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 1171-1183 Atlantic avenue, northeast corner of Perry place (Buildings 9 and 10); (Block 1866, Lots 1-7), Borough of Brooklyn; and

WHEREAS, Order 13777-LF, issued by the Fire Commissioner, November 8, 1944, and referred to in a decision of the Fire Commissioner, dated March 28, 1945, reads:

"1. Arrange wire mesh on all windows on 1st story of Buildings No. 9 and No. 10, so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for the purposes of egress, as per Section 272 of the Labor Law.

2. Arrange the street exit doors of stairways at northwest corner of building #9 and northwest corner of Building #10 so that same can be opened from both sides in such a manner as to afford free and unobstructed egress during working hours. Section 272 of the Labor Law.

3. Arrange all iron bar gratings on all basement windows on the south side of Building #10, so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for the purposes of egress, as per Section 272 of the Labor Law."

and

WHEREAS, the applicant states the building is two stories (30 ft.) in height, 116 ft. by 88 ft. in area; Class 3 construction; located in an unrestricted use, C area, Class 1¼ height district; used and occupied since 1940 for the manufacture of metal parts, 100 persons on the first story, 100 on the 2nd floor and 3 in the cellar; that no change in use or occupancy is proposed; that the building is equipped with two interior stairs, 44 in. wide of iron and concrete construction, enclosed in 6 in. terra cotta blocks and with kalamein doors and leading directly to the street; that one of the interior stairs leads to the roof bulkhead; that there is one fire escape at the northwest corner, consisting of counterbalanced stairs; and

WHEREAS, the applicant contends that the Second Service Command of the U. S. Army Service Forces recommended that all outside wall openings be protected against unauthorized entrance from the outside; and

WHEREAS, the applicant filed copy of recommendation of the U. S. Army.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in an order of the fire commissioner, Order 13777-LF, items 1, 2 and 3, and that the appeal be and it hereby is *granted on condition* that window guards shall be maintained only on such windows as are indicated on revised plan filed with this appeal marked "Received April 19, 1945"; *on condition* that all exits indicated shall be maintained and that means shall be provided, so that the areaways on Atlantic avenue of Building No. 10 shall be available for emergency exit whenever the cellar space is occupied as proposed; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 561-44-A; that this variance shall continue only during the term of the present emergency.

207-45-A

APPLICANT—Frank D. Hutchinson, for Metropolitan Engineering Corp., owner (Murray Manufacturing Corp., lessee).
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—1236-1286 Atlantic avenue, south side, 80 ft. west of Nostrand avenue (ground floor, Buildings 1, 2, 3, 4, 7 and 8); (Block 1200, Lots 21, 33 and 41), Borough of Brooklyn.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

MINUTES

THE RESOLUTION (207-45-A)

WHEREAS, Frank D. Hutchinson, for Metropolitan Engineering Corp., owner (Murray Manufacturing Corp., lessee), filed April 5, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 1236-1286 Atlantic avenue, south side, 80 ft. west of Nostrand avenue (ground floor, Buildings 1, 2, 3, 4, 7 and 8); (Block 1200, Lots 21, 33 and 41), Borough of Brooklyn; and

WHEREAS, Order 13773-LF, issued by the fire commissioner November 6, 1944, reads:

"1. Arrange wire mesh on all windows 1st story of Buildings #1, 2, 3, 4, 7, also iron bars on all windows of 1st story Building #8 so as to be readily removable from both sides, in such a manner as to afford the free and unobstructed use of such windows for the purposes of egress, as per Sec. 272 of the Labor Law.

2. Arrange the doors of stairway at northwest corner of Building #7, so that same can be opened from both sides during working hours. Section 272 of the Labor Law."

and

WHEREAS, said order was referred to in a decision of the fire commissioner, dated March 28, 1945; and

WHEREAS, the applicant states the buildings are 3 and 4 stories in height; 465 ft. by 100 ft. in area at 1st floor; 465 ft. by 90 ft. in area at typical floor; of Class 3 construction; erected 1913; located in an unrestricted use, C area, Class 1¼ height district and used and occupied since 1913 as follows: 1st floor, manufacturing metal products, 224 persons; 2nd floor, same, 355 persons; 3rd floor, same, 182 persons; 4th floor, same, 229 persons; that the building is equipped with a two source sprinkler system and an interior fire alarm system; that there are four 44 in. wide iron stairs, enclosed in 12 in. brick partitions, equipped with kalamein self-closing doors and leading from the roof bulkhead directly to the street; and

WHEREAS, the applicant contends that the 2nd Service Command, Army Service Forces, recommended that all outside wall openings be protected against unauthorized entrance from the outside; that the premises are used for the production of U. S. Army Ordnance material; and

WHEREAS, the applicant has filed copy of the recommendation of the 2nd Service Command, Army Service Forces; and

WHEREAS, plan marked "Received April 9, 1945," filed with this appeal, indicates the windows affected and the installation of panic bolts on two doors leading to Atlantic avenue, one from Building No. 3, and one from Buildings Nos. 5 and 6.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in an order of the fire commissioner, Order 13773-LF, and that the appeal be and it hereby is *granted* as to item 1, *on condition* that screens or bars shall be installed on only such windows as are proposed and as are indicated on plans filed with this appeal marked "Received April 9, 1945", on condition that all exits indicated thereon shall be maintained; as to item 2, that panic bolts shall be installed only on such exterior entrances on the first floor as are indicated on such plans marked "Received April 9, 1945", namely, stair doors on Building 3 and Building 5; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified under Cal. 444-43-A, 243-44-A and 561-44-A; that this variance shall continue only during the term of the present emergency.

219-45-A

APPLICANT—Sidney L. Strauss, for The Church Extension Committee of The Presbytery of New York, Inc., owner.

SUBJECT—Appeal from a decision of the fire commissioner.

PREMISES AFFECTED—2 West 122nd street, southwest corner of Mt. Morris avenue (basement, 1st floor and balcony); (Block 1720, Lot 58), Borough of Manhattan.

APPEARANCES—

For Applicant: Lawrence Laguna.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (219-45-A)

WHEREAS, Sidney L. Strauss, for The Church Extension Committee of the Presbytery of New York, Inc., owner, filed April 9, 1945, an appeal from a decision of the fire commissioner, affecting premises 2 West 122nd street, southwest corner of Mt. Morris avenue (basement, 1st floor and balcony); (Block 1720, Lot 58), Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner dated March 16, 1945, reads:

"2. Install an approved interior fire alarm system, or reduce the number of children proposed to not more than 30. Note: An appeal from this item may be filed with the Board of Standards and Appeals within 30 days."

and

WHEREAS, such decision of the fire commissioner was based on an application for permission to use the building as follows: basement, playroom, 40 children, ages 6 to 15; 1st floor, playroom, 45 children, ages 2 to 5. Balcony floor, playroom, 15 children, ages 5 to 6. Balcony and playroom (sleep room); All occupanies existing; and

WHEREAS, the applicant contends that the building is proposed to be used as a day care center; that it was erected in 1905 and is equipped with ample exit facilities to accommodate the church occupancy; that the day care center will be under the supervision of the Mayor's Committee on Wartime Care of Children with a total of 60 pre-school age children and 40 school age children; that in lieu of the fire alarm system required, it is proposed to install a substandard system consisting of 6 in. vibrating bells and push buttons located in each of the rooms to be used by the nursery (as indicated on the plans filed with this appeal); that these bells to be connected so that any one push button can sound all the bells contained in the system; that this system is to be supplied from two sets of dry-batteries in a wood box painted fire department red; that there shall be fire drills held at least twice a month for the nursery occupancy; it is respectfully requested that a variation of the requirements be granted, to permit the installation of the proposed fire alarm system, in lieu of that which is required; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the decision of the fire commissioner, dated March 16, 1945, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that there shall be installed throughout the portions of the building proposed to be used for day nursery, as indicated on plans marked "Received April 20, 1945", a substandard fire alarm system arranged and located as may be approved by the fire commissioner; that such fire alarm system shall be used only in connection with fire drills, which shall be held not less than once in two weeks under charge of competent supervisors; that all the exits indicated on such plans shall be maintained at all times while the nursery school is in session.

Negative: 0

THE RESOLUTION (45-43-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 47-11 108th street, northeast corner of 48th avenue (Block 2003, Lots 87 and 84), Corona, Borough of Queens, was granted by the Board on April 6, 1943, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted April 6, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* for a temporary term of two (2) years from the date of this *amended* resolution, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of April 6, 1943, shall be complied with and that a certificate of occupancy shall be obtained (Alt. Applic. 1576-42)."

282-44-A

APPLICANT—Eugene Schoen & Sons, for Lilyan Realty Corp., owner. (Joubert Cie, Inc., lessee).

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—1037-1045 Prospect avenue, west side, 150 ft. north of East 165th street and 1032-1054 Union avenue, east side, 127.61 ft. north of East 165th street (Block 2679, Lots 6, 40 and 41), Borough of The Bronx.

APPEARANCES—

For Applicant: Lee Schoen.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (282-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 1037-1045 Prospect avenue, west side, 150 ft. north of East 165th street and 1032-1054 Union avenue, east side, 127.61 ft. north of East 165th street (Block 2679, Lots 6, 40 and 41), Borough of The Bronx, was granted by the Board on May 16, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, to omit the requirement of an interior fire alarm system.

Resolved, that the Board of Standards and Appeals does hereby *correct* the resolution of May 16, 1944, by omitting the requirement of an interior fire alarm system, so that as corrected, the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the labor law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 165-44, objection 7, and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area and shall be arranged substantially as proposed; that the exits as proposed and as indicated on plans filed with this appeal marked "Received May 12, 1944" shall be maintained, and in addition, a stairway replacing the present narrow stairway in the three-story building, shall be constructed, fully enclosed from top to bottom with fire-retarded partitions of Gypsum block with fireproof self-closing door and with an exit within the stair enclosure at the foot leading to the adjoining open lot, which shall be maintained free of encumbrances so exit may be had at all times to Prospect avenue; that a second means of exit shall be provided for the third story, which may be by exterior ladder leading to the adjoining roof from which access to street may be obtained by means of scuttles or bulkheads within the stairway enclosures; that the masonry enclosed stairway in the two-story building, toward the center of the plot, shall have a doorway leading directly to the open lot leading to Prospect avenue; that the sprinkler system shall be maintained to the satisfaction of the fire commissioner and such portable fire fighting appliances as the fire commissioner shall direct shall be maintained. and granted only so long as the conditions as proposed are substantially maintained."

THE RESOLUTION (272-36-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles (pleasure-car type) and the storage of such automobiles offered for sale, affecting premises 1-5 Second avenue and 98-112 East Houston street, northwest corner (Block 456, Lot 34), Borough of Manhattan, was granted by the Board on June 15, 1937, on certain conditions; and

WHEREAS, the permit was extended on May 13, 1941 and April 13, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted June 15, 1937, as amended by resolutions through April 13, 1943, only so far as it has reference to the term of the permit, so that as amended, the resolution shall read:

"* * * *granted* under section 7h for a temporary term of two years from the date of this *amended* resolution, to permit the parking and storage of more than five motor vehicles (pleasure-car type) and the storage of such automobiles offered for sale, *on condition* * * * and that other than as herein *amended*, the conditions of the resolution of June 15, 1937, as amended through April 13, 1943, shall be complied with and that a certificate of occupancy shall be obtained.

(Remaining minutes of the meeting of April 24, 1945 will be printed in the Bulletin of May 8, 1945.)

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse fo rneglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

M., Affecting Calendar Numbers 591-44-A, 734-44-A, 68-45-A, 116-45-A, 60-43-S, 309-44-A, 559-44-A, 59-45-A, 154-45-A, 208-45-A, 739-44-A, 198-45-A, 231-45-A, 633-17-BZ, 469-27-BZ, 44-45-BZ, 489-38-BZ, 1022-40-BZ, 1116-40-BZ, 302-41-BZ, 82-43-BZ, 182-44-BZ, 596-42-BZ and 203-45-BZ.

COURT DECISION.

MR. JUSTICE PETER SMITH AT SPECIAL TERM, SUPREME COURT, KINGS COUNTY, UPHOLDS DECISION OF THE BOARD IN REVOKING AN UNLAWFULLY ISSUED PERMIT AND CERTIFICATE OF OCCUPANCY FOR A GARAGE ERECTED ON A STREET ON WHICH THERE WAS (AND IS) A PUBLIC SCHOOL.

In the Matter of S. B. Garage Corp'n. vs. Murdock—Under Cal. No. 114-41-A, the Board revoked a certificate of occupancy, No. 8466, issued in 1921 after erection of a garage, located at McKibben, White and Boerum Streets, Brooklyn. At the time the garage was constructed, there existed a public school on McKibben Street, within the same block between two intersecting streets, Bushwick Avenue and White Street. The record indicated that the applicant did not call attention to the school on the block. In 1921, a garage for more than five cars was not permitted under Section 20 of the Zoning Resolution to be erected on any portion of a street between two intersecting streets in which portion there existed an exit from or an entrance to a public school.

Mr. Justice Smith, at Special Term, Supreme Court, Kings County said, in part:

"In my opinion, it is manifest beyond cavil that the issuance of the permit and the certificate of occupancy was in direct contravention of the * * * provision of the zoning resolution. The provision is couched in such specific terms that it permits of not the slightest obscurity. The provision was intended to proscribe the construction of a garage on any part of a street between two common intersections, where there was on such street an entrance to or an exit from a public school. That specific proscription was in no way lessened by the additional safeguard whereby a garage was not to be erected in any event within 200 feet from the nearest entrance to or exit from a public school. Clearly, the latter clause was included for the purpose of imposing a minimum distance between a garage and the nearest entrance or exit of a public school where they were not located *on the same street.*"

As to the claim of vested rights, the court said:

"Necessarily, the right to a continuance of the building for garage purposes depends solely upon * * * whether the permit and certificate of occupancy, in the first instance, satisfied all legal prerequisites."

As to the investigation of the records made by a purchaser in 1939 and prior to that date, in 1927, which showed that a certificate of occupancy was existent, that there were no violations of record and that the Fire Department had continuously issued gasoline and storage garage permits, the court said:

"The foregoing circumstances, however, may not be seized upon as constituting a species of estoppel preclusive upon the right of the municipality to revoke the unlawfully issued certificate of occupancy * * *. A municipality may not be equitably estopped by the original misfeasant or malfeasant act of its officers or agents in having issued a permit contrary to the plain mandate of a zoning provision * * *. Nor can laches on the part of the municipality * * * be interposed as a bar."

In citing a court decision in point, the court quoted from it as follows:

"The counsel * * * claims that his client, by reason of the consents obtained and the *lapse of time,* has vested rights. The difficulty is that he never had any rights to vest."

The court pointed out that, even though investment in the property had been made in good faith upon reliance upon the certificate of occupancy, there is no protective ordinance, such as Section 301 of the Multiple Dwelling Law (which relates only to a purchaser of a multiple dwelling). The court in upholding the revocation of the certificate of occupancy by the Board, because the law prohibited the * * * garage at the location in question, cited the remedies pointed out by the Chairman—that the wording of present Section 21a would permit either the closing up of the doors leading to McKibben Street or an application to the Board for relief under Section 7, subdivision g, of the Zoning Resolution (the premises being located in an unrestricted district). (N. Y. Law Journal, April 28, 1945, page 1625).

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

—HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to May 1, 1945.

Cal. No. Dept. Premises Affected.

238-45-A—F.D.—83-30 Kew Gardens road, west side, 8 ft. south of 83rd drive (Block 3356, Lot 30), Kew Gardens, Borough of Queens, 99256-LC.

MAY 8, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, May* 8, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

661-44-BZ—Application, November 22, 1944, under section 21 of the zoning resolution, of Max Horn, applicant, on behalf of Kaymos Realty Corporation, owner, to permit in an F area district, the erection of an apartment house covering a greater area than permitted in an F area district; premises 147 Beach 117th street, west side, 440 ft. south of Rockaway Beach boulevard (Block 757, Lots 28, 32 and 34), Rockaway Park, Borough of Queens.

109-43-BZ—Application, March 12, 1943, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Samuel Sym, owner, to permit in a business use district, the extension in area of a building used as a wet wash laundry; premises 64-08 Perry avenue, south side, 47.73 ft. east of Willow avenue (Block 2716, part of Lot 12), Maspeth, Borough of Queens.

78-45-BZ—Application, February 16, 1945, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of The Greater New York Brewery, owner, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory; premises 284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.

1321-39-BZ—Application, of P. J. Keating, applicant and lessee; reopened April 17, 1945 for consideration as to extension of permit.—Application previously granted on condition, under section 7h of the zoning resolution for a temporary term of two years, permitting partly in a residence use and partly in a business use district, the parking and storaging of more than five motor vehicles; premises 142-23 Roosevelt avenue, north side, 200 ft. east of Union street (Block 5020, Lot 47), Flushing, Borough of Queens.

200-45-BZ—Application, April 5, 1945, under section 21 of the zoning resolution, of George G. Miller, applicant, on behalf of 1063 Madison Avenue Corporation, owner, to permit in a B area district, a two story extension out to the building line of a five story business and residential building; the area being in excess of the requirements for a B area and restricted retail use district; premises 1063 Madison avenue, east side, 76 ft. 7½ in. south of East 81st street (Block 1492, Lot 52), Borough of Manhattan.

46-45-BZ—Application, February 1, 1945, under sections 7c and 21 of the zoning resolution, of Reuben Siskin, applicant and owner, to permit in a business use district, the extension of the factory use in an existing factory building so as to be in excess of the lot area; premises 1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn.

191-45-BZ—Application, March 28, 1945, under sections 7c, 7d and 21 of the zoning resolution, of Pomerance & Breines, applicants, on behalf of National Maritime Union of America, owner, to permit in a residence and partly in an unrestricted use district, the change of occupancy from garage building (previously granted by the Board) and Telephone Exchange Building to Union Headquarters with unemployment office and meeting room; premises 346-352, 354-360 West 17th street, south side, 100 ft. east of 9th avenue and 355 West 16th street (Block 740, Lots 7 and 55), Borough of Manhattan.

60-45-BZ—Application, February 6, 1945, under section 7c of the zoning resolution of Lama & Proskauer, applicants, on behalf of General Linen Supply Co., Inc., owner, to permit in a residence use C area district, the extension and reconstruction of a stable and wagon storage and garage for two commercial cars to a garage for more than five motor vehicles for laundry use and a large boiler room accessory to existing laundry; premises 449-453 and 467-473 Prospect avenue, north side, 151 ft. 2 in. west of Prospect Park West (Block 1113, Lots 62, 73, 74 and 75), Borough of Brooklyn.

Appeals from Administrative Decisions.

107-45-A—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

690-44-A—Re Transportation of Petroleum Oil in Tank Truck (capacity of tank not in conformity with Administrative Code requirements governing Tank Trucks) in New York City.

148-45-A—207-213 Norman avenue and 750-760 Humboldt street, northeast corner (1st floor); (Block 2628, Lot 38), Borough of Brooklyn.

Material for Approval.

604-44-SM—Alpha Hi-Early Strength Portland Cement.

HARRIS H. MURDOCK, *Chairman.*

MAY 8, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, May* 8, 1945 at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Application.

262-37-BZ—Application of Henry W. Schober, applicant, on behalf of Herbert H. Peters, owner, reopened April 24, 1945 for consideration as to extension of permit—Application previously granted on condition under section 7h of the zoning resolution for a temporary term of two years, permitting that portion in the business use district to be used for the storage and parking of more than five motor vehicles; premises 21-11 Menahan street, north side, 101.67 ft. east of Grandview avenue (Block 2204, Lots 68, 71 and 80), Ridgewood, Borough of Queens.

Appeals from Administrative Decisions.

249-45-A—1208 Manor avenue, northeast corner of Westchester avenue (1st floor); (Block 3775, part of Lot 1), Borough of The Bronx.

703-44-A—305-317 Jay street, 80-94 Johnson street, southeast corner, 60-68 Lawrence street and 77-89 Myrtle avenue (Block 142, Lot 1), Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

(Continuation of the minutes of the meeting of April 24, 1945.)

369-36-BZ

APPLICANT—Michael Mead, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the acting borough superintendent) previously granted on condition under section 7f of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station for a temporary term.

PREMISES AFFECTED—2306-2320 Arthur Kill road and 1157-1165 Rossville avenue, southeast corner (Block 6166, part of Lot 25), Rossville, Borough of Richmond.

APPEARANCES—

For Applicant: Michael Mead.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (369-36-BZ)

WHEREAS, this application under section 7f of the zoning resolution, permitting in a business use district, for a term of two years, the erection and maintenance of a gasoline service station, affecting premises 2306-2320 Arthur Kill road and 1157-1165 Rossville avenue, southeast corner (Block 6166, part of Lot 25), Rossville, Borough of Richmond, was granted by the Board on October 13, 1937, on certain conditions; and

WHEREAS, the permit was extended on October 3, 1939 and the resolution was amended on March 26, 1940; and

WHEREAS, the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted October 13, 1937, as amended by resolutions adopted through March 26, 1940, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7f for a temporary term of five (5) years from the date of this *amended* resolution, to permit the maintenance of a gasoline service station, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of October 13, 1937, as amended through March 26, 1940, shall be complied with and that a certificate of occupancy shall be obtained.

429-37-BZ

APPLICANT—Riegelman, Strasser, Schwarz and Spiegelberg, for Morris Roth, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the acting borough superintendent) previously granted on condition under section 7e of the zoning resolution, permitting partly in a business use and partly in a residence use district, the alteration and conversion of occupancy of a frame building to a stable for more than five horses.

PREMISES AFFECTED—47-11 108th street, northeast corner of 48th avenue (Block 2003, Lots 87 and 84), Corona, Borough of Queens.

APPEARANCES—

For Applicant: John F. Finn, Jr. and Morris Roth.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (429-37-BZ)

WHEREAS, this application, under section 21 of the zoning resolution, to permit partly in a business use district and partly in a residence use district the erection and maintenance of a gasoline service station, premises 47-11 108th street and 108-09 48th avenue, northeast corner (Block 2003, Lot 84), Corona, Borough of Queens, was granted by the Board April 5, 1938, on certain conditions; and

WHEREAS, upon court review the Board's decision was sustained by the Supreme Court, Special Term, reversed by the Appellate Division, whose decision was confirmed by the Court of Appeals, reversing the Board; and

WHEREAS, an application for reopening was made under section 7f of the zoning resolution, to permit the erection and maintenance of a gasoline service station for a stated term of years; and

WHEREAS, this application was reopened by vote of the Board on October 29, 1940 and denied by the Board on March 25, 1941 and was subject to court review and discontinued by stipulation; and

WHEREAS, the present applicant requested a reopening and rehearing of the case on a new proposal—to permit under section 7e of the zoning resolution, the alteration and conversion of occupancy of a building to a stable for more than five horses, affecting premises northeast corner of 108th street and 48th avenue (Block 2003, Lots 87 and 84), Corona, Borough of Queens; and

WHEREAS, this case was reopened by vote of the Board on February 2, 1943, subject to usual procedure; and

WHEREAS, on April 6, 1943, this application was granted by the Board, for a term of two years, under section 7e of the zoning resolution, to permit the alteration and conversion of occupancy of a frame building to a stable for more than five horses; and

WHEREAS, the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted April 6, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7e for a term of two (2) years from the date of this *amended* resolution to permit the alteration and conversion of occupancy of a frame building to a stable for more than five horses, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of April 6, 1943 shall be complied with and that a certificate of occupancy shall be obtained (Alt. Applic. 1576-42)".

545-42-BZ

APPLICANT—A. H. Salkowitz, for Lubritorium, Inc., owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—77-02 Roosevelt avenue, southeast corner of 77th street (Block 1488, Lot 1), Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: A. H. Salkowitz.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (545-42-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 77-02 Roosevelt avenue, southeast corner of 77th street (Block 1488, Lot 1), Jackson Heights, Borough of Queens, was granted by the Board on March 9, 1943, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted March 9, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two (2) years from the date of this *amended* resolution, to permit the parking and storage of more than five motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of March 9, 1943, shall be complied with and that a certificate of occupancy shall be obtained (Misc. Applic. 3179-42)."

386-44-BZ

APPLICANT—Cornelius Bregoff, for Staten Island Linen Supply Co., owner.

SUBJECT—Application for consideration—reopening and consideration of new proposal—re Application (decision of the borough superintendent) under section 7a of the zoning resolution, to permit in a business use district, the erection of an extension to an existing laundry; the extension to be used as a storeroom and garage for eight commercial motor vehicles accessory to the laundry, and permitting the maintenance of a driveway across an adjoining lot (previously denied).

PREMISES AFFECTED—420 Targee street, northwest corner of Roff street (Block 642, Lots 1 and 5), Stapleton, Borough of Richmond.

APPEARANCES—
For Applicant: Cornelius Bregoff and Ben Levee.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Request to reopen denied.

THE VOTE TO REOPEN—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (386-44-BZ)

WHEREAS, this application under section 7a of the zoning application, to permit in a business use district, the erection of an extension to an existing laundry; the extension to be used as a storeroom and garage for eight commercial motor vehicles accessory to the laundry and permitting the maintenance of a driveway across an adjoining lot, affecting premises 420 Targee street, northwest corner of Roff street (Block 642, Lots 1 and 5), Stapleton, Borough of Richmond, was denied by the Board on October 17, 1944; and

WHEREAS, the applicant requested a reopening of the application and restoration to the calendar, based on a new proposal; and

WHEREAS, the premises have been inspected by a Committee of the Board since the erection of a five car garage for storage of cars used by the laundry on the adjoining lot; and

WHEREAS, the Board deemed that the new proposal was substantially similar to the previous proposal, variance for which was denied and that there was no basis to warrant a rehearing.

Resolved, that the request to reopen be and it hereby is *denied.*

262-37-BZ

APPLICANT—Henry W. Schober, for Herbert H. Peters, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting that portion on the business use district to be used for the storage and parking of more than five motor vehicles for a temporary term of two years.

PREMISES AFFECTED—21-11 Menahan street, north side, 101.67 ft. east of Grandview avenue (Block 2204, Lots 68, 71 and 80), Ridgewood, Borough of Queens.

APPEARANCES—
For Applicant: Henry W. Schober.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, restored to the calendar and set for hearing on May 8, 1945 at 2 P. M.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

532-40-BZ

APPLICANT—Arnstein and Levy, for Hylda Kaufman and Sadie Rosenberg, owners.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on April 10, 1945, as they appeared in Bulletin No. 16, Vol. 30, are hereby corrected to read as follows:

105-45-A

APPLICANT—William Gold and Anthony M. De Rose, for Universal Metal Products Co., Inc., owner.

MINUTES

SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—351-361 Grand Concourse, west side, 131.40. ft. north of East 140th street and 350-358 Walton avenue (Block 2345, Lot 14), Borough of The Bronx.
APPEARANCES—
For Applicant: William Gold and Anthony M. De Rose.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (105-45-A)

WHEREAS, William Gold and Anthony M. De Rose, for Universal Metal Products Co., Inc., owner, filed March 3, 1945, an appeal from a decision of the borough superintendent, affecting premises 351-361 Grand Concourse, west side, 131.40 ft. north of East 140th street and 350-358 Walton avenue (Block 2345, Lot 14), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated February 2, 1945, on amendment to Alt. Applic. 16-45, reads:

"2. Exits must comply with Section 270 Labor Law."

and

WHEREAS, the applicant states that the building is two stories (39 ft.) in height, 142 ft. by 28 ft. and 34 ft. in area at 1st floor (at Grand Concourse level), 142 ft. and 100 ft. by 158 ft. in area at 2nd floor (at Walton avenue level), Class 3 construction; erected in 1926; located in an unrestricted use, A area, Class 1½ height district and used and occupied since 1943 as follows: cellar, boiler room; 1st floor, stores; 2nd floor, public garage; proposed to be used and occupied: cellar, boiler room; 1st floor—storage and factory, 25 persons; 2nd floor—factory—60 persons; that the building to be used for the manufacture of tools and dies, metal stamping and metal products; that it is equipped with one 3 ft. 8 in. iron stair, leading directly from the 2nd story to the street, enclosed in brick at the first story and metal lath and cement partitions on the 2nd story; and that stair enclosure is equipped with metal, self-closing doors; and

WHEREAS, Violation 933 issued March 8, 1943, was for changing the occupancy of 2nd floor from public garage to factory use, contrary to Certificate of Occupancy 957-26; and

WHEREAS, the applicant contends that the first story (Grand Concourse frontage) is of fireproof construction; that the 2nd story is of Class 3 construction; that the 2nd story on the Grand Concourse frontage for a depth of 31 feet, being the first floor on the Walton avenue frontage for a depth of 124 feet is separated and divided into two distinct areas by an 8-inch brick wall with fireproof doors; that there are three standpipe outlets on this floor; that there is a 4 ft. wide street stairway from the 2nd floor Grand Concourse frontage directly to the street, enclosed in an 8-inch brick wall at first story and wood stud with metal lath and cement plaster on the 2nd floor; that the present owners' business consists of manufacturing tools and dies, metal stamping and metal products, sixty persons engaged in war work; that the first floor on Grand Concourse will be used for office, storage space, showrooms and inspection; that no combustible materials are stored or manufactured; that the 2nd story on the Grand Concourse frontage has an average depth of 31 feet, being the first floor on the Walton avenue frontage for a depth of 124 is in fact two separate areas; that 80% of the building is actually a one-story building and has a ceiling covered with 26 gauge metal and on the Walton avenue front has two wide entrances equipped with sliding doors and a 3 ft. wide exit door will be provided in the sliding doors, leading directly to the street at Walton avenue; that as a secondary exit there is a 3 ft. 8 in. clear stairway directly to Grand Concourse, enclosed in brick; that the first floor on the Grand Concourse frontage will have two wide doors sufficient to allow an automobile truck to enter, one at the northerly and one at the southerly end of the premises, in each of which there will be two 3 ft. wide, 7 ft. high exit doors, directly to the street and in addition, a double door 6 ft. in width in the direct center of the building will be provided; it is submitted that the special and unique construction and layout of the building should be accepted for the present number of occupants and a variation of Section 270 of the Labor Law granted.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, on amendment to Alt. Applic. 16-45, objection 2, and that the appeal be and it hereby is *granted on condition* that the exits, as indicated on plans filed with this appeal marked "Received March 3, 1945", shall be maintained; that the stairway leading to Grand Concourse from the second floor may be enclosed in fire-retarded partitions within the second story; that the scuttle within the stair enclosure shall be maintained; that an additional scuttle shall be constructed near the Walton avenue side, adjacent to the north wall, with a double-rung ladder leading thereto, and an easy-opening device provided thereto; that the building shall not be increased in height and area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that a new certificate of occupancy shall be obtained.

*Correction—In the action of the Board, objection "3" is corrected to read objection "2".

REGULAR MEETING

TUESDAY MORNING, MAY 1, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, April 24, 1945, and Tuesday afternoon, April 24, 1945, were approved as printed in Bulletin No. 18, Volume 30.

ZONING CASES

78-45-BZ

APPLICANT—Lama and Proskauer, for The Greater New York Brewery, owner.
SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory.
PREMISES AFFECTED—284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: Alfred Lama.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to May 8, 1945 at 10 A. M., for decision.

157-45-BZ

APPLICANT—Charles M. Lobejager, for Laurenceville Realty Co., owner of lot 48 and Bulova Watch Co., owner of lot 23 and lessee of lot 48 (Bulova School for Watchmaking, user).
SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolu-

tion, to permit in a residence use, B area district, the erection of a lunch and rest room for disabled War Veterans without providing the rear yard required by the zoning resolution.

PREMISES AFFECTED—40-23 62nd street, east side, 215.20 ft. south of Woodside avenue (rear); (Block 1337, Lot 23 and part of Lot 48), Woodside, Borough of Queens.

APPEARANCES—

For Applicant: Chas. M. Lobejager.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn without prejudice to reconsideration, after a new decision has been obtained from the Borough Superintendent and new plans filed.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

50-41-BZ

APPLICANT—John C. Wandell, for Board of Transportation, City of New York and Salvatore Scala, owners (Salvatore Scala, lessee of Lot 31).

SUBJECT—Application reopened April 11, 1944—Application (decision of the borough superintendent) under section 7h of the zoning resolution, to permit partly in a residence use district and partly in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—310-320 Smith street and 291-295 President street, northwest corner (Block 435, Lot 36 and part of Lot 31), Borough of Brooklyn.

APPEARANCES—

For Applicant: John C. Wandell.

For Opposition: Harold Klorfein, Dept. of Parks.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (50-41-BZ)

WHEREAS, this application under section 21 of the zoning resolution, to permit in a business use district, the erection and maintenance of a business building (public market) having entrance and show windows more than twenty-five ft. from the business corner, affecting premises 292-293 President street, north side, 50 ft. west of Smith (Block 435, Lot 38), Borough of Brooklyn, was denied by the Board on July 22, 1941; and

WHEREAS, the applicant requested a reopening and restoration to the calendar, based on a new proposal, under section 7h of the zoning resolution, to permit partly in a residence use district and partly in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 310-320 Smith street and 291-295 President street, northwest corner (Block 435, Lot 36 and part of Lot 31), Borough of Brooklyn; and

WHEREAS, this case was reopened by vote of the Board on April 11, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 1, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Smith street, Court street and Sackett street are in a business use, B area and Class 1 height district; President street and Union street are in a residence use, B area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 20, 1944, on B. N. Applic. 8—1944, reads:

"4. Proposed storage and parking of more than five motor vehicles on lots partly in a business use district and partly in a residential use district, is contrary to Art. II, Sec. 4(a) 15 and Art. II, Sec. 3, of the zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot 100 ft. frontage on Smith street, 122½ ft. frontage on President street, on which is located a one story frame shelter building 8 ft. 4 in. by 14 ft., the plot being formerly occupied for used car sales; it is proposed to occupy the plot for the parking and storage of more than 5 motor vehicles; and

WHEREAS, the applicant contends that the use requested is not to include any non-conforming use or the servicing of motor vehicles; that the lots in question are not built upon; that Lot 31 came into possession of the City of New York in June, 1938; that Lot 36 came into possession of Salvatore Scala in 1940; that the owners have derived no income from the property, except that in connection with the sale of used cars; that this source of income under existing conditions has almost vanished; that this location is in a closely built-up section of the city with houses built in rows, leaving no way to build private garages in connection with the residences; that the car owners in the vicinity are limited to convenient storage space for their cars; that changing the use of the plot from used-car sales lot to storage and parking of more than five motor vehicles, would not only create an additional source of income for owners and lessee, which is sorely needed, but be a decided convenience to the car owners in the vicinity; that the plot has been operated under license from Dept. of Licenses and Dept. of Finance since June 1, 1938, for the display and sale of used automobiles and the license is in force at this time; that it has been maintained in an orderly and clear manner and its maintenance as a storage and parking lot will be practically the same as the present occupancy and will not tend to impair the character, appearance, utility, public health, safety or general welfare of the community; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision h, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7h thereof, to permit the plot to be used as proposed and as indicated on plans filed with this application marked "Received April 3, 1944" for the parking and storage of more than five (5) motor vehicles for a term of two years from the date of this resolution, *on condition* that the plot shall be leveled substantially to the grade of surrounding streets and shall be surfaced with steam cinders, clean gravel or other suitable material properly rolled and bound and graded so as to provide surface drainage; that there shall be erected on the interior and exterior lot lines, a substantial woven wire fence not less than 6 ft. in height with anchored steel posts and with no openings therein, except one opening to President street, not over 10 ft. in width, with curb cut opposite not over 15 ft. in width; that proper aisles shall be maintained at all times, as indicated on plans filed with this application, to permit ready ingress and egress; that during the term of this variance, the premises shall be used for no other use than as herein permitted and no building shall be erected thereon, except that there may be erected near the entrance, a building solely for the use of the attendant provided such building is not over one story in height and does not exceed 150 sq. ft. in area; that such building may be of frame construction; that no signs shall be erected on the

premises, except that there may be a sign erected near the entrance attached to the fence not exceeding fifteen square feet in area, advertising the parking and storage use and the rates charged, provided such sign is not illuminated and does not extend beyond the building line; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that substantial wood bumpers shall be maintained at a distance of not less than 3 ft. away from the wall of the building on the adjoining plot, to prevent damage to same; that all existing signs and other structures now existing on the lot shall be entirely removed; that all permits shall be obtained and all work completed within three (3) months from the date of this resolution.

418-44-BZ

APPLICANT—Bernard Shatkin, for Tilyou Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit partly in an unrestricted use and partly in a business use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—221-251 Nagle avenue and 501-539 Academy street, southeast corner (Block 2216, Lots 1, 7, 11, 15 and 42), Borough of Manhattan.

APPEARANCES—

For Applicant: Bernard Shatzkin, John M. Parmin, Alfred Lama.

For Opposition: Fletcher A. Brown, John Moncrieff, M. Gelb and Stephen J. O'Keefe.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (418-44-BZ)

WHEREAS, Bernard Shatzkin, for Tilyou Realty Corporation, owner, filed July 5, 1944, an application under section 7c of the zoning resolution, to permit partly in an unrestricted use and partly in a business use district, the parking and storage of more than five motor vehicles, affecting premises: 221-251 Nagle avenue and 501-539 Academy street, southeast corner (Block 2216, Lots 1, 7, 11, 15 and 42), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 1, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Nagle avenue is in a business use, A area and Class 1½ height district; 10th avenue is in an unrestricted use, A area and Class 1½ height district and Academy street is in a residence, business and unrestricted use, A area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated June 27, 1944 re Alt. Applic. 427-44, reads:

> "1. Parking and storage of more than five motor vehicles in a business district is not permitted, being contrary to Sec. 4, Article II, zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 350 ft. frontage by 476 ft. 5⅜ in. irregular in area, now occupied for parking and storage of more than five motor vehicles and a gasoline service station and that it is proposed to maintain this use; and

WHEREAS, the applicant contends that the plot is being used at the present time as a parking and storage lot for more than five motor vehicles, this portion being part of an original grant by the Board under Cal. 433-39-BZ; that this plot is partly in a business district and partly in an unrestricted district; that the business portion, as described by the City Planning Commission, is along Nagle avenue for a depth of 100 ft.; that the balance of the plot is all in the unrestricted area; that it is improved with three approved type 550 gallon gasoline storage tanks, two grease pits, one story frame office, 16 ft. 6 in. by 37 ft.; one brick storage space of 9 ft. 4 in. by 18 ft. and one metal garage 20 ft. by 20 ft.; that the street frontage is enclosed with a 7 ft. high steel fence; that there is one curb cut on Academy street, 100 ft. south of Nagle avenue, 53 ft. 7 in. wide, this being the only means of entrance and exit into the parking lot; it is also proposed to construct a new 4 ft. high wide rail fence at the easterly portion and southwesterly portion of the plot; that in view of the fact that the larger portion of the premises is in the unrestricted zone and also the fact that there is a decided need for parking facilities in this area, it is respectfully requested that the application be granted; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7c thereof, for a term of five (5) years from the date of this resolution, to permit the premises within the business use district to be occupied for the parking and storage of more than five (5) motor vehicles in conjunction with the adjoining lots as proposed in the unrestricted district, as indicated on plans filed with this application marked "Received July 5, 1944" *on condition* that the plot shall be leveled substantially to the grade of surrounding streets and shall be surfaced with steam cinders, clean gravel or other suitable material properly rolled and bound and graded, so as to provide surface drainage; that there shall be erected on the street building lines and the interior lot lines, a substantial woven wire fence with anchored steel posts; that such fence shall be not less than 7 ft. in height, except that the fence separating the lots involved in this application, namely, lots 7, 11 and 42, from the adjoining lots 15, 24 and 27 not included in this application may be separated by a substantial fence, constructed with wood posts and wood rails as indicated on plans, to a total height of not less than 6 ft.; that during the term of this variance, the premises within the business use district shall not be used for any other use other than as herein permitted and any existing unlawful extension of the use in the unrestricted district, not permitted in the business district, shall either be removed therefrom or placed within the unrestricted district; that the entrance to these premises shall not exceed one from Academy street within the unrestricted district; that such entrance shall not exceed the existing entrance and curb cut as indicated on plans filed with this application; that all existing buildings and uses in the business use district shall be removed and no buildings shall be erected within the business use district, except that the existing frame building used for a conforming use only may be continued as shown, located near the intersection of Academy street and Nagle avenue; that no signs shall be erected in the business use district, except that there may be a sign attached to the fence near the entrance, advertising the parking and storage use and the rates charged, provided such sign does not exceed 15 sq. ft. in area, is not illuminated and does not extend beyond the building line; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that proper aisles shall be maintained at all times for easy ingress and egress; that all permits shall be obtained and all work completed within three (3) months from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

107-45-A

APPLICANT—James E. Casale, for 18 East 71st Street Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

APPEARANCES—

For Applicant: Sol Martoara.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 8, 1945 at 10 A. M. at request of applicant.

158-45-A

APPLICANT—Charles M. Lobejager, for Laurenceville Realty Co., owner of lot 48 and Bulova Watch Co., owner of lot 23 and lessee of lot 48 (Bulova School for Watchmaking, user).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—40-23 62nd street, east side, 215.20 ft. south of Woodside avenue (1st and 2nd floors); (Block 1337, Lot 23 and part of 48), Woodside, Borough of Queens.

APPEARANCES—

For Applicant: Chas. M. Lobejager.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn without prejudice, in connection with Cal. 157-45-BZ.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (94-45-A)

WHEREAS, Seelig and Finkelstein, for Trustees of Leake and Watts Orphan Home of the City of New York and A. Milder and Sons, owners, filed February 24, 1945, an appeal from a decision of the borough superintendent, affecting premises 233-235 Division street, south side, 138 ft. west of Montgomery street (Block 286, Lots 68 and 69), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated February 13, 1945, on Alt. Applic. 1638-44, reads:

"3. Building exceeding 4 stories and fifty ft. in height, should be of fireproof construction, as per Section 4.2.1 Bldg. Code."

and

WHEREAS, the applicant states that the building is 5 stories (53 ft.) in height, 46 ft. 2 in. by 50 ft. 6 in. in area, of class 3 construction, erected in 1887, located in a retail use, D area, class 1½ height district and used and occupied as follows: #233 Division street, lot 69: cellar—storage and boiler room; 1st floor—stores and two apartments; 2nd to 5th floors—two apartments on each floor; proposed to be used and occupied as follows: cellar—same—2 persons; 1st floor—offices and stores—10 persons; 2nd to 5th floors—storage warehouse—5 persons each floor; #235 Division street, Lot 68; cellar—storage and boiler room—2 persons; 1st floor—store—5 persons; 2nd to 5th floors—storage warehouse—1 person on each floor; proposed to be used and occupied: cellar—same; 1st floor—same; 2nd to 5th floors—same—5 persons each floor; that a Certificate of Occupancy has been issued for 235 Division street; and

WHEREAS, there is one stairway in Building 233 Division street, at the front, of steel construction, fireproof enclosed, equipped with fireproof self-closing doors and leading from the roof to the street and one fire escape is proposed to be erected at the front of building leading to the street by a ladder, but not to roof; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that the prospective purchasers of 233 Division street are the owners of 235 Division street, which they acquired in 1929 as an old law tenement; that #235 Division street was altered to its present use of store on 1st floor and storage warehouse on upper floors; that all floors were reinforced and elevator and fireproof stairs installed; that #233 Division street, which is an old law tenement with stores on the 1st floor, is identical in all respects to #235 before alteration; that #233 has been empty for eight years; that the entire street is devoted to sale and storage of second-hand clothing and is not suitable for residential purposes; that the prospective purchaser is in need of additional space, as it is under contract with the U. S. Treasury to supply used clothing and the present building is inadequate; that it is proposed to combine the two buildings and use them as storage warehouses on the upper floors and offices on the 1st floor; that all partitions throughout the entire building will be removed and floor beams reinforced to sustain a liveload of 120 lbs.; that in 1938 the Building Code was changed, limiting the nonfireproof commercial building to 4 stories and not over 50 ft. in height; that the building is 5 stories, 53 ft. in height; that due to the similarity of the two buildings, it is asked that the Board grant the appeal, so that the building can be purchased and business extended as proposed.

Resolved, that the decision of the borough superintendent on Alt. Applic. 1638-44, Objection 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that any connections through the party wall, connecting to the adjoining building operated in conjunction with this building, shall comply with the requirements for separating such building from the adjoining building with approved self-closing fire wall doors at all openings; that all ceilings throughout shall be fire-retarded as proposed consisting of ½ in. plaster boards and plaster or ½ in. plaster boards and 26 gauge metal; that the means of exit shall be maintained and an opening to the stair shown in No. 235 Division street shall be provided on all floors, to provide a primary means of exit from all floors of the building at 233 Division street; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct: that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

213-45-A

APPLICANT—The Brooklyn Home for Aged Men, owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—745 Classon avenue, northeast corner of Park place, (basement); (Block 1163, Lots 1 and 90), Borough of Brooklyn.

APPEARANCES—

For Applicant: Wm. B. Johnston and R. F. Greacen.

For Administration: E. A. Meyer, Fire Dept.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (213-45-A)

WHEREAS, The Brooklyn Home for Aged Men, owner, filed April 6, 1945, an appeal from an order of the fire commissioner, affecting premises 745 Classon avenue, northeast corner of Park place (basement); (Block 1163, Lots 1 and 90), Borough of Brooklyn; and

WHEREAS, order 98462-LC issued by the Fire Commissioner, December 21, 1944, and repeated in his decision dated March 22, 1945, reads:

"An inspection of your refrigerating system located at the above premises, shows that the following change is necessary to have the system conform with Fire Department regulations.

1. Separate room containing Copeland methyl chloride (12 pounds) refrigeration machine from remainder of cellar by unpierced fireproof wall, as per Section C-19-98-f-6 of the Administrative Code, since this building is occupied as a home for the aged which gives asylum for persons who are helpless."

and

WHEREAS, the applicant states that the building is four stories, and basement (50 ft.) in height, 39 ft. by 52 ft. in area; Class 3 construction; located in a business use, B area and Class 1¼ and 1⅛ height district; erected about 1870; used and occupied as follows: basement, storage and boilerroom; 1st floor, dining room, refrigerator and storage; 2nd floor, bedrooms, dining room, washroom, bathroom; 3rd floor, bedrooms, toilet rooms, shower stall, bathroom; 4th floor, toiletroom, bedrooms, bathrooms; 5th floor, bedrooms, sitting room and bathroom; total occupancy throughout twenty persons; that the building is equipped with an interior fire alarm system and fire drills are maintained; that there is one 36 in. wide wood stairs, enclosed in partitions of lath and plaster, and two fire escapes leading to the yard by iron stairs with egress through the yard to the streets; and

WHEREAS, the applicant contends that compliance with the order would entail an unnecessary hardship; that the chloride contained in the machine does not exceed five pounds; that the present Copeland unit with ice-boxes is now located in a separate room, which has a copper open louvre sash to the outside air; that there is a vestibule with an open iron grilled door leading from this room to the yard; that there is also a double self-closing, fireproof door into the building from the refrigeration room; that the Fire Department approved the plans of the existing installation in 1931; that no changes have been made since; that no helpless persons are housed in the Institution; that the Home is operated solely for aged couples; that all of the persons housed are in good health; that in the event of sickness, they are removed to an infirmary or a hospital; that the order of the fire commissioner is erroneous and that the refrigeration room complies with the law.

Resolved, that the decision of the fire commissioner on Order 98462-LC, item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the amount of methyl chloride shall not exceed five (5) pounds as proposed; that in all other respects, the installation shall comply with the proposal and as indicated on plan filed with this appeal marked "Received April 6, 1945", including the copper louvre sash for ventilation and shall be maintained and operated to the satisfaction of the fire commissioner; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct.

770-42-A

APPLICANT—Minnesota Mining and Manufacturing Company, owner.
SUBJECT—Application for consideration — reopening, amendment of resolution and extension of variance —re Appeal from a decision of the fire commissioner re Packaging and distribution of inflammable mixtures known as "3-M Furniture Cleaner and Polish and Scotchlite Adhesive" in 1 pt., 1 qt., ½ gallon and 1 gallon glass containers (capacity of same not in conformity with Admin. Code Requirements); previously granted on condition for temporary term of 3 months.

THE RESOLUTION (770-42-A)

WHEREAS, this appeal from a decision of the fire commissioner, relative to packaging, storage and distribution of combustible mixture known as "3M Wax Finish" in one-gallon glass bottles, was granted by the Board on February 16, 1943 on certain conditions, resolution amended on July 13, 1943 and the applicant requested a further amendment of the resolution to include permission for the packaging of the inflammable mixtures known as "3M Furniture Cleaner and Polish" and "Scotchlite Adhesive" in glass containers in pint, quart, one-half and one-gallon sizes; and

WHEREAS, on November 30, 1943, the resolution was further amended and on May 9, 1944 and November 21, 1944, the permit was extended and the applicant requested a further amendment of the resolution and a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of February 16, 1943 as amended through November 21, 1944, so that as amended, the resolution shall read:

"that the decision of the fire commissioner dated October 30, 1942 be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the product known as 3-M Wax Finish with a flashpoint over 100 deg. F. and now permitted under Fire Department Certificate of Approval No. 933, to be marketed in glass jugs of one gallon capacity for commercial use only not as proposed, but for household use; that such jugs shall bear labels as required by the Administrative Code, worded to the satisfaction of the Fire Commissioner, and also Scotchlite Adhesive with a flashpoint of approximately 70 deg. F. in one pint bottles for commercial use only and not for household use, also included under Fire Department Approval No. 933 and labeled as above required; that this variance shall be for a term of six (6) months from the date of this *amended* resolution."

239-43-A

APPLICANT—The Tanglefoot Company, owner.
SUBJECT—Application for consideration — reopening, amendment of resolution and extension of permit —re Appeal from decisions of the fire commissioner re Packaging of combustible mixture known as "Victory Difusor Liquid" in 1 gallon and ½ gallon glass jugs (capacity of same not in conformity with Admin. Code Specifications).
APPEARANCES—
For Applicant: D. E. William.
ACTION OF BOARD—Appeal reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn..... 3
Negative: Commissioner Savage 1

THE RESOLUTION (239-43-A)

WHEREAS, B. D. Bradford, for the Tanglefoot Company, owner, filed on May 4, 1943, an appeal from a decision of the fire commissioner, relating to the packaging of a combustible material known as "Victory Difusor Liquid Insecticide" in gallon and half gallon glass jugs as cited in a decision of the fire commissioner; and

WHEREAS, this appeal was granted by the Board on June 8, 1943, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 8, 1943, so that as amended, the resolution shall read:

"that the decision of the fire commissioner dated April 12, 1945, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* to permit the material as proposed with a flashpoint of 155 deg. F. to be marketed in glass jugs of one gallon capacity, *on condition* that such containers shall be used only for the liquid bearing a certificate of approval issued by the fire commissioner under No. 950; that the label shall comply with the requirements of the Administrative Code therefor and shall be to the satisfaction of the fire commissioner; that the jugs shall be of the Anchor Hocking Glass Company manufacture as proposed; that this variance shall be for a period of one (1) year from the date of this *amended* resolution."

MATERIALS FOR APPROVAL

156-43-SM

APPLICANT—George Pariot, for Monarch Manufacturing Company, owner.

SUBJECT—Monarch Panic Exit Devices (Panic Bolts), Models 4000, 4001 and 4002, approval of.

APPEARANCES—

For Applicant: Bernard G. Pariot.

THE RESOLUTION (156-43-SM)

WHEREAS, George Pariot, for Monarch Manufacturing Company, owner, filed on April 5, 1943, an application with the Board of Standards and Appeals for approval of the material known as the Monarch Panic Exit Devices (Panic Bolts) Models 4000, 4001 and 4002; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

Re: Cal. 156-43-SM.
Subject: Monarch Panic Exit Devices (Panic Bolts) Models 4000, 4001, 4002, Approval of.

March 26, 1945.

REPORT OF COMMITTEE ON TESTS

The Monarch Manufacturing Company filed an application with the Board of Standards and Appeals under C26-178.0.b of the Administrative Building Code for approval of the Monarch Panic Exit Devices (Panic Bolts) of cast iron, steel tubing and bronze working parts, Models 4000, 4001 and 4002.

USE

These devices are self-releasing exit latches, combining in one unit the usual door locking device and self-releasing mechanism. The system of levers is designed so as to release the lock and latches simultaneously and permit the doors to open by the application of force on a cross-bar extending across the interior side of the door.

These latches are intended for use in connection with the exit doors of theatres, schools, churches and other public or factory buildings, equipped with single or double doors swinging outwardly.

Description Model #4000

The assembly exit push bar Model 4000 consists of exterior iron housing, bronze brackets (or arms), and steel tubing cross bar. The main housing has bronze bracket, screwed thereto, which is prepared for cross bar. This bracket has an actuating lever which operates the latch bolt of the lock. It is also arranged with a dogging feature to hold cross bar in retracted position, permitting cross bar to be depressed at will. The end housing also has a bracket screwed thereto which is prepared for the cross bar. A strong spring holds the arm in projected position and permits the action of the cross bar to be coordinated. All component parts are heavy iron castings, free from flaws, machined and hand fitted to insure smooth working order. This device is not handed and is generally furnished for a single door or the action leaf of a pair of doors. The horizontal cross bar is 7/8 inch steel tubing. The brackets are 7 5/8 by 2 1/8 and 3 by 2 cast iron.

OPERATION

Pressure on the horizontal bar automatically retracts the latch bolt of the lock allowing the door to be opened at all times from the inside.

Description of Model #4001

Exit push bar type 4001. The main housing has curved bracket, fastened to same, which is prepared for cross bar and arranged to accommodate the vertical rod through same. This bracket has an actuating fork which retracts or releases the vertical rod locking feature. Gravity force holds arm in projected position, permitting cross bar to be depressed at will. The end housing likewise has a curved bracket fastened to same, which is prepared for same. The top and bottom cases are arranged with hinged latches which engage strikes plates. Top and bottom strikers are furnished with this bolt to suit field conditions. All component parts are made of cast bronze and cast iron, heavy castings free from flaws, machined and hand fitted to insure smooth working, long wear and requiring a minimum of operating force. This device is not handed and is generally furnished with a single door or the inactive leaf of a pair of doors.

Bolt rods are 1/2" in diameter, horizontal bar is 7/8" tubing, the main housing cases are both 3" x 2". The top and bottom casings are 2 1/4" x 2 1/4". The top strike with return for stop 1/2" thick.

Operation: Pressure on horizontal bar automatically releases bolts at top and bottom. When door closes bolts automatically project into strikes except when locked in retracted position by means of key.

Description of Model #4002

Exit push bar type 4002, is similar in all respects to 4001, except that top latch has an automatic release which holds the device retracted until door is closed. Bottom rod engages bottom strike directly instead of through hinged latch. The construction details and operation are the same as in 4001.

Tests

Model 4000 was inspected and tested by the Committee on Tests of the Board at 2034 Webster Avenue, The Bronx. Manual operation for 100 cycles disclosed no defects, the device functioning properly. An inspection of the plant of the manufacturing agent showed that the manufacturer is fully equipped with necessary machinery to supply a uniform product.

Recommendation

On the basis of the inspection and test it is recommended that temporary approval be granted to the Monarch Panic Exit Devices (Panic Bolts), Models 4000, 4001, 4002, for use in New York City for the duration of the war emergency, under the provisions of C26-191.0 and C26-285.0 of the Administrative Building Code and in specific cases, subject to a variation by the Board under the provisions of section 272, paragraph 3 of the State Labor Law, provided the device bears a label permanently affixed, reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 156-43-SM."

(Sgd) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Monarch Panic Exit Devices (Panic Bolts), Models 4000, 4001 and 4002, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

603-44-SM

APPLICANT—Richards-Wilcox Mfg. Company, owner.

SUBJECT—Richards-Wilcox RW-1447 Fyer Wall Door, including 1102, 1303, 1304, sliding types, 1406, 1506, swinging types, with hardware as listed with each assembly, approval of.

APPEARANCES—

For Applicant: Robt. Duncanson.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.

THE VOTE TO APPROVE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (603-44-SM)

WHEREAS, the Richards-Wilcox Manufacturing Company, owner, filed on October 20, 1944, an application with the Board of Standards and Appeals for approval of the material known as Richards-Wilcox RW-1447 FyeR Wall Door including 1102, 1303, 1304 sliding types, 1406, 1506, swinging types, with hardare as listed with each assembly; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 603-44-SM.

Subject: Richards-Wilcox RW-1447 FyeR Wall Door, including 1102, 1303, 1304, sliding types, 1406, 1506, swinging types, with hardware as listed with each assembly, approval of.

The Richards Wilcox Manufacturing Company of Aurora, Illinois, filed with the Board of Standards and Appeals an application for the approval of there sliding and swinging fire doors known as RW-1447, incline track; RW-1303, horizontal track; 1304, horizontal track, dropped to permit installation where low ceilings exist; RW-1406, single swing type mounted in frame of steel; RW-1506, pair of swinging doors mounted in frame, swinging doors in each case of flush type under the requirements of C26-178.0,b in accordance with the test requirements of C26-610.0 for use as prescribed in C26-660.0, Administrative Building Code in fire walls and in such openings requiring a lesser fire resistive rating than 3 hours.

DESCRIPTION

The door, applicant's type #1447, assembly equipped with standard labeled sliding hardware on a level track and mounted on a 12-in. masonry wall, was designed for the protection of openings in fire walls 9 ft. wide, 10 ft. high and in other locations where sliding doors are considered acceptable.

Details of face sheets are shown on Fig. 1. The door was constructed of frame members to which were applied on the room side, vertical corrugated 24 USG galvanized steel sheets and on the opposite face, horizontal 24 USG galvanized corrugated sheets. The sheets are secured to the frame members and to each other as shown on Fig. 1. In addition, the horizontal sheets, vertical sheets, and insulation are secured in position through the assembly along the vertical and horizontal edges, as shown and at intermediate points. There is inserted between the vertical and horizontal sheets, ⅜ in. asbestos Millboard secured in position by attachments employed to keep the respective face plates in alignment in the central area and along the edges of the door panel. Hardware details are as shown on Fig. 1, and are Underwriter's labelled types. Details for punching bolt holes for the flat track to be in accordance with schedule on file with the Underwriters.

FIRE TEST

The door was mounted on a 12 in. masonry wall opening which was well seasoned before test. The assembly was installed under the observation of an engineer of Underwriters' Laboratories, Inc. These tests were conducted in accordance with the requirements of Fire Tests of Opening Protective Assemblies, Administrative Building Code of the City of New York, and Underwriters' Laboratories, Inc. The equipment regularly used by Underwriters' Laboratories, Inc. for tests of fire doors was used with additions to the apparatus for indicating temperatures at various locations on the unexposed surface of the door.

After the panel on which the door was mounted was drawn into position, the fire was started in the furnace, exposing one face of the door to gas flames controlled in accordance with the Standard Time Temperature Curve. This exposure to fire was continued for 3 hr., after which time the panel was withdrawn from the furnace and the exposed face was immediately subjected to the impact and cooling action of a 30-lb. water stream applied for 2 min. 20 sec. in accordance with the requirements of the Administrative Building Code.

The furnace chamber temperatures were indicated by 12 calibrated thermocouples symmetrically located. Temperatures on the unexposed surface of the door were indicated by three thermocouples mounted on face of door. Each thermocouple was covered by a 6 by 6-in. dry asbestos pad. In addition to the above, bare thermocouples were placed on the door and at 32, 64, and 96 in. away from the unexposed face. These temperatures were taken without the smoke chamber installed in front of the unexposed face of the test assembly.

Deflections of the doors were determined by measurements at about the center point on a horizontal line across the center of the doors. The reference base was a fine wire, mounted on the wall frame, with one end fixed to the door and the other free to slide so as to remain in a constant position with respect to the original location of the points at which measurements were taken.

Throughout the Fire and Fire Hose Stream Tests observations were made to note the character of the fire and its control; the condition of the explosed face as observed through mica windows provided in the end walls of the furnace, and all developments pertinent to the performance of the door as a fire retardant with

FIG. 2

special reference to stability, heat insulation, and flame passage; and the general condition of the door resulting from application of the fire hose stream.

No difficulty was experienced during the installation using tools and methods ordinarily employed by mechanics doing this type of work. After the door was installed and adjusted, it operated satisfactorily. The clearances average $\frac{9}{16}$ in. at lintel, ⅛ in. at rear edge, ¼ in. at front, and $\frac{9}{16}$ in. at the sill.

RESULTS OF TEST

The fire was luminous and fairly well distributed after the first 5 min. of test. The temperatures in the furnace chamber and on the unexposed face of the sample are shown in time temperature chart. The exposed metal indicated buckling and bulging during the first 5 min. of test. This condition did not cause any marked failure of the assembled parts during the fire exposure. The hangers were up off the track about ¼ in. at 15 min: increasing to ½ in. at 30 min. and about ⅝ in. during the last hour of the fire exposure. The track binder angles held the door securely in position on the opening during the fire exposure and application of the hose stream. The door assembly expanded upward about $1\frac{3}{16}$ in. during 3-hr. fire exposure and was about in the original position after the application of the hose stream. The central hanger was off the track about ¾ in. after the application.

The unexposed face indicated very little change during the 3 hr. fire exposure test except that the door was resting on the sill at the north and south corners at about 20 min. and in contact with sill for practically entire width at 50 min. There was a ½-in. bulge at the top north and south corners of the door away from the masonry at 170 min. after the start of the test.

The average temperature on the unexposed face of the door at the end of 30 minutes was 673 deg. F. Subtracting the initial temperature of 70 deg. F. the rise in

FIG 3

temperature was 603 deg. F. which was within the rise limitations prescribed in C26-610.0, Par. e. The highest temperature reached was at the end of 3 hours when the average of the three unexposed surfaces was 888 deg. F.

The maximum radiation temperatures at the test were as follows:

Dist. from Door	Max Radiation Temp.	Time Reading Taken
32"	146	175 minutes
64"	126	" "
96"	108	" "

There was a slight negative pressure in the furnace chamber during the test as indicated by the gas flame indicator.

During the fire test the movement of the door was irregular toward the fire, as shown below. Readings were taken at about the center of the assembly as follows:

Time Min.	Movement of Center In.
Initial	0
5	2⅛
10	3¼
15	3¼
20	3
25	2⅝
30	2¼
40	2
50	2
60	2
80	2
180	2

No smoke or passage of flame through or around the door occurred during the 3-hr. fire exposure. During the test there was a uniform bulge toward the fire, assuming a maximum of 3¼ in. at the center at 15 min. after the start of the test, decreasing to 2 in. at 40 min., showing no change during the remainder of the test. This bulge was 3¼ in. 24 hr. after the hose stream.

KEY TO TABLE: A. Width of opening. B. Width of door. C. Drop brackets required. D. Hangers required.

FIG. 4

As will be noted from the temperature chart, flammable substances placed against the unexposed face of the door would ignite in cases of severe fire exposure. It is safe to assume that under most conditions in the field a clear space will be provided in front of the opening.

Recommendation

On the basis of the foregoing data and tests, the Committee on Tests recommends the approval of the Richards-Wilcox Opening Protective Assembly No. 1447 (lap type) with Underwriters' approved hardware, applicant's #1102, for use with inclined tracks suitable for use with one fusible link as shown in Fig. 1, size—9 ft. 8 in. in width and 10 ft. 4 in. in height as tested, when constructed and hung as provided herein.

The approval is for use on both level and inclined tracks as an opening protective assembly in fire walls (three hours) under Section C26-660.0 (10.8.1), as a protection of openings in fire partitions (one and one-half hours) under section C26-661.0 (10.8.2) as a protection of openings in fireproof partitions under section C26-662.0 (10.8.3), Administrative Building Code, and as a fireproof door under Art. 1, section 4, subdivision 10, Multiple Dwelling Law.

The applicant has also requested approval on the basis of the foregoing test in accordance with the similar procedure previously adopted by the Board and approval of additional constructions of opening protective assemblies as follows:

Applicant's opening protective assembly #1447 equipped with Underwriters' label hardware, applicant's #1102, for use on inclined track with two fusible links identical in construction with the sample as tested, other details as shown in Fig. 2.

Applicant's opening protective assembly #1447 equipped with Underwriters' labeled hardware, applicant's #1303, for use on level track, door constructed similar to specimen, other details shown on Fig. 3.

Applicant's #1447 door equipped with Underwriters' hardware, applicant's #1304 for level drop track, door constructed similar to specimen, other details as shown in Fig. 4.

Applicant's #1447 door equipped with Underwriters' hardware, applicant's #1406, single swing type, constructed similar to test sample except for manner of hanging as shown in Fig. 5, when mounted with either of the flush type or the lap type hardware as shown in the details.

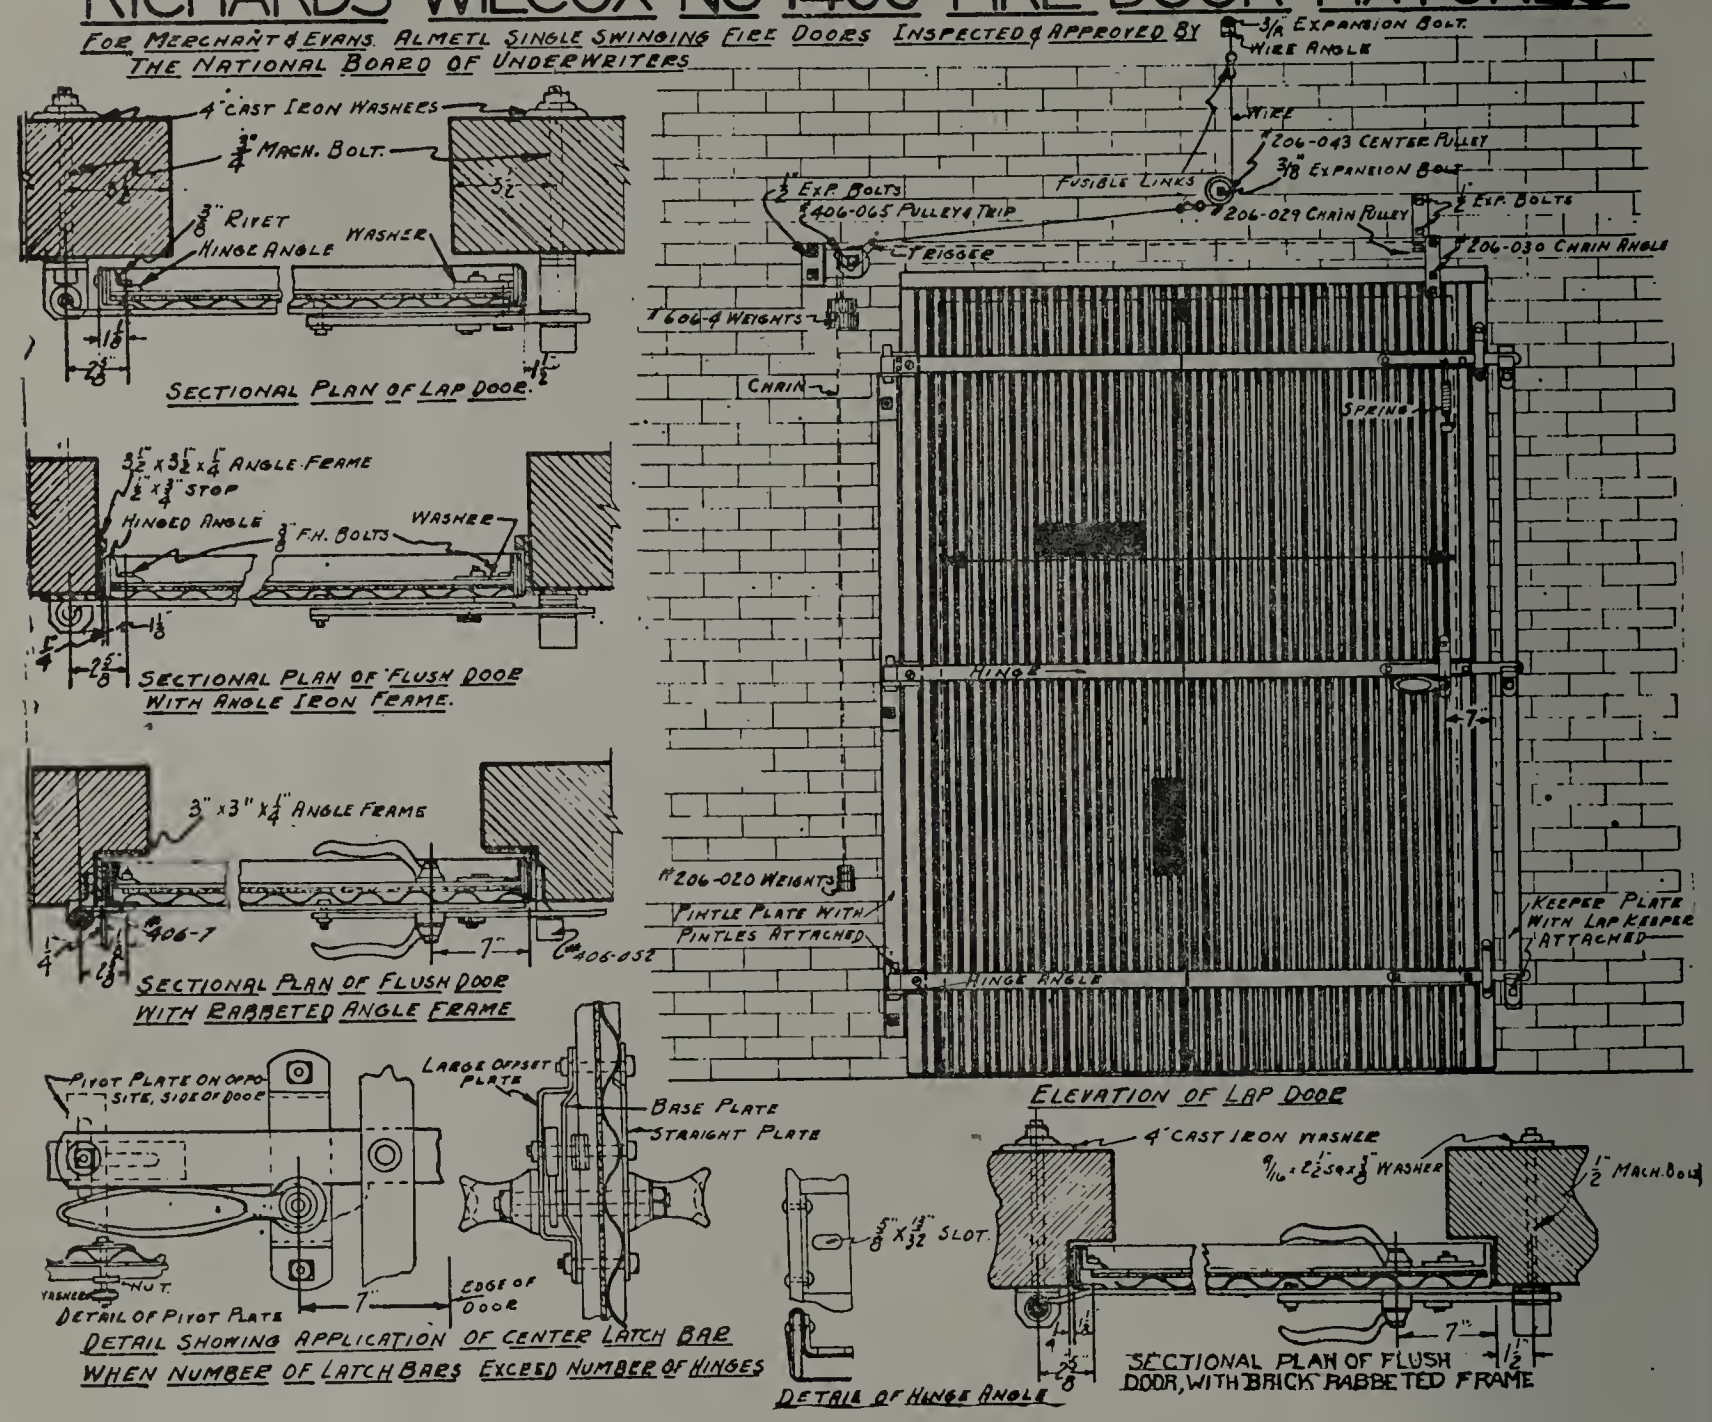

FIG. 5

Applicant's opening protective assembly #1447 with Underwriters' labeled hardware, applicant's no. 1506, for a pair of swing doors arranged for lap and flush type mounting as shown in Fig. 6.

On the basis of the test data and in view of the identical construction of each of the alternate assemblies, the Committee on Tests recommends the approval of the Richards-Wilcox Manufacturing Company's opening protective assemblies as described herein, Figs. 2 through 6, for use as opening protective assemblies in fire walls (three hours) under Section C26-660.0 (10.8.1), as a protection of openings in fire partitions (one and one-half hours) under section C26-661.0 (10.8.2) as a protection of openings in fireproof partitions under section C26-662.0 (10.8.3), Administrative Building Code, and as a fireproof door under Art. 1, section 4, subdivision 10, Multiple Dwelling Law, provided that on swinging doors, hinges and latches be provided as follows:

SCHEDULE OF HINGES & LATCHES

Height of Door	No. of Latches	Width of Door 0'-2'0"	2'-0"-3'-0"	3'-0"-4'-0"	4'-0"-5'-0"	5'-0"-6'-0"
0' to 5'-0"	3	2	2	2	2	2
5'-0" to 6'-6"	3	2	2	2	3	3
6'-6" to 8'-6"	3	3	3	3	4	4
8'-6" to 10'-6"	4	3	3	4	4	4
10'-6" to 12'-0"	5	4	4	4	4	4

It is further recommended that all opening protective assemblies to be used in New York City be inspected by the Underwriters' Laboratories for compliance herewith; that the permissive provisions allowed under C26-610.0a wherein opening protective assemblies may be manufactured up to 25% in excess of the sample as tested apply to only the sample that was tested, namely, Fig. 1, and that the permitted increase in area

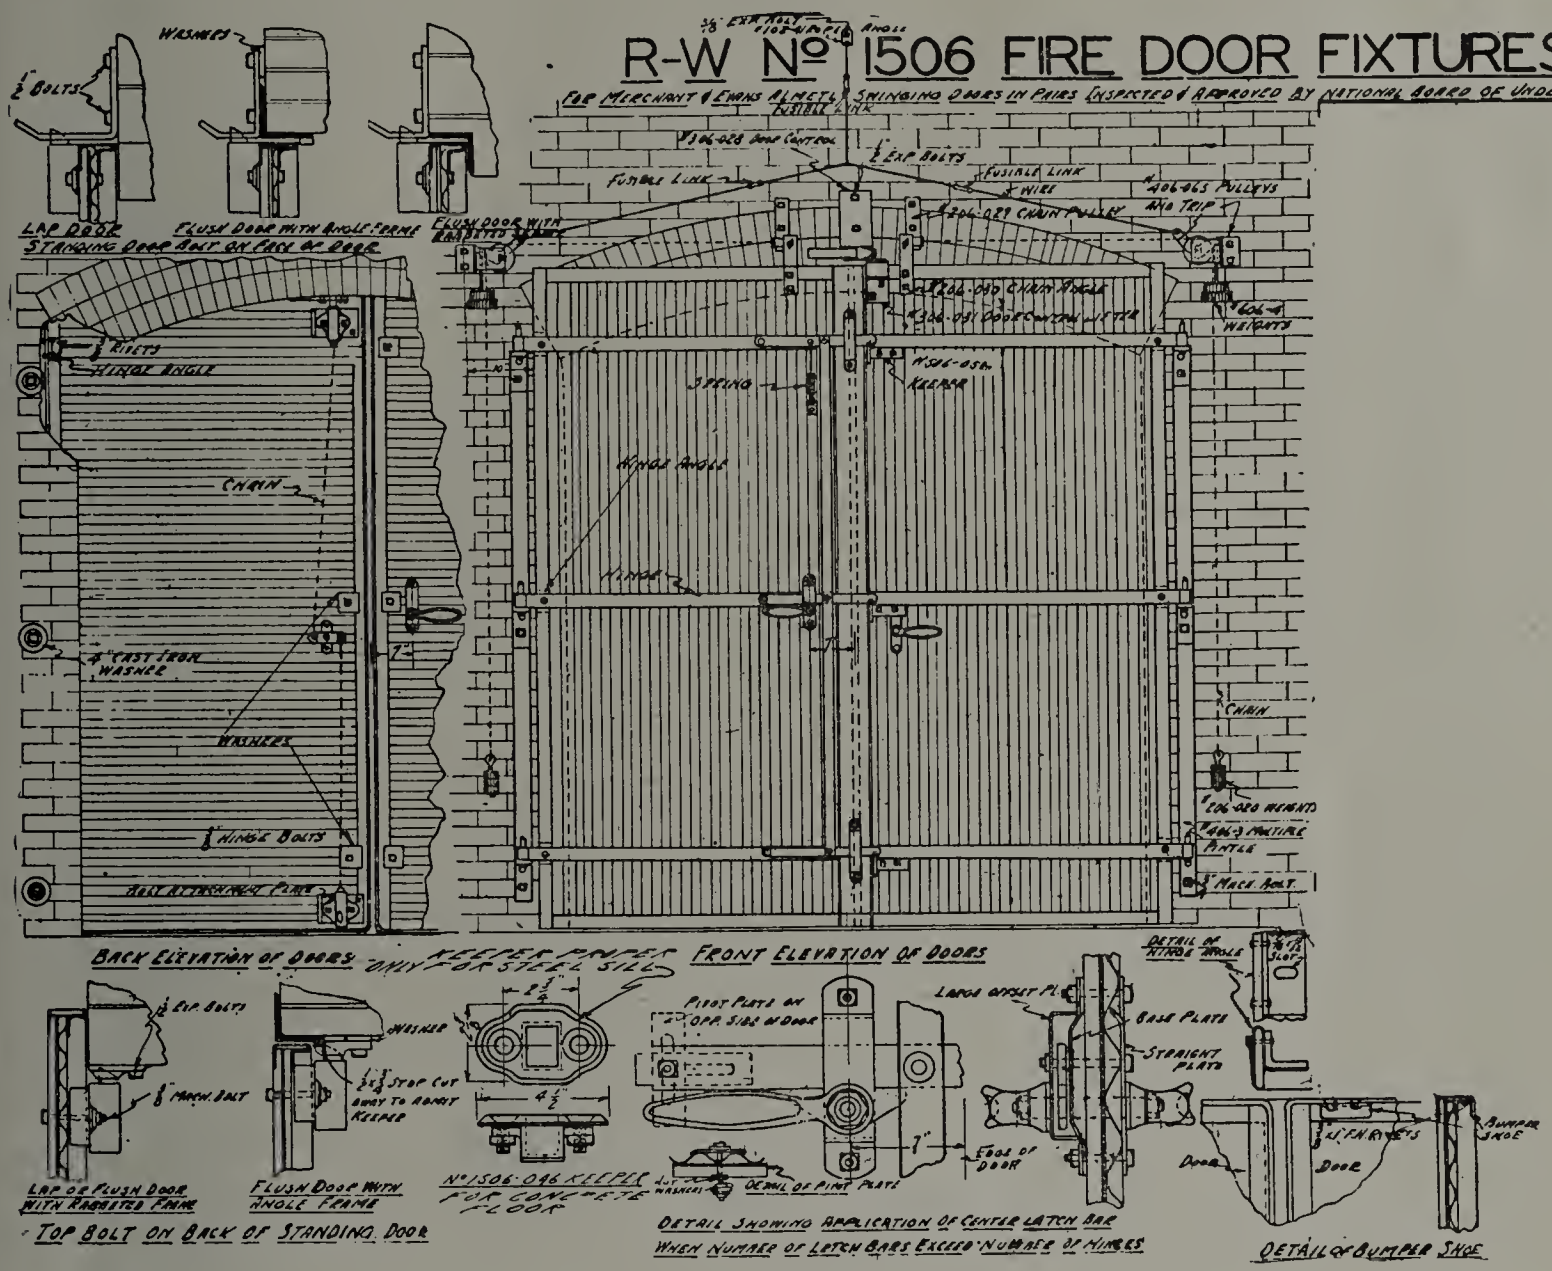

FIG. 6

shall not exceed the width and height dimensions greater than 15% in either direction.

(Sgd) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as the Richards-Wilcox RW-1447 FyeR Wall Door, including 1102, 1303, 1304 sliding types, 1406, 1506 swinging types, with hardware as listed with each assembly, *on condition* that the material be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 11:35 A. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, MAY 1, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

591-44-A

APPLICANT—Harry A. Zuch, Adjoining Owner, for Caroline Rauh, owner (Dr. Bryant S. Hopper, lessee of 1st floor).

SUBJECT—Application reopened and restored to calendar April 17, 1945—Appeal from a decision of the borough superintendent re Revocation of Certificate of Occupancy #12423 (previously dismissed for lack of prosecution).

PREMISES AFFECTED—107-17 86th avenue, northwest corner of 108th street (1st floor); (Block 9197 (170), Lot 29), Richmond Hill, Borough of Queens.

APPEARANCES—

For Applicant: Harry A. Zuch.

For Opposition: Warren J. Haeg.

For Administration: Fred Dahlem and George Fuchs, Dep't of Housing and Buildings.

MINUTES

ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (591-44-A)

WHEREAS, Harry A. Zuch, adjoining owner, filed December 17, 1944 an application for revocation of Certificate of Occupancy affecting premises 107-17 86th avenue, northwest corner of 108th street (1st floor); (Block 9197, (170), Lot 29), Richmond Hill, Borough of Queens; and

WHEREAS, said premises are owned by Caroline Rauh and leased to Dr. Bryant S. Hopper; and

WHEREAS, the decision of the borough superintendent dated October 2, 1944 reads:

"Your request to this office to revoke Certificate of Occupancy #12423 has been denied."

and

WHEREAS, the applicant states that the building is 2½ stories (approximately 35 ft.) in height, approximately 18 ft. by 35 ft. in area, of class 4 construction, erected in 1912, located in a residence use, C area class 1¼ height district and used and occupied as follows: cellar—boiler room and storage; 1st floor—doctor's office; 2nd floor—dwelling—1 family; attic—dwelling—1 room; and

WHEREAS, the applicant contends that the building is now being occupied contrary to affidavits filed by the owner and lessee, which affidavits state that the doctor resides in the building with his family; that the doctor and his family live only a few blocks away; that the building was not arranged, intended or designed to permit the occupant of the doctor's office to reside on the premises; that the doctor does reside with his family at another location and has not, nor does he intend to remove his family to the present premises; that the credibility of the doctor lessee is challenged, as he is registered for voting as residing at 85-17 108th street and not at 107-17 86th avenue, as his affidavit filed with the borough superintendent indicates; and

WHEREAS, this case was dismissed for lack of prosecution on January 9, 1945; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on April 17, 1945, restored to the calendar as set for hearing on May 1, 1945; and

WHEREAS, the Board deemed that there was no basis for revoking Certificate of Occupancy 12423, as such certificate permits occupancy for the use for which the building is arranged, as approved by the Borough Superintendent; that if the Borough Superintendent finds that the building is not being lawfully occupied according to the certificate, he should enforce compliance in accordance with his duty and powers.

Resolved, the decision of the borough superintendent, dated October 2, 1944, refusing to revoke Certificate of Occupancy #12423, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

734-44-A

APPLICANT—Ellis L. Lavine, for National Cabinet Company, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—21-24 44th avenue (14th street) south side, 111.93 ft. east of Van Alst avenue (1st and 2nd floors); (Block 439, Lot 27), Long Island City, Borough of Queens.

APPEARANCES—
For Applicant: Ellis L. Lavine.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
THE VOTE TO RECONSIDER—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0
THE VOTE TO GRANT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (734-44-A)

WHEREAS, Ellis L. Lavine, for National Cabinet Co., owner, filed December 18, 1944, an appeal from a decision of the borough superintendent, affecting premises 21-24 44th avenue (14th street), south side, 111.93 ft. east of Van Alst avenue (1st and 2nd floors); (Block 439, Lot 27), Long Island City, Borough of Queens; and

WHEREAS, the decision of the borough superintendent dated December 5, 1944, reconsideration denied on objections 1 and 2 December 13, 1944, on Misc. Applic. 1540-44, reads:

"1. Proposed frame extension (lumber shed) is contrary to sec. 4.1.2 B.C.

2. The erection of partitions of combustible material in a fireproof factory building is contrary to sec. 264, sub. 6 Labor Law.

3. Direct access to stairway not provided (note room marked lobby and its wooden enclosure).

4. The use of 2 in. floor or roof beams in the fire limits is contrary to sec. 7.1.4, sub. 7, B.C.

5. Adequate foundation and footings for frame construction not provided.

6. The erection of wood structural members less than 12 in. above the adjoining finished grade is contrary to sec. 8.7.2.3, a. B.C.

Not further considered."

and

WHEREAS, the applicant states that the building is 2 stories (30 ft.) in height, 150 ft. by 80 ft. in area, of class 1 construction, erected in 1920, located in an unrestricted use, B area, class 1½ height district and used and occupied since March 1943 as follows: cellar—boiler room; 1st floor—manufacturing wood cabinets—50 persons; 2nd floor—manufacturing wood cabinets and office—50 persons; that no change in use or occupancy is proposed; that the building is equipped with a standpipe system and an interior fire alarm system; that there are two 3 ft. 8 in. reinforced concrete stairs, enclosed in 6 in. terra cotta partitions, equipped with fireproof, self-closing doors and leading from the roof bulkhead directly to the street; and

WHEREAS, Violation 1891-43 issued June 21, 1944, was for erecting frame structure on rear of site without approval, erecting frame partitions in fireproof structure without approval or permit and for not posting approved floor load cards; and

WHEREAS, the owner was convicted and fined in Magistrates Court January 12, 1944, May 3, 1914 and October 31, 1944 for violation of the Administrative Code; and

WHEREAS, Certificate of Occupancy 1532 issued December 14, 1920, permits the use of the building throughout as a factory and describes the building as of fireproof construction, 4 stories in height; and

WHEREAS, the applicant requests a variation, so as to permit the issuance of a temporary permit for the duration of the war plus six months thereafter; and

WHEREAS, the applicant contends that N. B. Applic. 1313-20 was approved for a 4 story building and only two floors were constructed at that time; that the owner and occupant of the entire premises is engaged 100% in war work; and

WHEREAS, the applicant contends as to Objection 1 issued by the borough superintendent, that permission is requested to maintain the frame extension as a lumber shed, as the shed is located so that it is more than 4 ft. from the lot

line, except the westerly end, which is 1 ft. 3 in. from the lot line; that the westerly lot line is over 10 ft. from any adjacent structure; that the west side and rear wall and roof of the shed are covered with ¼ in. asbestos board for a distance of over 4 ft. from the lot line; that as the shed covers an area less than 1900 sq. ft. on a plot 15,000 sq. ft. and as the shed is used only for the storage of lumber and plywood which had to be received in carload shipments to carry on the war work and had to be protected from the weather and is a means of protection of necessary war material from the elements, it is requested that a variation be granted; that the applicant contends as to objection 2, that permission is requested for the maintenance of partitions of combustible material to remain temporarily; that these partitions were erected March 1943, when the owner moved into the building; that it was necessary to have rooms enclosed and in use without delay; that the partitions are of wood stud construction and do not create a greater hazard than the wood product handled in the factory; that the entire area occupied by the partitions is about 1100 sq. ft. out of a total floor area of 12,000 sq. ft.; that the occupants of the space within the wood stud partitions are within 50 ft. of an exit to a fireproof stair tower; and

WHEREAS, the applicant contends as to objection 3, that permission is requested to permit passage to stairway through lobby with its wooden enclosure, as a clear aisle of 3 ft. 8 in. at all times is maintained; that the occupants of the office will be the only persons using this means of egress; that due to the secret war work being done, it is necessary to have a space closed off from the factory to intercept visitors; as to objection 4, that permission is requested to allow the 2 in. roof beams to remain, as at the time the shed was erected, no other material was immediately available; that the roof beams are structurally heavy enough to support a roof live load of 40 lbs. per sq. ft. and would be permitted outside the fire limits; as to objection 5, that permission is requested to allow the frame wall to remain on present concrete paving, as the paving is 6 in. thick stone concrete that was used as a truck driveway and carried a greater load than that now imposed by this structure; that the paving is more than sufficient to distribute the load bearing on it and transmitted by it directly to the soil; as to objection 6, that permission is requested to allow the wood structural members to remain although less than 12 in. above adjoining finished grade, as the bottom of all wood structural parts rest on concrete paving, which extends over 12 in. from such wood and is about 12 in. above adjacent grade; that in view of the facts stated herein and since permission is requested only for the duration of the present emergency and six months thereafter, it is requested that the objections of the borough superintendent be modified; and

WHEREAS, the premises was inspected by a Committee of the Board, which recommended that the frame lumber shed now on the premises should be immediately removed, as it is unlawful and a serious fire hazard.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Misc. Applic. 1540-44, objection 2, and that the appeal be and it hereby is *granted,* permitting the maintenance of the combustible partitions as shown on plan marked received "April 5, 1945", for a term of not over two (2) years from the date of this resolution, *on condition* that the building and occupancy shall comply with all laws, rules and regulations applicable thereto in all other respects; and *denied* as to objections 1, 3, 4, 5 and 6.

68-45-A

APPLICANT—Reginald S. Hardy, for Hayson Corporation, owner (Randall Cadillac Corporation, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—564-592 St. John's place, south side, 333 ft. 8 in. east of Classon avenue (Block 1178, Lot 26), Borough of Brooklyn.

APPEARANCES—

For Applicant: Reginald S. Hardy.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (68-45-A)

WHEREAS, Reginald S. Hardy, for Hayson Corporation, owner (Randall Cadillac Corp., lessee), filed February 9, 1945, an appeal from a decision of the borough superintendent, affecting premises 564-592 St. John's place, south side, 333 ft. 8 in. east of Classon avenue (Block 1178, Lot 26), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated January 29, 1945, on Alt. Applic. 253-44, reads:

"1. Comply with Board of Standards & Appeals' Resolution 263-19-BZ, as to providing three hour assembly fireproof, self-closing doors in fire wall opening."

and

WHEREAS, the applicant states that the building is one story (12 ft. 6 in.) in height, 261 ft. 4 in. by approximately 131 ft. in area; Class 3 construction; erected in 1920; located in residence use, retail 1, B area, Class 1¼ height district; used and occupied since 1944 as a garage for more than five motor vehicles, automobile salesroom, lubritorium, motor vehicle repair shop and office, 40 persons; and

WHEREAS, the applicant contends that the building was erected pursuant to resolution granted by the Board under Cal. 263-19-BZ; that it is occupied as a garage for more than five motor vehicles, automobile salesroom, lubritorium, motor vehicle repair shop and office by the Randall Cadillac Corporation; that this occupancy commenced during the year 1944; that the building is divided into three sections of two fireproof walls, front and rear wall, extending from the front to the rear wall; that each of these walls contains a large opening for the passage of motor vehicles; that each opening is equipped with automatic, self-closing doors, which have been in position for some years past; that the door in the westerly wall is a "Gabler" fire underwriter door, equipped to be self-closing in the event of fire, and conforms to the regulations of the New York Fire Insurance Exchange; that the door in the easterly wall is a wooden door covered with sheet metal, so arranged as to be self-closing and has not been approved by the New York Fire Insurance Company; that the resolution adopted by the Board September 26, 1944, permitted the subdivision of the building by means of two fire walls, provided all openings were equipped with approved fire doors; that the borough superintendent has determined that these doors do not constitute approved doors as required by the resolution; that the doors in question have been in use for a number of years, during which time, the building has been occupied and operated as a public garage for more than five motor vehicles; that the present occupancy is less hazardous; that there are employees or watchmen on duty at all times during the day or night; that the possibility of fire has been greatly minimized by reason of the Board's resolution of March 7, 1944; that it is submitted that it was the intention of the Board to permit conditions to remain as they were; that it is therefore requested the Board permit the existing doors to remain; and

WHEREAS, the premises was inspected by a Committee of the Board.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 253-44, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the "Gabler" doors to the west with the Fire Underwriters' label, may be accepted, provided their interference with the steam pipe, which now prevents their closing readily, shall be corrected and the doors made to close with proper counterweights; and *denied* as to the easterly pair of doors; that such easterly doors shall be removed and

approved metal-clad, self-closing Underwriters' fire doors installed, to fully close the opening.

116-45-A

APPLICANT—Walter M. Cory, for Delagart Realty Corporation, owner (Canada Dry Ginger Ale, Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—421-425 East 55th street, south side, 265 ft. east of 1st avenue (3rd to 7th floors), (Block 1367, part of Lot 6), Borough of Manhattan.

APPEARANCES—

For Applicant: Walter M. Cory.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (116-45-A)

WHEREAS, Walter M. Cory, for Delegart Realty Corporation, owner (Canada Dry Ginger Ale Inc., lessee), filed March 6, 1945, an appeal from a decision of the borough superintendent, affecting premises 421-425 East 55th street, south side, 265 ft. east of 1st avenue (3rd to 7th floors); (Block 1367, part of lot 6), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated February 23, 1945, on amendment to Alt. Applic. 1845-44, reads:

"3. Repeat. A second means of egress should be provided from 3rd to 7th floors inclusive, as per sec. 271 Labor Law.

4. Repeat. Standpipe system should be provided, as per sec. 16.1.1 Building Code."

and

WHEREAS, the applicant states that the building is 7 stories (117 ft.) in height, 80 ft. by 100 ft. in area, of class 3 construction, erected in 1912, located in a residence use, A area, class 2 height district and used and occupied since 1912 for the storage of raw materials for a beverage plant, with a total occupancy of six persons, proposed to be used and occupied: sub-cellar—storage of raw materials for beverage plant; cellar—storage of raw materials for beverage plant; 1st floor—laboratory and storage—12 persons; 2nd floor—laboratory and storage—12 persons; 3rd to 7th floors—storage of raw materials for beverage plant—total of six persons; that the building is equipped with one 3 ft. wide steel stairs from the roof bulkhead, directly to the street, enclosed in fireproof partitions, equipped with tin clad self-closing doors; that the building to the west is 7 stories in height and the building to the east 4 stories in height; and

WHEREAS, the applicant contends that it is proposed to expand the use of the first and second floors for the processing and packaging of the basic ingredients of Canada Dry Ginger Ale products for shipment to their own and to franchise bottling plants; that none of the normal bottling plant operations such as actual bottling, warehousing or garaging of delivery trucks are to be engaged in on these premises; that the building is the old stock house of the Dolger Brewery and is constructed of heavy masonry walls, 450 lbs. fireproof structural steel floors with brick and tile arches and non-fireproofed cast iron columns; that the building is cut off from the adjacent structures and has but few small windows opening on to the street and on the rear court; that the building is unsprinkled and unheated and will be maintained so, except for the first and second floors, where steam heat will be installed and supplied from the N. Y. Steam Co.; that the present occupancy, which will be continued, consists of six warehousemen for the entire building; that it is proposed to employ 12 persons on the first floor and 12 persons on the second floor for manufacturing purposes; that the use of all floors except the 1st and 2nd floors will be for storage of materials, such as syrup in barrels, magnesia in bags, caustic in steel drums, metal plate for crowns, advertising matter in bundles and similar raw material and supply items; that the status of the building is not changed by the utilization of the 1st and 2nd floor as manufacturing space for 24 persons, as defined in Art. 1, Sec. 10 of the Labor Law; that it is therefore sufficient to make the 1st and 2nd floors comply with the factory requirements and it is therefore requested that the additional stairway requirement be confined to the 1st and 2nd floors and that the rear stairway be made accessible to the street by means of a legal passage; that modification of the standpipe requirements is requested as follows: it is proposed to provide a dry standpipe riser with steamer connection as indicated for tower portion of schools, under Section C26-1381-b-4 and to provide five gallon extinguishers suitable for the cold area throughout the building; that the building is provided with standard floor cutoffs and conforms with the code requirements for fireproof buildings, except for the exposed cast iron columns; that the materials stored in the building will not be of a highly inflammable nature; that the window area is such as to afford little air to support combustion; that the curtain wall fire cutoff between window head and window sill above is better than standard; that the protection offered affords ample means for fire control in view of the construction, fire cutoffs and nature of use and limited occupancy; that the expansion of space is required by the lessee and the amount of money authorized by the W.P.B. permits not more than the most restricted use of materials and labor, which cannot be met if the requirements of the borough superintendent are complied with.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, on amendment to Alt. Applic. 1845-44, objection 3, and that the appeal be and it hereby is *granted on condition* that a fire escape, complying with the requirements of the labor law, shall be constructed within the existing open wall from the 2nd to 7th floors and connecting to the primary means of exit from the 2nd floor to the street; that the existing wall shall be enclosed as shown with fireproof partitions, except that doors shall be constructed therein for access to the fire escape; that such floors shall be fireproof, self-closing and comply with the requirements for stairway doors; that the exit from the rear stair, comprising the secondary means of exit to the street through a fireproof passage shall be constructed and maintained as indicated on plans filed with this appeal marked "Received March 6, 1945"; that vestibules shall be maintained at the secondary means of exit, as indicated, on the 1st and 2nd floors; that a second means of exit shall be provided for reaching the cellar and also sub-cellar that the factory work shall be restricted to the first floor and a portion of the 2nd floor, as shown on filed plans, and the balance of the floors shall be used only for storage of materials not considered unduly hazardous by the fire commissioner; that such portable fire appliances shall be maintained as the fire commissioner shall direct; that the occupancy of the building shall not be greater than proposed and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and *withdrawn* to comply as to objection 4.

60-43-S

APPLICANT—Jacob Fogelson, for Sark Co., Inc., owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Variation of the labor law as cited in a decision of the borough superintendent (previously granted on condition for temporary term).

PREMISES AFFECTED—21-02 to 21-30 44th road and 44-29 to 44-35 21st street, southeast corner (Block 438, Lot 6), Long Island City, Borough of Queens.

For Applicant: Irving Berman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

MINUTES

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (60-43-S)

WHEREAS, this application from a decision of the borough superintendent, affecting premises 21-02 to 21-30 44th road and 44-29 to 44-35 21st street, southeast corner (Block 438, Lot 6), Long Island City, Borough of Queens, was granted by the Board on June 22, 1943, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit relative to the continuance of the combustible partitions.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 22, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted on condition,* that the partitions in question shall be entirely removed within two (2) years from the date of this *amended* resolution, * * * and that other than as herein *amended,* the conditions of the resolution of June 22, 1943, shall be complied with (Misc. Applic. 1337-43)."

309-44-A

APPLICANT—Raymond Irrera, for John P. Guiler, owner (Alice Randall Schwartz, lessee).

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—116-09 to 116-15 84th avenue, north side, from 116th to 117th streets, 83-79 to 83-97 116th street and 83-96 117th street (Block 3321, Lots 146-155 and 159), Kew Gardens, Borough of Queens.

APPEARANCES—
For Applicant: Raymond Irrera.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (309-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 116-09 to 116-15 84th avenue, north side, from 116th to 117th streets, 83-79 to 83-97 116th street and 83-96 117th street (Block 3321, Lots 146-155 and 159), Kew Gardens, Borough of Queens, was granted by the Board on June 6, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 6, 1944, only so far as it has reference to the requirements for a one inch sprinkler head to be maintained in the kitchen, so as amended, the resolution shall read:

"*Resolved,* that the decision of the borough superintendent acting on Alt. Applic. 231-44, Objections 4 and 5, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in addition to the exits as indicated on plans filed with this appeal, exit shall also be provided by means of casement doors opening outwardly from each of the two rest rooms on the south side of the second floor, giving access to the roof and with a steel stairway from the rear of the porch roof leading to grade; that a sprinkler head shall be maintained in the kitchen which may be fed from the domestic water supply; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance shall continue only so long as the building is occupied substantially as proposed."

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—84-92 Montrose avenue, 86-102 Leonard street, southeast corner and 99-101 Johnson avenue (Block 3060, Lots 1-33 and part of 34), Borough of Brooklyn.

APPEARANCES—
For Applicant: Sidney H. Kitzler and Herman Lasky.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (559-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 84-92 Montrose avenue, 86-102 Leonard street, southeast corner and 99-101 Johnson avenue (Block 3060, Lots 1-33 and part of 34), Borough of Brooklyn, was granted by the Board on October 24, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 24, 1944, so that as amended, the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent dated September 7, 1944 on Alt. Applic. 2586-44, and that the appeal be and it hereby is *granted,* as to objection 2, *on condition* that the exits as proposed on plans filed with this appeal marked 'Received October 3, 1944' shall be maintained, except that instead of the proposed fire escape on the Johnson avenue side, a stairway shall be constructed along the easterly wall, enclosed in accordance with the Code requirements, leading directly to Johnson avenue and that the scuttle shown toward the center, shall instead be constructed inside of such enclosure; that the existing fire escape on Leonard street shall have a gooseneck ladder leading to the roof; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Resolved further, that in the event the owner decides to postpone the proposed extension to Johnson avenue as shown on plans filed with this appeal, such extension may be temporarily omitted, provided that the exits and all other requirements mentioned for maintaining the building are complied with, and also provided that such extension is constructed within one year after the termination of the present war emergency."

59-45-A

APPLICANT—Henry George Greene, for 3164 Park Avenue Corp., owner.

MINUTES

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).
PREMISES AFFECTED—851-861 Courtland avenue and 313 East 160th street, northwest corner and northeast corner of Park avenue and East 160th street (ground and 1st floors); (Block 2419, Lot 28), Borough of The Bronx.
APPEARANCES—

MINUTES

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (633-17-BZ)

WHEREAS, this application, permitting in a business use district, the extension of an existing garage to the building line on the front of the lot, affecting premises 544-546 Henry street, west side, 97 ft. south of President street (Block 349, Lot 26), Borough of Brooklyn, was granted by the Board on June 4, 1917, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on a decision of the borough superintendent, dated October 16, 1944, acting on Alt. Applic. 2950-44, which reads:

"1. The original alteration to extend the building was approved by the Board of Standards and Appeals, Permit 2415-1917. The approval of the Board should be obtained for this application to change the front entrance layout before it can be considered by this Department."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 4, 1917, by adding thereto:

"* * * that in the event the owner desires to reconstruct the front wall of the building as to the entrance doors as indicated on revised plans marked 'Received April 20, 1945,' and to install certain plumbing fixtures indicated thereon, such changes may be made and the decision of the borough superintendent acting on Alt. Applic. 2950-1944, under date of October 16, 1944, Objection 1, is hereby *modified* to permit such alteration as proposed, provided that in all other respects, the requirements of the resolution adopted June 4, 1917 are complied with."

469-27-BZ

APPLICANT—Kitzler and Nurick, for 902 Franklin Ave. Garage, Inc., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the superintendent of buildings) previously granted on condition under section 7e of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—933-943 Franklin avenue, northeast corner of Montgomery street (Block 1294, Lot 3), Borough of Brooklyn.

APPEARANCES—
For Applicant: Sidney H. Kitzler.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (469-27-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 933-943 Franklin avenue, northeast corner of Montgomery street (Block 1294, Lot 3), Borough of Brooklyn, was granted by the Board on September 20, 1927, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on a decision of the borough superintendent, dated April 10, 1945, acting on Alt. Applic. 879-45, which reads:

"1. The original application for the erection of this building was approved by the Board of Standards and Appeals under Cal. 469-27-BZ. No change in occupancy of a portion of the building may be made unless approved by the Board."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of September 20, 1927, so that as amended, the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7e thereof, *on condition* that the building shall not exceed two stories in height, above grade; that the rear and gable walls shall be unpierced throughout their entire height and length; that the front elevation shall be finished with face brick, with architectural terra cotta or natural cut stone trimming, substantially in accordance with the design filed with this application; that not more than one vehicular entrance shall be permitted on the Montgomery street front, located at the extreme easterly end; that any gasoline storage equipment installed, shall be located approximately in the centre of the building at the Franklin avenue front and that any illuminating signs erected shall be located on the Franklin avenue front.

Resolved further, that in the event the owner desires to occupy the second story temporarily as a storage place for the Red Cross, such occupancy may be permitted during the term of the present emergency, provided no other use on the second floor is included, and to permit the continuation of the first floor as a public garage, with the privilege of restoring the entire building to public garage after the present emergency is over, provided the number of occupants on the second floor at no time exceeds three persons and such portable fire fighting appliances are maintained as the fire commissioner shall direct; that in addition, a fire escape in lieu of the required means of exit, shall be constructed on the Franklin avenue front, toward the south."

APPEARANCES—

For Applicant: Arthur Nash.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (1116-40-BZ)

WHEREAS, this application, under section 7h of the zoning resolution, permitting in a business use district for a term of two years, the parking and storage of more than five motor vehicles affecting premises 2100-2116 Surf avenue, southwest corner of West 21st street (Block 7071, Lots 106 to 115, inclusive), Borough of Brooklyn, was granted by the Board March 25, 1941, on certain conditions; and

WHEREAS, the resolution was amended on October 15, 1941 and the permit was extended on April 6, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 25, 1941, as amended through April 6, 1943, only so far as it has reference to the term of the permit, so as amended, the resolution shall read:

"*Granted* under section 7h for a term of two years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of March 25, 1941 and October 15, 1941, shall be complied with under the following conditions: that only motor vehicles of the pleasure car type shall be so parked; that the plot shall be leveled substantially to the grade of the surrounding streets and shall be surfaced with clean gravel, steam cinders or other suitable material properly rolled and treated with binder so as to prevent dusting, and to provide surface drainage; that any buildings and uses now on the premises shall be entirely removed, and during the term of this permit no buildings shall be erected thereon, except that there may be erected near the entrance a building as a shelter and office for the attendant, provided such building does not exceed 100 sq. ft. in area and one story in height, and which may be of frame; that there shall be erected on the interior lot lines continuously, except where walls of adjoining buildings occur, a substantial woven wire fence with anchored steel posts not less than 6 ft. in height; that a similar fence shall be erected along the street line of West 21st street and Surf avenue with no openings therein, except one to Surf avenue and one to West 21st street, such openings not to exceed 15 ft. in width, with curb cuts opposite of similar width; that proper aisles shall be maintained at all times for entrance and exit; that a space of not less than 18 in. shall be left at all times between cars for access thereto; that such portable fire fighting appliances shall be maintained on the premises as the fire commissioner shall direct; that there shall be no signs erected on the premises except there may be a sign attached to the fence near the entrance advertising the parking and storage use, such sign shall not exceed 15 sq. ft. in area, and shall not extend beyond the building line, and shall not be illuminated; that in the event the owner is unable to obtain sufficient steel posts for the fence herein required, wooden posts 4 in. by 4 in. with 2 in. by 4 in. rails may be used along the easterly end, provided such wood posts and rails are painted aluminum or gray and the wire mesh is of the chain link type and the fence is erected to the height specified; and that the existing refreshment stand toward the southerly end on West 21st street may be continued, provided it is fenced off from the parking lot by fencing as herein required."

302-41-BZ

APPLICANT—L. A. Kiesewetter, for Frieda Block, owner. (Staten Island Oil Co., Inc., lessee).

SUBJECT—Application for consideration—reopening and extension of time to complete work—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a retail use district, the relocation of an accessory building and gasoline dispensing pumps on an existing gasoline service station.

PREMISES AFFECTED—2505 (2485 displayed) Victory boulevard and 538 Willowbrook road, northeast corner (Block 486, Lot 8), Willowbrook. Borough of Richmond.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME.

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (302-41-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a retail use district, the erection of a new accessory building on an existing gasoline service station, affecting premises 2505 Victory boulevard (2485 displayed) and 538 Willowbrook road, northeast corner (Block 486, Lot 8), Willowbrook, Borough of Richmond, was granted by the Board on June 10, 1941, on certain conditions; and

WHEREAS, the resolution was amended and time extended on June 9, 1942 and the resolution further amended on March 23, 1943; and

WHEREAS, the time was further extended on April 11, 1944 and the applicant requested a further extension of time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 10, 1941, as amended through April 11, 1944, only so far as it has reference to the completion of the work, so that as amended, this portion of the resolution shall read:

"* * * that in view of statement by applicant that all permits have been obtained, and the work substantially completed, that all work shall be completed within one year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolutions of June 10, 1941, June 9, 1942 and March 23, 1943, shall be complied with and that a certificate of occupancy shall be obtained."

82-43-BZ

APPLICANT—Ferdinand Savignano, for Louis L. Ahlers and Mary Fromer, owners (Celtic Circle, Inc., Sheepshead Bay Unit No. 1, lessee).

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted under section 7c of the zoning resolution, permitting partly in a residence use and partly in a business use district, the erection of a grandstand for an athletic field, the use of which is primarily for business purposes.

JOSEPH J. DOYLE, Chief Clerk.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

Notice of a Public Hearing on Proposed Amendments to Rules on Uses of Insulating Fibre Board.

Notice of a Public Hearing on Rules on Exterior Veneering Materials.

Fire Drill Rules.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

HARRIS H. MURDOCK, *Chairman.*

MAY 22, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, May* 22, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

78-45-BZ—Application, February 16, 1945, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of The Greater New York Brewery, owner, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory; premises 284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.

60-45-BZ—Application, February 6, 1945, under section 7c of the zoning resolution of Lama & Proskauer, applicants, on behalf of General Linen Supply Co., Inc., owner, to permit in a residence use C area district, the extension and reconstruction of a stable and wagon storage and garage for two commercial cars to a garage for more than five motor vehicles for laundry use and a large boiler room accessory to existing laundry; premises 449-453 and 467-473 Prospect avenue, north side, 151 ft. 2 in. west of Prospect Park West (Block 1113, Lots 62, 73, 74 and 75), Borough of Brooklyn.

95-45-BZ—Application, February 23, 1945, under sections 7c and 21 of the zoning resolution of Lama and Proskauer, applicants, on behalf of Marie Atherton, owner, to permit in a business use C area district, the alteration and extension of an existing garage for more than five motor vehicles and gasoline service station, the building as extended being in excess of the area permitted by the zoning resolution; premises 87-24 to 87-30 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens.

188-45-BZ—Application, April 2, 1945, under section 7c of the zoning resolution, of Kitzler and Nurick, applicants, on behalf of Dora Tatarsky, owner, to permit in a residence use district, the change of occupancy of an existing building from garage for ten motor trucks to garage for five motor vehicles and manufacturing of lamp bases; premises 170-172 Van Siclen avenue, west side, 102 ft. 10 in. south of Atlantic avenue (Block 3961, Lot 18), Borough of Brooklyn.

Appeal from Administrative Decision.

107-45-A—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on March 20, 1945, as they appeared in Bulletin No. 13, Vol. 30, are hereby corrected to read as follows:

32-45-A

APPLICANT—K. Stenzel and Sons, lessees, for The Newspaper PM, owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—21-29 Hudson street and 164-166 Duane street, southwest corner (12th floor); (Block 141, Lot 32), Borough of Manhattan.
APPEARANCES—
For Applicant: Hyman Stenzel.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative: 0
Absent: Chairman Murdock 1

THE RESOLUTION (32-45-A)

WHEREAS, K. Stenzel and Sons, lessees, for the Newspaper PM, Inc., owner, filed January 20, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 21-29 Hudson street and 164-166 Duane street, southwest corner (12th floor); (Block 141, Lot 32), Borough of Manhattan; and

WHEREAS, Order 39925-LC, issued by the fire commissioner December 6, 1944, and repeated in a decision of the fire commissioner dated January 19, 1945, reads:

"With reference to your application for a permit to store and use celluloid and acetone, at the above location, I regret to inform you that this department is without power to grant such a permit for the reason:

A. Building is used for the storage of paints, varnishes or lacquers. Sec. C19-110.0-1-b-7.

B. Building is used for the storage of matches, rosin, turpentine, oil, hemp, cotton. Sec. C-19-110.0-1-b-8, Administrative Code.

You are hereby advised to:

1. Remove all nitro cellulose products from the above premises."

and

WHEREAS, the applicant states the building is 12 stories (148 ft.) in height; 121 ft. by 98 ft. in area, of Class 1 construction; erected 1910; located in an unrestricted use, A area, Class 2 height district, and occupied as follows: cellar, printing, 15 persons; 1st to 4th floors, inclusive, publishing, 40 persons; 5th floor, manufacturing shoes, 50 persons; 6th floor, manufacturing cosmetics, 6 persons; 7th floor, photographic work, 15 persons; 8th floor, manufacturing pills, 39 persons; 9th floor, manufacturing marine lights, 25 persons; 10th floor, manufacturing toys, 50 persons; 11th floor, manufacturing sweaters, 75 persons; 12th floor, manufacturing celluloid glass frames, 50 persons; that no change in use or occupancy is proposed, except for the 12th floor, which will be increased in occupancy to 75 persons; that the building is equipped with a two source sprinkler system and an interior fire alarm system, but fire drills are not maintained; that there are three 35 in. fireproof stairs, one of which extends from the street to the roof; and

WHEREAS, the applicant contends that it was the first tenant to sign a lease with the owners and consequently at that time there were no other occupants in the building storing paints, matches, rosin, turpentine, etc.; that the owners had a vault constructed specially for the purpose of storing the applicant's stock of celluloid and acetone; that before leasing the premises, the applicant ascertained that the building was fireproof, sprinklered, had three exits and was equipped with a fire alarm system; that the applicant has gone to considerable expense to see that all other precautions were taken, necessary for the conduct of its business; that the applicant is engaged in an essential industry of manufacturing celluloid optical frames; that to be required to remove all nitro cellulose products from its premises as directed by the order, would mean that they would have to vacate the premises; that an investment of $20,000 was made in installing the plant to meet all fire, health, labor and Building Department standards and that these installments were made with a view of a long term occupancy; it is therefore requested that this appeal be granted; and

WHEREAS, examination of the Fire Department records indicates that permit was applied for to store 10,000 pounds of nitro-cellulose and 10 gallons of acetone.

Resolved, that the order of the fire commissioner, acting on Order 39925-LC, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed storage of celluloid and acetone may be permitted, provided such nitro-cellulose materials as are not actually in process, shall be stored in a vault approved for this purpose by the borough superintendent; that the two source sprinkler system shall be maintained throughout the building; that such other portable fire fighting appliances shall be maintained, including receptacles with water for nitro-cellulose waste, as the fire commissioner shall require; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified under Cal. 724-44-A.

---

* Correction—The calendar number, referred to in the last line of the resolution, changed from 722-44-A to 724-44-A.

REGULAR MEETING

TUESDAY MORNING, MAY 8, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, May 1, 1945, and Tuesday afternoon, May 1, 1945, were approved as printed in Bulletin No. 19, Volume 30.

ZONING CASES

46-45-BZ

APPLICANT—Reuben Siskin, owner.
SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use district, the extension of the factory use in an existing factory building so as to be in excess of the lot area.
PREMISES AFFECTED—1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn.
APPEARANCES—
For Applicant: David Toplitz and Reuben Siskin.
For Opposition: Thomas Bress for L. Friedman.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to June 5, 1945 at 10 A. M.

60-45-BZ

APPLICANT—Lama and Proskauer, for General Linen Supply Co., Inc., owner.
SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use, C area district,

the extension and reconstruction of a stable and wagon storage and garage for two commercial cars to a garage for more than five motor vehicles for laundry use and a large boiler room accessory to existing laundry.

PREMISES AFFECTED—449-453 and 467-473 Prospect avenue, north side, 151 ft. 2 in. west of Prospect Park West (Block 1113, Lots 62, 73, 74 and 75), Borough of Brooklyn.

APPEARANCES—

For Applicant: A. Lama and Carl E. Troy.

For Opposition: A. Blaustein, J. Monahan, F. Macre, G. Casper, J. Brown, J. Fragasso, W. Babinski, Mrs. McGuinness, Ann Jagad, Mrs. P. McGlenn and J. Cullinan.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 22, 1945 at 10 A. M., for further consideration.

78-45-BZ

APPLICANT—Lama and Proskauer, for The Greater New York Brewery, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory.

PREMISES AFFECTED—284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 22, 1945 at 10 A. M., on request of applicant.

1321-39-BZ

APPLICANT—P. J. Keating, lessee, for 39 Corporation, new owner.

SUBJECT—Application reopened April 17, 1945, for consideration as to extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution for a temporary term of two years, permitting partly in a residence use and partly in a business use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—142-23 Roosevelt avenue, north side, 200 ft. east of Union street (Block 5020, Lot 47), Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Mrs. P. J. Keating.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (1321-29-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a residence use and partly in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 142-23 Roosevelt avenue, north side, 200 ft. east of Union street (Block 5020, Lot 47), Flushing, Borough of Queens, was granted by the Board on December 10, 1940, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on April 17, 1945, restored to the calendar and set for hearing on May 8, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 8, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 10, 1940, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under Section 7h for a temporary term of two years from the date of this *amended* resolution, to permit the portion of the premises unbuilt upon towards the rear, to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of December 10, 1940, shall be complied with and that a certificate of occupancy shall be obtained (Misc. 7188-39)."

109-43-BZ

APPLICANT—Lama and Proskauer, for Samuel Sym, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the extension in area of a building used as a wet wash laundry.

PREMISES AFFECTED—64-08 Perry avenue, south side, 47.73 ft. east of Willow avenue (Block 2716, part of Lots 12 and 13), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: A. Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (109-43-BZ)

WHEREAS, Lama and Proskauer, for Samuel Sym, owner, filed on March 12, 1943, an application under section 7c of the zoning resolution, to permit in a business use district, the extension in area of a building used as a wet wash laundry, affecting premises 64-08 Perry avenue, south side, 47.73 ft. east of Willow avenue (Block 2716, part of Lots 12 and 13), Maspeth, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting May 8, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Perry avenue is in a residence and business use district; 64th street is in a business and unrestricted use district and Grand avenue is in a business use district; and

WHEREAS, the decision of the borough superintendent dated March 8, 1943, on Alt. Applic. 180-43, reads:

"1. The extension of the building for the use as a 'wet wash laundry' within a business district is contrary to Art. II, Section 4(50) Building Zone Resolution."

and

WHEREAS, the application was amended to include the adjoining Lot No. 13 under the same ownership to be occupied for exit purposes from the laundry; and

WHEREAS, the decision of the borough superintendent, dated May 2, 1945, as to Alt. Applic. 108-43, reads:

"1. The extension of the building for the use as a wet wash laundry within a business district, is con-

trary to Art. II, Section 4, Subdivision 51, of the Building Zone Resolution."

and

WHEREAS, this latter decision was intended to apply to the inclusion of Lot No. 13 in the plot even though no building is proposed to be erected on such Lot 13; and

WHEREAS, the applicant states that the premises consist of a plot of ground consisting of Lots 12 and 13 in Block 2716, having a total frontage of 50 ft. 4 in. on Perry avenue, and Lot 12, having a frontage of 25 ft. 9 in. on Grant avenue and a depth of approximately 180 ft., and Lot 13 having a depth of 100 ft. 1 in.; and

WHEREAS, portions of Lot 12 and 13 are in the residence use district and portions are in the business use district; that upon the Perry avenue frontage of Lot 12, there is located a one story frame building approximately 17 ft. by 37 ft. 8 in. in area, occupied as a garage and store room and at the rear of this building, there is a one story brick building, 25 ft. 4 in. by 50 ft. in area, occupied by a laundry; that it is proposed to remove the frame building on the Perry avenue frontage and to erect a two story brick extension, approximately 17 ft. by 37 ft. 8 in. in area, to be used in conjunction with present wet wash laundry approved by the Department of Building under Alt. Applic. 4144-1943; that the adjoining Lot 13, now included in this application is to be left vacant, as at present and to be used solely as a means of exit from the rear by means of a doorway as shown on plans filed with this application; and

WHEREAS, the portion of Lot 12 facing Grand avenue is improved with a three story brick building used as a store and three families and has no connection with the laundry building, although under the same ownership; that the present owner purchased Lot 12 and the buildings thereon in 1942, after having occupied same since 1933; that the character of the area has not changed since 1933, at which time the wet wash laundry was a permissible use in a business use district; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulation of the zoning resolution and that the application be and it hereby is *granted* under section 7c, to permit the extension of use as proposed on Lots 12 and 13, *on condition* that Lot No. 13 shall remain vacant and unbuilt upon although used as a means of exit, and for delivery and receipt of laundry through the 6 ft. exit door shown at the rear of the building on Lot 12, which it is proposed to extend, as indicated on revised plans filed marked "Received May 8, 1945"; that this action modifies the objection of the borough superintendent, acting on Alt. Applic. 180-43, Objection No. 1, as of March 8, 1943, and Objection No. 1, as of May 2, 1945; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution; that there shall be no storage of motor vehicles on Lot 13, the use of which shall be solely as permitted under this resolution.

661-44-BZ

APPLICANT—Max Horn, for Kaymos Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in an F area district, the erection of an apartment house covering a greater area than permitted in an F area district.

PREMISES AFFECTED—147 Beach 117th street, west side, 440 ft. south of Rockaway Beach boulevard (Block 757, Lots 28, 32 and 34), Rockaway Park, Borough of Queens.

APPEARANCES—

For Applicant: Max Horn, John Souyak, Abner H. Pike, George Wolpert, Viola L. Watts and W. F. Brunner.

For Opposition: L. A. Conway, A. Dittrich, N. Blate, N. Levine, L. Coth, Mrs. A. Mischlich, Mrs. J. E. Auerbach and Eleanor Conolly.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (661-44-BZ)

WHEREAS, Max Horn, for Kaymos Realty Corporation, owner, filed November 22, 1944, an application under section 21 of the zoning resolution, to permit in an F area district, the erection of an apartment house covering a greater area than permitted by the building zone resolution; affecting premises 147 Beach 117th street, west side, 440 ft. south of Rockaway Beach boulevard (Block 757, Lots 28, 32 and 34), Rockaway Park, Borough of Queens;

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 8, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Beach 117th street is in a residence use, F area and 1 times height district; Beach 118th street is in a residence use, F area and 1 times height district; and

WHEREAS, the decision of the borough superintendent, dated November 13, 1944, re N. B. Applic. 335-44, reads:

"1. Side yards as required by Sec. 16-B of the zoning resolution are not provided.

2. Rear yard is less in depth than that required in Sec. 16-B of the zoning resolution.

3. Percentage of lot occupied exceeds the allowable area in violation of Sec. 16-D of the zoning resolution.

4. Floor area exceeds 1.6 the area of lot in violation of Section 16-E of the zoning resolution. Not further examined."

and

WHEREAS, the applicant states the premises consist of a plot, 180 ft. frontage by 100 ft. in depth; now vacant, on which it is proposed to erect a six story, 60 ft. in height, Class 3 construction, multiple dwelling, 159 ft. by 70 ft. in area; and

WHEREAS, the applicant contends that the purpose of this appeal is to permit a greater coverage of this land than is possible under the zone F regulation, Article IV, Sec. 16; that the present owner acquired the property on April 29, 1932 and at that time, there was some talk about relaxing the zone F restrictions in the area between Rockaway Beach boulevard and the boardwalk and between Beach 117th street and possibly Beach 122nd street, to permit greater coverage of the land; that this would have made possible the erection of apartment houses in this section; that this is what prompted the owner to purchase the property; that the only change made was of a strip 100 ft. deep along the Ocean promenade in 1937 to a C area zone; that an inspection of the location will clearly show that this plot is not properly suited for a zone F residence purpose; that it is directly opposite the bathing establishment, hotel, and concessions, which is set off with a fence enclosure, with prominently painted signs; that directly opposite the plot is a big six story apartment house, built under area C zone regulations; that many of the other houses on this street, and on Beach 118th street, are rooming houses; that this is not a fit location for a one or a two family house subject to zone F regulations; that this section is very well suited for an apartment house, because it is near the L. I. R. R. station on Beach 116th street near the beach, boardwalk, shopping and other conveniences; that the factors which are objectionable for one and two family homes, would not be serious bars for an apartment house; that this parcel is now assessed for $19,200; that un-

less the owner gets reasonable relief from the burdensome zoning restrictions, he will not build and it will continue to be a burden to him, and a loss of full tax possibilities to the city; that it is proposed to comply with all the requirements of the Multiple Dwelling Law, including yards, courts, etc. and also to set back 15 ft. from the street property line; that the building will be a modern apartment house, costing approximately $300,000, and will be an improvement for the street; that the data on this proposed building is as follows: Area of land, 18,000 sq. ft. Area of land covered, about 9,200 sq. ft. Percentage of land covered, about, 52 percent. Total floor area—6 floors, 55,200 sq. ft. or about three times the area of the plot, not including the walls. The height to top of roof beams about 60 ft., the total maximum height, including parapets about 64 ft. 6 in.; that in view of the above facts, it is respectfully requested that the requirements of the Zone F restrictions be waived; that the applicant desires to point out to the Board, the disadvantages of a sudden demarcation from a business C, to a residential C zone and then to a residential F zone; that the change should be gradual, in several stages, as for example—from business C on one side of the street to residence C on the other side of the same block; to residence D in the next block; to Residence E in the following block, and finally to residence F; it is not suggested that the Board consider any such proposition, but it can now right a specific situation that does not fit into the proper class, by granting this appeal; and

WHEREAS, the Board of Standards and Appeals under Cal. #515-40-BZ on February 18, 1941, denied an application for the parking and storage of more than five motor vehicles on these premises; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board; and

WHEREAS, the Board deemed that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution and is therefore not entitled to relief.

Resolved, that the decision of the borough superintendent acting on N. B. Applic. 335-44, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

191-45-BZ

APPLICANT—Pomerance and Breines, for National Maritime Union of America, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c, 7d and 21 of the zoning resolution, to permit in a residence and partly in an unrestricted use district, the change of occupancy from garage building (previously granted by the Board) and telephone exchange building to union headquarters with unemployment office and meeting room.

PREMISES AFFECTED—346-352 and 354-360 West 17th street, south side, 100 ft. east of 9th avenue and 355 West 16th street (Block 740, Lots 7 and 55), Borough of Manhattan.

APPEARANCES—

For Applicant: Herman Rosenfeld, Julian Roth, Hadley Stone and Simon Breines.

For Opposition: Mollie Korman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (191-45-BZ)

WHEREAS, Pomerance and Breines, for National Maritime Union of America, owner, filed March 28, 1945, an application under sections 7c, 7d and 21 of the zoning resolution, to permit in a residence and partly in an unrestricted use district, the change of occupancy from garage building (previously granted by the Board) and telephone exchange building to a union headquarters with unemployment offices and meeting rooms; affecting premises 346-352 and 354-360 West 17th street, south side, 100 ft. east of 9th avenue and 355 West 16th street (Block 740, Lots 7 and 55), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 8, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals, and

WHEREAS, the use district maps accompanying the zoning resolution show that West 16th street is in an unrestricted use, B area and Class 1½ height district; West 17th street is in an unrestricted, retail and residence use, B area and Class 1½ height district and Ninth avenue is in an unrestricted and retail use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated March 23, 1945 on Alt. Applic. 224-45, reads:

> "2. For corrected zone districts now stated on application, proposed use is not permitted in the residence portion of the building, Section 3, Z.R."

and

WHEREAS, the decision of the borough superintendent on Alt. Applic. 101-45, dated March 27, 1945, reads:

> "1. Building is in a residence district and proposal to change use of building from telephone exchange to employment offices, and meeting rooms, may not be permitted as per Sec. 3, Art. II, zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 175 ft. frontage by 194 ft. in depth, on which is located two buildings, one 6 stories, formerly occupied as a telephone exchange and one two stories, formerly occupied as a garage; and that it is proposed to convert the occupancy to a union headquarters with employment office, etc.; and

WHEREAS, the applicant contends that the two properties in question together with two additional properties on West 16th street are operated by the owner as its headquarters; that they contain offices, assembly rooms, school rooms and hiring halls, as well as storage space and the usual mechanical equipment required for maintenance; that for the convenience of union members, a small book stall is operated in the lobby of building at 346 West 17th street; that building at 346-352 West 17th street was originally erected in 1902 as a central telephone exchange and offices and purchased by the National Maritime Union in June 1941; that after extensive alterations were completed, all approved by the department, the union entered into possession; that improvements valued at some $160,000 have been installed, and added to the cost of purchase, represents an investment of approximately $195,000, exclusive of the cost of operation; that it was not until January 26, 1945, when application for approval of the extension of the elevator shaft to the cellar was filed (Alt. 101-45), did the Department object to the use on the ground that the conversion from a telephone exchange to union office was unauthorized; that this was 3½ years after the acquisition of the premises and after a large investment had been made with the Department's approval; that the building at 354-360 West 17th street is now joined with 346-352 West 17th street, but was originally occupied as a garage from its erection in 1919, until its purchase by the union in September, 1943 for $60,000 and with the approval of the Department, the union made extensive alterations at a cost of $55,000, completely changing the character of the building and for which Certificate of Occupancy 30632-44 was issued; that on February, 1945, plans for the installation of additional toilet facilities were filed and not until February 23rd, 1945, was the union advised that the Department considered the use to be in violation of the zoning resolution; and

WHEREAS, the applicant contends that its occupancy of the premises is not in violation of the zoning resolution; that if there is a violation, a variance should be granted on the ground of hardship; that Article II, Sec. 3(2) of the resolution provides that there may be erected in a residence district, buildings devoted to the use of "clubs, excepting clubs the chief activity of which is a service customarily carried on as a business"; that by Section 3(4) of the same Article,

schools are likewise exempted; that the union maintains a shipping hall from which men are assigned to ships as calls come in; that a close relationship has been established between this pool of manpower and that maintained by the Recruitment and Manning Organization of the War Shipping Administration; that the U. S. Coast Guard occupies the 2nd and 3rd floors of 346-352 West 17th street, where it conducts an upgrading school to qualify seamen for promotion; that one of the most important of the Union's activities is the Personal Service Department, where seamen and their dependents in need are assisted by a staff of experienced social workers; that the publication of the Union's weekly paper is another phase of its activities; that the National Maritime Union is thus manifestly a "club" and exempt from the provisions of the resolution; that it is an organization supported by regular voluntary payments of its members and devoted to their common purposes; that it is apparent, the intention of the zoning resolution was to exclude from its application, all non-profit making enterprises as well as certain profit making ones, such as schools; that the union clearly belongs in this category as it is not organized for profit; that the total investment on these premises exclusive of the cost of maintenance to date is $305,000 and unless the Board grants relief, very little if any part can be salvaged and a modern well equipped building will have to be abandoned; that a financial loss will thus be inflicted upon the members of the Union; that the threat to continued enjoyment of the fruits of careful organization presented by the Department's objections, a threat which, if fulfilled, may endanger the Union's operations in aid of the war effort is more difficult to bear, since the prime responsibility for the situation rests with the Department, although the applicant's architect, relying upon an old map, designated the use district incorrectly as business use instead of residence use; that the determination whether the zone permitted the use, was not for the architect, but was a duty imposed upon the Department; that in violation of this duty and contrary to the accepted practice, no verification of the zone designation was made; that the architect and applicant had a right to rely upon the approval then granted and assume that they were not being led into a position where a large investment might be endangered; that it is inequitable to impose the burden of redeeming the error upon the applicant, which is only the representative of maritime workers whose voluntary contributions created the original fund; that the Board has the power to relax the provisions of the zoning resolution, in a case where substantial hardship may result; that no possible detriment can be worked upon the neighborhood by permitting the Union to remain; that the residence zone is completely surrounded by less restrictive uses; that directly abutting on the west is a business zone, to the south and encroaching upon the premises to within 84 ft. of the building line, is an unrestricted zone in which parts of the buildings are located; that to the east along 8th avenue is a business zone and east of 8th avenue it is unrestricted; that on the block occupied by the premises are numerous business occupancies as follows: 325 West 17th street, Laundry; 329 West 17th street, Grocery; 337 West 17th street, grocery and office; 341 West 17th street, restaurant; 343 West 17th street, barber shop and dry cleaning; 357 West 17th street, stable; 320 West 17th street, grocery and stationery and 328 West 17th street, barber shop and grocery; that out of a total frontage of 877 ft., 202 ft. are devoted to business use; that Article II, Section 7(c) permits the extension of a use into a more restricted district; that part of the premises extending 100 ft. north of 16th street is in an unrestricted zone; that the two portions of the building are inseparable and no harm would be done to the character of West 17th street if a variance is permitted under these circumstances, on the contrary, the neighborhood would be benefited; and

WHEREAS, the Board found that the use proposed is not a permitted use in a residence use district as claimed; and

WHEREAS, it is well established in law, that no reliance can be placed on a permit obtained through misrepresentation; that in this case, the permit was obtained by representing in 1941, that the premises on West 17th street were in a business use district; and

WHEREAS, the premises were and had been in part in a residence use district since 1936; that as stated by the Court in S. B. Garage vs. Murdock "a municipality may not be held equitably estopped by the original misfeasant or malfeasant act of its officers or agents in having issued a permit contrary to the plain mandate of a zoning provision"; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7c of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted,* under section 7c thereof, to permit the extension of use from the unrestricted use district into the residence use district, as proposed and as indicated on plans filed with this application marked "Received March 28, 1945", *on condition* that the building shall not be increased in height and area; that this resolution shall be deemed to supersede the resolutions adopted by the Board under Cal. Nos. 175-17-BZ and 186-19-BZ, having relation to the use of the building at 354-360 West 17th street and 355 West 16th street as a garage; that inasmuch as this resolution permits a different use, such garage use shall be deemed abandoned; that guards shall be maintained by the union at all times to police the exterior of the building along West 17th street and West 16th street to maintain order; that the use herein permitted shall also be in connection with the buildings in the unrestricted use district now owned by the National Maritime Union and occupied in conjunction with the buildings affected by this application, namely buildings on Lots 5, 8 and 9 in Block 740; that except for during the term of the present war emergency, the buildings shall be occupied only during regular working hours; that in all other respects, the buildings and occupancy shall comply with all laws and rules applicable thereto; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

200-45-BZ

APPLICANT—George G. Miller, for 1063 Madison Avenue Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a B area district, a two story extension out to the building line of a five story business and residential building; the area being in excess of the requirements for a B area and restricted retail use district.

PREMISES AFFECTED—1063 Madison avenue, east side, 76 ft. 7½ in. south of East 81st street (Block 1492, Lot 52), Borough of Manhattan.

APPEARANCES—

For Applicant: Saul Mandelbaum and George G. Miller.

For Opposition: Harry Berger.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (200-45-BZ)

WHEREAS, George Miller, for 1063 Madison Avenue Corporation, owner, filed April 5, 1945, an application under section 21 of the zoning resolution, to permit in a B area district, a two story extension out to the building line of a five story business and residential building, the area being in excess of the requirement for a B area and restricted retail use district; affecting premises 1063 Madison avenue, east side, 76 ft. 7½ in. south of East 81st street (Block 1492, Lot 52), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 8, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

MINUTES

WHEREAS, the use district maps accompanying the zoning resolution show that Madison avenue is in a restricted retail use, B area and class 1¼ height district; 80th and 81st streets are in residence use, B area and class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated March 15, 1945, re Alt. Applic. 222-45, reads:

"Proposed front extension of building is not permitted being contrary to Sec. 12, Article IV, Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 22⅔ ft. frontage by 100 ft. in depth, on which is located a 5 story (50 ft.) one family dwelling, class 3 construction, 22 ft. 8 in. by 90 ft. in area at first story and 22 ft. 8 in. by 58 ft. in area above; it is proposed to extend the building out to the building line on the 1st and 2nd stories and to occupy the building as a store, showroom and one family; and

WHEREAS, the applicant contends that the existing building is set back 5 ft. from the building line; that it is proposed to erect a two story extension at the front, so as to extend the building to the building line and to occupy the first floor front as a retail store, with the rear work room used in conjunction with the second floor occupancy, which will be that of a showroom and stockroom for lamps; that the work done in the rear of the first story in the work room will consist of only such incidental manufacturing, as is necessary in connection with the alteration of lamps sold in the showroom on the second story; that the owners will conduct the showroom and stockroom on the 2nd story and the work room on the first story and will occupy the upper floors conjunctively as a single family dwelling; that the adjoining buildings on both sides have been extended to the building line; that the only buildings on the block which are not extended to the Madison avenue building line are Nos. 1071 and 1069, at the corner of East 81st street; that the position of the owner of the building in question is different from that of the other owners, in that by extending the proposed first and second story to the building line, the owner will not jeopardize the light and air of any other building on the block; that the owner seeks to alleviate an existing hardship and to obtain equal rights with the owners adjoining on both sides; that if the building is extended as proposed, its area on the first and second stories will be 87% of the area of the lot; that the building now occupies 82.2% at curb level not including the front stoop, furnishing entrance to the first floor and basement and an integral part of the building; that no change is proposed at the rear and therefore the block ventilation will not be interfered with; that the use of the proposed building for business, necessitates the extension at the front in place of the existing stoop, in order to harmonize with the facades of the other buildings on the street; that the extension could be erected legally if it were not for the fact that the building extends to the rear and within 5 ft. of the rear lot line and exceeds the area above curb now permitted; that the lot upon which this building is erected has a depth of 100 ft., as compared with the adjoining lots to the north, which are 85 ft. deep and the lot to the south which is 95 ft. in depth; that the use district was changed June 4, 1937, from business use to restricted retail use; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that the applicant had substantiated a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution, and is therefore entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 thereof, to permit the building to be extended to the street line as proposed, *on condition* that such extension shall not be greater in height than as proposed and as indicated on plans filed with this application marked "Received April 5, 1945"; that the building shall not be increased further in height or area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within six (6) months from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

107-45-A

APPLICANT—James E. Casale, for 18 East 71st Street Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

APPEARANCES—

For Applicant: Sal Martorana.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 22, 1945 at 10 A. M., on request of applicant's representative.

690-44-A

APPLICANT—John J. Beatty, for Atco Tank Service, Inc., owner.

SUBJECT—Appeal from an order of the fire commissioner re Transportation of Petroleum oil in tank truck (capacity of tank not in conformity with Administrative Code requirements covering Tank Trucks in New York City.

APPEARANCES—

For Applicant: John J. Beatty.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Laid over to May 15, 1945 at 10 A. M. on request of applicant.

148-45-A

APPLICANT—Charles M. Spindler, for Fannie Rothschild, owner (R. L. Carlisle Chemical and Manufacturing Co., lessee).

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—207-213 Norman avenue and 750-760 Humboldt street, northeast corner (1st floor); (Block 2628, Lot 38), Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (148-45-A)

WHEREAS, Charles M. Spindler, for Fannie Rothschild, owner (R. L. Carlisle Chemical and Mfg. Co., lessee), filed March 14, 1945, an appeal from an order of the fire commissioner, affecting premises 207-213 Norman avenue and 750-760 Humboldt street, northeast corner (1st floor); (Block 2628, Lot 38), Borough of Brooklyn; and

WHEREAS, order 98578-LC issued by the fire commissioner January 8, 1945 and repeated in a decision of the fire commissioner dated March 12, 1945, reads:

"You are hereby notified that an inspection of the above premises, used to store oils, varnishes, etc., shows that the following must be done before the permit requested can be issued:

1. Discontinue the manufacture of inflammable mixtures (Poly-Butene Adhesives)

OR

Discontinue the manufacture of paints, varnishes and lacquers on the same premises. C19-85.0, Administrative Code."

and

WHEREAS, the applicant states that the building is 2 stories (26 ft.) in height, 100 ft. by 25 ft. in area, of class 1 construction, erected in 1921, located in an unrestricted use, A area, class 2 height district and used and occupied since 1921 as follows: 1st floor—paint factory and story of paints and chemicals—6 persons; 2nd floor—manufacturing, storage, office and laboratory—4 persons, for which no certificate of occupancy has been issued; that no change in use or occupancy is proposed; that the building is equipped with two 3 ft. 8 in. wide fireproof stairs, one of which leads to the roof and both lead directly to the street; and

WHEREAS, the applicant contends that it is proposed to construct a fireproof mixing room on the first floor, to be used for manufacturing of rubber cement, paint remover and allied substances containing volatile inflammable oils, which oils will be stored in the existing approved storage system consisting of three 550 gallon buried tanks, located in the yard as indicated on diagram filed with this appeal; that plans for these tanks were approved under Misc. Applic. 2340-43 and the installation was inspected and tested by the Fire Department; that three 300 gallon mixing tanks will be installed in the mixing room and the oils will be transferred from the storage tanks to the mixing tanks through fixed piping; that the mixing room will comply with all requirements of the Administrative Code; that the order is based on C19-85.0, which prohibits the manufacture of inflammable mixture in any building in which drygoods or other materials of a highly inflammable nature are manufactured, stored, or sold; that this provision was obviously intended to apply to such materials not connected with the trade in which the volatile oil is used and was certainly never intended to affect the handling of oils and chemicals of varying flashpoints used by one manufacturer in manufacturing allied products; that in view of the fact that the plant will remain a paint and allied chemical products factory and in view of the small area, the fireproof construction, the exits, the low occupancy and the fact that the rubber cement products will be used for war work, it is requested that a variation of the requirements be granted; and

WHEREAS, an application was filed with the Borough Superintendent for the construction of a room shown for storage, under Alt. Applic. 554-45.

Resolved, that order 98578-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the manufacture of inflammable mixture (Poly-Butene Adhesives) shall be carried on within a room as proposed on the first floor, separated from the balance of the premises by fireproof partitions, as indicated on plans marked "Received March 14, 1945" (3 sheets); that the automatic closing fire wall door indicated, shall be an approved swing type self-closing firewall door, instead of a sliding door and in addition that a swing door shall be installed leading from the room directly to Humboldt street; that such automatic CO-2 or foamite extinguishers shall be maintained and installed as required by the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that a certificate of occupancy for the building shall be obtained.

MATERIAL SUBMITTED FOR APPROVAL

604-44-SM

APPLICANT—Alpha Portland Cement Company, owner.
SUBJECT—Alpha Hi-Early Strength Portland Cement, approval of.
APPEARANCES—
For Applicant: Louis Anderson and Harold Maloney.

ACTION OF BOARD—Material approved in accordance with the report of the Committee on Tests.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (604-44-SM)

WHEREAS, the Alpha Portland Cement Company, owner, filed on October 23; 1944, an application with the Board of Standards and Appeals for approval of the material known as Alpha Hi-Early Strength Portland Cement; and

WHEREAS, this material was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 604-44-SM
Subject: Alpha Hi-Early Strength Portland Cement, approval of.

On October 23, 1944, the Alpha Portland Cement Company filed an application with the Board of Standards and Appeals for approval of Alpha Hi-Early Strength Portland Cement as manufactured by it at its Martin's Creek mill, Martin's Creek, Pa., for use in New York City, pursuant to Section C26-191.0 of the Administrative Code, as required by subdivision b, of section C26-178.0 and in conformance with section C26-312.0, c-1, of the Administrative Code.

The representatives of the Committee on Tests of the Board visited the mill and quarry at Martin's Creek, Pa. for the purpose of inspecting the potential supply of raw material, the manufacturing methods and the process controls and to witness the physical tests and chemical analyses to determine whether the material conformed to the minimum requirements of Section C26-312.0, c-1 of the Administrative Code.

The raw material used for the manufacture of this material is a natural cement rock containing the necessary silica, iron and alumina contents but is slightly deficient in calcium carbonate. To compensate for the deficiency in calcium carbonate a small percentage of high limed limestone containing better than 96% calcium carbonate is added at the quarry. This limestone is obtained from the Lebanon Valley of Pennsylvania near Annville. The applicant's quarry at Martin's Creek contains 20,000,000 tons of cement rock or sufficient to produce about 70,000,000 barrels of cement. This supply of rock is sufficient to maintain a maximum rate of production for at least 50 years.

The manufacturing processes are as follows: 6" holes are drilled by means of electric well drills the entire depth of the quarry face. Five to twenty holes are blasted at a time. The rock is loaded into 12 ton cars by means of electric shovels and elevated to a roll crusher where it is crushed to sizes between 2 and 4 inches. The crushed rock is conveyed to the spot by a belt conveyor. A small percentage of high calcium limestone is added at this conveyor under the supervision of the plant chemist. The rock then passes through hammer mills to dryers and to preliminary pulverizing mills where it is ground to a fineness of approximately 45% passing 200 mesh. It is then conveyed to the finishing raw mills where it is pulverized to a fineness of approximately 95% passing 200 mesh. The finished raw material is then stored in 15 raw blending bins. The raw material is burned in kilns ranging from 8½' to 10' in diameter and 146' long. Kilns are fired with pulverized bituminous coal injected by means of low air pressure. The burned clinker goes directly from the kilns to an Allis-Chalmers air quenching cooler where it is cooled to approximately 100 deg. F. The cool clinker is then ground in preliminary mills to approximately 45% passing 200 mesh and then finished in tube mills to a surface area of approximately 1,800 sq. cm. per gram. It is then pumped to silos and allowed to cool for approximately

two weeks, when it is pumped back to the finishing tube mills in closed circuit with separators where it is pulverized to a fineness of approximately 2,700 sq. cm. per gram. The finished product is then pumped to storage silos and is packed from these silos either in bulk or by means of a packing machine in moisture-proof paper or cloth bags of 94 lb. capacity.

The controls of the manufacturing processes are as follows:

Highlimed limestone is added at the quarry after the quarry rock is sampled during drilling and analyzed. The finished raw material is sampled and analyzed during filling of the blending bins. The final mix is made by withdrawing from at least five blending bins at one time in the proper proportions to insure a uniform composition. The twenty-four hour variation of the composition is not more than .4 of one percent. The quarry mixing and raw blending is under the supervision of the plant chemist. The uniformity of the raw material insures a uniformly burned clinker.

Results of chemical and physical analyses made in the presence of representatives of the Committee on Tests are as follows:

RECOMMENDATION

On the basis of the foregoing results of physical and chemical analyses it is recommended that Alpha Hi-Early Strength Cement and Portland Cement as manufactured by the Alpha Portland Cement Company, Easton, Pa., at its Martins Creek mill, be approved for use in New York City, as meeting the requirements of

MINUTES

Section C26-312.0, c-1 of the Administrative Code, as required by subdivision B of section C26-178.0 of the Administrative Code pursuant to Section C26-191.0 of the Administrative Code provided the applicant shall file monthly mill test reports of physical and chemical analyses, certified by its Chief Chemist at the Martins Creek mill and that each bag be marked, tagged or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 604-44-SM" and when marketed in bulk for use in New York City the bills of lading shall be similarly marked.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this material.

Resolved, that the Board of Standards and Appeals does hereby *approve* the material known as Alpha Hi-Early Strength Portland Cement, *on condition* that the material be manufactured, used and labelled in accordance with the above report.

Adjourned: 12:55 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, MAY 8, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

620-42-S

APPLICANT—Herman Kron, for Pitt Holding Co., Inc., owner.

SUBJECT—Application reopened and restored to calendar March 7, 1944—re Appeal from a decision of the borough superintendent (previously withdrawn).

PREMISES AFFECTED—123 Pitt street, west side, 125 ft. north of Stanton street (Block 345, Lot 65), Borough of Manhattan.

APPEARANCES—
For Applicant: Herman Kron.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (620-42-S)

WHEREAS, Herman Kron, for Pitt Holding Company, Inc., owner, filed August 14, 1942, an application for variation of the requirements of the labor law on appeal from a decision of the borough superintendent, affecting 123 Pitt street, west side, 125 ft. north of Stanton street (Block 345, Lot 65), Borough of Manhattan; and

WHEREAS, said appeal was withdrawn May 18, 1943; and

WHEREAS, on March 7, 1944, the appeal was reopened and restored to the calendar, based on a new decision of the borough superintendent, issued February 18, 1944, on Alt. Applic. 153-44; and

WHEREAS, the decision of the borough superintendent, dated February 18, 1944, which was then the subject of this appeal reads:

"1. Correct height district.
2. State present occupancy to agree with C.O.
3. As building was erected after Oct. 1, 1913, same is required to comply with Sec. 270, L.L. in all respects.
4. Specify nature of second floor occupancy.
5. Floor construction shall be sufficient for 120 lbs. per sq. ft. (locate boiler room).
6. Plan filed with Appl., Alt. 926/42 inconsistent with new application.
7. Provide proper dressing rooms and toilets and ventilation for same.
8. Note fire resist. value of stair enclosure.
9. Cancel Alt. 926/42 and file new 4 in. scale plan."

and

WHEREAS, on March 28, 1944, this appeal was removed from the calendar by the Board to be returned to the Engineering Division for further examination; and

WHEREAS, on April 28, 1945, the applicant amended the appeal so that it is now predicated only on Objections 3, 10 and 11, issued by the borough superintendent, April 10, 1945, on Alt. Applic. 153-44; and

WHEREAS, Objection 3, issued by the borough superintendent, March 27, 1944, on Alt. 153-44, reads:

"3. As the building was extended after Oct. 1, 1913, same is required to comply with Sections 270 and 272 Labor Law in all respects."

and

WHEREAS, on April 10, 1945, said Objection 3, issued March 27, 1944, was repeated and the following additional objections issued:

"Additional objections
10. Fire escape shown on plan not permitted as per Section 270 Labor Law.
11. Complete plan. Provide two remote means of egress from 1st floor."

and

WHEREAS, the applicant states the building is two stories (25 ft.) in height, 25 ft. by 100 ft. in area; of Class 3 construction; erected 1869; located in a business use, B area district and used as follows: 1st floor, garage for not more than 5 cars; 2nd floor, offices; proposed to be used and occupied as follows: 1st floor, glass carving shop and shipping, 20 persons; 2nd floor, offices and studios, 8 persons; that the building is equipped with one 3 ft. 8 in. steel stairs from the 2nd story to the street and one fire escape at the front; and

WHEREAS, the applicant contends that the building was erected about 1869 as an old law tenement house; that in 1931 it was altered, by removing the upper three floors and leaving two stories, which were converted for use on the 1st floor for garage for not more than 5 motor vehicles and 2nd floor as offices; that Certificate of Occupancy 17372 was issued for such use; that the building is now occupied on the first floor as shipping and glass carving shop and on the second floor as offices and studios; that the borough superintendent objected to the application made for the change of occupancy, on the grounds that the building should comply with Section 270 of the Labor Law; that the building has no cellar and is equipped with one 3 ft. 8 in. wide iron stairs leading from the 2nd floor to the street and a scuttle in the roof, with a ladder leading thereto; that in lieu of erecting a second stair, it is proposed to construct a fire escape and balcony at the front, as shown on plans filed with this appeal; that two exist doors will be provided at the front of the first floor, remote from each other as shown on plan filed with this appeal; it is therefore requested that the Board make a variation of the requirements of the Labor Law.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 153-44, Objections 3, 10 and 11, dated

April 10, 1945, and that the application be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the existing means of exit as indicated on plan filed with this appeal marked "Received March 7, 1944" shall be maintained; that a scuttle shall be constructed in the roof at the rear of the 2nd story, with a double rung ladder leading thereto; that such scuttle shall be fitted with an easy opening device; that the lot line windows at the rear of the first floor shall be maintained so as to be readily openable at all times for emergency exit; that in addition, two proposed means of exit at the front of the building shall be constructed and maintained; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

657-44-A

APPLICANT—Scott and Prescott, for Central Gospel Chapel of New York, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—166 East 73rd street, south side, 130 ft. east of Lexington avenue (3rd floor); (Block 1407, Lot 47), Borough of Manhattan.

APPEARANCES—

For Applicant: William O. Prescott and Duncan McKinley.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (657-44-A)

WHEREAS, Scott and Prescott, for Central Gospel Chapel of New York, owner, filed November 20, 1944, an appeal from a decision of the borough superintendent, affecting premises 166 East 73rd street, south side, 130 ft. east of Lexington avenue (3rd floor); (Block 1407, Lot 47), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent on Alt. Applic. 904-44, dated November 3, 1944, reads:

"Obj. 2 repeated.

The change of occupancy of a Class 3 residence building, as established by the Certificate of Occupancy 12369 and subsequently by Alt. 1760-1935, exceeding 20 ft. in height, into a public building is contrary to C26-254.0 Building Code.

5. Means of egress are inadequate as per C26-276 and C26-278 Building Code."

and

WHEREAS, the applicant states the building is 3 stories (38 ft. 10 in.) in height; 40 ft. by 102 ft. in area at 1st floor, 40 ft. by 55 ft. in area at typical floor; of Class 3 construction; erected 1883; located in a residence use, B area, Class 1½ height district, and used and occupied since 1927 as follows: cellar, boiler room; 1st floor, religious assembly, 200 persons; 2nd floor, rest rooms, lounge caretaker, 15 persons; 3rd floor, dwelling, one family and proposed to be used and occupied as follows: cellar, same; 1st floor, same; 2nd floor, lounge, rest rooms, 15 persons; 3rd floor, one family, 5 persons; that the building is equipped with one 3 ft. wide steel interior stairs, enclosed in fire retarded partitions and extending from the roof bulkhead to the street; and

WHEREAS, Violation 3606 was issued May 26, 1944, for occupying the building contrary to Certificate of Occupancy 12369; and

WHEREAS, Certificate of Occupancy 12369 issued in 1927, permits the use of the building as follows: cellar, boiler room; 1st floor, residence club, 200 persons, 100 lbs. live load; mezzanine, residence club, 40 lbs. live load; 2nd floor, residence club, 15 persons, 40 lb. live load; 3rd floor, residence club, 15 persons, 40 lb. live load; and

WHEREAS, the applicant contends that under Alt. Applic. 1760-35, the building was classified as a club house, Class B multiple dwelling of non-fireproof construction; that the present owners use the 1st and 2nd story for religious purposes only; that Alt. Applic. 904-44 was approved for this occupancy on the 1st and 2nd stories; that on the 3rd story which is practically a pent house, there were formerly studios, bedrooms, baths, etc. for club residents; that the owner desires to occupy this story with one family connected with the religious activities; that it would be a hardship to be unable to use this floor; that the one family occupancy does not present a hazardous situation and in fact is less hazardous than that permitted under Certificate of Occupancy.

Resolved, that the decision of the borough superintendent on Alt. Applic. 904-44, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; as to objection 5, that an additional stairway from the 2nd floor toward the rear shall be constructed, leading down to a fireproof vestibule near the rear of the first story, from which direct access may be had to the exterior door leading to an exterior stair attached to this building, but erected on the adjoining premises with free passage at all times to East 73rd street; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

715-44-A

APPLICANT—Robert Teichman, for George F. Corlis, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—174-176 South Portland avenue, west side, 430 ft. south of Hanson place (Block 2003, Lot 53), Borough of Brooklyn.

APPEARANCES—

For Applicant: Robert Teichman and George F. Corlis.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (715-44-A)

WHEREAS, Robert Teichman, for George F. Corlis, owner, filed December 8, 1944, an appeal from a decision of the borough superintendent, affecting premises: 174-176 South Portland avenue, west side, 430 ft. south of Hanson place (Block 2003, Lot 53), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated November 10, 1944, on amendment to Alt. Applic. 11857-38 reads:

"6. The floor space used for factory work is in excess of that permitted by the Zoning Resolution in a business use district. Sect. 4.c."

and

WHEREAS, the applicant states the building is two stories (29 ft.) in height, 45 ft. by 96 ft. in area; Class 3 construction; located in a business use, B area, Class 1½ height district; erected in 1891 originally as a stable and changed to factory use prior to 1916; used and occupied as follows: cellar, factory, 8 persons; 1st floor, office and factory, 18 persons; 2nd floor, sign factory, 8 persons; no change in use or occupancy is proposed; that the building is equipped with one 40 in. wide wood stairs, enclosed in partitions of metal lath and plaster and leading directly to the street, equipped with wood, self-closing doors and provided with a ladder and scuttle to the roof, one fire escape at the front, leading to the roof by a ladder and to the street by counter-balanced stairs; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy 2142 issued July 28, 1921, permits the use of the building as altered under Permit

5449-21 as a one-car garage and for the storage of merchandise; and

WHEREAS, Violation 2810-38 was issued May 18, 1938 for maintaining present occupancy of stores and sign painting shop inconsistent with Certificate of Occupancy 2142-A, in violation of Section C26-185.0 of the Administrative Code, in that sign painting shop on 2nd floor has ten employees and no fire escape or secondary means of egress and existing stairs at the center of the building, not enclosed and open cans of paint stored near the head of the stairs; and

WHEREAS, the applicant contends that the building was erected in 1891 as a stable, later changed to business use as a factory; that the owner in August 1913, leased entire premises for three years for the manufacture and sale of mattresses, beds and bed springs; that before the expiration of this lease, the business was succeeded by W. V. Staib Company, who entered into a new lease for the entire premises, dated January 1, 1915 for a term of five years; that this lease was renewed until 1919; that in 1930 a lease was made with Dayton & Montgomery, heating, roofing, plumbing and sheet metal works, for the south half of the 1st floor and south half of the cellar, indicated as "A" on plans filed with this appeal; that the tenant is still in possession of this part of the building; that in 1930 the north half of the 1st floor and north half of the cellar and second floor were leased to John Fitzgibbons, engaged in peanut roasting, as indicated as spaces "B-C" on plans filed with this appeal; that in 1931, the lease was continued for the north half of the first floor and cellar, as indicated as Space "B" and a new lease made for the second floor, as indicated as Space "C" with the New Art Sign Company, who are still in possession; that from 1932 to 1942, the north half of the 1st floor and cellar was occupied by John Fitzgibbons and the Budin Specialty Co., who rebuilt pin ball machines; that in 1942, the north half of the 1st floor and north half of the cellar, indicated as space "B" on plans, was leased for the cutting and decorating of ornamental glass; this tenant is still in possession; that in 1921 W. V. Staib Co. filed an alteration application to maintain a trucking space in the south part of the first floor, indicated as "T.S." on plans filed with this appeal, which space was in conjunction with the manufacturing done in the building, and upon completion the tenant, without the owner's consent, obtained Certificate of Occupancy 2142; that the entire building was used for manufacturing for more than twenty-five years before the owner received a violation in 1938; that the building complies with the Labor Law; that the owner has applied for a corrected Certificate of Occupancy, which has been refused by the Building Superintendent, one of the reasons given is that the records in the Department are not clear (applications have been faulty) and, irrespective of the fact that the Department's record book, known as the "Factory" book records the building as a "Work Shop"; therefore an appeal is made to the Board to uphold the owner's right to maintain this building as a factory, which prior right he has legally held since 1913, and to order the Superintendent to issue a correct certificate of occupancy; and

WHEREAS, after study of all the available records of the Department of Housing and Buildings and the Fire Department and copies of leases as well as inspection of the building by a committee of the Board, the Board is of the opinion that the building has, in fact, been occupied throughout for factory purposes since prior to 1916 and that factory occupancy throughout should be approved in spite of an error of judgment that was made by an applicant in applying for a certificate of occupancy for storage use instead of factory use in 1921; and

WHEREAS the committee found the requirements of the Labor Law, as approved by the Borough Superintendent have been met.

Resolved, that the decision of the borough superintendent on amendment to Alt. Applic. 11857-38, Objection 6, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* to permit the use throughout as a factory provided the building shall not be increased in height or area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

160-45-A

APPLICANT—Richard Shutkind, for Demoil Realty Corp., owner (M. and W. Manufacturing Co., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—842-846 Greenwich street and 46-50 Gansevoort street, southwest corner (2nd floor); (Block 643, Lot 54), Borough of Manhattan.

APPEARANCES—

For Applicant: Richard Shutkind.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (160-45-A)

WHEREAS, Richard Shutkind, for Demoil Realty Corporation, owner (M. and W. Mfg. Co., lessee), filed March 21, 1945, an appeal from a decision of the borough superintendent, affecting premises 842-846 Greenwich street and 46-50 Gansevoort street, southwest corner (2nd floor); (Block 643, lot 54), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated March 14, 1945, on Alt. Applic. 81-45, reads:

"1. The change of occupancy from storage to a factory, results in the following requirements:

a. Building must conform with Section 270, sub. 3, 4, 5, Labor Law."

and

WHEREAS, the applicant states that the building is 1 and 2 stories (27 ft. 9 in.) in height, 69 ft. 2 in. by 92 ft. 9 in. in area at 1st floor, 69 ft. 2 in. by 51 ft. in area at 2nd floor, of class 3 construction, erected in 1939, located in an unrestricted use, A area, class 2 height district and used and occupied since April 1, 1944 as follows: cellar—storage; 1st floor—produce stores; mezzanine—office—16 persons; 2nd floor—manufacturing of radar parts—8 persons; that Certificate of Occupancy 26143 issued May 23, 1940, permits the use of the cellar for storage, 1st floor for produce stores, 2nd floor for produce storage and mezzanine—office; and

WHEREAS, it is proposed to use and occupy the building as follows: cellar—storage—no persons; 1st floor—produce stores; mezzanine—office—16 persons; 2nd floor—manufacturing of radar parts—14 persons; that the building is equipped with one 44 in. wide interior stairs of iron and cement treads, enclosed in 4 in. terra cotta on 1st floor and studs fire retarded on 2nd floor, equipped with kalamein self-closing door and leading directly to the street and provided with a ladder and scuttle to the roof; proposed to be equipped with one new fire escape on the Greenwich street front leading to the street by counter-balanced stairs with a fireproof door leading thereto; and

WHEREAS, Violation 7618 was issued October 20, 1944, for changing the use of the 2nd floor to manufacturing, contrary to Certificate of Occupancy; and

WHEREAS, the applicant contends that the second story, which has been used as a machine shop for manufacturing radar parts for Army and Navy contracts since April 1, 1944, will have a maximum of 14 male employees; that this floor is provided with an interior 44 in. wide stair of iron and cement tread construction, leading directly to the street and enclosed in 4 in. terra cotta partitions at 1st floor and fire-retarded partitions at 2nd floor; that the 2nd floor door to the stairs is kalamein self-closing 44 in. wide and the door to the street is 44 in. wide, and both doors swing in the direction of egress; that the fire escape will be erected as proposed, as a secondary means of egress; it is requested

that the Board grant a variance, due to the small number of occupants and as the use is of non-hazardous building of similar type erected prior to 1913.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 81-45, Objection 1a, and that the appeal be and it hereby is *granted on condition* that the existing stairway, as shown and as proposed leading directly to Greenwich street, shall be maintained and also the construction and maintenance of the proposed fire escape to Greenwich street, as indicated, except that the door thereto shall be moved northerly to approximately the middle of the space; that in addition, a door shall be constructed in the westerly wall as a means of escape to the roof of the adjoining one story building; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

231-45-A

APPLICANT—Harry P. Jaenike, for Guaranty Trust Co. of New York and Charles Dunlap, executors u/w of Edwin Berwind, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—2 East 64th street, southeast corner of Fifth avenue (Block 1378, Lot 69), Borough of Manhattan.

APPEARANCES—

For Applicant: Allen D. Emil and J. D. Gardener.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (231-45-A)

WHEREAS, Harry P. Jaenike, for Guaranty Trust Co. of New York and Charles Dunlap, executors u/w of Edwin Berwind, owner, filed April 19, 1945, an appeal from a decision of the borough superintendent, affecting premises 2 East 64th street, southeast corner of Fifth avenue (Block 1378, Lot 69), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated April 12, 1945, on amendment to Alt. Applic. 448-45, reads:

"1. Exterior stairs not permitted as a required means of egress as per Sec. 6.1.2.2.3 B.C.

2. All required stairways should be 3 ft. 8 in. wide as per Sec. 6.4.1.1 B.C.

3. All doors along public corridors should be ¾ hr. f.p.s.c. Sec. 10.8.3. B.C.

4. Wood flooring within public hallways not permitted as per Sec. 10.9.2.3 B.C."

and

WHEREAS, the applicant states that the building is 6 stories (77 ft. 6 in.) in height, 30 ft. by 110 ft. in area; Class 1 construction; erected 1898; located in residence use, B area, Class 1½ height districts; used and occupied as a private dwelling; proposed to be used and occupied as follows: Cellar, storage of books, 20 persons; 1st to 5th floors, library and Museum for Advancement of Aeronautical Sciences for purposes similar to that of a club; 50 persons on the 1st floor, 50 persons on the 2nd floor, 20 persons on the 3rd floor, 20 persons on the 4th floor, 20 persons on the 5th floor; 6th floor, caretaker's apartment, 3 persons; that the building is equipped with one 2 ft. 6 in. wide and one 3 ft. 8 in. and wider steel stairs, enclosed in fireproof partitions and leading directly to the street; that a ladder and scuttle to a sloping roof is provided, and proposed to be equipped with one fire escape at the easterly end of the building, leading to the roof by a ladder and to the yard by stairs, leading to the street directly through a 6 ft. wide passage; that windows on the course of the fire escape will be fireproof, self-closing; and

WHEREAS, the applicant contends as to objection 1, that the main stair is more than sufficient for the total occupancy of each floor and in addition, there is a second interior fireproof stairway, that permission is requested to install a 3 ft. wide outside staircase with fireproof, self-closing doors leading thereto, from each floor as a secondary means of egress; and contends as to objection 2, that there is only 6 ft. 6 in. clearance in the yard and it is proposed to install a 3 ft. wide stair in lieu of the 3 ft. 8 in. stair; and contends as to objection 3, that the main stair will be entirely enclosed in fireproof walls, equipped with fireproof, self-closing doors; that it will be a hardship to be required to change the existing 2 in. hardwood doors in the large finished rooms and decorative corridors leading thereto; that the building is fireproof with the exception of the hardwood floor finish, doors and trim; and contends as to objection 4, permission is requested to allow the existing hardwood floors to remain, due to the conditions described; that the building is equipped with a substandard standpipe riser in the rear stair enclosure, consisting of 2 in. riser equipped with valve and 1½ in. hose on each story and that this riser is fed from existing 2 in. domestic connection to the city main; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent on Alt. Applic. 448-45, Objections 1, 2, 3, and 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall be altered and new stairways and exterior fire stair installed, as indicated on plans filed with this appeal marked "Received April 19, 1945"; that in addition, the well in the floor of the 3rd floor shall be floored over with fireproof construction; that the vent shafts on the 4th, 5th and 6th floors, east and west toward the south, shall be floored over, except for lawful ducts for ventilating bathrooms; that the existing substandard standpipe system shall be maintained and such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that exit signs shall be posted at exit doors and at doors to rooms leading to the exterior fire stair; that all doors leading to existing stairs and proposed stairs shall be fireproof and self-closing; that no cooking shall be maintained on the premises, except in the superintendent's apartment on the 6th floor; that this modification shall continue only so long as the building is occupied for non-commercial purposes as proposed, as a library and museum for the advancement of aeronautical sciences; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

249-45-A

APPLICANT—Sidney L. Strauss, for L. Rabinowitz, owner.

SUBJECT—Appeal from decisions of the fire commissioner.

PREMISES AFFECTED—1208 Manor avenue, northeast corner of Westchester avenue (Block 3775, part of Lot 1), Borough of The Bronx.

APPEARANCES—

For Applicant: Sidney L. Strauss.

For Administration: Peter J. Maher, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (249-45-A)

WHEREAS, Sidney L. Strauss, for L. Rabinowitz, owner, filed on April 30, 1945, an appeal from decisions of the fire commissioner, affecting premises 1208 Manor avenue, northeast corner of Westchester avenue (Block 3775, part of Lot 1), Borough of The Bronx; and

WHEREAS, the decision of the fire commissioner, dated July 20, 1944, in connection with an application for a day nursery for 30 children from 2 to 6 years and 40 children from 6 to 12 years of age, reads:

"1. Install an approved interior fire alarm system, or reduce the total number of children proposed to not more than 30."

and

WHEREAS, the decision of the fire commissioner, dated April 19, 1945, reads:

"In reply to your letter in reference to the proposed use of the 1st story as a day nursery for 45 children, you are advised that the approval of such occupancy may not be considered until an approved interior fire alarm system is installed."

and

WHEREAS, the applicant states the building is one story (14 ft.) in height; 100 ft. by 101.77 ft. in area; of Class 3 construction; erected 1926; located in a business use, B area, Class 1½ height district, and used and occupied for stores, now vacant and a portion of which is proposed to be used for day nursery, 70 children, and that no certificate of occupancy has been issued for the building; and

WHEREAS, the plans filed with this appeal indicate that the portion of the building in question is approximately 34 ft. 6 in. by 100 ft. in area; and

WHEREAS, the applicant states that it is proposed to install four 6 in. vibrating bells with push buttons below each bell, all interconnected so that any push button will sound all of the gongs, the system to be connected with bell wiring supplied from two sets of dry batteries contained in a wood box painted Fire Department red; and

WHEREAS, the applicant contends that the building is occupied by stores, with that portion indicated on plans filed with this appeal, to be occupied as a nursery under the program of the Mayor's Committee on wartime care of children; that ample exits are maintained; that all partitions which separate the nursery portion from the business portion are filled with rock wool for their entire height; that in view of the fact that there will be more than 30 children, the Fire Department has recommended the installation of a fire alarm system in accordance with the rules of the Board and that it is respectfully requested that the system proposed be accepted, in lieu of the requirements.

Resolved, that the decision of the fire commissioner dated April 19, 1945 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that a substandard fire alarm system substantially as proposed and as may be required by the fire commissioner and located as he may determine, shall be installed and maintained throughout the premises used as a nursery; that such system shall be used only in connection with fire drills, which shall be held at least once in two weeks under the charge of competent supervisors; that all doors leading into and from the kitchen shall be made self-closing; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

250-45-A

APPLICANT—Sidney L. Strauss, for Harry Kriger, owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—89-16 to 89-18 Northern boulevard, south side, 20 ft. west of 90th street (1st floor); (Block 1437, Lots 8 and 9), Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Sidney L. Strauss.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (250-45-A)

WHEREAS, Sidney L. Strauss, for Harry Kriger, owner, filed on April 30, 1945, an appeal from an order of the fire commissioner affecting premises 89-16 to 89-18 Northern boulevard, south side, 20 ft. west of 90th street (1st floor); (Block 1437, Lots 8 and 9), Jackson Heights, Borough of Queens; and

WHEREAS, Order 14919-LF, issued by the fire commissioner April 23, 1945, reads:

"1. Install an adequate interior electric fire alarm system in accordance with the rules of the Board of Standards and Appeals and the enclosed approved layout. 487 E-2.0-c-1. Adm. Code."

and

WHEREAS, the applicant states the building is 3 stories (38 ft.) in height; 40 ft. by 58 ft. in area; of Class 3 construction; erected 1925; located in a business use, B area, Class 1¼ height district, and used and occupied as follows: cellar, boiler room; 1st floor, one store in each half; 2nd floor, one apartment each half; 3rd floor, one apartment each half; proposed to be used and occupied without change, except the first floor will be used as a day nursery in each half, 45 persons throughout; that the buildings are equipped with a 3 ft. 8 in. wide wood stairs in each building extending from the roof bulkhead to the street, enclosed at the basement (cellar) with 4 in. cinder block partitions and above with partitions of wood studs, lath and plaster; that the stairway doors are wood, but not self-closing; and

WHEREAS, the applicant states that it is proposed to install a modified interior fire alarm system, consisting of two 6 in. vibrating bells with push buttons below each bell interconnected, so that either button can sound both bells, the system to be installed in bell wiring and the supply to be from two sets of dry batteries, housed conspicuously in a wood box painted Fire Department red and that the system will be what is termed an open circuit system; and

WHEREAS, the applicant contends that the premises consist of two, two story and cellar buildings, each of which is to be occupied on the 1st floor as a nursery, included in the Mayor's Committee on Wartime Care of Children Program; that the order issued by the fire commissioner is occasioned by the fact that there will be more than 30 children occupying the premises; that the nursery will use two communicating openings connecting the play areas; that a means of egress will be maintained at the 1st floor from each of the areas and in addition, egress to the rear yard will be maintained in the westerly area, directly from the playroom and in the easterly area, directly through the kitchen; that in view of the compactness of the area to be used, its accessibility from the street and yard, it is requested that a modification be granted for the acceptance of the proposed alarm in lieu, of the system required.

Resolved, that the decision of the fire commissioner as to Order 14919-LF, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that a substandard fire alarm system substantially as proposed and as may be required by the fire commissioner and located as he may determine, shall be installed and maintained throughout the premises used as a nursery; that such system shall be used only in connection with fire drills, which shall be held at least once in two weeks under the charge of competent supervisors; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

255-45-A

APPLICANT—Sidney L. Strauss, for Port Richmond Day Nursery, Inc., owner.

SUBJECT—Appeal from the decisions of the fire commissioner.

PREMISES AFFECTED—93 Park avenue, southeast corner of Ann street (1st floor); (Block 8, Lot 236), Port Richmond, Borough of Richmond.

MINUTES

APPEARANCES—
For Applicant: Sidney L. Strauss.
For Administration: Peter J. Maher, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (255-45-A)

WHEREAS, Sidney L. Strauss, for Port Richmond Day Nursery, Incorporated, owner, filed May 1, 1945, an appeal from decisions of the fire commissioner, affecting premises 93 Park avenue, southeast corner of Ann street (1st floor); (Block 8, Lot 236), Port Richmond, Borough of Richmond; and

WHEREAS, the decision of the fire commissioner dated October 11, 1944, in connection with an application for inspection of an existing occupancy of a day care agency occupying the entire first floor (child health station included) for 30 children between two to six years of age and 15 children for after school care over 6 years of age, reads:

"If more than 30 children, under a permit from the Department of Health, are to be on the premises at any time, an approved type of an interior fire alarm system for use in fire drills must be installed and approved by this Department. An appeal may be filed with the Board of Standards and Appeals within 30 days, for the installation of a fire drill gong."

and

WHEREAS, the applicant states the building is 2 stories (25 ft.) in height; 58 ft. irregular by 51 ft. irregular in area; of Class 4 construction; erected 1900; located in a residence use, B area, Class 1 height district, and used and occupied: cellar, heater room; 1st floor, day nursery, 30 persons; 2nd floor, dwelling, one family; that no change in use or occupancy is proposed, except that the occupancy of the first floor will be increased to 45 persons; that the building is equipped with one 3 ft. 6 in. wide wood stair, enclosed in wood lath and plaster partitions, equipped with wood doors, which are not self-closing, and extending from the top story to the first floor; that the building has been used as at present, since 1915; and

WHEREAS, the applicant states that it is proposed to install 6 in. vibrating bells and push buttons, as indicated on plans filed with this appeal, with the entire system interconnected, so that any push button can sound all of the bells to be installed, the system to be connected with bell wiring and to be supplied from two sets of dry batteries contained in a wood box painted Fire Department red; and

WHEREAS, the applicant contends that the premises have been used as a day nursery for approximately 30 years; that this nursery has now been included in the program of the Mayor's Committee on Wartime Care of Children and its capacity has been increased, so that there will be more than 30 children on the premises, thus requiring an interior fire alarm system; that the nursery will be confined to the first story and ample exits are maintained, as indicated on plans filed with this appeal; that the entire cellar ceiling has been fire retarded and cellar stairs enclosed in fireproof partitions, with one hour test door at the foot thereof and that it is requested a modification be granted, to permit the installation of the vibrating bells system, in lieu of an interior fire alarm system in accordance with the Rules of the Board.

Resolved, that the decision of the fire commissioner dated October 11, 1944 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that a substandard fire alarm system substantially as proposed and as may be required by the fire commissioner and located as he may determine, shall be installed and maintained throughout the premises used as a nursery; that such system shall be used only in connection with fire drills, which shall be held at least once in two weeks under the charge of competent supervisors; that all doors leading into and from the kitchen shall be made self-closing; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

261-45-A

APPLICANT—Michael Glick, for Irving Maidman, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—338 East 148th street, south side, 129.29 ft. east of College avenue (1st and 2nd floors); (Block 2329, Lot 64), Borough of The Bronx.
APPEARANCES—
For Applicant: Michael Glick.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (261-45-A)

WHEREAS, Michael Glick, for Irving Maidman, owner, filed May 3, 1945, an appeal from a decision of the borough superintendent, affecting premises 338 East 148th street, south side, 129.29 ft. east of College avenue (1st and 2nd floors); (Block 2329, Lot 64), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated April 19, 1945, on Alt. Applic. 189-45 reads:

"1. Provide two means of exit and otherwise comply with Sections 270-272 Labor Law.

3. Floor load of second floor is approved for 100 lbs. per sq. ft. (C.O. N.B. 2587-24); required liveload is 120 lbs. per sq. ft."

and

WHEREAS, the applicant states that the building is two stories (30 ft.) in height, 76.03 ft. by 103.31 and 106.03 ft. irregular in area, of class 3 construction, erected in 1924, located in an unrestricted use, B area, class 1½ height district, and used and occupied since 1924 as a public garage; and proposed to be used and occupied as follows: cellar—boiler room 1st floor—garage and canned food storage, 3 persons; 2nd floor—manufacture of surgical supplies, 25 persons; that the building is equipped with one 3 ft. 8 in. wide steel stairs (8 in. brick enclosed), leading directly to the street from the 2nd floor and an iron ladder and scuttle to the roof; and

WHEREAS, the applicant contends that the construction of the first tier of beams is of steel and cinder concrete arches, and was designed for 100 lbs. per sq. ft. capacity; that the roof construction consist of wood trusses, which span from wall to wall; that the present stairs are 3 ft. 8 in. wide, of steel construction, and although they do not extend to the roof with a bulkhead, there is an iron ladder and scuttle to the roof; that there is at present, a ramp leading from the street to the 2nd floor, and this ramp was used by cars to get to the second floor; that the present owner of the building has converted the former garage to its present use of manufacturing and garage, due to the fact that a garage became a non-paying business, because there are less cars now than formerly; that it is the owner's intention to convert this building back to garage use after the war, and permission is now requested to erect a counterbalanced fire escape at the front where shown, to conform to the requirements of the Labor Law; that the present stairs and ramp will remain untouched; that the total number of occupants requested on the 2nd floor do not exceed the capacity of persons allowed for the present stairs; that the present liveload is 100 lbs. per sq. ft. and it is requested that the Board approve this load, as the carrying capacity of the floor will not be exceeded and the liveload will be posted; that the building will be used for manufacturing only for the time of the duration of the emergency and six months thereafter.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 189-45, objection 1, and that the appeal be and it hereby is *granted on condition* that the existing primary means of exit shall be maintained and that, in addition, a fire escape, complying with the requirements of the Labor Law as proposed, shall be constructed on the front of the building; that the existing ramp may be maintained, but not considered as an exit for computing occupancy and no openings from such ramp shall be maintained between the ramp and the first floor, except by door to the stairway as shown; that the number of persons engaged in factory work on the 2nd floor shall not at any time exceed the lawful capacity of the primary means of exit; as to objection 3, that the floor load of the building previously approved for garage occupancy may be accepted; that this variance shall continue only during the term of the present emergency; that the garage use may be restored throughout the building after the termination of the present emergency; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

1177-24-A

APPLICANT—Frank Hatton, for Street & Smith Publications, Inc. owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from an order of the fire commissioner (previously granted on condition).

PREMISES AFFECTED—79-89 7th avenue, northeast corner of West 15th street (Block 791, Lot 1), Borough of Manhattan.

APPEARANCES—

For Applicant: William Hackenburger and N. J. Villaime.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (1177-24-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 79-89 7th avenue, northeast corner of West 15th street (Block 791, Lot 1), Borough of Manhattan, was granted by the Board on September 22, 1925, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted September 22, 1925, so that as amended the resolution shall read:

"Resolved, that the order of the fire commissioner, 43426, item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that an approved standpipe system shall be maintained in accordance with the requirements therefor, with a 4 inch riser in each stairhall and that not less than two 2½ gallon fire extinguishers shall be installed in each story."

348-34-A

APPLICANT—Samuel Rosenblum, for The Montrose Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Appeal from an order of the fire commissioner (previously granted on condition).

PREMISES AFFECTED—136 41st street, south side, 240 ft. east of First avenue (Block 716, Lot 20), Borough of Brooklyn.

APPEARANCES—

For Applicant: Samuel Rosenblum.

ACTION OF BOARD—Appeal reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (348-34-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 136 41st street, south side, 240 ft. east of First avenue (Block 716, Lot 20), Borough of Brooklyn, was granted by the Board June 18, 1935, on certain conditions, the resolution amended November 19, 1935, December 1, 1936, January 11, 1928, January 17, 1939, January 30, 1940, February 4, 1941, February 10, 1942, February 24, 1943 and February 15, 1944 and applicant requested a further extension of permit.

Resolved, that the Board of Standards and Appeals does amend the resolution adopted June 18, 1935, as amended by resolutions adopted through February 15, 1944, only so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"* * * that this variance may continue for one year from the date of this *amended* resolution * * * and that other than as herein *amended,* the conditions of the resolution of November 19, 1935, as amended through November 12, 1941, shall be complied with."

902-42-S

APPLICANT—William O. Staber, Acme Fur Dressing Company, Inc. owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Variation of the labor law as cited in a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—57-09 59th street, east side, 25 ft. south of Maspeth avenue (Block 2692, Lots 6 and 9), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: William O. Staber.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (902-42-S)

WHEREAS, this application from a decision of the borough superintendent, affecting premises 57-09 59th street, east side, 25 ft. south of Maspeth avenue (Block 2692, Lots 6 and 9), Maspeth, Borough of Queens, was granted by the Board on January 12, 1943, on certain conditions; and

WHEREAS, the resolution was amended on March 21, 1944, and the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby amend its resolution adopted January 12, 1943, so that as amended, the resolution shall read:

"Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent on Alt. Applic. 2014-42, and that the application be and it hereby is *granted,* as to objections 1 and 2, dated February 29, 1944, *on condition* that the two stairways shall be constructed and maintained from street to roof, as indicated on revised plans, marked "Received March 14, 1944"; that the existing fire escape shall be maintained, but need not be carried to the roof; that such portable fire-fighting appliances shall be main-

tained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Resolved further, that in the event the requirements of this resolution are complied with and a continuous hallway is constructed, as indicated on plans filed with this appeal, marked "Received March 14, 1944", that the existing doors leading to the stairs at each floor may be omitted, provided the enclosure and door thereto comply with the requirements therefor (Alt. Applic. 2014-42)."

279-44-A

APPLICANT—Walter Eberhart, for Isabella Home, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—West side of Amsterdam avenue, from West 190th street to West 191st street and from Amsterdam to Audubon avenues (Block 2160, Lot 1), Borough of Manhattan.

Negative: 0

THE RESOLUTION (262-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting that portion in the business use district to be used for the parking and storage of more than five motor vehicles, for a term of two years, affecting premises, 21-11 Menahan street, north side, 101.67 ft. east of Grandview avenue (Block 2204, Lots 68, 71 and 80), Ridgewood, Borough of Queens, was granted by the Board on October 4, 1938, on certain conditions; and

WHEREAS, the permit was extended on December 3, 1940 and on January 26, 1943 and the applicant requested a further extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on April 24, 1945, restored to the calendar and set for hearing on May 8, 1945 at 2 P.M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 8, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of October 4, 1938, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit that portion in the business use area to be used for the storage and parking of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of October 4, 1938, shall be complied with and that a Certificate of Occupancy shall be obtained (B.N. 85-39)."

98-25-BZ

APPLICANT—George Alexander, Jr., for 305 West 67th Street Corp., owner.
SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of superintendent of buildings), previously granted on condition under section 7b of the zoning resolution, permitting in a business use district, extending from an unrestricted use district, the erection and maintenance of a garage for the storage of more than five motor vehicles.
PREMISES AFFECTED—305-313 West 67th street north side, 80 ft. west of West End avenue and 308 West 68th street (Block 1179, Lots 25 and 40), Borough of Manhattan.
APPEARANCES—
For Applicant: George Alexander, Jr.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

MINUTES

THE RESOLUTION (98-25-BZ)

WHEREAS, this application under section 7b of the zoning resolution, permitting in a business use district, extending from an unrestricted use district, the erection and maintenance of a garage for the storage of more than five motor vehicles, affecting premises 305-313 West 67th street, north side, 80' ft. west of West End avenue and 308 West 68th street (Block 1179, Lots 25 and 40), Borough of Manhattan, was granted by the Board on April 14, 1925, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, to permit the second floor to be occupied as a factory.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted April 14, 1925, so that as amended the resolution shall read:

"Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted on condition* that the building shall be restricted to a two-story structure above grade; that there may be a basement story; that the floor arches shall be constructed of steel beams and reinforced concrete slabs; that the roof shall be fire-retarded in accordance with the rules of the Board of Standards and Appeals; that the gable walls shall be unpierced throughout their entire height and length, except that lot line windows may be installed, provided same are fireproof, self-closing windows or fixed fireproof windows; that any skylight installed shall be glazed with plain glass protected with wire guards above and below; that there shall be no vehicular entrance within the business use area of the plot; that the front elevation shall be finished in face brick with architectural terra cotta or stone trimmings; that the second floor may be occupied as a *factory,* provided it is entirely separated from that portion of the building occupied as a garage, and complies with the requirements of the Labor Law and all other laws applicable to factory occupancy; and that all permits necessary to the prosecution of the work shall be obtained and all work completed within three (3) months from the date of this *amended* resolution and that a certificate of occupancy shall be obtained."

224-39-BZ

APPLICANT—Garofalo and Garofalo, for Amodio Caruso, lessee; Andon E. Andon, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7f of the zoning resolution, permitting in a residence use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—85-37 Van Wyck boulevard (137th street), northeast corner of 86th avenue (Block 9647, Lot 19), Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Anthony A. Garofalo.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (224-39-BZ)

WHEREAS, this application under section 7f of the zoning resolution, permitting in a residence use district, for a temporary term of two years, the parking and storage of more than five motor vehicles, affecting premises 85-37 Van Wyck boulevard (137th street), northeast corner of 86th avenue (Block 9647, Lot 19), Jamaica, Borough of Queens, was granted by the Board May 23, 1939, on certain conditions; and

WHEREAS, the permit was extended on April 15, 1941, and on April 27, 1943 and the applicant requested a further extension on the permit.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted May 23, 1939, only so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7h for a temporary term of two years from the date of this *amended* resolution, to permit the plot to be occupied for the parking and storage of more than five motor vehicles, restricted to the pleasure-car type, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of May 23, 1939, shall be complied with and that a new Certificate of Occupancy shall be obtained (B.N. 52-39)."

27-40-BZ

APPLICANT—Paul Friedman, for Frank Derasmo, owner.

SUBJECT—Application for consideration—reopening and extension of time to obtain permits—re Application (decision of the borough superintendent) previously granted on condition under section 7c of the zoning resolution, permitting in a residence use district, the erection of an accessory building on an existing gasoline service station.

PREMISES AFFECTED—144-25 North Conduit avenue, north side, 215 ft. west of 135th avenue and 144-40 135th avenue (Block 2873, Lot 18), South Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (27-40-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a residence use district, the erection of an accessory building on an existing gasoline service station, affecting premises 144-25 North Conduit avenue, north side, 215 ft. west of 135th avenue and 144-40 135th avenue (Block 2873, Lot 18), South Ozone Park, Borough of Queens, was granted by the Board on May 5, 1942, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was granted on May 4, 1943 and on May 2, 1944 and the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted May 5, 1942, only so far as it has reference to the time within which to obtain permit and complete the work, so that as amended, this portion of the resolution shall read:

"* * * that all permits required shall be obtained and all work completed within one year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of May 5, 1942, shall be complied with and that a certificate of occupancy shall be obtained (Alt. Applic. 33-42)."

1211-40-BZ

APPLICANT—Andrew J. Constantine, for Louis Seitz, owner.

MINUTES

SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—88-17 to 88-19 (now 88-11) 168th street, east side, 100 ft. south of 88th avenue (Block 9819, Lot 6), Jamaica, Borough of Queens.

APPEARANCES—
For Applicant: Andrew J. Constantine and M. Augusta Constantine.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 0
Negative: 0

THE RESOLUTION (1211-40-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 88-17 to 88-19 (now 88-11) 168th street, east side, 100 ft. south of 88th avenue (Block 9819, Lot 6), Jamaica, Borough of Queens, was granted by the Board on May 6, 1941, on certain conditions; and

WHEREAS, the permit was extended on May 25, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted May 6, 1941, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7h for a term of two years from the date of this *amended* resolution, to permit the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution adopted May 6, 1941, shall be complied with and that a new Certificate of Occupancy shall be obtained (Misc. applic. 10302-40)."

556-20-BZ

APPLICANT—Michael Glick, for B. J. Holding Corporation, owner.

SUBJECT—Application for consideration—reopening and amendment as to additional use—Application (decision of the superintendent of buildings) previously granted on condition, permitting partly in a business use district and partly in a residence use district, the erection and maintenance of a garage for more than five motor vehicles.

PREMISES AFFECTED—1930-1932 Jerome avenue, east side, 179.25 ft. north of East 177th street (Block 2853, Lot 9), Borough of The Bronx.

APPEARANCES—
For Applicant: Michael Glick.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, restored to the calendar and set for hearing on May 29, 1945 at 10 A. M.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

381-27-BZ

APPLICANT—The Cord Meyer Company, owner; Ranger-Aircraft Engines, Div. Fairchild Engine and Airplane Corporation, lessee.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the borough superintendent) previously granted on condition for a temporary term of two years, under section 7e of the zoning resolution, permitting in a residence use district, the erection and maintenance of a driveway and loading platform to be used in conjunction with an existing garage and stores building (granted by the Board) for light manufacturing limited to 25% of total floor space of the building.

PREMISES AFFECTED—88-01 to 88-19 Roosevelt avenue, north side, from 88th to 89th street, 37-53 to 37-69 88th street and 37-54 to 37-70 89th street (Block 1476 (617), Lots 38 and 34), Borough of Queens.

APPEARANCES—
For Applicant: Jacob Rubenstein, Sergt. M. O. Pearl and Walter Adikes.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the calendar, subject to usual procedure.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

1339-27-BZ

APPLICANT—Lama and Proskauer, for Israel Rosenblum, owner.

SUBJECT—Application for consideration—reopening and restoration to calendar—previously denied for a gasoline service station and repair shop. New application (decision of the borough superintendent) under section 7f of the zoning resolution, permitting in a business use district, the maintenance of a gasoline service station, auto laundry, lubritorium and minor repairs.

PREMISES AFFECTED—1607-1615 Coney Island avenue and 1101-1111 Locust avenue (Block 6731, Lot 65), Borough of Brooklyn.

APPEARANCES—
For Applicant: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the calendar, subject to usual procedure.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

Adjourned: 4:00 P. M.

JOSEPH J. DOYLE, Chief Clerk.

(Remaining minutes of the meeting of May 8, 1945 will be printed in the Bulletin of May 22, 1945.)

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR INSPECTION OF APPROVED OPENING PROTECTIVE ASSEMBLIES

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS OCTOBER 20, 1939. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, NOVEMBER 13, 1939.

(1139-39-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday morning, June 8, at 10 a.m., Room 1013, Municipal Building, Manhattan, on Proposed Amendments to Rules for Inspection of Approved Opening Protective Assemblies.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, *paragraph* 2, *Charter of the City of New York and C*26-189.0 *Administrative Building Code and C*26-610.0 *Administrative Building Code and C*26-660.0, 661.0 *and* 662.0 *Administrative Building Code.*

Note: New matter in italics.

Rule 1—Scope.

1.1 Before any Opening Protective Assembly is used under the provisions of the Administrative Building Code, it shall be tested as required in Section C26-610.0 (10.1.18) and its Fire-Resistive Rating shall be designated as "¾-Hour", "1-Hour", "1½-Hour", or "3-Hour", in accordance with the approval.

1.2 Before engaging in the manufacture of approved Opening Protective Assemblies, the manufacturer shall have an established plant completely equipped with the necessary facilities, machinery and tools for the manufacture of the Opening Protective Assemblies.

1.3 Before applying for approval of plant and permission to manufacture approved Opening Protective Assemblies, the manufacturer shall file a list of his equipment and facilities with the Board of Standards and Appeals, together with a statement of the name, type, specifications and details of the approved door, which he agrees to manufacture in accordance with the rules and regulations of the Board and the requirements of the Administrative Building Code.

1.4 All Opening Protective Assemblies made under any approval issued by the Board of Standards and Appeals for the manufacture of approved Opening Protective Assemblies of "¾-Hour", "1-Hour", "1½-Hour" or "3-Hour" rating shall be rejected on evidence that such Opening Protective Assemblies are not manufactured or labelled in accordance with the approved specifications of the Board.

Rule 2—Inspections.

2.1 No Opening Protective Assemblies shall be installed in any building until such Opening Protective Assemblies have been inspected and labelled either by the Borough Superintendent, or by a recognized testing laboratory or other qualified person or agency approved by the Board as having proper facilities.

2.2 Before issuing any label for the use of an approved Opening Protective Assembly, the authorized inspection agency shall first notify the Borough Superintendent that inspection will be made by him of the materials and construction entering into the assembly of the Opening Protective Assemblies, stating the location of the premises where the Opening Protective Assemblies will be used, the Building Permit number, the name of the approved Opening Protective Assembly and the manufacturer and the number of such units to be manufactured.

Note: Where an Opening Protective Assembly is of fire-proofed wood, such wood shall be submitted to tests for fireproofed wood, as prescribed in the Administrative Building Code, Section C26-331.9.

2.3 After the materials have been cut and inspected, the authorized inspection agency shall inspect the assembly and fabrication of the parts and shall issue an approved label only if the completed Opening Protective Assemblies comply in all respects with the approved specifications on file in the Board of Standards and Appeals.

Rule 3—Labeling Requirements.

3.1 Every approved Opening Protective Assembly before installation in a building under the provisions of the Administrative Building Code, shall have securely attached to it, a metal label of a design approved by the Board, giving the name of the Opening Protective Assembly, the calendar number of the approval of the device, the fire-resistive rating, the serial number of the specific type of door and buck, or window, the year of manufacture and the name of the inspection agency. *When opening protective assemblies are manufactured for stock, the inspection agency shall furnish a report to the manufacturer of his inspection of each assembly including all data as is herein required.*

3.2 After attachment of the Serial Label to the Opening Protective Assembly, the inspection agency shall advise the Borough Superintendent the serial numbers, the address of the premises and the Building Permit numbers of the approved Opening Protective Assembly. *When opening protective assemblies are installed in a building as building maintenance, the manufacturer shall furnish similar data on forms obtained from the Borough Superintendent.*

3.3 The manufacturer may also attach to the Opening Protective Assembly, a metal label giving the name and location of the manufacturer. He shall also keep an office record showing the location of each Opening Protective Assembly manufactured by him, its serial label number and the Building Permit number; and this record shall be open for inspection by any authorized representative of the Board of Standards and Appeals and the Department of Housing and Buildings.

3.4 Every labelled Opening Protective Assembly shall be constructed and installed in all essentials as tested and approved and arranged to receive hardware of an equal type, quality and material and requiring no greater cutting away of the wood or metal than on the approved Opening Protective Assembly, as tested.

3.5 Where opening protective assemblies are manufactured up to 25% in excess of the sample as tested and as permissively allowed under C26-610.0a, the permitted increase in area shall not exceed width and height dimensions greater than 15 percent of the sample as tested. In all cases the permissively allowed increase in area of 25% shall apply only to the sample when constructed identically in all respects with the tested sample.

3.6 When opening protective assemblies are manufactured for stock, such assemblies shall be inspected as provided herein. As the doors are shipped, the Borough Superintendent shall be furnished with the data as specified in Rules 3.1 and 3.2. When such opening protective assemblies are shipped to jobbers for stock, the manufacturer shall obtain the data from the jobber, as required under rules 3.1 and 3.2 and immediately submit such data to the Borough Superintendent.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES ON USES OF INSULATING FIBRE BOARD

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS MAY 5, 1939. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, MAY 29, 1939 AND RULES AMENDED JUNE 16, 1942, EFFECTIVE JULY 6, 1942.

(170-39-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday morning, June 8, 1945, at 10 a.m., Room 1013, Municipal Building, Manhattan, on Proposed Amendments to Rules on Uses of Insulating Fibre Board.

Matter in brackets [ ] to be deleted; new matter in italics, except where applicable sections of the Administrative Building Code appear.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, Charter of the City of New York, and C26-189.0 [Administrative Code (2.2.1.1)], C-26-462.0 [of the Administrative Code (8.4.10.6)], C-26-458.0, sub. g, [Administrative Code (8.4.10.2),] C-26-538.0, sub. b, [Administrative Code (8.7.2.3),] C-26-541.0, sub. a, [Administrative Code (8.7.2.6.1),] C-26-667.0, paragraphs, 4 and 8, [Administrative Code (10.9.2.4),] sub. c, [and (10.9.2.4), Building Code,] C-26-680, sub. 21, [Administrative Code (10.12.11.1),] C-26-541.0, [Administrative Code (8.7.2.6.1),] C-26-619.0, [Administrative Code (10.3.1),] and C-26-721.0, Administrative Building Code. [(12.2)].

[NOTE: Where reference in parentheses appears after the Administrative Code Section, it refers to the Section of the New Building Code as formerly numbered.]

Extracts from the Administrative Building Code contained herein in small type have been assigned decimal rule numbers for convenient reference only and are not to be construed as rules.

Purpose: *It is the purpose of these rules to carry out the intent of Section C 26-3.0 of the Administrative Building Code and to supplement the present requirements of the Administrative Building Code, by including the uses of insulating fibre board as an acoustical or decorative material, when applied to walls and ceilings which use is specifically unprovided for in the Administrative Building Code.*

Rule 1. Classes of Fibre Board.

(1) Wood Fibre
(2) Exploded Wood Fibre
(3) Balsam and Wood Fibre
(4) Western Wood Fibre
(5) Cane Fibre (Bagasse)
(6) Pulp from waste papers
(7) Straw Fibre
(8) Ground Wood Pulp Fibre
(9) Corn Fibre

1.1 STRUCTURE OF FIBRE BOARD. Fibre boards shall be manufactured from wood or other vegetable fibre by a felting or molding process and provided with sizing to render water resistant, and shall be subjected to a sufficient drying temperature *under related humidity conditions* so as to completely destroy rot-producing fungi. No starch ingredient shall be included unless made toxic to household vermin *and with properties as shown in Table 1.*

1.2 The structure of the board may be either single or multiple ply, and if latter, the plies shall be joined under pressure by a moisture resisting cement *or other approved means.* Surfaces shall be finished smooth and free of coarse fibres.

1.3 For a plaster base, wall board, roof *insulation* boards, sheathing, siding, roof insulation, floor insulation, acoustical, interior finish, the fibre board shall be homogeneous, free from cracks, lumps, unevenness and other defects.

1.4 The surfaces of fibre board when used for acoustical or decorative purposes shall be finished smooth and flat and reasonably free from projecting, coarse or hairy fibres.

1.5 Fibre board shall be approved by the Board.

1.6 Fibre board treated to reduce and retard its combustibility may be used in accordance with limitations as may be approved by the Board.

[TABLE 1

	Building Board (Note 5)	Plaster Base (Note 6)	Miscellaneous uses (Note 7)
Maximum thermal conductivity B.T.U. per hour per square foot per degree F. per inch thickness (note 1)	0.36	0.36	0.36
Minimum transverse strength, Lengthwise (note 2)	14	14	7
Pounds Crosswise (note 2)	12	12	7
Minimum deflection at ultimate load, inches	0.25	0.25	0.25
Maximum deflection at ultimate load, inches (note 3)	.85	.85	1.25
Minimum tensile strength, pounds per square inch (note 4)	175	175	100
Water absorption per cent	5	5	10
Maximum linear expansion, per cent	½	½	—
Nail holding strength lb	100	70	60
Bond strength per square foot of bonded surface	—	700	—

NOTE 1. No board of any class having a conductance greater than 0.72 b.t.u. per hour, per square foot per degree F. irrespective of thickness will be acceptable under these rules.
NOTE 2. This requirement is based upon specimens ½ inch thick. For specimens of other thicknesses the requirement shall be increased in direct proportion, that is, for a thickness of 1-inch, it shall be double, etc.
NOTE 3. Minimum deflection at rupture shall be not less than .25".
NOTE 4. Tensile strength requirements shall be applicable only on thicknesses up to and including 1-inch.
NOTE 5. Edges shall be square for building board.
NOTE 6. Edges shall be either ship lapped bevel and ship lapped, tongue and grooved, bevel and tongue and grooved, "V" jointed, or ship lapped and grooved. Each board shall be of a rough fibrous texture to insure good mechanical and suction bond.
NOTE 7. Edges shall be square unless ship lapped or offset.]

TABLE I

	Building Board	*Plaster Base*	*Roof Insulation Board*	*Interior Boards*	*Sheathing Boards*
Max. thermal conductivity, B.t.u. per hr. per sq. ft. per deg. F. per in. of thickness	*0.36*	*0.38*	*0.38*	*0.38*	*0.42*

	Building Board	*Plaster Base*	*Roof Insulation Board*	*Interior Boards*	*Sheathing Boards*
*Min. transverse load at rupture, each direction pounds per sq. in.**	*14*	*14*	*7*	*10*	*14*

Deflection, inch, max. ...	*0.85*	*0.85*	*1.25*	*1.00*	*0.75*
*Min. tensile strength, pounds per sq. in.****	*175*	*175*	*100*	*150*	*175*
Water absorption, percent	*5*	*5*	*10*	*10*	*5*
Moisture permeability, time of penetration through the board, not less than, hours	..	..	..	..	*20*
Max. linear expansion, percent	½	½	½	½	½
Nail holding strength lb...	*100*	*70*	*60*	*60*	*100*
Bond strength per sq. ft. of bonded surface	..	700	..	..	..

* *This requirement is based on specimens ½ inch thick. For specimens of other thicknesses, the requirement shall be increased in direct proportion, that is, for a thickness of 1 inch, it shall be doubled, etc.*

** *This requirement is based on specimens ½ inch thick. For specimens of other thicknesses, the requirement shall be decreased in inverse proportion, that is, for a thickness of 1 inch, it shall be halved, etc.*

*** *Tensile strength requirements shall be applicable only on thicknesses up to and including 1 inch.*

1.5 EDGE FINISH

1.5.1 Building board edges shall be square.

1.5.2 Plaster base fibre boards shall have short edges square or fabricated and long edges specially fabricated.

1.5.3 ½" roof insulation shall be square edged. For thickness of 1 inch and over, edges shall be square unless offset is specified. When offset material is specified, the amount of the offset shall be 1 inch.

1.5.4 Interior board edges shall be either square, or specially fabricated.

1.5.5 Sheathing board edges shall be either square or specially fabricated as required.

Rule 2. Uses and Methods of Applying Fibre Board.

2.1 PLASTER BASE.

Fibre board may be used as a plaster base or wall board in non-fireproof commercial structures not more than 2 stories in height and in one and two family dwellings not exceeding three stories in height and in Class 3 multiple dwellings for partitions and ceilings where either no fire resistive rating is required or where a fire resistive rating not exceeding ½ hour is permitted and installed in accordance with the requirements of C-26-458, Administrative *Building* Code [(8.4.10.2) and C-26-462.0, Administrative *Building* Code (8.4.10.6)].

The joints on walls and ceilings shall be broken at least one stud apart, and in no event shall joints of fibre board lath be in vertical line, excepting in the corners of a room. The joints shall be broken at every other board on the walls and at right angles to the furring on ceiling. [C-26-462.0, Administrative Code (8.4.10.6).]. [They] *Each length* shall be solidly nailed at every bearing not more than 6" center to center for walls and 4" center to center for ceilings and nailed to all studding with 1⅛" No. 13 gauge blued or galvanized plaster board nails, with ⅜" heads for ½" board and 1¾" nails with ⅜" heads for ¾" or 1" board, and with proportionately longer nails for thicker fibre board. *No nail shall be driven closer than ¼ inch of the edge of fibre board.* All corners shall be reinforced with standard metal corner beads. All re-entrant angles shall be reinforced with standard metal angle lath strip. Reinforcement shall be securely stapled on the lath. At the juncture of frame and masonry construction, 6" strip of expanded metal lath shall be used. [No board shall be run through from room to room.]

2.1.1 Fibre board when used as a plaster base shall comply with the requirements of the Administrative Building Code as follows:

C26-458.0. Combustible lath.—a. It shall be unlawful, in the case of structures exceeding three stories in height, to apply combustible lath on wood studs more than two stories in advance of the scratch coat plastering.

b. It shall be unlawful to run combustible lath through from room to room.

[2.1.1] C26-462.0. It shall be unlawful to wet fibre board before plastering. [C26-462.0, Administrative Code (8.4.10.6).]

2.1.2 "SCRATCH OR FIRST COAT."

The scratch coat shall contain not more than ⅔ by weight of sand and ⅓ calcined gypsum plaster with fibres or including other materials and fibring so that the setting time shall not be greater than four hours nor less than 1½ hours and with a tensile strength of not less than 75 pounds per sq. in. The scratch coat shall be not less than ¼" thick.

2.1.3 "BROWN OR SECOND COAT."

The brown coat shall contain not more than ¾ by weight of sand and the remaining ¼ shall not contain less than 3/5 of calcined gypsum and not more than 2/5 of other materials, including fibring. The setting time shall be not more than five hours nor less than two. This brown coat shall have a tensile strength of not less than 50 pounds per sq. in. and shall be not less than 3/16" in thickness.

2.1.4 "FINISH COAT."

The finish coat shall be applied after the application of the second or brown coat has become dry, and shall be set in not less than 20 minutes nor more than four hours and shall have a tensile strength of not less than 200 pounds per sq. in. and be not less than 1/16" thick.

2.1.5 "GROUNDS."

Suitable grounds shall be established with each thickness of fibre board so as to insure a minimum thickness of ½" plaster. Fibre board shall extend from floor to ceiling with grounds secured to the framing members through the fibre board.

2.2 FIBRE BOARD SHEATHING.

Fibre board when used as a sheathing material shall comply with the requirements of the Administrative Building Code as follows:

C26-538.0b. Approved fibre board sheathing at least one half of an inch in thickness and four feet in width may be used instead of wood sheathing when bearing on four studs and fastened to each bearing with nails spaced six inches or less apart, except that where necessary for fitting around openings and similar purposes, the dimension of each board used for such purpose shall be the maximum possible if such board is less than four feet in width.

When fibre board is ½" thick the nails used shall be 1½" long with ⅜" head and when the fibre board is ¾" or 1" the nails used shall be 2" long with ⅜"

head. Nails shall be driven not closer than ¼ inch of the edge of the sheathing board.
[Approved fibre board sheathing at least one-half of an inch in thickness and four feet in width and in full lengths where possible may be used instead of wood sheathing when bearing on 4 studs and fastened to each bearing with 1½" wire nails, 6" or less c-c, with ⅜" head, and for ¾" or 1" board, the nails shall be 2" long. See C26-538.0, sub. b.] When using fibre board in widths of 2 ft. in addition to the requirements of C-26-538.0b, supplemental bracing of the framework of the wood frame structure shall be provided by means of let-in diagonal braces of 1" x 4"'s sound and free from knots at all external corners in the outside face of the studs at approximately 45° and crossing at least three studs, or supplemental bracing may be by a series of 2" by 4" struts diagonally cut and placed between the studs at an angle of 45° with the horizontal and extending from sill to plate wherever possible. All braces shall be securely nailed to each stud and to sill and plate. Where openings occur near the corners, 1" x 4"'s let-in knee braces in the face of the studs shall be installed above and below the openings at approximately 45°, extending across not less than 3 studs. When used over doorways and under windows, vertical and horizontal 2" x 4"'s shall be provided to afford nailing bases along all edges. Equivalent bracing of steel may be substituted for the required wood bracing. The use of fibre board as roof sheathing is not permitted except as insulation over *approved* sheathing material.

2.3 ASBESTOS CEMENT COVERED FIBRE BOARD. Fibre board protected with at least ⅛" asbestos cement and secured to the fibre board may be used as a siding material in Class 4 and Class 5 construction and as an interior partition material in places where no fire resistive rating is required and when approved by the Board.

[2.3 MINOR FRAME STRUCTURE.
Approved fibre board siding may be used on wood frame sheds erected where permitted and where open on at least one side, provided such sheds are fifteen feet or less in height and do not exceed 2500 square feet in area and are at least 4 feet from any lot line and are covered on sides and roof with approved fire-retarding material. C26-541.0 (8.7.2.6.1).]

[2.4 USE OF FIBRE BOARD WHEN COVERED BY AN INCOMBUSTIBLE WEARING SURFACE. Untreated combustible insulation board of a single layer or thickness not to exceed ½" when cemented or attached directly to the surface of an approved type of fire-resistive floor construction may be used elsewhere than in stair enclosure and corridors when covered by an incombustible wearing surface, in accordance with these rules. C26-667.0, sub. 4c (10.9.2.4).]

[2.5 ROOF AND FLOOR INSTALLATION IN CLASS 1 AND CLASS 2 STRUCTURES.
Fibre board used as insulation may be applied directly to the fire-resistive floor or roof construction in cement, provided such insulation is covered by at least one and one-half inch thickness of Portland Cement concrete or other equally fire-resistive material of equal thickness. C26-619.0, sub. a, Administrative Code (10.3.1).]

3.0 USES OF FIBRE BOARD AS WALL AND CEILING COVERING. MATERIAL SUPPLEMENTING THE REQUIREMENTS OF THE ADMINISTRATIVE BUILDING CODE.

3.1 CLASS 1 AND CLASS 2 CONSTRUCTION.
In elsewhere than stair enclosures, public hallways and public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner, fibreboard may be used as an acoustical material in ceilings only of spaces not exceeding 2,000 sq. ft. in area and when such spaces are separated from the remainder of the floor area by fireproof partitions and fireproof doors. Fibreboard, when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the strips shall be of fireproofed wood meeting the requirements of C26-331.0 or of approved incombustible materials and the spaces in between the furring strips and the fibre board shall be densely filled with approved incombustible material. Fibre board shall not be applied to side and soffits of beams. When fibre board is used on a suspended ceiling system, all hangers, purlins and cross furring shall comply with C26-461.0 and the fibre board shall be applied directly to a plastered ceiling on approved lath or over a base of approved incombustible board at least ⅜" thick with all joints adequately sealed with gypsum plaster.

3.2 CLASS 3 CONSTRUCTION.
In elsewhere than stair enclosures, public hallways, public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner, fibreboard may be used as a decorative, thermal or acoustical material without restriction except that in places of assembly (C26-116.0) fibreboard may be used in areas not exceeding 3,000 sq. ft. but not more than 50% of the area of any floor provided the ceiling construction meets the requirements of C26-669.0 and the walls surrounding the space and opening protective assemblies therein shall be fireproof. Fibreboard when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the spaces in between the fibre board and the furring strips shall be densely filled with incombustible material.

3.3 CLASS 4 CONSTRUCTION.
The use of fibreboard as a decorative, thermal or acoustical material shall be permitted without restriction except when specifically prohibited by the Administrative Building Code or the Board's rules. When fibreboard is used as exterior sheathing, it shall be protected from the elements.

3.4 CLASS 5 CONSTRUCTION.
The use of fibreboard as a decorative, thermal or acoustical material shall not be permitted except within spaces not exceeding 2,000 sq. ft. in area, in elsewhere than stair enclosures, public hallways, public spaces, kitchens or cooking spaces and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner when separated from the rest of the floor space by fireproof partitions and opening protective assemblies. Fibreboard when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the spaces in between the fibre board and the furring strips shall be densely filled with incombustible material. Fibreboard may be used as an interior insulation material when protected by at least ⅜" of plaster or of approved incombustible board of similar thickness and the joints filled or covered with incombustible batten strips.

3.5 CLASS 6 CONSTRUCTION.

In elsewhere than stair enclosures, public hallways and public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner the use of fibreboard as a decorative, thermal or acoustical material may be permitted in spaces not exceeding 2,000 sq. ft. in area when separated from the remainder of the floor space by fireproof partitions and opening protective assemblies. Fibreboard when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the spaces in between the fibre board and the furring strips shall be densely filled with incombustible material.

3.6 LABOR LAW.

The use of fibreboard as a decorative, thermal and acoustical material shall be prohibited except within spaces designated as non-manufacturing area and only when separated from the rest of the floor space by fireproof partitions and opening protective assemblies, except that in factories four stories or less in height, fibreboard may be used elsewhere than stair enclosures and public hallways and public spaces as permitted under the Labor Law.

3.7 MULTIPLE DWELLING LAW.

The use of fibreboard shall be prohibited in kitchens and cooking spaces in class 3 construction elsewhere than in stair enclosures, public hallways and public spaces, except as a plaster base, when the area of floor partitions shall not exceed 15% of the entire partition area of any floor. Fibreboard may be used on the top floor ceiling as a plaster base without restriction as to area.

In old law tenements and converted dwellings the use of fibreboard as a decorative, thermal and acoustical material may be permitted elsewhere than in stair enclosures, public hallways, public spaces, kitchens, cooking spaces and in cellars.

2.4 ROOF STRUCTURES AND ROOFING

C26-619.0 FORM AND FIRE RESISTIVE RATINGS OF FLOOR AND ROOF CONSTRUCTION.—a. Floor and roof construction between supporting beams in class 1, fireproof structures, shall consist of arches or slabs of incombustible material or assemblies and shall either by itself or in combination with its protective ceiling have a fire resistive rating of at least three hours, except as specifically provided otherwise. Nothing in this section shall prevent the application of cork or fibre insulation board or other combustible insulation material applied directly to the fire resistive floor or roof construction in cement, provided that in the case of floor construction such insulation is covered by at least one and one-half inch thickness of portland cement concrete or other equally fire resistive material of equal thickness. Similar floor and roof construction in class 2, fire-protected structures, shall either by itself or in combination with its protective ceiling have a fire resistive rating of at least one and one-half hours, except as otherwise specifically provided.

2.4.1 Insulation fibre board so applied shall be over a screeded concrete roof or floor, graded where necessary, and cemented to the arch with hot asphalt or coal tar pitch. Fibre insulation board shall not be left exposed to the elements, nor shall it be applied to wet surfaces of any kind.

[2.6 ROOF INSULATION OTHER THAN IN CLASS 1 AND CLASS 2 STRUCTURES.

The use of fibre board as roof insulation is lawful, provided such fibre board is covered with an approved type of fire-resistive roof covering applied directly thereto, C26-680, sub. 2, Administrative Code (10.12.11.1), and when installed in accordance with the requirements of 2.2 of these rules.]

[2.7 USE OF FIBRE BOARD IN FIRE WALLS. (Formerly Rule 2.8)

Fibre board may be used as insulation in fire walls C26-632.0 sub. g AC (10.4.1.2) if cemented and attached directly to the face of the wall laid up with no intervening air spaces and protected with not less than 2 in. of secured masonry laid tight against the fibre board.]

C26-680.0 ROOFING.—a. Materials for roofing.—

1. Roofing placed on any structure shall meet the requirements of section C26-605.0, except as provided in section C26-539.0, and subdivision b of section C26-680.0.

2. The use of cork or fibre board as roof insulation is lawful provided such cork or fibre board is covered with an approved type of fire resistive roof covering applied directly thereto.

2.5 ADDITIONAL ADMINISTRATIVE BUILDING CODE REQUIREMENTS PERTAINING TO THE USE OF FIBRE BOARD ARE AS FOLLOWS:

C26-541.0 MINOR WOOD FRAME STRUCTURES.—a. Wood frame sheds.—Wood frame sheds, open on at least one side, may be erected of wood or with approved fibre board siding, throughout the city, but such sheds shall be fifteen feet or less in heigbt, shall cover twenty-five hundred square feet or less, shall be placed at least four feet from any lot line, and shall be covered on the sides and roof with approved fire retarding material.

b. Wood frame outhouses.—Wooden outhouses used exclusively for domestic purposes may be constructed throughout the city to a wall height of eight feet, and may be one hundred fifty square feet in area, provided the roofs are covered with approved fire retarding materials and the walls are located at least three feet from the lot line.

c. Wood frame builders' shanties.—One story structures for the use of builders in connection with any building operation for which a permit has been issued, may be constructed of wood, or may be sheathed with approved fibre board, and placed on the lot where such building operation is carried on in any part of the city, or on adjoining lots if such structures do not interfere with the safe occupancy of any structures thereon, or on the sheds provided over the sidewalks in front of such building operation.

d. Wooden fences.—Wooden fences may be erected throughout the city to a maximum height of ten feet.

C26-667.0 PERMITTED USES OF WOOD OR OTHER COMBUSTIBLE MATERIALS IN CLASS 1, FIREPROOF STRUCTURES, AND CLASS 2, FIRE-PROTECTED STRUCTURES.—

4. Wearing surfaces.—

(c). Untreated combustible insulation board in a single layer not to exceed one-half of an inch in thickness, when cemented or attached directly to the surface of an approved type of fire resistive floor construction, may be used elsewhere than in stair enclosures and corridors when covered by an incombustible wearing surface in accordance with the rules of the board.

2.5.1 Except as provided in Section C26-619.0 wearing surface when installed over fibre board shall be of approved incombustible material bonded and sealed in accordance with the terms of the Board's approval of the wearing surface material.

C26-631.0 CONSTRUCTION OF FIRE WALLS

g. The application of cork or fibre insulation board may be permitted if cemented or attached directly to the face of the wall laid up with no intervening air spaces and protected as required by the rules of the board.

2.5.2 When used on fire walls, fibre board shall be protected by at least 3/8" of plaster or approved incombustible material of similar thickness with joints filled or covered by incombustible batten strips.

GROUP 2—FIRE PARTITIONS

C26-633.0 MATERIALS FOR FIRE PARTITIONS.

b. Where combustible insulation board is permitted, it shall be applied directly to the face of the partition by cement or other approved method, but in no case shall it be built into the required partition construction.

PUBLIC HEARING

PROPOSED RULES ON EXTERIOR VENEERING MATERIALS

(465-44-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday morning, June 8, 1945, at 10 a.m., Room 1013, Municipal Building, Manhattan, on Proposed Rules on Exterior Veneering Materials.

AUTHORITY:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, Paragraph 2, Charter of the City of New York and C26-189.0 of the Administrative Building Code, these rules are to supplement the existing requirements of the Administrative Building Code, Sections C26-437.0, C26-438.0, C26-439.0, C26-544.0 through C26-550.0, C26-544.0 and C26-550.1 j.

SCOPE:

These rules are supplementary and additional to the requirements pertaining to thin not exceeding 2" exterior veneering materials so as to provide for the sufficiency of attaching and anchoring mediums on such exterior veneers in accordance with the intent of the Administrative Building Code as outlined in Section C26-3.0. They shall apply to veneering materials of metal, cement-asbestos, precast or natural stone, ceramic, tile, concrete masonry units, glass sheets, glass block, plastic materials and other veneering materials, as may be approved by the Board. Note: These rules shall not apply to interior veneering materials.

Extracts from the Administrative Building Code contained herein in small type have been assigned decimal rule numbers for convenient reference only and are not to be construed as rules.

Rule 1.0 General.

1.1 These rules shall apply to all materials used as exterior veneers of a thickness not exceeding two inches, bonded or unbonded, and with or without air spaces between the veneer and the supporting surface.

1.2 Veneer materials shall not be credited with contributing to the total wall thickness, the stress resisting sections, or to the fire resistive value of the composite construction unless specifically approved by the Board for any given combination of materials.

1.3 Veneer materials shall not be used to support vertical loads other than the veneering material above unless permitted otherwise as provided for in Rule 1.3. Where openings occur the veneer shall be supported by substantial lintels of incombustible materials.

1.4 All joints between masonry veneer materials shall be filled flush with mortar or approved mastic cement. Around wall openings the joints between the veneer and backing material shall be filled flush with similar materials. Gypsum shall not be used in veneer exposed to the weather.

1.5 All metal reinforcements, bolts, clips, tie wires and supports shall be of non-corroding metal and of a type and for uses as may be approved by the Board.

1.6 Veneering material shall not be placed over existing veneering material.

1.7 Veneering when placed on a structure shall not encroach beyond the building line.

1.8 Before attaching veneering materials to any surface, the soundness of structural members shall be examined by exposing the structural members and when found necessary, reinforcement or replacement of structural members shall be made to the satisfaction of the borough superintendent.

1.9 Signs shall be so hung that their weight shall not bear on the veneering material and shall be supported by grounds set in the supporting wall.

Rule 2.0 Metal Veneers.

2.1 Metal veneers shall be of non-ferrous materials or of steel sheets protected on all sides by porcelain enamel or other approved corrosion resistant surfacing.

2.2 Metal veneers shall be securely attached to the supporting construction with approved non-corroding metal hangers, clips, ties, screws, or bolts, secured to the metal veneer in a manner approved by the Board for each specific veneering material, and spaced not more than 16 o.c. vertically and 24 inch o.c. horizontally. Veneer units exceeding 4 sq. ft. in area shall be attached to the construction at not less than four points, so distributed as to render adequate attachment to the supporting construction.

2.3 Where allowed to be used all corrosive supports for metal veneers shall be adequately protected from the effects of the elements by painting with approved paint, galvanizing or other equivalent means. Where the use of wood is permissible all wood used with metal veneers shall be impregnated with creosote or other approved preservative material.

2.4 The joints and edges of all metal veneers shall be caulked or painted with approved waterproofing materials or other approved equivalent methods of providing resistance against moisture penetration.

2.5 The height of walls veneered with metal units on walls other than panel or enclosure walls shall be not more than 40 ft. above the foundations.

Rule 3.0 Precast or Natural Stone, Ceramic and Porcelain, Tile, Terra Cotta and Precast Concrete Units.

3.1 C26-157.0 Veneered Wall.—The term "veneered wall" shall mean a wall with a masonry facing which is attached to, but not bonded so as to form an integral part of, the wall for purposes of load bearing and stability.

3.2 C26-437.0 Anchorage for veneered masonry walls.—When masonry walls are veneered with brick, architectural terra cotta, stone or other masonry, the material shall be securely tied into the backing with the equivalent of the following minimum anchorage requirements:

1. For anchorage of brick veneering on masonry, one substantial non-corroding metal wall tie for each three hundred square inches of wall surface.
2. For anchorage of architectural terra cotta and other moulded units on masonry, one non-corroding metal anchor at least equal to five-sixteenths of an inch round or one-eighth of an inch by three-quarters of an inch flat in sectional area to each piece and two or more such anchors to all pieces over 18 inches in length or more than three hundred square inches in superficial area, except where such architectural terra cotta facing is bonded and completely filled with the brick backing.
3. For anchorage of stone veneering on masonry, one non-corroding anchor at least three-sixteenths of an inch by one inch flat, or its equivalent in cross sectional area, to each piece over one-half of a square foot in face area and at least two anchors to all pieces over 24 inches in length or more than four hundred square inches in superficial area.

3.3 C26-438.0 Thickness and height of veneered walls.—In all cases the veneering shall be excluded in calculating the bearing wall thickness and the required thickness of the wall. The maximum height of veneering on walls, other than panel or enclosure walls, shall be forty feet above the foundations.

3.4 C26-439.0 Veneered wood frame structures.—a. Wood frame structures may be veneered with masonry laid up in cement or cement-lime mortar. Such veneer

shall be anchored to the frame by non-corroding metal ties equivalent to the following minimum requirements:

1. For anchorage of brick veneer on frame structures, one wall tie to every 160 square inches of wall area.
2. For anchorage of stone, architectural terra cotta and other moulded units on frame structures, one spike anchor or two wall ties to every two hundred sixty square inches of wall area.

b. It shall be unlawful to use such veneer on frame structures above a maximum height of 35 ft. above the foundation; it shall be unlawful also, to use such veneer on structures having more than two stories and a gable. The veneer shall be directly supported on the foundation.

c. Frame structures veneered with masonry shall be considered to be in a different class from masonry structures. It shall be unlawful to attribute any structural strength to the veneer.

3.5 Veneer units in this group shall be of approved type and not be greater than 2 in. in thickness. The surface bond of veneer units with the scored parging shall be adequately scored or provided with equivalent keys to obtain adequate anchorage. In addition to the attachment herein required, the anchorage requirements of C26-437.0 shall be complied with. Equivalent substitute methods of anchorage consisting of non-corroding pin and rosette or a continuous angle or anchor bolts secured to the reinforcement within the veneer may be used when approved by the Board for any specific veneering material.

3.6 The parging material in which veneer units are embedded shall consist of a portland cement mortar of 1:2 mix, 1 part of approved portland cement to two parts of screened sand passing through a 20 mesh screen not less than ¾ in. thick and reinforced with 4 in. mesh galvanized wire reinforcement. Such reinforcement to be secured to the masonry or concrete wall with approved non-corroding anchors at the rate prescribed in C26-437.0. When the supporting wall is of wood framework, approved paper backed wire lath or other approved material may be used when attached to the wood framework as provided in C26-459.0h, provided the weight of the veneering materials is carried on an incombustible base. The parged surface shall be troweled to a plane surface and then scratched to receive the setting bed. The setting bed of not less ⅜" thick shall not be applied until the scratched parged surface is set. Prior to parging masonry on concrete surfaces, such walls shall be thoroughly wetted prior to the application of the parging mortar.

3.7 Waterproofing material if used in mortar shall be of approved type.

3.8 Veneer units in this group shall be not greater than 144 sq. in. in area.

3.9 The base for supporting veneers shall be of suitable incombustible materials.

3.10 All veneer units used in Class 1, 2 and 3 buildings exceeding 20 ft. in height, regardless of thickness, shall be attached to the scored parged surface by mechanical anchorage as provided in C26-437.0, pars. 1, 2, 3 and shall have lugs, keys or equivalent scoring of the backside of the veneer unit.

Rule 4.0 Glass Veneer on the exterior of structures may be used only in accordance with the provisions of this title and the rule of the Board.

4.1 C26-545.0 Minimum thickness.—The minimum thickness of glass veneer shall be eleven-thirty-seconds of an inch, except where glass veneer extends within 4 in. or less of the sidewalk level, the minimum thickness of that portion of the veneer below a level of four inches above the sidewalk at its point of intersection with the veneer shall be seven-sixteenths of an inch.

4.2 C26-546.0 Maximum area and dimensions.—a. The maximum area of a single section of glass veneer shall not exceed 10 sq. ft. in area when 15 ft. or less above the level of the sidewalk directly below and shall not exceed 6 sq. ft. in area when more than 15 ft. above the level of the sidewalk directly below.

b. The maximum length of any section of glass veneer shall be 60 in.

4.3 C26-547.0 Edges.—All edges of each plate of glass veneer shall be ground square. It shall be unlawful to use mitred joints.

4.4 C26-548.0 Backing for glass veneer.—Glass veneer may be placed only against substantial, rigid, incombustible surfaces of true plane, plumb and straight. The backing shall in any case provide rigidity and stability equal to or greater than that provided by one-inch thick cement mortar on wire lath secured to studs spaced 12 in. or less on centers. It shall be unlawful to use wood backing surfaces, regardless of whether they are fireproofed.

4.5 C26-549.0 Setting of glass veneer.—a. Glass veneer shall be set only when the backing is thoroughly dry and after the application of a thorough and uniform bond coat of material approved by the board. The bond coat shall be such as to effectively seal the portions of the veneer backing and to insure against the absorption of the vital properties of the mastic cement.

b. Mastic cement approved by the board shall be applied to the back surface of each plate of the glass veneer, which veneer shall be applied to the backing with a substantial and uniform pressure over its entire area sufficient to flatten out the gobs of mastic cement to a thickness of between one-quarter of an inch and five-eighths of an inch. Sufficient mastic cement shall be applied to insure that at least 60% of the total area of the section is bonded to the backing.

c. The bond coat and the mastic cement shall be of one manufacture and shall be certified to be of such composition as to insure close affinity between the two materials.

d. Abutting edges of glass veneer shall be ground square and uniformly buttered with an approved pointing compound.

e. Where glass veneer extends to the sidewalk surface each such section shall rest on two cushions of approved resilient material, one near the end of each such section or plate. Cushions shall be one-quarter of an inch or more in thickness. The joint between the bottom edge of the glass section and the top of the sidewalk shall be caulked with a waterproof compound.

f. Where the glass veneer is permitted to extend below the level of the sidewalk surface, an expansion joint of one-quarter of an inch or more shall be provided between the outer face of the glass veneer and the edge of the sidewalk. Such expansion joint space shall be filled with a resilient caulking compound from the level of the sidewalk surface to a depth at least ¾ of an inch below such level.

g. Where glass veneer is applied at an elevation more than eight feet above the sidewalk surface, the mastic cement binding shall be supplemented by the use of metal clip angles of a design approved by the Board. Clips shall be located in each vertical or horizontal edge of each section of veneer and shall be secured through the backing directly into the wall behind by means of expansion bolts and in a manner satisfactory to the superintendent. Angle clips shall be two inches or more in length and shall be of at least No. 16 U. S. gauge, and shall be so designed as to furnish at least two-inch bearing support on each clip and shall hold the glass in a vertical plane independently of the mastic cement.

h. All horizontal joints shall be cushioned with pads of adhesive asphaltic tape which shall extend from the rear surface of the glass to one-eighth of an inch or less from the front surface. Horizontal joints shall be buttered with joint cement over the full depth of the joint, including the surface of the cushion tape.

i. Shelf angles of approved design shall be set at vertical intervals of 3 ft. or less, in all horizontal joints located 8 ft. or less above the sidewalk, except that, where there are show windows it shall be unnecessary to have shelf angles below the level of the tops of the show window bulkheads. Shelf angles shall be of a type approved by the board and shall be secured to the backing in a manner satisfactory to the superintendent.

j. Where glass veneer is confined between non-resilient materials at ends, expansion shall be provided for by means of an expansion joint at each end of one-quarter of an inch or more throughout the entire height of the veneer.

4.5.1 Clips required under C26-549.0, sub-section g shall be non-corroding and located in each vertical plane in horizontal edge of each section of veneer and shall be thoroughly secured

through the backing by means of non-corroding toggle bolts or into the wall directly behind the glass veneer by means of non-corrodible expansion bolts at least 1¼" long.

4.5.2 Shelf angles required under C26-549.0, subsection i shall be of non-corroding metal of a type approved by the board and shall be thoroughly secured through the backing by means of non-corroding toggle bolts or into the wall directly behind the glass veneer by means of non-corroding expansion bolts at least 1¼" long.

4.5.3 Glass veneer units shall be separated from each other and adjoining material by an expansion joint at least 1/32" wide. Between the bolts and the veneer units there shall be a clearance of 1/64". All expansion joints shall be filled with an approved waterproofing mastic compound.

4.5.4 Glass veneer material shall not be used above a point higher than 22 ft. above the foundation of the structure.

4.5.5 Exposed edges of glass veneer shall be flashed with non-corrodible sheet metal and caulked with an approved waterproofing mastic compound.

4.5.6 All awning brackets shall be set so as to be free of contact with the glass veneer. Glass veneer above awning boxes shall be carried by a continuous steel angle attached to the wall by anchors.

4.5.7 Signs shall be hung clear of the glass veneering material.

4.6 Glass Blocks.

4.6.1 C26-550.1.
j. Veneer or ashlar: Glass blocks may be used as exterior wall veneer under the rules of the Board.

Note: Investigation has shown that glass block is not used as a veneer material in building construction and when uses of glass block are developed as veneer, the Board will then consider including in these rules the safe provisions for use.

Fire Drill Rules, Adopted By the Board of Standards and Appeals, October 5, 1923

(593-23-SR)

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 thereof and in any other building in which such drills are required by the Fire Commissioner pursuant to the power conferred in section 491 of the New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

RULES

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE AND FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET-ALARM-BOX-RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously.

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT, who supervises the FIRE DRILL at the building shall submit to an examination by the Division of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

The Hearing Calendar.

Continuation of Minutes of Regular Meeting, May 8, 1945, at 2 P. M., Affecting Calendar Numbers 71-35-BZ and 473-44-BZ.

Minutes of Regular Meeting, May 15, 1945, at 10 A. M., Affecting Calendar Numbers 330-29-BZ, 531-37-BZ, 753-44-BZ, 136-45-BZ, 690-44-A, 238-45-A, 266-45-A and 287-43-SA.

Minutes of Regular Meeting, May 15, 1945, at 2 P. M., Affecting Calendar Numbers 220-45-A, 258-45-A, 278-45-A, 227-44-A, 80-44-A, 739-44-A, 745-44-A, 647-44-A, 246-45-A, 137-26-BZ, 153-36-BZ, 84-37-BZ, 411-37-BZ, 902-38-BZ, 289-40-BZ, 644-41-BZ, 1004-41-BZ, 523-44-BZ, 123-45-BZ, 328-42-BZ and 236-39-SM.

Correction Affecting Calendar Number 533-42-BZ.

Notice of a Public Hearing on Proposed Amendments to Rules for Inspection of Opening Protective Assemblies.

Notice of a Public Hearing on Proposed Amendments to Rules on Uses of Insulating Fibre Board.

Notice of a Public Hearing on Rules on Exterior Veneering Materials.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to May 15, 1945.

Cal. No. *Dept.* *Premises Affected.*

267-45-SA—Standard 3 Circuit Indirect Fuel Oil Heating System, Appliance.

268-45-A—F.D.—372-378 Gates avenue, south side, 125 ft. west of Nostrand avenue (Block 1812, part of Lot 42), Borough of Brooklyn, 14402-LF and Decision.

269-45-A—F.D.—380-390 Gates avenue and 390-398 Nostrand avenue, southwest corner (Block 1812, part of Lot 42), Borough of Brooklyn, 14401-LF and Decision.

270-45-A—F.D.—534-552 11th avenue, east side, from West 41st to West 42nd streets, 553-555 West 41st street and 560-566 West 42nd street (1st floor); (Block 1070, Lot 1), Borough of Manhattan, 40781-LC and Decision.

271-45-SM—Lone Star Masonry Cement, manufactured by Lone Star Cement Corp., Material.

272-45-A—H.B.Bx.—814-838 Westchester avenue and 793-809 Prospect avenue, southwest corner (1st floor); (Block 2676, Lot 49), Borough of The Bronx, Amendment to Alt. 158-45.

273-45-A—F.D.—255-257 Wallabout street, north side, 150 ft. west of Harrison avenue (1st floor); (Block 2239, Lots 42 and 43), Borough of Brooklyn, 99394-LC.

274-45-BZ—H.B.Q.—65-02 to 65-42 79th street (65-02 to 65-44 displayed) and 78-12 to 78-20 Furmanville avenue, southwest corner (Block 3040, Lot 2), Middle Village, Borough of Queens, Alt. 643-45.

275-45-BZ—H.B.B.—125-135 Kings Highway and 1635-1643 Stillwell avenue, northeast corner (Block 6618, Lot 27), Borough of Brooklyn, Alt. 277-45.

276-45-A—F.D.—454-468 18th street, south side, 200 ft. east of 8th avenue and 445-455 19th street (Block 882, Lot 17), Borough of Brooklyn, Decision.

277-45-A—H.B.B.—48-66 Forrest street, southwest corner of Evergreen avenue and southeast corner of Stanwix street (Block 3146, Lot 1), Borough of Brooklyn, Alt. 1314-45.

278-45-A—H.B.Q.—135-25 Northern boulevard, north side, 212 ft. 3 in. west of Farrington street (Block 4958, Lots 55 and 18), Flushing, Borough of Queens, Alt. 360-45.

279-45-A—H.B.B.—2956 Brighton 5th street, west side, 120 ft. north of Ocean View avenue (Block 7284, Lot 472), Borough of Brooklyn, N.B. 110-45.

280-45-A—H.B.B.—190-200 Diamond street and 264-272 Calyer street, southeast corner (Block 2602, Lots 8 and 12), Borough of Brooklyn, Alt. 271-45.

281-45-A—H.B.Bx.—608 East 133rd street, south side, 328.56 ft. east of St. Anns avenue and 605 East 132nd street (Block 2546, Lots 23 and 24), Borough of The Bronx, Amendment to Alt. 559-44.

282-45-A—H.B.Bx.—1141 East 156th street, northeast corner of Barry street (1st floor); (Block 2736, Lots 123 and 189), Borough of The Bronx, N.B. 23-45.

283-45-A—H.B.Q.—184-10 Jamaica avenue, south side, 429.71 ft. east of 183rd street (4th floor, Building 1); (Block 10352, Lots 70 and 71), Jamaica, Borough of Queens, Alt. 628-45.

284-45-BZ—H.B.M.—102 East 40th street, south side, 80 ft. east of Park avenue (Block 895, Lot 1) (89), Borough of Manhattan, Alt. 684-45.

285-45-BZ—H.B.M.—329-335 and 337-341 Stanton street, southwest corner of Mangin street (Block 324, Lots 15 and 21), Borough of Manhattan, Amendments to Alt. 165-44 and Alt. 166-44.

286-45-A—F.D. and H.B.M.—329-335 and 337-341 Stanton street, southwest corner of Mangin street (ground and 2nd floors); (Block 324, Lots 15 and 21), Borough of Manhattan, 40821-LC and Decision and Amendments to Alt. 165-44.

HARRIS H. MURDOCK, *Chairman.*

MAY 22, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, May 22,* 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

78-45-BZ—Application, February 16, 1945, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of The Greater New York Brewery, owner, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory; premises 284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.

60-45-BZ—Application, February 6, 1945, under section 7c of the zoning resolution of Lama & Proskauer, applicants, on behalf of General Linen Supply Co., Inc., owner, to permit in a residence use C area district, the extension and reconstruction of a stable and wagon storage and garage for two commercial cars to a garage for more than five motor vehicles for laundry use and a large boiler room accessory to existing laundry; premises 449-453 and 467-473 Prospect avenue, north side, 151 ft. 2 in. west of Prospect Park West (Block 1113, Lots 62, 73, 74 and 75), Borough of Brooklyn.

330-29-BZ—Application of Lama and Proskauer, applicants, on behalf of Hannah Harmon, owner, reopened January 23, 1945, under section 7f of the zoning resolution, to permit in a business and residence use district, the continued use of a gasoline service station beyond the temporary period granted by the Board of Standards and Appeals, under Cal. 330-29-BZ, Vol. I; premises 70-58 to 70-66 Kissena boulevard and 153-08 to 153-18 Vleigh (70th) road, southwest corner (Block 6697; Lot 1), Flushing, Borough of Queens.

95-45-BZ—Application, February 23, 1945, under sections 7c and 21 of the zoning resolution of Lama and Proskauer, applicants, on behalf of Marie Atherton, owner, to permit in a business use C area district, the alteration and extension of an existing garage for more than five motor vehicles and gasoline service station, the building as extended being in excess of the area permitted by the zoning resolution; premises 87-24 to 87-30 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens.

188-45-BZ—Application, April 2, 1945, under section 7c of the zoning resolution, of Kitzler and Nurick, applicants, on behalf of Dora Tatarsky, owner, to permit in a residence use district, the change of occupancy of an existing building from garage for ten motor trucks to garage for five motor vehicles and manufacturing of lamp bases; premises 170-172 Van Siclen avenue, west side, 102 ft. 10 in. south of Atlantic avenue (Block 3961, Lot 18), Borough of Brooklyn.

Appeals from Administrative Decisions

107-45-A—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.

697-44-A—355 West 26th street, north side, 120 ft. east of 9th avenue (1st floor); (Block 750, Lot 9), Borough of Manhattan.

8-45-A—20-22 West 39th street, south side, 303 ft. west of 5th avenue (2nd floor); (Block 840, Lot 60), Borough of Manhattan.

44-45-A—203A Nassau avenue, north side, 25 ft. west of Russell street (1st floor); (Block 2654, Lot 30), Borough of Brooklyn.

235-45-A—311-333 West 49th street, north side, 124 ft. 9⅝ in. west of 8th avenue and 308-348 West 50th street (2nd floor); (Block 1040, Lot 14), Borough of Manhattan.

251-45-A—33-67 35th street, east side, and east side of 2nd avenue, 1300 ft. 4 in. north of 39th street (5th floor, East Section C, Building 5); (Block 687, Lot 1), Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

MAY 22, 1945, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday afternoon, May 22,* 1945 at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Appeals from Administrative Decisions.

HARRIS H. MURDOCK, *Chairman.*

JUNE 5, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning June* 5, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

46-45-BZ—Application, February 1, 1945, under sections 7c and 21 of the zoning resolution, of Reuben Siskin, applicant and owner, to permit in a business use district, the extension of the factory use in an existing factory building so as to be in excess of the lot area; premises 1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn.

531-37-BZ—Application of Joseph Mosgoffian, applicant and lessee, on behalf of Annie Zins, owner, reopened May 15, 1945, for consideration as to extension of variance—Application, previously granted on condition, under section 7h of the zoning resolution, for a temporary period of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 23-28, 23-30 and 23-32 30th avenue, south side, 91.83 ft. west of Crescent street (Block 572, Lots 37 and 38), Astoria, Borough of Queens.

459-44-BZ—Application, July 21, 1944, under sections 21 and 7c of the zoning resolution, of Arnold W. Lederer, applicant on behalf of Mary L. Richardson, owner, to permit in a business use C area district, manufacturing in excess of the permitted area; premises 1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn.

43-45-BZ—Application, January 31, 1945, under section 21 of the zoning resolution, of Bay Ridge Savings Bank, applicant and owner, to permit in a business use C area district,

CALENDAR

the extension in area of a bank building to cover entire lot and omitting rear yard; premises 4724 13th avenue, northwest corner of 48th street (Block 5628, Lot 42), Borough of Brooklyn.

146-45-BZ—Application, March 13, 1945, under section 7f of the zoning resolution, of James Whitford, applicant, on behalf of Adam V. Bell, owner, to permit in a business use district, the erection and maintenance of a gasoline service station, for a term of years; premises 126 Mansion avenue, south side, foot of McKee avenue (Block 5202, Lots 10 and 13), Great Kills, Borough of Richmond.

585-42-BZ—Application, of Lama and Proskauer, applicants, on behalf of Socony-Vacuum Oil Co., Inc., owner, reopened February 6, 1945, under section 7c of the zoning resolution, to permit in a business use district, the extension in area of an existing gasoline service station and also the erection and maintenance of a building to be used as a laundry and lubritorium (previously withdrawn); premises 4091 Hylan boulevard and 293 Nelson avenue, northeast corner (Block 5158, Lot 37), Great Kills, Borough of Richmond.

772-41-BZ—Application of Arnold W. Lederer, applicant, on behalf of Fay Bloom, William A. Jones, Jennie Mateyko and Joseph Filosa, owners (Square Deal Laundry, Inc., lessee), reopened November 8, 1944, under sections 7c and 21 of the zoning resolution, to permit the extension of an existing laundry building from a local retail into a residence use district, the area of proposed building exceeding that permitted in a C area district; premises 427 Ralph avenue and 1813-1823 Bergen street, northeast corner (Block 1445, Lots 1, 64 to 68, inclusive), Borough of Brooklyn.

162-45-BZ—Application, March 21, 1945, under section 21 of the zoning resolution, of Richard Shutkind, applicant, on behalf of Jack Altman, owner, to permit in a residence use G area district, the erection of a one car garage and shower building, increasing the occupied lot area in excess of 35% and not providing the required 15 ft. rear yard and 5 ft. side yard; premises 228 Beach 148th street (rear), east side, 90 ft. south of Neponsit avenue (Block 753, Lot 42), Rockaway Beach, Borough of Queens.

298-45-BZ—Application, May 17, 1945, under section 21 of the zoning resolution, of S. J. Kessler & Sons, applicants, on behalf of 1523-1529 63rd Street Corp., owner (Air King Products Co., Inc., lessee), to permit in a C area unrestricted use district, the erection of a 3rd story to a building, plans for two stories of which have been approved, the 3rd story exceeding the area of coverage permitted by the zoning resolution; premises 6201-6223 15th avenue. east side, from 62nd to 63rd streets (Block 5530, Lot 1), Borough of Brooklyn.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (753-44-BZ)

WHEREAS, Chester A. Cole, and Maurice G. Uslan, for Emanuel M. Honig, owner, filed December 29, 1944, an application under sections 7e, 7f and 21 of the zoning resolution, to permit in a residence and business-1 use district, and D and E area district, the erection of a building occupying more than the permitted percentage of lot and omitting required yards and court areas; building to be occupied as a garage for more than five motor vehicles, motor vehicle repair shop, show rooms and gasoline service station, affecting premises: 140 Main street, south side, 369.04 ft. west of Craig avenue (Block 8028, Lot 67), Tottenville, Borough of Richmond; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 15, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Main street is in a business-1 use, D area and Class 1½ height district and Butler avenue is in a residence use, E area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated December 13, 1944, re N.B. App. 106-1944 and Misc. App. 265-1944, reads:

"1. Garage for more than five motor vehicles is contrary to Sect. 4a subdiv. 15 Art. II Zone Resolution. Denied.

2. Repair shop for motor vehicles is contrary to Sect. 4a subdiv. 29 Art. II. Zone Resolution.

3. Gasoline service station is contrary to sec. 4a, subdiv. 46, Art. II Zone Resolution.

4. Garage for more than five motor vehicles, repair shop for motor vehicles and gasoline service station showroom and offices in a residential use district is contrary to Sect. 3 Art II. Zone Resolution.

5. Building proposed occupies more than 55% of D district area requirement and 50% of E district area requirement contrary to Art. IV, Sect. 14c and 15c Zone Res.

6. Rear yard and side yard and set back requirements of D and E are not complied with contrary to Art. IV, Sect. 14a and Sect. 15a, b, d. Zone Resolution. Denied."

and

WHEREAS, the applicant states the premises consist of a plot 75 ft. frontage by 204 ft. in depth, now vacant, on which it is proposed to erect a one-story, Class 3 constructed building, 74.5 ft. by 198 ft. in area, to be occupied as a garage for more than five motor vehicles, motor vehicle repair shop, gasoline service station and automobile showrooms; and

WHEREAS, the applicant contends that the owner of the aforementioned property, who has been associated with the automobile industry for the past 20 years, desires to erect a showroom, garage, repair shop and gasoline service station, to meet the demands of a post war clientele; that the property has a frontage of 74.91 ft. on Main street and extends to a depth of 203.96 ft. and is in a business-1 use district for the 100 ft. depth adjacent to Main street; that the balance of the lot is in a residence use district; that the entire block was in an unrestricted use district until April 16, 1938, when it was rezoned to its present use and area; that the proposed one story building will be of modern design and will not deteriorate the surrounding property; that a similar building for like uses is located across the street; that a lot of similar depth, with a frontage of 44 ft. on Main street and located on the same side of the street, is used for parking of cars; that as the proposed garage will also house used cars, it will be necessary to utilize all available area on existing lot; that the building will be only one story in height and no hardships will be created to the adjacent lots; that this application is made under Sections 7e, 7f and 21; the gasoline station will be for a single pump to accommodate cars in connection with the garage and repair shop; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under sections 7i, 7f and 21 of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7f and 21 thereof, to permit the use of the building as proposed, as an automobile show room and garage for more than five motor vehicles, *on condition* that it shall be constructed substantially as proposed, except that the total overall length of the building shall not exceed 150 feet; that it shall not be over one story in height, as proposed; and *granted* under section 7i, to permit motor vehicle repairing limited to the repair of cars sold and dealt in by the proposed agency; that such repair shall be done by hand tools only; that no forge or anvil shall be maintained on the premises; that any openings in the side walls of the entire length shall be filled with glass block, substantially as indicated on side elevation, as approved for use on exterior lot line walls; that any windows installed in the rear wall, shall be fireproof and self-closing; that no cellar shall be constructed under the building, except for boiler room as proposed and shown; that such boiler room shall be separated from the balance of the building by fireproof construction, enterable only from the exterior; that no signs shall be erected on the building, except such signs as are permitted under the zoning resolution for a business district; that no roof sign shall be constructed; that a gasoline storage system may be permitted in the building, as proposed, provided such gasoline is solely for use in cars sold and dealt in by the agency; that any gasoline pump installed shall be located in the front exterior alcove, not nearer than twenty feet from the street building line; that the building shall be primarily used as a showroom for an automobile agency, as proposed; that the balance of the lot unbuilt upon toward the rear, for a depth of approximately 52 feet, shall be graded and maintained unoccupied in a neat condition at all times, and a substantial steel picket or woven wire fence of the anchor post type constructed and maintained along the interior and rear lot lines; that such fence shall be not less than five feet in height; that any door opening, constructed in the rear wall of the building shall not exceed three feet in width; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within one year from the date of this resolution.

136-45-BZ

APPLICANT—Paul Friedman, for William A. White, Jr. as executor and trustee u/w of William A. White, deceased) and Nettie H. White, owners (General Outdoor Advertising Co., Inc., lessee).

SUBJECT—Application (decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a business use district, the erection of an automobile showroom and salesroom and motor vehicle repair shop, incidental to salesroom and showroom only, with driveway entrance more than 25 ft. from Merrick boulevard.

PREMISES AFFECTED—224-01 to 224-09 Merrick boulevard and 133-29 to 133-37 224th street, northeast corner (Block 12963, Lot 308), Laurelton, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (136-45-BZ)

WHEREAS, Paul Friedman, for Nellie A. White and William A. White, Jr. trustees under the will of William A. White, deceased, owners (General Outdoor Advertising Co., Inc., lessee), filed March 9, 1945, an application under section 7i of the zoning resolution, to permit in a business use district, the erection of an automobile showroom and salesroom and motor vehicle repair shop, incidental to salesroom and showroom, only with driveway entrance more than 25 ft. from Merrick boulevard, affecting premises 224-01 to 224-09 Merrick boulevard and 133-29 to 133-37 224th street, northeast corner (Block 12963, Lot 308), Laurelton, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 15, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Merrick boulevard is in a business use, D area and Class 1 height district and that 224th and 225th streets are in a residence and business use, D area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 2, 1945, on N.B. Applic. 51-45, reads:

"1. The construction of a building to be used partly as an automobile repair shop, on a plot located in a business use district, is contrary to Article 2, Sec. 4, Subsec. 29 of the zoning law."

and

WHEREAS, the applicant states the premises consist of a plot, 100 ft. frontage by 100 ft. in depth, now vacant except for billboard signs, on which it is proposed to erect a one story, Class 3 constructed building 61.5 ft. by 85 ft., to be occupied as an automobile showroom and limited repair shop; and

WHEREAS, the applicant contends that the use district maps attached to the zoning resolution show that Merrick boulevard is in a business use district and that 224th street and 225th street are partly in residence use districts and partly in a business use district; that the premises are located wholly within a business use, "D" area, Class 1 height district; that the premises consists of a corner lot

100 ft. by 100 ft. in area, on which there are erected two large, illuminated, billboard signs (erected in 1936, Permit 23720) ; that it is proposed to remove the billboard signs and to erect a one story building of Class 3 construction 14 ft. in height; 61.5 ft. by 85 ft., irregular in area, occupying less than 6,250 sq. ft. in area and complying with all area and rear yard requirements, to be occupied as follows: cellar, boiler room only, with entrance from the exterior of the building and separated from the rest of the building by fire-proof construction; 1st floor—automobile showroom, office, limited repair shop, gasoline tank and pump for personal use—not for sale; that under section 7i of the zoning resolution, the Board has specific jurisdiction to grant a variance to permit in a business use district, the erection of a repair shop for motor vehicles, subject to appropriate conditions and safeguards in harmony with the general purpose and intent of the use district regulations; that this is an appropriate case for the Board to grant relief under Section 7i because: 1. The proposed limited repair shop will be incidental and accessory to the automobile showroom and is needed to carry on the business in order that automobiles may be conditioned for delivery and in order that customers' motor vehicles may be inspected, tested, adjusted and have minor repairs performed. (2) The proposed limited repair shop is proposed to be operated and maintained subject to conditions and safeguards to protect nearby property onwers, as follows: a. Repair work is proposed to be performed only during the hours from 8:00 A.M. to 7:00 P.M. except that no repair work is proposed to be performed at any time on Sundays and legal holidays; b. Repair work is proposed to be limited to work to be done by hand tools and by motor driven machines not greater than ½ h.p.; c. No. sign is proposed to be erected on the premises advertising the repair shop; d. The proposed limited repair shop is proposed to be used only under the same tenancy and operation as that of the automobile showroom and will be operated only in connection therewith; e. No openings are proposed to be constructed in the rear wall. (3) The proposed building is proposed to be attractive in design and would bring about the elimination of the existing billboard signs. (4) The granting of this application would benefit the neighborhood, because it would enable the Board to impose ameliorating conditions regulating the occupancy of the plot, which conditions could not otherwise be imposed. 5. The substantial investment at stake gives assurance of strict compliance with the conditions and safeguards which the Board may impose. 6. The granting of tihs application would benefit the neighborhood, because the proposed building would be a permanent, attractive improvement, located entirely within a business use district and would contribute to the logical, commercial development of Merrick Boulevard. 7. The granting of the application would do substantial justice, because it would permit a reasonable, beneficial use of the premises without adversely affecting nearby property owners; and

WHEREAS, the applicant further contends that the nearest house is separated from the instant property by its own driveway, leading to the garage toward the rear, an arrangement common to the houses on the side street; that it is proposed to separate by a latticed fence the rear of the plot from the adjoining residential plot and to maintain shrubbery along the fence to a depth of at least 20 ft., in order to make the premises and surroundings more attractive in appearance; that the number of cars entering the building during any one day is necessarily limited and if the Board should deem it necessary, a small portion of the rear of the building could be dedicated for parking for not more than 5 automobiles belonging to patrons; that in view of the foregoing, it is requested the application be granted, subject to such conditions as the Board may deem necessary or proper in the public interest; and

WHEREAS, revised plans have been submitted by the applicant and request made for variance under section 7-A was withdrawn; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant under section 7-i of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7-i thereof, to permit an auto repair shop in conjunction with the automobile showroom building as proposed and substantially as indicated on revised plans marked "Received May 8, 1945", *on condition* that the entire building shall be occupied as proposed, as a sales store for the sale of new motor vehicles and motor vehicles taken in trade; that the facades of the building facing Merrick boulevard and 224th street shall be constructed generally of face brick; that the building shall not exceed the area shown on such amended plans; that the 15 ft. yard shown shall be unbuilt upon; that a substantial lattice fence shall be constructed continuously along the rear lot line and an additional similar fence erected from the rear lot line to the rear line of the building, at a distance away from the building line of 224th street of twenty feet; that such latter space shall be kept planted and not used in any way in connection with the use of the building; that the rear yard shall also be unused and a brick wall constructed, continuing the rear line of the proposed building to the easterly building line; that along the easterly building line, where walls of adjoining building do not occur, there shall be erected a brick wall not less than 7 feet in height, from the end of such building to the rear line of the lot; that there shall be no openings in the wall along the street line of 224th street nor in the rear wall, except the windows in office and showroom, as indicated on plans, and except that openings filled with glass block may be constructed, provided such glass block is of a type approved for exterior walls; that signs shall be restricted to those permitted under the zoning resolution, excluding all roof signs; that the yard space to the east shall be cement paved; that gasoline storage may be permitted, provided the gasoline is used only as proposed, for personal use and not for sale to passing vehicles; that the repair work shall be restricted to hand tools, excluding anvils and forges; that no curb cuts shall be constructed, except there may be a curb cut to Merrick boulevard, as indicated, not exceeding 30 feet in length; that new sidewalks and curbs shall be constructed along Merrick boulevard and 224th street for the full length and depth of the site; that in all other respects, all laws, rules and regulations applicable thereto shall be complied with and that all permits required to be obtained and all work shall be completed within one year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

690-44-A

APPLICANT—John J. Beatty, for Atco Tank Service, Inc., owner.

SUBJECT—Appeal from an order of the fire commissioner re Transportation of Petroleum Oil in tank truck (capacity of tank not in conformity with Administrative Code requirements covering Tank Trucks) in New York City.

APPEARANCES—
For Applicant: John J. Beatty.
For Administration: E. A. Meyer, Fire Dept.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (690-44-A)

WHEREAS, John J. Beatty for Atco Tank Service, Inc., owner, filed November 28, 1944, an appeal from an order of the fire commissioner, affecting the transportation of petroleum oil in a tank truck operated by the owner; and

WHEREAS, Order 39795-LC, issued by the fire commissioner, November 20, 1944, reads:

"An inspection of truck #1270 with a Freuhauf tank mounted on an Autocar chassis, for the transportation of any liquid product of petroleum, shale oil or coal tar, as required by Section C19-50,O-a, Title C, Part 1, Article 8, of the Administrative Code of the City of New York, shows the following requirements necessary before a permit can be issued:

1. Reduce the capacity of engine fuel tank to thirty-two U. S. gallons. Section 20.1.

2. Locate engine fuel tank immediately back of cab, above the frame and so it shall not overhang the frame side members."

and

WHEREAS, the applicant states that the truck in question is an auto car Model C90-T tractor unit used for deliveries under government contract with over 90 delivery points for the Army, Navy, Coast Guard and many other U. S. agencies; and

WHEREAS, it appears from examination of the specifications of the tractor unit filed with the Board, that the truck is equipped with two engine fuel tanks, each holding 35 U. S. gallons; and

WHEREAS, the truck is identified as #1270; and

WHEREAS, the applicant states that similar trucks owned and operated by government agencies along parallel or identical routes are equipped with similar engine fuel tanks, but are not subject to the provisions of the Code; it is therefore requested that the Board grant a modification to permit the continuance of the operation of the truck in question.

Resolved, that order 39795-LC of the fire commissioner, items 1 and 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the two engine fuel tanks, as located, each holding 35 U. S. gallons, shall be protected by a steel guard, constructed substantially as indicated on plan marked "Received May 14, 1945"; and that in all other respects, the tanks shall comply with the requirements of the fire commissioner.

238-45-A

APPLICANT—Sylvania Electric Products, Inc., Lessee, for Samuel J. Lefrak, owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—83-30 Kew Gardens road, west side, 8 ft. south of 83rd drive (Block 3356, Lot 30), Kew Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Bernard F. Brooks, R. J. Straub and Eugene P. Larson.

For Administration: E. A. Meyer, Fire Dept.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (238-45-A)

WHEREAS, Sylvania Electric Products, Inc., lessee, for Samuel J. Le Frak, owner, filed April 10, 1945, an appeal from an order of the fire commissioner, affecting premises 83-30 Kew Gardens road, west side, 8 ft. south of 83rd drive (Block 3356, Lot 30), Kew Gardens, Borough of Queens; and

WHEREAS, the order of the fire commissioner, 99256-LC, dated March 19, 1945, reads:

"1. Discontinue the use of hydrogen gas as same constitutes a fire hazard and is against the interest of public safety. C19-11.0, A.C."

and

WHEREAS, the applicant states the building is two stories (35 ft.) in height, 111 ft. 3 in. (irregular) by 222 ft. 10¼ in. (irregular) in area; of Class 1 construction; erected in 1927; located in a business use, D area, Class 1¼ height district; used and occupied since February 1, 1945, as follows: Cellar, lunchroom, stock and testing, 20 persons; 1st floor, administrative offices and laboratories, 85 persons; 2nd floor, development, research and machine shop, 150 persons; that no change in use or occupancy is proposed; that the building has a two-source sprinkler system and an approved standpipe system; that the building is equipped with three, 48 in. wide, steel and concrete stairs, enclosed in masonry, equipped with metal self-closing doors, extending from the roof bulkhead directly to the street; that Violation 1392-45 was issued by the Dept. of Housing and Buildings, in that the building is used contrary to amendment approved February 5, 1945 (Alt. 440-44), for installing hydrogen and oxygen rooms after temporary certificate of occupancy for ninety days was issued; and

WHEREAS, the applicant contends that the premises are used as a research laboratory of the General Engineering Dept., for experimental research applicable to electronic devices, which are at present used by the military services; that the use of hydrogen is necessary in the daily conduct of these research problems and the laboratory could not function without it; that the hydrogen system installed conforms to the Company's high standards of safety and with consideration to those materials available at present; that the active hydrogen tanks are attached to an approved type of distribution manifold, housed in a separate enclosure on the street level of the first floor at the northeast corner of building, as shown on print #1 filed with appeal; that this enclosure has been placed within the building, as the Company has access to no adjoining property outside; that the enclosure is of masonry construction, with explosion-type ceiling (plaster on metal lath); that the vault is illuminated with explosion-proof lighting fixtures and is equipped with an approved metal fire door; that the room is ventilated by a fan with an explosion-proof motor and automatic louvers, which are synchronized and activated by a hydrogen detector made by the Davis Emergency Co., Inc., 45 Hallock Street, Newark, N. J.; that the detector system is known as the remote control type, with audible alarm attachment; that the hydrogen cylinders in use are attached to approved type manifolds supplied by the Gas Consumer Corp. of N. Y. C.; that the manifold, as shown on print #2 filed with appeal, is divided into two sections, containing attachments for five tanks each, which are connected to the manifold through a cylinder type valve ¼ in. high pressure copper tubing; that from the manifold, the gas passes through another cylinder type valve to a two-stage manifold regulator, where the pressure is reduced to 25 lbs.; that the gas from the two separate manifolds is then passed through a service line connection manufactured by the Air Reduction Sales Corp. of N. Y. C.; that the purpose of the service line connection is to afford the maximum amount of safety, plus the ability to operate each bank independently or together through a common 1¼ in. feed line; that this service line consists of a check valve with an escape outlet, to which is attached a ¼ in. copper vent line, running to the outside atmosphere; that the gas then passes from the check valve in the service line connection, through a triple type heavy duty flashback arrestor before being distributed to the laboratory by means of 1¼ in. heavy wall red brass pipe, which acts as a main feeder for ¾ in. red brass branch pipes, which in turn is reduced to ½ in. brass pipes for feeding the individual pieces of equipment in the laboratory; that at each piece of equipment, the hydrogen is passed through a reduction valve for again reducing the pressure to poundage required usually 1 to 1½ lbs. for laboratory use; that there is an additional flashback unit installed at each pipe of equipment where hydrogen is used; that the men handling the hydrogen gas are experienced and have certificates of fitness, in accordance with the N. Y. C. Code requirements; that these men, or those under their direct supervision, are the only ones in the laboratory permitted to handle or operate hydrogen equpiment; that the total number of hydrogen tanks on hand at any one time never exceeds twenty, ten tanks of which are attached to manifold and ten tanks kept in reserve; that the hydrogen tanks at all times are secured by means of non-sparking metal supports; that the floor of

the manifold is of spark-proof rubber matting, securely cemented to the floor and has a voltage rating up to 15,000 volts; the hydrogen manifolds are grounded, thus reducing the atmospheric static to a minimum; that the laboratory is now functioning under temporary Certificate of Occupancy Q 32116, issued on Alt. Applic. 440-44, expiring April 8, 1945; that the applicant has filed with the Borough Superintendent, an application for the use and storage of hydrogen at the aforementioned laboratory, along with plans showing the construction of a hydrogen vault and the complete installation of the hydrogen system.

Resolved, that order 99256-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to item 1, *on condition* that the hydrogen shall be maintained as proposed and to the satisfaction of the fire commissioner; that in addition to the construction and safeguards proposed, there shall be installed a duct, starting at the proposed hung ceiling and extending to and above the roof for a distance of not less than three feet; that such duct shall be at least nine square feet in cross sectional area and fitted with an open louvered loose skylight; that this use of hydrogen and the construction proposed may be permitted and not deemed to contravene the amended resolution adopted by the Board under Cal. 200-27-BZ under date of July 25, 1944; that the entire system shall be maintained at all times to the complete satisfaction of the fire commissioner; that the approval of the borough superintendent shall be obtained for the construction as proposed, in connection with the storage of hydrogen and as herein required; that this modification shall be co-terminous with the variance granted by the Board under Cal. 200-27-BZ, by resolution of July 25, 1944; that the sprinkler and standpipe systems shall be maintained in accordance with the requirements and to the satisfaction of the fire commissioner and such portable fire fighting appliances shall be maintained as he shall require; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other that as varied under calendar 200-27-BZ.

266-45-A

APPLICANT—American Chicle Co., owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—30-30 Thomson avenue, south side, entire block bounded by Thomson avenue, Mount (31st) street, Nelson (47th) avenue and Manly street (30th place); (2nd floor); (Block 277, Lot 1) Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: John J. Morris.
For Administration: E. A. Meyer, Fire Dept.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (266-45-A)

WHEREAS, American Chicle Company, owner, filed May 2, 1945, an appeal from an order of the fire commissioner, affecting premises 30-30 Thomson avenue, south side, bounded by Thomson avenue, Mount (31st) street, Nelson (47th) avenue and Manly street (30th place); (2nd floor); (Block 277, Lot 1), Long Island City, Borough of Queens; and

WHEREAS, the order of the fire commissioner, acting on Order 99363-LC, dated April 3, 1945, reads:

"Discontinue the storage of matches in excess of 60 matchman's gross on above premises, since no permit can be issued for said storage in a factory building, C19-46.b-1, Administrative Code."

and

WHEREAS, the applicant states the building is 5 stories (80 ft.) in height; 200 ft. by 600 ft. in area; of Class 1 construction; erected in 1919; located in an unrestricted use, A area, Class 2 height district, and used and occupied: sub-cellar, not used; cellar, gum manufacturing and storage, 117 persons; 1st floor, gum manufacturing, storage and office, 242 persons; 2nd floor, gum manufacturing, storage, Army rations and cafeteria, 180 persons; 3rd floor, gum manufacturing, 374 persons; 4th floor, gum manufacturing, storage and office, 200 persons; 5th floor, office, 220 persons; that the building is equipped with a two source sprinkler system, a standpipe system, and an interior fire alarm system and that fire drills are maintained and that there are six 6 ft. wide fireproof stairs from the roof to the street; and

WHEREAS, the applicant states that permission is requested to store book matches in excess of 60 matchman's gross, which is not permissible under the Administrative Code; and

WHEREAS, the applicant contends that they are assembling and packaging for the Quartermaster Department of the U. S. Army 10-in-1 and "K" rations for the armed forces; that a fireproof vault 20 ft. by 11 ft. has been erected, with a ceiling height 13 ft. 4 in. and 2 vents and a kalamein door; that the partition is a 4 in. terra cotta wall, plastered on both sides; that the owner has no control over the number of book matches that are forwarded to the building and therefore has to provide proper storage facilities for these matches from the time of their receipt until they are placed in the ration packages; that at the present time, the applicant is packaging approximately 60 matchman's gross every two hours, and that the storage facilities have been provided for 4,200 matchman's gross; that the requirements for a two weeks' supply are approximately 3,000 matchman's gross; that this is necessary in order not to have a break in the line assembly and in case there is any delay in shipments, etc.; that the packaging and assembling of the 10-in-1 rations will be discontinued in July, 1945, but will continue packaging the "K" rations; that the requirements for storage of book matches at that time will not be as great as it is at the present time; that the building is of reinforced concrete construction, fully equipped with sprinklers, and all of the partitions are of metal and glass; that there is an active fire organization in the building, that is kept up to date at all times; it is therefore requested that a modification be granted.

Resolved that order 99363-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the matches shall be of a type approved by the fire commissioner and shall not exceed 4,200 matchmen's gross, as proposed; that such matches shall be stored and handled substantially as proposed and to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. Nos. 565-40-S and 51-45-A; that at the termination of the contract for K-rations, all matches shall be removed from the building.

APPLIANCE FOR APPROVAL

287-43-SA

APPLICANT—Wilmot Castle Co., owner.
SUBJECT—Castle Surgical Instrument Washer and Sterilizer #100, approval of.
APPEARANCES—
For Applicant: None.
ACTION OF BOARD—Appliance approved in accordance with the report of the Committee of Tests.
THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (287-43-SA)

WHEREAS, the Wilmot Castle Co., owner, filed on June 10, 1943, an application with the Board of Standards and Appeals for approval of the appliance known as the Castle Surgical Instrument Washer and Sterilizer No. 100; and

WHEREAS, this application was withdrawn on January 25, 1944 on written request of the applicant; and

WHEREAS, the applicant requested the reopening of the application and restoraton to the calendar; and

MINUTES

WHEREAS, this case was reopened by vote of the Board on November 14, 1944, restored to the calendar and referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

May 2, 1945.

Cal. 287-43-SA.

Subject: Castle Surgical Instrument Washer and Sterilizer #100, approval of.

The Wilmot Castle Company, owner, filed an application with the Board of Standards and Appeals for approval of the Castle Surgical Instrument Washer and Sterilizer # 100, under the provisions of C26-1277.0.h, Administrative Building Code, and the rules relative to submerged inlets and protective methods to be applied to prevent contamination of water supply of the Board of Standards and Appeals.

Description

The sterilizer consists of a tin coated seamless cold drawn brass shell, capable of withstanding 100 lbs. hydrostatic pressure for operation at 27 lbs. gauge pressure. One end of the shell is securely riveted and sweated to a heavy bronze machined casting forming the door frame of the sterilizer. The rear of this casting has a knife edge overflow for carrying off waste water. The door is an accurately machined bronze casting with recessed gasket. The door swings open on a ball bearing. The door handles are of bakelite, heat resisting. Within the chamber is a water current baffle to direct the circulation of the water for correct washing of instruments and the carrying off of waste matter. There is also installed within the chamber, a steam coil of seamless copper tubing, tinned on the outside and capable of withstanding a pressure of 350 lbs..

The water supply line valve is a Jenkins Bros. 150 lb. heavy duty bleeder type, to prevent raw water seeping into the sterilizer. The control valve is of the bronze lever type in 3 positions. The steam control valve is of the automatic type, turned on manually, shutting off automatically at completion of sterilizing cycle. There are two safety valves, a steam pressure gauge, a thermostatic ejector to prevent passage of waste matter to the drain, a thermostatic steam trap and check valve on the return line. A pilot light indicates to operator, the completion of the sterilizing cycle. The sterilizer is mounted on a floor stand of welded steel tubing with adjustable nickel plated bronze floor plates.

Test

This appliance was inspected and tested by the Committee on Tests of the Board and representatives of the Department of Water Supply, Gas and Electricity, Department of Hospitals and Department of Health at the Kew Gardens Hospital, Queens, and at 32 Vandewater Street, Manhattan, in the presence of representatives of the Board, the Department of Water Supply, Gas and Electricity and the Department of Hospitals.

Approval of this unit is sought by the manufacturers under the provisions of Rule #5 (Sterilizers) of rules relative to submerged inlets and protective methods, etc., adopted by the Board of Standards and Appeals of February 3rd, 1939 as amended and effective as of December 28th, 1942.

The sterilizer was filled with cold water as is normal under sterilization procedure in this instrument, and the water in the unit was then raised to 240° Fahrenheit and a steam pressure of 10 pounds. This heating of the water in the unit was accomplished by a portable steam boiler. The heated water in the unit was colored a vivid green to simulate contamination. The unit was then subjected to 29½" Hg. vacuum for a period of five minutes, and varying vacuums from 7½", 15" up to 25" for a period of 10 minutes without any of the simulated contaminated water being forced back into the water supply piping.

The unit was then emptied and refilled with colored cold water and again subjected to 29½" Hg. vacuum and varying vacuums from 5" to 15" without any of the simulated contaminated water being drawn back into the supply piping.

The sterilizer is so designed that the water supply to the fixture is protected with an approved Sloan V-100 vacuum breaker, the water supply being further protected against water supply backflow, by an angle spring type positive check valve installed in the water supply piping at the low point of entry of the piping into the sterilizer.

The unit is also equipped with two steam relief valves, governing the steam feed, which are controlled by metallic thermostat and solenoid valves electrically operated. The unit is so designed that when the water is heated from the bottom by steam through coils, a diversion plate is so arranged as to cause constant circulation of the water in the process of heating. The expanded hot water overflows through an overflow chamber located at the top rear, and such overflow is drained through an indirect waste into the sewer connection. The emptying pipe is also indirectly wasted.

This unit is also provided with a 2" vent to be connected to an independent vent stack, thus providing atmospheric relief at all times for expansion or contraction within the unit due to temperature changes.

It is the opinion of the Committee that there would not be water contamination, considering the test to which the unit was subjected, and the fact that it is independently vented, that the water supply is protected with an approved vacuum breaker and check valve, and that ample means are provided to prevent back pressure developing by both the vent and the overflow through the indirect waste.

Recommendations

On the basis of the foregoing data, the Committee on Tests recommends the approval of the Castle Instrument Washer and Sterilizer #100, when constructed as described herein, under C26-191.0,a, Administrative Building Code, for use under the provisions of Rule 5 of the Rules relative to Prevent Contamination of Water and under C26-1277.0.h, provided that each sterilizer bear a name plate reading: Approved by the Board of Standards and Appeals for use in New York City under Cal. 287-43-SA," and that only vacuum breakers of approved type and equivalent performance be used with this equipment.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby approve the appliance known as the Castle Surgical Instrument Washer and Sterilizer No. 100, *on condition* that the appliance be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 11:45 A. M.

JOSEPH J. DOYLE, Chief Clerk.

MINUTES

REGULAR MEETING

TUESDAY AFTERNOON, MAY 15, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

220-45-A

APPLICANT—Lama and Proskauer, for East New York Savings Bank, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—105 Pennsylvania avenue, east side, 125 ft. 1 in. south of Atlantic avenue (Block 3687, Lots 10 and 25), Borough of Brooklyn.
APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (220-45-A)

WHEREAS, Lama and Proskauer, for East New York Savings Bank, owner, filed April 10, 1945, an appeal from a decision of the borough superintendent, affecting premises 105 Pennsylvania avenue, east side, 125 ft. 1 in. south of Atlantic avenue (Block 3687, Lots 10 and 25), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated April 4, 1945, on Alt. Applic. 728-45, reads:

"1. Proposed change of occupancy of frame building in the fire limits, from residence to business use, is contrary to Sec. 4.2.1 and Sec. 4.1.2 as per Sec. 2.1.3.5 of the Bldg. Code.

2. Stairway to comply in all respects with C26-292 of the Bldg. Code."

and

WHEREAS, the applicant states that the building is 2½ stories (28 ft.) in height, 25 ft. by 52 ft. in area, of class 4 construction, erected in 1905, located in a business use, C area, class 1 height district. used and occupied since 1918 as follows: cellar—ordinary; 1st floor—dentist and one family; 2nd floor—one family; attic—unoccupied; proposed to be used and occupied as follows: cellar—same; 1st floor—office—6 persons; 2nd floor—office—6 persons; attic—unoccupied; that there is one interior stair at the front of the building, 3 ft. wide, of frame construction, unenclosed, with a wooden door; and

WHEREAS, the applicant contends that it is proposed to connect the building in question with the abutting bank building, by constructing a new opening from 1st floor of the bank building and 1st floor of the building in question; that this opening is to have a 3 hour test door; that it is proposed to use the frame building for additional offices in connection with the bank; that these offices are not to be used by the public and it is therefore requested that the existing 3 ft. wide stairway be permitted to remain, and it is requested this appeal be granted.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 728-45, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Objection 1, *on condition* that the building shall not be increased in height or area; that the attic story shall not be used; that the building shall be occupied only for office work as proposed; that the number of persons shall not exceed 6 persons on the 1st floor and 6 persons on the 2nd floor as proposed; as to Objection 2, that the existing primary means of exit shall be maintained, leading directly to the street; and that in addition, the rear exit on the 1st floor shall be maintained, and on the 2nd floor, a door shall be constructed in the rear wall in line with the central hall, leading to the porch extension roof and a steel stair to grade, constructed and maintained, to permit exit therefrom; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this modification shall continue only so long as the requirements of this resolution are complied with; that the proposed communication door between this building and the adjoining bank building shall be protected with a three hour fireproof sliding door as proposed, suitably housed in from the weather between this building and the adjoining building under the same ownership.

258-45-A

APPLICANT—Charles M. Spindler, for American Automatic Machine and Tool Co., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—235-237 Pearl street, east side, 75 ft. south of Concord street (1st, 2nd and 3rd floors); (Block 117, Lot 23), Borough of Brooklyn.
APPEARANCES—
For Applicant: Joseph C. Haus.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (258-45-A)

WHEREAS, Charles M. Spindler, for American Automatic Machine and Tool Company, owner, filed May 2, 1945, an appeal from a decision of the borough superintendent, affecting premises 235-237 Pearl street, east side, 75 ft. south of Concord street (1st, 2nd and 3rd floors) (Block 117, Lot 23), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated April 26, 1945, on Alt. Applic. 1050-45, reads:

"1. Proposed change of occupancy to factory building violates Section 270 Labor Law. Structure is not provided with two fireproof enclosed stairs, in accordance with above section."

and

WHEREAS, the applicant states the building is three stories (37 ft.) in height; 39 ft. 6 in. by 75 ft. in area; of Class 3 construction; located in an unrestricted use, B area, Class 2 height district; erected in 1918; used and occupied as follows: cellar, boiler room, no persons; 1st floor, non-storage garage for more than 5 cars, 3 persons; 2nd floor, factory (machine shop) 20 persons; 3rd floor, one family dwelling; that Copy of Certificate of Occupancy 3706 issued May 23, 1918, permits the use of the 1st floor for garage; 2nd floor, shoe repair, 15 people; 3rd floor, 1 family; permissible live loads, 1st floor, 120 lbs.; 2nd floor, 120 lbs.; 3rd floor, 40 lbs.; and

WHEREAS, the applicant contends that it is proposed to use and occupy the building as follows: cellar, boiler room, no persons; 1st floor, factory (machine shop) 25 persons; 2nd floor, factory (machine shop) 20 persons; 3rd floor, office, 5 persons; that the building is equipped with two interior wooden exit stairways, 3 ft. 8 in. wide; one at the front and one at the rear of the building, enclosed in metal lath and cement plaster on wood studs; that the doors are fireproof and self-closing and lead directly to the street, but do not extend to the roof bulkhead, and there is an exterior iron stairs from the 2nd story roof to 3rd story roof; and

WHEREAS, the building was erected in 1918 as a garage factory and dwelling; that the plans were examined under Section 270 of the Labor Law and were approved by both the Building and Fire Departments and were approved with two non-fireproof stairways enclosed in fire-retarded partitions; that the exits from all floors of the building are substantially as approved by the Building and Fire Departments when the building was erected; that this building has now

been taken over and occupied throughout by a tool and machine manufacturer as a machine shop and office; that the objection herein appealed from, was issued on an application filed to change the occupancy of the first floor from garage to factory and to change the occupancy of the third floor from dwelling to office; that it is proposed to remove present exit door at the front of the first floor and hang a new 3 ft. 8 in. outwardly swinging door, leading into the stair hall and to install a new exit door at the foot of the rear stairway, which leads to Nutria Alley, thereby providing two exits from the 1st floor; that the two existing 3 ft. 8 in. wide wood exit stairways, enclosed in one hour partitions from the 2nd floor, will remain undisturbed; that these stairways were accepted as required labor law exits from the factory occupied by the Melville Shoe Company, who occupied the 2nd floor when the building was erected; that from the third floor, which is used as offices with a total of five occupants, there is in addition to the primary stairs, a stationary gooseneck iron ladder leading from the roof of the two story portion, down to Nutria Alley, which was accepted as an exit at the time of the original approval; that from this 2nd story roof, there is also a fixed iron stairway leading to the roof above the office; that the present occupant is a machine shop engaged in war work, so that there is no combustible material equipment in the building; that the area of the building is only 3000 sq. ft. and no portion of any floor area is more than 50 ft. from an exit; that the building is also located within the area designated by the City Planning Commission for demolition and rearrangement into super blocks; that since the building has been used, under authority of a Certificate of Occupancy, for factory purposes for the past 27 years, it would be a great hardship to compel the owner to install fireproof stairways now, when the building will be condemned and demolished within a short time; that in view of the above facts, it is respectfully requested that the requirements of Section 270 of the Labor Law be temporarily modified, to accept the present exits, together with the proposed new exits from the first floor, for the duration of the present emergency and for 6 months thereafter and that the owner does war work as a subcontractor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1050-45, Objection 1, and that the appeal be and it hereby is *granted on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; that the existing exits, as indicated on plans filed with this appeal, shall be maintained; that the rear stairway shall have an unimpeded exit at all times from the rear of the building through to Jay street; that a new certificate of occupancy shall be obtained; that the proposed factory work shall be restricted to the 1st and 2nd floors and that the 3rd floor shall be occupied as proposed for office work only.

278-45-A

APPLICANT—Raymond Irrera, for Henry Bender and Gertrude Foley, owners (Carl L. Norden, Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—135-25 Northern boulevard, north side, 212 ft. 3 in. west of Farrington street (1st and 2nd floors); (Block 4958, Lots 55 and 18), Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Raymond Irrera.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (278-45-A)

WHEREAS, Raymond Irrera, for Henry Bender and Gertrude Foley, owners (Carl L. Norden, Inc., lessee), filed May 9, 1945, an appeal from a decision of the borough superintendent, affecting premises 135-25 Northern boulevard, north side, 212 ft. 3 in. west of Farrington street (1st and 2nd floors) (Block 4958, Lots 55 and 18), Flushing, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated May 4, 1945, on Alt. Applic. 360-45, reads:

"1. Provide two means of exit in compliance with sect. 270 of Labor Law.

2. Line of travel to exits more than 100 feet contrary to sect. 270 par. 3. of Labor Law.

3. Exits inadequate for number of occupants as per sect. 278 of Labor Law.

4. 100 liveload for manufacturing on second floor contrary to section 7.3.2.3 of B.C."

and

WHEREAS, the applicant states that the building is 2 stories (30 ft.) in height, 44 ft. 6 in. by 278 ft. 5 in. at street level, of Class 3 construction; erected in 1929; located in business and an unrestricted use, C area, Class 1½ height district; used and occupied prior to March 15, 1945, as follows: Cellar, boiler room and storage, 1 person; 1st floor, store, 50 persons; 2nd floor, restaurant, 500 persons; proposed to be used and occupied: Cellar, boiler room and storage, 1 person; 1st floor, factory and offices, 125 persons; 2nd floor, factory, 125 persons; factory is for testing, adjusting, and assembling bomb sight parts; that the building is equipped with two steel stairs with cement treads, one 4 ft. 6 in. wide and one 3 ft. 8 in. wide, enclosed in terra cotta block, with kalamein, self-closing doors; that only the front stairway extends from the bulkhead in the roof, directly to the street; and

WHEREAS, applicant has filed copy of Certificate of Occupancy 41753, issued August 19, 1929, for use of building as follows: 1st floor, store; 2nd, restaurant; and

WHEREAS, the applicant contends that the plot runs through from street to street, having a frontage on Northern boulevard of 44 ft. 6⅝ in. and a depth of 360 ft. 7 in. through to 35th avenue; that the first floor of the building has a depth of 278 ft. 5⅛ in. and the second floor has a depth of 180 ft. 4 in.; that the proposed use of first floor is for office, inspecting and testing of bomb sight parts, also storing, packing and shipping of the same; that the 2nd floor to be used for disassembling, testing and adjusting bomb sight parts; that the number of occupants on each floor to consist of 125 persons, being 60 males and 65 females; that cellar occupancy to remain unchanged; that the applicant contends as to objection 1, that the front portion of building has a fireproof stairway and enclosure with fireproof enclosure, leading directly to the street; that the width of the stair from the second to the first floors is 4 ft. 6 in.; that it is proposed to erect a new wood stairway at the far end of the first floor 3 ft. 8 in. wide, enclosed in fire-retarded partition with self-closing ¾ hour door on the first floor; that this stairway leads directly to the rear yard and to 35th avenue through a 9 ft. 4 in. wide clear open passageway; this stairway will offer three exits from the first floor, one through entrance at the center of the building, serving the front or office portion, one through a fire-retarded enclosure from the center of the floor to the street, through the fireproof passage serving the stair area to the second floor, and the third exit serving the rear portion of the first floor, by new stairway to the rear yard; that the exits from the second floor consist of a fireproof stairway and to the rear exits, one through a metal-covered passageway, and the other by an exit, leading through the roof of extended portion of the first floor and thence by an open steel stair to the yard level; and contends as to objection 2, that the line of travel to exits in excess of 100 feet, occurs only at the center portion of the building, where the extension at the westerly side protrudes beyond the side walls of the building, at which point, the line of travel is exceeded by approximately 30 feet; and contends as to objection 3, that the exits from the 1st and 2nd floors, as indicated on plans filed with this appeal, will be of suffi-

cient size to accommodate the number of persons, if the exits at the rear of the 2nd floor, one through a metal-covered passageway and the other leading to the roof of extended 1st floor, are accepted as satisfactory exits; that these rear exits lead to a new steel stairway 6 ft. wide, 8 risers in height, leading to the rear yard and to 35th avenue; that the rear yard at this point is only about 5 ft. below the level of the rear extension roof; that a protective iron railing, 3 ft. high, is to be provided along the rear parapet wall above extension roof, to guide the occupants to the rear stairway from the roof to the yard; that a modification of objection permitting a liveload of 100 lbs. p.s.f. is requested in view of the type of work to be done on the 2nd floor, which is testing and adjusting bomb sight parts, and is similar to watch-making in its delicate nature, and also because the work is performed on large tables spreading the load over a considerable floor area.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 360-45, and that the appeal be and it hereby is *granted* as to Objections 1 and 2, *on condition* that exits from the 1st and 2nd floors and rear one story roof shall be maintained, as indicated on plans filed with this appeal marked "Received May 9, 1945," except that the doors shall not be removed from the center portion of the 1st floor leading to the passageway to Northern boulevard and a pair of fireproof double doors shall be constructed toward the center between the men's and women's toilets at points marked "exit sign and light" on plans filed with this appeal, as required by resolution adopted under Calendar Number 406-31-A; that the open stair from the 2nd floor to the 1st floor as indicated, shall be maintained with a free passageway at all times through to Northern boulevard; that passageway from the rear to State street (35th avenue) shall be maintained free and unimpeded at all times, to provide the exit shown on both the 2nd floor and the 1st story and one story roof; as to Objection 3, that the number of persons on the 1st and 2nd floors shall at no time exceed 125 persons per floor; as to Objection 4, that the live load of 100 lbs. per superficial foot for the 2nd floor may be accepted, provided the loading at no time shall exceed such rating; that floor loads on each floor shall be posted, in accordance with the requirements; that in all other respects, the building and occupancy shall comply with all laws, rules, and regulations applicable thereto other than as varied under Calendar Number 406-31-A; that this variance shall continue only during the term of the present emergency and for not more than six months thereafter and for the occupancy of the lessee as proposed; that a new certificate of occupancy shall be obtained.

227-44-A

APPLICANT—Weinberg and Weinberg, for Sam Reisner, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—421-423 Classon avenue, east side, 60 ft. south of Lexington avenue (Block 1970, Lot 7), Borough of Brooklyn.

APPEARANCES—

For Applicant: Reuben Weinberg.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (227-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 421-423 Classon avenue, east side, 60 ft. south of Lexington avenue (Block 1970, Lot 7), Borough of Brooklyn, was granted by the Board on May 9, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 9, 1944, so that as amended, the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the labor law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 652-44, objection 1, and that the appeal be and it hereby is *granted on condition* that the building shall be maintained as proposed; that the exits shall be maintained as proposed and in addition, the rear fire escape shall be extended by a gooseneck ladder to the roof; that in the primary means of exit, there shall be a steel ladder within the stairhall, leading to a scuttle in the roof, which shall be equipped with an easy-opening device; that the front fire escape shall be constructed and maintained as proposed; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Resolved further, that the fire escape proposed to be erected on the front of the building in accordance with the resolution adopted May 9, 1944, may be from the 2nd window from the north on the second floor, instead of the 1st window from the north, as indicated on plans filed with this appeal marked 'Received April 17, 1944'; that otherwise, it shall comply with the requirements of this resolution and with all requirements therefor."

ZONING CASES

137-26-BZ

APPLICANT—Arnold W. Lederer, for James W. McGrath, lessee; for Rose Morizio, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting for a stated term of years, partly in a business use and partly in a residence use district, the erection and maintenance of an extension to an existing garage for more than five motor vehicles.

PREMISES AFFECTED—8202-8226 18th avenue, west side, 70 ft. north of 84th street (Block 6314, Lots 130, 164 and 72), Borough of Brooklyn.

APPEARANCES—

For Applicant: Arnold W. Lederer.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (137-26-BZ)

WHEREAS, this application under section 7g of the zoning resolution, to permit in a business use district, the alteration and extension of a garage for the storage of more than five motor vehicles, affecting premises 8224-8226 18th avenue, west side, 70 ft. north of 84th street (Block 6314, Lot 72), Borough of Brooklyn, was withdrawn on December 21, 1926; and

WHEREAS, the applicant requested a reopening of the application, under section 7c of the zoning resolution, to permit partly in a business use district and partly in a residence use district, the erection and maintenance of an extension to an existing garage for more than five motor vehicles, affecting premises 8202-8226 18th avenue, west side, 70 ft. north of 84th street (Block 6314, Lots 130, 164 and 72), Borough of Brooklyn; and

WHEREAS, this case was granted by the Board on June 15, 1943, on certain conditions, time extended on June 6, 1944 to obtain permits and complete the work and the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 15, 1943, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution * * * and that other than as herein *amended,* the conditions of the resolution of June 15, 1943, shall be complied with and that a certificate of occupancy shall be obtained."

153-36-BZ

APPLICANT—Milton L. Sloame, for The West End Holding Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete and submit plans—re Application (decision of the commissioner of buildings) previously granted on condition under section 7c of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district, the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—140-154 West End avenue, east side, from West 66th street to West 67th street (Block 1158, Lots 1, 2, 3, 4, 61, 62, 63 and 64), Borough of Manhattan.

APPEARANCES—

For Applicant: Milton L. Sloame.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (153-36-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting partly in a business use and partly in an unrestricted use district, the erection and maintenance of a gasoline service station, affecting premises 140-154 West End avenue, east side, from West 66th street to West 67th street (Block 1158, Lots 1, 2, 3, 4, 61, 62, 63 and 64), Borough of Manhattan, was granted by the Board July 14, 1936, on certain conditions; and

WHEREAS, time to submit plans was extended on June 2, 1937, November 30, 1937, May 17, 1938, May 2, 1939, May 7, 1940, May 6, 1941, May 19, 1942, May 18, 1943 and May 16, 1944 and the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 14, 1936, as amended through May 16, 1944, only in so far as it has reference to

submitting plans for approval, obtaining permits and completing the work, so that as amended, this portion of the resolution shall read:

"that all plans required shall be filed for approval with the Board within one (1) year from the date of this *amended* resolution and after such approval, all permits shall be obtained and all work completed within one (1) year thereafter and that other than as herein *amended,* the conditions of the resolution of July 14, 1936, shall be complied with and a certificate of occupancy shall be obtained."

THE RESOLUTION (411-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 366 Seneca avenue, southwest corner of DeKalb avenue (Block 3425, Lot 7), Ridgewood, Borough of Queens, was granted by the Board on May 2, 1939, on certain conditions; and

WHEREAS, the permit was extended on May 20, 1941 and on May 25, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of May 2, 1939, as amended through May 25, 1943, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit the parking and storage of more than five (5) motor vehicles, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of May 2, 1939 shall be complied with and that a Certificate of Occupancy shall be obtained (B. N. Applic. 74-39)."

902-38-BZ

APPLICANT—Madison Square Garden Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—337-341 West 49th street, north side, 200 ft. east of Ninth avenue and 348-352 West 50th street, south side, 225 ft. east of Ninth avenue (Block 1040, Lots 54, 55, 9, 10, 11 and part of Lot 14), Borough of Manhattan.

APPEARANCES—

For Applicant: Edward R. Farley, Jr. and Richard Donohue.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (902-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a residential use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 337-341 West 49th street, north side, 200 ft. east of Ninth avenue and 348-352 West 50th street, south side, 225 ft. east of Ninth avenue (Block 1040, Lots 54, 55, 9, 10, 11 and part of Lot 14), Borough of Manhattan, was granted by the Board on June 17, 1941, on certain conditions; and

WHEREAS, the permit was extended on May 18, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 17, 1941, only in so far as it has reference to the term of the permit, so that as amended, the resolution shall read:

"*Granted* under section 7h for a term of five (5) years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five (5) motor vehicles, *on condition* that the plot shall be leveled substantially to the grade of West 49th street and shall be surfaced with steam cinders, clean gravel or other suitable material, properly rolled and treated with an asphalt binder; that on the street building line of West 50th street, there shall be constructed a masonry wall not less than 7 ft. in height, with no entrances therein; that along the street building line of West 49th street, there shall be erected and maintained, a substantial woven wire fence not less than 6 ft. in height with no more than one opening therein, not to exceed 20 ft. in width with a curb cut opposite of similar width; that on the interior lot lines where walls of adjoining buildings do not occur, there shall be erected a similar woven wire fence or a solid board fence of similar height; that during the term of this variance, the premises shall be occupied for no use other than the parking and storage of more than five motor vehicles, as herein permitted and no building shall be erected thereon, except there may be erected, a building not over 100 sq. ft. in area as an office and shelter for the attendant; that any lights for general illumination shall be on pipe standards with metallic reflectors, so arranged as to reflect toward the center of the premises and away from adjoining occupancies, particularly on West 50th street; that proper aisles shall be maintained at all times for easy entrance and egress and a space of not less than 18 in. shall be left between alternate rows of cars; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that no signs shall be erected on the premises, except that there may be a sign at the entrance on West 49th street, advertising the parking and storage use and the rates charged, provided such sign does not exceed 15 sq. ft. in area, is not illuminated and does not extend beyond the building line and that a certificate of occupancy shall be obtained."

289-40-BZ

APPLICANT—Irving M. Fenichel, for Lerad Realty Corporation, owner. (Samuel Adler, Inc., lessee.)

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the extension in height of an existing milk bottling and distributing station.

PREMISES AFFECTED—447-457 East 133rd street, north side, 195 ft. west of Brown place (Block 2278, Lots 64 and 69), Borough of The Bronx.

APPEARANCES—

For Applicant: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (289-40-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, the extension in height of an existing milk bottling and distribution station, affecting premises 447-457 East 133rd street, north side, 195 ft. west of Brown place (Block 2278, Lots 64 and 69), Borough of The Bronx, was granted by the Board July 16, 1940, on certain conditions; and

WHEREAS, the resolution was amended on February 24, 1942 and on March 31, 1942 and the time to obtain permits and complete the work was extended on May 9, 1944; and

WHEREAS, the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 16, 1940, as amended through May 9, 1944, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolutions of July 16, 1940, February 24, 1942 and March 31, 1942, shall be complied with and that a certificate of occupancy shall be obtained."

644-41-BZ

APPLICANT—George Edward Beatty, of Beatty and Berlenbach, for General Theological Seminary of the Protestant-Episcopal Church in the United States, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the borough superintendent) previously granted on condition, under section 7g of the zoning resolution, for a term of 15 years, permitting in an unrestricted use district, the erection and maintenance of a garage for more than five motor vehicles, within 200 feet of an exit from or entrance to a school, maintained by an established religious group.

PREMISES AFFECTED—177-183 Tenth avenue and 500-504 West 21st street, southwest corner (Block 692, part of Lot 30), Borough of Manhattan.

APPEARANCES—

For Applicant: John J. Beatty.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (644-41-BZ)

WHEREAS, this application under section 7g of the zoning resolution, permitting in an unrestricted use district, for a term of 15 years, the erection and maintenance of a garage for more than five motor vehicles, within 200 feet of an exit from or an entrance to a school maintained by an established religious group, affecting premises 177-183 Tenth avenue and 500-504 West 21st street, southwest corner (Block 692, part of Lot 30), Borough of Manhattan, was granted by the Board on December 16, 1941, on certain conditions; and

WHEREAS, on November 24, 1942, November 9, 1943 and November 14, 1944, time was extended to complete the work and the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of December 16, 1941 by adding thereto:

"that in the event the owner desires to lease this building to the present occupant of the building adjoining to the south and desires to connect such buildings with access doors, as indicated on plan marked 'Received May 9, 1945', such access doors may be permitted, provided the openings are protected with approved fireproof fire wall doors, as required by the Code and no opening exceeds 4 ft. in width; that all permits shall be obtained and all work completed within one (1) year from the date of

this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of December 16, 1941, shall be complied with and that a certificate of occupancy shall be obtained."

1004-41-BZ

APPLICANT—Alexander A. Forman, 3rd, for Dougland Homes Corporation, owner. (Frederick Cornelius, lessee.)

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the reconstruction and extension of a gasoline service station.

PREMISES AFFECTED—175-42 137th avenue and 137-04 Farmers boulevard, southwest corner (Block 3237, part of Lot 24), Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (1004-41-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, the reconstruction and extension of a gasoline service station, affecting premises 175-42 137th avenue and 137-04 Farmers boulevard, southwest corner (Block 3237, part of Lot 24), Springfield Gardens, Borough of Queens, was granted by the Board on June 30, 1942, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on May 11, 1943 and May 9, 1944 and the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 30, 1942, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of June 30, 1942, shall be complied with and that a certificate of occupancy shall be obtained (Alt. Applic. 2414-41)."

523-44-BZ

APPLICANT—Stanley H. Klein, for American Analytical Laboratories, Inc., owner.

SUBJECT—Application for consideration—reopening and extension of time to complete work—Application (decision of the borough superintendent) previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, for a term of two years, the change of occupancy from motor vehicle repair shop and dead storage of automobiles, to a chemical laboratory and factory.

PREMISES AFFECTED—326-328 West 70th street, south side, 279.3 ft. west of West End avenue (Block 1181, Lots 44 and 45), Borough of Manhattan.

APPEARANCES—

For Applicant: Stanley H. Klein.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (523-44-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting in a residence use district, for a term of two years, the change of occupancy from motor vehicle repair shop and dead storage of automobiles, to a chemical laboratory and factory, affecting premises 326-328 West 70th street, south side, 279.3 ft. west of West End avenue (Block 1181, Lots 44 and 45), Borough of Manhattan, was granted by the Board on November 14, 1944, on certain conditions; and

WHEREAS, the applicant requested on extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 14, 1944, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed within three (3) months from the date of this *amended* resolution and that the conditions of the resolution of November 14, 1944, shall be complied with and that a certificate of occupancy shall be obtained."

123-45-BZ

APPLICANT—B. H. Whinston, for Young Israel Synagogue of Claremont Parkway, Inc., owner.

SUBJECT—Application for consideration—reopening and restoration to calendar—re Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a B area district, the conversion and extension in area of a building now occupied as a 2-family dwelling with a synagogue, without complying with the area requirements for a B area district (previously withdrawn).

PREMISES AFFECTED—1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2784, Lot 2), Borough of The Bronx.

APPEARANCES—

For Applicant: B. H. Whinston.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, restored to the calendar and granted on condition.

THE VOTE TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE VOTE TO GRANT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (123-45-BZ)

WHEREAS, Benjamin H. Whinston, for Young Israel Synagogue of Claremont Parkway, Inc., owner, filed March 5, 1945, an application under section 21 of the zoning resolution, to permit in a B area district, the conversion and extension in area of a building now occupied as a 2-family dwelling into a synagogue, without complying with the area requirements for a B area and residence use district; affecting premises: 1408 College avenue, east side, 87.52 ft. north of East 170th street (Block 2874, Lot 2), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meetings on April 24 and May 15, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that East 170th street is in a business use, B area and Class 1¼ height district; College avenue is in a business and residence use, B area and Class 1¼ height dis-

trict and Teller avenue is in a business and residence use, B area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, rendered February 23, 1945, in acting on Alt. Applic. 386-44, reads:

"3. Extension within the residence portion of this lot beyond 65% of the area of this portion of the lot, is contrary to Art. 4, Section 12(b) of the zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 25 ft. frontage by 105.63 ft. in depth, on which is located a 2-story and cellar, Class 3 constructed building, 21 ft. by 70 ft. in area, now vacant, formerly occupied as a two family dwelling with garage in the cellar; that it is proposed to alter the building, by extending it on the 1st and 2nd stories to the rear lot line and erecting a pent house 31 ft. by 21 ft. at the front, and to occupy the building as a synagogue; and

WHEREAS, the applicant contends that the present building was approved on August 23, 1944, for alteration to a synagogue on the first floor; that it is now proposed to make a more extensive alteration, by building an extension on the entire rear yard of the lot, creating a balcony out of part of the 2nd floor, erecting a new front and using the entire building for a synagogue; that the lot is not back to back with any other lot; that the rear yards of all the houses facing on East 170th street are used as an open auto driveway for access to garages under these buildings; that the building and the proposed extension on the rear of the lot will not be over 23 ft. high and the proposed new front portion will not be over 35 ft. high, which is permitted by the Building Code for Class C, non-fireproof construction; that Art. 4, Sec. 12 of Zone Law (B area District) requires a rear yard at any given height to be at least 3 in. in least dimension for each 1 ft. of height; that this would require approximately a 5 ft. yard for the height of the building in the residential portion of the lot; that Sub. (b) of this section states that "no non-residential building located in a residential district shall occupy at the curb level more than 65% of the area of the lot"; that this would require an area of about 459 sq. ft. to be left for a rear yard in the residence portion; that due to the small area of the lot, to leave that much vacant for a rear yard, would be a genuine hardship in this particular case, where every seat gained is of real benefit to the congregation; that there is a 4 ft. court 420 sq. ft. in area (part of the 8 ft. driveway) in the business portion of the lot along the south side, which should be considered as almost compensating for the area that would be required for a yard in the residence portion of the lot, by the above section of the zone law; that Art. 4, Sec. 17 (b) states "where a building is not within a residence district, the lowest level of a rear yard shall not be above the sill level of the 2nd story windows, nor in any case more than 23 ft. above the curb level"; that this section would permit the occupancy of the entire portion of the lot in the business zone; that since the building is to be used for religious purposes for the betterment of the social and communal life of the neighborhood and due to the fact that the 4 ft. court on the south side of the lot, compensates in part for the area of the yard that would be required in the residential part of the lot, the open space, light and air is not being reduced; that the building now occupies approximately 55% of the lot; that if this building were located in a business district (and practically half of it is) and did not adjoin a residence district it could occupy 75% of the lot in the first story or 1970 sq. ft. and it is proposed to occupy 2205 sq. ft., or an excess of 235 sq. ft., so that there would be an unnecessary hardship to lose this space, in view of the importance of utilizing the entire area of the lot in the rear of the present building for the complete use of the 1st floor of the proposed building for a synagogue; that the character of the district will be safeguarded by this alteration into a synagogue and that if this appeal is granted, no harm will be done to the light and ventilation of other property owners; that this building will also improve the character of the street; and

WHEREAS, at the hearing on April 24, 1945, the Board permitted the applicant to withdraw the application, so that he could resubmit plans to the Borough Superintendent, in the event that the Court determined that the zoning amendments effective December 3, 1944 were unconstitutional, without prejudice to a continued hearing in the event the Court upheld the action of the Board of Estimate; and

WHEREAS, the decision of Mr. Justice Shientag, in the Matter of 431 Fifth Avenue Corporation vs. The City of New York, upheld the action of the Board of Estimate in adopting the zoning amendments (N. Y. Law Journal April 28, 1945); and

WHEREAS, the applicant requested that the application be restored to the calendar for decision, in accordance with the conditions of the withdrawal and also filed revised plans, showing the omission of the proposed third story and a reduction in the depth of the building, so as to leave a rear yard across the entire plot unbuilt upon for a width of 20.63 feet, as well as the 4 ft. side court for the entire depth of the lot; and

WHEREAS, the application was restored to the Calendar for continuation of the hearing on May 15, 1945; and

WHEREAS, as no objectors had appeared at the hearing on April 24, 1945, the Board waived the requirement for additional notice; and

WHEREAS, the Board deemed that the revised plans should be approved as an equitable basis for adjusting the requirements, in view of the lot being placed partly in a business use area and partly in a residence use area; and

WHEREAS, the premises were inspected by a Committee of the Board; and

WHEREAS, the applicant had withdrawn appeal 124-45-A, for a variance of the Building Code requirements, as to exceeding the height permitted for a Class III building for public occupancy and now proposes to comply in all respects with the requirements of the Building Code; and

WHEREAS, the Board deemed that this was a proper case to exercise its discretion to grant under Section 21 of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 thereof, *on condition* that the existing building shall not be extended beyond a depth of 85 ft., as indicated on revised plans marked "Received May 11, 1945"; that a rear yard across the entire rear of the premises having a depth as indicated thereon, namely, approximately, 20 ft., shall be maintained open and unbuilt upon as well as the 4 ft. side court now existing and shown to the south, furnishing a means of exit from the rear; that the building shall not be extended beyond the existing two story height; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

328-42-BZ

APPLICANT—Koch and Wagner, for Bond and Mortgage Company, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7f of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

THE RESOLUTION (236-39-SM)

WHEREAS, the Consolidated Expanded Metal Companies, owner, filed on February 27, 1939, an application with the Board of Standards and Appeals for approval of the material known as Consolidated Expanded Metal Companies' Metal Lath and Lathing Accessories; and

WHEREAS, this material was approved by the Board on March 9, 1943, on certain conditions; and

WHEREAS, on May 4, 1943, the resolution was amended, to permit the marketing of this material under the additional name of the Wheeling Corrugating Company, a subsidiary of the present owner; and

WHEREAS, a further amendment of the resolution was requested, due to the acquisition of all assets of the Consolidated Expanded Metal Companies, by the Wheeling Corrugating Company.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 9, 1943, as amended May 4, 1943, by adding thereto:

"that in view of the statement by the Wheeling Corrugating Company and the proof furnished that they have acquired all of the assets of the Consolidated Expanded Metal Companies to whom this approval was issued, such approval may be considered as issued to the Wheeling Corrugating Company as successor to the Consolidated Expanded Metal Companies."

Negative: 0

THE RESOLUTION (533-42-BZ)

WHEREAS, this application under sections 7e and 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles and also, open display and sale of used cars, affecting premises 2242-2262 Church avenue, south side, 206 ft. 8½ in. west of Bedford avenue (Block 5103, Lots 42, 43 and 45), Borough of Brooklyn, was granted by the Board on January 25, 1944, on certain conditions; and

WHEREAS, the applicant requested an extension of time to complete the work (which had expired by limitation) and the extension of the permit; and

WHEREAS, this case was reopened by vote of the Board on October 31, 1944 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting on April 10, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted January 25, 1944, so that as amended, it shall read as follows:

"*Granted* under sections 7e and 7h for a temporary term of two years from the date of this *amended* resolution, to permit the occupancy as proposed for the parking and storage of more than five motor vehicles and for the sale of used cars on the premises, consisting of Lots 42 and 43 and part of Lot 45, where the latter is now unbuilt upon, *on condition* that the frame building on Lot 43 shall be removed and the entire premises leveled and graded substantially to the grade of Church avenue; that the plot shall be surfaced with steam cinders, or clean gravel treated with a binder and rolled so as to provide surface drainage; that on the interior lot lines where walls of adjoining buildings do not occur, there shall be erected a substantial steel picket fence; *that along the street building line, there shall be erected a steel picket fence* not less than 4 ft. in height erected on a concrete curb not less than one foot in height or a wall of brick masonry not less than 4 feet in height and suitably coped; that there shall be no entrance to the premises except one curb cut as indicated to the west, which may be 24 ft. in width; that all other curb cuts shall be removed and the curbs restored; that there shall be located against the wall of the Erasmus Hall high school, a concrete bumper not less than 3 ft. in width and not less than 6 in. in height, to prevent cars from bumping the school wall; that a similar bumper shall be constructed against the premises of the adjoining owner to the west; that the existing buildings on Lot 45 shall not be increased in height or area during the term of this variance; that the cars may enter the plot to reach the 4-car garage at the rear thereof; that the sale of used cars shall be toward the east, and the westerly portion may be used for parking and storage of motor vehicles; that no additional building shall be erected on the premises, except there may be erected an office, solely for shelter for the attendant and for toilet for the customers, provided such building is not over 150 sq. ft. in area and one-story in height, and constructed of masonry; that such building shall be erected near the entrance and adjacent to the side of the building to be

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR INSPECTION OF APPROVED OPENING PROTECTIVE ASSEMBLIES

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS OCTOBER 20, 1939. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, NOVEMBER 13, 1939.

(1139-39-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday morning, June 8, at 10 a.m., Room 1013, Municipal Building, Manhattan, on Proposed Amendments to Rules for Inspection of Approved Opening Protective Assemblies.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, *paragraph* 2, *Charter of the City of New York and C*26-189.0 *Administrative Building Code and C*26-610.0 *Administrative Building Code and C*26-660.0, 661.0 *and* 662.0 *Administrative Building Code.*

Note: New matter in italics.

Rule 1—Scope.

1.1 Before any Opening Protective Assembly is used under the provisions of the Administrative Building Code, it shall be tested as required in Section C26-610.0 (10.1.18) and its Fire-Resistive Rating shall be designated as "¾-Hour", "1-Hour", "1½-Hour", or "3-Hour", in accordance with the approval.

1.2 Before engaging in the manufacture of approved Opening Protective Assemblies, the manufacturer shall have an established plant completely equipped with the necessary facilities, machinery and tools for the manufacture of the Opening Protective Assemblies.

1.3 Before applying for approval of plant and permission to manufacture approved Opening Protective Assemblies, the manufacturer shall file a list of his equipment and facilities with the Board of Standards and Appeals, together with a statement of the name, type, specifications and details of the approved door, which he agrees to manufacture in accordance with the rules and regulations of the Board and the requirements of the Administrative Building Code.

1.4 All Opening Protective Assemblies made under any approval issued by the Board of Standards and Appeals for the manufacture of approved Opening Protective Assemblies of "¾-Hour", "1-Hour", "1½-Hour" or "3-Hour" rating shall be rejected on evidence that such Opening Protective Assemblies are not manufactured or labelled in accordance with the approved specifications of the Board.

Rule 2—Inspections.

2.1 No Opening Protective Assemblies shall be installed in any building until such Opening Protective Assemblies have been inspected and labelled either by the Borough Superintendent, or by a recognized testing laboratory or other qualified person or agency approved by the Board as having proper facilities.

2.2 Before issuing any label for the use of an approved Opening Protective Assembly, the authorized inspection agency shall first notify the Borough Superintendent that inspection will be made by him of the materials and construction entering into the assembly of the Opening Protective Assemblies, stating the location of the premises where the Opening Protective Assemblies will be used, the Building Permit number, the name of the approved Opening Protective Assembly and the manufacturer and the number of such units to be manufactured.

Note: Where an Opening Protective Assembly is of fire-proofed wood, such wood shall be submitted to tests for fireproofed wood, as prescribed in the Administrative Building Code, Section C26-331.9.

2.3 After the materials have been cut and inspected, the authorized inspection agency shall inspect the assembly and fabrication of the parts and shall issue an approved label only if the completed Opening Protective Assemblies comply in all respects with the approved specifications on file in the Board of Standards and Appeals.

Rule 3—Labeling Requirements.

3.1 Every approved Opening Protective Assembly before installation in a building under the provisions of the Administrative Building Code, shall have securely attached to it, a metal label of a design approved by the Board, giving the name of the Opening Protective Assembly, the calendar number of the approval of the device, the fire-resistive rating, the serial number of the specific type of door and buck, or window, the year of manufacture and the name of the inspection agency. *When opening protective assemblies are manufactured for stock, the inspection agency shall furnish a report to the manufacturer of his inspection of each assembly including all data as is herein required.*

3.2 After attachment of the Serial Label to the Opening Protective Assembly, the inspection agency shall advise the Borough Superintendent the serial numbers, the address of the premises and the Building Permit numbers of the approved Opening Protective Assembly. *When opening protective assemblies are installed in a building as building maintenance, the manufacturer shall furnish similar data on forms obtained from the Borough Superintendent.*

3.3 The manufacturer may also attach to the Opening Protective Assembly, a metal label giving the name and location of the manufacturer. He shall also keep an office record showing the location of each Opening Protective Assembly manufactured by him, its serial label number and the Building Permit number; and this record shall be open for inspection by any authorized representative of the Board of Standards and Appeals and the Department of Housing and Buildings.

3.4 Every labelled Opening Protective Assembly shall be constructed and installed in all essentials as tested and approved and arranged to receive hardware of an equal type, quality and material and requiring no greater cutting away of the wood or metal than on the approved Opening Protective Assembly, as tested.

3.5 Where opening protective assemblies are manufactured up to 25% in excess of the sample as tested and as permissively allowed under C26-610.0a, the permitted increase in area shall not exceed width and height dimensions greater than 15 percent of the sample as tested. In all cases the permissively allowed increase in area of 25% shall apply only to the sample when constructed identically in all respects with the tested sample.

3.6 When opening protective assemblies are manufactured for stock, such assemblies shall be inspected as provided herein. As the doors are shipped, the Borough Superintendent shall be furnished with the data as specified in Rules 3.1 and 3.2. When such opening protective assemblies are shipped to jobbers for stock, the manufacturer shall obtain the data from the jobber, as required under rules 3.1 and 3.2 and immediately submit such data to the Borough Superintendent.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES ON USES OF INSULATING FIBRE BOARD

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS MAY 5, 1939. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, MAY 29, 1939 AND RULES AMENDED JUNE 16, 1942, EFFECTIVE JULY 6, 1942.

(170-39-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday morning, June 8, 1945, at 10 a.m., Room 1013, Municipal Building, Manhattan, on Proposed Amendments to Rules on Uses of Insulating Fibre Board.

Matter in brackets [ ] to be deleted; new matter in italics, except where applicable sections of the Administrative Building Code appear.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, Charter of the City of New York, and C26-189.0 [Administrative Code (2.2.1.1)], C-26-462.0 [of the Administrative Code (8.4.10.6)], C-26-458.0, sub. g, [Administrative Code (8.4.10.2),] C-26-538.0, sub. b, [Administrative Code (8.7.2.3),] C-26-541.0, sub. a, [Administrative Code (8.7.2.6.1),] C-26-667.0, paragraphs, 4 and 8, [Administrative Code (10.9.2.4),] sub. c, [and (10.9.2.4), Building Code,] C-26-680, sub. 21, [Administrative Code (10.12.11.1),] C-26-541.0, [Administrative Code (8.7.2.6.1),] C-26-619.0, [Administrative Code (10.3.1),] and C-26-721.0, Administrative Building Code. [(12.2)].

[NOTE: Where reference in parentheses appears after the Administrative Code Section, it refers to the Section of the New Building Code as formerly numbered.]

Extracts from the Administrative Building Code contained herein in small type have been assigned decimal rule numbers for convenient reference only and are not to be construed as rules.

Purpose: *It is the purpose of these rules to carry out the intent of Section C 26-3.0 of the Administrative Building Code and to supplement the present requirements of the Administrative Building Code, by including the uses of insulating fibre board as an acoustical or decorative material, when applied to walls and ceilings which use is specifically unprovided for in the Administrative Building Code.*

Rule 1. Classes of Fibre Board.

(1) Wood Fibre
(2) Exploded Wood Fibre
(3) Balsam and Wood Fibre
(4) Western Wood Fibre
(5) Cane Fibre (Bagasse)
(6) Pulp from waste papers
(7) Straw Fibre
(8) Ground Wood Pulp Fibre
(9) Corn Fibre

1.1 STRUCTURE OF FIBRE BOARD. Fibre boards shall be manufactured from wood or other vegetable fibre by a felting or molding process and provided with sizing to render water resistant, and shall be subjected to a sufficient drying temperature *under related humidity conditions* so as to completely destroy rot-producing fungi. No starch ingredient shall be included unless made toxic to household vermin *and with properties as shown in Table 1.*

1.2 The structure of the board may be either single or multiple ply, and if latter, the plies shall be joined under pressure by a moisture resisting cement *or other approved means.* Surfaces shall be finished smooth and free of coarse fibres.

1.3 For a plaster base, wall board, roof *insulation* boards, sheathing, siding, roof insulation, floor insulation, acoustical, interior finish, the fibre board shall be homogeneous, free from cracks, lumps, unevenness and other defects.

1.4 The surfaces of fibre board when used for acoustical or decorative purposes shall be finished smooth and flat and reasonably free from projecting, coarse or hairy fibres.

1.5 Fibre board shall be approved by the Board.

1.6 Fibre board treated to reduce and retard its combustibility may be used in accordance with limitations as may be approved by the Board.

[TABLE 1

	Building Board (Note 5)	Plaster Base (Note 6)	Miscellaneous uses (Note 7)
Maximum thermal conductivity B.T.U. per hour per square foot per degree F. per inch thickness (note 1)	0.36	0.36	0.36
Minimum transverse strength, Lengthwise (note 2)	14	14	7
Pounds Crosswise (note 2)	12	12	7
Minimum deflection at ultimate load, inches	0.25	0.25	0.25
Maximum deflection at ultimate load, inches (note 3)	.85	.85	1.25
Minimum tensile strength, pounds per square inch (note 4)	175	175	100
Water absorption per cent	5	5	10
Maximum linear expansion, per cent	½	½	—
Nail holding strength lb	100	70	60
Bond strength per square foot of bonded surface	—	700	—

NOTE 1. No board of any class having a conductance greater than .0.72 b.t.u. per hour, per square foot per degree F. irrespective of thickness will be acceptable under these rules.
NOTE 2. This requirement is based upon specimens ½ inch thick. For specimens of other thicknesses the requirement shall be increased in direct proportion, that is, for a thickness of 1-inch, it shall be double, etc.
NOTE 3. Minimum deflection at rupture shall be not less than .25".
NOTE 4. Tensile strength requirements shall be applicable only on thicknesses up to and including 1-inch.
NOTE 5. Edges shall be square for building board.
NOTE 6. Edges shall be either ship lapped bevel and ship lapped, tongue and grooved, bevel and tongue and grooved, "V" jointed, or ship lapped and grooved. Each board shall be of a rough fibrous texture to insure good mechanical and suction bond.
NOTE 7. Edges shall be square unless ship lapped or offset.]

TABLE I

	Building Board	*Plaster Base*	*Roof Insulation Board*	*Interior Boards*	*Sheathing Boards*
Max. thermal conductivity, B.t.u. per hr. per sq. ft. per deg. F. per in. of thickness	*0.36*	*0.38*	*0.38*	*0.38*	*0.42*

	Building Board	*Plaster Base*	*Roof Insulation Board*	*Interior Boards*	*Sheathing Boards*
*Min. transverse load at rupture, each direction pounds per sq. in.**	*14*	*14*	*7*	*10*	*14*
*Deflection at rupture, inch, min.***	*0.25*	*0.25*	*0.25*	*0.15*	*0.25*
Deflection, inch, max. ...	*0.85*	*0.85*	*1.25*	*1.00*	*0.75*
*Min. tensile strength, pounds per sq. in.****	*175*	*175*	*100*	*150*	*175*
Water absorption, percent	*5*	*5*	*10*	*10*	*5*
Moisture permeability, time of penetration through the board, not less than, hours	..	..	..	..	*20*
Max. linear expansion, percent	½	½	½	½	½
Nail holding strength lb...	*100*	*70*	*60*	*60*	*100*
Bond strength per sq. ft. of bonded surface	..	700	..	..	..

* *This requirement is based on specimens ½ inch thick. For specimens of other thicknesses, the requirement shall be increased in direct proportion, that is, for a thickness of 1 inch, it shall be doubled, etc.*

** *This requirement is based on specimens ½ inch thick. For specimens of other thicknesses, the requirement shall be decreased in inverse proportion, that is, for a thickness of 1 inch, it shall be halved, etc.*

*** *Tensile strength requirements shall be applicable only on thicknesses up to and including 1 inch.*

1.5 EDGE FINISH

1.5.1 Building board edges shall be square.

1.5.2 Plaster base fibre boards shall have short edges square or fabricated and long edges specially fabricated.

1.5.3 ½" roof insulation shall be square edged. For thickness of 1 inch and over, edges shall be square unless offset is specified. When offset material is specified, the amount of the offset shall be 1 inch.

1.5.4 Interior board edges shall be either square, or specially fabricated.

1.5.5 Sheathing board edges shall be either square or specially fabricated as required.

Rule 2. Uses and Methods of Applying Fibre Board.

2.1 PLASTER BASE.

Fibre board may be used as a plaster base or wall board in non-fireproof commercial structures not more than 2 stories in height and in one and two family dwellings not exceeding three stories in height and in Class 3 multiple dwellings for partitions and ceilings where either no fire resistive rating is required or where a fire resistive rating not exceeding ½ hour is permitted and installed in accordance with the requirements of C-26-458, Administrative *Building* Code [(8.4.10.2) and C-26-462.0, Administrative *Building* Code (8.4.10.6)].

The joints on walls and ceilings shall be broken at least one stud apart, and in no event shall joints of fibre board lath be in vertical line, excepting in the corners of a room. The joints shall be broken at every other board on the walls and at right angles to the furring on ceiling. [C-26-462.0, Administrative Code (8.4.10.6).] [They] *Each length* shall be solidly nailed at every bearing not more than 6" center to center for walls and 4" center to center for ceilings and nailed to all studding with 1⅛" No. 13 gauge blued or galvanized plaster board nails, with ⅜" heads for ½" board and 1¾" nails with ⅜" heads for ¾" or 1" board, and with proportionately longer nails for thicker fibre board. *No nail shall be driven closer than ¼ inch of the edge of fibre board.* All corners shall be reinforced with standard metal corner beads. All re-entrant angles shall be reinforced with standard metal angle lath strip. Reinforcement shall be securely stapled on the lath. At the juncture of frame and masonry construction, 6" strip of expanded metal lath shall be used. [No board shall be run through from room to room.]

2.1.1 Fibre board when used as a plaster base shall comply with the requirements of the Administrative Building Code as follows:

C26-458.0. Combustible lath.—a. It shall be unlawful, in the case of structures exceeding three stories in height, to apply combustible lath on wood studs more than two stories in advance of the scratch coat plastering.

b. It shall be unlawful to run combustible lath through from room to room.

[2.1.1] C26-462.0. It shall be unlawful to wet fibre board before plastering. [C26-462.0, Administrative Code (8.4.10.6).]

2.1.2 "SCRATCH OR FIRST COAT."

The scratch coat shall contain not more than ⅔ by weight of sand and ⅓ calcined gypsum plaster with fibres or including other materials and fibring so that the setting time shall not be greater than four hours nor less than 1½ hours and with a tensile strength of not less than 75 pounds per sq. in. The scratch coat shall be not less than ¼" thick.

2.1.3 "BROWN OR SECOND COAT."

The brown coat shall contain not more than ¾ by weight of sand and the remaining ¼ shall not contain less than 3/5 of calcined gypsum and not more than 2/5 of other materials, including fibring. The setting time shall be not more than five hours nor less than two. This brown coat shall have a tensile strength of not less than 50 pounds per sq. in. and shall be not less than 3/16" in thickness.

2.1.4 "FINISH COAT."

The finish coat shall be applied after the application of the second or brown coat has become dry, and shall be set in not less than 20 minutes nor more than four hours and shall have a tensile strength of not less than 200 pounds per sq. in. and be not less than 1/16" thick.

2.1.5 "GROUNDS."

Suitable grounds shall be established with each thickness of fibre board so as to insure a minimum thickness of ½" plaster. Fibre board shall extend from floor to ceiling with grounds secured to the framing members through the fibre board.

2.2 FIBRE BOARD SHEATHING.

Fibre board when used as a sheathing material shall comply with the requirements of the Administrative Building Code as follows:

C26-538.0b. Approved fibre board sheathing at least one half of an inch in thickness and four feet in width may be used instead of wood sheathing when bearing on four studs and fastened to each bearing with nails spaced six inches or less apart, except that where necessary for fitting around openings and similar purposes, the dimension of each board used for such purpose shall be the maximum possible if such board is less than four feet in width.

When fibre board is ½" thick the nails used shall be 1½" long with ⅜" head and when the fibre board is ¾" or 1" the nails used shall be 2" long with ⅜"

head. Nails shall be driven not closer than ¼ inch of the edge of the sheathing board.
[Approved fibre board sheathing at least one-half of an inch in thickness and four feet in width and in full lengths where possible may be used instead of wood sheathing when bearing on 4 studs and fastened to each bearing with 1½" wire nails, 6" or less c-c, with ⅜" head, and for ¾" or 1" board, the nails shall be 2" long. See C26-538.0, sub. b.] When using fibre board in widths of 2 ft. in addition to the requirements of C-26-538.0b, supplemental bracing of the framework of the wood frame structure shall be provided by means of let-in diagonal braces of 1" x 4"'s sound and free from knots at all external corners in the outside face of the studs at approximately 45° and crossing at least three studs, or supplemental bracing may be by a series of 2" by 4" struts diagonally cut and placed between the studs at an angle of 45° with the horizontal and extending from sill to plate wherever possible. All braces shall be securely nailed to each stud and to sill and plate. Where openings occur near the corners, 1" x 4"'s let-in knee braces in the face of the studs shall be installed above and below the openings at approximately 45°, extending across not less than 3 studs. When used over doorways and under windows, vertical and horizontal 2" x 4"'s shall be provided to afford nailing bases along all edges. Equivalent bracing of steel may be substituted for the required wood bracing. The use of fibre board as roof sheathing is not permitted except as insulation over *approved* sheathing material.

2.3 ASBESTOS CEMENT COVERED FIBRE BOARD. Fibre board protected with at least ⅛" asbestos cement and secured to the fibre board may be used as a siding material in Class 4 and Class 5 construction and as an interior partition material in places where no fire resistive rating is required and when approved by the Board.

[2.3 MINOR FRAME STRUCTURE.
Approved fibre board siding may be used on wood frame sheds erected where permitted and where open on at least one side, provided such sheds are fifteen feet or less in height and do not exceed 2500 square feet in area and are at least 4 feet from any lot line and are covered on sides and roof with approved fire-retarding material. C26-541.0 (8.7.2.6.1).]

[2.4 USE OF FIBRE BOARD WHEN COVERED BY AN INCOMBUSTIBLE WEARING SURFACE. Untreated combustible insulation board of a single layer or thickness not to exceed ½" when cemented or attached directly to the surface of an approved type of fire-resistive floor construction may be used elsewhere than in stair enclosure and corridors when covered by an incombustible wearing surface, in accordance with these rules. C26-667.0, sub. 4c (10.9.2.4).]

[2.5 ROOF AND FLOOR INSTALLATION IN CLASS 1 AND CLASS 2 STRUCTURES.
Fibre board used as insulation may be applied directly to the fire-resistive floor or roof construction in cement, provided such insulation is covered by at least one and one-half inch thickness of Portland Cement concrete or other equally fire-resistive material of equal thickness. C26-619.0, sub. a, Administrative Code (10.3.1).]

3.0 USES OF FIBRE BOARD AS WALL AND CEILING COVERING. MATERIAL SUPPLEMENTING THE REQUIREMENTS OF THE ADMINISTRATIVE BUILDING CODE.

3.1 CLASS 1 AND CLASS 2 CONSTRUCTION.
In elsewhere than stair enclosures, public hallways and public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner, fibreboard may be used as an acoustical material in ceilings only of spaces not exceeding 2,000 sq. ft. in area and when such spaces are separated from the remainder of the floor area by fireproof partitions and fireproof doors. Fibreboard, when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the strips shall be of fireproofed wood meeting the requirements of C26-331.0 or of approved incombustible materials and the spaces in between the furring strips and the fibre board shall be densely filled with approved incombustible material. Fibre board shall not be applied to side and soffits of beams. When fibre board is used on a suspended ceiling system, all hangers, purlins and cross furring shall comply with C26-461.0 and the fibre board shall be applied directly to a plastered ceiling on approved lath or over a base of approved incombustible board at least ⅜" thick with all joints adequately sealed with gypsum plaster.

3.2 CLASS 3 CONSTRUCTION.
In elsewhere than stair enclosures, public hallways, public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner, fibreboard may be used as a decorative, thermal or acoustical material without restriction except that in places of assembly (C26-116.0) fibreboard may be used in areas not exceeding 3,000 sq. ft. but not more than 50% of the area of any floor provided the ceiling construction meets the requirements of C26-669.0 and the walls surrounding the space and opening protective assemblies therein shall be fireproof. Fibreboard when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the spaces in between the fibre board and the furring strips shall be densely filled with incombustible material.

3.3 CLASS 4 CONSTRUCTION.
The use of fibreboard as a decorative, thermal or acoustical material shall be permitted without restriction except when specifically prohibited by the Administrative Building Code or the Board's rules. When fibreboard is used as exterior sheathing, it shall be protected from the elements.

3.4 CLASS 5 CONSTRUCTION.
The use of fibreboard as a decorative, thermal or acoustical material shall not be permitted except within spaces not exceeding 2,000 sq. ft. in area, in elsewhere than stair enclosures, public hallways, public spaces, kitchens or cooking spaces and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner when separated from the rest of the floor space by fireproof partitions and opening protective assemblies. Fibreboard when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the spaces in between the fibre board and the furring strips shall be densely filled with incombustible material. Fibreboard may be used as an interior insulation material when protected by at least ⅜" of plaster or of approved incombustible board of similar thickness and the joints filled or covered with incombustible batten strips.

PUBLIC HEARING

3.5 CLASS 6 CONSTRUCTION.

In elsewhere than stair enclosures, public hallways and public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner the use of fibreboard as a decorative, thermal or acoustical material may be permitted in spaces not exceeding 2,000 sq. ft. in area when separated from the remainder of the floor space by fireproof partitions and opening protective assemblies. Fibreboard when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the spaces in between the fibre board and the furring strips shall be densely filled with incombustible material.

3.6 LABOR LAW.

The use of fibreboard as a decorative, thermal and acoustical material shall be prohibited except within spaces designated as non-manufacturing area and only when separated from the rest of the floor space by fireproof partitions and opening protective assemblies, except that in factories four stories or less in height, fibreboard may be used elsewhere than stair enclosures and public hallways and public spaces as permitted under the Labor Law.

3.7 MULTIPLE DWELLING LAW.

The use of fibreboard shall be prohibited in kitchens and cooking spaces in class 3 construction elsewhere than in stair enclosures, public hallways and public spaces, except as a plaster base, when the area of floor partitions shall not exceed 15% of the entire partition area of any floor. Fibreboard may be used on the top floor ceiling as a plaster base without restriction as to area.

In old law tenements and converted dwellings the use of fibreboard as a decorative, thermal and acoustical material may be permitted elsewhere than in stair enclosures, public hallways, public spaces, kitchens, cooking spaces and in cellars.

2.4 ROOF STRUCTURES AND ROOFING

C26-619.0 FORM AND FIRE RESISTIVE RATINGS OF FLOOR AND ROOF CONSTRUCTION.—a. Floor and roof construction between supporting beams in class 1, fireproof structures, shall consist of arches or slabs of incombustible material or assemblies and shall either by itself or in combination with its protective ceiling have a fire resistive rating of at least three hours, except as specifically provided otherwise. Nothing in this section shall prevent the application of cork or fibre insulation board or other combustible insulation material applied directly to the fire resistive floor or roof construction in cement, provided that in the case of floor construction such insulation is covered by at least one and one-half inch thickness of portland cement concrete or other equally fire resistive material of equal thickness. Similar floor and roof construction in class 2, fire-protected structures, shall either by itself or in combination with its protective ceiling have a fire resistive rating of at least one and one-half hours, except as otherwise specifically provided.

2.4.1 Insulation fibre board so applied shall be over a screeded concrete roof or floor, graded where necessary, and cemented to the arch with hot asphalt or coal tar pitch. Fibre insulation board shall not be left exposed to the elements, nor shall it be applied to wet surfaces of any kind.

[2.6 ROOF INSULATION OTHER THAN IN CLASS 1 AND CLASS 2 STRUCTURES.

The use of fibre board as roof insulation is lawful, provided such fibre board is covered with an approved type of fire-resistive roof covering applied directly thereto, C26-680, sub. 2, Administrative Code (10.12.11.1), and when installed in accordance with the requirements of 2.2 of these rules.]

[2.7 USE OF FIBRE BOARD IN FIRE WALLS.

(Formerly Rule 2.8)

Fibre board may be used as insulation in fire walls C26-632.0 sub. g AC (10.4.1.2) if cemented and attached directly to the face of the wall laid up with no intervening air spaces and protected with not less than 2 in. of secured masonry laid tight against the fibre board.]

C26-680.0 ROOFING.—a. Materials for roofing.—

1. Roofing placed on any structure shall meet the requirements of section C26-605.0, except as provided in section C26-539.0, and subdivision b of section C26-680.0.

2. The use of cork or fibre board as roof insulation is lawful provided such cork or fibre board is covered with an approved type of fire resistive roof covering applied directly thereto.

2.5 ADDITIONAL ADMINISTRATIVE BUILDING CODE REQUIREMENTS PERTAINING TO THE USE OF FIBRE BOARD ARE AS FOLLOWS:

C26-541.0 MINOR WOOD FRAME STRUCTURES.—a. Wood frame sheds.—Wood frame sheds, open on at least one side, may be erected of wood or with approved fibre board siding, throughout the city, but such sheds shall be fifteen feet or less in height, shall cover twenty-five hundred square feet or less, shall be placed at least four feet from any lot line, and shall be covered on the sides and roof with approved fire retarding material.

b. Wood frame outhouses.—Wooden outhouses used exclusively for domestic purposes may be constructed throughout the city to a wall height of eight feet, and may be one hundred fifty square feet in area, provided the roofs are covered with approved fire retarding materials and the walls are located at least three feet from the lot line.

c. Wood frame builders' shanties.—One story structures for the use of builders in connection with any building operation for which a permit has been issued, may be constructed of wood, or may be sheathed with approved fibre board, and placed on the lot where such building operation is carried on in any part of the city, or on adjoining lots if such structures do not interfere with the safe occupancy of any structures thereon, or on the sheds provided over the sidewalks in front of such building operation.

d. Wooden fences.—Wooden fences may be erected throughout the city to a maximum height of ten feet.

C26-667.0 PERMITTED USES OF WOOD OR OTHER COMBUSTIBLE MATERIALS IN CLASS 1, FIREPROOF STRUCTURES, AND CLASS 2, FIRE-PROTECTED STRUCTURES.—

4. Wearing surfaces.—

(c). Untreated combustible insulation board in a single layer not to exceed one-half of an inch in thickness, when cemented or attached directly to the surface of an approved type of fire resistive floor construction, may be used elsewhere than in stair enclosures and corridors when covered by an incombustible wearing surface in accordance with the rules of the board.

2.5.1 Except as provided in Section C26-619.0 wearing surface when installed over fibre board shall be of approved incombustible material bonded and sealed in accordance with the terms of the Board's approval of the wearing surface material.

C26-631.0 CONSTRUCTION OF FIRE WALLS

g. The application of cork or fibre insulation board may be permitted if cemented or attached directly to the face of the wall laid up with no intervening air spaces and protected as required by the rules of the board.

2.5.2 When used on fire walls, fibre board shall be protected by at least ⅜" of plaster or approved incombustible material of similar thickness with joints filled or covered by incombustible batten strips.

GROUP 2—FIRE PARTITIONS

C26-633.0 MATERIALS FOR FIRE PARTITIONS.

b. Where combustible insulation board is permitted, it shall be applied directly to the face of the partition by cement or other approved method, but in no case shall it be built into the required partition construction.

PUBLIC HEARING

PROPOSED RULES ON EXTERIOR VENEERING MATERIALS

(465-44-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday morning, June 8, 1945, at 10 a.m., Room 1013, Municipal Building, Manhattan, on Proposed Rules on Exterior Veneering Materials.

AUTHORITY:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, Paragraph 2, Charter of the City of New York and C26-189.0 of the Administrative Building Code, these rules are to supplement the existing requirements of the Administrative Building Code, Sections C26-437.0, C26-438.0, C26-439.0, C26-544.0 through C26-550.0, C26-544.0 and C26-550.1 j.

SCOPE:

These rules are supplementary and additional to the requirements pertaining to thin not exceeding 2" exterior veneering materials so as to provide for the sufficiency of attaching and anchoring mediums on such exterior veneers in accordance with the intent of the Administrative Building Code as outlined in Section C26-3.0. They shall apply to veneering materials of metal, cement-asbestos, precast or natural stone, ceramic, tile, concrete masonry units, glass sheets, glass block, plastic materials and other veneering materials, as may be approved by the Board. Note: These rules shall not apply to interior veneering materials.

Extracts from the Administrative Building Code contained herein in small type have been assigned decimal rule numbers for convenient reference only and are not to be construed as rules.

Rule 1.0 General.

1.1 These rules shall apply to all materials used as exterior veneers of a thickness not exceeding two inches, bonded or unbonded, and with or without air spaces between the veneer and the supporting surface.

1.2 Veneer materials shall not be credited with contributing to the total wall thickness, the stress resisting sections, or to the fire resistive value of the composite construction unless specifically approved by the Board for any given combination of materials.

1.3 Veneer materials shall not be used to support vertical loads other than the veneering material above unless permitted otherwise as provided for in Rule 1.3. Where openings occur the veneer shall be supported by substantial lintels of incombustible materials.

1.4 All joints between masonry veneer materials shall be filled flush with mortar or approved mastic cement. Around wall openings the joints between the veneer and backing material shall be filled flush with similar materials. Gypsum shall not be used in veneer exposed to the weather.

1.5 All metal reinforcements, bolts, clips, tie wires and supports shall be of non-corroding metal and of a type and for uses as may be approved by the Board.

1.6 Veneering material shall not be placed over existing veneering material.

1.7 Veneering when placed on a structure shall not encroach beyond the building line.

1.8 Before attaching veneering materials to any surface, the soundness of structural members shall be examined by exposing the structural members and when found necessary, reinforcement or replacement of structural members shall be made to the satisfaction of the borough superintendent.

1.9 Signs shall be so hung that their weight shall not bear on the veneering material and shall be supported by grounds set in the supporting wall.

Rule 2.0 Metal Veneers.

2.1 Metal veneers shall be of non-ferrous materials or of steel sheets protected on all sides by porcelain enamel or other approved corrosion resistant surfacing.

2.2 Metal veneers shall be securely attached to the supporting construction with approved non-corroding metal hangers, clips, ties, screws, or bolts, secured to the metal veneer in a manner approved by the Board for each specific veneering material, and spaced not more than 16 o.c. vertically and 24 inch o.c. horizontally. Veneer units exceeding 4 sq. ft. in area shall be attached to the construction at not less than four points, so distributed as to render adequate attachment to the supporting construction.

2.3 Where allowed to be used all corrosive supports for metal veneers shall be adequately protected from the effects of the elements by painting with approved paint, galvanizing or other equivalent means. Where the use of wood is permissible all wood used with metal veneers shall be impregnated with creosote or other approved preservative material.

2.4 The joints and edges of all metal veneers shall be caulked or painted with approved waterproofing materials or other approved equivalent methods of providing resistance against moisture penetration.

2.5 The height of walls veneered with metal units on walls other than panel or enclosure walls shall be not more than 40 ft. above the foundations.

Rule 3.0 Precast or Natural Stone, Ceramic and Porcelain, Tile, Terra Cotta and Precast Concrete Units.

3.1 C26-157.0 Veneered Wall.—The term "veneered wall" shall mean a wall with a masonry facing which is attached to, but not bonded so as to form an integral part of, the wall for purposes of load bearing and stability.

3.2 C26-437.0 Anchorage for veneered masonry walls.—When masonry walls are veneered with brick, architectural terra cotta, stone or other masonry, the material shall be securely tied into the backing with the equivalent of the following minimum anchorage requirements:

1. For anchorage of brick veneering on masonry, one substantial non-corroding metal wall tie for each three hundred square inches of wall surface.
2. For anchorage of architectural terra cotta and other moulded units on masonry, one non-corroding metal anchor at least equal to five-sixteenths of an inch round or one-eighth of an inch by three-quarters of an inch flat in sectional area to each piece and two or more such anchors to all pieces over 18 inches in length or more than three hundred square inches in superficial area, except where such architectural terra cotta facing is bonded and completely filled with the brick backing.
3. For anchorage of stone veneering on masonry, one non-corroding anchor at least three-sixteenths of an inch by one inch flat, or its equivalent in cross sectional area, to each piece over one-half of a square foot in face area and at least two anchors to all pieces over 24 inches in length or more than four hundred square inches in superficial area.

3.3 C26-438.0 Thickness and height of veneered walls.—In all cases the veneering shall be excluded in calculating the bearing wall thickness and the required thickness of the wall. The maximum height of veneering on walls, other than panel or enclosure walls, shall be forty feet above the foundations.

3.4 C26-439.0 Veneered wood frame structures.—a. Wood frame structures may be veneered with masonry laid up in cement or cement-lime mortar. Such veneer

shall be anchored to the frame by non-corroding metal ties equivalent to the following minimum requirements:

1. For anchorage of brick veneer on frame structures, one wall tie to every 160 square inches of wall area.
2. For anchorage of stone, architectural terra cotta and other moulded units on frame structures, one spike anchor or two wall ties to every two hundred sixty square inches of wall area.

b. It shall be unlawful to use such veneer on frame structures above a maximum height of 35 ft. above the foundation; it shall be unlawful also, to use such veneer on structures having more than two stories and a gable. The veneer shall be directly supported on the foundation.

c. Frame structures veneered with masonry shall be considered to be in a different class from masonry structures. It shall be unlawful to attribute any structural strength to the veneer.

3.5 Veneer units in this group shall be of approved type and not be greater than 2 in. in thickness. The surface bond of veneer units with the scored parging shall be adequately scored or provided with equivalent keys to obtain adequate anchorage. In addition to the attachment herein required, the anchorage requirements of C26-437.0 shall be complied with. Equivalent substitute methods of anchorage consisting of non-corroding pin and rosette or a continuous angle or anchor bolts secured to the reinforcement within the veneer may be used when approved by the Board for any specific veneering material.

3.6 The parging material in which veneer units are embedded shall consist of a portland cement mortar of 1:2 mix, 1 part of approved portland cement to two parts of screened sand passing through a 20 mesh screen not less than ¾ in. thick and reinforced with 4 in. mesh galvanized wire reinforcement. Such reinforcement to be secured to the masonry or concrete wall with approved non-corroding anchors at the rate prescribed in C26-437.0. When the supporting wall is of wood framework, approved paper backed wire lath or other approved material may be used when attached to the wood framework as provided in C26-459.0h, provided the weight of the veneering materials is carried on an incombustible base. The parged surface shall be troweled to a plane surface and then scratched to receive the setting bed. The setting bed of not less ⅜" thick shall not be applied until the scratched parged surface is set. Prior to parging masonry on concrete surfaces, such walls shall be thoroughly wetted prior to the application of the parging mortar.

3.7 Waterproofing material if used in mortar shall be of approved type.

3.8 Veneer units in this group shall be not greater than 144 sq. in. in area.

3.9 The base for supporting veneers shall be of suitable incombustible materials.

3.10 All veneer units used in Class 1, 2 and 3 buildings exceeding 20 ft. in height, regardless of thickness, shall be attached to the scored parged surface by mechanical anchorage as provided in C26-437.0, pars. 1, 2, 3 and shall have lugs, keys or equivalent scoring of the backside of the veneer unit.

Rule 4.0 Glass Veneer on the exterior of structures may be used only in accordance with the provisions of this title and the rule of the Board.

4.1 C26-545.0 Minimum thickness.—The minimum thickness of glass veneer shall be eleven-thirty-seconds of an inch, except where glass veneer extends within 4 in. or less of the sidewalk level, the minimum thickness of that portion of the veneer below a level of four inches above the sidewalk at its point of intersection with the veneer shall be seven-sixteenths of an inch.

4.2 C26-546.0 Maximum area and dimensions.—a. The maximum area of a single section of glass veneer shall not exceed 10 sq. ft. in area when 15 ft. or less above the level of the sidewalk directly below and shall not exceed 6 sq. ft. in area when more than 15 ft. above the level of the sidewalk directly below.

b. The maximum length of any section of glass veneer shall be 60 in.

4.3 C26-547.0 Edges.—All edges of each plate of glass veneer shall be ground square. It shall be unlawful to use mitred joints.

4.4 C26-548.0 Backing for glass veneer.—Glass veneer may be placed only against substantial, rigid, incombustible surfaces of true plane, plumb and straight. The backing shall in any case provide rigidity and stability equal to or greater than that provided by one-inch thick cement mortar on wire lath secured to studs spaced 12 in. or less on centers. It shall be unlawful to use wood backing surfaces, regardless of whether they are fireproofed.

4.5 C26-549.0 Setting of glass veneer.—a. Glass veneer shall be set only when the backing is thoroughly dry and after the application of a thorough and uniform bond coat of material approved by the board. The bond coat shall be such as to effectively seal the portions of the veneer backing and to insure against the absorption of the vital properties of the mastic cement.

b. Mastic cement approved by the board shall be applied to the back surface of each plate of the glass veneer, which veneer shall be applied to the backing with a substantial and uniform pressure over its entire area sufficient to flatten out the gobs of mastic cement to a thickness of between one-quarter of an inch and five-eighths of an inch. Sufficient mastic cement shall be applied to insure that at least 60% of the total area of the section is bonded to the backing.

c. The bond coat and the mastic cement shall be of one manufacture and shall be certified to be of such composition as to insure close affinity between the two materials.

d. Abutting edges of glass veneer shall be ground square and uniformly buttered with an approved pointing compound.

e. Where glass veneer extends to the sidewalk surface each such section shall rest on two cushions of approved resilient material, one near the end of each such section or plate. Cushions shall be one-quarter of an inch or more in thickness. The joint between the bottom edge of the glass section and the top of the sidewalk shall be caulked with a waterproof compound.

f. Where the glass veneer is permitted to extend below the level of the sidewalk surface, an expansion joint of one-quarter of an inch or more shall be provided between the outer face of the glass veneer and the edge of the sidewalk. Such expansion joint space shall be filled with a resilient caulking compound from the level of the sidewalk surface to a depth at least ¾ of an inch below such level.

g. Where glass veneer is applied at an elevation more than eight feet above the sidewalk surface, the mastic cement binding shall be supplemented by the use of metal clip angles of a design approved by the Board. Clips shall be located in each vertical or horizontal edge of each section of veneer and shall be secured through the backing directly into the wall behind by means of expansion bolts and in a manner satisfactory to the superintendent. Angle clips shall be two inches or more in length and shall be of at least No. 16 U. S. gauge, and shall be so designed as to furnish at least two-inch bearing support on each clip and shall hold the glass in a vertical plane independently of the mastic cement.

h. All horizontal joints shall be cushioned with pads of adhesive asphaltic tape which shall extend from the rear surface of the glass to one-eighth of an inch or less from the front surface. Horizontal joints shall be buttered with joint cement over the full depth of the joint, including the surface of the cushion tape.

i. Shelf angles of approved design shall be set at vertical intervals of 3 ft. or less, in all horizontal joints located 8 ft. or less above the sidewalk, except that, where there are show windows it shall be unnecessary to have shelf angles below the level of the tops of the show window bulkheads. Shelf angles shall be of a type approved by the board and shall be secured to the backing in a manner satisfactory to the superintendent.

j. Where glass veneer is confined between non-resilient materials at ends, expansion shall be provided for by means of an expansion joint at each end of one-quarter of an inch or more throughout the entire height of the veneer.

4.5.1 Clips required under C26-549.0, sub-section g shall be non-corroding and located in each vertical plane in horizontal edge of each section of veneer and shall be thoroughly secured

PUBLIC HEARING

through the backing by means of non-corroding toggle bolts or into the wall directly behind the glass veneer by means of non-corrodible expansion bolts at least 1¼" long.

4.5.2 Shelf angles required under C26-549.0, subsection i shall be of non-corroding metal of a type approved by the board and shall be thoroughly secured through the backing by means of non-corroding toggle bolts or into the wall directly behind the glass veneer by means of non-corroding expansion bolts at least 1¼" long.

4.5.3 Glass veneer units shall be separated from each other and adjoining material by an expansion joint at least 1/32" wide. Between the bolts and the veneer units there shall be a clearance of 1/64". All expansion joints shall be filled with an approved waterproofing mastic compound.

4.5.4 Glass veneer material shall not be used above a point higher than 22 ft. above the foundation of the structure.

4.5.5 Exposed edges of glass veneer shall be flashed with non-corrodible sheet metal and caulked with an approved waterproofing mastic compound.

4.5.6 All awning brackets shall be set so as to be free of contact with the glass veneer. Glass veneer above awning boxes shall be carried by a continuous steel angle attached to the wall by anchors.

4.5.7 Signs shall be hung clear of the glass veneering material.

4.6 Glass Blocks.

4.6.1 C26-550.1.
j. Veneer or ashlar: Glass blocks may be used as exterior wall veneer under the rules of the Board.

Note: Investigation has shown that glass block is not used as a veneer material in building construction and when uses of glass block are developed as veneer, the Board will then consider including in these rules the safe provisions for use.

MINUTES

(Continued from page 440)

removed; that only motor vehicles in condition for operation shall be stored or parked and only motor vehicles of the pleasure-car type; that no signs shall be erected on the premises advertising the parking and storage use and the sale of used cars, except a sign advertising each use, attached to the fence, provided such signs do not exceed 15 sq. ft. in area, do not extend beyond the building line and are not illuminated; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that all permits required shall be obtained and all work completed within six months from the date of this *amended* resolution and that a certificate of occupancy shall be obtained."

---

* Correction—The words *"that along the street building line, there shall be erected a steel picket fence"* inserted in lines 36 and 37 of the resolution.

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

NOTICE

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

This issue of the Bulletin contains in the order given—

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting, May 22, 1945, at 10 A. M., Affecting Calendar Numbers 78-45-BZ, 95-45-BZ, 60-45-BZ, 330-29-BZ, 188-45-BZ, 235-45-A, 251-45-A, 697-44-A, 8-45-A, 44-45-A and 107-45-A.

Minutes of Regular Meeting, May 22, 1945, at 2 P. M., Affecting Calendar Numbers 10-45-A, 92-45-A, 246-45-A, 265-45-A, 277-45-A, 283-45-A, 392-41-A, 407-42-A, 728-42-A, 577-44-A, 533-44-A, 62-28-A, 4-45-A, 100-45-A, 115-45-A, 226-45-A, 239-45-A, 298-39-A, 253-23-BZ, 55-32-BZ, 79-37-BZ, 575-25-BZ, 428-44-BZ, 114-28-BZ, 1000-40-BZ and 786-42-BZ.

Rules—Extracts From the Administrative Code of the City of New York, Relating to Refrigerating Systems.

Rules Governing the Use of Equipment for Spraying and Drying of Paints, Varnishes, Lacquers and Other Flammable Surface Coatings and Storage of Such Materials.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to May 22, 1945.

Cal. No. *Dept.* *Premises Affected.*

290-45-BZ—H.B.Q.—155 Beach 82nd street, west side, 360.04 ft. south of Rockaway Beach boulevard (Block 618, Lots 49, 54 and 154), Rockaway Beach, Borough of Queens, Misc. 490-45.

291-45-A—H.B.B.—5101-5111 2nd avenue and 214-216 51st street, southeast corner (Block 797, Lots 5-11), Borough of Brooklyn, Amendment to Alt. 384-41.

292-45-A—F.D.—Re: Packaging of inflammable mixture known as "Plasti-Cleaner" in one pint or 16 oz. glass containers in New York City (capacity of glass containers not in conformity with Administrative Code specifications), Decision.

293-45-BZ—H.B.B.—739-747 Albany avenue and 600-610 Clarkson avenue, southeast corner (Block 4846, Lot 1), Borough of Brooklyn, N.B. 122-45.

294-45-A—F.D.—148-150 West 20th street, south side, 196 ft. east of 7th avenue (Basement); (Block 795, Lot 67), Borough of Manhattan, 33086-LF and Decision.

295-45-A—F.D.—421 West 126th street, north side, 266 ft. west of Morningside avenue and 416 West 127th street, south side, 225 ft. west of Morningside avenue (1st floor); (Block 1967, Lots 13 and 33), Borough of Manhattan, 41308-C.

296-45-BZ—H.B.B.—1769-1779 Coney Island avenue, east side, 315 ft. south of Avenue N (Block 6749, Lots 78 and 81), Borough of Brooklyn, Alt. 1044-45.

297-45-A—H.B.Bx.—10-12 East Van Cortland avenue, south side, 29 ft. 6 in. west of Villa avenue (Block 3322, Lot 29), Borough of The Bronx, Amendment to Alt. 169-45.

298-45-BZ—H.B.B.—6201-6223 15th avenue, east side, between 62nd and 63rd streets (Block 5530, Lot 1), Borough of Brooklyn, Amendment to N.B. 21-42.

299-45-A—F.D.—1208 Richmond avenue, west side, 400 ft. south of Lisk avenue (Block 1655, Lot 7 and Block 1660, Lot 1), Graniteville, Borough of Richmond, 41128-LC.

300-45-A—F.D.—83-30 Kew Gardens road, west side, 8 ft. south of 83rd drive (Block 3356, Lot 30), Kew Gardens, Borough of Queens, 14918-LF.

301-45-SM—Calairco C1 Flameproofing Compound, manufactured by Calairco Flameproofing Co., Material.

302-45-A—H.B.Q.—43 Windsor place, east side, 107 ft. south of Queens boulevard (1st and 2nd floors); (Block 3257, Lot 45), Forest Hills, Borough of Queens, Alt. 457-45.

303-45-A—H.B.B.—6113-6123 7th avenue (6109-6119 displayed), east side, 100 ft. south of 61st street (ground floor); (Block 5794, Lot 1), Borough of Brooklyn, Alt. 888-45.

304-45-A—H.B.B.—1613-1635 East 16th street, east side, 100 ft. south of Avenue P (2nd floor); (Block 6779, Lot 69), Borough of Brooklyn, Alt. 1109-45.

305-45-A—H.B.M.—154, 156 and 158 Ludlow street, east side, 25 ft. south of Stanton street (2nd, 3rd and 4th floors); (Block 411, Lots 50, 51 and 52), Borough of Manhattan, Amendment to Alt. 1214-44.

Restored to Calendar.

114-28-BZ—H.B.Q.—109-07 to 109-17 101st (Jerome) avenue, northwest corner of 110th street (Block 460, Lots 51, 53 and 55), Richmond Hill, Borough of Queens, M-13-45.

1000-40-BZ—H.B.Bx.—2337 Grand Concourse and 164 Field place, southwest corner (Block 3164, Lot 19), Borough of The Bronx, Alt. 199-40.

786-42-BZ—H.B.R.—8 Crabtree avenue, southwest corner of Bloomingdale road (Block 7092, Lot 61), Rossville, Borough of Richmond, Alt. 142-42.

DESIGNATIONS: **H.B.**—Department of Housing and Buildings; **H.B.B.**—Department of Housing and Buildings, Brooklyn; **H.B.M.**—Department of Housing and Buildings, Manhattan; **H.B.Q.**—Department of Housing and Buildings, Queens; **H.B.R.**—Department of Housing and Buildings, Richmond; **H.B.Bx.**—Department of Housing and Buildings, Bronx; **H.D.**—Health Department, and **F.D.**—Fire Department.

MAY 29, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, May* 29, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

670-44-BZ—Application, November 15, 1944, under section 21-C of the zoning resolution, of Albert E. Wheeler, applicant, on behalf of Vinmont Land Corporation, owner, to permit in a C and F area district, a one-family residential development not conforming to the area requirements; premises east side of Mosholu avenue, from West 254th to West 255th streets (Block 3421C, Lot 1311 and Block 3421D, Lot 1417), Borough of The Bronx.

78-45-BZ—Application, February 16, 1945, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of The Greater New York Brewery, owner, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory; premises 284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.

556-20-BZ—Application of Michael Glick, applicant, on behalf of B-J Holding Corporation, owner, reopened May 8, 1945, for consideration re amendment of resolution as to additional use—Application previously granted on condition, under section 7e of the zoning resolution, permitting partly in a business use and partly in a residence use district, the erection of a garage for more than five motor vehicles; premises 1930-1932 Jerome avenue, east side, 179.25 ft. north of East 177th street (Block 2853, Lot 9), Borough of The Bronx.

71-35-BZ—Application of John Krupski, applicant and owner, reopened May 8, 1945, for consideration as to extension of variance—Application previously granted on condition, under section 21 of the zoning resolution, for a term of two years, permitting in a residence use district, the maintenance of a garage for the storage of one commercial truck; premises 147-15 Brinkerhoff avenue, north side, 100 ft. east of Liverpool street (Block 2725, Lots 412 and 414), Jamaica, Borough of Queens.

576-44-BZ—Application, October 11, 1944, under section 21 of the zoning resolution, of Anthony M. De Rose, applicant, on behalf of Amrul Corporation, owner, to permit in a residence use district, the change of occupancy of a club house to a place of public assembly (meeting room, confirmation and wedding parties); premises 2017 Grand Concourse northwest corner of Bush street (Block 2808, Lot 90), Borough of The Bronx.

50-45-BZ—Application, February 3, 1945, under section 21 of the zoning resolution, of The Dime Savings Bank of Brooklyn, applicant and owner, to permit in a business use C area district, the erection of an extension to a bank building, the structure as extended, occupying in excess of the permitted area; premises 1101 Avenue J, northeast corner of Coney Island avenue (Block 6704, Lot 49), Borough of Brooklyn.

284-45-BZ—Application, May 7, 1945, under section 7b of the zoning resolution, of Andrew A. Oliveri, applicant, on behalf of Frank Ray Howe, Director, Bureau of Real Estate, Board of Estimate, for the City of New York, owner, to permit the extension of a business use on a lot located partly in a restricted retail district and partly in a residence use district, into the more restricted (residence) use district; premises 102 East 40th street, south side, 80 ft. east of Park avenue (Block 895, Lot 1) (old Lot 89), Borough of Manhattan.

Appeals from Administrative Decisions

251-45-A—33-67 35th street, east side, and east side of 2nd avenue, 1300 ft. 4 in. north of 39th street (5th floor, East Section C, Building 5); (Block 687, Lot 1), Borough of Brooklyn.

273-45-A—255-257 Wallabout street, north side, 150 ft. west of Harrison avenue (1st floor); (Block 2239, Lots 42 and 43), Borough of Brooklyn.

126-45-A—550 Halleck street, southwest side, 250 ft. southeast of Randall avenue (1st floor); (Block 2769D, Lot 204), Borough of The Bronx.

HARRIS H. MURDOCK, *Chairman.*

JUNE 5, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning June* 5, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

46-45-BZ—Application, February 1, 1945, under sections 7c and 21 of the zoning resolution, of Reuben Siskin, applicant and owner, to permit in a business use district, the extension of the factory use in an existing factory building so as to be in excess of the lot area; premises 1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn.

95-45-BZ—Application, February 23, 1945, under sections 7c and 21 of the zoning resolution of Lama and Proskauer, applicants, on behalf of Marie Atherton, owner, to permit in a business use C area district, the alteration and extension of an existing garage for more than five motor vehicles and gasoline service station, the building as extended being in excess of the area permitted by the zoning resolution; premises 87-24 to 87-30 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens.

531-37-BZ—Application of Joseph Mosgoffian, applicant and lessee, on behalf of Annie Zins, owner, reopened May 15, 1945, for consideration as to extension of variance—Application, previously granted on condition, under section 7h of the zoning resolution, for a temporary period of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 23-28, 23-30 and 23-32 30th avenue, south side, 91.83 ft. west of Crescent street (Block 572, Lots 37 and 38), Astoria, Borough of Queens.

459-44-BZ—Application, July 21, 1944, under sections 21 and 7c of the zoning resolution, of Arnold W. Lederer, applicant on behalf of Mary L. Richardson, owner, to permit in a business use C area district, manufacturing in excess of the permitted area; premises 1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn.

43-45-BZ—Application, January 31, 1945, under section 21 of the zoning resolution, of Bay Ridge Savings Bank, applicant and owner, to permit in a business use C area district, the extension in area of a bank building to cover entire lot and omitting rear yard; premises 4724 13th avenue, northwest corner of 48th street (Block 5628, Lot 42), Borough of Brooklyn.

146-45-BZ—Application, March 13, 1945, under section 7f of the zoning resolution, of James Whitford, applicant, on behalf of Adam V. Bell, owner, to permit in a business use district, the erection and maintenance of a gasoline service station, for a term of years; premises 126 Mansion avenue, south side, foot of McKee avenue (Block 5202, Lots 10 and 13), Great Kills, Borough of Richmond.

585-42-BZ—Application, of Lama and Proskauer, applicants, on behalf of Socony-Vacuum Oil Co., Inc., owner, reopened February 6, 1945, under section 7c of the zoning resolution, to permit in a business use district, the extension in area of an existing gasoline service station and also the erection and maintenance of a building to be used as a laundry and lubritorium (previously withdrawn); premises 4091 Hylan boulevard and 293 Nelson avenue, northeast corner (Block 5158, Lot 37), Great Kills, Borough of Richmond.

772-41-BZ—Application of Arnold W. Lederer, applicant, on behalf of Fay Bloom, William A. Jones, Jennie Mateyko and Joseph Filosa, owners (Square Deal Laundry, Inc., lessee), reopened November 8, 1944, under sections 7c and 21 of the zoning resolution, to permit the extension of an existing laundry building from a local retail into a residence use district, the area of proposed building exceeding that permitted in a C area district; premises 427 Ralph avenue and 1813-1823 Bergen street, northeast corner (Block 1445, Lots 1, 64 to 68, inclusive), Borough of Brooklyn.

162-45-BZ—Application, March 21, 1945, under section 21 of the zoning resolution, of Richard Shutkind, applicant, on behalf of Jack Altman, owner, to permit in a residence use G area district, the erection of a one car garage and shower building, increasing the occupied lot area in excess of 35% and not providing the required 15 ft. rear yard and 5 ft. side yard; premises 228 Beach 148th street (rear), east side, 90 ft. south of Neponsit avenue (Block 753, Lot 42), Rockaway Beach, Borough of Queens.

298-45-BZ—Application, May 17, 1945, under section 21 of the zoning resolution, of S. J. Kessler & Sons, applicants, on behalf of 1523-1529 63rd Street Corp., owner (Air King Products Co., Inc., lessee), to permit in a C area unrestricted use district, the erection of a 3rd story to a building, plans for two stories of which have been approved, the 3rd story exceeding the area of coverage permitted by the zoning resolution; premises 6201-6223 15th avenue, east side, from 62nd to 63rd streets (Block 5530, Lot 1), Borough of Brooklyn.

Appeal from Administrative Decision

235-45-A—311-333 West 49th street, north side, 124 ft. 9⅝ in. west of 8th avenue and 308-348 West 50th street (2nd floor); (Block 1040, Lot 14), Borough of Manhattan.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, MAY 22, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, May 15, 1945, and Tuesday afternoon, May 15, 1945, were approved, as printed in Bulletin No. 21, Volume 30.

ZONING APPLICATIONS

78-45-BZ

APPLICANT—Lama and Proskauer, for The Greater New York Brewery, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory.

PREMISES AFFECTED—284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred Lama.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 29, 1945 at 10 A. M. at request of applicant.

95-45-BZ

APPLICANT—Lama and Proskauer, for Marie Atherton, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use C area district, the alteration and extension of an existing garage for more than five motor vehicles and gasoline service station, the building, as extended, being in excess of the area permitted by the zoning resolution.

PREMISES AFFECTED—87-24 to 87-30 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens.

APPEARANCES—
For Applicant: Alfred Lama and Alfred Harturger.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 5, 1945 at 10 A. M. for further consideration. Applicant to obtain a new decision from Borough Superintendent.

60-45-BZ

APPLICANT—Lama and Proskauer, for General Linen Supply Company, Inc., owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use, C area district, the extension and reconstruction of a stable and wagon storage and garage for two commercial cars to a garage for more than five motor vehicles for laundry use and a large boiler room accessory to existing laundry.

PREMISES AFFECTED—449-453 and 467-473 Prospect avenue, north side, 151 ft. 2 in. west of Prospect Park West (Block 1113, Lots 62, 73, 74 and 75), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred Lama.
For Opposition: Joseph Brown, G. P. Casper, W. Babinski, A. Angelio, A. Lapinski, A. Yala, S. Yahbecha, M. Maguire, Mary Cursiewiev and M. McGloin.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn on request of applicant.

THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

330-29-BZ

APPLICANT—Lama and Proskauer, for Hannah Harmon, owner.

SUBJECT—Application reopened January 23, 1945 (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business and residence use district, the continued use of a gasoline service station, beyond the temporary term granted by the Board under Cal. 330-29-BZ.

PREMISES AFFECTED—70-58 to 70-66 Kissena boulevard and 153-08 to 153-18 Vleigh road, southwest corner (Block 6697, Lot 1), Flushing, Borough of Queens.

APPEARANCES—
For Applicant: Alfred Lama.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (330-29-BZ)

WHEREAS, this application under section 7f of the zoning resolution, permitting partly in a business use district and partly in a residence use district, for a term of two years, the erection and maintenance of a gasoline service station, affecting premises southwest corner of Kissena road and Vleigh road (Block 2395, Lot 1), Flushing, Borough of Queens, was granted by the Board on December 20, 1932, on certain conditions; and

WHEREAS, the permit was extended on May 7, 1935; and

WHEREAS, the resolution was amended and the permit further extended on June 16, 1936 and November 17, 1936; and

WHEREAS, the permit was further extended on June 8, 1937, April 11, 1939 and April 29, 1941; and

WHEREAS, the applicant requested a further extension of the permit, which permit had expired by time limitation on April 29, 1943; and

WHEREAS, this case was reopened by vote of the Board on January 23, 1945, restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 22, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Kissena boulevard is in a business use, D area and Class 1 height district; Vleigh road is in a residence use, D area and Class 1 height district and 71st avenue is in a residence use, D area and Class 1 height district: and

WHEREAS, the decision of the borough superintendent, dated November 30, 1944, re Alt. Applic. 1517-44, reads:

"1. The continued use of a gasoline service station beyond the temporary period granted by the Board of Standards and Appeals under Cal. 330-29 BZ, within a business and residence district, is contrary to Art. II, Sec. 4 of the Zoning Resolution.

2. The extension of a gasoline service station within a business and residence district, is a non-conforming use and contrary to Article II, sec. 6 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 104.89 ft. frontage by 133.27 ft. in depth, on which is located a one-story building, 20 ft. by 20 ft. in area, the premises being occupied as a gasoline service station, office and lubritorium and that it is proposed to maintain the gasoline service station with an enclosure over the grease pits; and

WHEREAS, the applicant contends that the premises are improved with a one-story masonry building 20 ft. by 20 ft., used as an office and for the sale of automobile accessories; two open grease pits, three 550 gallon gasoline storage tanks and two islands, each having two pumps; that this improvement was made by virtue of a grant by the Board of Standards and Appeals under Cal. 330-29-BZ, for a term of two years; that the permit was extended continuously to April 29, 1943; that request is hereby made to extend this permit for a term of ten (10) years; that it is proposed to enclose the existing open grease pits and that the general surroundings are practically the same as when the original grant was made; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision f, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and its hereby is *granted* under section 7f thereof, for a term of ten (10) years from the date of this resolution, to permit the premises to be occupied as a gasoline service station, substantially as proposed and as indicated on revised plans marked "Received May 18, 1945"; and that the application be and it hereby is *granted on condition* that the plot so used, shall be located entirely within the business use zone; that the plot shall be leveled substantially to the grade of surrounding streets and shall be concrete paved, except where occupied by planting areas, pumps and accessory buildings as shown; that the existing concrete paving shall be removed; that the accessory buildings shall be located and shall be of the design and area as indicated on revised plans marked "Received May 18, 1945"; that these accessory buildings shall be used only as office and lubritorium as proposed; that the lubritorium shall be equipped only with hydraulic lifts, except that if one or more existing steel pits are retained and closure doors are constructed as indicated, the pit shall be ventilated by means of a duct from the bottom of the pit, exhausting with a motor driven exhaust fan through the roof; that any windows in the lubritorium section shall be of steel sash; that there shall be erected on the southerly and westerly interior lot lines, as indicated, a fence consisting of a brick base and brick posts properly capped and with wood picket sections between posts as indicated; that the gasoline pumps shall be erected not nearer than 10 ft. to either the building line of Vleigh road or Kissena boulevard; that at the intersection of Vleigh road and Kissena boulevard, there shall be constructed a triangular area, extending not less than 10 ft. from the intersection along either street building line and protected by a 12 inch curb and with the area within the curb planted; that a planted area shall also be maintained toward the west as indicated, continuously from north to south and also on the southerly line toward Kissena boulevard; that these planting areas shall be protected on the gasoline station side by a concrete curb not less than 12 in. in height; that no signs shall be erected on the premises, except a permanent sign attached to the wall of the accessory building; that no other signs shall be permitted, except that there may be a sign within the building line near the intersection, erected on a post for supporting a brand sign, which may be illuminated, but which shall not extend beyond the building line; that curb cuts shall be restricted to two, each 25 ft. in width to Kissena boulevard and two to Vleigh road of similar width; that no curb cut shall be nearer than 10 ft. to the point of intersection of the two streets or nearer than 5 ft. to the southerly building line or 8 ft. from the westerly building line and located as shown on plan marked "Received May 18, 1945"; that curbs and sidewalks shall be constructed along the entire frontage of both streets; that the number of gasoline storage tanks shall not exceed three, each with a capacity of 550 gallons; that during the term of this variance, the premises shall be occupied for no use other than as herein permitted; that until this gasoline station is completed in accordance with the terms of this resolution, the existing station, variance for which has expired, shall not be reopened; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

188-45-BZ

APPLICANT—Kitzler and Nurick, for Dora Tatarsky, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the change of occupancy of an existing building from garage for ten motor vehicles, to garage for five motor vehicles and manufacturing of lamp bases.

PREMISES AFFECTED—170-172 Van Siclen avenue, west side, 102 ft. 10 in. south of Atlantic avenue (Block 3961, Lot 18), Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry Nurick.

For Opposition: B. Kloesath, L. Schillinger, M. Goldberg, A. Schroski, F. Bader, J. Roia and M. Schillinger.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (188-45-BZ)

WHEREAS, Kitzler and Nurick, for Dora Tatarsky, owner, filed April 2, 1945, an application under section 7c of the zoning resolution, to permit in a residence use district, the change of occupancy of an existing building from garage for ten motor vehicles, to a garage for five motor vehicles and the manufacture of lamp bases, affecting premises 170-172 Van Siclen avenue, west side, 102 ft. 10 in. south of Atlantic avenue (Block 3961, Lot 18), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 22, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Atlantic avenue and Liberty avenue are in a business use, C area and Class 1 height district and that Van Siclen avenue and Miller avenue are in a residence and business use, C area, and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 8, 1945, re Alt. Applic. 769-45, reads:

"1. Proposed change of occupancy from a garage for ten cars, to a garage used for five cars and the manufacturing of lamp bases and small metal parts in premises located in a residential use and C area district, is contrary to Article II, Section 3 of the zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 39 ft. frontage by 100 ft. in depth, on which is located a one story, Class 3 constructed building, 20 ft. by 100 ft. in area, occupied as a garage for 10 motor vehicles and that it is proposed to occupy the building as a garage for five motor vehicles and a factory for manufacture of lamp bases; and

WHEREAS, the applicant contends that the premises consist of an irregular plot, 39 ft. by 100 ft. upon which was erected a garage for ten motor vehicles under Permit NB 2560-18, Certificate of Occupancy 4704-1919 and latest Fire Department Permit 208434, issued May 11, 1944, expires May 1, 1945; that the premises were then in an unrestricted area, and on May 15, 1941, the zone was changed to residential; that it is proposed to alter this garage, so that the front portion shall continue as a five car garage, and the rear portion altered and its use changed to manufacturing; that this application is brought under Section 7c of the zoning resolution; that the neighborhood is fully developed, and having been unrestricted, now has many non-conforming uses; that the alteration and change of use is such as to safeguard the character of the district; that the owner recently purchased this property with the advice of her attorney, who had checked the zone; that unfortunately, however, he looked at zone maps that had not been corrected to date; that the owner planned to go into business with her son, who is now in the U. S. Armed Services; that the owner proposes to manufacture bases for lamps and intends to use two lathes, and operate the business with her son only; that under the circumstances, it is respectfully requested that this matter be given favorable consideration; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision c, of the zoning resolution.

Resolved, that the decision of the borough superintendent dated May 8, 1945 on Alt. Applic. 769-45 be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

APPEALS FROM ADMINISTRATIVE DECISIONS

235-45-A

APPLICANT—Madison Square Garden Corporation, owner.
SUBJECT—Appeal from a decision of the fire commissioner.
PREMISES AFFECTED—311-333 West 49th street, north side, 124 ft. 9⅝ in. west of 8th avenue and 308-348 West 50th street (2nd floor); (Block 1040, Lot 14), Borough of Manhattan.
APPEARANCES—
For Applicant: Richard Donopria and Alexander McPhee.
For Administration: Fred Dahlem, Dept. Housing & Bldgs. and E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Laid over to June 5, 1945 at 10 A. M. at request of applicant.

251-45-A

APPLICANT—Good and Kent, for Bush Terminal Buildings Co., owner (Control Instrument Co., Inc., lessee).
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—33-67 35th street, east side and east side of 2nd avenue, 1300 ft. 4 in. north of 39th street (5th floor, East section C, Building No. 5); (Block 687, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: A. C. Cain.
ACTION OF BOARD—Laid over to May 29, 1945 at 10 A. M. at request of applicant.

697-44-A

APPLICANT—Reliable Refrigeration Service Corp., for Atlas Elevator Service Co., lessee (American Baptist Home Mission Society, owner).
SUBJECT—Appeal from an order and decisions of the fire commissioner.
PREMISES AFFECTED—355 West 26th street, north side, 120 ft. east of 9th avenue (1st floor); (Block 750, Lot 9), Borough of Manhattan.
APPEARANCES—
For Applicant: Michael Tennant, Marion Koop and R. C. Woodson.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (697-44-A)

WHEREAS, Reliable Refrigeration Service Corp., for American Baptist Home Mission Society, owner (Atlas Elevator Service Company, lessee), filed November 29, 1944, an appeal from an order and decisions of the fire commissioner, affecting premises 355 West 26th street, north side, 120 ft. east of 9th avenue (1st floor); (Block 750, Lot 9), Borough of Manhattan; and

WHEREAS, Order 32528-LC issued by the fire commissioner October 30, 1942 and referred to in decisions dated June 27th and August 18, 1944 reads:

"With reference to your application dated October 15, 1942, for a permit to store compressed gases, naphtha, etc. at the above location, I regret to inform you that this department is without power to grant such a permit for the reason:

A.1 Building in part occupied as a dwelling.
A.2 Spraying of paint carried on.
B Unapproved paint remover used.
C Gas is transferred to an unapproved cylinder.
D Garage occupancy is maintained.
E No evidence that Department of Housing and Buildings has approved occupancy of building as now constituted.
F No provision made to prevent gases from permeating throughout building in case of leakage.
G Storage of empty cylinders on premises.
H No evidence to show that occupancy as is (10/22/42) meets with no objection from the Department of Health.

(4) Discontinue the storage or use of compressed gases on these premises contrary to the provisions of Article 17, Administrative Code."

and

WHEREAS, this order was again referred to in a decision of the fire commissioner, dated October 31, 1944, which reads:

"We acknowledge receipt of your letter of October 17th regarding our Order 32528-LC against 355 West 26th Street.

Our records indicate that on May 26th and August 3rd, you made similar requests to this office. This Division feels that ample time and opportunity was granted to file an appeal from our requirements. There is no evidence of such an appeal being filed.

Your request to reissue the order at this time is denied."

and

WHEREAS, the applicant states that the building is four stories (50 ft.) in height, 22 ft. by 98 ft. in area at 1st floor, 22 ft. by 80 ft. in area at typical floor, of class 3 construction, erected in 1876, located in a residence use, B area, class 1½ height district and used and occupied since March 1, 1942 as follows: cellar—storage, boiler room and vault—no persons; 1st floor—refrigerator repairing—3 persons; 2nd floor front—office and 2nd floor rear—storage of light machine elevator supply parts—2 persons; 3rd floor front—dwelling—1 family (who work on 2nd floor); 3rd floor rear—storage of light machine elevator supply parts; 4th floor front—dwelling—1 family: that no change in use or occupancy is proposed; that the building is equipped with two

interior stairs, located at the front and the rear of the building, 4 ft. in width, of wood construction, enclosed in stud and plaster partitions, equipped with wood self-closing doors, leading directly to the street; the stairs do not extend to roof, but a scuttle to roof is provided; that the building is also equipped with an exterior fire escape at the front of the building, extending to the roof by a ladder and to the street by a ladder and that the window and door openings along the course of the fire escape are not fireproof, self-closing; and

WHEREAS, the applicant contends that all items of Order 32528-LC have been complied with, with the exception of Item 4, which is covered by this appeal; that 150 lbs. of Sulphur Dioxide is transferred by ¼ in. copper tubing to approved I. C. C. tank of 12 lbs. capacity; that units are charged by ¼ in. copper tubing from 12 lb. tank; that all lines have safety valves; that 90 lbs. methyl chloride is transferred by ¼ in. copper tubing to approved I. C. C. tank with 8 lbs. capacity; that units are charged by ¼ in. copper tubing from 8 lb. tank; that all lines have safety valves; that there is a vacuum pump for discharging units into container of lye water; that there is an open flame of oxygen and acetylene in the fireproof soldering room, the walls, ceiling and floor of which are concrete with a fireproof door; that there is an open flame the fireproof dehydrator oven; that sand buckets and foamite extinguishers are placed at convenient places throughout the building; that this building was vacant for 15 years and then R. C. Woodson moved in in November 1941; that there never was a machine shop in the building; that under B. N. Applic. 46-1943, the soldering room was made completely fireproof; that the applicant has been the subtenant of the Atlas Elevator Service Company since March 1942; that the Atlas Elevator Service Company has been the lessee of the entire premises since November 1941; that the owners of the premises had full knowledge of the type of occupancy of the Reliable Refrigeration Service Corporation to which they consented, but inasmuch as they have leased this building together with a number of adjoining premises for a long term to 30-25 Steinway Realty, Inc., the owner feels that they have nothing further to do with the property and 30-25 Steinway Realty, Inc. consider that they have no interest in this matter and as original lessee, the Atlas Elevator Service Company has consented to the occupancy of the applicant; that the applicant repairs refrigerator units and has refrigerant in tanks that are handled by licensed men; that the Health Department refuses to issue a permit; that the Atlas Elevator Service Company is located on the 2nd floor and their representatives are constantly present to supervise conditions and have no objections to the use of the refrigerant; that the applicant is engaged in ship convoy service and it is necessary to the war effort to give good service by keeping the ships' refrigerators in good working condition; and

WHEREAS, the applicant has been convicted and fined by the Magistrates Court for violation of the Administrative Code on March 5, 1933 and June 2, 1944.

Resolved, that order 32528-LC, issued by the fire commissioner, be and it hereby is *modified* and that the appeal be and it hereby is *granted*. as to Item 4, *on condition* that not more than one (1) 150 lb. cylinder of sulphur dioxide and not more than one 90 lb. cylinder of methyl chloride shall be stored on the premises; that such cylinders shall be stored within the room on the first floor at the rear, which room shall be constructed of interior partitions of one hour fire-retarding construction with a fireproof, self-closing door thereto: that a duct shall be carried from the ceiling of such room through the roof not less than 6 in. in diameter with an exhaust fan attached thereto; that the switch to such exhaust fan shall be located on the exterior of the room; that cylinders when empty. shall be promptly removed from the premises; that no residential occupancy shall be maintained in the building, except on the 3rd and 4th floors at the front. where indicated; that the 2nd and 3rd floors at the rear shall be used only for the storage of light machine elevator parts as proposed; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that there shall be no paint spraying permitted on the premises; that no storage of motor vehicles shall be permitted on the premises; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto and to the satisfaction of the fire commissioner; that a certificate of occupancy shall be obtained for the building.

8-45-A

APPLICANT—Charles S. Telchin, for Berwick Land Corp., owner (Roaman's, lessee).

SUBJECT—Appeal from a decision of the fire commissioner.

PREMISES AFFECTED—20-22 West 39th street, south side, 303 ft. west of 5th avenue (2nd floor); (Block 840, Lot 60), Borough of Manhattan.

APPEARANCES—

For Applicant: Charles Telchin.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (8-45-A)

WHEREAS, Charles S. Telchin, for Berwick Land Corporation, owner (Roaman's, lessee), filed January 3, 1945, an appeal from a decision of the fire commissioner, affecting premises: 20-22 West 39th street, south side, 303 ft. west of 5th avenue (2nd floor); (Block 840, Lot 60), Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, dated December 6, 1944, reads:

"In reply to your recent letter wherein you request approval by this department of the existing air conditioning system in premises 20-22 West 39th st., occupied by Roaman's, Inc., if the following change was made, namely: floor over the open well of the present mezzanine, so as to make it a separate floor; please be advised as follows:

Under the conditions of Section C19.98-b of the Administrative Code and rules 2 and 3 adopted by the Fire Commissioner for freon refrigerant, this department cannot accept the direct method of refrigeration extending from floor to floor in the above premises.

However, you may appeal this matter to the Board of Standards and Appeals."

and

WHEREAS, the applicant states that the building is three stories (40 ft.) in height, 44 ft. by 98.9 ft. in area at first floor, 44 ft. by 88.9 ft. in area at typical floor; Class 3 construction; located in a retail use, B area, Class 2 height district; erected in 1940 and used since 1945 as follows: Cellar, retail store, 7 persons; 1st floor, retail store, 8 persons; mezzanine, offices, 15 persons; 2nd floor, retail store, 11 persons; proposed to be used and occupied: cellar, retail store, 7 persons; 1st floor, same, 8 persons; 2nd floor—offices, 18 persons; that the building is equipped with a one-source sprinkler system, an approved interior fire alarm system and that fire drills are maintained; that there are two interior 3 ft. 8 in. stairs, of fire-proof construction and enclosure, equipped with fireproof, self-closing doors, one located at the front and one at the rear of building and both extend to the roof bulkhead and lead directly to the street; and

WHEREAS, the applicant contends that the building consists of a basement, first floor, mezzanine and second floor; the two lower floors, including the mezzanine, being air-conditioned by a direct expansion Freon gas system, the second floor having an independent system; that the well which forms the mezzanine floor, is being completely floored over, thus making it the second floor and the present second floor will in turn become the third floor: that under ordinary circumstances, a separate air-conditioning system would

have to be provided for this second floor, but in view of existing conditions, the equipment, Freon gas or labor are not available for making the installation; that no changes are required in the present air conditioning equipment and the fire protection is being considerably improved by the elimination of the mezzanine; the present ducts are properly equipped with automatic dampers and otherwise protected in accordance with the Board's rules.

Resolved, that the decision of the fire commissioner dated December 6, 1944 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the equipment on the present mezzanine to be changed to a second floor, by the flooring over of the well as proposed and as shown on plans filed with this appeal marked "Received January 3, 1945", shall be enclosed in the room toward the rear of the second floor as indicated; that such room shall be enclosed with interior one hour fire-retarding partitions with a fireproof self-closing door constructed therein; that the system shall not be changed without the approval of the fire commissioner and the system shall be maintained to his satisfaction; that the flooring over the mezzanine shall be as approved by the Department of Housing and Buildings; that a one source sprinkler system shall be maintained in accordance with the requirements therefor, as well as the maintenance of an interior fire alarm system and fire drills; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto in accordance with Certificate of Occupancy issued by the Department of Housing and Buildings under No. 27245 issued January 17, 1941, as superseded by a new certificate of occupancy, after alterations as proposed.

44-45-A

APPLICANT—Interborough Engineering Co., for Sadie Siegel and Joseph Siegel, owners.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—203A Nassau avenue, north side, 25 ft. west of Russell street (1st floor); (Block 2654, Lot 30), Borough of Brooklyn.
APPEARANCES—
For Applicant: Ribelle Perotto.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (44-45-A)

WHEREAS, Interborough Engineering Company, for Sadie and Joseph Siegel, owners, filed January 31, 1945, an appeal from an order of the fire commissioner, affecting premises 203A Nassau avenue, north side, 25 ft. west of Russell street (1st floor); (Block 2654, Lot 30), Borough of Brooklyn; and

WHEREAS, Order 98493-C, issued by the fire commissioner, dated January 8, 1945, reads:

"2. Reduce quantity of volatile inflammable oil (naphtha and sovasol #4) stored to 20 gallons, the maximum quantity permitted to be stored in a building used for dwelling purposes by two families. C19-86.0 Administrative Code."

and

WHEREAS, the applicant states that the building is 3 stories (39 ft. 6 in.) in height, 18 ft. 9 in. by 100 ft. in area at 1st floor, 18 ft. 9 in. by 60 ft. in area at typical floor, of class 4 construction, erected in 1888, located in a business use, C area, 1¼ height district and used and occupied since 1920 as follows: cellar—storage and heater—0 persons; 1st floor—hardware store—2 persons; 2nd floor—1 family—3 persons; 3rd floor—1 family—2 persons; that no change in use or occupancy is proposed; that the building is equipped with one interior stairs at the front of the building, 36 in. in width, of wood construction, enclosed in stud partitions and plastered equipped with wood self-closing doors, extending to the roof by a scuttle and leading directly to the street; and

WHEREAS, the applicant contends that the entire premises are occupied by the owners and their family exclusively; that the proposed storage of two steel drums of naphtha will be located in the rear of the 1st floor extension, remote from the living quarters; that the need for a storage capacity of two drums of naphtha is the demand from a number of furriers in the neighborhood; who purchase naphtha in quantities of five gallons at a time and also the usual one quart purchases by housewives in the neighborhood; that the five gallon quantities delivered to the furriers are done in approved safety cans; that the two drums of naphtha is about one week's supply; that the entire ceiling of the 1st floor, including the extension, is wood lath and plaster; that paints are stored in sealed cans, kept for sale, in quantities of less than 100 gallons under permit from the Fire Department; that the paints are kept on shelves in the front of the building, remote from the naphtha; that no other volatile or inflammable materials are stored on the premises; that the skylights are of the ventilating type, made to open and close on two sides opposite each other; that naphtha will be dispensed by means of a gear pump operated by hand, the pump being attached to the top of the storage metal drum; that the owners have been on the premises for over 25 years; that the building was altered in 1895 under Alt. Applic. 239 and no certificate of occupancy was ever obtained; it is requested in view of the above facts, that the applicant be permitted to store two drums of naphtha.

Resolved, that Order 98493-C issued by the fire commissioner be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

107-45-A

APPLICANT—James E. Casale, for 18 East 71st Street Corporation, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan.
APPEARANCES—
For Applicant: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal withdrawn on written request of applicant.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (107-45-A)

WHEREAS, James E. Casale, for 18 East 71st Street Corporation, owner, filed March 5, 1945, an appeal from a decision of the borough superintendent, affecting premises 18 East 71st street, south side, 70 ft. west of Madison avenue (Block 1385, Lot 59), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated March 1, 1945, on amendment to Alt. Applic. 27-45, reads:

"2. Repeat. An interior stair should be provided, with a minimum width of 3 ft. 8 in. and adequate stair capacity, enclosed in 3 hour partitions, leading from the street to the roof, Secs. 6.1.2.2.3 and 6.4.1.1 B.C., with treads and risers as per Sec. 6.4.1.4. B.C. Note that winders are not acceptable."

and

WHEREAS, the applicant states the building is 6 stories (70 ft.) in height; 25 ft. by 90 ft. in area; of class 1 construction; erected 1910; located in a restricted retail use, B area, Class 1½ height district and used as a one family dwelling, for which no certificate of occupancy has been issued, and proposed to be used and occupied as follows: subcellar, storage; cellar, storage; 1st floor, examination room, consultation room and waiting room; 2nd floor, sitting room and ward; 3rd floor, 3 private rooms; 4th floor, 3 bedrooms; 5th

floor, one private room and two operating rooms; 6th floor, 6 single bedrooms; that the building is equipped with one 3 ft. wide unenclosed wood stairs, from the roof bulkhead, directly to the street; and

WHEREAS, the applicant contends that permission is requested to retain the existing elliptical stairway, approximately 4 ft. in width, extending from the 1st to the 5th floors and to retain the present 3 ft. stairway from the 5th floor on the roof; that the building was constructed as a fireproof structure; that all partitions are built of 4 in. terra cotta blocks and that the floors are steel and concrete; and

WHEREAS, the applicant has requested that the appeal be withdrawn, inasmuch as the owner has decided to abide by the decision of the borough superintendent and to comply with all requirements of the Administrative Building Code.

Resolved, that the appeal be and it hereby is *withdrawn.*

Adjourned: 11:55 A.M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, MAY 22, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE APPEALS

10-45-A

APPLICANT—Hopewell Society of Brooklyn, owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—218 Gates avenue, south side, 146.5 ft. east of Classon avenue (Block 1985, Lot 14), Borough of Brooklyn.
APPEARANCES—
For Applicant: Agnes Fowler.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (10-45-A)

WHEREAS, Hopewell Society of Brooklyn, owner, filed January 8, 1945, an appeal from an order of the fire commissioner, affecting 218 Gates avenue, south side, 146.5 ft. east of Classon avenue (Block 1985, Lot 14), Borough of Brooklyn; and

WHEREAS, order No. 14037-LF, of the fire commissioner, issued December 22, 1944, reads:

"1. Have watchman patrol all portions of the premises and record his movements at each station. Tours or rounds are to be made once every two hours beginning at 6 P.M. and continuing until the day staff have resumed their duties. Used dials are to be kept on file on the premises so that same can be inspected by this department. 487 E2.0C-2 Adm. Code."

and

WHEREAS, the applicant states the building is 3 stories (50 ft.) in height; 50 ft. by 85 ft. in area; of Class 3 construction; erected about 1885; located in a residence use, B area, Class 1¼ height district, and used and occupied since 1922 as follows: Subcellar, heating plant, 1 person; cellar, laundry and storerooms, 2 persons; 1st floor, office, dining room and kitchen. 8 persons; 2nd floor, nursery department, 25 persons; 3rd floor, children's department and employees, 35 persons; that no change in use or occupancy is proposed; that Certificate of Occupancy 3960, issued June 1, 1923, permitted the use of the building as an "Orphanage"; that the building is equipped with a standpipe system and interior fire alarm system and that fire drills are maintained; that there are two interior stairs, one at the front and one at the rear of the building, three ft. wide, constructed of wood and leading to the porch; that a ladder and scuttle to the roof has been provided; that there are two fire escapes, one on the east side and one on the west side of the building, extending to the roof by stair and to the yard by stair, with egress through the yard to the street, that window and door openings along the course of the fire escape are fireproof self-closing; and

WHEREAS, the applicant contends that this appeal is for a modification of the requirements, as to the number of rounds to be made each night by the watchman; that until 10 o'clock at night, there is a full staff on duty and the applicant requests permission to have the watchman begin his rounds at that time and continue on a two hour basis until 6 o'clock in the morning when the day staff takes over.

Resolved, that Order 14037-LF of the Fire Commissioner, be and it hereby is *modified,* as to item 1, and that the appeal be and it hereby is *granted on condition* that in all other respects, the watchman's system shall comply with all the requirements therefor and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto and the watchman's service shall be maintained as proposed, starting at 10 P.M. and continuing at two hour intervals until 6 A.M., daily.

92-45-A

APPLICANT—Lama and Proskauer, for Moe Bernard Scheyer, owner (A. R. Runy, lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—1431 Broadway, north side, 20 ft. west of Madison street (1st floor); (Block 3357, Lot 2), Borough of Brooklyn.
APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (92-45-A)

WHEREAS, Lama and Proskauer, for Moe Bernard Scheyer, owner (A. R. Runy, lessee), filed February 23, 1945, an appeal from a decision of the borough superintendent, affecting premises 1431 Broadway, north side, 20 ft. west of Madison street (1st floor); (Block 3357, Lot 2), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, on P. A. Applic. 787-44, dated February 8, 1945, reads:

"1. For the number of persons stated, two remote means of egress to the street are not provided, as required by Sec. 6.1.2.2.2 of the Bldg. Code."

and

WHEREAS, the applicant states that the building is 3 stories (30 ft.) in height, 20 ft. by 79 ft, in area at 1st floor, 20 ft. by 50 ft. in area at typical floor, of class 4 construction, erected in 1899, located in a business use, C area, Class 1 height district and used and occupied since 1922 as follows: cellar—storage and candy manufacture, 1 person; 1st floor—ice cream parlor and luncheonette, 95 persons; 2nd floor—dwelling—1 family; 3rd floor—dwelling—1 family; that the building is equipped with one interior stairs at the front of the building, 2 ft. 8 in. in width, of frame construction, enclosed with plaster partitions on wood studs, equipped with wood doors, provided with a scuttle to the roof and leading directly to the street; and

WHEREAS, the applicant contends that the use on the 1st floor was established in 1922, at which time permit 6647-22 was approved, to permit the construction of a rear extension; that on such plans, there is a notation for refrigeration

connection and dish washer connection to drain to a sink in the cellar; that the present occupant will comply with all laws, rules and regulations as prescribed by Local Law 29, with the exception of Sect. 6.1.2.2.2 of the Building Code; that there is a 3 ft. wide door at the front of the building and a 3 ft. door at the rear, leading to an open yard; that consent from the adjoining property owner to the west has been procured permitting the use of his exit facilities in the event of fire; that there is at the rear of the show case, a 2 ft. 8 in. door leading to a hall, which leads directly to the street; that the total number of persons, including the employees, will not exceed 95; that in view of the above facts, it is requested that the appeal be granted; and

WHEREAS, the applicant has filed a copy of an agreement with the adjoining owner of premises 1429 Broadway to erect a door in the fence for exit purposes, signed January 31, 1945 and expiring July 31, 1949.

Resolved, that the decision of the borough superintendent on P. A. Applic. 787-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to Objection 1, *on condition* that the means of exit as herein proposed, and as shown on plans filed with this appeal, marked "Received February 23, 1945" (2 sheets), shall be maintained; that the bridge over the vault area at the rear shall be constructed of concrete slab, approximately 4 ft. in width, instead of iron grating; that the number of persons shall not exceed 95, as proposed; that this modification shall continue only so long as the agreement is in effect with the adjoining owner of premises 1429 Broadway, permitting the erection of a door in the fence for exit purposes; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

246-45-A

APPLICANT—Remington Rand, Inc., lessee, for Milchester Realty Corp., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—303-311 4th avenue and 107-113 East 23rd street, northeast corner (1st floor); (Block 879, Lot 1), Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum and W. M. Huber.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (246-45-A)

WHEREAS, Remington Rand, Inc., lessee, for Milchester Realty Corp., owner, filed April 26, 1945, an appeal from a decision of the borough superintendent, affecting premises 303-311 4th avenue, and 107-113 East 23rd street, northeast corner (1st floor); (Block 879, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated April 13, 1945, on Alt. Applic. 1848-44, reads:

"1. State number of persons to be employed in repair shop and at service counter. Also state total number of persons employed at factory work throughout building. Total number including those in repair shop and at service counter in first story must not exceed 5 persons, as building does not comply with Sec. 270 L.L. (N.B. 403 of 1921)

Building does not comply with Sec. 270 L.L. in the following respects:

a. Building is not fireproof.
b. Both stairs do not extend to roof.
c. Stairs are not continuously enclosed in fireproof partitions from street to roof.
d. Treads are not 10" in width exclusive of nosings.
e. Access to stairways is not provided from floor area except through passing through one means of egress to reach the second.
f. Lawful exits from cellar not provided.
g. Stairs in cellar are not enclosed in fireproof partitions as required for vertical openings.

2. Statement required on plans filed that both exits at second floor are accessible from all parts of floor area without going through one stairway to reach the other.

3. All doors to passage marked 'existing passage' should be f.p.s.c. and should not obstruct passageway when opened. Note that passage does not appear on previously approved plans.

4. Show swing of doors to agree with that on previously approved plans.

5. Swing of door in first story at stairhall obstructs egress from stairs.

6. Fire alarm signal system and fire drills required by Sec. 279 L.L., unless building is protected throughout by an approved automatic sprinkler system having two adequate sources of water supply as per Sec. 279-3 L.L."

and

WHEREAS, the applicant states that the building is 5 stories (60 ft.) in height, 98 ft. 9 in. by 156 ft. in area, of class 3 construction, erected in 1921, located in a business use, B area, class 2 height district and used since 1922 as follows: cellar—store room, stationers, printing and offices—8 persons; 1st floor—stores—56 persons; 2nd to 5th floors—offices, salesrooms and manufacturing metal parts and minor repairs —72 persons on the 2nd floor, 50 persons on the 3rd floor; 70 persons on the 4th floor and 63 persons on the 5th floor; proposed to be used and occupied as follows: cellar—same; 1st floor—stores and service salesroom for Remington Rand—89 persons; 2nd to 5th floors—offices and salesroom —72 persons on the 2nd floor; 50 persons on the 3rd floor; 70 persons on the 4th floor and 63 persons on the 5th floor; that the building is equipped with an approved two source sprinkler system and with two interior fireproof stairways, each 3 ft. 8 in. wide, fireproof enclosed and equipped with fireproof, self-closing doors; that the east stairway extends to a bulkhead and the stairhall leads directly to the street; and

WHEREAS, Certificate of Occupancy 5361, issued October 23, 1922 under N. B. Applic. 403-21, permits the use and occupancy of the building as follows: cellar—storage; 1st floor—stores—17 persons in each store—120 lbs. liveload; 2nd to 5th floors—offices—50 persons on each floor—liveload 60 lbs. per floor; and

WHEREAS, Violation 880 was issued February 14, 1945, for changing the occupancy of the building from offices to factory with 49 persons employed, contrary to Certificate of Occupancy 5361, which calls for offices; and

WHEREAS, the applicant contends that Alt. Applic. 1848-44 filed with the Department of Housing and Buildings, indicates a portion of the 1st and 2nd stories to be used by Remington Rand, and the application was disapproved on the basis that the building would be a factory building; that the occupancy in question in this appeal relates only to part of the 1st story, wherein the applicant conducts a service in connection with electric razors sold by the firm; that the nature of this work should not bring it within the factory occupancy classification, as the operation is more in the nature of service in connection with a sales operation; that, for example, a customer may deliver an electric razor which may be opened by a salesman at a counter, a clerk who simply removes a part and replaces it with another part for whatever particular defective item is being taken care of; that no part of the razor is made, ground or repaired on the premises; that the motors of the razors may be examined, to determine if they are defective, but the entire operation should not be construed as coming within the classification of factory work; that the proposed use is not to be considered in connection with any use that may now be in violation of the Labor Law in the remainder of the

premises, since it is the applicant's understanding that the owners of the premises intend to comply with the law so far as the building is concerned; that the total number of employees within the area under appeal will be 33 persons of which 10 persons will be at the service counter; that the building is equipped with two fireproof enclosed stairways, an automatic sprinkler system having two sources of supply, a 10,000 gallon gravity tank and a 7500 gallon pressure tank; that the proposed use relates only to part of the 1st story; that the upper portion will be maintained in accordance with that permitted by the certificate of occupancy; that Section 10 of the Labor Law defining factory buildings, eliminates from the classification of factory buildings, a building used exclusively for dwelling purposes above the first story; that accordingly, the building could be used on the ground floor for factory purposes, and if the upper portion was used for dwelling purposes with people who live there day and night, the building would not be considered a factory building, nor would the provisions of the Labor Law apply to the upper portions; that in the instant case, the upper portions would be used for a conforming use permitted under the certificate of occupancy and therefore should the type of work be construed as factory work, these structural changes which only affect the upper part of the building, should not be required because of the use of the 1st story; that the applicant occupies the premises adjoining to the north at 315 4th avenue and it is proposed to make a horizontal opening on the 1st story, protected by fireproof, self-closing doors, for access from present premises to the premises under appeal; that in view of the limitations as to the proposed use, it is requested that the appeal be granted.

WHEREAS, under Cal. 395-30-S, an appeal was denied, to permit the building to be occupied for factory purposes and an action to review the determination by the Court was discontinued; and

WHEREAS, the building has been inspected by a Committee of the Board and the Fire Department and found to be substantially as represented, except that there are sixty persons engaged in factory work, employed by various tenants in the building, contrary to the certificate of occupancy, and which work, the owner states, will be discontinued; and

WHEREAS, the Committee has also examined the process referred to and as proposed to be conducted on the first floor northerly store and is of the opinion that the process comes within the purview of work for a factory as defined in the Labor Law, Section 2, paragraph 9, as interpreted by numerous court decisions; and

WHEREAS, the Committee recommends that the variance of the Labor Law be granted, provided the proposed factory work is restricted to the space as proposed on the street floor, and that such a variance shall not be construed as approving any other factory use in the building.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 1848-44 and that the appeal be and it hereby is *granted on condition* that the factory work proposed shall be restricted to the store on the first floor, to be occupied by the Remington Rand Company, as indicated on plan filed with this appeal marked received "April 26, 1945" and as herein set forth, *on condition* that the two existing doorways to the corridor of the building shall be maintained with the doors swinging outwardly; that the entrance door to Fourth avenue shall be maintained; that any glass windows in the building entrance corridor partition shall be removed and approved masonry substituted therefor, as required; that any connection between this space and the adjoining building to the north shall have closure doors, as required for such a condition and not as indicated on plan filed with this appeal; that this variance shall continue only so long as the space is occupied substantially as set forth and by the Remington Rand Company; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the sprinkler system shall be maintained to the satisfaction of the Fire Commissioner; that nothing herein shall be deemed to approve the use of other portions of the building for factory work and that the building shall otherwise be maintained in accordance with Certificate of Occupancy 5361, issued October 23, 1922.

265-45-A

APPLICANT—Reinhard L. Heeren, for Brooklyn Union Gas Co., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—287-473 Maspeth avenue, northeast corner of Varick avenue (Block 2838, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Reinhard L. Heeren and William M. Wepfer.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (265-45-A)

WHEREAS, Reinhard L. Heeren, for Brooklyn Union Gas Co., owner, filed May 7, 1945, an appeal from a decision of the borough superintendent, affecting premises 287-473 Maspeth avenue, northeast corner of Varick avenue (Block 2838, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated May 2, 1945, on Alt. Applic. 1228-45, reads:

"1. As area and height of building (with new extention) will exceed that permitted for Class 3 construction, all steel therefore must be fireproofed to comply with Class 1 construction. Sec. 4.2.1 Bldg. Code.

2. Exits to comply with Sec. 270 of the Labor Law.

3. Openings between floors to be enclosed with 3 hour construction as per Sec. 10.5.1 of Bldg. Code and Sec. 270 of the Labor Law."

and

WHEREAS, the applicant states that the building is 3 stories (91 ft.) in height, 185 ft. 2¾ in. by 103 ft. 2 in. in area; of Class 3 construction; erected in 1927; located in an unrestricted use A area, Class 1½ height district, and used and occupied since 1927 as a generator house, holding six generators—1st floor, removal of ashes from generators, 2 persons; 2nd floor, cleaning and access to equipment, 10 persons; 3rd floor, charging and operating generators, 10 persons; and

WHEREAS, it is proposed to increase the size of the building to 243 ft. 10¼ in. by 103 ft. 2 in., the existing building being 103 ft. 2¾ in. by 185 ft. 2¾ in.; that the building is equipped with an approved standpipe system, with 5 existing stairways, 3 on the south side and 2 on the north side, all extending to the bulkhead; that the stairs are 3 ft. 8 in. and 2 ft. 6 in. constructed of steel stringers and treads and are not enclosed; and

WHEREAS, the applicant states that the steadily increasing demand for gas, due in part to the scarcity of other fuels, makes any idea of further deferment of the installation of additional equipment for making gas, out of the question and accordingly, the owner has contracted for a large quantity of new plant equipment, for which priorities have been obtained from the War Production Board; that included in the apparatus purchased are two gas generators, which are to be placed in an extension to the existing generator house constructed in 1927; that the present building is covered by permit of the Department of Housing and Buildings No. 673-27; that the extension is to be substantially of the same construction, width and height as the existing building, except that the present 2 story lean-to on the north side is not to be extended; that the length of the extension is about 60 ft.; that application was made to the Department of Housing and Buildings for a permit for the extension, but it was denied on the ground stated in objection sheet dated

May 2, 1945; that it was always intended to increase the gas making capacity of the plant, by extending the generator house in the manner proposed, as is evidenced by the fact that the approved plans of the present building show a temporary west end, which would be removed when the need for more capacity arose; that the present Building Code which took effect on January 1, 1938, was radically changed from that previously in use and is evidently the cause of the rejection of the application, and it would seem fair to make an allowance for this fact in the consideration of this appeal; that the construction of the extension is such that the apparatus rests on a steel structure and in part, supports it; that the floors are working platforms for access to the apparatus and in the main, are covered with steel plates, which construction cannot be properly fireproofed, as would be required for a Class 1 structure; that the building is nothing more than a shelter, primarily intended for the apparatus, not for the men; that if the owner were required to install a fire wall with automatic fire doors, etc. between the present building and the extension, to bring the structure within the area permitted by a Class 3 building, it would be necessary to redesign the building, on account of the space taken up by the wall, at a loss of time, which would make it impossible to have the equipment in place and operating in time to take next winter's heaviest loads; that in addition, it would be practically impossible to close off the conveyor belt traveling under the roof for the length of the building, at the place where it would cross the fire wall; that even if the length of the building were reduced by a fire wall, the height would still be in excess of that allowed by a Class 3 (non-fireproof) building, with no means of reducing it to the required height; that it is impracticable to close in these stairs or to otherwise comply with objection 2; that the number of men in the generator house at any one time is small, due partly to automatic operation of the generators, the total being less than 25 persons; that experience has shown that the fire danger in gas generator houses is extremely small, as there is practically no combustible material in these structures; that it is desirable to keep the stairways open in the gas generator houses for ventilation, as well as to enable the operators to have a clear view of the machine at all times; it is therefore respectfully requested that the three items of the objection sheet be waived and that permission be granted to erect the building as designed.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1228-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* and that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the borough superintendent on Alt. Applic. 1228-45, objections 2 and 3, and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height and area; that otherwise it shall be maintained as proposed, except that the exterior walls shall comply with the requirements of the Code for a Class 3 building; that at no time shall there be more than twenty-five persons employed in the building; and, *granted* only so long as the building is used substantially for the purposes set forth; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

277-45-A

APPLICANT—Harley, Ellington and Day, for Liebmann Breweries, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—48-66 Forrest street, southwest corner of Evergreen avenue and southeast corner of Stanwix street (Block 3146, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred Mitschke and Herman Reese.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (277-45-A)

WHEREAS, Harley, Ellington and Day, for Liebmann Breweries, Inc., owner, filed May 9, 1945, an appeal from a decision of the borough superintendent, affecting premises 48-66 Forrest street, southwest corner of Evergreen avenue and southeast corner of Stanwix street (Block 3146, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, on Alt. Applic. 1314-1945, dated May 3, 1945, reads:

"1. Proposed use of cork insulation in hop storage room on the 4th floor of bldg. of class 1 construction, does not comply with Sec. 10.3.1 Bldg. Code, and also Sec. 10.9.1 Bldg. Code.

2. Proposed use of sliding doors on stairway violates Sec. 270-5 Labor Law."

and

WHEREAS, the applicant states that the building is 5 stories (84 ft.) in height, 89 ft. 8½ in. by 121 ft. 8 in. in area at 1st floor, 98 ft. 8 in. by 121 ft. 8 in. in area at typical floor, of class 1 construction, erected in 1880, located in an unrestricted use, B area, class 1¼ height district and used and occupied since approximately 1882 as follows: cellar—ale cellar—3 persons; 1st floor—brewing equipment—6 persons; 2nd floor—same—6 persons; 3rd floor—brewing equipment and storage room—4 persons; 4th floor—same—4 persons; 5th floor—hot water tanks and brewing equipment—2 persons; that no change in use or occupancy is proposed, with the exception of the 5th floor which will be used for malt hoppers and storage room—2 persons; that the building is equipped with two interior stairways, one located at the northwest corner and the other at the southwest corner of the building, each 3 ft. 8 in. in width, extending to the roof bulkhead, of steel and concrete construction, enclosed in 8 in. and 12 in. brick; equipped with self-closing 1½ and 3 hour fireproof doors and leading directly to the street; and

WHEREAS, the applicant contends as to Objection 1, that the entire structure is fireproof; that the cork insulated hop storage room on the 4th floor is built entirely separate and apart and is enclosed with 12 in. masonry walls, reinforced concrete ceiling and floor; that the cork insulation is finished with ½ in. cement plaster; that the 1½ in. cement finish, as required by the Code applied on cork, would be too heavy for direct application; as to Objection 2, that the location of new stairhall #2 with direct exit to the street, allows for little clearance in direction of traffic for swing of doors to the stairhall and in lieu of same, it is proposed to use sliding doors 1½ hour and 3 hour assemblies; that six occupants are the maximum on any floor and are served with two separate stairs, one having regulation swing doors.

Resolved, that the decision of the borough superintendent acting on Alt. Applic. 1314-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* and that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the borough superintendent, on Alt. Applic. 1314-45, objection 2, and that the appeal be and it hereby is *granted on condition* that the cork insulation in hop storage room shall be maintained as proposed; that the cement plaster on the face of the cork insulation shall not be less than a full one-half inch; that the doors to stairhall No. 1 shall be maintained swinging, as shown on plans filed with this appeal, marked "Received May 9, 1945", and sliding doors to the secondary means of exit shall be maintained as proposed; that such doors shall be automatic, self-closing and normally kept closed; that the number of persons on any floor at any one time shall not exceed six (6); and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

283-45-A

APPLICANT—Emil Backstrom, for Defense Plant Corporation, owner (Ranger Aircraft Engines, lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—184-10 Jamaica avenue, south side, 429.71 ft. east of 183rd street (4th floor, Building 1); (Block 10352, Lots 70 and 71), Jamaica, Borough of Queens.
APPEARANCES—
For Applicant: Emil Backstrom.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (283-45-A)

WHEREAS, Emil Backstrom, for Defense Plan Corporation, owner (Ranger Aircraft Engines, lessee), filed May 10, 1945, an appeal from a decision of the borough superintendent, affecting premises 184-10 Jamaica avenue, south side, 429.71 ft. east of 183d street (Bldg. #1, 4th floor); (Block 10352, Lots 70 and 71), Jamaica, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated April 27, 1945, re Alt. Applic. 628-45, reads:

"1. The construction of a steel and glass partition to be used as a corridor leading to an exit, is contrary to section 270, subdivision 6 of the Labor Law.

2. The installation of sealing devices on required exit doors, is contrary to section 272, subdivision 3 of the Labor Law."

and

WHEREAS, the applicant states that the building is 5 stories and penthouse (64 ft.) in height, 120 ft. by 247 ft. in area; of Class 1 construction; erected in 1922; located in an unrestricted use, Class 1 height district; used and occupied since 1942 as follows: Cellar, storage, 35 persons; 1st to 5th floors, inc., factory, 220 persons per floor (except 4th floor, 193 persons); north penthouse, storage, 50 persons; south penthouse, same, 50 persons; that Certificate of Occupancy #29654, issued August 18, 1943, permits the use of the building for factory and storage, floor loads and occupancy as follows: Basement—(on ground) 35 persons; 1st to 5th floors, 140 lbs. per floor, 220 persons per floor; north penthouse, 30 lbs., 50 persons; south penthouse, 30 lbs., 50 persons; that the building is equipped with a two-source sprinkler system and an approved standpipe system; that there are three interior stairs extending to the roof bulkhead, each 3 ft. 8 in. wide, of concrete construction, enclosed with brick and concrete and having metal, self-closing underwriters doors; that one stairway leads directly to the street and the other two stairways lead to a court; and

WHEREAS, the applicant contends that the property was acquired by the Defense Plant Corporation in 1944, and is leased by Ranger Aircraft Engines Division of Fairchild Engine and Airplane Corporation, for the manufacture of vital war material; that alterations are to be made on 4th floor only; that the occupancy will be 193 persons for that floor; that as to Objection 1, over 500 linear feet of wood partitions will be removed from this area, which is in accordance with Section 270, sub. 6 of the Labor Law; that the use of this area will be for the duration of the Lark Project; that the stairways are adequate and in accordance with the rules of the Dept. of Housing and Buildings; that the approval is sought for the use of steel partitions, as shown on drawing filed with this appeal; as to Objection 2, the following is a memo from Ranger Aircraft Engines Division to the Bureau of Aeronautics Representative, U. S., upon which this appeal is based:

"1. In order to acquire the necessary dispensations for closing off entrances and exits to the Ranger-Lark location on the 4th floor at the Jamaica plant, it is hereby respectfully requested that your office approve the following:

a. That the small door at the east stairway be secured by panic bolts on the inside, in order that the emergency exit may still be available, but entrances would be controlled.

b. That the large door at the west stairway rear be secured by panic bolts on the inside, in order that the emergency exit may still be available, but entrances would be controlled. In addition we will wire this door, so that the persons seeking admittance from the freight elevator location immediately adjacent, can signal the guard on the inside.

c. That the freight elevator in the central floor location on the south end of the building be securely locked, since its use is not required at this landing.

d. That the freight elevator at the northwest corner immediately to the rear of the main entrance door be securely locked, since its use is not required at this landing."

and

WHEREAS, a letter dated May 3, 1945, from the Bureau of Aeronautics representative, U. S. N., addressed to Ranger Aircraft Engines, reads in part:

"2. In view of the classified nature of the work being undertaken by the Ranger-Lark Division on the fourth floor of the Ranger-Jamaica Plant, the security measures recommended in reference (a) are considered as necessary by this office and should be installed—provided, however, the necessary dispensations are obtained from the Board of Standards and Appeals, New York City."

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent, acting on Alt. Applic. 628-45, and that the appeal be and it hereby is *granted* as to objection 1, *on condition* that the steel and glass partitions as proposed and as indicated on plans filed with this appeal marked "Received May 10, 1945", shall not exceed 7 ft. in height, except that such partition at conference room may extend to ceiling as proposed; as to Objection 2, that panic bolts may be installed on exit doors on the fourth floor, as indicated on plans filed with this appeal marked "Received May 10, 1945", provided such panic bolts are of approved type and are removed upon the termination of the present emergency or within six (6) months thereafter; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, otherwise as modified under Cal. Nos. 298-21-A, 530-21-A, 356-42-A, 24-43-S and 665-44-A.

392-41-A

APPLICANT—Slee and Bryson, for Gould and Taylor Cut Stone Company, Incorporated, owner (American Nickel Alloy Mfg. Corp., lessee).
SUBJECT—Application for consideration—reopening, amendment of resolution and extension of variance—re Appeal from a decision of the borough superintendent (previously granted on condition).
PREMISES AFFECTED—310-318 Third avenue, west side, 157 ft. 8 in. south of Carroll street and 466-468 Carroll street (Block 453, Lot 52) Borough of Brooklyn.
APPEARANCES—
For Applicant: John B. Slee, K. E. Blomberg and W. B. Lobbenberg.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (392-41-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 310-318 Third avenue, west side, 157 ft. 8 in. south of Carroll street and 466-468 Carroll street (Block 453 Lot 52), Borough of Brooklyn, was granted by the Board on May 13, 1941, on certain conditions; and

WHEREAS, the applicant requested on amendment of the resolution, relative to an extension of the variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 13, 1941, only so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"that this variance shall continue for a term not exceeding six (6) years from the date of this *amended* resolution; that in the event the adjoining vacant premises are under another ownership, the requirements of this resolution shall nevertheless be complied with and an agreement allowing exit over such premises, shall be filed with the borough superintendent; that other than as herein *amended,* the conditions of the resolution of May 13, 1941, shall be complied with."

407-42-A

APPLICANT—Raymond Irrera, for 28th Properties, Inc., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—31-81 Steinway street, east side, 100 ft. north of Broadway (Block 678, Lot 9), Astoria, Borough of Queens.

APPEARANCES—

For Applicant: Raymond Irrera.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (407-42-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 31-81 Steinway street, east side, 100 ft. north of Broadway (Block 678, Lot 9), Astoria, Borough of Queens, was granted by the Board on April 6, 1943, on certain conditions; and

WHEREAS, the resolution was amended on April 17, 1945 and the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* its resolution adopted April 6, 1943, as amended April 17, 1945, so that as further amended, the resolution shall read:

"Resolved, that the decision of the borough superintendent acting on Alt. Applic. 564-42, Objs. 1 and 2 of February 2, 1943, be and it hereby is *modified* and that the appeal be and it here is *granted on condition* that the building shall not be increased in height or area, that this variance shall continue only while the occupancy is retail sale and display of household furniture; that the side walls of the three-story building shall be brick-filled; that no new opening in the sidewalls shall be constructed; that the floors in the three-story building shall be reinforced in a manner similar to that proposed and to the satisfaction of the borough superintendent, so as to provide a floor loading per superficial foot of 75 lbs., except for the office space on the second floor over the show windows, which may have a floor loading of 50 lbs. per superficial foot; that the main interior stairs shall be enclosed as proposed on the basement, first, second and third floors, and the rear stairs from the second story to the underside of roof beams on the third story with a 1-hour enclosure with fireproof self-closing doors; that the existing fire escape shall be provided with a gooseneck ladder to roof of third story; that a loose iron ladder shall be provided on the roof of the one-story extension of sufficient length to reach the rear yard; that a scuttle and ladder shall be provided within the main stairway enclosure at third story to provide access to roof; that at least one window at rear of 1st story shall be changed to a door to provide access to rear yard from which access shall be provided through adjoining premises, and the consent of the adjoining owner for such access through fence shall be filed with the borough superintendent; that trap doors in sidewalk now in front of the main entrance shall be relocated southerly as proposed and shown; that not less than three well holes shall be constructed at intervals of 25 feet in the first floor with removable covers not less than 1 foot square, located substantially in line with the center of building for Fire Department use in the event of a cellar fire, and maintained unobstructed; that the number of occupants employed throughout the building shall not exceed ten (10); that such portable fire fighting appliances shall be maintained as the fire commissioner shall require; that in all other respects, the building and its use and occupancy shall comply with all laws, ordinances and regulations applicable thereto.

Resolved further, that any side walls of any portion of the building that are not masonry or brick-filled between studs shall be filled in between studs for the full height, with Vermiculite concrete or Vermiculite plaster.

Resolved further, that at least one window at the rear of the first story shall be changed to a door, to provide a means of escape to the rear yard and to the adjoining premises."

728-42-A

APPLICANT—Economics Laboratories, Inc., contractual owner; Crane Company, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution and extension of the variance—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1075 Irving avenue, northeast corner of Schaeffer street (Block 3541, Lot 7), Ridgewood, Borough of Queens.

APPEARANCES—

For Applicant: Henry Saia and Gustave W. Iver.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (728-42-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 1075 Irving avenue, northeast corner of Schaeffer street (Block 3541, Lot 7), Ridgewood, Borough of Queens, was granted by the Board on October 14, 1942, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and an extension of the variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 14, 1942, so that as amended, the resolution shall read:

"Resolved, that the decision of the borough superintendent on Alt. Applic. No. 1788-42, Objection Nos. 1 and 7, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building

shall not be increased in height or area; that the building shall be occupied substantially as proposed with not more than 10 per cent of the floor space, occupied for manufacturing purposes, toward the center of the building and adjacent to the proposed tower; that the balance of the building shall be occupied for the storage of the products; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that this modification shall continue only for a term of two (2) years, from the date of this *amended* resolution, but shall be subject to review by this Board for considering the requirement that additional fire fighting appliances shall be installed, if determined necessary; that during the term of this modification, no material requiring the issuance by the Fire Commissioner for combustible or inflammable occupancy shall be stored; that the exterior of the tower shall be surfaced with asbestos shingles or some other incombustible material satisfactory to the borough superintendent; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Resolved further, that the frame extension, consisting of canopy over shipping platform at the rear of the building, may be constructed, as indicated on plans marked "Received May 21, 1945", provided that in all other respects, the requirements therefor are complied with and that a certificate of occupancy shall be obtained."

577-44-A

APPLICANT—Joseph J. Furman, for Peoples Realty Corp., owner (Tom Mooney Hall Assn., Inc., lessee).

SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—13-15 Astor place, northwest corner of Lafayette street and 138-146 East 8th street (10th and 11th floors); (Block 545, Lot 65), Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph J. Furman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (577-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 13-15 Astor place, northwest corner of Lafayette street and 136-146 East 8th street (10th and 11th floors); (Block 545, Lot 65), Borough of Manhattan, was withdrawn on October 31, 1944; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on March 20, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, this appeal was granted by the Board on April 10, 1945, on certain conditions and the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 10, 1945, so that as amended, the resolution shall read as follows:

"*Resolved,* that the decision of the borough superintendent on Alt. Applic. 209-45, Objections 1 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the full stairway on the East 8th street side, as indicated on revised plans marked "Received March 28, 1945" as further amended by revised plans marked "Received May 14, 1945", shall be constructed and maintained; that the doors leading from the lobby to both East 8th street and Astor place shall be of an approved type; that such stairway shall be enclosed in lawful partitions; etc. * * * and that other than as herein *amended,* the conditions of the resolution of April 10, 1945, shall be complied with."

ZONING APPLICATIONS

253-23-BZ

APPLICANT—Samuel Gardstein and Son, for Vernon Terrace, Inc., owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the borough superintendent) previously granted on condition, permitting in a business use district, the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—14-18 East 98th street, west side, 102 ft. south of East New York avenue (Block 4600, Lots 15-23), Borough of Brooklyn.

APPEARANCES—

For Applicant: Samuel Gardstein and Solomon Pulin.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (253-23-BZ)

WHEREAS, this application, permitting in a business use district, the erection and maintenance of a garage for the storage of more than five motor vehicles, affecting premises 14-18 East 98th street, west side, 102 ft. south of East New York avenue (Block 4600, Lots 15-23), Borough of Brooklyn, was granted by the Board on June 26, 1923, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on a decision of the borough superintendent, re Alt. Applic. 1306-45, dated May 8, 1945, which reads:

"1. As present non-conforming use was granted conditionally by the Board of Standards and Appeals under Cal. 253-23-BZ, any change in the conditions of such use must be submitted the said Board for their consideration."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 26, 1923, by adding thereto:

"* * * that in the event the owner, Terrace Company, desires to lease the building for a conforming use for a term during the present emergency, that such use may be permitted, provided the building complies in all respects with the requirements therefor, without prejudice to the restoration of the garage use upon the termination of such proposed use and that other than as herein *amended,* the conditions of the resolution of June 26, 1923, shall be complied with and that a certificate of occupancy shall be obtained."

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

RULES

EXTRACTS FROM THE ADMINISTRATIVE CODE OF THE CITY OF NEW YORK, RELATING TO REFRIGERATING SYSTEMS

General Provisions.

§C19-2.0. Definitions.

Unless otherwise expressly stated, whenever used in this chapter the following terms shall respectively be deemed to mean:

34. Refrigerating system, a combination of apparatus in which a refrigerant is circulated for the purpose of extracting heat.

(a) The parts of the system are the compressor, generator, condenser, absorber, receiver, shell type or tube type apparatus, pipes, vessels, or other parts, containing refrigerant.

(b) Direct refrigeration, a system in which the refrigerant is circulated to the substance or space refrigerated.

(c) Indirect refrigeration, a system in which brine cooled by the refrigerant is circulated to the substance or space refrigerated.

(d) Refrigerant is the chemical agent other than brine used to produce refrigeration.

(e) Irritant refrigerant, any refrigerant which when breathed, attacks the throat or lungs.

(f) Hydrocarbon refrigerants, any refrigerant of the hydrocarbon class.

(g) Flammable refrigerant, any refrigerant which will burn or explode when mixed with certain proportions of air.

(h) Refrigerating machinery room, a room in which is located a refrigerating system containing refrigerant, but not including expansion coils when located in cold storage rooms or expansion coils when located in refrigerator boxes.

(i) Factor of safety, the multiple three and one-third ($3\frac{1}{3}$), the product of which and the test pressure, constitutes the probable rupture pressure.

(j) Pressure imposing element, that apparatus which draws the refrigerant from the low pressure or low temperature side of the system and discharges it into the high pressure or high temperature side of the system.

(k) Pressure limiting device, a pressure or temperature responsive mechanism for automatically stopping the operation of the pressure imposing element.

(l) Brine, any liquid which having been cooled by the refrigerating system is used for the transmission of heat.

(m) Pressure relief device, a pressure relief valve, a rupture member, fusible plug or other approved device for relieving the pressure.

(n) Pressure relief valve, a valve held shut by a spring or other means to automatically relieve pressure in excess of its setting.

(o) Rupture member, a device that will automatically rupture at a pre-determined pressure.

(p) Liquid receiver, a vessel permanently connected to a system by inlet and outlet pipes for storage of a liquid refrigerant.

(q) Container, a cylinder for the shipment of refrigerant constructed to conform to the regulations of the Interstate Commerce Commission.

(r) Mixer, a vessel or device in a system for mixing the ammonia or other soluble vapor with water.

(s) Stop valve, a cut-off valve for use during normal operation.

(t) Service valve, a key-operated shut-off valve used only during shipment, installation or repairs.

(u) Fusible plug, a device having a predetermined-temperature fusible member for the relief of pressure.

§C26-235.0. Definitions.

(a) **Public Buildings.** Public buildings are structures or parts of structures in which persons congregate for civic, political, educational, religious or recreational purposes, or in which persons are harbored to receive medical, charitable or other care or treatment, or in which persons are held or detained by reason of public or civic duty, or for correctional purposes, including among others, court houses, schools, colleges, libraries, museums, exhibition buildings, lecture halls, churches, assembly halls, lodge rooms, club houses with more than five sleeping rooms, dance halls, theatres, bath houses, hospitals, asylums, armories, fire houses, police stations, jails and passenger depots.

(b) **Residence Buildings.** Residence buildings are structures or parts of structures in which sleeping accommodations are provided, except such as may for other reasons be classed as public buildings, including multiple dwellings as defined in the Multiple Dwelling Law.

(c) **Commercial Buildings.** Commercial buildings are structures or parts of structures, which are not public buildings or residence buildings, including among others, office buildings, factory buildings, salesrooms (stores), markets, restaurants, warehouses, freight depots, car barns, stables, garages, motor vehicle repair shops, factories, laboratories, smoke houses, grain elevators, coal pockets, central station power plants and electric sub-stations.

Bonds and Fees.

§C19-24.0 Fees for Permits.

Applicants for permits under the provisions of this chapter shall pay annual fees as follows:

35. Refrigerating systems:

Class A systems	$20.00
Class B systems	10.00
Class C systems containing over six pounds of refrigerant	5.00
Class C systems containing six pounds or less of refrigerant	1.00

Refrigerating Systems.

C19- 96.0. Permits.
C26-214.0. Supervision.
C19- 97.0. Classification.
C19- 98.0. Permissible locations.
C19- 99.0. Refrigerating machinery rooms and ventilation.
C19-100.0. Open flames and electrical equipment.
C19-101.0. Testing.
C19-102.0. Piping.
C19-103.0. Safety devices.
C19-104.0. Size of safety devices.
C19-105.0. Location and discharge of safety devices.
C19-106.0. Operating precautions.
C19-107.0. Equipment diagrams.

§C19-96.0. Permits.

(a) Except as hereinafter provided in this article it shall be unlawful to maintain or operate a refrigerating system without a permit.

(b) A permit will not be required for a Class C system when maintained or operated in the residence portion of a dwelling containing not more than two families, or in the residence portions of either a tenement house or a business building.

(c) It shall be unlawful to maintain or operate any refrigerating system employing a refrigerant other than those specified in this article without a permit issued upon such conditions, consistent with the provisions of this article, as are deemed by the fire commissioner necessary in the interest of public safety.

NOTE:—The Fire Chief and Commissioner prescribed under date of April 4, 1934, the following:

1. That the refrigerants dichlorodifluoromethane, known as "Freon" ("Kinetic No. 12" also "F-12") CCl^2F^2 also dichlorotetrafluoroethane ("F-114") $C^2Cl^2F^4$ and monofluorotrichloromethane ("F-11") CFC^3 are non-flammable and non-irritant, unless otherwise hereinafter provided, and

shall be regulated in accordance with the provisions of Article 18 of Chapter 19 of the Administrative Code, as such, except, when used in a room or rooms in which there is an open flame or apparatus to produce an open flame, when the provisions of said article covering irritant refrigerants shall apply.

2. That refrigerating systems employing F-11, F-12 or F-114 are restricted to parts of a building so specified in Section C19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

3. That refrigerating systems employing F-11, F-12 or F-114 used for air conditioning are restricted to the indirect method except that the direct method may be used in parts of a building so specified in Section C19-98.0 (b) for refrigerants other than non-irritant and non-flammable.

4. That refrigerating systems employing F-11, F-12 or F-114 shall not be installed or maintained in or on the stairways, halls, lobbies, entrances, exits or auditoriums of any building.

5. That refrigerating systems employing F-11, F-12 or F-114, shall not be installed or maintained in a hospital, unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame shall be employed, except that the Class "C" system containing not more than 10 pounds of refrigerant may be used in a diet kitchen which shall be cut off from the rest of the building by a tight fitting self-closing door or doors and provided with a window or windows to the outside air. All open flames, and/or apparatus for producing an open flame, in diet kitchens where these refrigerants are used shall be vented to the outside air as hereinafter required in Paragraph 8.

6. That refrigerating systems employing F-11, F-12 or F-114 may be installed or maintained in a hospital private room, having tight partitions and tight fitting self-closing door or doors and where not more than two persons are helpless and/or given medical treatment, provided there is no open flame and/or apparatus for producing an open flame in such room and when the system contains not more than 10 pounds of refrigerant.

7. That a refrigerating system employing F-11, F-12 or F-114 shall not be installed or maintained in a theatre and/or motion picture theatre unless the entire system is confined in a fireproof machinery room, used for no other purpose, and in which no open flame and/or apparatus to produce such open flame shall be employed, except that Class "C" systems containing not more than ten pounds of refrigerant may be installed in a rest room, smoking room or lounging room provided in such rooms no open flame or apparatus to produce such open flame shall be employed.

8. That a refrigerating system employing F-11, F-12 or F-114 when used in a room or rooms in which there is an open flame or apparatus to produce such open flame, such open flame and/or apparatus shall be provided with a hood and independent mechanical ventilation so arranged as to convey all the products of combustion to the outside of the building. This provision shall apply only to diet kitchens of hospitals and to Class "C" systems in schools, churches, dance halls, court rooms, police stations, jails, asylums, subways, passenger depots, rooms opening into passenger depots and/or subways and such other places as are deemed by the Fire Commissioner necessary in the interest of public safety.

9. That, except for Class "C" systems located in rooms in which no open flame or apparatus to produce such flame shall be employed containing not more than ten pounds of refrigerant, each refrigerating machinery room in any building in which F-11, F-12 or F-114 are used, shall be maintained vapor-tight and provided with tight fitting, self-closing doors, in accordance with Section C19-99.0 (a).

10. That each refrigerating machinery room in which F-11, F-12 or F-114 is used, shall be adequately ventilated directly to the outside air in accordance with Section C19-99.0 (b), 1, 2, 3 and 4.

11. Test pressures and setting of safety valves for systems employing F-11, F-12 or F-114, shall be included in Section C19-101.0 as follows:

Refrigerant	Column No. 1	Column No. 2	Column No. 3
F-11	25	15	15
F-12	180	120	135
F-114	60	30	30

12. That the size of pressure relief valves for systems in which F-11, F-12 or F-114 is employed, shall be as follows:

Capacity of System	Number Required
Up to 30 tons	One ½ inch
30 to 60 "	One ¾ "
60 to 100 "	One 1 "
100 to 175 "	One 1¼ inches
175 to 250 "	One 1½ "
250 to 450 "	One 2 "
450 to 900 "	Two 2 "

13. That the storage of F-11, F-12 or F-114 shall conform with Section C19-106.0 (c)-5 for other refrigerants.

14. That all other sections or parts of Article 18 of the Administrative Code not so mentioned, shall be complied with.

15. That refrigerating systems employing F-11, F-12 or F-114, installed prior to May 19, 1932, shall be inspected, and if found to comply with the rules, or if in the opinion of the Fire Commissioner, the installations are of a non-hazardous character, a permit may be issued. Installations which have been made in hospitals, theatres, asylums and places of public assembly shall be made to comply strictly with these rules.

(d) A permit, where required, shall be applied for forty-eight hours after installation is completed, containing the name of the person for whom the system is installed and the place or location of the system.

(e) Only the refrigerant specified in the permit shall be used in the system.

(f) Refrigerating systems to which these provisions cannot be applied, may be maintained and operated subject to such conditions as are deemed necessary by the fire commissioner.

§C26-214.0. Refrigeration System Operators; Certificate of Qualification.

(a) It shall be unlawful to maintain or operate in any building any refrigerating system containing more than fifty (50) pounds of refrigerant except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system. Where the system contains two hundred (200) pounds or less of refrigerant and is fully automatic, only one qualified operator will be required.

(b) It shall be unlawful to maintain or operate in a public building or exhibition hall any Class C system permitted for exhibition or demonstration purposes except under the personal supervision, direction or control of either a duly licensed engineer or a person who has obtained a certificate of qualification from the superintendent to operate such a system.

(c) Upon receipt of such certificate the applicant therefor shall pay an annual license fee as follows: For the initial fee $5, and for renewal thereof the sum of $1 provided application for such renewal be made within thirty days prior to the expiration of such certificate. Any such certificate may be revoked or suspended for cause at any time by the superintendent.

§C19-97.0. Classifications.

(a) The total amount of refrigerant common to a system operating through one or more evaporators, shall be considered the capacity of the system and determine its class.

(b) A Class A system is a system containing one thousand (1,000) pounds or over of refrigerant, or capable of thirty (30) tons capacity or over.

(c) A Class B system is a system capable of less than thirty (30) tons capacity, or containing less than one thousand (1,000) pounds of refrigerant and more than amounts provided for in a Class C system.

(d) A Class C system is a system containing not more than twenty (20) pounds of refrigerant.

§C19-98.0. Permissible Locations.

(a) It shall be unlawful to install any Class A or Class B systems in any public building as defined by subdivision a of section C26-235.0 of the code, until plans have been filed with and approved by the fire commissioner, and no refrigerant shall be placed in the system until a permit has been obtained from the fire commissioner.

(b) The direct method of refrigeration shall not be used in any building, whether or not a permit is required for installation therein, outside of the refrigerating machinery room except in buildings used exclusively for ice making or for refrigerating purposes, or when such method is not carried above the first floor in business buildings, or in the business sections of business buildings provided the entire system is confined to one floor in the space occupied by a single tenant, or in the business section of a residence building when not carried above the first floor, or in a residence building occupied by not more than two families, or in any building provided a non-irritant and non-flammable refrigerant is used. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(c) It shall be unlawful to use brine in any brine circulating system that will generate flammable vapor at a temperature below 100 degrees Fahrenheit when tested in a Tagliabue open cup tester, and no refrigerant shall be used as a brine.

(d) It shall be unlawful to install or maintain a Class A system using ammonia in any building above the first floor level unless such building is used exclusively for ice making or refrigerating purposes. The provisions of this subdivision shall not apply to a building in which installation was made prior to December 13, 1927.

(e) Systems on demonstration in exhibition halls shall be limited to the unit type containing not more than ten (10) pounds of refrigerant.

(f) It shall be unlawful to install or maintain a refrigerating system employing an irritant or inflammable refrigerant in or on:

1. The stairways, halls, lobbies, entrances, exits or auditoriums of any building;
2. Dance halls, court rooms, police stations, jails, subways, theatres, or motion picture theatres;
3. Waiting or public rooms in a railroad passenger depot or rooms opening directly therein;
4. Rooms opening directly into a subway, or theatre, or motion picture theatre, or where persons are detained or confined;
5. A school, unless the refrigerating system is used exclusively for instructions or research purposes;
6. A hospital or asylum in which persons are confined or given medical treatment or helpless. Unless otherwise required by this section, such refrigerating system shall be cut off from the building by unpierced fireproof construction.

The foregoing provisions do not apply to hermetically sealed unit system containing not more than six (6) pounds of refrigerant when located in dance halls, police stations, diet kitchens of hospitals, schools, or laboratories, and when located in rooms shut off from the rest of the building by tight partitions and tight-fitting, solid, self-closing doors and located in a room having a window to the outside air.

(g) An intermittent absorption type of refrigerating machine shall not be permitted in a Class A system. Such a type of machine shall be permitted in a Class B system only when a heating medium of low pressure steam is used in its operation.

(h) The use of methyl and ethyl chloride, sulphur dioxide, or a hydro-carbon refrigerant will not be permitted in Class A systems.

(i) A Class B system using ethyl chloride or a hydrocarbon refrigerant shall not be installed or maintained in the Borough of Manhattan or in other built-up sections of the city. Elsewhere, it shall be installed or maintained only in a fireproof building of not more than one story in height, and shall be located on the ground floor, which shall be of unpierced fireproof construction. The refrigerating machinery room shall be cut off from the rest of the building by unpierced fireproof walls of not less than eight inches (8″) of brick or six inches (6″) of reinforced concrete. Direct exit therefrom leading to the open air and not to any other part of the building shall be maintained and shall be provided with vapor-tight, self-closing, fireproof doors.

§C19-99.0. Refrigerating Machinery Rooms and Ventilation.

a. Refrigerating machinery rooms.

1. All refrigerating machinery rooms in which an irritant refrigerant is used shall be maintained vapor-tight except that all doors which open to other parts of the building shall only be required to be self-closing and close fitting, and shall be kept closed at all times, except during entrance or exit. All other openings that may permit the passage of vapor to other parts of the building shall be vapor-tight and kept closed. No opening from elevator shafts shall be permitted in the refrigerating machinery room. This provision, however, shall not apply to dumbwaiter shafts the door openings of which are protected with self-closing fire doors or to a system containing less than six (6) pounds of refrigerant. Closets solely contained within and opening only into the refrigerating machinery room shall be considered as part of the room in which it opens.
2. In Class A and Class B systems in which an irritant refrigerant is used, the doors of the refrigerating machinery rooms shall open outwardly.

b. Ventilation.

1. Each Class A, B and C refrigerating machinery room of any system shall be independently provided with means for adequate ventilation to the outer air. The ventilation shall consist of a window or windows opening directly to the open air, or mechanical means capable of exhausting the foul air from the room.
2. When a window or windows are used, if placed in opposite walls so as to provide a through air circulation to the outer air, a total area of inlet and outlet, respectively, of not less than that specified in Column D of the table in subdivision 4 shall be provided. When a window or windows are placed in one wall a total area shall be provided not less than that specified in Column E of such table.
3. When mechanical means are used they shall consist of a power-driven exhaust fan of the enclosed case blower type which shall be capable of removing from the refrigerating machinery room the amount of air specified in Column B of the table in subdivision 4. The inlet to the fan shall be located near the refrigerating equipment. The outlet from the fan shall terminate not less than six (6) feet above the sidewalk and in no case under a stairway or fire escape. Where air ducts are used on either the inlet or discharge side of the fan they shall each have an area not less than that specified in Column C of such table. Sharp bends in the run of the ducts shall be avoided. The control for such mechanical means of ventilation shall be easily accessible and located outside of the refrigerating machinery room.
4.

	Pounds of Refrigerant in System	Mechanical Cu. Ft. per Minute Discharge	Window Area Mechanical Sq. Ft. Duct Area	Window Area in Sq. Ft. for each Opposite Side	Window Area in Sq. Ft. for One Side Only
	A	B	C	D	E
Up to ...	20	150	¼	1	6
	50	250	⅓	1½	12
	100	400	½	2	16
	150	550	⅔	2½	19
	200	680	⅔	3	25
	250	800	1	3½	29
	300	900	1	4	32
	400	1,100	1¼	4½	38
	500	1,275	1¼	5	42

600	1,450	1½	6	45
700	1,630	1½	6½	48
800	1,800	2	7	51
900	1,950	2	7½	55
1,000	2,050	2	8	59
1,250	2,350	2¼	9	68
1,500	2,800	2½	11	78
1,750	3,150	3	12½	87
2,000	3,500	3½	14	95
2,500	4,150	4	16	113
3,000	4,500	4½	18	130
4,000	6,000	6	24	167
5,000	7,500	7½	30	204
6,000	9,000	9	36	241
7,000	10,500	10½	42	278
8,000	12,000	12	48	315
9,000	13,000	13	52	342
10,000	14,000	14	56	360
12,000	17,000	17	68	425
14,000	19,000	19	75	470
16,000	22,000	22	86	540
18,000	24,000	24	92	580
20,000	26,500	26	100	630
25,000	33,000	33	121	760
30,000	39,000	39	142	870
35,000	44,000	44	155	940
40,000	51,000	51	176	1,060
45,000	56,000	56	190	1,120

Note—Door openings leading directly to the open air shall be considered equivalent to windows for the requirements specified in columns "D" and "E" of this table.

5. Where a non-irritant or non-inflammable refrigerant is employed, the requirements as given in the table in subdivision 4 may be reduced by one-half. When air or water is employed as the refrigerant no ventilation shall be required.

6. In lieu of mechanical means of ventilation in refrigerating machinery rooms where a Class A system or a Class B system using ammonia is installed, a water deluge may be provided which shall consist of a sprinkler system having open heads of not less than one-quarter inch (¼") orifice spaced not more than eight feet apart in any direction, and such system shall be located above all the refrigerating apparatus and piping in the refrigerating machinery room. Not more than one head shall be installed on a ¾-inch pipe; five heads on a 1-inch pipe; six heads on a 1¼-inch pipe. The deluge system shall be permanently connected with the main house supply or other assured source from which a constant water pressure of not less than twenty pounds per square inch can be maintained on the inlet side of the main control valve or valves at all times. The control valve or valves for such water deluge system shall be manually operated and easily accessible, and shall be labeled and located outside of the refrigerating machinery room.

§C19-100.0 Open Flames and Electrical Equipment.

a. Open flames.

No fire-flame or arc light will be permitted in a Class A or B refrigerating machinery room in which a flammable refrigerant is used.

b. Electrical equipment.

1. All Class A and B refrigerating systems containing more than fifty (50) pounds of refrigerant shall have an emergency switch controlling all of the electrically-operated refrigerating machinery or the remote control of such a switch located outside of the refrigerating machinery room where it can be quickly reached and operated in case of necessity.

2. Where the operating mechanism in any system is dependent upon electrical control, such control in a pressure limiting device shall be on a closed circuit. Nothing herein contained shall require a hand reset on an automatic type of refrigerating machine.

§C19-101.0. Testing.

Every part of any refrigerating system, except pressure gauges and control mechanism shall be tested to at least the following pressures: Class A and B systems containing over fifty (50) pounds of refrigerant shall be tested after installation and proved tight before being operated. A dated declaration of such test, signed by the tester, shall be posted in the machinery room.

Refrigerant	Col. 1	Col. 2 Low Pressure Side	Col. 3
	High Pressure Side	With Safety Valves	Without Safety Valves
Carbon dioxide	1,500	750	1,000
Ethane	1,050	520	760
Ammonia	300	150	225
Propane	250	115	175
Methyl chloride	155	80	120
Sulphur dioxide	135	100	100
Iso-butane	90	45	70
Butane	75	35	50
Ethyl chloride	30	15	25
Dichloromethane	12	12	12
Dichloroethylene	12	12	12
Trichloroethylene	12	12	12

§C19-102.0. Piping.

a. Piping.

1. All piping, liquid receivers or vessels containing the refrigerant, shall be supported on or by strong and durable materials. This provision shall not apply to Class C installations.

2. The arrangement of stop valves, relief devices, and other similar devices, when used shall be as shown on the diagram for Class A and B systems in section C19-107.0 of the code.

3. Every system which may be charged after installation shall have the charging connection located on its low pressure.

b. Gauge glasses.

Liquid level gauge glasses, except those of the bull's eye type, shall have automatic closing shut-off valves and such glasses shall be adequately protected against injury by slotted metal casings.

§C19-103.0. Safety Devices.

a. Construction and setting.

1. Pressure relief valves, pressure limiting devices and rupture members shall be set to prevent the pressure from exceeding the test pressure. The pressure at which the device is set to function shall be indicated thereon. (See section C19-101.0 of the code, columns 1 and 2 of table.)

2. Fusible plugs shall relieve the pressure at a temperature not exceeding 280 degrees Fahrenheit.

b. Use of stop valves.

1. It shall be unlawful to locate a stop valve between a pressure relief device or pressure limiting device and the part of the system protected thereby, unless two pressure relief devices of required size are used, and so arranged that only one pressure relief device can be cut off for repair purposes at any one time.

2. A Class B system in which no stop valves are used and in which the pressure will equalize throughout the system when the pressure imposing element is not in operation may be protected by only one pressure relief device located on the high pressure side.

c. Ammonia mixer.

1. The low pressure side of a Class A ammonia system shall be provided with a hand-operated valve for discharging the ammonia into water through a mixer to the sewer in case of emergency.

2. The ammonia mixer shall be constructed of steel and shall be capable of withstanding a pressure of at least fifty (50) pounds per square inch.

3. It shall be unlawful to locate a valve in the ammonia emergency discharge line, except for the manually-operated valve discharging into the water and ammonia mixer, but there may be one stop valve located inside the building for repair purposes only. This valve shall be sealed open and labeled "Keep Open."

4. The manually operated pressure relief valve shall be located in a locked box which can be opened by members of the Fire Department by means of a Fire Department key. The door of the box shall be on the public thoroughfare side of the building in an easily accessible location and not less than eighteen (18) inches or more than five (5) feet above the sidewalk level. The box shall be permanently labeled with letters of not less than one (1) inch reading "For Fire Department Use Only." The relief valve shall be labeled "Ammonia." A sign shall be posted within the box reading "Do Not Open Valve Until Water Is Flowing."

5. A single standard three (3) inch fire department connection shall be provided through which the necessary water may be supplied to the mixer. The fire department connection shall be located near the box and not less than eighteen (18) inches or more than twenty-four (24) inches above the sidewalk level and shall be permanently labeled having letters not less than one (1) inch high reading "To Ammonia Mixer." A check valve so set as to prevent gases from reaching the fire department connection shall be installed in the water line between the fire department connection and the water and ammonia mixer.

6. The fire department shall have sole use of the mixer and supply the necessary water.

7. In systems using over twenty-seven thousand (27,000) pounds of ammonia there shall be provided one additional water and ammonia mixer for each twenty-seven thousand (27,000) pounds of ammonia or fraction thereof so used in excess.

8. The ammonia mixer and its connection for a Class A system shall conform to the diagram in section C19-107.0 of the code.

§C19-104.0. Size of Safety Devices.

(a) The size of pressure relief valves shall be as follows:

Capacity of System	CO_2 and Ethane. No. Req., Size	Other Refrigerants No Req., Size
Up to 30 tons	1—½"	1—½"
30 to 60 tons	1—½"	1—¾"
60 to 100 tons	1—½"	1—1"
100 to 175 tons	1—½"	1—1¼"
175 to 250 tons	1—¾"	1—1½"
250 to 450 tons	1—1"	1—2"
450 to 900 tons	.....	2—2"

(b) Where rupture members are permitted and used, the equivalent area of the relief valve specified must be provided.

(c) Fusible plugs may be used on all Class C systems and on all Class B systems of the hermetically sealed compression type containing not more than fifty (50) pounds of refrigerant. The free discharge opening shall be one-sixteenth (1/16) inch in diameter.

§C19-105.0. Location and Discharge of Safety Devices.

a. Location.

A pressure limiting device shall be provided on the high pressure side of each water-cooled refrigerating system containing more than six (6) pounds of refrigerant. A pressure relief valve shall be provided on the high pressure side of each water-cooled refrigerating system containing twenty (20) pounds or more of refrigerant, but it shall not be necessary to discharge the refrigerant to the outside air or water tank from any such refrigerating system containing fifty (50) pounds or less of refrigerant, any other provision of part 1, of this title, to the contrary notwithstanding.

b. Location and discharge of safety devices.

1. Each compressor or generator of a Class A or B system containing more than 100 pounds of refrigerant shall be protected by a pressure relief valve connected into the high pressure side between the main stop valve and the compressor or generator to relieve excessive pressure as hereinafter provided.

2. A rupture member may be substituted for the relief valve in CO^2 systems or systems operating below atmospheric pressure.

3. Shell type apparatus such as liquid receivers, condensers, evaporators, liquid separators and absorbers of Class A and Class B systems containing more than fifty (50) pounds of refrigerant, and Class B systems containing fifty (50) pounds or less of refrigerant which can be shut off by stop valves, shall each be equipped with a pressure relief valve discharging as hereinafter provided.

4. Class C systems and Class B systems containing fifty (50) pounds or less of refrigerant so constructed that, when subjected to abnormal outside temperature such as that generated in a fire, they may burst due to the expansion of the refrigerant, shall be protected by a pressure relief device.

5. A pressure relief valve shall be required on the low pressure side of a Class B system into which the relief valve or valves on the high pressure side discharge, as so shown on equipment diagram of section C19-107.0 of the code.

c. Discharge of pressure relief valve.

1. Where ammonia is used in Class A systems, the discharge from relief valves must be conducted to the outside atmosphere or into that part of the low pressure side protected by the mixer as specified in subdivision C, of section C19-103.0 of the code. If it is discharged to the outside atmosphere it must be piped above the roof or not less than 12 feet above the grade. The discharge pipe shall be not less than the size of the relief valve outlet. The discharge from more than one relief valve may be run into a common header, the area of which shall be equal to the area of the pipes connected thereto. The outlet orifice shall be turned downward.

2. Where more than fifty (50) pounds of ammonia is used in a Class B system, the discharge from relief valves shall be piped to the outside atmosphere as specified for Class A systems, or to the low pressure side as shown in diagrams in section C19-107.0 of the code, or into a tank of water which shall be used for no purpose except ammonia discharge. At least one gallon of fresh water shall be provided for every pound of ammonia contained in the system. The water used shall be prevented from freezing without the use of salt or chemicals. The tank shall be substantially constructed of not less than one-eighth (⅛) of No. 11 U. S. gauge iron. No horizontal dimensions of the tank shall be greater than one-half (½) the height. The tank shall have a hinged cover or, if of the enclosed type, shall have a vent hole at the top. All pipe connections shall be through the top of the tank only. The discharge pipe from the pressure relief valves shall discharge the ammonia in the center of the tank near the bottom. The tank shall be as securely supported as any other portion of the system. There shall be no opening in the tank below the water level.

3. Where more than fifty (50) pounds of any refrigerant other than ammonia is used, the discharge from relief valves shall be to the atmosphere as specified for Class A ammonia systems. Carbondioxide may be discharged into the room if the same contains at least 10 cubic feet of capacity per pound of refrigerant used.

4. Arrangements of pressure relief devices for Class A and B systems shall conform to the diagrams in section C19-107.0 of the code.

§C19-106.0. Operating Precautions.

a. Masks and helmets.

1. In a Class A system which operates above atmospheric pressure, there shall be provided at least two helmets or masks.

2. In a Class B system in which more than fifty (50)

pounds of ammonia, sulphur dioxide or other irritant refrigerant is used, there shall be provided at least one helmet or mask.

3. Only helmets or masks that have been approved by the United States Bureau of Mines as suitable for the refrigerant employed shall be used, and they shall be kept in operative condition in an easily accessible case or cabinet located immediately outside the refrigerating machinery room.

b. Signs.

1. On Class A and Class B systems containing more than fifty (50) pounds of refrigerant there shall be painted on and affixed in a permanent manner to the main steam control, main electrical and remote control switches, receivers, containers and shell type coolers, signs having letters not less than one and one-half inches (1½") high, designating the part and refrigerant contained therein.

2. The seller of every Class A or B system shall furnish the purchaser with a sign bearing his name at least 8½" by 11" in size, which gives the rated refrigeration capacity and the quantity and kind of refrigerant required for the satisfactory operation of the system. The purchaser shall conspicuously and permanently display this sign in the machinery room. The quantity and name of the proper refrigerant content and the rated refrigeration capacity shall be stamped on all Class C systems near to or on the name plate.

3. The following information shall be posted in Class A and B machinery rooms where over fifty (50) pounds of refrigerant is used: (a) The names and addresses of the engineers or operators in charge; (b) Location of nearest fire alarm box; (c) The name, address and telephone number of physician to be called in case of emergency; (d) Instructions for safely shutting down the plant in case of emergency.

c. Storage of refrigerant.

1. Refrigerant not contained in the refrigerating system shall be stored only in non-inflammable or non-irritant containers conforming to the regulations prescribed by the Interstate Commerce Commission for the transportation of such refrigerant.

2. Only two containers holding not more than a total of three hundred (300) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class A system.

3. Only one container holding not more than one hundred and fifty (150) pounds of inflammable or irritant refrigerant shall be stored in a refrigerating machinery room of a Class B system.

4. In a Class C system no refrigerant other than that used in the system shall be stored in the refrigerating machinery room.

5. If a greater amount of inflammable or irritant refrigerant than that permitted in a refrigerating machinery room is desired, it shall be stored in a fireproof building or enclosure used for no other purpose.

6. When the refrigerant is withdrawn from a system it shall be discharged only into a suitable absorbent or containers conforming to the regulations of the Interstate Commerce Commission for the transportation of such refrigerant. It shall be unlawful to permit any refrigerant to escape into the refrigerating machinery room.

7. Containers shall be connected to the system only during period of charging or withdrawing the refrigerant.

§C19-107.0. Equipment Diagrams.

(See arrangement of pressure relief devices for Class A and Class B equipment.)

Penalties.

§C19-152.0. Violations.

Any person who shall willfully violate or neglect or refuse to comply with any provisions of part 1, of this title, except the provisions of article twenty-six, in addition to any other penalties prescribed by law, shall, upon conviction, be punished by a fine of not more than $500, or by imprisonment not exceeding six months, or by both.

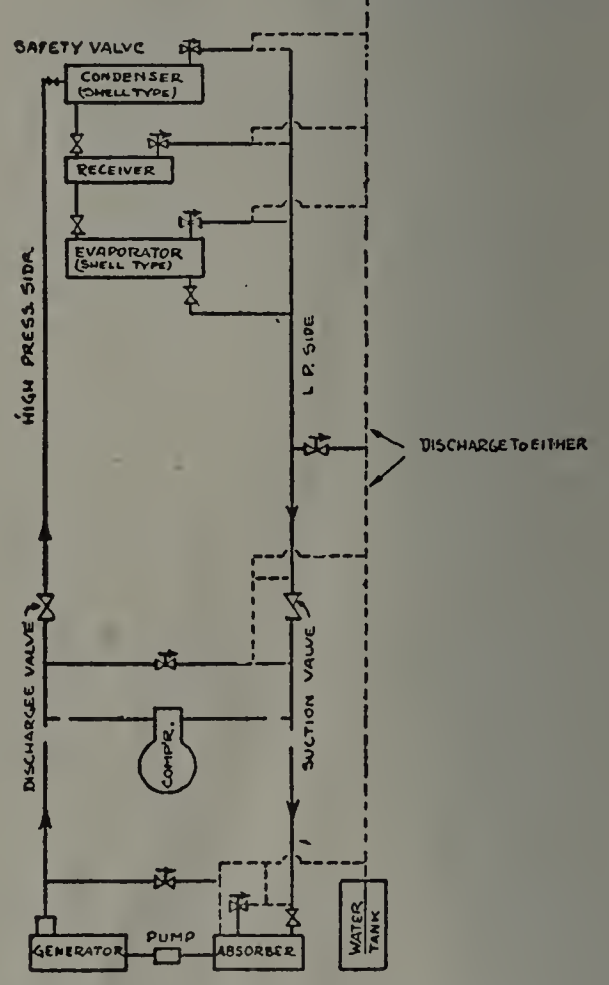
ARRANGEMENT OF PRESSURE RELIEF DEVICES FOR CLASS "A" EQUIPMENT SECTION C19-107.0



ARRANGEMENT OF PRESSURE RELIEF DEVICES FOR CLASS "B" EQUIPMENT SECTION C19-107.0

RULES

RULES GOVERNING THE USE OF EQUIPMENT FOR SPRAYING AND DRYING OF PAINTS, VARNISHES, LACQUERS AND OTHER FLAMMABLE SURFACE COATINGS AND STORAGE OF SUCH MATERIALS.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JUNE 10, 1932 AND REVISED JULY 16, 1937, EFFECTIVE AUGUST 16, 1937 AND AMENDED JULY 25, 1944, EFFECTIVE AUGUST 21, 1944.

(353-30-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, subdivisions 2 and 3 of the Charter of the City of New York, to effectuate the provisions of C19-84.0, C19-85.0 and C19-86.0 of the Administrative Code.

Rule 1. Application.

1.1 No person, firm or corporation shall spray, dip or immerse any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other inflammable or combustible substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes except in conformance with these rules, and under a permit issued by the Fire Commissioner. Where the quantity of spraying, dipping or immersing materials used in a day does not exceed two quarts, except for spraying as performed under Rule 5.13, and the total amount of material stored does not exceed twenty gallons, these rules shall not apply.

1.2 APPLICATIONS. Application for the required permit to store and use the above-mentioned materials shall be made to the Fire Commissioner on forms prescribed by him and shall contain such information as he may require. When a spray, dipping, immersing, storage or mixing room is to be installed, an application shall be filed with and approved by the Borough Superintendent before a permit is issued by the Fire Commissioner.

1.3 RESTRICTIONS. No spraying, dipping or immersing of any article or thing within the City of New York with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes shall be permitted in any premises or portion thereof as follows:

1.3.1 Which is occupied as a class A or B multiple dwelling or a dwelling for one or two-families, except where a location is provided which is separated by fireproof construction from the residential occupancy and ventilated as provided in Rule 3.

1.3.2 Which is occupied as a place of public assembly except trade schools where the buildings are of Class I or Class II construction and spraying, dipping or immersing are demonstrated for instruction purposes only.

1.3.3 Which is artificially lighted by any means other than electricity.

1.3.4 Which is heated by other than the use of steam or hot water circulating systems and the boiler is located outside the space where spraying, dipping or immersing is carried on.

Rule 2. Definitions.

2.1 The term "SPRAY or SPRAYING SPACE" "DIPPING SPACE or IMMERSING SPACE" when used in these rules shall mean that portion of the premises used for the actual work of spraying, dipping or immersing any article or thing with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds, commonly used for painting, varnishing, staining or similar purposes in any booth or room.

2.2 The term "CABINET BOOTH" when used in these rules shall mean a compartment with a back, top and two sides of incombustible materials over a substantial metal frame and equipped with air exhaust facilities, located within a room or any portion of any premises where spraying with any flammable paints, varnishes, laquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.3 The term "CANOPY BOOTH or HOOD" when used in these rules shall mean an installation consisting of a metal canopy or hood, without any side or end panels enclosing the object sprayed and an air exhaust system under which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.4 The term "TUNNEL BOOTH" when used in these rules shall mean a compartment consisting of two sides and top, equipped with an air exhaust system in which spraying with any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.5 The term "SPRAY ROOM" when used in these rules shall mean a fully enclosed ventilated room approved for such use in which any article or thing is sprayed by any flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.6 The term "DIPPING ROOM" when used in these rules shall mean a fully-enclosed ventilated room approved for such use in which any article or thing is dipped, or immersed in any flammable paints, varnishes, lacquers or any other flammable substances, mixtures, or compounds commonly used for painting, varnishing, staining or similar purposes is carried on.

2.7 The term "FIREPROOF or FIRE-RESISTING PARTITIONS" used in these rules shall mean the standards set in the Labor Law and the Rules of the Board of Standards and Appeals for factory buildings. All openings in this type of partition shall only be equipped with self-closing fireproof assemblies.

2.8 The term "STORAGE ROOM" when used in these rules shall mean a fully-enclosed ventilated room used for the storage and mixing of any inflammable paints, varnishes, lacquers or any flammable substances, mixtures or compounds commonly used for painting, varnishing, staining or similar purposes.

2.9 The term "CERTIFICATE OF FITNESS" when used in these rules shall mean the written permission granted by the Fire Commissioner to an in-

dividual to supervise and to process spraying, dipping and immersing materials and equipment, in accordance with the provisions of Section C19-14.0 of the Administrative Code and these Rules.

2.10 The term "PERMIT" when used in these rules shall mean the written permission issued to a person, firm or corporation by the Fire Commissioner, to store and use materials covered by Sections C19-12.0 and C19-84.0 of the Administrative Code and these Rules.

Rule 3. Ventilation.

3.1 Spraying or dipping spaces shall be ventilated when in operation so that the movement of air shall be at least one hundred (100') linear feet per minute in the breathing zone of the operator and be of sufficient capacity to prevent the accumulation of mist or vapors. For requirements of ventilation of storage rooms see Rule 4.4.1.

3.2 Air shall be admitted to the spraying, dipping or immersing spaces in an amount equal to the capacity of the fan or fans and in such a manner as to avoid short-circuiting the path of air in the working zone of such spaces. Exhaust fans shall be kept running constantly while spraying, mixing or dipping. Exhaust fan control shall be interconnected with spray gun so as to operate simultaneously. Exhaust fans shall, in addition, be arranged to operate independently of spray gun. Ventilation Equipment shall be kept in operation for a sufficient length of time thereafter to exhaust all vapors, fumes or residues of spraying materials from the spray booth, dip space or drying room. Air admitted to the spraying, dipping, immersing, drying spaces or storage rooms shall be fresh air taken from the outside of the building.

3.3 EQUIPMENT. Motors shall be located outside of spraying, dipping or immersing spaces except as provided in Rule 4.

Rule 4. Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, Drying Equipment and Material Storage Rooms.

4.1 Spray booths shall be constructed of metal or incombustible materials satisfactory to the administrative official having jurisdiction. Ventilation and lighting for spray booths, spray rooms, dipping rooms, drying rooms and storage rooms shall comply with the requirements of these rules.

4.1.1 Spray, dip and immersing rooms shall be enclosed on all sides with partitions constructed of incombustile materials with floors in such rooms of concrete. Where such rooms are located over wooden floors, such wooden floors shall be surfaced with 1" of grout adequately reinforced or a mixture of Portland cement, asphalt and sand similarly reinforced. Ceilings over such rooms shall be protected by 5/8" unsanded gypsum plaster or 7/8" of cement or sanded gypsum plaster on approved 3.0 lb. metal lath or other equivalent fire-resisting ceiling protection. Ventilation, lighting and heating for these rooms shall comply with the requirements of these rules. Where additional fire-fighting equipment is necessary, such equipment shall be furnished in accordance with the direction of the Fire Commissioner. Floor drains leading to the house drainage system or the public sewer, shall not be permitted. All dip tanks shall be provided with hinged metal covers held open by a fusible link, such covers to be equipped with an opening to permit automatic flooding of the tank with fire extinguishing media of a type and so located as the Fire Commissioner shall direct.

4.1.2 Panels of polished wired glass or plate-glass at least one-quarter (1/4) of an inch thick, not exceeding seven hundred and twenty (720) square inches in area and not more than forty-eight (48") inches in any linear dimension may be used in the sides of a spray booth or room.

4.1.3 The inner sides of walls, ceilings and the floors of all spraying or dipping spaces shall have a smooth surface.

4.1.4 All openings in spray, dip or immersing rooms shall be protected by fireproof opening protective assemblies. Windows opening on a street may be used to provide ventilation but no window on a lot line or less than 20 ft. from any opening in a wall of an adjacent building shall be permitted except when the subject room is more than 20 ft., in the horizontal plane, above an adjoining building.

4.1.5 Ferrous metals used in the construction of spraying, dipping or immersing spaces shall be thoroughly painted on the inside or be galvanized.

4.1.6 All spraying, dipping or immersing spaces shall be so constructed that at least three (3) feet of clear working space shall always be maintained for each operator spraying, dipping or immersing the material being processed.

4.2 STORAGE ROOMS.

4.2.1 Storage rooms shall be constructed of fireproof or fire resisting material and shall have a window opening to the outer air but such window shall not be on a lot line, enclosed court, nor opposite within twenty feet of windows of adjacent buildings nor part of the same premises, such window openings to be fireproofed and lower half provided with open louvers or ventilated by metal duct or fan at least 8 inches in diameter. The floors of all storage rooms shall be of incombustible non-ferrous materials. The sill of the door shall be at least 6 inches above the finished floor. All doors to be tin-clad, approved, fireproof and self-closing.

The lighting equipment shall comply with rule 4.5.2.2 and shall have an electric switch located outside the room. Immediately adjacent to such room shall be provided such portable fire extinguishing equipment for use within the storage room as the fire commissioner shall direct.

4.3 DRYING EQUIPMENT.

4.3.1 Gas Fired Drying Ovens. Gas fired drying ovens shall be of a type as approved by the Board. Such ovens shall be constructed of metal and incombustible materials so designed as to preclude the direct application of flame to the material in process. The exhausts from both the heating compartment and the drying compartment shall be individually equipped with adequate fans and exhaust piping connected directly to the outer air. The controls for the fans shall be so interlocked with the gas supply line that when the gas is flowing the fans are in operation. An extra switch shall be provided to permit the operation of the fans when the gas supply is off. Each

oven shall be equipped with approved gas burning equipment with electrical controls so arranged as to shut off the gas valve when ignition fails or the gas supply pressure drops to 2 inches of water.

The use of a continuous gas pilot light is prohibited unless an automatic gas shut off valve is provided, which will shut the gas off at the pilot light when the flame is extinguished or the supply of gas cut off. Electrical pilot ignition shall be of the continuous type, or equal in performance, designed for use in high temperatures, with controls so interlocked as to shut off the gas supply when current is interrupted. An auxiliary manually operated gas shut off valve shall be located not nearer than 25 feet from the oven so as to control the gas supply in the event of an emergency. Such ovens shall be adequately insulated on all sides, including the base, which shall have the equivalent of a double thickness of such insulation, unless the floor is protected by a 3 in. mat of reinforced concrete placed over and bonded into the existing concrete floor and projecting not less than 6 inches outside the projected area of the equipment, or unless an unenclosed clear air space not less than 4 inches above the floor is maintained between the floor and the underside of the oven.

4.3.1.1 Gas fired drying ovens shall not be located nearer than 25 feet from spraying or dipping spaces unless such oven is approved for use in explosive atmospheres.

4.3.2 Electric Infra Red Ray Drying Ovens.

4.3.2.1 Electric Infra Red Ray Drying Ovens shall be of a type as approved by the Board. Such ovens shall be constructed of electric equipment installed in accordance with the National Electric Code and the requirements of the Department of Water Supply, Gas and Electricity. Ovens when erected shall be placed on concrete floors without any additional protection, provided that at least 12 inches of clear space above the floor is provided to permit adequate ventilation.

4.3.2.1.1 In drying processed material, involving the evaporation of considerable amounts of flammable solvents by infra-red lamps, such installations shall not be confined in small rooms unless such rooms are thoroughly ventilated by a power driven ventilation system of sufficient capacity to provide 100 linear feet of air per minute; the controls of the ventilation system to be so interlocked with the Infra-Red Ray System that the latter cannot function unless the ventilating system is in operation. When equipped with duct ventilating system, the Infra-Red Ray Oven shall be adequately secured so as to prevent moving.

4.3.2.1.2 Where the evaporation of a considerable amount of flammable vapors are involved, ventilated hoods located as near to the floor as practicable or enclosures shall be provided at the initial stage of the process with adequate exhaust system to discharge the primary evaporation from the solvents to the outer air, so that when the processed material progresses through the lamp drying tunnels only a comparatively small amount of solvent is left for evaporation. A space between such ventilating section and the drying section shall be maintained.

4.3.2.1.3 Lamps and other electrical equipment shall be kept free from flammable deposits and adequate cleaning shall be maintained.

4.3.2.1.4 Lamp drying units shall be separated from spraying and dipping processes complying with these rules, by a distance of at least 15 feet or shall be installed in a separate fireproof room.

4.3.2.1.5 Controls shall be arranged so that the lamps in the tunnels will be shut off automatically if and when the conveyor stops.

4.3.2.1.6 Where there are no conveyors and the material being processed is left stationary in the dryer, there shall be an excessive temperature switch to shut off the lamps to avoid overheating the material being processed if it is not removed from the dryer in time.

4.3.2.1.7 Material to be processed on the conveyors shall be rigidly supported so as not to be liable to displacement and cause lamp breakage and short circuits. Where there are no conveyors, materials should be fixed on dollies running on tracks or other equivalent method to accomplish the same result.

4.3.3 The use of these processes shall be limited to metal or other incombustible material requiring paint processing.

4.3.4 Such fire fighting equipment suitable for electrical and solvent vapor fires shall be provided as the fire commissioner may direct.

4.4 SPECIFICATIONS FOR DUCTS, PIPES AND FANS.

4.4.1 All ducts used for ventilating spray, dip or immersing spaces shall be constructed of approved incombustible materials or metal

of not less than the following gauges of metal.

Ducts twenty-four (24") inches or less in diameter No. 22 gauge.

Ducts over twenty-four (24") inches and not over thirty-six (36") inches in diameter No. 20 gauge.

Ducts exceeding thirty-six (36") inches in diameter No. 18 gauge.

4.4.2 Ducts shall be strongly constructed and be installed in a workmanlike manner. They shall be rigidly supported.

4.4.3 Ventilating ducts shall run as directly as practicable to the outer air and be protected with a hood against the weather. The exhaust terminal or hood shall also be protected with a screen of copper or bronze with a mesh not larger than one-quarter (¼") inch.

4.4.4 Where a duct passes through a non-fireproof floor or roof, the duct shall be protected at such point by an outer pipe or sleeve with an air space of at least one (1") inch between the sleeve and pipe protected from the woodwork by at least a 1" blanket of asbestos, compressed rockwool or glasswool, or equivalent fire-resistive material extending through the entire depth of the ceiling construction and adequately secured to the outer pipe. The outer pipe shall be not less than two (2") inches from any woodwork and such woodwork shall be covered with at least 26 gauge metal or other incombustible material.

4.4.5 Ventilating ducts shall not terminate within ten (10) feet measured horizontally of any chimney outlet, unprotected air intakes or within twenty (20) feet of any exit or any opening in an adjoining building.

4.4.6 If induced draft is used to create an air movement, the air shall be supplied from a point outside the spray or dip or immersing space. Fans and motor must be located outside the spray, or dip space, except approved explosion-proof motor and non-ferrous blade fans which, however, are not to be located where residues of spraying material may collect on such equipment.

4.4.7 The exhaust system from any spray, dip or immersing space shall not be connected to any other ventilating system or be discharged into a chimney or flue used for the purpose of conveying gases of combustion.

4.4.8 Exhaust fan blades shall be constructed of non-ferrous metal. All exhaust and ventilating fans to be permanently connected to their source of power, using metallic conduit. Rheostats in fan bases not permitted. Fan blades not coming in direct contact with spraying fumes, need not comply with this requirement.

4.4.9 Adequate access doors or panels made tight fitting by means of screw bolts, clamps or springs shall be provided, to permit inspection and cleaning.

4.5 ELECTRICAL EQUIPMENT AND LIGHTING FIXTURES.

4.5.1 No motors, switches, rheostats, lamps, flourescent light or other electrical equipment shall be located in spray, dipping or immersing rooms or within ten (10′) feet of the open end of any spray compartment, spray booth, immersing or dipping space unless such electrical equipment be of a type approved for use in explosive atmospheres and where a conduit leads from a hazardous location to a non-hazardous location, the conduit shall be sealed off by an approved sealing compound. Except that alternating current induction motors of the totally enclosed type, having no brushes, make and break contacts, collectors or other arcing or sparking parts may be located within ten (10′) feet of a spray booth, spray compartment or dipping space when approved by the administrative official having jurisdiction. No open flame shall be used within 25 ft. of spray, dip or coating space or paint storage room or cabinet except when separated by fireproof construction, except as provided in Rule 4.3.1. Gas Fired Drying Ovens and 4.3.2.1.4 Electric Infra Red Dry Ovens.

4.5.2 Lighting Fixtures.

4.5.2.1 Artificial lighting shall be only by means of electricity.

4.5.2.2 When lighting fixtures are located within 10 feet of a spray booth, spraying space, dipping space or within a storage room they shall be of the rigid stem type, enclosing all wiring and be equipped with keyless sockets having vapor proof globes. Where exposed to breakage, globes shall be adequately protected by substantial metal guards or equivalent means. Fluorescent tube type lighting fixtures when used in spray booths or in spray and dip spaces or in storage rooms or rooms containing inflammable vapors, shall be of a type approved for use in explosive atmospheres. The auxiliaries of mercury vapor lamps shall be offset at least ten (10) feet from spray booth, spray or dip spaces unless enclosed in explosion-proof protection.

4.5.2.3 All electrical equipment shall be installed and grounded as provided by the Administrative Code covering electrical equipment and permanently connected to their source of current supply, using metallic conduit.

4.5.2.4 No pin plug receptacles shall be used except when the use of receptacles and attachment plugs become necessary they shall be so connected to form a part of a unit device with explosion-proof interlocking switch precluding the removal of the plug where the switch is in the "on" position or by an approved explosion-proof enclosure which can seal the arc when the current is interrupted. Such receptacles and plugs shall be of the polarized type providing a connection for the grounding wire of the portable cords.

4.5.2.5 All electric wiring shall be enclosed in rigid standard weight metallic conduits with explosion proof joints and fittings. Joints in metallic conduit having threaded couplings shall not have less than five (5) fully engaged threads. Where flexible connections are required a flexible fitting approved for explosive atmospheres shall be used.

4.5.2.6 The use of portable cords or trailer lights are prohibited, except when flexible cord approved for hard usage containing one (1) extra insulated conductor properly connected to form a grounding connection for metal lamp guards, motor frames and all other exposed metal portions of such portable lamps and devices may be used. When portable lamps are used they shall be enclosed in a manner approved for explosive atmospheres and with substantial guards of metal to prevent breakage. Sockets shall be of the keyless moulded composition type with no exposed metal parts.

Rule 5. Maintenance and Operation.

5.1 Every premises wherein a spraying, dipping, or immersing space is maintained and operated shall be continuously under the charge and supervision of one or more persons holding a certificate of fitness, whose duty shall be to see that the spray, dipping and immersing space comply with the rules and the terms of the permit are not violated. No other duties shall interfere with the enforcement of these rules while the work is in process. A copy of these rules shall be available near the space where these rules apply.

5.2 Smoking or the carrying of lighted cigars, cigarettes, matches or pipes in spray, dipping or immersing space is prohibited.

5.3 No person shall be permitted within a spray space between the spray gun and the exhaust outlet while the spray gun is in use.

5.4 Spraying, dip or immersing spaces and its surroundings shall be kept clean at all times and shall be kept clear of all materials, equipment and utensils not required in the operation of the spray. Side walls, ceilings, baffle plates, etc., shall be sprayed with soap and water solution, before cleaning, or cardboard or masking paper may be fastened before any operation and after said operation all waste material shall immediately be removed from the premises.

5.5 Floors within and surrounding spray, dip or immersing spaces shall be kept clean and free from waste material at all times.

5.6 Spray rooms, booths, fans, ducts, and other equipment shall be cleaned frequently and maintained in clean and efficient working condition; lacquer spraying booths shall be wet down before cleaning.

5.7 Implements used for cleaning shall be made of non-ferrous material to avoid sparks.

5.8 Metal waste cans with self-closing covers shall be provided for all spraying, dipping or immersing spaces and storage rooms. The number to be installed shall be determined by the administrative official having jurisdiction.

5.9 Approved fire appliances shall be installed in all spraying, dipping or immersing spaces and in storage rooms as may be determined by the administrative official having jurisdiction.

5.10 Accumulation of flammable waste, sweepings or deposits from spray, dip or immersing space is prohibited. All such waste shall be placed in approved waste cans and be removed from the premises at the close of work each day.

5.11 All sand papering of lead painted surfaces shall be done with wet sand paper.

5.12 When a motor vehicle is taken into a spray space, the batteries shall be disconnected before the process of spraying is begun.

5.13 Before spraying is performed on elevator cars all electric power operating all elevators enclosed in a common shaft, shall be turned off. While such work is in progress portable fire extinguishers shall be provided and maintained adjacent to the work as the fire commissioner shall direct. Such shafts shall be well ventilated of fumes before starting elevators.

5.14 Inflammable solvents used for cleaning equipment or for any other purpose shall not be discharged into the house drain.

Rule 6. Material Storage and Mixing.

6.1 Main supplies of spray coating and dipping materials and thinners shall be kept in an outside storage building, storage rooms or in vented metal cabinets in accordance with the following amounts:

6.1.1 Spraying materials not in excess of 100 gallons may be stored in single walled metal cabinet ventilated to the outer air. Such cabinet to be metal covered on all sides, including the door and arranged for ventilation at top and bottom.

6.1.2 Spraying materials not in excess of 200 gallons may be stored in double-walled metal cabinets ventilated to the outer air or wood cabinets metal covered on all sides, including the door, and arranged for ventilation at top and bottom, to the outer air.

6.1.3 Spraying materials in excess of 200 gallons shall be stored in a separate exterior storage building of fireproof or fire-resisting material with ventilated plain glass skylight or in a storage room constructed fireproof in a fireproof building or fire-resisting in a non-fireproof building. The maximum amount of spraying materials to be stored in a storage room of a non-fireproof building shall be determined by the administrative official having jurisdiction.

6.1.4 Mixing or thinning of coating materials shall be conducted in a storage building or storage room, except that containers of total capacity not exceeding ten gallons may be opened and their contents mixed in the spray room or room in which booths are located while the air exhaust system is operating.

6.1.5 Working supplies sufficient for not more than one day's use but not exceeding twenty gallons to each booth, nor a total of one hundred gallons, may be kept in the spray room or room in which spray booths are located; covers of containers must be kept thereon when such containers are not actually in use. This amount is in addition to the amount allowed in Rule 6.1.7.

6.1.6 Gravity feed material containers for supplying spray guns shall not exceed ten gallons in capacity and shall be supported by wire cables or metal brackets having a factor of safety of four when filled with the heaviest spraying materials used.

6.1.7 Pressure feed tanks and other equipment for use in connection with direct spraying under air pressure shall be restricted to tanks of not more than sixty gallons, individual capacity, designed, constructed and approved for this specific purpose by the Board of Standards and Appeals. Each tank shall be provided with a safety valve set at a pressure not exceeding eighty pounds. All gravity feed containers and other spraying equipment shall be approved as above.

6.1.8 The installation of all electrical wiring, switches, lighting and all other electrical equipment, and the provisions of these rules against carrying matches or smoking and prohibiting flame or spark-producing devices, shall also apply to storage or mixing rooms.

6.2 Storage of Materials where nitro cellulose products are manufactured.

6.2.1 Storage of spraying, dipping and immersing materials shall be as provided in Rule 6.1.1 through Rule 6.1.3, but in a building in which nitro cellulose products are manufactured, stored or kept the amount shall be not over twenty-five (25) gallons as per Section C19-113.0, subdivision h of the Administrative Code.

6.3 Sprinklers.

6.3.1 Sprinkler heads shall be provided in all spray, dip or immersing spaces and storage rooms and shall be installed in accordance with the Sprinkler Rules of the Board of Standards and Appeals, except in non-sprinklered buildings where sprinkler connection may be made to the house water supply, provided the size of the house water supply line is adequate for the number of sprinkler heads.

6.4 Maintenance of Sprinkler Heads.

6.4.1 Sprinkler heads in spraying, dipping and immersing spaces shall be cleaned at least once a week under the supervision of the person holding the certificate of fitness and a coating of light grease or vaseline shall be applied after each cleaning to prevent the formation of a hard deposit and render the sprinkler useless in case of fire. The use of paper bags or other materials about sprinkler heads is prohibited.

Rule 7. General Requirements.

Notice—Attention is called to the provisions of the Administrative Code as to violations reading as follows:

Section C19-152.0 of the Administrative Code, "Any person who shall willfully violate or neglect or refuse to comply with any of the provisions of this chapter in addition to any other penalties prescribed by law or ordinance shall, upon conviction, be punished by a fine of not more than $500 *or by imprisonment not exceeding* 6 *months, or by both such fine and imprisonment."*

NOTE:—The principal cause of fires in spray-booth installations are: broken electric lamps and other electrical defects; cleaning the interior of booths, fans and motors with highly flammable solvents; accumulation of deposits in the tubes and vent pipes from neglect in cleaning them frequently; unnecessary accumulation of waste and refuse, smoking and a general lack of cleanliness.

(a) "No Smoking" signs, with letters at least 2 inches in height, shall be posted at entrances to and in all spray rooms and paint storage rooms or building.

(b) No combustible materials shall be stored or maintained within 15 feet of any spray booth.

(c) All stocks shall be arranged so as not to interfere with the operation of automatic sprinkler heads.

(d) Adequate mechanical or natural ventilation shall be provided.

(e) No open flames or devices creating open flames or arcs shall be maintained within 25 feet of the spray or dipping process.

(f) The premises where painting, dipping or immersing is performed shall be kept clear of empty paint cans, rubbish, paint accumulations and other combustible material.

Rule 8. Existing Spray Booths and Installations.

8.1 These rules shall be retroactive in the following respects:

Rule 1.3.4 Heating of Rooms.

Rule 3.1 Air Exhaust System.
3.2 Air Supply and Mixing.

Rule 4.0 Specifications for Spray Booths, Spray Rooms, Dip and Immersing Rooms, New Drying Equipment, and Material Storage Rooms.
4.1.3 Surfacing of Booths.
4.1.5 Surfacing of metal in Booths.
4.3.2 Maintenance of Ducts.
4.4.6 Method of Induced Draft.
4.5.1 Electrical Equipment.
4.5.2 Electric Lighting.

Rule 5.1 Certificate of Fitness.
5.2 Smoking, Matches, etc.
5.6 Maintenance of Equipment.
5.7 Cleaning Implements.
5.9 Fire Appliances.
5.10 Accumulation and disposal of waste materials.
5.12 Motor Vehicles in booths or rooms.
5.13 Spraying Elevator Cabs.

Rule 6. Material, Storage and Mixing.

Rule 7. General Requirements.

Rule 8.1 Rules 6.1, 6.2, 6.3 and 6.4 may not be applied in fireproof buildings equipped with an approved existing automatic sprinkler system where the general conditions of cleanliness are properly maintained at all times.

Rule 9. Permits and Plans.

Before a permit is issued by the fire commissioner, plans shall be filed with the borough superintendent, stating name, address, floor and space where the painting, dipping or spraying processes or storage room are to be installed. Such plan shall include a complete layout of the proposed installation and shall clearly indicate the location of all exterior wall openings, in premises and adjacent buildings, exits, chimneys, vent openings and proposed processes.

Plans shall be filed with the borough superintendent for storage and mixing rooms. Such plans shall show the complete floor plan of the proposed equipment and the location of the proposed equipment with respect to the storage and mixing rooms, exterior wall openings, in premises and adjacent buildings, exits and all chimneys within 20 feet of storage rooms and vent openings.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting, May 29, 1945, at 10 A. M., Affecting Calendar Numbers 576-44-BZ, 670-44-BZ, 50-45-BZ, 556-20-BZ, 71-35-BZ, 78-45-BZ, 284-45-BZ, 731-44-A, 11-45-A, 36-45-A, 126-45-A, 251-45-A, 273-45-A, 299-45-A and 230-45-SA.

Minutes of Regular Meeting, May 29, 1945, at 2 P. M., Affecting Calendar Numbers 352-44-A, 15-45-A, 22-45-A, 38-45-A, 202-45-A, 221-45-A, 280-45-A, 221-41-A, 175-43-S, 689-44-A, 47-45-A, 87-45-A, 215-45-A, 635-41-A, 27-45-A, 516-44-A, 726-44-A, 66-45-A, 69-45-A, 762-38-BZ, 1179-38-BZ, 372-40-BZ, 631-40-BZ, 222-41-BZ, 176-42-BZ, 90-43-BZ, 390-19-BZ, 220-44-BZ and 503-40-SM.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

JUNE 5, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning June* 5, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

46-45-BZ—Application, February 1, 1945, under sections 7c and 21 of the zoning resolution, of Reuben Siskin, applicant and owner, to permit in a business use district, the extension of the factory use in an existing factory building so as to be in excess of the lot area; premises 1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn.

95-45-BZ—Application, February 23, 1945, under sections 7c and 21 of the zoning resolution of Lama and Proskauer, applicants, on behalf of Marie Atherton, owner, to permit in a business use C area district, the alteration and extension of an existing garage for more than five motor vehicles and gasoline service station, the building as extended being in excess of the area permitted by the zoning resolution; premises 87-24 to 87-30 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens.

531-37-BZ—Application of Joseph Mosgoffian, applicant and lessee, on behalf of Annie Zins, owner, reopened May 15, 1945, for consideration as to extension of variance—Application, previously granted on condition, under section 7h of the zoning resolution, for a temporary period of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 23-28, 23-30 and 23-32 30th avenue, south side, 91.83 ft. west of Crescent street (Block 572, Lots 37 and 38), Astoria, Borough of Queens.

459-44-BZ—Application, July 21, 1944, under sections 21 and 7c of the zoning resolution, of Arnold W. Lederer, applicant on behalf of Mary L. Richardson, owner, to permit in a business use C area district, manufacturing in excess of the permitted area; premises 1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn.

43-45-BZ—Application, January 31, 1945, under section 21 of the zoning resolution, of Bay Ridge Savings Bank, applicant and owner, to permit in a business use C area district, the extension in area of a bank building to cover entire lot and omitting rear yard; premises 4724 13th avenue, northwest corner of 48th street (Block 5628, Lot 42), Borough of Brooklyn.

146-45-BZ—Application, March 13, 1945, under section 7f of the zoning resolution, of James Whitford, applicant, on behalf of Adam V. Bell, owner, to permit in a business use district, the erection and maintenance of a gasoline service station, for a term of years; premises 126 Mansion avenue, south side, foot of McKee avenue (Block 5202, Lots 10 and 13), Great Kills, Borough of Richmond.

585-42-BZ—Application, of Lama and Proskauer, applicants, on behalf of Socony-Vacuum Oil Co., Inc., owner, reopened February 6, 1945, under section 7c of the zoning resolution, to permit in a business use district, the extension in area of an existing gasoline service station and also the erection and maintenance of a building to be used as a laundry and lubritorium (previously withdrawn); premises 4091 Hylan boulevard and 293 Nelson avenue, northeast corner (Block 5158, Lot 37), Great Kills, Borough of Richmond.

772-41-BZ—Application of Arnold W. Lederer, applicant, on behalf of Fay Bloom, William A. Jones, Jennie Mateyko and Joseph Filosa, owners (Square Deal Laundry, Inc., lessee), reopened November 8, 1944, under sections 7c and 21 of the zoning resolution, to permit the extension of an existing laundry building from a local retail into a residence use district, the area of proposed building exceeding that permitted in a C area district; premises 427 Ralph avenue and 1813-1823 Bergen street, northeast corner (Block 1445, Lots 1, 64 to 68, inclusive), Borough of Brooklyn.

162-45-BZ—Application, March 21, 1945, under section 21 of the zoning resolution, of Richard Shutkind, applicant, on behalf of Jack Altman, owner, to permit in a residence use G area district, the erection of a one car garage and shower building, increasing the occupied lot area in excess of 35% and not providing the required 15 ft. rear yard and 5 ft. side yard; premises 228 Beach 148th street (rear), east side, 90 ft. south of Neponsit avenue (Block 753, Lot 42), Rockaway Beach, Borough of Queens.

298-45-BZ—Application, May 17, 1945, under section 21 of the zoning resolution, of S. J. Kessler & Sons, applicants, on behalf of 1523-1529 63rd Street Corp., owner (Air King Products Co., Inc., lessee), to permit in a C area unrestricted use district, the erection of a 3rd story to a building, plans for two stories of which have been approved, the 3rd story exceeding the area of coverage permitted by the zoning resolution; premises 6201-6223 15th avenue, east side, from 62nd to 63rd streets (Block 5530, Lot 1), Borough of Brooklyn.

Appeals from Administrative Decisions

235-45-A—311-333 West 49th street, north side, 124 ft. 9⅝ in. west of 8th avenue and 308-348 West 50th street (2nd floor); (Block 1040, Lot 14), Borough of Manhattan.

324-45-A—1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn.

54-45-A—564 and 566 Jackson avenue, east side, 75.10 ft. north of East 149th street (street floor); (Block 2641, Lots 4 and 5), Borough of The Bronx.

311-45-A—Re Transportation of Coal Tar Road Materials in Tank Truck in New York City (capacity of tank not in conformity with Administrative Code requirements, governing Tank Trucks).

HARRIS H. MURDOCK, *Chairman.*

JUNE 5, 1945, 2 P. M.

HARRIS H. MURDOCK, *Chairman.*

JUNE 12, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, June* 12, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

786-42-BZ—Application of Chester A. Cole, applicant, on behalf of O. J. Heinzmann, owner, reopened May 22, 1945, for consideration as to extension of variance—Application, previously granted on condition, under section 7e of the zoning resolution, for a term of two years, permitting partly in a residence use and partly in a local retail use district, the alteration and conversion of occupancy of an existing building to a factory (tool shop); premises 8 Crabtree avenue, southwest corner of Bloomingdale road (Block 7092, Lot 61), Rossville, Borough of Richmond.

114-28-BZ—Application of Edward A. Brown, applicant, on behalf of Zimtbaum & Horowitz, owners, reopened May 22, 1945, re amendment of resolution—Application, previously granted on condition, under sections 7e and 21 of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 109-07 to 109-17 101st avenue (4453-4459 Jerome avenue), north side, 50 ft. west of 110th street (Block 460, Lots 53-55), Richmond Hill, Borough of Queens.

26-45-BZ—Application, January 17, 1945, under section 7f of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Harold S. Rogers, owner, to permit in a retail use D area district, and adjoining a residence use district, the erection of a gasoline service station, office, lubritorium, car washing laundry, and, also the omission of the required rear yard; premises 468-478 Forest avenue and 9 City boulevard, southeast corner (Block 259, parts of Lots 1 and 6), West Brighton, Borough of Richmond.

222-45-BZ—Application, April 12, 1945, under section 21 of the zoning resolution, of Jules Lewis, applicant, on behalf of Abgus Realty Corp., owner, to permit in an unrestricted use B area district, the omission of a loading space, as required by section 19a, in a building changed from its present use as a garage to its former use as a factory; premises 461-467 10th avenue and 500-504 West 36th street, southwest corner (Block 707, Lot 39), Borough of Manhattan.

546-44-BZ—Application, September 26, 1944, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Ida Siegal, owner, to permit in a business use district, the erection of an extension to office building of an existing gasoline service station for a car laundry and to house grease lift; premises 822-828 4th avenue and 159-165 29th street, northwest corner (Block 664, Lot 37), Borough of Brooklyn.

836-22-BZ—Application of Harry Hurwit, applicant, on behalf of Flo-El Realty Corp., owner (L. & J. Caterers, Inc., lessee), reopened January 23, 1945, under section 7b of the zoning resolution, to permit in a building partly in a business use and partly in a residence use district, the change of occupancy from a theatre and stores (previously granted by the Board) to catering, meeting rooms, ballrooms and stores; premises 85 West Burnside avenue and 2041 Harrison avenue, northwest corner (Block 3210, Lot 65), Borough of The Bronx.

210-45-BZ—Application, April 5, 1945, under section 21 of the zoning resolution, of Joel D. Marder, applicant, on behalf of The Fifth Avenue Bank of New York, owner, to permit in a retail and restricted retail use B area district, the erection of an extension to a bank building occupying more than 65% of the lot area; premises 1-5 West 44th street, north side, 100 ft. west of 5th avenue (Block 1260, Lot 34), Borough of Manhattan.

Appeals from Administrative Decisions

211-45-A—1-5 West 44th street, north side, 100 ft. west of 5th avenue (1st floor); (Block 1260, Lot 34), Borough of Manhattan.

130-45-A—42 West 13th street, south side, 100 ft. east of 6th avenue (3rd floor); (Block 576, Lot 16), Borough of Manhattan.

178-45-A—1068 Flatbush avenue, west side, 86.1½ ft. south of Beverly road (cellar); (Block 5152, Lot 11), Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

JUNE 12, 1945, 2 P. M.

APPEARANCES—

For Applicant: Albert Hutton.

For Opposition: Mabel Glass and Morris Sarrel.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to July 10, 1945 at 10 a.m., at request of the applicant's representative.

556-20-BZ

APPLICANT—Michael Glick, for B-J Holding Corp., owner.

SUBJECT—Application reopened May 8, 1945, for consideration re amendment of resolution as to additional use (decision of the borough superintendent) —Application previously granted on condition, under section 7e of the zoning resolution, permitting partly in a business use and partly in a residence use district, the erection of a garage for more than five motor vehicles.

PREMISES AFFECTED—1930-1932 Jerome avenue, east side, 179.25 ft. north of East 177th street (Block 2853, Lot 9), Borough of The Bronx.

APPEARANCES—

For Applicant: Michael Glick and Louis B. Jaffee.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (556-20-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting partly in a business use and partly in a residence use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 1930-1932 Jerome avenue, east side, 179.25 ft. north of East 177th street (Block 2853, Lot 9), Borough of The Bronx, was granted by the Board on October 19, 1920, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, this case was reopened by vote of the Board on May 8, 1945, restored to the calendar and set for hearing on May 29, 1945 at 10 A. M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 29, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 9-45, dated April 6, 1945, reads:

"5. The change of use from a garage for more than five cars, to a tire repair shop and garage, in a partly residence and partly business use district, is contrary to the Zoning Resolution and Cal. 556-20.BZ of the Board of Standards and Appeals."

and

WHEREAS, the building was approved as a garage by the Superintendent of Buildings, in conformance with the resolution adopted by the Board under this Calendar Number on October 19, 1920, but except that it was not extended through to Walton avenue, as was proposed; that the area of the building was approved as indicated on revised plans marked "Received May 12, 1945; that the application for the additional use has been passed upon by the borough superintendent under Alt. Applic. 9-1945, Objection 5.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 19, 1920, so that as amended, the resolution shall read:

"Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted on condition* that the only entrance to the proposed garage shall be through the wall fronting on Jerome avenue, which wall shall be constructed of pressed brick with stone trim and ornamental in character; that the roof of said garage shall not be carried up to a point higher than 4 ft. below the level of the sidewalk on Walton avenue; that any skylights placed in the roof of the Walton avenue portion of the building shall be placed in the centre of the roof and not within 20 ft. of the side lines of the property; that in the roof at a point at least 75 ft. from Walton avenue, there shall be placed a fire exit, enclosed in fireproof materials with self-closing door leading thereto and that all skylights shall be glazed with plain glass and protected with wire screens both above and below.

Resolved further, that the area of the building shall not exceed the area as indicated on revised plans filed with the borough superintendent under Alt. Applic. 9-45, and as indicated on plans filed with this Board marked "Received May 12, 1945;" and that other than as herein amended, the conditions of the resolution of October 19, 1920, shall be complied with; that the additional use of motor vehicle repairing and recapping of automobile tires may be permitted, *on condition* that the repairing shall be by means of hand tools; that no forge or anvil shall be employed on the premises; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that the building shall not be increased in height or area and in all other respects, shall comply with all laws, rules and regulations applicable thereto; that signs shall not exceed the area of the existing sign on the Jerome avenue facade of the building; that no roof sign shall be constructed; that no lot line windows shall be constructed on the interior lot lines; that any windows constructed in the rear, shall be fireproof, self-closing and shall normally be kept closed; that all permits required shall be obtained and all work completed within 6 months from the date of this amended resolution and that a new certificate of occupancy shall be obtained."

71-35-BZ

APPLICANT—John Krupski, owner.

SUBJECT—Application reopened May 8, 1945, for consideration as to extension of variance (decision of the borough superintendent)—Application previously granted on condition, under section 7e of the zoning resolution, for a term of two years, permitting in a residence use district, the maintenance of a garage for the storage of one commercial truck.

PREMISES AFFECTED—147-15 Brinkerhoff avenue, north side, 100 ft. east of Liverpool street (Block 2725, Lots 412 and 414), Jamaica, Borough of Queens.

APPEARANCES—
For Applicant: C. Regule.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (71-35-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting in a residence use district, for a term of two years, the maintenance of a garage for the storage of one commercial truck, affecting premises 147-15 Brinkerhoff avenue, north side, 100 ft. east of Liverpool street (Block 2725, Lots 412 and 414), Jamaica, Borough of Queens, was granted by the Board on May 28, 1935, on certain conditions; and

WHEREAS, the permit was extended on January 23, 1940 and February 24, 1942; and

WHEREAS, the applicant requested a further extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on May 8, 1945, restored to the calendar and set for hearing on May 29, 1945, at 10 A. M.; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 29, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 28, 1935, only so far as it has reference to the term of the permit, so that as amended this portion of the resolution shall read:

"*Granted* under section 7e for a term of two (2) years from the date of this *amended* resolution, to permit the storage of one one ton commercial truck in the garage which is accessory to the dwelling, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of May 28, 1935, shall be complied with and that a certificate of occupancy shall be obtained (Misc. Applic. 1238-40)."

78-45-BZ

APPLICANT—Lama and Proskauer, for the Greater New York Brewery, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory use.

PREMISES AFFECTED—284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred Lama.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (78-45-BZ)

WHEREAS, Lama and Proskauer, for The Greater New York Brewery, owner, filed February 16, 1945, an application under section 7e of the zoning resolution, to permit partly in a business and partly in an unrestricted use district, the occupancy of an existing building for 100% factory use; affecting premises: 284-300 Pearl street and 60-68 Tillary street, southwest corner (Block 128, Lot 1), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 29, 1945, after due notice by publication in the Bulletin of the Board of Stanadards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Jay street and Tillary street are in a business use, B area and Class 2 height district; Pearl street and Johnson street are in an unrestricted use, B area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated February 8, 1945, re Alt. Applic. 2233-45, reads:

"4. Proposed factory use in premises located in a business and unrestricted zone, said use occupying more

than 25% of any floor area and more than the area of the lot in the aggregate, is contrary to Article II, Section 4c of the Zoning Resolution."

and .

WHEREAS, the applicant states the premises consist of a plot 200 ft. frontage by 102.9 ft. in depth, on which is located a 6-story Class 1 constructed building, 200 ft. by 102.9 ft., irregular, in area and that it is proposed to occupy the building as a factory, for manufacture of radar equipment for the full area of the building; and

WHEREAS, the applicant contends that the building has a frontage of 102.9 ft. on Tillary street, 200 ft. on Pearl street, with a 10 ft. court on westerly portion of the building; that the building was constructed as a factory and was used as such until 1928, when a portion of the building was used as a school; that there are three certificates of occupancy on the building at present; #7432 issued January 13, 1921, calls for factory use; #108831 issued April 9, 1943, calls for school and light manufacturing (optical instruments) and #55212 issued March 5, 1929, calls for use of buildings for school purposes for the Long Island University; that it is now the intention of the owners to cancel all three certificates and procure a new one for use of the entire building as a factory, which was the original use; that at present the building is occupied for the manufacture of Radar and that this change does not affect the area, especially since the building was erected as a factory; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, it appears that the building was originally designed and approved for factory occupancy throughout and the occupancy was later changed in part for other occupancy, namely school purposes on several of the floors, which use has now been discontinued; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under Section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7c thereof, to permit the factory occupancy throughout the building as proposed, *on condition* that the building shall not be increased in height or area; that a new certificate of occupancy shall be obtained, superseding the previously issued certificates; that such new certificate of occupancy shall set forth the floor loads as originally approved and the permitted occupancy per floor, based on the lawful stairways; that the sprinkler system and other fire protection shall be maintained to the satisfaction of the fire commissioner; that all deliveries of materials into and from the building shall be from the Pearl street side; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

284-45-BZ

APPLICANT—Andrew A. Oliveri, for Frank Ray Howe, Director, Bureau of Real Estate, Board of Estimate, for the City of New York, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7b of the zoning resolution, to permit the extension of a business use on a lot located partly in a restricted retail district and partly in a residence use district, into the more restricted (residence) use district.

PREMISES AFFECTED—102 East 40th street, south side, 80 ft. east of Park avenue (Block 895, Lot 1); (old Lot 89), Borough of Manhattan.

APPEARANCES—
For Applicant: J. Haney and B. Cymrot.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (284-45-BZ)

WHEREAS, Andrew A. Oliveri, for Frank Ray Howe, Director, Bureau of Real Estate, Board of Estimate, for the City of New York, owner, filed May 7, 1945, an application under section 7b of the zoning resolution, to permit the extension of a business use on a lot located partly in a restricted retail district and partly in a residence use district, into the more restricted (residence) use district; affecting premises: 102 East 40th street, south side, 80 ft. east of Park avenue (Block 895, Lot 1); (old Lot 89), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, May 29, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that East 40th street is in a residence use district; Park avenue is in a restricted retail district and Lexington avenue is in a retail district; and

WHEREAS, the decision of the borough superintendent, dated May 2, 1945, re Alt. Applic. 684-45, reads:

"1. The extension of a business use in a residence district is not permitted, being contrary to Sec. 3, Article II Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 74 ft. ¾ in. in depth, on which is located a two-story, Class 3 constructed building, 25 ft. by 69 ft. in area, originally used as a private stable and later used as a clubhouse and now vacant; that it is proposed to use the entire 1st and 2nd floors for restricted retail business purposes, and to extend such use five feet into the residence use district; and

WHEREAS, the applicant contends that the building was erected in 1911; that up to April, 1929, it was entirely in a residence zone; that the zoning was changed thereafter up to June 1937, to part residential use and part retail use; that the present owner came into possession on September 14, 1937 and that Certificate of Occupancy #6478-23 had been issued July 11, 1923, for the use of the building as a club house by the Four Hundred Club, Inc.; that the applicant further contends that this application is brought under section 7b of the zoning resolution, under which the Board of Standards and Appeals may permit a lot in single ownership, divided by a use district boundary line, to be used for either use of the two districts in which it is located, but not more than 25 feet beyond the boundary line of the district in which such use is authorized; and

WHEREAS, the premises were zoned entirely in a residence use up to April, 1929; then changed to part residence and part retail use districts up to June, 1937; then proposed change to Use Map Sec. 1, 3, 5, 6, 8, 9, 12, City Planning Commission, Cal. #21—Hearing June 14, 1944; now discontinued by action of the City Planning Commission—Cal. #28 (CP-3270) May 9, 1945; and

WHEREAS, under Cal. 478-26-BZ, an application was made under Section 21, to permit in a residence use district, the change of occupancy of the 1st story frame garage to showroom 2nd floor to remain housekeeping apartment and this application was withdrawn October 13, 1926; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision b, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is granted under section 7b thereof, to permit the extension of the restricted retail use into the portion of the building within the residence use district,

on condition that the building shall not be increased in height or area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

731-44-A

APPLICANT—Franklin W. Gilman, for Loft Candy Corporation, owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—38-38 9th street (Hamilton street), west side, 244 ft. south of 38th (Freeman) avenue (2nd and 3rd floors); (Block 476, Lot 1), Long Island City, Borough of Queens.
APPEARANCES—
For Applicant: Lillian Kaltman and Franklin W. Gilman.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (731-44-A)

WHEREAS, Franklin W. Gilman, for Loft Candy Corporation, owner, filed December 15, 1944, an appeal from an order of the fire commissioner, affecting premises 38-38 9th street (Hamilton street), west side, 244 ft. south of 38th (Freeman) avenue (2nd and 3rd floors); (Block 476, Lot 1), Long Island City, Borough of Queens; and

WHEREAS, Order 98067-C, issued by the fire commissioner November 15, 1944, reads:

"1. Surrender to bearer Fire Department Permit #232080, expiring July 1, 1945, and authorizing the maintenance of a refrigeration system on above premises, as same is revoked until the following is done:

2. Discontinue and remove the direct method of refrigeration from that part of the building prohibited by C19-98-b, Administrative Code.

Note: The piping of refrigerant from one floor to another above the first floor is prohibited."

and

WHEREAS, the applicant states the building is 3 stories (43 ft.) in height; 50 ft. by 100 ft. in area at 1st floor; 50 ft. by 95 ft. in area at typical floor; of Class 1 construction; erected 1929; located in an unrestricted use, A area, Class 2 height district and used and occupied since 1929 as follows: cellar, storage of preserved fruits; 1st floor, manufacturing ice cream and storage, 4 persons; 2nd floor, manufacturing ice cream and preserving fruits, 4 persons; 3rd floor, manufacturing ice cream and manufacturing containers, 2 persons; that the building is equipped with a one source sprinkler system and an interior fire alarm system, but fire drills are not maintained; that there is one 44 in. wide fireproof stairway from the roof bulkhead to the first story and that the building adjoining to the south is 54 ft. in height; and

WHEREAS, the applicant contends the building is used exclusively as an ice cream manufacturing plant, except for a small area used to manufacture preserved fruits; that two 27 ton ammonia compressors are used in the refrigeration of the ice cream plant; that one of these compressors is large enough to service the plant and the second is standby equipment; that the power plant located in adjoining building contains all of the ammonia compressors needed for the complete servicing of all the factory buildings, including these two 27 ton ammonia compressors used for the ice cream plant; that ammonia high and low pressure lines run from the compressors located in the power plant, to the basement of the ice cream plant for use in the refrigeration system located in the ice cream plant; that the first floor of the ice cream plant is refrigerated by direct expansion of ammonia from these lines; that the rest of the building is refrigerated by an indirect method, consisting of a brine tank containing ammonia coils located in the basement, which supplies refrigerated brine to the 2nd and 3rd floors; that the Board of Health has recommended installation of new ice cream manufacturing equipment; that in connection with the installation of this recommended equipment, it is proposed to install the direct refrigeration system throughout the entire building; that the indirect system now in use will be discarded; that the proposed new refrigeration system will be affected by extending the existing high and low pressure ammonia lines from the basement, directly thru the floors to the second and third stories; that the high pressure lines will be 2 in., extra heavy steel pipe and the low pressure line will be 2½ in., extra heavy steel pipe; that branch lines will be of suitable size and will extend on the 2nd floor to the new equipment as indicated on plans filed with this appeal; that protection against corrosion and mechanical injury will be furnished for these pipes; that the pipes will be run through larger pipes securely cemented into the floors and the ends, both top and bottom, sealed to prevent corrosion and mechanical injury; that the ammonia lines in the ice cream plant will continue to be supplied from the compressors in the power house; it is therefore requested that the Board grant a modification, so as to permit the direct method of refrigeration to be used as proposed; that the entire refrigeration system will be under complete supervision of a licensed engineer at all times; and

WHEREAS, this appeal was taken off the calendar by the Board April 24, 1945, for the applicant to submit a complete statement as to the ammonia used in the building and the description of the existing equipment and to file new plans to carry out suggestions of the Board for modification of the proposed installations; and

WHEREAS, the applicant now states that it was originally intended to continue the direct expansion system throughout the building, but it now develops that this system can be rearranged to provide direct expansion to the 1st and 2nd floors only and that an independent refrigerating unit, using freon as a refrigerant, will be installed on the 3rd floor, as indicated on revised plans filed with the Board May 21, 1945, and that the piping layout has been revised, so as to provide for a tight enclosure, vented to the roof, as indicated on such revised plans; and

WHEREAS, the applicant states that the compressors located in the power house, contain approximately 6,000 lbs. of ammonia, of this total 1800 lbs. is used in the brine system for the ice cream plant; that when the proposed installation is completed, approximately 1300 lbs. of ammonia will be used for refrigeration; that all refrigerating and mechanical equipment is under the constant supervision of a licensed engineer, 24 hours each day; that the building will be used exclusively for the manufacture of ice cream, except for a small portion to be used for fruit preserving and storage; that the equipment used is almost identical with that used for ice making and in buildings used exclusively for ice making, the Code permits the direct method of refrigeration; that the building is equipped throughout with a sprinkler system, which complies with the law in all respects.

Resolved, that Order 98067-C issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to item 2, *on condition* that the refrigerator system within the building shall be installed and maintained in accordance with the revised proposal dated May 19, 1945 and as indicated on revised drawing marked "Received May 21, 1945"; that such system shall be maintained to the satisfaction of the fire commissioner; that the sprinkler system shall be maintained in accordance with the requirements therefor; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

11-45-A

APPLICANT—William Albert, for Certified Drug Products, Inc., lessee (Fred M. Citron, Jacob Karmin and Irving Kagan, owners).

MINUTES

SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—2417 Webster avenue, west side, 65.08 ft. north of East 187th street (basement and 1st floor); (Block 3025, Lot 25), Borough of The Bronx.
APPEARANCES—
For Applicant: William Albert and Irving Kagen.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (11-45-A)

WHEREAS, William Albert, for Certified Drug Products, Inc., lessee (Fred M. Citron, Jacob Karmin and Irving Kagan, owners), filed January 9, 1945, an appeal from an order and a decision of the fire commissioner, affecting premises 2417 Webster avenue, west side, 65.08 ft. north of East 187th street (basement and 1st floor); (Block 3025, Lot 25), Borough of The Bronx; and

WHEREAS, Order 39623-LC, issued by the Fire Commissioner October 30, 1944, and repeated in his decision of December 12, 1944, reads:

"With reference to your application dated recently for a permit to store and use drugs at above location, it is regretted that this department is without power to grant such a permit, for the reason that your building is occupied in part for factory purposes, contrary to Section C19-136.3. Your application for a wholesale drug store permit may not be approved.

YOU ARE THEREFORE HEREBY, ADVISED TO

1. Discontinue the maintenance of operation of a wholesale drug store or chemical supply house without a permit from this department. Sec. C19-134.0, Admin. Code."

and

WHEREAS, the applicant states that the building is two stories (28 ft.) in height, 29 ft. by 83 ft. in area; of Class 3 construction; located in a business use, B area, Class 1½ height district; erected in 1928; used and occupied since 1944 as follows: basement, boiler room and storage; 1st floor, wholesale drug business—7 persons; 2nd floor, drapery business—4 persons; that no change in use or occupancy is proposed; that certificate of occupancy has been issued; that the building is equipped with one interior stairs at the north side, which is 3 ft. 6 in. wide, of steel construction, enclosed in 8 in. brick walls, doors thereto are fireproof, self-closing; that the stairs extend to the roof by a ladder through a scuttle and lead directly to the street; and

WHEREAS, the applicant contends that the factory in question, which is the cause of this order, employs four persons manufacturing draperies; that the lofts so occupied are small and the building is only two stories in height and no fire hazard is created, as the applicant's business is very small and a full line of drugs is not carried; and that all items that would create a fire hazard have been eliminated.

Resolved, that Order 39623-LC issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Item 1, *on condition* that the wholesale drug occupancy shall be maintained to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

36-45-A

APPLICANT—Irving Soloway, for Emma E. Smith, owner (National Maple Products Co., Inc., lessee).
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—285-289 Prospect Park West, south side, 40 ft. east of 18th street (2nd floor); (Block 877, Lot 3), Borough of Brooklyn.
APPEARANCES—
For Applicant: None.
ACTION OF BOARD—Appeal dismissed for lack of prosecution.
THE VOTE TO DISMISS—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (36-45-A)

WHEREAS, Irving Soloway, for Emma E. Smith, owner (National Maple Products Co., Inc., lessee), filed January 26, 1945, an appeal from an order and a decision of the fire commissioner, affecting premises 285-289 Prospect Park West, south side, 40 ft. east of 18th street (2nd floor); (Block 877, Lot 3), Borough of Brooklyn; and

WHEREAS, Order 98391-LC, issued by the fire commissioner on December 9, 1944, and repeated in his decision of January 8, 1945, reads:

"1. Discontinue the process of spraying, dipping or immersing, using flammable paints, varnishes, lacquers or any other flammable substances, mixtures or compounds commonly used in connection therewith, on the above premises or a portion thereof, which is heated by other than the use of steam or hot water circulating systems and the boiler is located outside the space where spraying, dipping or immersing is carried on. Rule 1.3.4, Spray Rules."

and

WHEREAS, when this case was called for hearing, no appearance was made on behalf of the applicant, although duly notified to do so.

Resolved, that the appeal be and it hereby is *dismissed* for lack of prosecution.

126-45-A

APPLICANT—Justin R. Clary and Son, Inc., owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—550 Halleck street, southwest side, 250 ft. southeast of Randall avenue (1st floor); (Block 2769D, Lot 204), Borough of The Bronx.
APPEARANCES—
For Applicant: Justin R. Clary.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (126-45-A)

WHEREAS, Justin R. Clary and Son, Incorporated, owner, filed March 8, 1945, an appeal from an order and a decision of the fire commissioner, affecting premises: 550 Halleck street, southwest side, 250 ft. southeast of Randall avenue (1st floor); (Block 2769D, Lot 204), Borough of The Bronx; and

WHEREAS, the order 40286-LC, of the fire commissioner, issued January 17, 1945, reads:

"Before a permit may be issued for the storage of gasoline, also Diesel Oil, the following must be done:

1. Provide an approved buried storage system for gasoline, also for diesel oil. Sec. C19-51-A, Art. 8, Administrative Code.

NOTE: Plan to be filed with and approved by the Department of Housing and Buildings. Sec. C19-13.0, Art. 2, Administrative Code."

and

WHEREAS, said order was repeated in a decision of the fire commissioner dated February 26, 1945; and

WHEREAS, the applicant states that the building is one story (12 ft.) in height; 36 ft. by 18 ft. in area; of Class 5 construction; located in an unrestricted use, A area, Class 1½ height district; erected in 1931, and used and occupied

as tool house, 3 persons; proposed to be used and occupied tool house and gasoline storage, 3 persons; that no certificate of occupancy has been issued; and

WHEREAS, the applicant contends that the plant is located in a sparsely populated section of the city and it is necessary to have one barrel of gasoline on hand to run one air compressor; that this gasoline is now stored in a shed of class 5 construction, where there are no other combustible materials; that in view of the small quantity of gasoline needed, it would be impractical to install an underground tank and request that they be permitted to continue storage of one 50 gallon drum of gasoline.

Resolved, that Order 40286-LC, issued by the fire commissioner, be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Item 1, *on condition* that not more than one (1) fifty gallon drum of gasoline shall be stored on the premises; that such drum shall be stored in a shed of class 5 construction, as proposed and shall be equipped with a pump as approved by the Underwriters' Laboratories or Factory Mutuals Laboratories Inc.; that any gasoline taken from the drum shall be in a safety can, to the satisfaction of the fire commissioner; that in the event the owner desires to store such gasoline, not exceeding one drum, in an approved portable gasoline tank, such tank may be permitted, if maintained to the satisfaction of the fire commissioner and stored within the shed of class 5 construction when not in use; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

251-45-A

APPLICANT—Good and Kent, for Bush Terminal Buildings Co., owner (Control Instrument Co., Inc., lessee).

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—33-67 35th street, east side, and east side of 2nd avenue, 1300 ft. 4 in. north of 39th street (5th floor, East Section C, Building 5); (Block 687, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: R. S. Hardy.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (251-45-A)

WHEREAS, Good and Kent, for Bush Terminal Buildings Company, owner (Control Instrument Company, Incorporated, lessee), filed April 28, 1945, an appeal from an order of the fire commissioner, affecting premises 33-67 35th street, east side, and east side of 2nd avenue, 1300 ft. 4 in. north of 39th street (5th floor, East Section C, Bldg. 5); (Block 687, Lot 1), Borough of Brooklyn; and

WHEREAS, the order 99417-LC, of the fire commissioner, issued April 10, 1945, reads:

"1. Discontinue the loading of ammunition (primers) by power machinery C19-37.0 Administrative Code.

2. Discontinue storage of ammunition (primers) on same premises where materials of a highly inflammable nature are stored (paints and lacquers), C19-38.0-d-5, Administrative Code."

and

WHEREAS, the applicant states that the building is six stories (83 ft.) in height; 75 ft. by 700 ft. in area; of Class 1 construction; erected in 1911; located in an unrestricted use A area, Class 2 height district and used and occupied as follows: Subcellar and cellar, vacant; 1st floor, manufacturing and storage, 50 persons; 2nd floor, same, 50 persons; 3rd floor, drafting, 50 persons; 4th floor, assemblying, 100 persons; 5th floor north, assemblying, 75 persons; 5th floor south, manufacturing and storage, 50 persons; 6th floor, manufacturing lampshades, 25 persons; that no change in use or occupancy is proposed; that the building is equipped with a two source sprinkler system and a standpipe system and one interior stairs, 7 ft. 3 in. wide, of steel and concrete construction, extending to the roof bulkhead, and one fire escape leading to the roof by a ladder and to the street through an open railroad siding; that window and door openings along the course of the fire escape are steel sash and wire glass; and

WHEREAS, Certificate of Occupancy 85099, issued November 22, 1937, permits the following use: Cellar, ordinary; 1st to 6th floors, factory, 200 lbs. per sq. ft. live load; and

WHEREAS, the applicant contends as to Item 1, that the lessee is about to manufacture a device known as S.B.5; that it cannot be considered as ammunition within the definition of C19-2.0.1 of the Administrative Code; that it is a timing device for the U. S. Navy; that it is purely a device to start other processes in action and is not used as a means of propulsion; that the device is approximately 1½ in. in diameter and ⅝ in. in depth; and contends as to Objection 2, that the primer is of unusually small size, encased in sheet aluminum and consists of two units; that these primers are not manufactured on the premises, but are manufactured outside of the state and delivered in small quantities by automobile to the premises; that the maximum quantity at any time will not exceed 20,000 and will be stored in a steel cabinet located in an area removed from the assembly proper and separated from the rest of the floor by storage racks and wooden partitions; that the sprinkler system in the building would serve to extinguish any fire that might start in the vicinity; that the supply of primers, required for day to day operation of the plant, will be kept in this cabinet and a small number taken to the operator's bench in a lucite container so designed that only one primer can be moved at a time; that there will be but two persons assigned to insert these primers in the device and as soon as they have been inserted and the detoning pin put in position, the device will be packed for shipment; and

WHEREAS, the applicant further contends that the company is obliged to make deliveries under government requirements of approximately 3500 per day; that the company has been engaged in the manufacture of ordnance instruments and communicating devices for approximately 10 years and has adopted every feasible means of protecting its employees and property from accidents; that the methods employed have been inspected and checked by the Bureau of Explosives of the Association of American Railroads and all suggestions made by Mr. Campbell of that organization for safety protection have been made; that this order has been placed apparently because of the presence of another tenant in the same section of the building who stores small amounts of paint and lacquers.

Resolved, that Order 99417-LC issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to items 1 and 2, *on condition* that the operation as proposed shall be maintained to the satisfaction of the fire commissioner and at all times shall be under the supervision of a representative of the U. S. Navy; that this modification is granted only during the term of the present war emergency and for the length of the contracts now entered into, expiring in April 1946; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as varied under Cal. Nos. 32-32-A, 122-41-S, 117-43-S and 165-45-A.

273-45-A

APPLICANT—Tobias Goldstone, for Bond Adhesive Co., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—255-257 Wallabout street, north side, 150 ft. west of Harrison avenue (1st floor); (Block 2239, Lots 42 and 43), Borough of Brooklyn.

APPEARANCES—

For Applicant: Tobias Goldstone and Henry Joseph.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (273-45-A)

WHEREAS, Tobias Goldstone, for Bond Adhesive Company, owner, filed May 4, 1945, an appeal from an order of the fire commissioner, affecting premises 255-257 Wallabout street, north side, 150 ft. west of Harrison avenue (1st floor); (Block 2239, Lots 42 and 43), Borough of Brooklyn; and

WHEREAS, Order 99394-LC, issued by the fire commissioner, dated April 6, 1945, reads:

"1. Discontinue the manufacture of all inflammable mixtures (glues and adhesives consisting of vinyl-polymers or cellulose acetate dissolved in inflammable solvents), since no permit can be issued for any premises used for the manufacture of inflammable mixtures within 50 ft. of a place of public assembly (synagogue). C19-59.0-b-1, Administrative Code."

and

WHEREAS, the applicant states the building is 1 story (15 ft.) in height, 50 ft. by 100 ft. in area, of class 3 construction, erected in 1935, located in an unrestricted B area, class 1½ height district and used and occupied since 1943 by the present owner as follows: cellar—boiler room; 1st floor—manufacture and storage of adhesives—5 persons; that Certificate of Occupancy 77341, dated December 18, 1935, permits the use of the cellar for boiler, no occupancy; 1st floor—storage of inflammable material, 3 persons—120 lbs. live-load; and

WHEREAS, it is proposed to use and occupy the building as follows: cellar—boiler room; 1st floor—manufacturing and storage of adhesives, 5 persons; that the width of the doors is as follows: door to office—3 ft., and another door 12 ft. wide, both facing Wallabout street; 10 ft. opening in east wall leading to an inaccessible yard; an iron ladder to the roof, located in the northwest corner in the rear of the building; and

WHEREAS, the applicant on drawings filed with this appeal, shows proposed storage of inflammable materials as follows: 150 gallons of acetone; 50 gallons of alcohol; 50 gallons of butyl-acetate; 50 gallons of cello-solv-acetate; 100 gallons of lacquer-cement and 50 gallons of vinyl-acetate; and

WHEREAS, Fire Department folder 74687-20, shows application was made March 20, 1945, for a permit to store the following: 1 drum hydroabictyl alcohol; 2 drums carbitol acetate; 1 drum butyl acetate; 2 drums acetone; 1 drum synasol; 1 drum methyl acetone and 10 drums synthetic rubber; and

WHEREAS, laboratory reports show a flashpoint on both "Bond adhesive 4131 cement" and "Bond cement 515" as below 75; and

WHEREAS, the applicant contends that the original building was erected in 1935 and a certificate of occupancy issued for the storage of inflammable materials; that the building is constructed of 12 in. brick walls, concrete floor and wood beam roof; that the easterly wall of the building is unpierced, except for a 8 ft. by 10 ft. door opening to the adjoining yard, 20 ft. 6 in. wide, to the wall of the synagogue; that all skylights on the roof of the building are glazed with wire glass; that it is proposed to store all materials and do all mixing, 54 ft. from the wall of the synagogue; that the materials are stored in sealed drums and all mixing is done in sealed drums; that the major portion of the adhesives and glues manufactured on the premises are water soluble and only a few require the use of inflammable solvents; that the inflammable adhesives are not made on the premises, but are received as prepared materials from approved chemical companies in New Jersey; that the only inflammable adhesives made within the meaning of the fire regulations, are an occasional variation of a stock material to fit the requirements of individual customers and these variations include the addition of plasticizers, which, if anything, reduce the inflammability of the adhesives; that the manufacturing equipment does not include open mixers, but only sealed drums with which materials are brought into solution by rolling and tumbling; that, generally, 25 or 30 gallons of solvent and material are rolled and tumbled in a 50 gallon drum; that the solvents used are alcohol, acetone, etc. excluding hydrocarbons, toluol, benzol, naphtha, etc.; that the synagogue holds early morning services before the business day starts and is generally not open during the day nor evenings, with the exception of Friday evening and Saturday, when no mixing is done at all; that the electric wiring includes a master switch, which when thrown, disconnects all electricity; that the present use of inflammable adhesives has been induced to a great extent by war work orders and the substitution from time to time of materials because of wartime restrictions, which condition will be alleviated considerably after the war and enable the applicant to further reduce the small proportion of inflammable solutions used at present.

Resolved, that Order 99394-LC, issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Item 1, *on condition* that there shall be no openings in the easterly wall of this building; that the existing doorway, from this building to the adjoining yard, shall be bricked up with approved masonry; that all inflammable materials shall be maintained as proposed, toward the westerly portion of the building, as far removed as possible from the westerly wall of the building adjacent on the east; that such quantities of inflammable materials as are proposed, shall either be stored in a buried system as required or, if approved by the fire department, in an approved fireproof vault; that a mixing room shall be constructed and maintained in accordance with the requirements therefor; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

299-45-A

APPLICANT—William J. Minogue, for Unexcelled Manufacturing Co., Inc., owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—1208 Richmond avenue, west side, 400 ft. south of Lisk avenue (Block 1655, Lot 7 and Block 1660, Lot 1), Graniteville, Borough of Richmond.

APPEARANCES—
For Applicant: Thomas Jurdene, C. R. Rosmussar, W. G. McKnight, Jr., William Minogue, Edward T. Curry and Capt H. R. George, Jr.
For Administration: H. Pinsker and E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (299-45-A)

WHEREAS, William J. Minogue, for Unexcelled Manufacturing Company, Inc., owner, filed May 17, 1945, an appeal from an order of the fire commissioner, affecting premises 1208 Richmond avenue, west side, 400 ft. south of Lisk avenue (Block 1655, Lot 7 and Block 1660, Lot 1), Graniteville, Borough of Richmond; and

WHEREAS, order 41128-LC, issued by the fire commissioner, April 17, 1945, reads:

"Before a permit may be issued to you for the use and storage of fireworks, the following must be done:

2. Discontinue the manufacture of fireworks containing fulminates. This refers to the primer of the M69 oil bomb.

3. Submit evidence that Department of Housing and Buildings has approved the use of the buildings for the manufacture of these oil bombs (M69).

5. Show that the use of building #107 as a motor vehicle repair shop has been approved by the Department of Housing and Buildings.

8. Provide a first class magazine for the storage of primers.

9. Either discontinue the storage of empty packing cases in excess of 2,000 cu. ft. or surround such storage by a substantial fence as required by the Administrative Code.

14. Discontinue the storage of red phosphorus or show that it is not used in the manufacture of fireworks.

15. Discontinue the use of powered machinery in the loading of percussion caps, into the fuses of M69 bombs.

22. Discontinue the storage and/or use of nitrocellulose products or scrap.

25. Discontinue the practice of burning discarded oil bombs (M69) on any part of these premises.

28. Discontinue the use of gasoline powered motor vehicles in the plant compound."

and

WHEREAS, the applicant states that the premises consist of a plot fronting 900 ft. on Richmond avenue with a depth of 3085 ft., irregular therefrom, on which a group of 200 buildings of various sizes, 1 and 2 stories in height, class three and class 4 construction are used for the manufacture of pyrotechnics with an occupancy of 400 persons; and

WHEREAS, the applicant contends as to item 2, that the approval of this plant has been received for the manufacture of pyrotechnics and fireworks and the M69 oil bomb is in the above classification and is so classified by the U. S. Government and the Bureau of Explosives of the Interstate Commerce Commission; as to item 3, that the Department of Housing and Buildings has approved this plant for the manufacture of pyrotechnics; as to item 5, that Building No. 107 has not been specifically approved as a motor vehicle repair shop, but this is an accessory to the use of the motor vehicles employed at the plant in conjunction with the manufacturing process; as to item 8, that the storage of primers is in a magazine of suitable construction, the magazine being corrugated metal and the use of same has been approved by the Safety and Security Division of the U. S. Army Chemical Warfare Service; as to item 9, that these empty packing cases belong to Chemical Warfare Service of the U. S. Army and are being removed by them and the owner has no control over said removal; that this item should be held in abeyance at the pleasure of the Chemical Warfare Service; as to item 14, that the storage and use of Red Phosphorus is requested in an amount not to exceed two pounds, in eight one-quarter pound cans, which will be stored in an isolated magazine of fireproof construction; as to item 15, that the use of powered machinery in the loading of percussion caps into the fuse of M69 bombs is necessary in order to meet the production schedules of the Chemical Warfare Service of the U. S. Army; as to item 22, that the use and storage of nitro-cellulose products is necessary in the manufacture of the materials under contract with the U. S. Government and it would be impossible to comply with the contracts unless the nitro-cellulose products are stored and used; that in regard to the scrap, the rejected materials are collected and burned in a remote part of the plant daily; as to item 25, that the burning of discarded oil bombs and other rejected pyrotechnic materials is necessary, inasmuch as the accumulation of these materials would become a hazard and any disposition other than burning, would also be a serious hazard; that furthermore, this burning is done at the rear of the plant in a very remote location; as to item 28, that the buildings constituting this plant are spread out over the premises, which covers a very large plot and it is necessary for the superintendent to have an automobile available at all times for rapid transportation and immediate use; that this is also necessary for the transportation of any sick or injured employees; that it is necessary for the representatives and officials of the U. S. Government as well as other persons, to frequently visit the plant for the purpose of holding conferences and making inspections and other similar work and in the light of the lack of transportation facilities to and from the premises; that permission is also sought to have on the premises a motor vehicle known as a station wagon, the use of which is indisputably necessary; that it is necessary to have on the premises, automobile trucks to be used in transferring materials from one part of the plant to another and to have trucks loading and unloading materials, as trucks are the only means of transportign materials to the plant.

Resolved, that Order 41128-LC, issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* as to Item 2, *on condition* that the type of primer shall be as proposed and shall be similar to the manufacture as permitted in Building No. 105 under Cal. No. 496-41-A; as to Item 3, that the buildings in which the M69 oil bombs are manufactured, shall be as approved by the Department of Housing and Buildings, when passed on by the Board under Cal. No. 991-40-BZ; as to Item 5, *denied* without prejudice to an application for Amendment of Cal. No. 991-40-BZ, for a zoning variance as to the motor vehicle repairing involved; as to Item 8, that the two existing magazines of class 5 construction, located at least 175 ft. from adjoining buildings and approved by the U. S. Army for such use, may be continued, provided not more than a total of 50 lbs. of explosives is permitted within each building; as to Item 9, that the storage of empty packing cases shall be maintained within the fenced plant area and shall be segregated toward the Richmond avenue portion of the premises, so as to reduce the hazard and shall be maintained to the satisfaction of the fire commissioner and that such packing cases shall be promptly removed from the premises; withdrawn as to Item 14, in view of the statement that red phosphorus is not used for the manufacture of commercial fire works; as to Item 15, that the requirements as to Items 2 and 3 shall be complied with and the method of using powered machinery is similar to that as previously permitted by the Board as referred to; that all electrical equipment, required for such powered machinery, shall be installed and maintained to the satisfaction of the fire commissioner; as to Item 22, that the use of nitrocellulose products shall be restricted to the containers for holding black powder; that any scrap or waste material therefrom shall be destroyed in a safe place off the manufacturing area as proposed and to the satisfaction of the fire commissioner; that such damaged nitro-cellulose containers, prior to destruction, shall be placed in a metal receptacle under water with a self-closing lid; as to Item 25, that discarded oil bombs shall be burned off the manufacturing area within a swamp area as proposed and as approved by the fire commissioner, protected by a portable metal wind shield; as to Item 28, that no gasoline powered motor vehicles shall be maintained or permitted to traverse the property, except four (4) motor vehicles owned by the company and such other motor vehicles as are essentially required for Army inspection and for delivery of materials and the transportation of finished products; that as far as possible, such delivery of materials and the shipment of products shall be toward the Richmond avenue front, to the satisfaction of the fire commissioner; that such fire-fighting equipment shall be maintained throughout the premises as the fire commissioner shall direct; that in all other respects, the premises shall be maintained in accordance with the requirements therefor and as provided in resolutions adopted by the Board under Cal. Nos. 496-41-A and 991-40-BZ; that the plant shall comply with all the requirements of the State Labor Department, in so far as it has jurisdiction and the plant at all times shall be under the supervision of the officials of the U. S. Army; that this modification shall continue only during the term of the present emergency and for not over six (6) months thereafter, during the term of Government contracts, under which materials are being manufactured and that during such time, the former manufacture of fireworks shall be discontinued.

APPLIANCE SUBMITTED FOR APPROVAL

230-45-SA

APPLICANT—Steiner-Ives Company, owner.

SUBJECT—Steiner-Ives Indirect Gas-Fired Heater, Model 45, and Industrial Baking Oven, approval of.

APPEARANCES—
For Applicant: George Chandler.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Tests.

THE VOTE TO APPROVE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (230-45-SA)

WHEREAS, Steiner-Ives Company, owner, filed on April 19, 1945, an application with the Board of Standards and Appeals for approval of the appliance known as the Steiner-Ives Indirect Gas-Fired Heater, Model 45, and Industrial Baking Oven; and

WHEREAS, this appliance was referred to the Committee on Tests of the Board for test and report; and

WHEREAS, the report of the Committee on Tests reads:

REPORT OF COMMITTEE ON TESTS

Re: Cal. 230-45-SA.
Subject: Steiner-Ives Indirect Gas-Fired Heater Model #45 and Industrial Baking Oven, approval of.

Steiner-Ives Company of Newark, New Jersey filed an application with the Board of Standards and Appeals for approval of the Steiner-Ives Indirect Gas-Fired Industrial Baking Oven under the provisions of C26-178.0b and Article 12 Heating Appliances, Combustion and Chimneys, of the Administrative Building Code and the Rules Covering the Use of Equipment for Spraying of Paint, Varnishes, Lacquers and Other Flammable Surface Coatings and the Storage of such Materials.

DESCRIPTION

This description covers an industrial oven and an indirect gas-fired heater, Model #45, which are usually installed as a single unit, but which can be used separately.

INDIRECT GAS-FIRED OVEN HEATER MODEL #45

This heater is used for heating of industrial ovens for processing at temperatures up to 400 deg. F. The ovens are used for baking of enamel, lacquer and japan finishes on metal parts and varied drying and processing.

This heater is a self-contained unit, usually mounted on the top of the oven, and contains burners, heat exchanger tubes, burner exhaust fan and oven circulating fan with driving motor, and complete automatic safety and temperature controls. Heating chamber is all welded construction enclosed in an insulated housing made up of steel oven-type panels with 3″ thickness mineral wool or equivalent insulation.

The operation is by indirect gas heat. Burners with spark ignition pilot burner are sealed in vacuum type combustion chamber. The products of combustion are drawn across heater tubes by a built-in exhaust blower which provides positive venting of products of combustion. In addition the combustion space is under partial vacuum which renders the burner operation unaffected by changes in atmospheric pressure in the oven room. A separate blower forces air, drawn from the oven through a return duct, together with fresh make-up air from inlet ports, through the heat exchanger tubes; the heated air entering the oven through a duct at the opposite side from the return duct. This blower provides a positive venting of fumes sufficient to maintain safe air conditions in oven. Vent stack from oven is entirely separate from burner vent and the two stack connections are separately piped from building. Both vents are under pressure.

Safety Controls are provided with complete safety equipment to meet requirements of the Rules of Board of Standards and Appeals. The controls also meet the safety requirements of the Factory Mutual Ins. Co. and the Fire Underwriters. This safety equipment gives complete gas shut-off of both main and pilot burners in case of (1) failure of blower exhausting products of combustion, (2) flame failure, (3) gas supply failure, (4) electric supply failure. Equipment includes approved air-flow switch, flame conductivity type safety pilot shut-off (Partlow Saf-T-Flame or equivalent) and continuous spark ignition pilot burner.

Temperature control is by electric contact type controller with "On-Off" action of solenoid valve on gas supply to main burners.

The dimensions of the Indirect Heater vary in accordance with size of oven. Heat input for an oven with inside dimensions of 6 ft. wide, 12 ft. long x 6 ft. high, is 200,000 BTU.

INDIRECT GAS-FIRED OVEN FOR USE WITH MODEL #45 INDIRECT GAS-FIRED HEATER

The ovens are for varied industrial baking and drying processes, including enamel, lacquer and japan baking. Operating temperatures up to 400 deg. F.

The ovens are constructed of insulated steel panels, enclosing 3″ thickness of mineral wool insulation throughout oven. The panels have tongue and grooved joints and are set in welded angle framework, making a rigid construction. Oven floor is also of steel panel construction with 3″ minimum insulation, covered with heavy steel floor plate. Channel tracks set into floor plate in case of truck loading ovens. Double doors are provided at one end, or both ends. Pressure relief covers are provided on roof with area in excess of minimum safety requirements.

The circulating system provides horizontal air-flow from side to side of oven. Heated air from indirect gas-fired heater unit enters oven through opening in top and passes into baking compartment through adjustable ports distributed over entire side of oven. After passing horizontally across the work, air is drawn out through similar adjustable ports distributed over opposite side and into heater through top of oven. Fumes are exhausted under pressure by circulating blower in heating unit before passing through heat exchanger.

The size of the oven varies, as required. Maximum size oven has inside dimensions of 7 ft. wide, 7 ft. high x 12 ft. long.

INSPECTION AND TEST

Inspections and tests of model of this oven and of Model #45 Gas-Fired Heater were made at the plant of the applicant at Newark, New Jersey, and the oven heater were found to operate as designed and to be equipped with safety controls, as required by the Rules of the Board.

RECOMMENDATION

On the basis of the foregoing data and the inspections and tests, the Committee on Tests recommends the approval under C26-191-06 of the Steiner-Ives Indirect Gas-Fired Industrial Oven and the Model #45 Gas-Fired Heater, provided the oven and appurtenances are installed in accordance with the requirements of Article 12 of the Administrative Building Code and the Rules of the Board of Standards and Appeals, and provided, further, that each oven installed shall bear a label, permanently affixed, reading "Approved by the Board

of Standards and Appeals for use in New York City under Cal. 230-45-SA.

(Sgd.) BERNARD A. SAVAGE,
Commissioner,

CHARLES M. BLUM,
Commissioner,

LESLIE V. HUBER,
Chief Engineer,
Committee on Tests.

and

WHEREAS, this report recommended the approval of this appliance.

Resolved, that the Board of Standards and Appeals does hereby *approve* the appliance known as the Steiner-Ives Indirect Gas-Fired Heater, Model 45, and Industrial Baking Oven, *on condition* that the material appliance be manufactured, installed, used and labelled in accordance with the above report.

Adjourned: 1:00 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, MAY 29, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

352-44-A

APPLICANT—L & R Manufacturing Company, owner.

SUBJECT—Appeal from a decision of the fire commissioner re Packaging of inflammable mixture known as "L and R Rinsing Solution, No. 3" in 32 oz. glass containers (capacity of glass containers not in conformity with Administrative Code requirements).

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Appeal dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (352-44-A)

WHEREAS, the L & R Manufacturing Company, owner, filed on June 1, 1944, an appeal from a decision of the fire commissioner, re packaging of inflammable mixture known as "L and R Rinsing Solution, No. 3" in 32 oz. glass containers (capacity of glass containers not in conformity with Administrative Code requirements); and

WHEREAS, the applicant failed to complete the papers in this case, although duly notified to do so.

Resolved, that the appeal be and it hereby is dismissed for lack of prosecution.

15-45-A

APPLICANT—Globe Lighting Products Co., lessee, for Ansonia Holding Co., owner.

SUBJECT—Appeal from an order and decisions of the fire commissioner.

PREMISES AFFECTED—397 7th avenue and 408 12th street, northeast corner (1st floor, Building B); (Block 1098, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Harold Schattner.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4.
Negative: 0

THE RESOLUTION (15-45-A)

WHEREAS, Globe Lighting Products Co., lessee, for Ansonia Holding Company, owner, filed January 11, 1945, an appeal from an order and decisions of the fire commissioner, affecting premises 397 7th avenue and 408 12th street, northeast corner (1st floor, Bldg. B); (Block 1098, Lot 1), Borough of Brooklyn; and

WHEREAS, Order 12423-LF, issued by the Fire Commissioner, March 28, 1944, reads:

"1. Arrange wire screens on all windows so as to be readily movable or removable from both sides; in such a manner as to afford the free and unobstructed use of such windows for the purposes of egress, as per Section 272 of the Labor Law."

and

WHEREAS, the applicant states that the building is four stories (48 ft.) in height, 200 ft. by 200 ft. in area; of Class 3 construction; located in an unrestricted use, C area, Class 1½ height district; erected about 1881 and used since 1931 as follows: 1st floor—dies—15 persons; cleaners, 8 persons; shipping, 4 persons; 2nd floor, mfg. yarn and shirts, 50 persons; 3rd floor and 4th floor, mfg. lighting fixtures, 60 persons per floor; that no change in use or occupancy is proposed; that no certificate of occupancy has been issued; that the building is equipped with a one-source approved sprinkler system, an interior fire alarm system and a standpipe system, but fire drills are not maintained; that there are two interior stairs, one located at main entrance 12th street and the other at side, located in an alley on 7th avenue, 4 ft. in width, of wood construction with brick enclosure and kalamein doors; that these extend to the roof bulkhead and directly to the street; that there is an exterior fire escape in the court and that windows and doors on the course thereof are fireproof, self-closing; and

WHEREAS, the applicant contends that the screens on windows are essential to prevent destruction of property, due to the vandals in the neighborhood; that the Police Department is helpless and admits it is unable to control the depredations and that the screens were placed on the building at the time of its erection; and

WHEREAS, the applicant states there are nineteen windows affected, located on the first (ground) floor on the 13th street front of the building; and that there are two exit doors and three secondary means of egress on this floor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in order 12423-LF of the Fire Commissioner, and that the appeal be and it hereby is *granted,* as to item 1, *on condition* that the exits as indicated on plans filed with this appeal, marked "Received December 26, 1944", shall be maintained and that in addition, no screens shall be erected on the windows opening on the side yard to the east or to the open yard or court to the north; that the sprinkler system, standpipe system and interior fire alarm systems shall be maintained in accordance with the rules therefor and to the satisfaction of the fire commissioner; that no additional windows shall be screened, other than those affected by the order; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

22-45-A

APPLICANT—Gray and Tomlin, for The Roman Catholic Diocese of Brooklyn, New York, owner (Anthonian Hall, Inc., lessee).

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—101-107 Greene avenue, northeast corner of Vanderbilt avenue (Block 1943, Lots 41-44 inclusive), Borough of Brooklyn.

MINUTES

APPEARANCES—
For Applicant: John H. Kearney and Madeline W. Smith.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (22-45-A)

WHEREAS, Gray and Tomlin, for The Roman Catholic Diocese of Brooklyn, New York, owner (Anthonian Hall, Inc., lessee), filed January 15, 1945, an appeal from an order of the fire commissioner, affecting premises: 101-107 Greene avenue, northeast corner of Vanderbilt avenue (Block 1943, Lots 41 to 44, inclusive), Borough of Brooklyn; and

WHEREAS, Order 13987-LF of the Fire Commissioner, issued December 15, 1944, reads:

"2. Have the watchman patrol all portions of the premises and record his movements at each station. Tours or rounds are to be made once every two hours beginning at 6 P. M. and continuing until the day staff have resumed their duties. Used dials are to be kept on file at the premises so that same can be inspected by this Department. 487, E2.Oc-2 Adm. Code."

and

WHEREAS, the applicant states that the building is 3 stories and basement (40 ft.) in height, 80 ft. by 43.2 ft. in area; of Class 3 construction; located in business use, B area and Class 1½ height district; erected in 1908 and used since 1934 as a home for the blind, as follows: basement, dining room, kitchen, laundry and caretaker's room, 2 persons; 1st floor, parlor, library, residence room, chapel, 3 persons; 2nd and 3rd floors, bedrooms, 20 persons per floor; 4th floor, storage room; for which Certificate of Occupancy 90879, issued January 26, 1939, permitted the foregoing use of 105-107 Greene avenue, with 14 persons on each of the 2nd and 3rd floors; and Certificate of Occupancy 99337, issued December 11, 1940, permitted 101-103 Greene avenue to be used as follows: Cellar, storage; basement—maid's sitting room, laundry and offices; 1st floor, office, chapel and meeting room; 2nd floor, four sleeping rooms; 3rd floor, 4 sleeping rooms; 4th floor, (#101 only) storage, no detailed occupancy given; 40 lbs. live-load per floor permitted; that the building is equipped with a one-source sprinkler system and an interior fire alarm system, but fire drills are not maintained; that there are four interior stairs located at the front, of wood construction, enclosed in fireproof enclosure and equipped with fireproof, self-closing doors, and leading directly to the street and extending to the roof bulkhead; that there are four exterior fire escapes at the rear, extending to the roof by stair and to the yard by stair and to the street through a yard; and

WHEREAS, a variation was granted by the Board, to permit the occupancy of these buildings under certain conditions under Cal. Nos. 482-38-A and 493-40-A; and

WHEREAS, the applicant contends that the order of the fire commissioner requires that the watchman's tours shall be made once every two hours at 6 P. M. and continuing until the day staff has assumed their duties; that the premises is occupied by Anthonian Hall, Inc., as a residence for blind women; that all safety provisions of the law have been complied with; that a watchman is employed every night, but goes on duty at 10:30 P. M. and he records station visits every two hours from 11 P. M. to 7 A. M., when the day staff takes over; that during the day, the watchman's service is maintained and that the switchboard attendant is present until 10:30 P. M.; that there is a telephone extension on each floor of each building; that in view of all the conditions maintained, no watchman is necessary until 10:30 P. M. and to require him to start at 6 P. M. would entail duplication of work and additional expense without adding to the safety of the residents and is an unnecessary financial burden; that it is urged this appeal be granted, to permit compliance with the requirements in all respects, except that the watchman's rounds be permitted to start at 10:30 P. M. instead of 6 P. M., as required.

Resolved, that order 13987-LF of the Fire Commissioner, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to item 2, *on condition* that in all other respects, the watchman's service shall be maintained in accordance with the requirements therefor and that the building and occupancy shall comply in all other respects with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. Nos. 482-38-A and 493-40-A; and that the certificate of occupancy issued by the Department of Housing and Buildings, 90879, shall be corrected, so as to refer to the correct number of the appeal, namely #482-38-A instead of #428-38-A.

38-45-A

APPLICANT—Irving Kudroff, for 509 East 75th Street Corporation, owner (Center Container Corp., lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—507-509 East 75th street, north side, 173 ft. east of York avenue (1st to 4th floors); (Block 1487, Lot 8), Borough of Manhattan.
APPEARANCES—
For Applicant: Irving Kudroff.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (38-45-A)

WHEREAS, Irving Kudroff, for 509 East 75th Street Corporation, owner (Center Container Corp., lessee), filed January 25, 1945, an appeal from a decision of the borough superintendent, affecting premises 507-509 East 75th street, north side, 173 ft. east of York avenue (1st to 4th floors); (Block 1487, Lot 8), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated December 26, 1944, re Alt. Applic. 1536-44, reads:

"1. Provide two means of exit, remote from each other, from every floor, to comply with Sec. 270 Labor Law.

3. All doors opening on stairway should be 3 ft. 8 in. wide, Sec. 270 Labor Law."

and

WHEREAS, the applicant states that the building is four stories (54 ft.) in height, 50 ft. by 96 ft, and 102 ft. 2 in. in area at first floor, 50 ft. by 96 ft. and 100 ft., irregular, above; Class 3 construction; located in an unrestricted use, B area. Class 2 height district; erected in 1914 and used since May, 1937, as a public garage for over five-motor vehicles; proposed to be used: 1st floor, boiler room, shipping and factory for cardboard boxes, 10 persons; 2nd floor, office and cardboard box factory, 25 persons; 3rd floor, cardboard box factory, 15 persons; 4th floor, storage, 5 persons; that Certificate of Occupancy 23650-38, was issued May 31, 1938, for a public garage; that the building is equipped with one interior stairs at the northeast corner of the building, 3 ft. 8 in. wide of steel construction, enclosed in brick, with kalamein, self-closing doors, extending to the roof bulkhead and leading directly to the street; that there is one fire escape at the rear, extending to the roof by stair, to the yard stair with egress to the street through the 1st story; and

WHEREAS, the applicant contends it is proposed to change the occupancy of the building from a public garage to a factory; that the building was originally erected in 1914, as a storage warehouse and converted in 1937 to a public

garage for more than five cars, subject to Certificate of Occupancy 23650; that the two means of exit from the upper stories, consist of a fireproof stairway and a 45° fire escape on the rear of the building, extending from the yard to the roof; that all windows and doors opening on the course of the fire escapes are fireproof, self-closing and that the present egress to the street is either through the first story or through the adjoining premises; that there is no cellar in the building and the boilerroom, containing a low pressure steam heating boiler, is in a brick extension, one story in height, located in the rear of the building and access thereto is through the yard; that it is proposed to occupy for manufacturing only, the lower three stories, and the 4th floor will be used for storage; and

WHEREAS, this building has been before the Board on appeal in two prior cases, namely Cal. 845-24-A and 944-24-S; that the former was an appeal from a decision of the borough superintendent, objecting to the proposed extension in height above four stories and conversion of the building to factory use, as the building was erected after October 1, 1913 and could not be permitted, under the Labor Law, to be of nonfireproof construction as proposed; that under Cal. 944-24-S, the same question was presented and the appeal was denied; that the building at present, apparently is arranged similarly as to the existing conditions of the stair and fire escapes; that the adjoining building to the west is shown with a depth of approximately 75 ft. and there are lot line windows on all floors, opening upon the yard of the adjoining building; that there is nothing shown as to exit or rear fire escape to the street, other than through the first floor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1536-44, objections 1 and 3, and that the appeal be and it hereby is *granted on condition* that the primary means of exit, as indicated shall be maintained throughout the building, with bulkhead to the roof; that the secondary means of exit, consisting of an exterior 45° fire escape, with stairs to the rear yard, shall be maintained and that a passageway, constructed of fireproof materials, shall be installed through the first floor, from the rear yard to the stairway enclosure at the front; that the doors leading to such passageway shall comply with the requirements as to width and that the existing doors to primary means of exit enclosure may be continued, provided such doors are not less than 40 inches in clear width: that the occupancy of the upper floors shall be computed on the capacity of the primary means of exit only; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

202-45-A

APPLICANT—William I. Hohauser, for Plywood Aircraft Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—20-20 119th street, west side, 200.38 ft. south of 20th avenue (Block 4160, part of Lot 10), College Point, Borough of Queens. (Under section 35, General City Law re bed of proposed mapped street—Powells Cove boulevard.)

APPEARANCES—

For Applicant: William I. Hohauser.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (202-45-A)

WHEREAS, William I. Hohauser, for Plywood Aircraft Corporation, owner, filed April 5, 1945, an application pursuant to Section 35 of the General City Law, for permission to erect a building in the bed of a mapped street (Powells Cove boulevard), as cited in a decision of the borough superintendent, affecting premises 20-20 119th street, west side, 200.38 ft. south of 20th avenue (Block 4160, part of Lot 10), College Point, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated March 19, 1945, on Alt. Applic. 301-45, reads:

"1. The extension of an existing building into the bed of a mapped street, is contrary to the General City Law, Sec. 35, Art. 3, Not further considered."

and

WHEREAS, the applicant states that the premises consist of a plot fronting 54.32 ft. on 119th street with a depth of 240.47 ft. irregular in area, located in an unrestricted use, D, area, class 1 height district, upon which there is an existing building 54 ft. by 136 ft. in area, which it is now proposed to extend by the erection of a new class 3 extension 66 ft. in depth for the full width of the lot and a spray room 21 ft. in depth by 27 ft. in width at the rear, as indicated on plans filed with this appeal, marked "Received April 5, 1945" and "May 5, 1945"; that the entire premises are used as a woodworking shop with 45 persons on the first floor and 15 persons on the second floor; that Certificate of Occupancy Q31112 was issued June 9, 1944, under N. B. Applic. 55-44, permitting the use and occupancy of the building therein described as paint spraying; that this appears to be the building now located in the bed of Powells Cove boulevard which is marked "present paint spray building to be removed" on plan filed with this appeal; and

WHEREAS, the applicant contends that Powells Cove boulevard was first mapped on December 23, 1915; that since then nothing was done on this matter and nothing is on the record, indicating any further action on this proposed boulevard; that the extension to this building is needed immediately in connection with the manufacturing of products of the owner-tenant; that it is unfair to the owner to be prohibited from using this property to the full extent permitted by zoning; and

WHEREAS, the Board is in receipt of a communication from the acting President of the Borough of Queens, wherein it is stated "that Powells Cove Blvd. is indicated at a width of eighty feet on Final Section No. 48 of the Borough of Queens, adopted by the Board of Estimate and Apportionment on December 23, 1915. There is no proceeding pending at this time to acquire title to the street. I believe, however, that if this permit is granted, a stipulation be made to protect the City's interest, in the event that the property in question be acquired."

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 301-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* under the powers vested in the Board under section 35 of the General City Law, to permit the bed of the proposed street to be occupied by the proposed building, *on condition* that no claim for damages shall be made against the City of New York, in the event of the acquisition of the property for street purposes, other than for the fair value of the land so taken and for the cost, as determined by the court, for that portion of the building erected within the mapped street, less amortization at the rate of 10% per annum.

221-45-A

APPLICANT—Childs Company, lessee, for Estate of George C. Boldt, owner (Chase National Bank, trustee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—36 West 34th street, south side, 300 ft. east of Broadway and 41 West 33rd street (1st and 2nd floors); (Block 835, Lots 14 and 63), Borough of Manhattan.

MINUTES

APPEARANCES—
For Applicant: George E. Sweet and W. A. Le Gette.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (221-45-A)

WHEREAS, Childs Company, lessee, for Estate of George C. Boldt, owner (Chase National Bank, trustee), filed April 12, 1945, an appeal from a decision of the borough superintendent, affecting premises 36 West 34th street, south side, 300 ft. east of Broadway and 41 West 33rd street (1st and 2nd floors); (Block 835, Lots 14 and 63), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated March 15, 1945, on Misc. F. P. Applic. 434-45, reads:

"1. Plan shows machinery room of a direct method of refrigeration, located on the 2nd floor of a business building, which is contrary to C19-98.0, sub. b of the Administrative Code."

and

WHEREAS, the applicant states the building is five stories (53 ft.) in height; 25 ft. frontage on 34th street and 21 ft. 2 in. on 33rd street, and 197 ft. 6 in. in depth; of Class 3 construction; located in a restricted retail use, B area, Class 2 height district and occupied: cellar, working portion of restaurant, 10 persons; 1st story, restaurant, 209 persons; 3rd to 5th stories, offices, 20 persons per story; that the means of egress consists of two interior stairways, one on each street front, enclosed with wood studs, wire lath and plaster partitions, with self-closing doors at the openings, extending from the street to the roof and two fire escapes in the interior court, with ladder to the roof and connecting at the 2 story to the fire escape on the adjoining building; and

WHEREAS, the applicant contends that at the restaurant operated by the Childs Company at 36 West 34th street and 41 West 33rd street, it is proposed to install a direct air conditioning system, consisting of a Carrier compressor of 28 H.P. and an evaporator containing 160 lbs. of Freon refrigerant, the machine room containing these units, to be constructed in the 2nd story West 33d street side; that ducts containing the conditioned air, will perforate the 2nd floor and be distributed on the ceiling of the 1st story restaurant; that there is no space in the cellar or in the restaurant for the placing of the machine room, the area to be occupied in the 2nd story is vacant and will remain vacant; that the Department of Housing and Buildings would approve the system, if the machine room were located on the 1st floor; that in this case, the machine room, located on the 2nd floor with ample windows for ventilation, would render the plant much less dangerous than if same were located on the 1st floor and ventilated by mechanical means; that all perforations through the second floor will be protected by fire dampers, directly connected to the machine itself, and these perforations will be fire protected, as shown on the plan filed with this appeal; that the air, passing through the 2nd floor and into the ducts in the 1st story, would not be heated and the plant will be operated as a cooling system only; that the ruling of the Department of Housing and Buildings in this particular case is not contributing to safety and it is therefore requested that a modification be granted to allow the plan as submitted.

Resolved, that the decision of the borough superintendent, acting on F.P. Applic. 434-45, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition,* that in all other respects, the refrigeration shall comply with the requirements of the Administrative Code therefor; that the rear section of the second floor, facing West 33d street, shall remain vacant as proposed, other than for the refrigerating equipment as shown, which shall be separated by means of a one-hour partition and a fireproof door from that portion of the second floor; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

280-45-A

APPLICANT—Irvin J. Berger, for Victor Metal Products Corp., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—190-200 Diamond street and 264-272 Calyer street, southeast corner (Block 2602, Lots 8 and 12), Borough of Brooklyn.

APPEARANCES—
For Applicant: Irvin J. Berger.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (280-45-A)

WHEREAS, Irving J. Berger, for Victor Metal Products Corp., owner, filed May 10, 1945, an appeal from a decision of the borough superintendent, affecting premises 190-200 Diamond street and 264-272 Calyer street, southeast corner (Block 2602, Lots 8 and 12), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated April 23, 1945, re Alt. Applic. 271-45, reads:

9. "Provide two means of egress from each floor, complying with the requirements of Sec. 270 of the Labor Law, as building was extended under Alt. 6163-29.

10. Vertical openings shall be enclosed throughout their height by enclosures of fireproof materials, as per Sec. 270-7 of the Labor Law. Denied."

and

WHEREAS, the applicant states that the building is 3 stories (51 ft.) in height; 140 ft. 2 in. frontage (plans show a total frontage of 175 ft., additional 35 ft. being a two-story adjoining building occupied by same concern and connected thereto); that it is 50 ft. and 100 ft. in depth at street floor; and 50 ft. and 61 ft. 2 in. in depth at typical floor; Class 3 construction; located in unrestricted use C area, Class 1¼ height districts; erected about 1897 and 1929 and used and occupied since as follows: 1st, 2nd and 3rd floors, manufacturing collapsible tubes, 35 persons, 32 persons and 14 persons, respectively; proposed occupancy —1st floor, 35 persons; 2nd floor, 45 persons; 3rd floor, 80 persons—same use—manufacturing collapsible tubes; that the building is equipped with an approved one-source sprinkler system, standpipe and fire alarm systems and that fire drills are maintained; that there are two interior stairs, one stairway at the northwest corner, marked "Stair A" on plans filed with this appeal, is 3 ft. 8 in. wide, constructed of wood, enclosed with fire-retarded partition on both sides, with #24 gauge sheet metal over ½ in. plaster board, and one stairway, 75 ft. from the southwest corner, marked "Stair B" on plans, constructed of steel and concrete, enclosed in masonry, both lead directly to the street and one extends to the roof bulkhead, construction of doors one and one-half hour, self-closing; that Certificate of Occupancy 60300 was issued May 2, 1930, for use of the building as a factory, with 120 lbs. liveload p.s.f. on each floor and occupancy of 20 persons on 1st floor, 22 persons on the 2nd floor and 4 persons on the 3rd floor; that Permit 6163-29 was issued and work completed May 2, 1930; and

WHEREAS, the applicant contends that the records in the Department of Housing and Buildings indicate that the section of the building at the corner of Diamond and Calyer streets, was erected in 1897 and purchased by the present owner in 1926 and that it has been used continuously for

the same purpose since that time; that in 1928, the building was altered, by enclosing the present wooden stair (indicated as Stair A) on both sides with ½ in. plaster board and 24 in. gauge sheet metal; that in 1929, the building was enlarged by adding a three story extension to the south, which was approved by the Bureau of Buildings and in which there was constructed a steel and concrete stair (indicated as Stair B), enclosed in masonry and so located as to be directly accessible to both the old and new portions of the building; that another Certificate of Occupancy, 62144 was issued October 29, 1930, for this extension, approved for floor loads of 75 lbs. p.s.f. for the 2nd and 3rd floors, the first floor being on the ground and all permitted for factory throughout; that as to objection 9, the Borough Superintendent questions the construction of Stair "A" as to compliance with the Labor Law, under Section 270; and as to objection 10, that the openings consist of conveyors, indicated on the drawings as Nos. 1 and 2; Conveyor #1 extends from 2nd to 3rd floors only and it would be difficult to enclose it, because of the wood floor construction; that it is proposed to construct the necessary guard rails and slatted fire doors at the floor, as called for in Section 10.13.2 of the Building Code; that Conveyor #2 extends from the 1st to the 3rd floors and it is proposed to protect this with self-supporting angle iron construction with 20 gauge sheet metal and fire doors at each opening; and

WHEREAS, it appears that the section of the frontage of 40 ft., used in conjunction with this plant to the south, is separated from the balance of the factory by fireproof, self-closing doors on the ground and second floors.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 271-45, and that the appeal be and it hereby is *granted,* as to objection 9 *on condition* that the existing means of exit as indicated on plans filed with this appeal, marked "Received May 10, 1945" shall be maintained, and in addition, a stairway at the Diamond street side of the southerly building, intended for future office space, shall be continued to the roof with a bulkhead, which may be fire-retarded construction and a fire-retarded passageway stair enclosure constructed on the second floor; that the door, leading to the second story roof from the 3rd floor toward the front, shall be maintained; that the enclosures around stairs "A" and "B" may be maintained, as previously approved by the Department of Housing and Buildings, as stated; as to objection 10, that the openings for conveyors may be maintained as proposed and provided that in all other respects, other than as herein modified, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the one source sprinkler system shall be maintained throughout the building and the standpipe, fire alarm systems and fire drills shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner; that the building shall not be increased in height or area; that the floor loads of 120 pounds per superficial foot per floor shall be maintained throughout the building.

221-41-A

APPLICANT—New York City Housing Authority, owner.

SUBJECT—Application for consideration—reopening and amendment—re Appeal from an order of the fire commissioner (previously granted on condition).

PREMISES AFFECTED—107-60 159th street and north side of 108th avenue, 30 ft. east of 158th street (Block 10137, Lots 1, 9, 10 and 11), Jamaica, Borough of Queens.

APPEARANCES—
For Applicant: John P. Riley.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (221-41-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 107-60 159th street and north side of 108th avenue, 30 ft. east of 158th street (Block 10137, Lots 1, 9, 10 and 11), Jamaica, Borough of Queens), was granted by the Board on April 1, 1941, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 1, 1941, only so far as it has reference to the number of children in the day nursery, so that as amended, the resolution shall read:

"*Resolved,* that the order of the fire commissioner, No. 6100-LF, Item No. 1, be and it hereby is *modified,* and that the appeal be and it hereby is *granted on condition* that the premises shall be maintained as proposed; that at all times during school hours the building shall be under the supervision of a sufficient number of trained attendants; that the existing exits from that portion of the building in which the day nursery is maintained shall be equipped with approved panic bolts with doors opening outwardly; that a periodic fire drill shall be maintained; that a telephone of the non-coin type with direct connection shall be installed on the premises in a conveniently central location available at all times with a sign posted giving the telephone number of fire headquarters.

Resolved further, that the premises shall be maintained as proposed, except that the number of children may be increased to not over 65, * * * and that other than as herein *amended,* the conditions of the resolution of April 1, 1941, shall be complied with."

175-43-S

APPLICANT—Arthur Ellins, for Federal Machine & Tool Company, lessee (Myron Realty Corporation, owner).

SUBJECT—Application for consideration—reopening and extension of variance—re Variation of the labor law as cited in a decision of the borough superintendent.

PREMISES AFFECTED—382 Lafayette street, west side, 74 ft. south of East 4th street (Block 531, Lot 11), Borough of Manhattan.

APPEARANCES—

THE VOTE TO REOPEN, AMEND RESOLUTION AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (222-41-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting in a business use district, for a term of two years, the conversion of occupancy of a stable for five horses to a stable for nineteen horses, affecting premises 918-922 Clove road, west side, 330 ft. south of Empress avenue (as extended); (Block 323, Lot 50), West New Brighton, Borough of Richmond, was granted by the Board on June 24, 1941, on certain conditions; and

WHEREAS, the permit was extended on June 29, 1943 and the applicant requested a further extension of the permit and an amendment of the resolution, based on a decision of the borough superintendent, acting on B.N. 190-4.5, which reads:

"1. A stable for 30 horses in a residential use district, is contrary to Article 2, Section 3 Zone Resolution. Also change from 20 to 30 horses is contrary to the Board of Standards and Appeals Cal. 222-41-BZ, which was extended June 29, 1943 to June 29, 1945."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 24, 1941, in so far as it has reference to the term of the permit, and as to the number of horses permitted, so that as amended, the resolution shall read:

"Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7e for a term of two (2) years from the date of this *amended* resolution, to permit the building as indicated on plans filed with this application to be occupied for more than five (5) horses, *on condition* that such horses shall be for riding purposes only and that at no time shall there be more than *thirty* (30) horses; that the building shall not be increased in height or area; that any signs erected facing the park advertising the renting of saddle horses shall be subject to the approval of the Commissioner of Parks; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto."

176-42-BZ

APPLICANT—Street and Adikes, for Boulevard Housing Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7d of the zoning resolution, permitting in a residence use district, the use of a plot of ground as a recreational area for the tenants of a building not located on the same lot with the proposed use.

PREMISES AFFECTED—56-39 to 56-51 30th avenue, north side, 100.78 ft. east of 56th place (Block 1024, Lot 8), Woodside, Borough of Queens.

APPEARANCES—

For Applicant: Walter Adikes.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (176-42-BZ)

WHEREAS, this application under section 7d of the zoning resolution, permitting in a residence use district, the use of a plot of ground as a recreational area for the tenants of a building not located on the same lot with the proposed use, affecting premises 56-39 to 56-51 30th avenue, north side, 100.78 ft. east of 56th place (Block 1024, Lot 8), Woodside, Borough of Queens, was granted by the Board on May 5, 1942, on certain conditions; and

WHEREAS, time to obtain permits and complete the work, was extended on June 6, 1944 and the applicant requested a further extension for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 5, 1942, only so far as it has reference to obtaining permits and completing the work, so that as amended, this portion of the resolution shall read:

"Granted under section 7d of the zoning resolution, to permit the plot to be occupied as a playground, *on condition* * * * that all permits required shall be obtained and all work completed within one year from the date of this *amended* resolution, and that other than as herein *amended,* the conditions of the resolution of May 5, 1942, shall be complied with (Misc. Applic. 11427-41)."

90-43-BZ

APPLICANT—Cafiero and Lacerenza, for Agnes Barth, owner.

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7i of the zoning resolution, permitting in a business use district, the maintenance of a motor vehicle repair shop for a temporary term of two (2) years.

PREMISES AFFECTED—1688 St. Marks avenue (rear), southeast corner of Rockaway avenue (Block 1461, Lot 11), Borough of Brooklyn.

APPEARANCES—

For Applicant: Christine Cascio.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (90-43-BZ)

WHEREAS, this application under section 7i of the zoning resolution, permitting in a business use district, for a term of two years, the maintenance of a motor vehicle repair shop, affecting premises 1688 St. Marks avenue (rear), southeast corner of Rockaway avenue (Block 1461, Lot 11), Borough of Brooklyn, was granted by the Board on May 25, 1943, on certain conditions; and

WHEREAS, the applicant requested an extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on May 25, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"Granted under section 7i to permit the premises to be occupied for motor vehicle repairing for a term of two (2) years from the date of this *amended* resolution, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of May 25, 1943, shall be complied with and that a certificate of occupancy shall be obtained."

390-19-BZ

APPLICANT—Lama and Proskauer, for Edward Brodlieb, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the commissioner of buildings) previously granted on condition, under section 7g of the zoning resolution, permitting in a business use district, the extension of store use now in existence in a garage previously granted by the Board.

PREMISES AFFECTED—6902-6912 Fourth avenue, southwest corner of Bay Ridge avenue (Block 5872, Lot 42), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Request to reopen withdrawn.

THE VOTE TO WITHDRAW REQUEST TO REOPEN—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

MATERIAL SUBMITTED FOR APPROVAL

503-40-SM

APPLICANT—A B C Kalamein Door Co., for Irving Sternberg, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution to include additional manufacture—re Approval of A.B.C. One and One-Half Hour Kalamein Door, previously approved on condition.

APPEARANCES—

For Applicant: Morris Dorf.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative 0

THE RESOLUTION (503-40-SM)

WHEREAS, the A.B.C. Kalamein Door Company, owner, filed on May 10, 1940, an application with the Board of Standards and Appeals, for approval of the material known as the A.B.C. One and One-Half Hour Kalamein Door; and

WHEREAS, this material was approved by the Board on September 17, 1940, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, to permit the manufacture of this door under the name of the Acme and Dorf Metal Door Company.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on September 17, 1940, by adding thereto:

"* * * that at the request of the applicant the A.B.C. One and One-Half Hour Door Company, this opening protective assembly may be manufactured by the Acme and Dorf Metal Door Company in their premises at 1348-52 Southern boulevard, Bronx, New York, provided all of the requirements of this resolution and the Report of the Committee on Tests embodied therein are complied with."

Adjourned: 4:45 P. M.

JOSEPH J. DOYLE, Chief Clerk.

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

Opening Protective Assemblies, Rules for Inspection of Insulating Fibre Board Rules.

COURT DECISION

Matter of Cities Service Oil Co. vs. Murdock—The premises are located at 3504-3510 Boston Road, southeast corner of Eastchester Road. In 1927, a temporary variance for two years was granted to permit erection of a gasoline station under Cal. No. 626-26 BZ. The variance was extended to expire April 29, 1931. Thereafter, no application was filed for continuance until 1935, when the variance was again granted for two years, expiring January 15, 1937. A request for further extension was denied on December 14, 1937, based on a report of Committee.

Upon court review, the denial of the Board was sustained at Special Term, Supreme Court, by Mr. Justice McGeehan (People ex rel Richel vs. Murdock, N. Y. Law Journal, January 24, 1940). This decision was affirmed by the Appellate Division of the First Department but a stay was granted and leave to appeal to Court of Appeals (N. Y. Law Journal, May 17, 1941). The Court of Appeals, however, refused permission to appeal to that court and denied a further stay (N. Y. Law Journal, June 14, 1941).

On June 2, 1942, the Board again denied an application brought under Section 7, subdivision F. Later, the property having been taken over by the Cities Service Oil Co. from Richel, an application for rehearing was made by George H. Cohn as counsel, and the Board denied a rehearing on September 15, 1942, in the absence of substantial new facts. This decision was subject to court review and has been sustained by Mr. Justice Wasservogel, at Special Term, Bronx County, the court stating:

> "The Board of Standards and Appeals having rendered its decision was powerless to reopen the proceeding except upon a showing of new facts. On the record herein there was not a showing of new facts warranting a reopening of the proceedings and the board was thoroughly justified in denying the application to review its initial determination. Motion to dismiss granted."

(N. Y. L. Journal, February 18, 1944).

Appellate Division, Supreme Court, First Department, unanimously affirmed Special Term's decision, sustaining the Board's determination, with $20 costs and disbursements. No opinion (N. Y. L. J. June 9, 1945, page 2220).

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

JUNE 12, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning, June* 12, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications.

531-37-BZ—Application of Joseph Mosgoffian, applicant and lessee, on behalf of Annie Zins, owner, reopened May 15, 1945, for consideration as to extension of variance—Application, previously granted on condition, under section 7h of the zoning resolution, for a temporary period of two years, permitting in a business use district, the parking and storage of more than five motor vehicles; premises 23-28, 23-30 and 23-32 30th avenue, south side, 91.83 ft. west of Crescent street (Block 572, Lots 37 and 38), Astoria, Borough of Queens.

459-44-BZ—Application, July 21, 1944, under sections 21 and 7c of the zoning resolution, of Arnold W. Lederer, applicant on behalf of Mary L. Richardson, owner, to permit in a business use C area district, manufacturing in excess of the permitted area; premises 1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn.

786-42-BZ—Application of Chester A. Cole, applicant, on behalf of O. J. Heinzmann, owner, reopened May 22, 1945, for consideration as to extension of variance—Application, previously granted on condition, under section 7e of the zoning resolution, for a term of two years, permitting partly in a residence use and partly in a local retail use district, the alteration and conversion of occupancy of an existing building to a factory (tool shop); premises 8 Crabtree avenue, southwest corner of Bloomingdale road (Block 7092, Lot 61), Rossville, Borough of Richmond.

114-28-BZ—Application of Edward A. Brown, applicant, on behalf of Zimtbaum & Horowitz, owners, reopened May 22, 1945, re amendment of resolution—Application, previously granted on condition, under sections 7e and 21 of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 109-07 to 109-17 101st avenue (4453-4459 Jerome avenue), north side, 50 ft. west of 110th street (Block 460, Lots 53-55), Richmond Hill, Borough of Queens.

26-45-BZ—Application, January 17, 1945, under section 7f of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Harold S. Rogers, owner, to permit in a retail use D area district, and adjoining a residence use district, the erection of a gasoline service station, office, lubritorium, car washing laundry, and, also the omission of the required rear yard; premises 468-478 Forest avenue and 9 City boulevard, southeast corner (Block 259, parts of Lots 1 and 6), West Brighton, Borough of Richmond.

222-45-BZ—Application, April 12, 1945, under section 21 of the zoning resolution, of Jules Lewis, applicant, on behalf of Abgus Realty Corp., owner, to permit in an unrestricted use B area district, the omission of a loading space, as required by section 19a, in a building changed from its present use as a garage to its former use as a factory; premises 461-467 10th avenue and 500-504 West 36th street, southwest corner (Block 707, Lot 39), Borough of Manhattan.

546-44-BZ—Application, September 26, 1944, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Ida Siegal, owner, to permit in a business use district, the erection of an extension to office building of an existing gasoline service station for a car laundry and to house grease lift; premises 822-828 4th avenue and 159-165 29th street, northwest corner (Block 664, Lot 37), Borough of Brooklyn.

836-22-BZ—Application of Harry Hurwit, applicant, on behalf of Flo-El Realty Corp., owner (L. & J. Caterers, Inc., lessee), reopened January 23, 1945, under section 7b of the zoning resolution, to permit in a building partly in a business use and partly in a residence use district, the change of occupancy from a theatre and stores (previously granted by the Board) to catering, meeting rooms, ballrooms and stores; premises 85 West Burnside avenue and 2041 Harrison avenue, northwest corner (Block 3210, Lot 65), Borough of The Bronx.

210-45-BZ—Application, April 5, 1945, under section 21 of the zoning resolution, of Joel D. Marder, applicant, on behalf of The Fifth Avenue Bank of New York, owner, to permit in a retail and restricted retail use B area district, the erection of an extension to a bank building occupying more than 65% of the lot area; premises 1-5 West 44th street, north side, 100 ft. west of 5th avenue (Block 1260, Lot 34), Borough of Manhattan.

Appeals from Administrative Decisions

211-45-A—1-5 West 44th street, north side, 100 ft. west of 5th avenue (1st floor); (Block 1260, Lot 34), Borough of Manhattan.

130-45-A—42 West 13th street, south side, 100 ft. east of 6th avenue (3rd floor); (Block 576, Lot 16), Borough of Manhattan.

178-45-A—1068 Flatbush avenue, west side, 86.1½ ft. south of Beverly road (cellar); (Block 5152, Lot 11), Borough of Brooklyn.

CALENDAR

Negative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn 3

THE RESOLUTION (772-41-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting the extension of an existing laundry building, from a local retail use district into a residence use district, affecting premises 427 Ralph avenue and 1815-1817 Bergen street, northeast corner (Block 1445, Lots 1, 67 and 68), Borough of Brooklyn, was granted by the Board on December 2, 1941, on certain conditions; and

WHEREAS, the resolution was amended on January 13, 1942 and February 3, 1942 and time to obtain permits and complete the work, was extended on March 30, 1943 and on March 21, 1944; and

WHEREAS, the applicant requested a further amendment of the resolution, to permit under sections 7c and 21 of the zoning resolution, the extension of an existing laundry building, from a local retail into a residence use district, the area of proposed building exceeding that permitted in a C area district, affecting premises 427 Ralph avenue and 1815-1823 Bergen street, northeast corner (Block 1445, Lots 1, 64, 65, 66, 67 and 68) Borough of Brooklyn; and

WHEREAS, this case was reopened by vote of the Board on November 8, 1944, subject to the usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting June 5, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Ralph avenue is in a local retail and residence use, C area and Class 1 height district; Bergen street is in a residence, local retail use, C area and Class 1 height district, and Dean street is in a local retail and residence use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated December 15, 1944, re Alt. Applic. 3057-44, reads:

"1. New construction within residential zone for laundry use is contrary to Art. II, Sec. 3 of zone resolution. Area of building excessive for "C" area zone—contrary to Art. IV, Par. 13 of zone resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 25 ft. by 185⅓ ft. by 107 ft. irregular in area, on which is now located a 1 story and cellar building, 25 ft. by 100 ft., occupied as a laundry and boiler room in the cellar and laundry on the 1st floor and five frame dwellings and that it is proposed to demolish the frame dwellings and erect a 1 story and cellar extension to the laundry, 85 ft. 4 in. by 97 ft. in area; and

WHEREAS, the applicant contends that the plot at present is developed with a 1 story and cellar laundry on the corner and five dwellings on Bergen street; that it is proposed to modernize the existing laundry, in conformity with the present trend of self-service; that the legal laundry occupancy in the cellar is to be transferred to the new extension on the 1st floor; that the ironing section now in the main building is also to be located in the new extension, thereby decreasing the prohibited use in the retail district; that the existing laundry has a frontage of 25 ft. on Ralph avenue and faces the new Kings-Boro Housing project, which is now fully opened; that this laundry will in a great measure, serve these persons of limited means and does not require trucking facilities; that the neighborhood is not one that is identified with developments commensurate with its zone classification; that a fire house is located on Block 1445, Lot 2, immediately adjoining these premises and non-descript uses surround the site, such as a parking lot and wood cutting on Block 1451, Lots 14 and 17; that the retail store is to be fitted up similar to a hotel lobby, with counters and chairs provided for patrons; that the exterior of the project will be treated in a tasteful manner as the Board may direct; that the granting of this application will improve the appearance and nature of the present use; that it will serve a public need without materially infringing on a more restricted district; that unnecessary hardships would be caused if the owners are prohibited from expanding in a section that has reached the pinnacle of development; that the legal cellar occupancy laundry work is to be discontinued; that five obsolescent frame buildings on the site will be replaced with a one story glistening light colored structure; that this particular section is populated by low income groups, as shown by the housing development and that a low cost laundry by self-service will have a tendency to improve the living status of these groups; that the project opposite these premises is completed and a great percentage of the occupants use the facilities of this laundry; that the housing projects in the near vicinity, caused the demolition of at

least five large laundries, one at Stone and Blake avenues and two on Osborne street and two on the opposite side and because of war conditions and zoning regulations, the laundries are overtaxed; that this laundry washes clothes with chlorine disinfectants, thereby improving the public health; that the machinery in the new extension is to be run by steam, electric and air pressure; that at the present time, there is a lease with the owner of 433 Ralph avenue expiring in 11 months; that if this variation is granted, the extension of use to 433 Ralph avenue will be discontinued; that the present investment in plant and machinery amounts to over $77,000 and after 25 years of service, the extension is necessary in order to protect this investment; that inasmuch as the building is to be one story in height, it is requested that a 10 ft. rear yard be accepted in lieu of the 15 ft. requested previously in the original resolution; it is therefore respectfully requested that this application be granted under any conditions that the Board sees fit to impose; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision c, as to use of the zoning resolution; and

WHEREAS, the Board deemed that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution and is therefore not entitled to relief, as to a variance of area.

Resolved, that the decision of the borough superintendent, dated December 15, 1944, on Alt. Applic. 3057-44, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

46-45-BZ

APPLICANT—Reuben Siskin, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use district, the extension of the factory use in an existing factory building, so as to be in excess of the lot area.

PREMISES AFFECTED—1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn.

APPEARANCES—

For Applicant: David E. Toplitz and Reuben Siskin.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (46-45-BZ)

WHEREAS, Reubin Siskin, owner, filed February 1, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a business use district, the extension of the factory use in an existing factory building, so as to be in excess of the lot area, affecting premises: 1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 5, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Fulton street and Bedford avenue are in a business use, B area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated January 19, 1945, re Alt. Applic. 2675-44, reads:

"Construction.

1. Proposed factory use on 3rd floor resulting in factory use of greater than lot area, is contrary to Article II, Section 4c of the zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 118 ft. 4 in. by 88 ft. 11 in. by 93 ft. 6 in. by 35 ft. 1½ in., on which is located a 3 story (45 ft. high), Class 3 constructed building, 88 ft. 11 in. by 118 ft. 4 in. occupied on the 1st story as stores, 2nd story, factory, 3rd story, vacant and that it is proposed to occupy the 1st floor as stores, 2nd floor, light manufacturing, 3rd floor, light manufacturing; and

WHEREAS, the applicant contends that the premises in question is a three story structure, the first floor consisting of nine stores, the second floor is occupied for factory use, and the third floor, the use of which is the basis of this application, is now unoccupied; that the floor plan of the proposed use of the third floor area shows an intention on the part of the applicant to use no more than two-thirds of that floor area for factory space; that the 2nd floor plan filed with this application shows only about 75% of the 2nd floor area being used for factory space (the rest of the floor area being devoted to show room and office space); that the third floor was at one time being used for factory purposes, but when the second floor was rented, the third floor had to be vacated, because of zoning regulations; that the applicant cannot carry the overhead of this building and will sustain a loss in operation of the building every year, unless he is able to rent the third floor for factory use; that the third floor as it is now constructed, cannot be rented for residence use, due to the fact that alterations are prohibited by wartime regulations and additionally, the neighborhood is becoming rapidly a loft, factory and commercial district and it is difficult to rent apartments; that many buildings are boarded up and in disuse, while others are only being partly occupied; that since the formulation of the zoning regulations applicable to the building in question, the neighborhood has rapidly deteriorated as a residential district and its character has completely changed; that the only purpose for which the third floor can be rented is for factory use and the ability of the applicant to do so, will enable him to prevent an operation loss on the building; that the request of the applicant is not unreasonable, as granting of this application would allow him to use only about 40% more space than the regulations now allow; that however, the difference between the amount permitted by the regulations and that requested by this applicant, is the difference between the ability to rent and not to be able to do so; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7c of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted,* under section 7c thereof, to permit the extension of factory use to the third floor, as proposed, *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 324-45-A; that the building shall not be increased in height or area; and that all permits required shall be obtained and all work involved shall be completed within one (1) year from the date of this resolution.

162-45-BZ

APPLICANT—Richard Shutkind, for Jack Altman, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use G area district, the erection of a one-car garage and shower building, increasing the occupied lot area in excess of 35% and not providing the required 15 ft. rear yard and 5 ft. side yard.

PREMISES AFFECTED—228 Beach 148th street (rear), east side, 90 ft. south of Neponsit avenue (Block 753, Lot 42), Rockaway Beach, Borough of Queens.

APPEARANCES—
For Applicant: Richard Shutkind, Herman Brasch and Jack Altman.
For Opposition: John P. White.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application granted on eondition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (162-45-BZ)

WHEREAS, Richard Shutkind, for Jack Altman, owner, filed March 21, 1945, an applieation under section 21 of the zoning resolution, to permit in a residence use, G area district the erection of a one-car garage and shower building, increasing the occupied lot area in excess of 35% and not providing the 15 ft. rear yard and 5 ft. side yard required; affecting premises: 228 Beach 148th street (rear), east side, 90 ft. south of Neponsit avenue (Block 753, Lot 42), Rockaway Beach, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 5, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Beach 147th and Beach 148th streets, Neponsit avenue and Rockaway Beach boulevard are in residence use, G area and Class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 6, 1945, re N.B. Applic. 332-44, reads:

"1. Proposed garage and shower room increases area occupied on plot which is contrary to section 16B subdivision e of B.Z.R.

2. Provide proper side yard and rear yards, as per section 16B, subdivision C of B.Z.R.

3. Shower room and dressing room contrary to sect. 16B, subdivision d of B.Z.R."

and

WHEREAS, the applicant states the premises consist of a plot, 50 ft. frontage by 100 ft. in depth, on which is located a one-story part cellar frame, Class 4, residence, 36 ft. 8 in. by 44 ft. 8 in. and that it is proposed to erect at the rear of the plot, a one-story, Class 3, constructed building, 12 ft. by 19 ft., to be occupied as a private garage for one car and for shower and dressing rooms; and

WHEREAS, the applicant contends that the one-story and part cellar frame residence, existing on front of the plot, was originally erected about 1919; that the total building at present covers 1671 sq. ft., which equal about 33-2/5% of plot, which is 50 by 100 ft.; that the area designation affecting this plot was changed July 24, 1939, from E to G area; that it is proposed to erect a one-story concrete block garage for one car, located at the rear of the plot, with a shower and dressing rooms attached of glass block construction, total size of new structure, 12 ft. by 19 ft., for accessory use of the existing residence on the front of the lot; that this proposed structure will cover an area of 228 sq. ft. and the combined area of present residence and new garage will total 1899 sq. ft., equalling 37-4/5% of plot; that the area to be oceupied will exceed by 2-4/5%, the 35% limit in a G area district; that the proposed structure as located on the plot, will not affect the light and ventilation of this or adjoining properties, and the garage as located, follows the general arrangement now existing in the surrounding neighborhood; that the owner desires to use the premises as his permanent year-round home and the necessary changes are now in progress for this purpose; that since his business is in New York City and is in connection with meat provisions and marketing, his presence is required at an early hour and he will have to leave each morning at 4 A. M.; that the only means of transportation available at such time would be his private ear; that there are no public garages in this locality and it would be unlawful for him to park the car in the street; that it would be a great hardship for the owner to maintain this residence for his permanent use and attend to his business without the use of his car and the proposed garage; that any other arrangement, such as raising present building and changing grade levels to permit construction of a garage in the lower story of the present building, would involve extreme hardship and extensive alterations at prohibitive cost and create a serious problem as to drainage of the lower grade levels, due to proximity of water conditions; that the garage is located at the southerly lot line, so as to be directly opposite the driveway and avoid damage to the residence and the car when driving in or backing out; and

WHEREAS, the Board deemed that the excess in area is unsubstantial and that the private accessory garage for one car and shower facilities, should be permitted and that the applicant had substantiated a basis of appeal under section 21 of the zoning resolution and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution, and that the application be and it hereby is *granted, on condition* that the structure as proposed, shall not exceed the dimensions as indicated on plans filed with this application marked "Received March 21, 1945"; that the construction of the wall on the lot line, shall be finished in stucco and there shall be no windows on the lot line; that the building and occupancy of all buildings on the premises shall comply with all laws, rules and regulations applicable thereto and that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

298-45-BZ

APPLICANT—S. J. Kessler & Sons, for 1523-1529 63rd Street Corporation, owner (Air King Produets Co., Inc., lessee).
SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a C area, unrestricted use district, the erection of a 3rd story to a building, plans for two stories of which have been approved, the 3rd story exceeding the area of coverage permitted by the zoning resolution.
PREMISES AFFECTED—6201-6223 15th avenue, east side, from 62nd to 63rd streets (Block 5530, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: S. J. Kessler and J. Lieberman.
For Opposition: Margaret Guardala.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (298-45-BZ)

WHEREAS, S. J. Kessler & Sons, for 1523-1529 63rd Street Corporation, owner (Air King Products Company, Inc., lessee), filed May 17, 1945, an application under section 21 of the zoning resolution, to permit in a C area, unrestricted use district, the erection of a 3rd story to a building, plans for two stories of which have been approved, the 3rd story exceeding the area permitted by the zoning resolution; affecting premises 6201-6223 15th avenue, east side from 62nd to 63rd streets (Block 5530, Lot 1), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 5, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 15th avenue, 62nd and 63rd avenues are in an unrestricted use, C area and Class 1 height district;

and

WHEREAS, the decision of the borough superintendent, dated April 19, 1945, re N.B. Applic. 21-42, reads:

"1. Proposed area of structure at 3rd floor exceeds allowable maximum area of 23,100 sq. ft. as permitted by Art. IV, Sec. 13b, zoning resolution. Area of proposed structure below 3rd floor is acceptable, on basis of this department's original approval, prior to recent zone law change."

and

WHEREAS, the applicant states the premises consist of a plot, 200 ft. frontage by 180 ft. in depth, on which is located a 2 story, Class 1 constructed factory building, 200 ft. by 35 ft. in area; plans having been approved for a two story building, 200 ft. by 180 ft. in area and that it is proposed to add a 3rd story, covering the entire area of the lot and a pent house, centrally located, on the 15th avenue front; and

WHEREAS, the applicant contends that plans for a two story and cellar, non-fireproof building, 180 ft. by 200 ft. were prepared for this property and approved by the Department of Housing and Buildings in 1942 under N.B. Applic. 21-42; that a section of the building was erected, when on or about June, 1942, work was suspended by direction of the W.P.B.; that the excavated portion of the plot was back filled and enclosed with a wire fence and the building erected, was made serviceable in connection with applicant's war work; that the W.P.B. granted permission to install one elevator, later a heating plant, and at the present time, a sprinkler system is being installed; that in June, 1944, plans were prepared for a 3 story fireproof structure, and to amend N.B. Applic. 21-42; that while plans were being prepared, inquiries were made at the W.P.B., as to applicant's status, and after much delay, a letter was written to the Department on October 31, 1944, asking if this building operation could be considered as continuous; that the building was incomplete and so recorded by the Department of Housing and Buildings; that work was only suspended because of critical materials needed, and to help the war effort; that on November 6, 1944, the W.P.B. advised of the filing of an application, since allotments of materials and some priorities would be required; that Applic. 617 was filed with the W.P.B., for permission to build a 2 story fireproof building and at the same time, Applic. 21-42 was amended and revised plans filed with the Department of Housing and Buildings; that the plans were disapproved by the Department of Housing and Buildings, because the proposed structure did not conform with the new zoning law; that this was modified however, to the area of the structure as originally proposed, namely a two story building, but the third story was required to conform with the new zoning law; that the use of the entire top floor area is needed for assemblying and to deny the use of this floor space at this time, would work a serious hardship upon the owner; that the purchase of this property and expansion program was predicated upon the availability of a floor space to accommodate the assembly plant; that completion of the building was prevented by the U. S. Government; that the Air King Products Company is engaged in 100% war work since 1942 and will occupy the entire new building when completed; that they now occupy the section of the building that has been erected as well as the adjoining buildings; that an examination of the approved plans on file in the Department of Housing and Buildings and from the structure now in place, there is indication that an additional story was even then intended; that the wall footings, wall thicknesses, the stair extending to the 2nd story roof, column sections and roof framing all appear to indicate preparation for a 3rd story; that it is respectfully requested, the Board grant permission at this time to complete this three story and pent house building as submitted to the Department of Housing and Buildings; and

WHEREAS, the Board deemed that the applicant had substantiated a basis to warrant exercise of discretion to grant under section 21 of the zoning resolution, and is therefore entitled to relief on the grounds of practical difficulty and unnecessary hardship, inasmuch as no additional lot coverage at curb is proposed.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted,* to permit the construction of a third story and pent house over the area of the plot as indicated on plans filed with this application marked "Received May 17, 1945", *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased further in height, unless in compliance with the requirements of the zoning resolution; that all permits shall be obtained and all work completed within one year from the date of this resolution.

APPEALS FROM ADMINISTRATIVE DECISIONS

311-45-A

APPLICANT—The Barrett Division of Allied Chemical and Dye Corp., owner.

SUBJECT—Appeal from an order of the fire commissioner re Transportation of Coal Tar Road Materials in Tank Truck in New York City (capacity of tank not in conformity with Administraitve Code requirements, governing Tank Truck).

APPEARANCES—

For Applicant: Joseph Woodcock.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal withdrawn by applicant, after discussion.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

741-44-A

APPLICANT—McCrory Stores Corporation, lessee, for Wilmack Realty Co., Inc., owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—502-506 Fulton street, south side, 40 ft. east of Bond street and 16-20 Hanover place (Block 160, Lot 7), Borough of Brooklyn.

APPEARANCES—

For Applicant: Wm. Simpson.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal dismissed as being improperly before the Board.

THE VOTE TO DISMISS—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (741-44-A)

WHEREAS, McCrory Stores Corporation, lessee, for Wilmack Realty Co., Inc., owner, filed on December 21, 1944, an appeal from a decision re an order of the fire commissioner, affecting premises 502-506 Fulton street, south side, 40 ft. east of Bond street and 16-20 Hanover place (Block 160, Lot 7), Borough of Brooklyn; and

WHEREAS, a decision of the fire commissioner, dated November 14, 1944, refers to order 97328-LC, dated June 23, 1944, which reads:

"8. Provide an ammonia mixer in accordance with the requirements of C19-103, O-c, Administrative Code."

and

WHEREAS, Order 97328-LC, was rescinded by the Division of Combustibles of the Fire Department on November 30, 1944, prior to the filing of this appeal.

Resolved, that the appeal be and it hereby is dismissed, as being improperly before the Board.

54-45-A

APPLICANT—Ervin Palmer, for Weatherguard Products Corporation, owner.

SUBJECT—Appeal from an order of the fire commissioner and decisions of the borough superintendent.

PREMISES AFFECTED—564 and 566 Jackson avenue, east side, 75.10 ft. north of East 149th street (street floor); (Block 2641, Lots 4 and 5), Borough of The Bronx.

APPEARANCES—

For Applicant: Ervin Palmer.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (54-45-A)

WHEREAS, Ervin Palmer, for Weatherguard Products Corporation, owner, filed February 5, 1945, an appeal from an order of the fire commissioner and decisions of the borough superintendent, affecting premises 564 and 566 Jackson avenue, east side, 75.10 ft. north of East 149th street (street floor); (Block 2641, Lots 4 and 5), Borough of The Bronx; and

WHEREAS, Order 40137-LC, issued by the fire commissioner January 6, 1945, reads:

"With reference to your application dated December 7, 1944, for a permit to manufacture an inflammable and a combustible mixture at the above location, I regret to inform you that this department is without power to grant such a permit for the reason:

Report of city testing laboratory shows washing solution is combustible mixture, Dur-o-lastik and tar asphalt are inflammable mixtures and whereas, Section C19-62.0-a, Article 10 and Section C19-59.0-B-1 of the New York City Administrative Code prohibits the issuance of such permit for any building which is situated within 50 ft. of the nearest wall of any building, occupied as a place of public amusement or assembly and, whereas, auditorium of the church of St. Roch's is within fifty feet.

YOU ARE THEREFORE, HEREBY, ADVISED TO:

1. Discontinue the manufacture of a combustible or an inflammable mixture on these premises. Sec. C19-61.0—Article 10 and C19-58.0, Article 9, Administrative Code.

NOTE: Among other reasons that would prevent the issuance of permit are the following: There is no evidence that the Department of Housing and Buildings has issued a certificate of occupancy to cover manufacturing at this location. The absence of facilities to carry on such manufacture as required by Art. 9 of the Administrative Code."

and

WHEREAS, the decision of the borough superintendent, dated April 3, 1945 F. P. Applic. 24-45, affecting 566 Jackson avenue, reads:

"3. It is unlawful to store inflammable mixtures in a building within 50 ft. of a place of assembly. (C19-59 Adm. Code.)"

and

WHEREAS, the decision of the borough superintendent dated April 3, 1945 on F. P. Applic. 25-45, affecting 564 Jackson avenue, reads:

"3. It is unlawful to manufacture inflammable mixtures within 50 ft. of a wall of a public building. (C19-59 & 62 Adm. Code.)"

and

WHEREAS, the decision of the borough superintendent dated April 24, 1945, on Alt. Applic. 87-45, affecting 564 Jackson avenue, reads:

"4. It is unlawful to manufacture inflammable mixtures in a building within 50 ft. of a place of assembly. C19-59.0 and 62 Adm. Code. Reconsideration denied."

and

WHEREAS, the decision of the borough superintendent, dated March 27, 1945, on N.B. Applic. 181-44, affecting 566 Jackson avenue, reads:

"18. It is unlawful to store inflammable mixtures in a building within 50 ft. of a place of public assembly. (C19-59 & 62)."

and

WHEREAS, the applicant states that the building in question is 2 stories (40 ft.) in height; 25 ft. by 104 ft. in area at 1st floor; 25 ft. by 60 ft. in area at typical floor; of Class 3 construction; erected prior to 1900; located in a business use, B area, Class 1½ height district, and used and occupied since 1938 as follows: cellar, storage of containers or roofing cement; 1st floor, manufacturing of roofing cement, 10 persons; 2nd floor, office, 6 persons; 3rd floor, vacant; that no change in use or occupancy is proposed; that the building is equipped with one three ft. wide wood stairs, brick enclosed, equipped with fireproof, self-closing doors and extending directly to the street; that a ladder and scuttle to the roof is provided; that the building is also equipped with one fire escape at the front, extending to the street by a ladder; that windows and doors on the course of the fire escape are not fireproof, self-closing; that this building is numbered 564 Jackson avenue; that it is also proposed to erect at 566 Jackson avenue, located partly in an unrestricted use and partly in a business use district, a one story storage building and to install one 6,000 gallon cut back high flash point asphalt storage tank, three 1500 gallon, low flash point, cutback asphalt storage tanks and two 550 gallon kerosene tanks, 2 ft. below floor level; that all tanks to be vented to the roof; and

WHEREAS, Certificate of Occupancy 68, issued December 6, 1933, for premises—east side of Jackson avenue, 75.10 ft. north of 149th street, permitted the use of the three story building of brick construction; located in an unrestricted use district as follows: 1st floor, concrete on earth, junk shop, 1 employee; 2nd and 3rd floors, vacant; and

WHEREAS, the applicant states that the washing solution referred to in Order 40137-LC, is a varnish solution, which is not mixed in any manner on these premises; that this solution is received in 55 gallon drums; that the contents are drawn through a spigot into one gallon cans, sealed airtight and sold; and

WHEREAS, the applicant contends that the owner produces Dur-o-Lastik, a roofing cement which is manufactured at 564 Jackson avenue; that it is a three story brick building at the first story, constructed of steel girders and brick arches with fire retarded ceiling and the factory roof concrete deafened; that the first floor is designed for 120 lbs. live load; that the adjoining lot at 566 Jackson avenue, has recently been acquired and a building is under construction, to be used for loading and as storage space; that 564 Jackson avenue has been used as at present, for five years and previously as a garage, automobile repair shop, junk shop, milk depot and bed spring factory; that the owner moved in the building without investigating its right to manufacture there and not until the recent order of the Fire Department, did the question of need for permits arise, using inflammable or combustible materials in the product; that the materials used in the manufacture of Dur-o-Lastik roofing cement are a cut back asphalt, purchased as a liquid solution and delivered from tank trucks to storage tanks on the premises; that to this solution stone dust and asbestos fibre cement are added; that the manufacturing process is as follows: 150 gallons of asphalt solution is pumped into a 250 gallon mixing container to which 800 lbs. of stone dust and 325 lbs. of asbestos fiber cement are added; that the entire procedure lasts 15 minutes and the compound is then drawn off into five gallon containers and sealed air tight; that the mixing takes place cold in a well-ventilated room, equipped with open skylights; and

WHEREAS, the applicant further contends that the processes involved are safe; that all necessary precautions are

exercised; that all combustible materials will be stored underground and more than 50 ft. from the rear lot line; that the only objection which the owner is unable to eliminate, is the distance from St. Roch's auditorium; that the owner would suffer hardship if compelled to seek another location after five years of successful operation; that no heat, fire or flame is used; that there is adequate natural ventilation; that the quantities mixed are small and the mixing time is short; that due to a capillarity, the stone dust and asbestos cement absorb a certain amount of the liquid and act as a retarder and hence a safeguard during the mixing process; that the auditorium building situated on top of a solid rock and its foundation is 14 ft. above the factory floor of the building in question; that there is a distance horizontally of 12½ ft. from the building in question and about 45 ft. from the mixing tank to the nearest wall of the auditorium building, but not to the auditorium wall; that the portion of the auditorium building near the building in question, is an extension, housing a pantry and service bar only; that the stage and auditorium are nearly 75 ft. from the mixing tank and have a protection of 14 ft. of rock between; and

WHEREAS, the owner was convicted and fined in Magistrates Court on a charge of storing combustible mixture without a permit.

Resolved, that the order of the fire commissioner, acting on Order 40137-LC, Item 1, and decisions of the borough superintendent, dated April 3, 1945, acting on F. P. Applic. 24-45, Objection 3, F. P. Applic. 25-45, Objection 3, Alt. Applic. 87-45, Objection 4, and N.B. Applic. 181-44, Objection 18, be and hereby are *modified* and that the appeal be and it hereby is *granted on condition* that the building shall be constructed and arranged substantially as indicated on plans filed with this appeal marked "Received February 5, 1945," except that there shall be no sky light in the roof of either building within a distance of 50 ft. from any portion of the building containing the place of public assembly; that there shall be no openings in the exterior walls of such buildings within 75 ft. of such public assembly building; that the ceiling of the building containing the proposed manufacturing of combustible or inflammable mixtures, shall be fire retarded in accordance with the rules of the Board; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

235-45-A

APPLICANT—Madison Square Garden Corporation, owner.

SUBJECT—Appeal from a decision of the fire commissioner.

PREMISES AFFECTED—311-333 West 49th street, north side, 124 ft. 9⅝ in. west of 8th avenue and 308-348 West 50th street (2nd floor); (Block 1040, Lot 14), Borough of Brooklyn.

APPEARANCES—

For Applicant: R. Donopria and Alexander H. McPhee.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (235-45-A)

WHEREAS, Madison Square Garden Corporation, owner, filed April 19, 1945, an appeal from a decision of the fire commissioner, affecting premises 311-333 West 49th street, north side, 124 ft. 9⅝ in. west of 8th avenue and 308-348 West 50th street (2nd floor); (Block 1040, Lot 14), Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner dated April 4, 1945 reads:

"In reply to your inquiry of March 19th, the installation of three drink dispensers as indicated on attached sketch would be contrary to the refrigerating requirements and therefore not permitted."

and

WHEREAS, the applicant states that the building is 1 story, approximately 130 ft. in height, 375 ft. 2⅜ in. by 200 ft. 10 in. in area, of class 1 construction, erected in 1925, located in a residence use, B area class 1½ height district and used and occupied since December 1925 as follows: cellar—expositions, etc.—3,500 persons; 1st floor—sports arena for athletic contests, concerts, dances, etc.—18,000 persons; that no change in use or occupancy is proposed; that the building is equipped with an approved two source sprinkler system in storage area and basement only, an approved stand-pipe system and an interior fire alarm system; that there are thirty-five interior stairs, located at northeast, southeast, southwest and northwest corners of the building, 5 ft. 1 in. to 15 ft. 9 in. in width, of fireproof construction and enclosure, equipped with self-closing doors at the street; that eight stairs lead directly to the street and a scuttle is provided to the roof; that there are four fire escapes which lead to the street by stairs and that window and door openings on the course of the fire escapes are fireproof, self-closing; and

WHEREAS, the applicant contends that the Frigidrink dispensers have been approved by the Board of Standards and Appeals under Cal. 614-41-SA; that the proposed layout of dispensers on 2nd floor level, indicated on plan filed with this appeal, shows two units to be installed and one future unit, making a total of three; that the location selected in this instance is not in direct passage of patrons going to seats, but is located in a recessed enclosure off the Eighth avenue Crossover Passage which connects the 49th and 50th street sides of the building; that as these units dispense soft drinks in paper cups it will reduce accidents and other hazards, which have been occurring quite frequently, due to our present method of using bottled beverages, which patrons leave in aisles, passages, stairs, etc.; that the area in which these units are to be located is very small compared to the total area of the building, which has a system of ventilation, effecting a complete change of air every twenty minutes; that if necessary, this can be supplemented by an exhaust ventilating system for the immediate area, to increase the air changes should a leak occur in the refrigeration system of the dispensers; that in addition, an attendant of dispensers is always present when the building is open to the public and the premises are under the constant supervision of police and usher attendants; that the mechanical equipment is maintained by a staff of licensed engineers in attendance at all hours of the day and night; that the unit uses Freon gas in small quantity (3½ lbs.) and in the event of a leak, this would produce a small concentration of gas when diluted with the very large volume of circulated air in these premises; that there are no open flames in close proximity of the dispensers; and

WHEREAS, Frigidrink Beverage Dispensing Machine was approved under Cal. 614-41-SA under the provisions of C19-96.0, subd. f, "when installed in accordance with this report and the provisions of the Administrative Code, C19-96f, as supplemented by the requirements of the Fire Commissioner."

Resolved, that the decision of the fire commissioner, dated April 4, 1945, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that not more than three drink dispensers shall be installed as proposed and the location as indicated on plans filed with this appeal, two sheets marked "Received April 19, 1945;" that such space where the dispensers are to be located, as indicated on such plans, shall be ventiliated by means of a duct and electric fan with a duct carried to the roof, as indicated on plan filed at this hearing marked "Received June 5, 1945", *on condition* that the drink dispenser shall be interlocked with the fan electrically, so as to insure the fan operating at all times while the drink dispenser is in operation; that the drink dispensing machine as proposed shall be of a type as approved by the Board and shall be maintained under the

conditions of such approval, other than as herein modified for this installation; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

324-45-A

APPLICANT—Reuben Siskin, owner.
SUBJECT—Appeal from a decision of the borough superintendent
PREMISES AFFECTED—1256-1262 Bedford avenue, northwest corner of Fulton street (Block 2000, Lot 35), Borough of Brooklyn.
APPEARANCES—
For Applicant: David Toplitz and Reuben Siskin.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (324-45-A)

WHEREAS, Reuben Siskin, owner, filed May 26, 1945, an appeal from a decision of the borough superintendent, affecting premises 1256-1262 Bedford avenue, northwest corner Fulton street (Block 2000, Lot 35), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent dated May 16, 1945, on Alt. Applic. 2675-44, reads:

"2. Existing floor load capacity of 100 lbs. does not comply with Section 7.3.2.3, Bldg. Code."

and

WHEREAS, the applicant states the building is 3 stories (45 ft.) in height; 88 ft. 11 in. by 118 ft. 4 in. irregular in area, of Class 3 construction, erected prior to 1914; located in a business use, B area, Class 1¼ height district and used and occupied: cellar, boiler room; 1st floor, stores, 10 persons; 2nd floor, manufacturing dresses, 105 persons; 3rd floor, vacant; proposed to be used and occupied: cellar, same; 1st floor, same; 2nd floor, same; 3rd floor, manufacturing dresses, 75 persons; that the building is not equipped with an interior fire alarm system, but fire drills are maintained; that the building is equipped with one 7 ft. wide wood stairs, enclosed in fire retarded partitions, equipped with metal covered self-closing doors and leading directly to the street and a ladder and scuttle to the roof is provided; that there are two fire escapes, one of which leads to the roof by a stair and the other by a ladder and one to the street by counter-balanced stair and the other to the yard by a counter-balanced stair; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant requested the Board to accept 100 lb. live load in lieu of 120 lbs. as required by Section 7.3.2.3 of the Administrative Code.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 2675-44, objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the capacity of the third floor, proposed to be occupied for factory purposes, shall not be less than 100 lbs. per superficial foot and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 46-45-BZ; and that the requirements of the Labor Law shall be complied with as to the exterior fire escape; that the partition on the third floor, shown on plans filed with the zoning application (Cal. 46-45-BZ) marked "Received February 1, 1945" and separating the space marked "dress factory" from space marked "showroom", shall have an additional door therein located to the east, complying with the requirements, to provide an easier means of access to the fire escape on the Fulton street side; that the floor loads shall be posted and that a certificate of occupancy shall be obtained prior to occupancy.

Adjourned: 2:00 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, JUNE 5, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

735-44-A

APPLICANT—Lama and Proskauer, for Imperial Motors, Inc., owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—164-40 Hillside avenue, southwest corner of 165th street (Block 9814, Lot 34), Jamaica, Borough of Queens.
APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (735-44-A)

WHEREAS, Lama and Proskauer, for Imperial Motors Inc., owner, filed December 19, 1944, an appeal from a decision of the borough superintendent, affecting premises 164-40 Hillside avenue, southwest corner of 165th street (Block 9814, Lot 34), Jamaica, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated December 14, 1944, re N.B. Applic. 477-44, reads:

"1. The construction of a frame building in the fire limits is contrary to Sec. 4.1.2 of the Building Code.

2. The construction of a frame building for commercial use is contrary to Sec. 4.2.1 of the Building Code."

and

WHEREAS, the applicant states that the building is one story (8 ft. 4 in.) in height, 24 ft. 6 in. by 12 ft. 6 in. in area; Class 4 construction; located in a business use, C area, Class 1½ height district; erected about 1934; used and occupied as an office in connection with the sale and display of more than five cars; and

WHEREAS, the applicant contends that permission is requested for the use of an existing frame building, one story in height, with peak roof, to be used as office for the sale and display of used cars; that this building was moved intact to the location shown on plans filed with this appeal; that the premises are the subject of Certificate of Occupancy Q29392, permitting the sale and display of used cars; that inasmuch as the use on these premises exists, it is requested that this appeal be granted; and

WHEREAS, Certificate of Occupancy Q31662 was issued October 25, 1944, to supersede Certificate of Occupancy Q29392 and permits the use of the premises for the sale and display of used cars (more than 5) on a plot 56 ft. by 100 ft. in area; and

WHEREAS, the applicant has filed a diagram with this appeal, marked "Received December 19, 1944", indicating that the entire Lot 34 has a frontage of 56.24 ft. on Hillside avenue, 105.66 ft. on 165th street and that a fence is erected parallel to the Hillside avenue building line at a point 100 feet easterly therefrom and that a portion of the premises, except for an existing frame 2-story barn at the rear, is used for the sale and display of more than five used cars.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 477-44, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building, as indicated on plans filed with this appeal, two sheets marked "Received December 19, 1944", shall not be increased in height or area and shall be located on the lot substantially as thereon indicated and shall be used only as an office and shelter for the attendant in connection with the

sale of used cars as permitted under Certificate of Occupancy Q31662, issued October 25, 1944, and for no other use; that whenever the use of this plot for such sale of used cars is discontinued, the building shall be removed and not occupied for another use.

58-45-A

APPLICANT—Kitzler and Nurick, for Jose-Lee Corp., owner (Honey-Knit Inc., lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—87-89 Osborn street, east side, 100 ft. north of Pitkin avenue (1st and 2nd floors); (Block 3506, Lot 5), Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry J. Nurick.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (58-45-A)

WHEREAS, Kitzler and Nurick, for Jose-Lee Corporation, owner (Honey Knit Inc., lessee), filed February 7, 1945, an appeal from a decision of the borough superintendent, affecting premises 87-89 Osborn street, east side, 100 ft. north of Pitkin avenue (1st and 2nd floors); (Block 3506, Lot 5), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated February 2, 1945, on Alt. Applic. 1736-44, reads:

"1. Barring of windows in a factory building is contrary to Sect. 272, par 3, of Labor Law."

and

WHEREAS, the applicant states that the building is 2 stories and balcony (35 ft.) in height, 49 ft. 6 in. by 96 ft. in area, of class 3 construction, erected prior to 1913, located in an unrestricted use, C area, class 1 height district and used and occupied since December 1944 as follows: cellar—boiler room; 1st floor—dance hall; 2nd floor—bank; proposed to be used and occupied: cellar—boiler room; 1st floor—manufacturing sweaters—4 persons; 2nd floor—manufacturing sweaters—24 persons; that the building is equipped with one 5 ft. wide steel stairs, enclosed in fire-retarded partition, equipped with fireproof, self-closing doors and leading directly to the street; that a ladder and scuttle to the roof is provided from the balcony; that there is also one 3 ft. wide exterior stair at the rear leading to the street from its termination through a fireproof passage through the cellar; that doors and windows on the course of the fire escape are not fireproof, self-closing; and

WHEREAS, the applicant states that all windows on the rear and side walls have stationary iron bars; that front windows are not barred, and the building is now occupied for manufacturing of sweaters, employing four women on 1st floor and 17 women and 7 men on the 2nd floor; that the exit facilities on the 1st floor are a direct exit to the street at the front and an iron stair at the rear, leading to the street through a fire passage through the cellar; that on the 2nd floor, there is a 5 ft. stair, leading to the street at the front and an iron stair leading to a fire passage at the rear, and 3 new windows installed in the north wall are fireproof and unbarred and the front windows are not barred; and

WHEREAS, the applicant contends that there are ample exit facilities for this occupancy and requests permission to maintain the present fixed bars; and

WHEREAS, Violation 231-45 was issued January 18, 1945 for violation of C26-185.0 and C26-178.0 of the Administrative Code, for changing the occupancy of the building from dance hall, store, bank and meeting rooms to manufacturing of knit goods, without a certificate of occupancy and that work under Alt. Applic. 1736-44 does not conform to plans, as approved, in that bars on the windows have not been made movable.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1736-44, and that the appeal be and it hereby is *granted,* as to Objection 1, *on condition* that no windows shall be barred, except those indicated on the 1st and 2nd floors, as shown on plans filed with this appeal marked "Received February 7, 1945", on condition that the exits as shown thereon, shall be maintained and that the windows as indicated to be not barred on the 2nd floor, shall be maintained, so as to be readily usable at all times in the event of fire; that all windows on the course of the fire escape shall be fireproof and self-closing and that exit to such fire escape shall be fireproof and self-closing, as indicated; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

300-45-A

APPLICANT—Sylvania Electric Products, Inc., lessee, for Samuel J. LeFrak, owner.

SUBJECT—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—83-30 Kew Gardens road, west side, 8 ft. south of 83rd drive (Block 3356, Lot 30), Kew Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Bernard F. Brooks.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (300-45-A)

WHEREAS, Sylvania Electric Products, Inc., lessee, for Samuel J. LeFrak, owner, filed May 17, 1945, an appeal from an order of the fire commissioner, affecting premises 83-30 Kew Gardens road, west side, 8 ft. south of 83d drive (Block 3356, Lot 30), Kew Gardens, Borough of Queens; and

WHEREAS, Order 14918-LF, issued by the Fire Commissioner, April 23, 1945, reads:

"1. Arrange the exit doors on the 1st story so that same can be opened from both the inside and outside. Section 272 of Labor Law."

and

WHEREAS, the applicant states that the building is two stories (35 ft.) in height, 111 ft. by 222 ft. in area; Class 1 construction; erected in 1927; located in business use, D area, Class 1¼ height districts; used and occupied since February 1, 1945 as follows: Cellar, lunchroom, stockroom, testing, 20 persons; 1st floor, administrative offices and laboratory, 25 persons; 2nd floor, development, research and machine shop, 150 persons; that no change in use or occupancy is proposed; that the building is equipped with a two-source sprinkler system, a standpipe system and an interior fire alarm system; that there are three 48 in. concrete and steel stairs, enclosed in masonry construction, equipped with metal, self-closing doors, and leading from the roof bulkhead directly to the street; and

WHEREAS, the applicant contends that the research and development work done on the premises is critical and secret; that the U.S. Navy has set up a rigid security system to be followed, whereby indiscriminate entrance and exit to the premises is restricted; that there are five entrances to the building as shown on Drawing #1 filed with this appeal; that these entrances are indicated on plan as A, B, C, D and E; that Entrance A at the northeast corner of the building, is used for general purposes and leads into the lobby and is kept open during all working hours and supervised by a switchboard operator; that Entrance B on the north side, leads to all floors and the basement; that it is used as an employees' entrance and exit and is under constant guard

during working hours; that Entrance C on the east side, leads to the basement and second floor and is used as an emergency exit only; that this entrance has been equipped with a Von Duprin panic bolt on the door which opens to the street; that Entrance D on the southeast corner, leads to the boilerroom, which is a separate basement, housing the furnace and coal bin; that as there is always a fireman on duty during working hours, this door is kept unlocked; that Entrance E on the southwest corner, leads to the first and second floors and is for emergency exit only; that this door is equipped with an approved type panic bolt; that both doors C and E, will be equipped in addition to panic bolts, with an electrical door switch which will be set open when the doors are closed and contact closed if doors are open, sounding an audible alarm to the guard's station; that all the doors in question and all other service doors throughout the building are of approved fire-resisting metal type; that the entire building is fireproof, equipped with an approved sprinkler and standpipe system.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in an order of the fire commissioner, acting on Order 14918-LF, Item 1, and that the appeal be and it hereby is *granted on condition* that panic bolts shall not be placed on any exit doors to street, except at stairways "E" and "C"; that such panic bolts shall be of an approved type; that at such doors, there shall be an electric door switch and alarm as proposed; that the two former garage doors leading to Kew Gardens road and one garage door to 84th avenue north of elevator No. 2, may be sealed or bricked up with approved masonry; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 200-27-BZ and Cal. 238-45-A.

902-21-S

APPLICANT—Samuel Rosenblum, for Annette Lipshitz, new owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—re Variation of the requirements of the Labor Law, as cited in an order of the fire commissioner (previously granted on condition). Reopening based on a decision of the borough superintendent.

PREMISES AFFECTED—31-33 West 31st street, north side, 433 ft. 4 in. west of 5th avenue (Block 833, Lot 22), Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (902-21-S)

WHEREAS, this application from an order of the fire commissioner, affecting premises 31-33 West 31st street, north side, 433 ft. 4 in. west of 5th avenue (Block 833, Lot 22), Borough of Manhattan, was granted by the Board on October 18, 1921, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on Violation 2359-44, issued by the borough superintendent, dated December 13, 1944, as the present occupancy is contrary to that permitted under the action of the Board on October 18, 1921.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 18, 1921, so that as amended the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the labor law, and that the appeal be and it hereby is *granted on condition* that the number of occupants on each floor shall not exceed the number lawfully permitted, based on the primary means of exit, with due allowance for the sprinkler system, fire alarm system and fire drills."

129-44-A

APPLICANT—Thomas C. Wilson, Inc., owner.

SUBJECT—Application for consideration—reopening and extension of time—re Appeal from an order and decision of the fire commissioner (previously granted on condition).

PREMISES AFFECTED—21-11 44th avenue, north side, 79.3 ft. west of 23rd street (Block 441, Lot 4), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: William F. Drucker and Joseph V. Iarricci.

ACTION OF BOARD—Appeal reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (129-44-A)

WHEREAS, this appeal from an order and a decision of the fire commissioner, affecting premises 21-11 44th avenue, north side, 79.3 ft. west of 23rd street (Block 441, Lot 4), Long Island City, Borough of Queens, was granted by the Board on December 5, 1944, on certain conditions; and

WHEREAS, the applicant requested an extension of time, relative to the maintenance of fire drills.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 5, 1944, only so far as it has reference to the term of time, so as amended this portion of the resolution shall read:

"*Resolved,* that the decision of the fire commissioner, acting on Order 1869-LF, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the number of occupants as indicated on Certificate of Occupancy Q31587, issued October 9, 1944, shall not be exceeded; that the standpipe shall be maintained to the satisfaction of the fire commissioner; that the interior fire alarm shall be maintained to the satisfaction of the fire commissioner and that fire drills as required by law shall be maintained, commencing on a date not more than three months from the date of this *amended* resolution."

728-44-A

APPLICANT—Cafiero and Lacerenza, for Joseph and George Kraupner, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—457 Knickerbocker avenue and 1350 Greene avenue, northeast corner (2nd floor); (Block 3300, Lot 8), Borough of Brooklyn.

APPEARANCES—

For Applicant: William Debus and Joseph Kraupner.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn after discussion.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

298-39-A

APPLICANT—C. H. Simmons, Jr., for The Corporation of the Brick Presbyterian Church in the City of New York, owner.

MINUTES

SUBJECT—Application reopened April 17, 1945—re Appeal from an order and a decision of fire commissioner and a decision of the borough superintendent.

ZONING APPLICATIONS

449-29-BZ
APPLICANT—Max Tirschwell, for Brooklyn Towers Garage Corporation, new owner.
SUBJECT—Application for consideration—reopening and amendment as to temporary use—re Application (decision of the superintendent of buildings) previously granted under sections 7c and 21 of the zoning resolution, permitting the extension from an unrestricted use district into a business district, of a proposed garage for the storage of more than five motor vehicles.
PREMISES AFFECTED—94-98 Orange street, south side, 44 ft. 10 in. west of Fulton street (Block 227, Lot 14), Borough of Brooklyn.
APPEARANCES—
For Applicant: Max Tirschwell.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (449-29-BZ)

WHEREAS, this application under section 7b of the zoning resolution, permitting the extension from an unrestricted use district into a business use district, of a proposed garage for the storage of more than five motor vehicles, affecting premises 94-98 Orange street, south side, 44 ft. 10 in. west of Fulton street (Block 227, Lot 14), Borough of Brooklyn, was granted by the Board on January 21, 1930, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on a decision of the borough superintendent, acting on Alt. Applic. 242-45, dated April 12, 1945, which reads:

"1. The Borough Superintendent is without authority to permit the temporary use of this structure as a warehouse. It is located in a business use district and the retention of the existing certificate of occupancy as a garage for more than five motor vehicles without the approval of the Board of Standards and Appeals is not permissible. Obtain an amendment of the resolution of the Board of Standards and Appeals—Calendar 449-29-BZ."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted January 21, 1930, by adding thereto:

"* * * that the decision of the borough superintendent, acting on Alt. Applic. 242-45, objection 1, is hereby *modified* to permit the 3rd, 4th and 5th floors to be occupied for storage of merchandise for a temporary term not to exceed the term of the present emergency and for six months thereafter, with the privilege of reverting to the garage occupancy as per-

mitted previously, *on condition* that such storage of merchandise shall not include any material of a flammable nature or readily combustible, as may be determined by the fire commissioner; that such portable fire fighting appliances shall be maintained, on such three floors herein permitted to be occupied for storage, as the fire commissioner shall direct; that no structural changes shall be made in the building that would render it unlawful for garage purposes; that during the term of this variance, the balance of the building may be occupied as permitted for garage use."

352-32-BZ

APPLICANT—Max Goldman, owner.
SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the commissioner of buildings) previously granted on condition, under section 7f of the zoning resolution, permitting in a business use district, for a temporary term of two years, the maintenance of a gasoline service station.
PREMISES AFFECTED—3305-3311 Boston road and 1152 East 211th street, southwest corner (Block 4705, Lots 62-65), Borough of The Bronx.
APPEARANCES—
For Applicant: R. M. Johnson and Max Goldman.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn . 4
Negative: 0

THE RESOLUTION (352-32-BZ)

WHEREAS, this application under section 7f of the zoning resolution, permitting in a business use district for a temporary term, the erection and maintenance of a gasoline service station, affecting premises 3305-3311 Boston road and 1152 East 211th street, southwest corner (Block 4705, Lots 62-65), Borough of The Bronx, was granted by the Board on January 20, 1933, on certain conditions; and

WHEREAS, the resolution was amended on May 28, 1935 and permit extended on May 31, 1939, June 10, 1941 and June 15, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted January 20, 1933, as amended through June 15, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7f for a temporary term of five (5) years from the date of this *amended* resolution to permit the maintenance of a gasoline service station, *on condition* * * * and that other than as *amended* herein, the resolution adopted by the Board January 20, 1933, and May 31, 1939, shall be complied with in all respects and that a certificate of occupancy shall be obtained."

485-38-BZ

APPLICANT—Edith B. Pyne, for William L. Pyne, owner.
SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district, for a temporary term, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—168-29 88th avenue, northwest corner of 168th place (Block 894 (9821), part of Lot 16), Jamaica, Borough of Queens.
APPEARANCES—
For Applicant: Edith B. Pyne.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (485-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting partly in a business use district and partly in a residence use district, for a temporary term of two years, the parking and storage of more than five motor vehicles, affecting premises 168-29 88th avenue, northwest corner of 168th place (Block 894 (9821), part of Lot 16), Jamaica, Borough of Queens, was granted by the Board June 27, 1939, on certain conditions; and

WHEREAS, the permit was extended on June 24, 1941 and June 8, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted June 27, 1939, only so far as it has reference to the term of the permit, so that as amended this portion of the resolution shall read:

"* * * *granted* under section 7h for a term of two (2) years from the date of this *amended* resolution, to permit a portion of the premises to be occupied as indicated on plans filed with this application, marked "Received June 13, 1938", for the parking and storage of more than five motor vehicles, *on condition* that such parking and storage shall be restricted * * * and that other than as *amended* herein, the requirements of the resolution adopted June 27, 1939, shall be complied with and that a certificate of occupancy shall be obtained (Corr. 1488-38)."

1180-38-BZ

APPLICANT—Henry Nordheim, for H. and S. Sonn, Inc., owner. (Morris Shamis, lessee.)
SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in business use district, for a term of two years, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—1157 Prospect avenue, west side, 248 ft. north of East 167th street (Block 2680, Lots 50 and 54), Borough of The Bronx.
APPEARANCES—
For Applicant: Henry Nordheim.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (1180-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a term of two years, the parking and storage of more than five motor vehicles, affecting premises 1157 Prospect avenue, west side, 248 ft. north of East 167th street (Block 2680, Lots 50 and 54), Borough of The Bronx, was granted by the Board on April 15, 1941, on certain conditions; and

WHEREAS, the permit was extended on June 8, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted April 15, 1941, only so far as it has reference to the term of the permit, so

that as amended, this portion of the resolution shall read:

"* * * *granted* under section 7h for a term of two years from the date of this *amended* resolution, to permit the premises to be occupied for the parking and storage of more than five motor vehicles, *on condition* * * * and that other than as herein *amended,* the resolution adopted by the Board April 15, 1941, shall be complied with in all respects and that a certificate of occupancy shall be obtained."

574-40-BZ

APPLICANT—Lama and Proskauer, for Giuseppe Proscia, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the alteration and conversion of occupancy of an existing building to a garage for more than five motor vehicles.

PREMISES AFFECTED—565-569 Carroll street, north side, 220 ft. east of Fourth avenue (Block 958, Lot 70), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (574-40-BZ)

WHEREAS, this application, under section 7c of the zoning resolution, permitting in a business use district, the alteration and conversion of occupancy of an existing building to a garage for more than five motor vehicles, affecting premises 565-569 Carroll street, north side, 220 ft. east of Fourth avenue (Block 958, Lot 70), Borough of Brooklyn, was granted by the Board September 24, 1940, on certain conditions; and

WHEREAS, time to obtain permits and complete the work, was extended on October 21, 1941, October 20, 1942, July 20, 1943 and July 5, 1944; and

WHEREAS, the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted September 24, 1940, only so far as it has reference to obtaining permits and completion of work, so that as amended, this portion of the resolution shall read:

"* * * that all permits required shall be obtained and all work completed within one year from the date of this *amended* resolution and that other than as herein *amended,* the conditions of the resolution of September 24, 1940, shall be complied with (Alt. 2326-40)."

55-41-BZ

APPLICANT—Henry Nordheim, for Havender Realties, Inc., owner. (Gordon and Ettl, lessees.)

SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

RULES

RULES FOR INSPECTION OF APPROVED OPENING PROTECTIVE ASSEMBLIES

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS OCTOBER 20, 1939. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, NOVEMBER 13, 1939 AND AMENDED ON JUNE 8, 1945, EFFECTIVE JULY 2, 1945.

(1139-39-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, *paragraph* 2, *Charter of the City of New York and* C26-189.0 *Administrative Building Code and* C26-610.0 *Administrative Building Code and* C26-660.0, 661.0 *and* 662.0 *Administrative Building Code.*

Note: New matter in italics.

Rule 1—Scope.

1.1 Before any Opening Protective Assembly is used under the provisions of the Administrative Building Code, it shall be tested as required in Section C26-610.0 (10.1.18) and its Fire-Resistive Rating shall be designated as "¾-Hour", "1-Hour", "1½-Hour", or "3-Hour", in accordance with the approval.

1.2 Before engaging in the manufacture of approved Opening Protective Assemblies, the manufacturer shall have an established plant completely equipped with the necessary facilities, machinery and tools for the manufacture of the Opening Protective Assemblies.

1.3 Before applying for approval of plant and permission to manufacture approved Opening Protective Assemblies, the manufacturer shall file a list of his equipment and facilities with the Board of Standards and Appeals, together with a statement of the name, type, specifications and details of the approved door, which he agrees to manufacture in accordance with the rules and regulations of the Board and the requirements of the Administrative Building Code.

1.4 All Opening Protective Assemblies made under any approval issued by the Board of Standards and Appeals for the manufacture of approved Opening Protective Assemblies of "¾-Hour", "1-Hour", "1½-Hour" or "3-Hour" rating shall be rejected on evidence that such Opening Protective Assemblies are not manufactured or labelled in accordance with the approved specifications of the Board.

Rule 2—Inspections.

2.1 No Opening Protective Assemblies shall be installed in any building until such Opening Protective Assemblies have been inspected and labelled either by the Borough Superintendent, or by a recognized testing laboratory or other qualified person or agency approved by the Board as having proper facilities.

2.2 Before issuing any label for the use of an approved Opening Protective Assembly, the authorized inspection agency shall first notify the Borough Superintendent that inspection will be made by him of the materials and construction entering into the assembly of the Opening Protective Assemblies, stating the location of the premises where the Opening Protective Assemblies will be used, the Building Permit number, the name of the approved Opening Protective Assembly and the manufacturer and the number of such units to be manufactured.

Note: Where an Opening Protective Assembly is of fire-proofed wood, such wood shall be submitted to tests for fireproofed wood, as prescribed in the Administrative Building Code, Section C26-331.9.

2.3 After the materials have been cut and inspected, the authorized inspection agency shall inspect the assembly and fabrication of the parts and shall issue an approved label only if the completed Opening Protective Assemblies comply in all respects with the approved specifications on file in the Board of Standards and Appeals.

Rule 3—Labeling Requirements.

3.1 Every approved Opening Protective Assembly before installation in a building under the provisions of the Administrative Building Code, shall have securely attached to it, a metal label of a design approved by the Board, giving the name of the Opening Protective Assembly, the calendar number of the approval of the device, the fire-resistive rating, the serial number of the specific type of door and buck, or window, the year of manufacture and the name of the inspection agency. When opening protective assemblies are manufactured for stock, the inspection agency shall furnish a report to the manufacturer of his inspection of each assembly including all data as is herein required.

3.2 After attachment of the Serial Label to the Opening Protective Assembly, the inspection agency shall advise the Borough Superintendent the serial numbers, the address of the premises and the Building Permit numbers of the approved Opening Protective Assembly. When opening protective assemblies are installed in a building as building maintenance, the manufacturer shall furnish similar data on forms obtained from the Borough Superintendent.

3.3 The manufacturer may also attach to the Opening Protective Assembly, a metal label giving the name and location of the manufacturer. He shall also keep an office record showing the location of each Opening Protective Assembly manufactured by him, its serial label number and the Building Permit number; and this record shall be open for inspection by any authorized representative of the Board of Standards and Appeals and the Department of Housing and Buildings.

3.4 Every labelled Opening Protective Assembly shall be constructed and installed in all essentials as tested and approved and arranged to receive hardware of an equal type, quality and material and requiring no greater cutting away of the wood or metal than on the approved Opening Protective Assembly, as tested.

3.5 Where opening protective assemblies are manufactured up to 25% in excess of the sample as tested and as permissively allowed under C26-610.0a, the permitted increase in area shall not exceed width and height dimensions greater than 15 percent of the sample as tested. In all cases the permissively allowed increase in area of 25% shall apply only to the sample when constructed identically in all respects with the tested sample.

3.6 When opening protective assemblies are manufactured for stock, such assemblies shall be inspected as provided herein. As the doors are shipped, the Borough Superintendent shall be furnished with the data as specified in Rules 3.1 and 3.2. When such opening protective assemblies are shipped to jobbers for stock, the manufacturer shall obtain the data from the jobbers, as required under rules 3.1 and 3.2 and immediately submit such data to the Borough Superintendent.

3.7 Openings for vision purposes and signal bells may be installed in an opening protective assembly when they are of approved type and when installed in accordance with the conditions of approval.

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, Charter of the City of New York, and C26-189.0, C-26-462.0, C-26-458.0, sub. g, C-26-538.0, sub. b, C-26-541.0, sub. a, C-26-667.0, paragraphs, 4 and 8, sub. c, C-26-680, sub. 21, C-26-541.0, C-26-619.0, and C-26-721.0, Administrative Building Code.

Extracts from the Administrative Building Code contained herein in small type have been assigned decimal rule numbers for convenient reference only and are not to be construed as rules.

Purpose: *It is the purpose of these rules to carry out the intent of Section C 26-3.0 of the Administrative Building Code and to supplement the present requirements of the Administrative Building Code, by including the uses of insulating fibre board as an acoustical or decorative material, when applied to walls and ceilings which use is specifically unprovided for in the Administrative Building Code.*

Rule 1. Classes of Fibre Board.

(1) Wood Fibre
(2) Exploded Wood Fibre
(3) Balsam and Wood Fibre
(4) Western Wood Fibre
(5) Cane Fibre (Bagasse)
(6) Pulp from waste papers
(7) Straw Fibre
(8) Ground Wood Pulp Fibre
(9) Corn Fibre

1.1 STRUCTURE OF FIBRE BOARD. Fibre boards shall be manufactured from wood or other vegetable fibre by a felting or molding process and provided with sizing to render water resistant, and shall be subjected to a sufficient drying temperature under related humidity conditions so as to completely destroy rot-producing fungi. No starch ingredient shall be included unless made toxic to household vermin and with properties as shown in Table 1.

1.2 The structure of the board may be either single or multiple ply, and if latter, the plies shall be joined under pressure by a moisture resisting cement or other approved means. Surfaces shall be finished smooth and free of coarse fibres.

1.3 For a plaster base, wall board, roof insulation boards, sheathing, siding, roof insulation, floor insulation, acoustical, interior finish, the fibre board shall be homogeneous, free from cracks, lumps, unevenness and other defects.

1.4 The surfaces of fibre board when used for acoustical or decorative purposes shall be finished smooth and flat and reasonably free from projecting, coarse or hairy fibres.

1.5 Fibre board shall be approved by the Board.

1.6. Fibre board treated to reduce and retard its combustibility may be used in accordance with limitations as may be approved by the Board.

TABLE I

	Building Board	Plaster Base	Roof Insulation Board	Interior Boards	Sheathing Boards
Max. thermal conductivity, B.t.u. per hr. per sq. ft. per deg. F. per in. of thickness	0.36	0.38	0.38	0.38	0.42
Min. transverse load at rupture, each direction pounds per sq. in.*	14	14	7	10	14
Deflection at rupture, inch, min.**	0.25	0.25	0.25	0.15	0.25
Deflection, inch, max.	0.85	0.85	1.25	1.00	0.75
Min. tensile strength, pounds per sq. in.***	175	175	100	150	175
Water absorption, percent	5	5	10	10	5
Moisture permeability, time of penetration through the board, not less than, hours	..	..	..	..	20
Max. linear expansion, percent	½	½	½	½	½
Nail holding strength lb...	100	70	60	60	100
Bond strength per sq. ft. of bonded surface	..	700	..	..	..

* This requirement is based on specimens ½ inch thick. For specimens of other thicknesses, the requirement shall be increased in direct proportion, that is, for a thickness of 1 inch, it shall be doubled, etc.

** This requirement is based on specimens ½ inch thick. For specimens of other thicknesses, the requirement shall be decreased in inverse proportion, that is, for a thickness of 1 inch, it shall be halved, etc.

*** Tensile strength requirements shall be applicable only on thicknesses up to and including 1 inch.

1.5 EDGE FINISH

1.5.1 Building board edges shall be square.

1.5.2 Plaster base fibre boards shall have short edges square or fabricated and long edges specially fabricated.

1.5.3 ½" roof insulation shall be square edged. For thickness of 1 inch and over, edges shall be square unless offset is specified. When offset material is specified, the amount of the offset shall be 1 inch.

1.5.4 Interior board edges shall be either square, or specially fabricated.

1.5.5 Sheathing board edges shall be either square or specially fabricated as required.

Rule 2. Uses and Methods of Applying Fibre Board.

2.1 PLASTER BASE.

Fibre board may be used as a plaster base or wall board in non-fireproof commercial structures not more than 2 stories in height and in one and two family dwellings not exceeding three stories in height and in Class 3 multiple dwellings for partitions and ceilings where either no fire resistive rating is required or where a fire resistive rating not exceeding ½ hour is permitted and installed in accordance with the requirements of C-26-458, Administrative Building Code.

The joints on walls and ceilings shall be broken at least one stud apart, and in no event shall joints of fibre board lath be in vertical line, excepting in the corners of a room. The joints shall be broken at every other board on the walls and at right angles to the furring on ceiling. Each length shall be solidly nailed at every bearing not more than 6" center to center for walls and 4" center to center for ceilings and nailed to all studding with 1⅛" No. 13 gauge blued or galvanized plaster board nails, with ⅜" heads for ½" board and 1¾" nails with ⅜" heads for ¾" or 1" board, and with proportionately longer nails for thicker fibre board. No nail shall be driven closer than ¼ inch of the edge of fibre board. All corners shall be reinforced with standard metal corner beads. All re-entrant angles shall be reinforced with standard metal angle lath strip. Reinforcement shall be securely stapled on the lath. At the juncture of frame and masonry construction, 6" strip of expanded metal lath shall be used.

2.1.1 Fibre board when used as a plaster base shall comply with the requirements of the Administrative Building Code as follows:

C26-458.0. Combustible lath.—a. It shall be unlawful, in the case of structures exceeding three stories in height, to apply combustible lath on wood studs more than two stories in advance of the scratch coat plastering.
b. It shall be unlawful to run combustible lath through from room to room.
C26-462.0. It shall be unlawful to wet fibre board before plastering.

2.1.2 "SCRATCH OR FIRST COAT."

The scratch coat shall contain not more than ⅔ by weight of sand and ⅓ calcined gypsum plaster with fibres or including other materials and fibring so that the setting time shall not be greater than four hours nor less than 1½ hours and with a tensile strength of not less than 75 pounds per sq. in. The scratch coat shall be not less than ¼" thick.

2.1.3 "BROWN OR SECOND COAT."

The brown coat shall contain not more than ¾ by weight of sand and the remaining ¼ shall not contain less than 3/5 of calcined gypsum and not more than 2/5 of other materials, including fibring. The setting time shall be not more than five hours nor less than two. This brown coat shall have a tensile strength of not less than 50 pounds per sq. in. and shall be not less than 3/16" in thickness.

2.1.4 "FINISH COAT."

The finish coat shall be applied after the application of the second or brown coat has become dry, and shall be set in not less than 20 minutes nor more than four hours and shall have a tensile strength of not less than 200 pounds per sq. in. and be not less than 1/16" thick.

2.1.5 "GROUNDS."

Suitable grounds shall be established with each thickness of fibre board so as to insure a minimum thickness of ½" plaster. Fibre board shall extend from floor to ceiling with grounds secured to the framing members through the fibre board.

2.2 FIBRE BOARD SHEATHING.

Fibre board when used as a sheating material shall comply with the requirements of the Administrative Building Code as follows:

C26-538.0b. Approved fibre board sheathing at least one half of an inch in thickness and four feet in width may be used instead of wood sheathing when bearing on four studs and fastened to each bearing with nails spaced six inches or less apart, except that where necessary for fitting around openings and similar purposes, the dimension of each board used for such purpose shall be the maximum possible if such board is less than four feet in width.

When fibre board is ½" thick the nails used shall be 1½" long with ⅜" head and when the fibre board is ¾" or 1" the nails used shall be 2" long with ⅜" head. Nails shall be driven not closer than ¼ inch of the edge of the sheathing board.
When using fibre board in widths of 2 ft. in addition to the requirements of C-26-538.0b, supplemental bracing of the framework of the wood frame structure shall be provided by means of let-in diagonal braces of 1" x 4"'s sound and free from knots at all external corners in the outside face of the studs at approximately 45° and crossing at least three studs, or supplemental bracing may be by a series of 2" by 4" struts diagonally cut and placed between the studs at an angle of 45° with the horizontal and extending from sill to plate wherever possible. All braces shall be securely nailed to each stud and to sill and plate. Where openings occur near the corners, 1" x 4"'s let-in knee braces in the face of the studs shall be installed above and below the openings at approximately 45°, extending across not less than 3 studs. When used over doorways and under windows, vertical and horizontal 2" x 4"'s shall be provided to afford nailing bases along all edges. Equivalent bracing of steel may be substituted for the required wood bracing. The use of fibre board as roof sheathing is not permitted except as insulation over or under approved sheathing material.

2.3 ASBESTOS CEMENT COVERED FIBRE BOARD. Fibre board protected with at least ⅛" asbestos cement and secured to each face of the fibre board may be used as a siding material in Class 4 and Class 5 construction and as an interior partition material in places where no fire resistive rating is required and when approved by the Board.

Rule 3. Uses of Fibre Board as Wall and Ceiling Covering. Material Supplementing the Requirements of the Administrative Building Code.

3.1 CLASS 1 AND CLASS 2 CONSTRUCTION. In elsewhere than stair enclosures, public hallways and public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner, fibreboard may be used as an acoustical material in ceilings only of area to be covered and not exceeding 2,000 sq. ft. of fibre board in area and when such spaces are separated from the remainder of the floor area by fireproof partitions and fireproof doors. Fibreboard, when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the strips shall be of fireproofed wood meeting the requirements of C26-331.0 or of approved incombustible materials and the spaces in between the furring strips and the fibre board shall be densely filled with approved incombustible material. Fibre board shall not be applied to side and soffits of beams. When fibre board is used on a suspended ceiling system, all hangers, purlins and cross furring shall comply with C26-461.0 and the fibre board shall be applied directly to a plastered ceiling on approved lath or over a base of approved incombustible board at least ⅜" thick with all joints adequately sealed with gypsum plaster or other approved material.

RULES

3.2 CLASS 3 CONSTRUCTION.
In elsewhere than stair enclosures, public hallways, public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner, fibreboard may be used as a decorative, thermal or acoustical material in areas of 3,000 sq. ft. without restriction, except that there shall be an under surfacing of plaster, plasterboard or other backing, satisfactory to the Borough Superintendent and except that in places of assembly (C26-116.0) fibreboard may be used in areas not exceeding 3,000 sq. ft. but not more than 50% of the area of any floor provided the ceiling construction meets the requirements of C26-669.0 and the walls surrounding the space and opening protective assemblies therein shall be fireproof and when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material and when furring strips are used, the spaces in between the fibre board and the furring strips shall be densely filled with incombustible material.

3.3 CLASS 4 CONSTRUCTION.
The use of fibreboard as a decorative, thermal or acoustical material shall be permitted without restriction except when specifically prohibited by the Administrative Building Code or the Board's rules. When fibreboard is used as exterior surfacing, it shall be protected from the elements.

3.4 CLASS 5 CONSTRUCTION.
The use of fibreboard as a decorative, thermal or acoustical material shall not be permitted except within spaces not exceeding 2,000 sq. ft. in area, in elsewhere than stair enclosures, public hallways, public spaces, kitchens or cooking spaces and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner when separated from the rest of the floor space by fireproof partitions and opening protective assemblies. Fibreboard when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the spaces in between the fibreboard and the furring strips shall be densely filled with incombustible material. Fibreboard may be used as an interior insulation material when protected by at least 3/8" of plaster or of approved incombustible board of similar thickness and the joints filled or covered with incombustible batten strips.

3.5 CLASS 6 CONSTRUCTION.
In elsewhere than stair enclosures, public hallways and public spaces, and except in places of assembly (C26-116.0) and in occupancies requiring a combustible permit from the Fire Commissioner the use of fibreboard as a decorative, thermal or acoustical material may be permitted in spaces not exceeding 2,000 sq. ft. in area when separated from the remainder of the floor space by fireproof partitions and opening protective assemblies. Fibreboard when used within such space shall be applied by nailing or approved adhesives directly to solid fire-resistive material. When furring strips are used, the spaces in between the fibreboard and the furring strips shall be densely filled with incombustible material.

3.6 LABOR LAW.
The use of fibreboard as a decorative, thermal and acoustical material shall be prohibited except within spaces designated as non-manufacturing area and only when separated from the rest of the floor space by fireproof partitions and opening protective assemblies, except that in factories four stories or less in height, fibreboard may be used elsewhere than stair enclosures and public hallways and public spaces as permitted under the Labor Law.

3.7 MULTIPLE DWELLING LAW.
The use of fibreboard shall be prohibited in kitchens and cooking spaces in class 3 construction and elsewhere as provided in Rule 3.2, except as a plaster base, when the area of floor partitions shall not exceed 15% of the entire partition area to be plastered of any floor. Fibreboard may be used on the top floor ceiling as a plaster base without restriction as to area.

In old law tenements and converted dwellings the use of fibreboard as a decorative, thermal and acoustical material may be permitted elsewhere than in stair enclosures, public hallways, public spaces, kitchens, cooking spaces and in cellars.

2.4 ROOF STRUCTURES AND ROOFING

C26-619.0 FORM AND FIRE RESISTIVE RATINGS OF FLOOR AND ROOF CONSTRUCTION.—a. Floor and roof construction between supporting beams in class 1, fireproof structures, shall consist of arches or slabs of incombustible material or assemblies and shall either by itself or in combination with its protective ceiling have a fire resistive rating of at least three hours, except as specifically provided otherwise. Nothing in this section shall prevent the application of cork or fibre insulation board or other combustible insulation material applied directly to the fire resistive floor or roof construction in cement, provided that in the case of floor construction such insulation is covered by at least one and one-half inch thickness of portland cement concrete or other equally fire resistive material of equal thickness. Similar floor and roof construction in class 2, fire-protected structures, shall either by itself or in combination with its protective ceiling have a fire resistive rating of at least one and one-half hours, except as otherwise specifically provided.

2.4.1 Insulation fibre board so applied shall be over a screeded concrete roof or floor, graded where necessary, and cemented to the arch with hot asphalt or coal tar pitch. Fibre insulation board shall not be left exposed to the elements, nor shall it be applied to wet surfaces of any kind.

C26-680.0 ROOFING.—a. Materials for roofing.—

1. Roofing placed on any structure shall meet the requirements of section C26-605.0, except as provided in section C26-539.0, and subdivision b of section C26-680.0.

2. The use of cork or fibre board as roof insulation is lawful provided such cork or fibre board is covered with an approved type of fire resistive roof covering applied directly thereto.

2.5 ADDITIONAL ADMINISTRATIVE BUILDING CODE REQUIREMENTS PERTAINING TO THE USE OF FIBRE BOARD ARE AS FOLLOWS:

C26-541.0 MINOR WOOD FRAME STRUCTURES.—a. Wood frame sheds.—Wood frame sheds, open on at least one side, may be erected of wood or with approved fibre board siding, throughout the city, but such sheds shall be fifteen feet or less in height, shall cover twenty-five hundred square feet or less, shall be placed at least four feet from any lot line, and shall be covered on the sides and roof with approved fire retarding material.

b. Wood frame outhouses.—Wooden outhouses used exclusively for domestic purposes may be constructed throughout the city to a wall height of eight feet, and may be one hundred fifty square feet in area, provided the roofs are covered with approved fire retarding materials and the walls are located at least three feet from the lot line.

c. Wood frame builders' shanties.—One story structures for the use of builders in connection with any building operation for which a permit has been issued, may be constructed of wood, or may be sheathed with approved fibre board, and placed on the lot where such building operation is carried on in any part of the city, or on adjoining lots if such structures do not interfere with the safe occupancy of any structures thereon, or on the sheds provided over the sidewalks in front of such building operation.

d. Wooden fences.—Wooden fences may be erected throughout the city to a maximum height of ten feet.

C26-667.0 PERMITTED USES OF WOOD OR OTHER COMBUSTIBLE MATERIALS IN CLASS 1, FIREPROOF STRUCTURES, AND CLASS 2, FIRE-PROTECTED STRUCTURES.—

RULES

4. Wearing surfaces.—

(c). Untreated combustible insulation board in a single layer not to exceed one-half of an inch in thickness, when cemented or attached directly to the surface of an approved type of fire resistive floor construction, may be used elsewhere than in stair enclosures and corridors when covered by an incombustible wearing surface in accordance with the rules of the board.

2.5.1 Except as provided in Section C26-619.0 wearing surface when installed over fibreboard shall be of approved incombustible material bonded and sealed in accordance with the terms of the Board's approval of the wearing surface material.

C26-631.0 CONSTRUCTION OF FIRE WALLS

g. The application of cork or fibre insulation board may be permitted if cemented or attached directly to the face of the wall laid up with no intervening air spaces and protected as required by the rules of the board.

2.5.2 When used on fire walls, fibre board shall be protected by at least ⅜" of plaster or approved incombustible material of similar thickness with joints filled or covered by incombustible batten strips.

GROUP 2—FIRE PARTITIONS

C26-633.0 MATERIALS FOR FIRE PARTITIONS.

b. Where combustible insulation board is permitted, it shall be applied directly to the face of the partition by cement or other approved method, but in no case shall it be built into the required partition construction.

MINUTES

(Minutes continued from page 523)

PREMISES AFFECTED—219-02 to 219-12 Horace Harding boulevard (Nassau Blvd.) southeast corner of 219th street, Bayside, Borough of Queens.

APPEARANCES—
For Applicant: Joseph B. Lynch.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the calendar, subject to usual procedure.

THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

Adjourned: 4:00 P. M.

JOSEPH J. DOYLE, Chief Clerk.

SPECIAL MEETING

FRIDAY MORNING, JUNE 8, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

RULES

1139-39-SR

SUBJECT—Proposed Amendments to Rules for Inspection of Approved Opening Protective Assemblies.

APPEARANCES—
C. W. Rulon.

ACTION OF BOARD—Application reopened and rules amended (See page 524 of this Bulletin).

THE VOTE TO REOPEN AND AMEND RULES—
Affirmative: Commissioners Savage and Blum and Deputy Chief Gunn 3
Negative 0
Absent: Chairman Murdock 1

170-39-SR

SUBJECT—Proposed Amendments to Rules on Uses of Insulating Fibre Board.

APPEARANCES—
George A. Petters, M. J. Brennan, R. P. Mathison, H. J. Schwein, A. P. Green, E. F. Browne, D. C. Sullivan, G. C. Hannam, R. M. Allard and Lonsdale Green, Jr.
For Administration: Fred Dahlem and Frank Burns, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and rules amended (See pages 525 to 528 of this Bulletin).

THE VOTE TO REOPEN AND AMEND RULES—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

465-44-SR

SUBJECT—Proposed Rules on Exterior Veneering Materials.

APPEARANCES—
George L. West, Ephron Cathin, Jr. and H. G. Hedin.
For Administration: John T. O'Connor, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 12, 1945 at 2 p.m.

Adjourned: 11:40 A. M.

JOSEPH J. DOYLE, Chief Clerk.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

Docket.

Rules Directory.

The Hearing Calendar.

Minutes of Regular Meeting, June 12, 1945, at 10 A. M., Affecting Calendar Numbers 459-44-BZ, 546-44-BZ, 210-45-BZ, 836-22-BZ, 114-28-BZ, 531-37-BZ, 786-42-BZ, 26-45-BZ, 222-45-BZ, 460-44-A, 173-45-A, 174-45-A, 211-45-A, 866-42-A, 130-45-A, 295-45-A, 560-44-A, 139-45-A and 178-45-A.

Minutes of Regular Meeting, June 12, 1945, at 2 P. M., Affecting Calendar Numbers 726-44-A, 151-45-A, 169-45-A, 218-45-A, 297-45-A, 313-45-A, 335-45-A, 356-45-A, 520-43-A, 170-45-A, 171-45-A, 27-45-A, 69-45-A, 135-45-A, 239-45-A, 182-42-A, 447-44-A, 36-45-A, 516-44-A, 647-44-A, 104-45-A, 166-45-A, 337-45-A, 338-45-A, 497-23-BZ, 575-25-BZ, 53-31-BZ, 604-37-BZ, 931-38-BZ, 932-38-BZ, 796-23-BZ, 120-33-BZ and 28-38-SM.

Corrections Affecting Calendar Numbers 16-45-A and 289-40-BZ.

Rules on Exterior Veneering Materials.

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

CALENDAR

DOCKET

New Cases Filed up to June 12, 1945.

Cal. No. Dept. Premises Affected.

347-45-SM—Washington Mills Electric Furnace Emery, manufactured by Washington Mills Abrasive Co., Emery Floor Division, Material.

348-45-SM—Washington Mills Emery Aggregate, manufactured by Washington Mills Abrasive Co., Emery Floor Division, Material.

349-45-A—H.B.Bx—569-573 Prospect avenue, west side, 25 ft. south of East 150th street (Block 2674, Lot 9), Borough of The Bronx, Amendment to Alt. 279-44.

350-45-A—F.D.—35-37 Nostrand avenue and 1-15 Hopkins street, northeast corner (yard area); (Block 1719, Lot 1), Borough of Brooklyn, 99559-LC.

351-45-BZ—H.B.Q.—79-01 to 79-11 Rockaway Beach boulevard and 177-199 Beach 79th street, southwest corner (Block 615, Lot 30), Rockaway Beach, Borough of Queens, Alt. 738-45.

352-45-BZ—H.B.Q.—81-22 Rockaway boulevard and 94-38 82nd street, southwest corner and 81-09 to 81-17 95th avenue (Block 9010, Lot 26,) Woodhaven, Borough of Queens, N.B. 175-45.

353-45-A—H.B.Q.—58-01 Grand avenue, northwest corner of 58th place (1st floor); (Block 2678, Lots 1 and 9), Maspeth, Borough of Queens, Misc. 1587-45.

354-45-BZ—H.B.B.—341-347 Reid avenue and 63-79 Marion street, northeast corner (Block 1692, Lot 1), Borough of Brooklyn, Alt. 1321-45.

355-45-BZ—H.B.Q.—50-24 Queens boulevard, south side, 193.20 ft. east of 50th street (Block 2283, Lot 43), Woodside, Borough of Queens, Alt. 321-45.

356-45-A—H.B.Q.—221-23 to 223-09 130th avenue, north side, 1662 ft. east of Springfield boulevard, 221-20 130th avenue, southwest corner of 222nd street, 222-04 to 222-20 130th avenue, south side, from 222nd to 223rd streets and 130-03 to 130-11 223rd street, southeast corner of 130th avenue (Block 12825, part of Lot 480(42-52); Block 12899, part of Lot 250(105); Block 12900, part of Lot 32(110-114, inclusive) and Block 12901, part of Lot 329 (309-311, inclusive), Springfield Gardens, Borough of Queens, N.B. 288-45, N.B. 291-45 to N.B. 295-45, inclusive and N.B. 298-45 to N.B. 311-45, inclusive.

357-45-A—F.D.—1282-1300 Broadway, east side, from West 33rd to West 34th streets, 53-63 West 33rd street and 46-62 West 34th street (Block 835, Lot 1), Borough of Manhattan, 33573-LF and Decision.

358-45-A—H.B.Q.—142-30 Barclay avenue, southeast corner of Union street (cellar, P. S. 20); (Block 5047, Lots 1, 20 and 52), Flushing, Borough of Queens, N.B. 20-45.

274-45-BZ—Application, May 8, 1945, under section 7c of the zoning resolution, of Lama and Proskauer, applicants, on behalf of Dora F. Kraut, owner, to permit in a residence use district, the extension of an existing milk bottling establishment to another building on the same plot now used as cow stable; premises 6502-6542 79th street (6502-6544 displayed) and 7812-7820 Furmanville avenue, southwest corner (Block 3040, Lot 2), Middle Village, Borough of Queens.

730-44-BZ—Application, December 15, 1944, under section 7f of the zoning resolution, of Kobie Klinghoffer, applicant, on behalf of Lotli, Inc., owner, to permit in a business use district, the erection and maintenance of a gasoline service station; premises 47 Brevoort place, northwest corner of Bedford avenue (Block 2017, Lot 39), Borough of Brooklyn.

317-45-BZ—Application, May 17, 1945, under section 7e of the zoning resolution, of Stanley H. Klein, applicant, on behalf of Estate of F. D. Underwood (E. W. Underwood, Executor), owner, to permit in a residence use district, the change of occupancy from a garage for more than five motor vehicles and dwelling to a chemical laboratory, factory, office and dwelling for a temporary period; premises 330 West 70th street, south side, 329.3 ft. west of West End avenue (Block 1181, Lot 46), Borough of Manhattan.

Appeal from Administrative Decision.

318-45-A—330 West 70th street, south side, 329.3 ft. west of West End avenue (Block 1181, Lot 46), Borough of Manhattan.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, JUNE 12, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday morning, June 5, 1945, and Tuesday afternoon, June 5, 1945, and the minutes of the special meeting of the Board held on Friday morning, June 8, 1945, were approved, as printed in Bulletin No. 24, Volume 30.

ZONING APPLICATIONS

459-44-BZ

APPLICANT—Arnold W. Lederer, for Mary L. Richardson, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 21 and 7c of the zoning resolution, to permit in a business use C area district, the manufacturing in excess of the permitted area.

PREMISES AFFECTED—1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn.

APPEARANCES—

For Applicant: Arnold Lederer.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 19, 1945 at 10 A. M., to be heard in conjunction with Cal. 460-44-A.

546-44-BZ

APPLICANT—Lama and Proskauer, for Ida Siegal, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, ot permit in a business use district, the erection of an extension to an office building of an existing gasoline service station for a car laundry and to house grease lift.

PREMISES AFFECTED—822-828 4th avenue and 159-165 29th street, northwest corner (Block 664, Lot 37), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred Lama.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustav Goldman, Board of Education.

ACTION OF BOARD—Laid over to June 19, 1945 at 10 A. M. for further consideration.

210-45-BZ

APPLICANT—Joel D. Marder, for The Fifth Avenue Bank of New York, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail and restricted retail use B area district, the erection of an extension to a bank building occupying more than 65% of the lot area.

PREMISES AFFECTED—1-5 West 44th street, north side, 100 ft. west of 5th avenue (Block 1260, Lot 34), Borough of Manhattan.

APPEARANCES—

For Applicant: Joel D. Marder and H. Webb.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 19, 1945 at 10 A. M., for further consideration. Applicant to file plans and photographs.

836-22-BZ

APPLICANT—Harry Hurwit, for Flo-El Realty Corp., owner (L. & J. Caterers, Inc., lessee).

SUBJECT—Application reopened January 23, 1945—Application (decision of the borough superintenednt) under section 7b of the zoning resolution, to permit in a building partly in a business use and partly in a residence use district, the change of occupancy from a theatre and stores (previously granted by the Board) to catering, meeting rooms, ballrooms and stores.

PREMISES AFFECTED—85 West Burnside avenue and 2041 Harrison avenue, northwest corner (Block 3210, Lot 65), Borough of The Bronx.

APPEARANCES—

For Applicant: Harry Hurwit.

For Opposition: Martha Grossman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (836-22-BZ)

WHEREAS, this application under section 7b of the zoning resolution, permitting in a business use and partly in a residence use district, the erection and maintenance of a theatre building, affecting premises 85 West Burnside avenue and 2041 Harrison avenue, northwest corner (Block 3210, Lot 65), Borough of The Bronx, was granted by the Board on September 19, 1922, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, this case was reopened by vote of the Board on January 23, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 12, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that West Burnside avenue is in a business use, B area, class 1¼ height district; Harrison avenue is in a residence and business use, B area, class 1¼ height district and University avenue is in part business and part residence use, B area and class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated April 13, 1945 on Alt. Applic. 351-44 reads:

"3. Proposed extension of business use within a residence district, is contrary to Article 2, Section 3 of the Zoning Resolution. Since this proposed change is also contrary to Board of Standards and Appeals Resolution 836-22-BZ, it must be referred to the Board of Standards and Appeals for approval."

and

WHEREAS, the applicant states that the premises consist of a plot, 90 ft. frontage by 105 ft. in depth, irregular in area, on which is located a 2 story class 3 constructed building, 90 ft. by 105 ft. irregular in area, erected as a theatre and stores and that it is proposed to occupy the building as stores and ballrooms, meeting rooms and catering; and

WHEREAS, the applicant contends that the building in question is a two story brick structure 26 ft. in height, erected in 1923 as a motion picture theatre and stores and a portion of this structure extended into the residential area, approved by the Board under Cal. 836-22-BZ; that in 1931, it was altered into ballrooms, meeting rooms, catering and for other assembly purposes and stores for which Certificate of Occupancy 30-31 was issued; that at the completion of this alteration, the applicant leased the premises exclusive of the stores for about ten years; that they redecorated and furnished the premises at a great cost and expense believing that the premises could be used as called for in the certificate of occupancy; that in 1938, the applicant purchased the entire structure and in a search, found the premises clear of any violations; that in October 1944, application 560-44-A was filed, requesting permission for increased occupancy, when we were informed that the certificate of occupancy was not valid, because the original owners, who converted the motion picture theatre into ballrooms, catering, etc., failed to apply to the Board for permission to continue the changed occupancy of the premises, extending into the residential area; that the applicant leased, purchased and invested a great sum of money in good faith because of the said certificate of occupancy; that great hardship is wrought on the owners, who did not in any way contribute to create this peculiar and deplorable condition; that permission is requested to continue the occupancy of said building as ballrooms, meeting rooms, catering and stores, for any other decision would mean the confiscation of the business and structure to the owners.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted September 19, 1922, by adding thereto:

"* * * that in view of the permission by the Department of Housing and Buildings to erect a building within the business use district to a height of two stories instead of one, as formerly proposed, and extending into the residence district as formerly proposed, the proposed extension of use may be permitted into the residence use district, *on condition* that the court leading to Harrison avenue shall be maintained for a full width of 12 feet, as originally proposed, except for exterior exit stairways; and that any structure, that has been erected as an addition to the building and which now reduces the width of the exit court in any part shall be removed; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 560-44-A."

114-28-BZ

APPLICANT—Edward A. Brown, for Zimtbaum & Horowitz, owners.

SUBJECT—Application reopened May 22, 1945 re amendment of resolution—Application (decision of the borough superintendent) previously granted on condition, under sections 7e and 21 of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles.

PREMISES AFFECTED—109-07 to 109-17 101st avenue (4453-4459 Jerome avenue), north side, 50 ft. west of 110th street (Block 460, Lots 53-55), Richmond Hill, Borough of Queens.

APPEARANCES—
For Applicant: Edward A. Brown.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE TO AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (114-28-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 109-07 to 109-17 101st avenue (4453-4459 Jerome avenue), north side, 50 ft. west of 110th street (Block 460, Lots 53-55), Richmond Hill, Borough of Queens, was granted by the Board on July 24, 1928 and the resolution was amended on July 9, 1929; and

WHEREAS, the applicant requested a further amendment of the resolution; and

WHEREAS, this case was reopened by vote of the Board on May 22, 1945, restored to the calendar and set for hearing on June 12, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 12, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the decision of the borough superintendent, acting on Misc. Applic. 1345-45, dated April 12, 1945, reads:

"1. As premises are located within a business use district, any increase in area of an existing public garage, is contrary to Article 2, Section 4, Zoning Resolution.

2. As existing building was approved under Cal. 114-28-BZ, any change would have to be approved by the Board of Standards and Appeals."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 24, 1928 as amended July 9, 1929 by adding thereto:

"that in the event the owner desires to add to this garage, a section of the adjoining building located at 109-17 to 109-21 101st avenue, as indicated on revised plans marked 'Received June 8, 1945' showing an area of ap-

proximately 19 ft. by 48 ft. at the rear, such space may be used in connection with this garage during the term of the lease to the City of New York for the Department of Sanitation, *on condition* that any opening from such space to 110th street, shall be blocked up with approved masonry; that in all other respects, the requirements of this resolution shall be complied with and that a Certificate of Occupancy shall be obtained."

531-37-BZ

APPLICANT—Joseph Mosgoffian (lessee), for Annie Zins, owner.

SUBJECT—Application reopened May 15, 1945, for consideration as to extension of variance—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—23-28, 23-30 and 23-32 30th avenue, south side, 91.83 ft. west of Crescent street (Block 572, Lots 37 and 38), Astoria, Borough of Queens.

APPEARANCES—

For Applicant: Joseph Mosgoffian.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (531-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a term of two years, the packing and storage of more than five motor vehicles, affecting premises 23-28, 23-30 and 23-32 30th avenue, south side, 91.83 ft. west of Crescent street (Block 572, Lots 37 and 38), Astoria, Borough of Queens, was granted by the Board on February 7, 1939, on certain conditions; and

WHEREAS, the permit was extended on February 18, 1941 and June 22, 1943 and the applicant requested a further extension of the permit; and

WHEREAS, this case was reopened by vote of the Board on May 15, 1945, restored to the calendar and set for hearing on June 12, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting June 12, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of February 7, 1939 as amended through June 22, 1943 only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a temporary term of two years from the date of this *amended* resolution, to permit the plot to be used for the parking and storage of more than five (5) motor vehicles restricted to the portion of the premises located within the business use district, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of February 7, 1939 as amended through June 22, 1943 shall be complied with and that a certificate of occupancy shall be obtained (M. 411-41 and M. 2254-45)."

786-42-BZ

APPLICANT—Chester A. Cole, for O. J. Heinzmann, owner.

SUBJECT—Application reopened May 22, 1945, for consideration as to extension of variance—Application (decision of the borough superintendent) previously granted on condition, under section 7e of the zoning resolution, for a term of two years, permitting partly in a residence use and partly in a local retail use district, the alteration and conversion of occupancy of an existing building to a factory (tool shop).

PREMISES AFFECTED—8 Crabtree avenue, southwest corner of Bloomingdale road (Block 7092, Lot 61), Rossville, Borough of Richmond.

APPEARANCES—

For Applicant: Chester H. Cole and Mrs. T. L. Heinzmann.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Permit extended.

THE VOTE TO EXTEND PERMIT—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (786-42-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting partly in a residence use and partly in a local retail use district, the alteration and conversion of occupancy of an existing building to a factory (tool shop), for a term of two years, affecting premises 8 Crabtree avenue, southwest corner of Bloomingdale road (Block 7092, Lot 61), Rossville, Borough of Richmond, was granted by the Board on January 19, 1943, on certain conditions; and

WHEREAS, plans were approved on March 16, 1943, as required in the resolution of January 19, 1943; and

WHEREAS, the applicant requested an extension of the permit, which had expired by time limitation; and

WHEREAS, this case was reopened by vote of the Board on May 22, 1945, restored to the calendar and set for hearing on June 12, 1945; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 12, 1945, after the notice by publication in the Bulletin of the Board of Standards and Appeals.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 19, 1943, only in so far as it has reference to the term of the variance, so that as amended, the resolution adopted by the Board January 19, 1943, as amended for approval of plans on March 16, 1943, as to the term of the variance, shall read:

"*Granted* under section 7e for a term of two (2) years from the date of this *amended* resolution, to permit the premises to be occupied by the owner as proposed, *on condition* * * * and that other than as herein *amended,* the conditions of the resolution of January 19, 1943, as amended March 16, 1943, shall be complied with; and that a new Certificate of Occupancy shall be obtained."

26-45-BZ

APPLICANT—Lama & Proskauer, for Harold S. Rogers, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a retail use D area district, and adjoining a residence use district, the erection of a gasoline service station, office, lubritorium, car washing laundry, and also the omission of the required rear yard.

PREMISES AFFECTED—468-478 Forest avenue and 9 City boulevard, southeast corner (Block 259, part of Lots 1 and 6), West Brighton, Borough of Richmond.

MINUTES

APPEARANCES—
For Applicant: Alfred Lama, A. Dubois and Harold S. Rogers.
For Opposition: Paul D. Siegel, Theodore J. Drach, Frank Sweeney, John Burry, P. L. Santori and H. W. Ordeman, office of Borough President.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (26-45-BZ)

WHEREAS, Lama and Proskauer, for Harold S. Rogers, owner, filed January 17, 1945, an application under section 7f of the zoning resolution, to permit in a retail use, D area district and adjoining a residence use district, the erection of a gasoline service station, office, lubritorium and car washing building and also the omission of the required rear yard, affecting premises 468-478 Forest avenue and 9 City boulevard southeast corner (Block 259, part of Lots 1 and 6), West Brighton, Borough of Richmond; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 12, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Forest avenue is in a retail use, D area and Class 1 height district and City boulevard is partly in a retail use and partly in a residence use, D area and Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated December 28, 1944, re N.B. Applic. 100-44, reads:

"1. The erection of this proposed one story non-fireproof structure to be used as an office, gasoline service station, lubritorium and auto laundry, is prohibited in a retail use district, as being contrary to zoning resolution, Art. II, Sec. 4a(46)."

and

WHEREAS, the applicant states the premises consist of a plot, 100.16 ft. frontage by 75 ft. in depth, now vacant on which it is proposed to install a gasoline service station, office, lubritorium and car laundry; and

WHEREAS, the applicant contends that the proposed site has a frontage of 100.16 ft. on Forest avenue, 95 ft. on City boulevard, 45 ft. on the southerly lot line and 75 ft. on the westerly lot line; that the plot is now vacant; that it is proposed to construct a modern gasoline service station, with a building located at the southerly end of the plot approximately 60 ft. frontage and 27 ft. 4 in. in depth, housing an office, lubritorium, car washing stand, waiting room and boiler room; that it is proposed to bury three 1000 gallon gasoline storage tanks and have two islands each having two pumps, same to be constructed of the parkway type; that the present owners have tried to improve this site with numerous conforming uses, but have not been able to get the proper financial help from lending institutions and as it is located on two main automobile thoroughfares, namely Forest avenue and City boulevard; that this site has become suitably adaptable for a modern gasoline service station and it is therefore respectfully requested that this application be granted; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision f, of the zoning resolution.

Resolved, that the decision of the borough superintendent, dated December 28, 1944, re N.B. Applic. 100-44, be and it hereby is *affirmed* and the application be and it hereby is *denied.*

222-45-BZ

APPLICANT—Jules Lewis, for Abgus Realty Corporation, owner.

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in an unrestricted use B area district, the omission of a loading space, as required by section 19-A, in a building changed from its present use as a garage to its former use as a factory.

PREMISES AFFECTED—461-467 10th avenue and 500-504 West 36th street, southwest corner (Block 707, Lot 39), Borough of Manhattan.

APPEARANCES—
For Applicant: Jules Lewis.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (222-45-BZ)

WHEREAS, Jules Lewis, for Abgus Realty Corporation, owner, filed April 12, 1945, an application under section 21 of the zoning resolution, to permit in an unrestricted use, B area district the omission of a loading space as required by Section 19-A in a building to be changed from its present use as a garage to its former use as a factory, affecting premises 461-467 10th avenue and 500-504 West 36th street, southwest corner (Block 707, Lot 39), Borough of Manhattan; and

WHEREAS a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 12, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that 10th avenue and West 35th street are in an unrestricted and retail use, A area and Class 2 height district, and West 36th street is in an unrestricted use, A area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated March 30, 1945, re Alt. Applic. 1040-44, reads:

"7. As premises are changed to factory use, storage and display of goods, exceeding 25,000 sq. ft. in the aggregate, a loading space as required by Sec. 19-A of the Zone Resolution is required."

and

WHEREAS, the applicant states the premises consist of a plot, 74 ft. 1 in. frontage by 100 ft. in depth, on which is located a 6 story, Class 1 construction building, 74 ft. 1 in. by 100 ft. in area, with a certificate of occupancy as a garage, but occupied as a factory and that it is proposed to occupy the building as a factory for manufacture of electronic devices; and

WHEREAS, the applicant contends that the purpose of this application is to appeal from Section 19-A of the zoning resolution, which section was added to the law in 1940, 29 years after the building was erected; that this section requires new or converted buildings devoted to factory or storage purposes, to provide an interior freight driveway and contends that this section does not apply to these premises, the intention is clear that it was to apply to new buildings or buildings not formerly arranged for factory or storage use, converted to such use; that this building was originally arranged and erected as a factory, constructed as a four-story fireproof loft building in 1911; that the approved plans however clearly showed that it was designed for two additional stories; that these two stories were added in 1918, in accordance with approved Alteration Application 15-1918, and approved for use as a factory; that the building today has the same arrangement and is structurally the same as it was in 1918; that if it had not been for a change in use since 1918, no change whatever would have been required to continue its use as a factory; that in 1921, however, due to a depression in business conditions, the factory moved out and

the building was rented out as a storage garage, for which a certificate of occupancy was granted; that the building has been vacant for the last few years; that the present owner purchased the building in good faith as a factory building, using it for the manufacture of electronic devices, under contract with the Army and Navy; that after moving in and work was started, a violation was placed because of change of use; that Alt. Applic. 1040-44 was filed to convert the building back to its original use; that the only objection by the Building Department now existing to such use, is the requirement of Section 19-A of the zoning resolution; that omitting the cellar which is used for dead storage, boiler room, etc., the net area devoted to factory or live storage space is 32,500 sq. ft.; that the amount by which this exceeds the limit of 25,000 sq. ft., is small; that furthermore, there is no need for an interior driveway, as the freight elevator is situated directly at the building line, with an opening to the street at sidewalk level; that the method used for loading or unloading trucks is simple and safe; that the merchandise is carried directly from the elevator door opening, across the sidewalk to the truck standing alongside the curb, or vice versa; that the preponderance of the buildings in the neighborhood are factory buildings, warehouses, garages, etc.; that there are no residences of any kind west of 10th avenue; that the stores on the west side of 10th avenue in this neighborhood are not the type of retail shops that are patronized by local residents, but are more of the nature of factories such as tinsmiths, glass works, etc. and a large number are vacant; that consequently there is very little human traffic in front of these premises; that the building was originally erected as a factory and later converted to a garage; that two thirds (4 floors out of 6) of the use of the garage was for dead storage of automobiles, so that the building has always been used for either factory or storage space; that it is not a new condition as far as Section 19-A is concerned and therefore this section should not be invoked; that it would be a hardship on the owner if he were now compelled to make an alteration to comply with Section 19-A; that there are practical difficulties in carrying out the provisions, as the building is now completely occupied; that an important part of the floor area would be taken up; that it would require this section to be rearranged and reinforced for the driveway and platform; that furthermore, from a practical viewpoint it is completely unnecessary, as with the light manufacturing carried on, no difficulties are being encountered with the present arrangement; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that the applicant failed to substantiate a basis of appeal under section 21 of the zoning resolution and was, therefore, not entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the decision of the borough superintendent, dated March 30, 1945, re Alt. Applic. 1040-44, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

APPEALS FROM ADMINISTRATIVE DECISIONS

460-44-A

APPLICANT—Arnold W. Lederer, for Mary L. Richardson, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn.
APPEARANCES—
For Applicant: Arnold W. Lederer.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to June 19, 1945 at 10 A. M. to be heard in conjunction with Cal. 459-44-BZ.

173-45-A

APPLICANT—Saul Goldsmith, for Welbilt Stove Co., Inc., owner.
SUBJECT—Appeal from a decision re an order of the fire commissioner.
PREMISES AFFECTED—57-18 Flushing avenue, south side, 51.96 ft. west of 59th drive (Block 2649, Lot 86), Maspeth, Borough of Queens.
APPEARANCES—
For Applicant: Saul Goldsmith.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Laid over to June 19, 1945 at 10 A. M. for an inspection by a committee of the Board.

174-45-A

APPLICANT—Saul Goldsmith, for Welbilt Stove Co., Inc., owner.
SUBJECT—Appeal from a decision re an order of the fire commissioner.
PREMISES AFFECTED—57-18 Flushing avenue, south side, 51.96 ft. west of 59th drive (Block 2649, Lot 86), Maspeth, Borough of Queens.
APPEARANCES—
For Applicant: Saul Goldsmith.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Laid over to June 19, 1945 at 10 A. M., for an inspection by a committee of the Board.

211-45-A

APPLICANT—Joel D. Marder, for The Fifth Avenue Bank of New York, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—1-5 West 44th street, north side, 100 ft. west of 5th avenue (1st floor); (Block 1260, Lot 34), Borough of Manhattan.
APPEARANCES—
For Applicant: Joel D. Marder and H. Webb.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Laid over to June 19, 1945 at 10 A. M. in connection with Cal. 210-45-B2.

866-42-A

APPLICANT—Gulf Oil Corporation, owner.
SUBJECT—Application for consideration—reopening and extension of variance—re Appeal from decision of the fire commissioner re packaging of inflammable mixture known as "Gulflex Rubberlube" in one-half gallon glass jugs (capacity of glass jugs not in conformity with Administrative Code specifications); (previously granted on condition for a term of six months).
APPEARANCES—
For Applicant: H. J. Fudenske.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Request to reopen denied.
THE VOTE TO REOPEN—
Affirmative: Chairman Murdock and Commissioner Blum 2
Negative: Commissioner Savage and Deputy Chief Gunn 2

130-45-A

APPLICANT—Ornamental Processing Co., Inc., lessee, for Fuller-Searles Corp., owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—42 West 13th street, south side, 100 ft. east of 6th avenue (3rd floor); (Block 576, Lot 16), Borough of Manhattan.

MINUTES

APPEARANCES—
For Applicant: Solomon Silverstein and Frank M. Coman.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal withdrawn to comply.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

295-45—A

APPLICANT—Deco Products Co., Inc., subsidiary of Disinfecting and Exterminating Corp., lessee, for Majec Realty Co., owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—421 West 126th street, north side, 226 ft. west of Morningside avenue and 416 West 127th street, south side, 225 ft. west of Morningside avenue (1st floor); (Block 1967, Lots 13 and 33), Borough of Manhattan.
APPEARANCES—
For Applicant: C. L. Phillip and P. Brody.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal withdrawn after complete discussion.
THE VOTE TO WITHDRAW—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

560-44-A

APPLICANT—Harry Hurwit, for Flo-El Realty Corp., owner. (L. & J. Caters, Inc., lessee.)
SUBJECT—Application for consideration—reopening and restoration to calendar—re Appeal from a decision of the borough superintendent (previously withdrawn).
PREMISES AFFECTED—85 West Burnside avenue and 2037 Harrison avenue, northeast corner (Block 3210, Lot 65), Borough of The Bronx.
APPEARANCES—
For Applicant: Harry Hurwit.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal reopened, restored to the calendar and granted on condition.
THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0
THE VOTE TO GRANT ON CONDITION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (560-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 85 West Burnside avenue and 2037 Harrison avenue, northeast corner (Block 3210, Lot 65), Borough of The Bronx, was withdrawn on October 31, 1944; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 351-44, dated April 13, 1945, reads:

"1. Proposed increase in the number of occupants is not permissible. This public building must be of fireproof construction; as per Sections 2.1.3.5 and 4.2.1 of the Building Code.

2. Exit facilities from the second floor as shown, are inadequate for the proposed number of occupants, as per Sections 6.1.10 and 6.4.1.8 of the Building Code. The two enclosed stairways are inadequate for 800 people, as per Section 6.1.10 and the exterior stair does not comply with Section 6.4.1.8.1."

and

WHEREAS, the applicant states that the building is 2 stories (26 ft.) in height, 90 ft., 67 ft. and 38 ft. front by 105 ft. irregular in area, of class 1 and class 3 construction, erected in 1923, located in a business use, B area district and used since 1931 as follows: cellar—boiler room, 1st floor—ball room, meeting rooms, catering and stores—275 persons; 2nd floor—same—50 persons; proposed to be used and occupied as follows: 1st floor—ball rooms, meeting rooms, catering, chapel and stores—500 persons; 2nd floor—same—900 persons; that the building is equipped with one interior stairs 5 ft. 6 in. wide, of fireproof construction, leading directly to the street and provided with a ladder and scuttle to the roof and one outside stairs at the rear of the building, leading to the yard by stairs with egress through a passageway to the street; and

WHEREAS, Certificate of Occupancy 30, issued February 11, 1931, permits the use of the building as follows: 1st floor—stores and dance hall—50 persons; 2nd floor—restaurant and catering, dance hall A—100 persons, dance hall B—175 persons, dance hall C—50 persons; and

WHEREAS, the applicant contends that the building was erected in 1923 as a motion picture theatre and stores and a certificate of occupancy was issued for 1400 persons; that in 1931, the building was altered and converted for ball rooms, meeting rooms, catering and stores and a certificate of occupancy issued for 325 persons; that in 1944 under Alt. Applic. 351-44, plans were filed for the construction of a new and additional fireproof enclosed stair from the second story directly to the street and to create a wedding chapel on the 1st floor, which would have two more exits to the street; that upon completion, the building will have one fireproof enclosed stair 5 ft. 6 in. wide leading to Burnside avenue, one fireproof enclosed stair 4 ft. wide leading to Harrison avenue and one 4 ft. wide outside iron stair leading to Harrison avenue; that all of these exists will be remote; that in addition, the chapel will have two 3 ft. 8 in. door leading to Harrison avenue, acting as additional exits from the 1st floor lobby; that this lobby will then have one exit to Burnside avenue and three exits to Harrison avenue, all of which will be remote; that the owners are willing to go to the expense of creating those exits in the hope that plans will be approved for the occupancy of 1400 persons, which were permitted at the time the theatre was erected; that the borough superintendent has disapproved the application, mainly on the grounds that the building is not fireproof; that in order to carry the building, it is necessary to obtain the capacity of 1400 persons as follows: Room A—300 persons; Room B—425 persons; Room C—125 persons; Room D—125 persons; Chapel—375 persons; that in view of the prevailing critical condition in that a license for only 375 persons for the entire building is tantamount to confiscation, it is requested that the Board permit the occupancy of 900 persons on the 2nd floor and 500 on the 1st floor.

Resolved, that the decision of the borough superintendent, as to Alt. Applic. 351-44, objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; as to objection 2, that the permitted occupancy shall not exceed the number which may be lawfully permitted, based on the existing and proposed means of exit; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as varied by the Board in Cal. 836-22-BZ; that the fire areas separated by lawful fire partitions, as required for Class 3 construction, shall be located, constructed and maintained; and that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct and that all requirements of the resolution adopted under Calendar 836-22-BZ shall be complied with as a condition of the variance herein granted.

139-45-A

APPLICANT—Saul Goldsmith, for Hemmerdinger Estate Corporation, owner (Hercules Powder Co., Naval Stores Dept., lessee).

MINUTES

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—80-18 Cooper avenue and 70-27 80th street, southeast corner (1st floor, Building 31); (Block 3806, Lot 2), Glendale, Borough of Queens.

APPEARANCES—

For Applicant: Saul Goldsmith, J. M. Carbonara and J. R. Lafferty.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (139-45-A)

WHEREAS, Saul Goldsmith, for Hemmerdinger Estate Corporation, owner (Hercules Powder Co., Naval Stores Dept., lessee), filed March 7, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 80-18 Cooper avenue, 70-27 80th street, southeast corner (1st floor, Building 31); (Block 3806, Lot 2), Glendale, Borough of Queens; and

WHEREAS, order 96169-LC, issued by the fire commissioner December 15, 1943 and repeated in a decision of the fire commissioner dated February 28, 1945, reads:

"You are hereby notified that an inspection of the above premises used to store and use turpentine, etc., shows the following must be done before the permit requested by you can be issued:

5. Discontinue practice of using tank car as a storage room to fill the drums with different commodities.

6. Provide storage tanks for pine oil, terpene and derivatives which are filled into the drums. The tanks to be used to fill drums instead of tank car. C19-11, Administrative Code."

and

WHEREAS, the applicant states that the building is 1 story (17 ft. 6 in.) in height, 71 ft. 4 in. by 209 ft. 6 in. in area, of class 3 construction, erected in 1942, located in an unrestricted use, A area, class 1 height district and used and occupied since 1943 for storage of combustible materials—5 persons; that the building is equipped with a one source sprinkler system and that Certificate of Occupancy 31918 issued December 29, 1944, permits its use for the storage of non-combustible materials—5 persons; and

WHEREAS, the applicant contends that the building is divided into two areas of 7,000 and 9,000 sq. ft. respectively by an 8 in. masonry wall; that the building is used for the storage of combustible materials and liquids and the liquids are stored in 55 gallon steel drums and solid materials in steel drums and bags; that the filling of combustible liquids is from an outside 8,000 gallon railroad tank car on a private railroad siding; that this tank car is emptied into 55 gallon steel drums by means of an overhead by-pass pump, located outside the filling room within the building, through a hose and trigger nozzle located within the filling room; that the filling room is enclosed in fireproof partitions and kalamein doors; that electric lights and switches are vaporproof and ventilation is by a window to the outer air; that the entire building is sprinklered, as are all of the buildings in the entire terminal; that all of the open yard, court and roadway area is equipped with a yard hydrant system; that the sprinkler system is connected to a central station and is supplemented by a manual watchman service 24 hours a day, requiring hourly reports at a central station; that the 8,000 gallon railroad tank cars are normally emptied in one day into the 55 gallon steel drums, which are delivered to the city customers; that while the materials handled and stored are combustible, none of the materials are inflammable mixtures within the terms of Chapter 19 of the Administrative Code; that all mixtures or oils stored and handled are above the flashpoint of 100 deg. F.; that the following materials are stored and handled in the building:

MATERIAL	QUANTITY	REMARKS
Solvenol	17 drums	126 deg. F. Flash

PAD Resin	1 drum	181 deg. C. Melting
Polypale Ester #1	5 drums	214 deg. C. Melting
Ester Gum BK	1 drum	180 deg. C. Melting
Dresinate	611 bags	Sodium salts

Resolved, that the order of the fire commissioner, 96169-LC, be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to Items 5 and 6, *on condition* that only such materials as have a flashpoint of over 100° F. shall be filled from a railroad tank car into drums as proposed; that the fire fighting equipment as set forth shall be maintained to the satisfaction of the fire commissioner; that the filling shall be done within a fireproof room as indicated on plans filed with this appeal (3 sheets) marked "Received March 7, 1945"; that such fill room shall have a sparkproof floor and shall be fitted with a fixed vent and sash as indicated; that all electrical equipment within such room shall be of the explosionproof type; that all doors to such room shall be fireproof, self-closing; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

178-45-A

APPLICANT—Interborough Engineering Co., for Frank G. Begbie, owner (Shelleys Pastry Shop, lessee).

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—1068 Flatbush avenue, west side, 86.1 ft. south of Beverly road (cellar); (Block 5152, Lot 11), Borough of Brooklyn.

APPEARANCES—

For Applicant: Ribelle Perotto.

For Administration: E. A. Meyer, Fire Dep't.

MINUTES

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (178-45-A)

WHEREAS, Interborough Engineering Co., for Frank G. Begbie, owner (Shelleys Pastry Shop, lessee), filed March 27, 1945, an appeal from a decision re an order of the fire commissioner, affecting premises 1068 Flatbush avenue, west side, 86.1 ft. south of Beverly road (Cellar); (Block 5152, Lot 11), Borough of Brooklyn; and

WHEREAS, order 98339-LC of the fire commissioner, dated March 2, 1945, reads:

"You are hereby notified that an inspection of the above premises, used to store and use fuel oil, shows that the following must be done before the permit requested by you may be issued:

3. Provide that each boiler, heater, range or stove is connected to a separate flue in a legal chimney, Rule 10.1.3, Oil Burner Rules."

and

WHEREAS, the applicant states that the building is 3 stories (34 ft.) in height; 19 ft. 8½ in. by 68 ft. in area at street level, 19 ft. 8½ in. by 50 ft. in area at typical floor, of Class 3 construction; erected in 1909, located in a business use, C area, 1¼ height district, and used and occupied since 1944 as follows: Cellar, boiler and storage; 1st floor, store and bakery, 25 persons; 2nd floor, beauty parlor, 5 persons; 3rd floor, vacant; that no change in use or occupancy is proposed; that the building is equipped with one interior stair at the front of the building, 3 ft. 8 in. wide, of frame construction, extending to the roof bulkhead, enclosed in wire-lath and cement plaster on both sides and equipped with self-closing doors; and

WHEREAS, the applicant contends that one boiler is used for heating the building, except the 3rd floor, which will remain vacant; that the other boiler is used to supply steam to the oven located on the 1st floor; that the oven has its own independent approved metal stack; that the Brooklyn Cornell Utilities, licensed oil burner and heating contractors, installed the second steam boiler and oil burner and connected the smokepipes; that they claim that this connection of two boilers into this chimney is satisfactory, and the boilers have been operating with complete satisfaction for over nine months; that tests made by the above mentioned contractor, show a CO_2 reading of over 10% when the two boilers are operating simultaneously and about the same reading when operating independently of each other; that the chimney is in good condition and has sufficient draft to accommodate the two boilers; that heating engineers and boiler manufacturers will recommend a smaller chimney size for oil burning than for coal burning; that building of another chimney to comply with Rule 12, of the Oil Burner Rules, would constitute a hardship to the owner and an inconvenience to the tenants of the building and it is therefore requested that the appeal be granted.

Resolved, that order 98339-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted* only so long as the conditions proposed and substantially as indicated on plans filed marked "Received March 27, 1945", are maintained and that such dampers shall be installed within the breeching as the fire commissioner may deem necessary.

Adjourned: 1:45 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, JUNE 12, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

726-44-A

APPLICANT—John A. Hawthorne, for Hamlin and Co., Inc., for National Lead Company, owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—109-115 York street, north side, 50 ft. east of Jay street (Buildings 9 and 10 Basement and 1st floors); (Block 54, Lot 12), Borough of Brooklyn.
APPEARANCES—
For Applicant: John A. Hawthorne.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (726-44-A)

WHEREAS, John A. Hawthorne, for Hamlin and Co., Inc., for National Lead Company, owner, filed December 13, 1944 an appeal from an order of the fire commissioner, affecting premises 109-115 York street, north side, 50 ft. east of Jay street (Buildings 9 and 10, basement and 1st floors); (Block 54, Lot 12), Borough of Brooklyn; and

WHEREAS, Order 13802-LF, issued by the fire commissioner, November 14, 1944, reads:

"1. Discontinue the practice of padlocking screens on all windows during working hours. Section 272 of the Labor Law."

and

WHEREAS, the applicant states that the buildings are 1 and 2 stories and basement, Building 9 approximately 36 ft. 6 in. in height and Building 10 approximately 46 ft. in height, of class 3 construction; Building 9 is 36 ft. by 90 ft. in area, Building 10—50 ft. by 90 ft. in area, erected about 1884, located in an unrestricted use, A area, class 2 height district, and used and occupied since 1932 as follows: Building 9—lead melting—2 persons; Building 10: cellar—negative expander—1 low pressure steam boiler, one 8,000 gallon oil tank in 12 in. brick wall with fireproof ceiling—1 person; 1st floor and 2nd floor—miscellaneous storage—no persons normally; that no change in use or occupancy is proposed; that the building is equipped with an approved one source sprinkler system, a standpipe system, an interior fire alarm system and that fire drills are maintained; that there are two interior stairs in Building 10, located at the easterly and northerly sides of the building, approximately 32 in. in width, of wood construction with wood enclosure and wood doors; that a scuttle to the roof is provided, but stairs do not lead directly to the street; and

WHEREAS, the applicant contends that the premises were inspected by the Bureau of Fire Prevention in April 1939 and the plant was found in satisfactory condition, except for the fact that the windows at the basement and first floor levels were protected by metal screens, which were permanently fastened to the window frames; that in view of the request by the inspector that the screens be provided with hinges so that they could be swung open, new screens were purchased and provided with hinges; that the work was completed in June 1939 and the job was found satisfactory with the new hinges on one side of the frames and padlocks and hasp on the opposite side; that in November 1944, when the premises were inspected by the Fire Department, objection was made to the screens being locked with padlocks installed in May 1939; that if the padlocks were removed, the children in the neighborhood would open the screens if they were not locked and break the windows with stones or other missiles; that there is a personal injury hazard to persons working inside the building, and burglary and pilferage hazards; that these buildings are constructed in compliance with the requirements of the building code and are provided with ample vertical and horizontal means of egress; that the hasps that hold the padlocks are fastened in most instances with wood screws in wood window frames and should the Fire Department find it necessary to open

these screens, a pinch bar would open them quickly and without any difficulty; that the exeeption to this rule would be the large window in Building 9, which measures approximately 6 ft. wide by 12 ft. in height; that this screen is permanently fastened to the wall of the building, but the window has small lights of wired glass in solid metal frames; that this situation of screened windows in the buildings in question is no exception to the rule of the surrounding neighborhood; that the adjoining building at 131 York street is a public bath, a New York City building and the building adjoining it, 135 York street, a New York City Public School, which are both equipped with padlocked screened windows, an installation similar in every respect to the one in question; that the number of employees involved in Building 9 is two men and in Building 10, one man occasionally during the day.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in an order of the fire commissioner, acting on Order 13802-LF, Item 1, and that the appeal be and it hereby is *granted on condition;* that the screens on the second story of building No. 10 shall be completely removed; that otherwise, screens on windows as proposed may be permitted, the exits as indicated on revised plans marked "Received June 5, 1945," two sheets, showing exits from buildings No. 9 and 10, shall be maintained; and that in all other respects, the building and occupaney shall comply with all laws, rules and regulations applicable thereto.

151-45-A

APPLICANT—Saul Goldsmith, for West-Eagle Corporation, owner (Pierce Steam Laundry Inc., lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—32-48 Eagle street and 206-212 West street, southeast corner (3rd floor); (Block 2503, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: Saul Goldsmith.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (151-45-A)

WHEREAS, Saul Goldsmith, for West-Eagle Corporation, owner (Pierce Steam Laundry, Inc., lessee), filed March 15, 1945, an appeal from a decision of the borough superintendent, affecting premises 32-48 Eagle street and 206-212 West street, southeast corner (3rd floor); (Block 2503, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, acting on Alt. Applic. 515-45, dated March 6, 1945, reads:

"1. Comply with Section 270 of the Labor Law, as to means of egress from 3rd floor."

and

WHEREAS, the applicant states that the building is two and three stories (40 ft.) in height, 200 ft. by 125 ft. in area; Class 3 construction; located in an unrestricted use, A area and Class 2 height district; erected in 1908 and used and occupied since 1938 as follows: No cellar; 1st floor, factory (steam laundry), 100 persons; 2nd floor, same, 41 persons; 3rd floor, offices, 15 persons, for which Certificate of Occupancy 87803 was issued June 14, 1938; that no change in use or occupancy is proposed; that the building is equipped with an approved two-source sprinkler system and two interior stairs, 3 ft. 8 in. wide of steel construction with brick walls and kalamein, self-closing doors, one stair located at West street and one at Eagle street, one extending at Eagle street to the roof bulkhead and the one at West street, extending to the roof through scuttle; that both stairs lead directly to the street; and

WHEREAS, the applicant contends that the building is equipped with a central station sprinkler alarm; that in 1937, the building was altered by interior structural changes and Certificate of Occupancy 87803 issued; that no change in use or occupancy has taken place since 1937; that the building is provided with two interior stairs, the third floor is served by one stairway; that since 1937, small extensions have been erected at the first floor; that in 1944, a one-story extension was erected under Alt. Applic. 2560-44; that no consideration was given to the upper floor use, as there was no change in occupancy; that it is now intended to construct a second story extension, as filed under Alt. 515-45; that the third floor is used as offices, 15 persons; that egress will be by means of the fireproof stairway and by a ladder from the 2nd floor roof to the adjoining one-story garage to the east, owned by same owner; that in view of the sprinkler with central station alarm, good housekeeping conditions and the owners and tenants being the same principals, also that the building is used for a steam laundry with a non-hazardous use and occupancy, the Board is requested to accept the proposed means of egress from the third floor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 515-45, and that the appeal be and it hereby is *granted* as to Objection 1, *on condition* that the primary means of exit at the third story shall be maintained substantially as indicated on plans filed with this appeal marked "Received March 15, 1945" (4 sheets) and shall be continued to the roof; that, in addition, a door shall be provided from each office section to the adjoining two story roof from which exit may be had to the roof of the one story adjoining garage owned by the same owner, by means of a stair of fire escape construction with not more than a 45 degree pitch to the one story garage roof and thence by means of a counterbalanced stair complying with the requirements of the Labor Law, constructed on the front of the one story garage for exit to grade; that the occupancy of the third floor shall not exceed 15 persons; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

169-45-A

APPLICANT—Lama and Proskauer, for Nayda Holding Corp., owner (Murray Friedland, lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—6625 Bay parkway (6627 displayed), south side, 53 ft. 11¾ in. east of West 8th street (1st floor); (Block 6577, Lot 3), Borough of Brooklyn.
APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (169-45-A)

WHEREAS, Lama and Proskauer, for Nayda Holding Corp., owner (Murray Friedland, lessee), filed March 26, 1945, an appeal from a decision of the borough superintendent, affecting premises 6625 Bay Parkway (6627 displayed), south side, 53 ft. 11¾ in. east of West 8th street (1st floor); (Block 6577, Lot 3), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, on P.A. Applic. 65-45, dated March 16, 1945, reads:

"1. Two means of exit with egress to the street are required. The rear exit thru the kitchen with no direct egress to the street is not acceptable under Local Law #29 Sec. C26-1438.0".

and

WHEREAS, the applicant states that the building is three stories (30 ft.) in height, 26 ft. 5⅝ in. by 69 ft. 9⅞ in., irregular, in area at first floor, 26 ft. 5⅝ in. by 62 ft. in area at typical floor; Class 3 construction; located in a business use, C area, Class 1 height district; erected in 1923 and used and occupied since 1935 as follows: cellar, ordinary; 1st floor, restaurant, 80 persons; 2nd floor, one family; 3rd floor, one family; proposed to be used and occupied as same; that the building is equipped with one interior stairs, 3 ft. 8 in. wide, of wood construction, enclosed in plaster with wood door, not self-closing, leading directly to the street; that there is a scuttle to the roof and one fire escape in the rear, leading to the yard and through the adjoining yard to West 8th Street; and

WHEREAS, Violation 7224-43 was issued December 7, 1943, by the Department of Housing and Buildings for occupying premises as a restaurant without a certificate of occupancy; and

WHEREAS, the applicant contends that the restaurant has been operated for a number of years; that its number of occupants is eighty (80) and two means of exit are required therefor; that while the capacity of the restaurant is 80 persons, including six employees, the premises have never been filled to capacity; that there are only five occupants above the permitted 75; and that there is one exit leading directly to the street with two 2 ft. by 7 ft. double-acting doors and a rear exit, leading to the yard from which there is a door in the fence leading to adjoining property; that in all other respects the building complies with the law; and

WHEREAS, the applicant states that the premises have been occupied as a restaurant by the present owner and his predecessor since 1927 and have been subject to a Certificate of Occupancy 75644, for such restaurant use since 1935.

Resolved, that the decision of the borough superintendent, acting on P.A. Applic. 65-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the number of seatings for the public shall not exceed 75, and that the exits including the exit through the kitchen, shall be maintained; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the total number of occupants, including the help, at no time shall exceed 80; that the door in the fence at the rear yard, providing an exit through the adjoining premises to Bay Parkway, shall be maintained and a consent from the owner shall be filed with the borough superintendent; that during all hours when the restaurant is in operation, all exit doors shall remain unlocked and readily openable and the exit door to yard shall swing outwardly in the direction of exit.

218-45-A

APPLICANT—William Dowling, for Le-Evre Holding Corp., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—18 East 17th street, south side, 225 ft. west of Broadway (Block 844, Lot 32), Borough of Manhattan.

APPEARANCES—

For Applicant: William M. Dowling and Max Weiss.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn 3

Negative: Commissioner Savage 1

THE RESOLUTION (218-45-A)

WHEREAS, William Dowling, for Le-Evre Holding Corporation, owner, filed April 9, 1945, an appeal from a decision of the borough superintendent, affecting premises 18 East 17th street, south side, 225 ft. west of Broadway (Block 844, Lot 32), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated March 19, 1945, on amendment to Alt. 305-45, reads:

"2. Two means of egress should be provided from every floor, as per Section 271 Labor Law. Note that fire escape is not acceptable as means of egress, as top floor is more than 90 ft. above curb level Factory Exit Rules, Board of Standards and Appeals."

and

WHEREAS, the applicant states the building is 8 stories (110 ft.) in height; 25 ft. by 92 ft. in area at 1st floor; 25 ft. by 84 ft. in area at typical floor, of Class 1 construction; erected 1897; located in an unrestricted use, B area, Class 2 height district and used since 1945 as follows: cellar, ordinary; 1st floor, store, 10 persons; 2nd floor, storage of plastics, 10 persons; 3rd floor, storage of men's underwear, 10 persons; 4th floor, offices, 10 persons; 5th floor, storage and manufacture of shawls, 10 persons; 6th floor, offices, 10 persons, 7th floor, storage and manufacture of boy's wear, 10 persons; 8th floor, storage and manufacture of infants wear, 10 persons, and proposed to be used and occupied throughout for manufacturing, 10 persons per floor; that the building is equipped with a standpipe system, an interior fire alarm system and that fire drills are maintained; that there is one 3 ft. wide iron stairs enclosed in fireproof partitions, equipped with fireproof, self-closing doors leading directly to the street and proposed to be extended to the roof, and one fire escape at the rear of the building, leading to the roof by a ladder, with egress from its lowest termination at the 2nd floor level, through 15-17 East 16th street; that windows and doors on the course of the fire escape are fireproof and will be made self-closing; that adjoining buildings to the east and west are of the same height; and

WHEREAS, the owner was convicted, sentence suspended in Magistrates Court on a charge of violation of Section C26-185.0 of the Administrative Code, as a result of violation 2082-44, issued November 24, 1944, for changing the occupancy from office and show room to factory building without obtaining a certificate of occupancy for such use; and

WHEREAS, the applicant contends that the only objection of the borough superintendent to the granting of the approval of Alt. Applic. 305-45 is the fact that the top floor is more than 90 ft. above curb; that while the top floor is 96 ft. above curb, the building is only 8 stories in height; that it is proposed to replace the present fire escape with one in strict accordance with the requirements of the Labor Law and to do all the work required to comply with the Labor Law and the rules and regulations of all departments having jurisdiction; that the owner will restrict the occupancy of the top floor to ten persons; and

WHEREAS, an order was issued by the Division of Fire Prevention of the Fire Department, December 8, 1944, requiring that self-closing attachments be installed on doors leading to the stairway enclosure on all stories; that defective shutters be repaired or replaced and that iron shutters on the windows in rear be properly painted; and

WHEREAS, Violation 1299 issued March, 1945, by the Department of Housing and Buildings requires that the 4th, 5th and 8th floor doors to elevator be repaired, so that they can not be opened from the outside; and

WHEREAS, the applicant states that an order issued by the Fire Prevention Division of the Fire Department December 8, 1944, will be complied with and that Violation 1299-45 will be complied with as part of this alteration.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent, acting on amendment to Alt. 305-45, Objection 2, and that the appeal be and it hereby is *granted on condition* that the primary means of exit and the secondary means of exit, consisting of a fire escape originally erected under the requirements of the Building Code, shall be maintained, provided such fire escape is made to comply with the requirements of the Labor Law in all respects; that the exit from the rear fire escape shall be maintained through the adjoining premises, as indicated on revised plans marked "Re-

ccived May 13, 1945" (two sheets), and the consent of the adjoining owner, for such exit to East 16th street, shall be filed with the borough superintendent; that the number of occupants per floor shall not exceed 10 at factory work; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, as proposed and as may be required for complete compliance with the Labor Law, Building Code and all other laws, rules and regulations applicable thereto; and that the building shall not be increased in height or area.

297-45-A

APPLICANT—Henry George Greene, for 44th Realty Corporation, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—10-12 East Van Cortland avenue, south side, 29 ft. 6 in. west of Villa avenue (Block 3322, Lot 29), Borough of The Bronx.
APPEARANCES—
For Applicant: Henry George Greene.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (297-45-A)

WHEREAS, Henry George Greene, for 44th Realty Corporation, owner, filed May 17, 1945, an appeal from a decision of the borough superintendent, affecting premises: 10-12 East Van Cortland avenue, south side, 29 ft. 6 in. west of Villa avenue, (Block 3322, Lot 29), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, acting on amendment to Alt. Applic. 169-45, dated May 7, 1945, reads:

"7. Provide two interior fireproof stairways from second floor, remote from each other and enclosed in three hour partitions, as per Sec. 270 of Labor Law."

and

WHEREAS, the building is two stories (25 ft.) in height, 88 ft. 6 in. by 122 ft. 6 in. in area; Class 1 construction; located in a business and residence use, B area, Class 1¾ height district; erected in 1927 and used and occupied since 1945 as follows: Cellar, boilerroom; 1st and 2nd floors, garage for more than five cars; proposed to be used and occupied: Cellar, same; 1st floor, factory for manufacture of electric parts, 20 persons; 2nd floor, factory and offices, 40 persons; that Certificate of Occupancy 1872 was issued October 4, 1927, for use of the building as a public garage, upon variation granted by this Board for such use in 1927 (Cal. 125-27-BZ); that the building is equipped with one interior stairs at the front, constructed of iron, 3 ft. 8 in. wide, enclosed with terra cotta blocks and equipped with fireproof, self-closing doors; that there is one fire escape at the front, extending to the roof by a ladder and to the street by counterbalanced stairs; that windows and doors along the course thereof are fireproof, self-closing; and

WHEREAS, the applicant contends that it is proposed to change the sliding ladder of the fire escape to a 3 ft. 8 in. counterbalanced stair, in addition to the new 3 ft. 8 in. wide steel stair, as shown on plans filed with this appeal, the westerly enclosure around the new stairway at the second floor level is 2 in. by 4 in. studs with sheet rock on both sides; it is proposed that this enclosure be filled with rock wool; that the occupancy of the floor is comparatively light, with a portion used for offices and storage; that the proposed egress would be more than sufficient for the number of persons to occupy this floor; that the present ramp will be available in an emergency.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on amendment to Alt. Applic. 169-45, and that the appeal be and it hereby is *granted* as to Objection 7, *on condition* that the primary means of exit as indicated on plans filed with this appeal marked "Received May 17, 1945" (2 sheets), shall comply with the requirements of the Labor Law and the Building Code; that a second means of exit, consisting of an exterior fire escape as shown with counterbalanced stairs to street, shall be maintained; that the existing ramp to street may be maintained, but shall not be deemed as meeting the requirements for an exit; that the stair enclosure as indicated, shall be of fireproof material as required for stair enclosures; that if any portion of the building is within the residence district, such portion of the building shall be left vacant; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as varied under application 125-27-BZ, for a variance to permit the erection of the garage building within the business use district, there having been no representation that any part of the building was to be in a residence use district.

313-45-A

APPLICANT—Ervin Palmer, for East River Savings Bank, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—360-368 East 167th street and 1140 Teller avenue, southeast corner (2nd floor); (Block 2429, Lot 15), Borough of The Bronx.
APPEARANCES—
For Applicant: Ervin Palmer.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (313-45-A)

WHEREAS, Ervin Palmer, for East River Savings Bank, owner, filed May 22, 1945, an appeal from a decision of the borough superintendent, affecting premises 360-368 East 167th street, and 1140 Teller avenue, southeast corner (2nd floor); (Block 2429, Lot 15), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated May 17, 1945, on amendment to Alt. Applic. 221-45, reads:

"4. Means of egress from second floor is inadequate if fire escape is not to be considered. Fire escape should conform to Sec. 274 of the Labor Law. All windows on course of fire escape should be fireproof self-closing."

and

WHEREAS, the applicant states the building is 2 stories (24 ft.) in height; 75 ft. by 99 ft. in area at 1st floor; 44 ft. by 44 ft. in area at typical floor, of Class 3 construction; erected June, 1913, located in a business use B area, Class 1¼ height district and used and occupied since 1926 as follows; 1st floor, meeting hall, 120 persons; 2nd floor, meeting room, 120 persons; proposed to be used and occupied—1st floor, factory, stores and one car garage; 2nd floor, factory, 38 persons; total factory area to be less than area of plot and of a type permitted in a business use district; that the building is equipped with one 3 ft. 8 in. wide steel stairway with marble treads, enclosed in 4 in. terra cotta block partitions, equipped with fireproof, self-closing doors and leading directly to the street; that an exterior ladder, accessible from the extension roof, is provided, leading to the main roof; that the building is also equipped with one fire escape at the front, leading to the roof by a ladder and to the street by counterbalanced ladder; that window and door openings on the course of the fire escape will be made fireproof, self-closing; and

WHEREAS, Certificate of Occupancy 195, issued Sep-

tember 27, 1922, on Alt. 257-22, permitted the use of the 2nd story brick building as bowling alley and dance hall with 120 persons on the 1st floor and 100 persons on the 2nd floor; and

WHEREAS, the applicant contends that the building was erected in 1913 as a motion picture theatre, plans were filed June 21, 1913, approved July 8, 1913, construction started August 5, 1913; that there is no record covering the progress of the work, but Inspector's final report indicates that the work had been completed on January 21, 1914; that that is really an indication the inspector then signed off the job; that substantial completion of this building, consisting of walls and roof (no cellar) should not have taken more than two or three months, which would have put its date of completion before October 1, 1913; that the building underwent several subsequent alterations and changes of use, but at no time was there an increase in size or bulk; that the building has been used as a showroom, restaurant, cabaret, bowling alley and meeting hall; that the exit facilities are far better than would be required for a building erected before October 1913; that the 2nd floor area is very small; that if required to construct the exits to comply with the law for buildings erected after October 1913, would entail structural and financial difficulties; it is therefore requested that the Board declare this building was erected prior to October 1, 1913 and that the law as relating to exits for buildings erected prior to such date be applied to this building.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 221-45, and that the appeal be and it hereby is *granted* as to objection 4, *on condition* that the primary means of exit as indicated on plans filed with this appeal marked "Received May 22, 1945," shall be maintained as well as the door opening outwardly to the one story roof from such stair platform at the second story level; that an iron ladder shall be installed and maintained from the one story adjoining garage roof to the yard level; that, in addition, a second means of exit shall be maintained as proposed, consisting of a Labor Law fire escape with counterbalanced ladder to grade with all openings on the course of the fire escape fire-retarded and made fireproof and self-closing; that the floor load of the second floor shall be not less than 120 lbs. per superficial foot; that the building shall not be increased in height or area; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

335-45-A

APPLICANT—Irving P. Marks, for Empire Electric Co., Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—87-93 Jay street, east side, 90 ft. north of York street (2nd floor); (Block 54, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Irving P. Marks.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Ginn 4

Negative: 0

THE RESOLUTION (335-45-A)

WHEREAS, Irving P. Marks, for Empire Electric Co., Inc., owner, filed June 4, 1945, an appeal from a decision of the borough superintendent, affecting premises 87-93 Jay street, east side, 90 ft. north of York street (2nd floor); (Block 54, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, re Alt. Applic. 1530-45, dated May 25, 1945, reads:

"1. Comply with Section 270 of the Labor Law as to providing two remote means of egress from 2nd floor, consisting of incombustible stairs 3 ft. 8 in. wide in fireproof enclosure extending to street."

and

WHEREAS, the applicant states the premises consist of a plot 75 ft. by 135 ft. in area, located in an unrestricted use, A area, Class 2 height district, upon which is located a building 72 ft. by 135 ft. in area, 1 story and mezzanine—35 ft. in height, Class 1 and 3 construction; that the north wing is one story and mezzanine, 35 ft. in height, consisting of cellar, first floor and mezzanine, 40 ft. by 135 ft. in area at street level, of Class 1 construction, erected prior to 1913, for which no certificate of occupancy has been issued; that the south wing is 1 story, 16 ft. high at front and 29 ft. high in rear, consisting of a cellar and 1st floor, 32 ft. by 135 ft. in area at street level, of Class 3 construction, erected prior to 1913, for which no certificate of occupancy has been issued; that the building is used and occupied as follows: North wing, cellar-storage of electric motors, no persons; 1st floor, same, 5 persons; mezzanine, offices, 5 persons; no change in use or occupancy is proposed; South wing: Cellar, boilerroom, no persons; 1st floor, storage and repair of electric motors, 14 persons; proposed to be used and occupied: Cellar, same; 1st floor, same; 2nd floor, offices, 5 persons; and

WHEREAS, the applicant states that with respect to the north wing, the only change in occupancy proposed is on the mezzanine floor from office (5 people) to storage of electric motors (no people); that the only alteration proposed is the erection of a Labor Law fire escape at the front of the building, providing a secondary means of egress from the proposed 2nd floor of the south wing; that with respect to the south wing, it is proposed to occupy the proposed 2nd floor as an office (5 people); that in connection with the alteration involved, it is proposed to rebuild the front wall of the 1st floor with face brick; level off the roof to provide for the proposed 2nd floor; construct the front of proposed 2nd floor; with face brick and the south wall with new common brick; construct the proposed new roof of 5-ply tar and felt roofing and rubberoid cap; to provide a new enclosed iron stairway 5 ft. 8 in. wide from proposed 2nd floor to the vestibule of 1st floor, with direct exit to the street; to fire-retard said stairway enclosure walls, under side of stairs and ceiling with wire lath and two coats of gypsum plaster, the walls of the enclosure being so treated on both sides; to provide a Labor Law fire escape, consisting of a balcony and counterbalanced stairway at the front of the building, to provide a secondary means of egress from the proposed 2nd floor; and

WHEREAS, the applicant contends that there are practical difficulties and unnecessary hardships in complying strictly with the requirements of the Labor Law; that in view of the fact the building occupies 100% of area of lot, it would be impossible to provide a second (and remote) fireproof stairway leading directly to street, without the construction of a fireproof passageway through the building, which would take up so much space as to defeat the purpose of the proposed alteration, which is to provide more space and would be so costly as to make the entire project impracticable; that the proposed enclosed iron stairway and proposed Labor Law fire escape will provide adequate means of egress for the limited occupancy of office (5 people) on the proposed 2nd floor; the proposed fire escape has been planned at the front so as not to interfere with the exits from the north and south wings of the building and it will be clear of the driveway entrance into the building; and that in view of the foregoing, it is respectfully requested that the decision of the borough superintendent be modified, so as to permit the erection of the proposed iron stairway in a fire-retarded enclosure and the proposed fire escape, subject to such conditions and safeguards as the Board may deem necessary.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor

Law as cited in a decision of the borough superintendent on Alt. Applic. 1530-45, and that the appeal be and it hereby is *granted,* as to objection 1, *on condition* that the primary means of exit, complying with the requirements of the Labor Law, shall be maintained from the second floor to street as proposed and as indicated on plans filed with this appeal marked "Received June 4, 1945" (3 sheets); that the second means of exit from such second floor space shall be maintained by means of a fire escape balcony and counter-balanced stair to grade complying with the requirements of the Labor Law, as indicated on such plans; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

356-45-A

APPLICANT—Louis A. Brown, for Certified Queens Homes, Incorporated, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—221-23 to 223-09 130th avenue, north side, 1662 ft. east of Springfield boulevard, 221-20 130th avenue, southwest corner of 222nd street, 222-04 to 222-20 130th avenue, south side, from 222nd to 223rd streets and 130-03 to 130-11 223rd street, southeast corner of 130th avenue (Block 12825, part of Lot 480 (42-52); Block 12899, part of Lot 250 (105); Block 12900, part of Lot 32 (110-114, inclusive) and Block 12901, part of Lot 329 (309-311)), Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Norman W. Zaubler.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn	4
Negative:	0

THE RESOLUTION (356-45-A)

WHEREAS, Louis A. Brown, for Certified Queens Homes, Incorporated, owner, filed on June 8, 1945, an appeal from a decision of the borough superintendent, affecting premises: 221-23 to 223-09 130th avenue, north side, 1662 ft. east of Springfield boulevard (Block 12825, part of Lot 480), (proposed Lot Nos. 42-52), 222-20 130th avenue, southwest corner of 222nd street (Block 12899, part of Lot 250), (proposed Lot 105); 222-04 to 222-20 130th avenue, south side, between 222nd and 223rd streets (Block 12900, part of Lot 32), (proposed Lots 110-114, inc.); 130-03 to 130-11 223rd street, southeast corner of 130th avenue (Block 12901, part of Lot 329), (proposed Lots 119-121), Springfield Gardens, Borough of Queens; and

WHEREAS, the decision of the borough superintendent dated June 7, 1945, on N. B. Applics. 288-45, 291 to 295-45, 298 to 311-45, read:

> "1. The erection of a wood frame structure in a business use district is contrary to Sec. 4.1.2., Building Code."

and

WHEREAS, the applicant states that the premises consist of three plots located in a business use, D area, Class 1 height district and one plot located in a business and residence use, D area, Class 1 height district, which it is proposed to subdivide into separate lots and to erect on each separate lot, a one story one family frame dwelling, brick veneered to the plate line and surfaced on the exterior above plate line with wood siding or incombustible siding and roofs to be surfaced with approved asphalt shingles; that each dwelling will be 25 ft. in width by 33 ft. 8 in. in depth; and

WHEREAS, the plot on the north side of 130th avenue, 1662 ft. east of Springfield boulevard, will be divided into 11 lots, 40.5 ft. by 112.18 ft. in area and the dwellings will be set back from 130th avenue not less than 20 ft. into which set back, front entrance steps will project; that side yards will be provided for these dwellings, 5 ft. 6 in. in width along the proposed westerly lot lines and 10 ft. in width along the proposed easterly lot lines; that chimney breasts and side entrance steps will project into side yards; and

WHEREAS, the plot located at the southwest corner of 130th avenue and 222nd street will be 40 ft. in width by 100.81 ft. in depth; that the dwelling to be erected thereon will be set back from 130th avenue a distance of 25 ft. into which set back front entrance steps may project and will be provided with a side yard along the westerly lot line of 10 ft. in width and will be set back from 222nd street approximately 5 ft.; that the chimney breast and side entrance steps will project into side yard; and

WHEREAS, the plot located on the side south of 130th avenue between 222nd street and 223rd street, will be divided into five lots, each 40 ft. in width, 100.73 ft. in depth and on each lot the proposed dwellings will set back from 130th avenue not less than 20 ft. and will be provided with side yards, 10 ft. and 5 ft. in width respectively, and the corner dwellings will be set back from 222nd street and 223rd street a distance of 5 ft.; that front entrance steps will project into front setbacks on the 130th avenue front and chimney breasts and side entrance steps will project into side yards or into 222nd street and 223rd street setbacks; and

WHEREAS, the plot located at southeast corner of 223rd street and 130th avenue and having a frontage of 109.01 ft. on 130th avenue, will be subdivided into three separate lots, 43.08 ft., 40 ft. and 40 ft. respectively, and a dwelling erected on each of these lots to be set back from 223rd street front not less than 20 ft. into which set back front entrance steps may project; that side yards will be provided on the southerly side of these dwellings not less than 10 ft. in width and on the northerly side of not less than 5 ft. in width; that the corner dwelling (130-03 223rd street) will be set back from 130th avenue approximately 8 ft.; that chimney breasts and side entrance steps will project into side yards or into the 130th avenue setback; and

WHEREAS, the applicant contends that it is ready to start the construction of 123 one family houses under the H-2 housing program of the F.H.A.; that approval has been obtained from the Priorities Division of the F.H.A. under No. 2-012-000183; that the type of construction and costs are limited to a sales price of $7,000. It would therefore be almost impossible to comply with the requirements of construction in the fire limits; that the priorities for this development have been issued to alleviate the housing shortage for veterans and other hardship cases.

Resolved, that the decision of the borough superintendent as to N.B. Applications 288-45, 291 to 295-45, and 298 to 311-45, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that each plot and building thereon shall comply substantially to the requirements for a building located in an E residence zone and otherwise shall be constructed as proposed; that each building shall be limited to a residence for one family; that in the event the owner desires to construct a private garage as accessory to the residence on the lot occupied by any one of these buildings, such garage may be erected if constructed of class 3 construction to the plate line and located not nearer than one ft. to the side and rear lot lines, with roofs surfaced with approved asphalt shingles or other incombustible materials and the rear walls, if of frame construction above the plate line, shall be brick filled between studs or if such garages are constructed of frame construction, they shall be masonry veneer to the plate line and constructed above the plate line and otherwise as above

required; that in all other respects, the buildings and occupancy shall comply with all laws, rules and regulations applicable thereto.

520-43-A

APPLICANT—Lewyt Corporation, for Gretch Building, No. 4, owner.
SUBJECT—Application for consideration—reopening and amendment of resolution—re Appeal from an order and decisions of the fire commissioner.
PREMISES AFFECTED—54-82 Broadway, southeast corner of Wythe avenue (Basement, 2nd, 8th and 10th floors); (Block 2130, Lot 5), Borough of Brooklyn.
APPEARANCES—
For Applicant: Ione C. Reed.
ACTION OF BOARD—Appeal reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (520-43-A)

WHEREAS, this appeal from an order and decisions of the fire commissioner, affecting premises 54-82 Broadway, southeast corner of Wythe avenue (basement, 2nd, 8th and 10th floors); (Block 2130, Lot 5), Borough of Brooklyn, was granted by the Board on December 14, 1943, on certain conditions; and

WHEREAS, the resolution was amended on May 23, 1944 and September 26, 1944 and the applicant requested a further amendment of the resolution; and

WHEREAS, the panic bolts as manufactured by the Monarch Lock Company, have been approved under Cal. No. 156-43-SM.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on December 14, 1943, so that as amended the resolution shall read:

"*Resolved,* that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in an order of the fire commissioner, Order 10992-LF, Item 1, dated August 7, 1943, and that the appeal be and it hereby is *granted on condition* that panic bolts shall be installed on such doors as are indicated on the basement, 2nd, 8th and 10th floors where marked to be so installed on plans filed with this appeal marked "Received December 3, 1943;" that such panic bolts shall be of an approved type (Monarch Lock Company, Cal. 156-43-SM); that the Board of Standards and Appeals does hereby *make a variation* of the requirements of the Labor Law and the Rules of the Board for Smoking in Factories, as cited in a decision of the fire commissioner, dated November 24, 1943, and that the appeal be and it hereby is *granted on condition* that smoking shall be permitted only in those areas as indicated on plans filed with this appeal marked "Received December 3, 1943" on the 2nd floor marked "offices" and on the 8th floor marked "offices"; that suitable receptacles shall be maintained within such spaces as the fire commissioner shall direct; that the sprinkler system and standpipe system shall be maintained throughout the building in accordance with the requirements therefor; that proper signs indicating "no smoking" within the factory, shall be posted and proper signs shall also be posted where smoking is herein permitted; that such portable fire fighting appliances shall be maintained in such spaces as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that these variances as to smoking and panic bolts shall continue only during the term of the present emergency."

SUBJECT—Application for consideration—reopening and amendment of resolution to include the corrected N.B. number—re Appeal from decision of the borough superintendent.
PREMISES AFFECTED—Block bounded by East Houston street to East 6th street, between Avenue D and East River Drive (Lillian Wald Houses); (Block 356, Lot 1), Borough of Manhattan.
APPEARANCES—
For Applicant: Louis S. Joseph.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (170-45-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises; block bounded by East Houston street to East 6th street, between Avenue D and East River Drive (Lillian Wald Houses); (Block 356, Lot 1), Borough of Manhattan, was granted by the Board on April 10, 1945, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of April 10, 1945 so that as amended the resolution shall read:

"that the decision of the borough superintendent on N.B. Applications 51 to 71-45 (former applications N.B. 214 to 233-44 inclusive) as to incinerator hopper doors, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed incinerator hopper assembly of the type approved by the Board as meeting the requirements for a one hour rating may be installed."

171-45-A

APPLICANT—New York City Housing Authority, owner.
SUBJECT—Application for consideration—reopening and amendment of resolution to include the corrected N.B. numbers—re Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—Block bounded by East Houston street to East 6th street between Avenue D and East River Drive (Lillian Wald Houses); (Block 356, Lot 1), Borough of Manhattan.
APPEARANCES—
For Applicant: Louis S. Joseph.
For Administration: Fred Dahlem, Dep't. of Housing and Buildings.
ACTION OF BOARD—Appeal reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (171-45-A)

WHEREAS, New York City Housing Authority, owner, filed February 26, 1945 an appeal from a decision of the borough superintendent affecting premises: Block bounded by East Houston street, East 6th street, Avenue D and East River Drive (Block 356, Lot 1), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated February 6, 1945, on N. B. Applications 214 to 230-44, reads:

"This refers to your letter of February 2, 1945, regarding the use of a minimum total thickness of concrete columns of 11½ inches.

You are advised that this Department may not approve a reinforced concrete column less than 12 inches in minimum dimension."

and

WHEREAS, the applicant states that the buildings in question will be class 1 construction, four of which will be ten stories and twelve will be 13 stories in height, occupied as multiple dwellings for 1805 families, located in a residence and retail use, D area class 1 height district; and

WHEREAS, the applicant contends that the Building Code provides in Section 8.5.26, that principal reinforced concrete columns shall have a minimum total thickness of 12 inches; that the American Concrete Institute Regulations for Reinforced Concrete which were the result of a study made by the Joint Committee of the American Concrete Institute, reflect later thinking in the field of concrete and reinforced concrete than the Building Code; that Section 1101 of the Regulations adopted by the American Concrete Institute states in part: "Principal columns in buildings shall have a minimum diameter of 12 inches, or in the case of rectangular columns, a minimum thickness of 10 inches, and a minimum gross area of 120 square inches"; that it is proposed to use principal columns having a minimum dimension of 11½ inches, square columns having, therefore, a gross area of 132 square inches; that the minimum dimension and minimum area proposed are above the minimum adopted by the American Concrete Institute; that the reinforcing design of the columns is based on the actual cross section area, thus providing adequate safety; that the use of 11½ inch columns will prove considerably more economical and practicable, because of the elimination of waste in the construction of the forms, and in addition by providing more available space; that in view of the fact that the recommended practices as adopted in 1941 by the American Concrete Institute are generally accepted in structural design, it is requested that this appeal be given favorable consideration; and

WHEREAS, the applicant proposes that the columns be 11½" square and that the proposed dimensions are within the limitations for rectangular columns as provided in Sec. 1101 of the American Concrete Institute's Building Regulations for Reinforced Concrete, ratified July 21, 1941 (ACI 318-41); and

WHEREAS, the columns in all other respects will be designed and proportioned for the loading and restraint conditions in accordance with the pertinent provisions and stresses of the Administrative Building Code; and

WHEREAS, this appeal was granted by the Board on April 10, 1945, on certain conditions and the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of April 10, 1945, so that as amended, the resolution shall read:

"*Resolved,* that the decision of the borough superintendent, acting on N.B. Applications 214 to 230-44, inclusive, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the construction shall be substantially as proposed and shall be designed, in accordance with the foregoing clause.

Resolved further, that decision of the borough superintendent on N.B. Applications 55 to 71-45 (former applications, N.B. 214 to 230-44 inclusive) be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the construction shall be substantially as proposed and shall be designed in accordance with the foregoing clause."

ZONING APPLICATIONS

497-23-BZ

APPLICANT—Edwin W. Kleinert, for Bedford President Garage, Inc., lessee; for 1590 Bedford Avenue Corporation, owner.
SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 21 of the zoning resolution, permitting in a business use district, the alteration and conversion of occupancy of part of a garage for more than five motor vehicles (prev. denied by Board and granted by the Court) so as to form an alcove gasoline service station.
PREMISES AFFECTED—1572-1590 Bedford avenue and 1049-1057 President street, northwest corner (Block 1273, Lot 46), Borough of Brooklyn.
APPEARANCES—
For Applicant: Edwin W. Kleinert.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and time extended.
THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (497-23-BZ)

WHEREAS, this application, to permit in a business use district, the erection and maintenance of a garage for the storage of more than five motor vehicles, affecting premises 1572-1590 Bedford avenue and 1049-1057 President street, northwest corner (original address 1578-1586 Bedford avenue); (Block 1273, Lot 46), Borough of Brooklyn, was denied by the Board October 3, 1924; and

WHEREAS, the action of the Board was reversed by the court and the garage erected and occupied; and

WHEREAS, the resolution of the Board was amended April 11, 1939, permitting the inclusion of an alcove gasoline service station, time extended April 29, 1941, May 12, 1942, May 18, 1943 and May 31, 1944 and the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 3, 1924, as reversed by the Court and as amended through May 31, 1944, only so far as it has reference to obtaining permits and completion of work, so that as amended, this portion of the resolution shall read:

"* * * that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as *amended* herein the conditions of the resolution of April 11, 1939, shall be complied with and that a certificate of occupancy shall be obtained."

575-25-BZ

APPLICANT—Reginald S. Hardy, for Sophie Himmelstein, owner. (507 Flatbush Avenue Corporation, lessee).
SUBJECT—Application for consideration—reopening and amendment of resolution—re Application (decision of the borough superintendent) previously granted on condition under section 7i of the zoning resolution, permitting in a business use district, the change of occupancy of a garage for more than five motor vehicles, to a garage for more than five motor vehicles, repair shop and service station, showroom and sales place for motor vehicles.
PREMISES AFFECTED—1-11 Lefferts avenue, 507-511 Flatbush avenue, northeast corner and 1118-1128 Washington avenue (Block 1197, Lot 1), Borough of Brooklyn.
APPEARANCES—
For Applicant: Reginald S. Hardy.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and resolution amended.
THE VOTE TO REOPEN AND AMEND RESOLUTION—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (575-25-BZ)

WHEREAS, this application under section 7e of the zoning resolution permitting in a business use district the erection and maintenance of a garage for more than five motor vehicles, affecting premises 1-11 Lefferts avenue, 507-511 Flatbush avenue, northeast corner and 1118-1128 Washington avenue (Block 1197, Lot 1), Borough of Brooklyn, was granted by the Board on November 4, 1925, on certain conditions; and

WHEREAS, on April 6, 1926, the resolution was amended relative to ramps and plans were approved; and

WHEREAS, on December 19, 1944, the resolution was further amended under section 7i, to include a motor vehicle repair shop for a term of seven (7) years; and

WHEREAS, the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 4, 1925, as amended through December 19, 1944, only so far as it has reference to obtaining permits and completion of work, so that as amended this portion of the resolution shall read:

"* * * that all permits shall be obtained and all work completed within six (6) months from the date of this *amended* resolution, and by adding thereto: that in the event the owner desires to occupy a portion of the 2nd floor as a parts department, such use may be permitted and a dumb waiter complying with the requirements may be constructed, to connect such parts department with the cellar, *on condition* that in all other respects, the building and occupancy shall comply with the requirements of the resolution as adopted December 19, 1944; that such parts department shall not exceed an area of approximately one-third of the area of the second floor and shall be separated from the balance of the second story by means of a grille or other incombustible partition from floor to ceiling."

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (604-37-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district for a temporary period, the storage and parking of more than five motor vehicles, affecting premises 266-276 Clarkson avenue, south side, 139 ft. 7½ in. west of Nostrand avenue (Block 5068, Lots 41 and 46), Borough of Brooklyn, was granted by the Board on June 7, 1939, on certain conditions; and

WHEREAS, the permit was extended on June 17, 1941 and June 15, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 7, 1939, as amended through June 15, 1943, only so far as it has reference to the term of the variance, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two years from the date of this *amended* resolution, to permit the parking and storage of more than five motor vehicles, *on condition* * * * that other than as herein *amended,* the conditions of the resolution of June 7, 1939 shall be complied with and that a certificate of occupancy shall be obtained."

931-38-BZ

APPLICANT—Henry Nordheim, for Antonio DePunte, owner.
SUBJECT—Application for consideration, reopening and extension of variance—re Application (decision of the borough superintendent) previously granted on condition under section 21 of the zoning resolution, permitting in a residence district, the storage of more than three motor vehicles and amended through June 22, 1943, under section 7f.
PREMISES AFFECTED—252 East 203rd street, south side, 72.84 ft. east of Valentine avenue (Block 3308, Lots 50 and 51), Borough of The Bronx.
APPEARANCES—
For Applicant: Henry Nordheim.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and permit extended.
THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (931-38-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a residence use district, for a term of two years, the storage of more than three (3) motor vehicles, affecting premises 252 East 203rd street, south side, 72.84 ft. east of Valentine avenue (Block 3308, Lots 50 and 51), Borough of The Bronx, was granted by the Board May 23, 1939, on certain conditions; and

WHEREAS, under section 7f of the zoning resolution, the permit was extended on May 6, 1941 and June 22, 1943; and

WHEREAS, the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 23, 1939, as amended through June 22, 1943, only so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"*Granted* under section 7f for a temporary term of two (2) years from the date of this *amended* resolution, to permit the storage of not over eight motor vehicles, *on condition* * * * that other than as herein *amended,* the conditions of the resolution of May 23, 1939 shall be complied with and that a certificate of occupancy shall be obtained."

932-38-BZ

APPLICANT—R. McClintock Robinson, for Arthur J. Schutz (lessee), for Long Island Railroad, owner.
SUBJECT—Application for consideration—reopening and extension of permit—Application (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles.
PREMISES AFFECTED—Hillside avenue, bounded by Bessemer street and Babbage street (land under L.I.R.R.); (Block 3258, Lot 54 and Block 9262, Lot 180), Richmond Hill, Borough of Queens.
APPEARANCES—
For Applicant: Arthur J. Schutz.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

THE RESOLUTION (932-38-BZ)

WHEREAS, this application under section 7h of the zoning resolution, permitting in a business use district, for a term of two years, the parking and storage of more than five motor vehicles, affecting premises Hillside avenue, bounded by Bessemer and Babbage street (land under L. I. R. R.), (Block 9262, Lot 180 and Block 3258, Lot 54), Richmond Hill, Borough of Queens, was granted by the Board June 13, 1939, on certain conditions; and

WHEREAS, the permit was extended on June 10, 1941 and June 15, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 13, 1939, as amended through June 15, 1943, only so far as it has reference to the term of the variance, so as amended, this portion of the resolution shall read:

"*Granted* under section 7h for a term of two years from the date of this *amended* resolution, to permit the parking and storage of more than five motor vehicles, *on condition* * * * that other than as herein *amended,* the conditions of the resolution of June 13, 1939, shall be complied with; and that a certificate of occupancy shall be obtained (Corr. 1790-38)."

796-23-BZ

APPLICANT—Lama and Proskauer, for 1507-1535 Coney Island Avenue Corporation, owner.
SUBJECT—Application for consideration—reopening as to additional use—re Application (decision of the borough superintendent) previously granted on condition under section 21 of the zoning resolution, to permit in a business use district, the alteration of a garage and gasoline service station, to include a room for display and sale of new and used cars.
PREMISES AFFECTED—1507-1537 Coney Island avenue and 1101-1111 Avenue L, northeast corner (Block 6722, Lot 49), Borough of Brooklyn.
APPEARANCES—
For Applicant: Alfred A. Lama.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened and restored to the calendar, subject to usual procedure.
THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

120-33-BZ

APPLICANT—Thomas Nunley, for Eadie, Nunley, Gale and Rosenholz, for Harry Hugger, owner.
SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the commissioner of buildings) previously granted on condition, under section 7f of the zoning resolution, permitting in a business use district, the erection and maintenance of a motor vehicle repair shop and a gasoline service station for a temporary term.
PREMISES AFFECTED—2030 Hylan boulevard, southwest corner of Hamden avenue (Block 3688, Lot 9), Grant City, Borough of Richmond.
APPEARANCES—
For Applicant: Thomas Nunley.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Application reopened, restored to the calendar and set for hearing on July 3, 1945 at 10 A. M.
THE VOTE TO REOPEN—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

MATERIAL SUBMITTED FOR APPROVAL

16-45-A

APPLICANT—Halsey Drug Co., Inc., lessee, for Taffenclark Realty Co., owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—325-341 Classon avenue, east side, 40 ft. south of DeKalb avenue (5th floor); (Block 1938, Lot 7), Borough of Brooklyn.
APPEARANCES—
For Applicant: Harold Marcus.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (16-45-A)

WHEREAS, Halsey Drug Co., Inc., lessee, for Taffenclark Realty Co., owner, filed January 11, 1945 an appeal from an order of the fire commissioner, affecting premises 325-341 Classon avenue, east side, 40 ft. south of DeKalb avenue (5th floor); (Block 1938, Lot 7), Borough of Brooklyn; and

WHEREAS, Order 98410-LC issued by the fire commissioner, December 13, 1944, reads:

"1. You are hereby notified that your application for the storage of drugs and chemicals and the operation of wholesale drug store on the above premises is denied.

2. Discontinue the maintenance of a wholesale drug house or drug and chemical supply house in any building which is occupied as a work shop or factory and which is not constructed of fire resisting materials throughout. C19-136, Administrative Code."

MINUTES

and

WHEREAS, the applicant states that the building is 5 stories (75 ft.) in height, 110 ft. by 50 ft. in area, of class 3 construction, erected in 1901, located in an unrestricted use, B area, class 1½ height district and used and occupied since November, 1943 as follows: 1st floor—manufacturing fibre carton fillers—8 persons; 2nd floor—manufacturing coats and machine shop—50 persons; 3rd floor—manufacturing coats—80 persons; 4th floor—machine shop—12 persons; 5th floor—drug packers—11 persons; that the building is equipped with a two source sprinkler system and an interior fire alarm system, but fire drills are not maintained; that there is one interior stairs leading from the roof bulkhead to the street; that the front stairs are 48 in. in width, of wood construction, with brick enclosure, equipped with metal self-closing doors and the rear stairs are 36 in. in width, of iron construction, enclosed in brick partitions, equipped with metal self-closing doors; that there is also a fire escape at the rear, extending to the roof by stair and to the yard by stair; that the windows and doors on the course of the fire escape are fireproof and self-closing; and

WHEREAS, certificate of occupancy 2194, issued August 24, 1921, permits the use of the building throughout as a factory; and

WHEREAS, the applicant contends that it has occupied the premises for the past 15 years and has never been requested to make any changes or improvements in the permises; that although it comes under the classification of a wholesale drug house, it does not have 5% of the quantity of combustible merchandise carried by a wholesale drug house; that 90% of the items carried are non-combustible materials; that the so-called combustible materials handled, come in tightly sealed drums or containers and are repacked into sealed containers of smaller sizes; that in view of the fact that it is impossible to obtain another loft at the present time, it is requested that the Board grant permission for occupancy of the premises; and

WHEREAS, an examination of Fire Department folder No. 9693.13, indicates that the following materials were applied for: 25 drums of mineral oil; 5 drums isopropl alcohol; 25 lbs. essential oils; 50 lbs. hydrogen peroxide, 15% volume, 200 lbs. hydrogen peroxide—10% volume; 100 lbs. sulphur; 50 gallons of glycerine; 1 barrel of denatured alcohol; 1 carboy of acetic acid; 1 drum kerosene oil; and

WHEREAS, the report of the combustible inspector states that the building is of mill construction, approximately 50 ft. by 150 ft. in area; that all of the materials are stored in the original packages, drums and barrels and distributed in various parts of the open floor and used in the preparation of rubbing alcohol, shampoo, Bay rum, castor oil, mouth wash and Witch Hazel; that there is a laboratory separated from the remainder of the floor area by means of board partitions; that there are two mixing tanks in this laboratory used in the preparation of Burow's solution, Rubbarb and Soda, Calamine solution, and other preparations; that the kettles used in mixing these solutions are equipped with steam lines for heating; that there are no open flames in the laboratory and there is an electric bottling machine equipped with vaporproof globes and switches.

Resolved, that order 98410-LC of the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, and that the premises under appeal shall be maintained to the satisfaction of the fire commissioner; that the sprinkler and interior fire alarm systems shall be maintained to the satisfaction of the fire commissioner.

289-40-BZ

APPLICANT—William H. Fuhrer, for Lerad Realty Corporation, owner. (Samuel Adler, Inc., lessee.)

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the extension in height of an existing milk bottling and distributing station.

PREMISES AFFECTED—447-457 East 133rd street, north side, 195 ft. west of Brown place (Block 2278, Lots 64 and 69), Borough of The Bronx.

APPEARANCES—

For Applicant: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (289-40-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a business use district, the extension in height of an existing milk bottling and distribution station, affecting premises 447-457 East 133rd street, north side, 195 ft. west of Brown place (Block 2278, Lots 64 and 69), Borough of The Bronx, was granted by the Board July 16, 1940, on certain conditions; and

WHEREAS, the resolution was amended on February 24, 1942 and on March 31, 1942 and the time to obtain permits and complete the work was extended on May 9, 1944; and

WHEREAS, the applicant requested a further extension of time for such similar purpose.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 16, 1940, as amended through May 9, 1944, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as herein *amended*, the conditions of the resolutions of July 16, 1940, February 24, 1942 and March 31, 1942, shall be complied with and that a certificate of occupancy shall be obtained."

---

* Correction—Applicant's name changed from Irving M. Fenichel to William H. Fuhrer.

NOTICE

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1018, Municipal Building, Manhattan, at three cents each—postage to be added if the forms are forwarded by mail.

RULES

RULES ON EXTERIOR VENEERING MATERIALS

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JUNE 12, 1945, EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, JULY 7, 1945.

(465-44-SR)

AUTHORITY:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, Paragraph 2, Charter of the City of New York and C26-189.0 of the Administrative Building Code, these rules are to supplement the existing requirements of the Administrative Building Code, Sections C26-437.0, C26-438.0, C26-439.0, C26-544.0 through C26-550.0, C26-544.0 and C26-550.1 j.

SCOPE:

These rules are supplementary and additional to the requirements pertaining to thin not exceeding 2″ exterior veneering materials so as to provide for the sufficiency of attaching and anchoring mediums on such exterior veneers in accordance with the intent of the Administrative Building Code as outlined in Section C26-3.0. They shall apply to veneering materials of metal, cement-asbestos, precast or natural stone, ceramic, tile, concrete masonry units, glass sheets, glass block, plastic materials and other veneering materials, as may be approved by the Board. Note: These rules shall not apply to interior veneering materials.

Extracts from the Administrative Building Code contained herein in small type have been assigned decimal rule numbers for convenient reference only and are not to be construed as rules.

Rule 1.0 General.

1.1 These rules shall apply to all materials used as exterior veneers of a thickness not exceeding two inches, bonded or unbonded, and with or without air spaces between the veneer and the supporting surface.

1.2 Veneer materials shall not be credited with contributing to the total wall thickness, the stress resisting sections, or to the fire resistive value of the composite construction unless specifically approved by the Board for any given combination of materials.

1.3 Veneer materials shall not be used to support vertical loads other than the veneering material above unless permitted otherwise as provided for in Rule 1.3. Where openings occur the veneer shall be supported by substantial lintels of incombustible materials.

1.4 All joints between masonry veneer materials shall be filled flush with mortar or approved mastic cement. Around wall openings the joints between the veneer and backing material shall be filled flush with similar materials. Gypsum shall not be used in veneer exposed to the weather.

1.5 All metal reinforcements, bolts, clips, tie wires and supports shall be of non-corroding metal and of a type and for uses as may be approved by the Board.

1.6 Veneering material shall not be placed over existing veneering material.

1.7 Veneering when placed on a structure shall not encroach beyond the building line.

1.8 Before attaching veneering materials to any surface, the soundness of structural members shall be examined by exposing the structural members and when found necessary, reinforcement or replacement of structural members shall be made to the satisfaction of the borough superintendent.

1.9 Signs shall be so hung that their weight shall not bear on the veneering material and shall be supported by grounds set in the supporting wall.

1.10 Veneering materials used above the first floor shall be installed in a manner permitting fire department access to each floor by means of existing or new windows or readily accessible access panels installed as provided in C26-550.1d.

Rule 2.0 Metal Veneers.

2.1 Metal veneers shall be of non-ferrous materials or of steel sheets protected on all sides by porcelain enamel or other approved corrosion resistant surfacing.

2.2 Metal veneers shall be securely attached to the supporting construction with approved non-corroding metal hangers, clips, ties, screws, or bolts, secured to the metal veneer in a manner approved by the Board for each specific veneering material, and spaced not more than 16 o.c. vertically and 24 inch o.c. horizontally. Veneer units exceeding 4 sq. ft. in area shall be attached to the construction at not less than four points, so distributed as to render adequate attachment to the supporting construction.

2.3 Where allowed to be used all corrosive supports for metal veneers shall be adequately protected from the effects of the elements by painting with approved paint, galvanizing or other equivalent means. Where the use of wood is permissible all wood used with metal veneers shall be impregnated with creosote or other approved preservative material.

2.4 The joints and edges of all metal veneers shall be caulked or painted with approved waterproofing materials or other approved equivalent methods of providing resistance against moisture penetration.

2.5 The height of walls veneered with metal units on walls other than panel or enclosure walls shall be not more than 40 ft. above the foundations.

Rule 3.0 Precast or Natural Stone, Structural Clay, Ceramic and Porcelain Tile, Terra Cotta and Precast Concrete Units.

3.1 C26-157.0 Veneered Wall.—The term "veneered wall" shall mean a wall with a masonry facing which is attached to, but not bonded so as to form an integral part of, the wall for purposes of load bearing and stability.

3.2 C26-437.0 Anchorage for veneered masonry walls.—When masonry walls are veneered with brick, architectural terra cotta, stone or other masonry, the material shall be securely tied into the backing with the equivalent of the following minimum anchorage requirements:

1. For anchorage of brick veneering on masonry, one substantial non-corroding metal wall tie for each three hundred square inches of wall surface.
2. For anchorage of architectural terra cotta and other moulded units on masonry, one non-corroding metal anchor at least equal to five-sixteenths of an inch round or one-eighth of an inch by three-quarters of an inch flat in sectional area to each piece and two or more such anchors to all pieces over 18 inches in length or more than three hundred square inches in superficial area, except where such architectural terra cotta facing is bonded and completely filled with the brick backing.

3. For anchorage of stone veneering on masonry, one non-corroding anchor at least three-sixteenths of an inch by one inch flat, or its equivalent in cross sectional area, to each piece over one-half of a square foot in face area and at least two anchors to all pieces over 24 inches in length or more than four hundred square inches in superficial area.

3.3 C26-438.0 Thickness and height of veneered walls.—In all cases the veneering shall be excluded in calculating the bearing wall thickness and the required thickness of the wall. The maximum height of veneering on walls, other than panel or enclosure walls, shall be forty feet above the foundations.

3.4 C26-439.0 Veneered wood frame structures.—a. Wood frame structures may be veneered with masonry laid up in cement or cement-lime mortar. Such veneer shall be anchored to the frame by non-corroding metal ties equivalent to the following minimum requirements:

1. For anchorage of brick veneer on frame structures, one wall tie to every 160 square inches of wall area.
2. For anchorage of stone, architectural terra cotta and other moulded units on frame structures, one spike anchor or two wall ties to every two hundred sixty square inches of wall area.

b. It shall be unlawful to use such veneer on frame structures above a maximum height of 35 ft. above the foundation; it shall be unlawful also, to use such veneer on structures having more than two stories and a gable. The veneer shall be directly supported on the foundation.

c. Frame structures veneered with masonry shall be considered to be in a different class from masonry structures. It shall be unlawful to attribute any structural strength to the veneer.

3.5 Veneer units in this group shall be of approved type and not be greater than 2 in. in thickness. The surface bond of veneer units with the scored parging shall be adequately scored or provided with equivalent keys to obtain adequate anchorage. In addition to the attachment herein required, the anchorage requirements of C26-437.0 shall be complied with. Equivalent substitute methods of anchorage consisting of non-corroding pin and rosette or a continuous angle or anchor bolts secured to the reinforcement within the veneer may be used when approved by the Board for any specific veneering material.

3.6 The parging material in which veneer units are embedded shall consist of a portland cement mortar of 1:2 mix, 1 part of approved portland cement to two parts of screened sand passing through a 20 mesh screen not less than ¾ in. thick and reinforced with 4 in. mesh (13 gauge) galvanized wire reinforcement or equivalent reinforcing. Such reinforcement to be secured to the masonry or concrete wall with approved non-corroding anchors at the rate prescribed in C26-437.0. When the supporting wall is of wood framework, approved paper backed wire lath or other approved material may be used when attached to the wood framework as provided in C26-459.0h, provided the weight of the veneering materials is carried on an incombustible base. The parged surface shall be troweled to a plane surface and then scratched to receive the setting bed. The setting bed of not less ⅜" thick shall not be applied until the scratched parged surface is set. Prior to parging masonry on concrete surfaces, such walls shall be thoroughly wetted prior to the application of the parging mortar.

3.7 Waterproofing material if used in mortar shall be of approved type.

3.8 Veneer units in this group shall be not greater than 144 sq. in. in area.

3.9 The base for supporting veneers shall be of suitable incombustible materials.

3.10 All veneer units used in Class 1, 2 and 3 buildings exceeding 20 ft. in height, regardless of thickness, shall be attached to the scored parged surface by mechanical anchorage as provided in C26-437.0, pars. 1, 2, 3 and shall have lugs, keys or equivalent scoring of the backside of the veneer unit.

Rule 4.0 Glass Veneer on the exterior of structures may be used only in accordance with the provisions of this title and the rule of the Board.

4.1 C26-545.0 Minimum thickness.—The minimum thickness of glass veneer shall be eleven-thirty-seconds of an inch, except where glass veneer extends within 4 in. or less of the sidewalk level, the minimum thickness of that portion of the veneer below a level of four inches above the sidewalk at its point of intersection with the veneer shall be seven-sixteenths of an inch.

4.2 C26-546.0 Maximum area and dimensions.—a. The maximum area of a single section of glass veneer shall not exceed 10 sq. ft. in area when 15 ft. or less above the level of the sidewalk directly below and shall not exceed 6 sq. ft. in area when more than 15 ft. above the level of the sidewalk directly below.

b. The maximum length of any section of glass veneer shall be 60 in.

4.3 C26-547.0 Edges.—All edges of each plate of glass veneer shall be ground square. It shall be unlawful to use mitred joints.

4.4 C26-548.0 Backing for glass veneer.—Glass veneer may be placed only against substantial, rigid, incombustible surfaces of true plane, plumb and straight. The backing shall in any case provide rigidity and stability equal to or greater than that provided by one-inch thick cement mortar on wire lath secured to studs spaced 12 in. or less on centers. It shall be unlawful to use wood backing surfaces, regardless of whether they are fireproofed.

4.5 C26-549.0 Setting of glass veneer.—a. Glass veneer shall be set only when the backing is thoroughly dry and after the application of a thorough and uniform bond coat of material approved by the board. The bond coat shall be such as to effectively seal the portions of the veneer backing and to insure against the absorption of the vital properties of the mastic cement.

b. Mastic cement approved by the board shall be applied to the back surface of each plate of the glass veneer, which veneer shall be applied to the backing with a substantial and uniform pressure over its entire area sufficient to flatten out the gobs of mastic cement to a thickness of between one-quarter of an inch and five-eighths of an inch. Sufficient mastic cement shall be applied to insure that at least 60% of the total area of the section is bonded to the backing.

c. The bond coat and the mastic cement shall be of one manufacture and shall be certified to be of such composition as to insure close affinity between the two materials.

d. Abutting edges of glass veneer shall be ground square and uniformly buttered with an approved pointing compound.

e. Where glass veneer extends to the sidewalk surface each such section shall rest on two cushions of approved resilient material, one near the end of each such section or plate. Cushions shall be one-quarter of an inch or more in thickness. The joint between the bottom edge of the glass section and the top of the sidewalk shall be caulked with a waterproof compound.

f. Where the glass veneer is permitted to extend below the level of the sidewalk surface, an expansion joint of one-quarter of an inch or more shall be provided between the outer face of the glass veneer and the edge of the sidewalk. Such expansion joint space shall be filled with a resilient caulking compound from the level of the sidewalk surface to a depth at least ¾ of an inch below such level.

g. Where glass veneer is applied at an elevation more than eight feet above the sidewalk surface, the mastic cement binding shall be supplemented by the use of metal clip angles of a design approved by the Board. Clips shall be located in each vertical or horizontal edge of each section of veneer and shall be secured through the backing directly into the wall behind by means of expansion bolts and in a manner satisfactory to the superintendent. Angle clips shall be two inches or more in length and shall be of at least No. 16 U. S. gauge, and shall be so designed as to furnish at least two-inch bearing support on each clip and shall hold the glass in a vertical plane independently of the mastic cement.

h. All horizontal joints shall be cushioned with pads of adhesive asphaltic tape which shall extend from the rear surface of the glass to one-eighth of an inch or less from the front surface. Horizontal joints shall be buttered with joint cement over the full depth of the joint, including the surface of the cushion tape.

RULES

i. Shelf angles of approved design shall be set at vertical intervals of 3 ft. or less, in all horizontal joints located 8 ft. or less above the sidewalk, except that, where there are show windows it shall be unnecessary to have shelf angles below the level of the tops of the show window bulkheads. Shelf angles shall be of a type approved by the board and shall be secured to the backing in a manner satisfactory to the superintendent.

j. Where glass veneer is confined between non-resilient materials at ends, expansion shall be provided for by means of an expansion joint at each end of one-quarter of an inch or more throughout the entire height of the veneer.

4.5.1 Clips required under C26-549.0, sub-section g shall be non-corroding and located in each vertical plane in horizontal edge of each section of veneer and shall be thoroughly secured through the backing by means of non-corroding toggle bolts or into the wall directly behind the glass veneer by means of non-corrodible expansion bolts at least 1¼" long.

4.5.2 Shelf angles required under C26-549.0, sub-section i shall be of non-corroding metal of a type approved by the board and shall be thoroughly secured through the backing by means of non-corroding toggle bolts or into the wall directly behind the glass veneer by means of non-corroding expansion bolts at least 1¼" long.

4.5.3 Glass veneer units shall be separated from each other and adjoining material by an expansion joint at least 1/32" wide. Between the bolts and the veneer units there shall be a clearance of 1/64". All expansion joints shall be filled with an approved waterproofing mastic compound.

4.5.4 Glass veneer material shall not be used any higher than 2 stories and not exceeding 35 ft. in height above the foundation of the structure.

4.5.5 Exposed edges of glass veneer shall be flashed with non-corrodible sheet metal and caulked with an approved waterproofing mastic compound.

4.5.6 All awning brackets shall be set so as to be free of contact with the glass veneer. Glass veneer above awning boxes shall be carried by a continuous steel angle attached to the wall by anchors.

4.5.7 Signs shall be hung clear of the glass veneering material.

4.6 Glass Blocks.

4.6.1 C26-550.1.

j. Veneer or ashlar: Glass blocks may be used as exterior wall veneer under the rules of the Board.

Note: Investigation has shown that glass block is not used as a veneer material in building construction and when uses of glass block are developed as veneer, the Board will then consider including in these rules the safe provisions for use.

5.0 Veneering units of a type unprovided for in these rules, may be used, provided they are approved by the Board and are used in accordance with the limitations of the approval.

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

AMENDMENTS TO THE BUILDING LAWS

Now on Sale at The City Record Office

In order to bring the Building Laws of The City of New York more up-to-date, pamphlets are now available containing the Amendments to those Laws up to December 31, 1943, including such Amendments to the Multiple Dwelling Law as were enacted by the Legislature in 1944.

These Amendments are printed in four pamphlets so that the subjects covered in each pamphlet will conform to the subjects contained in each volume of the Building Laws to which it relates.

Copies are on sale at the Office of the Supervisor of The City Record, 2213 Municipal Building, Manhattan, New York 7, N. Y. The prices are: For Amendments to Volumes 1 and 3, ten cents each; for Amendments to Volumes 2 and 4, twenty cents each.

Minutes of Regular Meeting, June 20, 1945, at 10 A.M., Affecting Calendar Numbers 297-39-BZ, 546-44-BZ, 575-44-BZ, 43-45-BZ, 91-45-BZ, 132-45-BZ, 210-45-BZ, 459-44-BZ, 576-44-BZ, 95-45-BZ, 236-45-BZ, 460-44-A, 475-44-A, 633-44-A, 173-45-A, 174-45-A, 182-45-A, 133-45-A, 134-45-A and 211-45-A.

Opening Protective Assemblies, Rules for Inspection of

PUBLIC HEARINGS

Tuesdays, at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No Appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

163-45-A—54-31 to 54-37 Myrtle avenue, 343-359 Woodbine street, northwest corner and 350 St. Nicholas avenue, southwest corner of Woodbine street (2nd floor); (Block 3445, Lots 1 and 32), Ridgewood, Borough of Queens.

332-45-A—31-01 to 31-05 Steinway street and 40-02 to 40-10 31st (Jamaica) avenue, southeast corner (cellar); (Block 678, Lots 30, 40 and 42), Long Island City, Borough of Queens.

169-44-A—309-311 West 92nd street, north side, 100 ft. west of West End avenue (Block 1252, Lot 12), Borough of Manhattan.

676-44-A—6724 (6720 displayed) 19th avenue, northwest corner of 68th street (1st floor); (Block 5569, Lot 45), Borough of Brooklyn.

345-45-A—1580-1590 Broadway, east side, 710-720 7th avenue and 200 West 48th street (Block 1019, Lot 36), Borough of Manhattan.

397-45-A—1580-1590 Broadway, east side, 710-720 7th avenue and 200 West 48th street (Block 1019, Lot 36), Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

JULY 10, 1945, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning July* 10, 1945, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

Zoning Applications

50-45-BZ—Application, February 3, 1945, under section 21 of the zoning resolution, of The Dime Savings Bank of Brooklyn, applicant and owner, to permit in a business use C area district, the erection of an extension to a bank building, the structure as extended, occupying in excess of the permitted area; premises 1101 Avenue J, northeast corner of Coney Island avenue (Block 6704, Lot 49), Borough of Brooklyn.

210-45-BZ—Application, April 5, 1945, under section 21 of the zoning resolution, of Joel D. Marder, applicant, on behalf of The Fifth Avenue Bank of New York, owner, to permit in a retail and restricted retail use B area district, the erection of an extension to a bank building occupying more than 65% of the lot area; premises 1-5 West 44th street, north side, 100 ft. west of 5th avenue (Block 1260, Lot 34), Borough of Manhattan.

297-39-BZ—Application of Ervin Palmer, applicant, on behalf of Wilson & Company, owner (H. Chazen, Inc., lessee), reopened February 15, 1944, under section 7i of the zoning resolution, to permit in a business use district, the extension of a motor vehicle repair shop, granted by the Board, into an adjoining portion of the premises; premises 838-840 1st avenue, east side, 16 ft. south of East 47th street (Block 1358, part of Lot 47), Borough of Manhattan.

91-45-BZ—Application, February 23, 1945, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Frank Broz, owner, to permit in a business use district, the extension in area of an existing gasoline service station, and the erection of a new office, lubritorium, auto laundry, brake testing and realigning (minor repairs)

CALENDAR

building; premises 61-20 to 61-26 Fresh Meadow lane, west side, 111.40 ft. south of Horace Harding boulevard (Block 6901 (2678), Lots 42 and 45), Flushing, Borough of Queens.

546-44-BZ—Application, September 26, 1944, under section 7c of the zoning resolution, of Lama & Proskauer, applicants, on behalf of Ida Siegal, owner, to permit in a business use district, the erection of an extension to office building of an existing gasoline service station for a car laundry and to house grease lift; premises 822-828 4th avenue and 159-165 29th street, northwest corner (Block 664, Lot 37), Borough of Brooklyn.

624-39-BZ—Application of Lama & Proskauer, applicants, on behalf of John J. Smith, owner, reopened April 17, 1945, under sections 7f, 7i and 21 of the zoning resolution, to permit in a business use D area district, the erection and maintenance of a garage and motor vehicle repair shop, the building occupying in excess of the area permitted in a D area district; premises 177-08 to 177-12 Union Turnpike, south side, 345 ft. east of Utopia parkway (Block 7227, Lot 24), Jamaica, Borough of Queens.

624-44-BZ—Application, October 30, 1944, under sections 7c and 21 of the zoning resolution, of Henry Nordheim, applicant, on behalf of Catherine Lama, owner, to permit on a lot in a business use district, on which there exists a garage for three motor vehicles, an additional garage for two motor vehicles; premises 1632 Glover street, east side, 40.9 ft. south of Castle Hill avenue (Block 3990, Lot 33), Borough of The Bronx.

285-45-BZ—Application, May 10, 1945, under section 7e of the zoning resolution, of Glenn Phelps, applicant, on behalf of 341 Corporation, owner (J. A. Patterson Trucking Corp., lessee), to permit in a residence use district, the change of occupancy of a garage for more than five motor vehicles to storage of naval and military materials for a temporary period; premises 329-335 to 337-341 Stanton street, southwest corner of Mangin street (Block 324, Lots 15 and 21), Borough of Manhattan.

244-45-BZ—Application, April 18, 1945, under section 21 of the zoning resolution, of Abraham Davis, applicant, on behalf of 133-135 Roosevelt Avenue Corp., Kapp Trading Corp. and Jacob Burgheimer, owners (Fisher Beer Co., lessee), to permit in a C area district, the extension in area of a building to occupy 100% of lot area in the 1st story and to omit required loading space; premises 39-12 to 39-16 Main street, west side, 53.48 ft. north of Roosevelt avenue and 135-33 to 135-37 Roosevelt avenue (Block 4976, Lots 3, 6, 7 and 53), Flushing, Borough of Queens.

Appeals from Administrative Decisions.

245-45-A—39-12 to 39-16 Main street, west side, 53.48 ft. north of Roosevelt avenue and 135-33 to 135-37 Roosevelt avenue (Block 4976, Lots 3, 6, 7 and 53), Flushing, Borough of Queens.

637-44-A—39-12 to 39-16 Main street, west side, 53.48 ft. north of Roosevelt avenue and 135-33 to 135-37 Roosevelt avenue (Block 4976, Lots 3, 6, 7 and 53), Flushing, Borough of Queens.

286-45-A—329-335 to 337-341 Stanton street, southwest corner of Mangin street (Block 324, Lots 15 and 21), Borough of Manhattan.

211-45-A—1-5 West 44th street, north side, 100 ft. west of 5th avenue (1st floor); (Block 1260, Lot 34), Borough of Manhattan.

192-45-A—111-117 East Houston street and 229 Chrystie street, southwest corner (Block 427, Lot 27), Borough of Manhattan.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, JUNE 19, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The meeting of the Board of Standards and Appeals scheduled for Tuesday morning, June 19, 1945, was postponed to Wednesday morning, June 20, 1945, due to the proclamation by Mayor LaGuardia, declaring a holiday in celebration of the return of General Eisenhower.

REGULAR MEETING

TUESDAY AFTERNOON, JUNE 19, 1945.

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

APPEALS FROM ADMINISTRATIVE DECISIONS

129-41-A

APPLICANT—Yuen Shing Hong Corporation, owner.
SUBJECT—Appeal reopened March 20, 1945—re Appeal from an order of the fire commissioner.
PREMISES AFFECTED—7 and 8 Chatham Square, west side, 106 ft. 4½ in. north of Mott street (Block 162, Lot 39), Borough of Manhattan.
APPEARANCES—
For Applicant: William Polglase and Lee Tom Kin.
For Administration: Peter Maher, Fire Dep't.
ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (129-41-A)

WHEREAS, this appeal from an order and a decision of the fire commissioner, affecting premises 7 and 8 Chatham Square, west side, 106 ft. 4½ in. north of Mott street (Block 162, Lot 39), Borough of Manhattan, was granted by the Board on March 4, 1941, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on a new order of the fire commissioner; and

WHEREAS, this case was reopened by vote of the Board on March 20, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, the new order of the fire commissioner, 33095-LF, dated January 25, 1945, reads:

"1. Discontinue the storage of merchandise above the second story, in accordance with the resolution of the Board of Standards and Appeals under Cal. 129-41-A."

and

WHEREAS, the applicant states that the building is 8 stories (102 ft. 6 in.) in height; 31 ft. 11 in. by 125 ft. in area; of Class 1 construction; erected 1900; located in an unrestricted use, B area, Class 2½ height district, and used and occupied since 1941 as follows: cellar, storage of food stuffs; 1st floor, stores, 5 persons; 2nd floor, storage of food stuffs, no persons; 3rd floor, temporary storage of tobacco, no persons; 4th to 8th stories, vacant; proposed to be used and occupied: cellar, same; 1st floor, same; 2nd floor, storage of food stuffs, no persons; 3rd floor, storage of tobacco, etc. no persons; 4th, 5th, and 6th floors, storage; that the building is equipped with one 6 ft. wide steel stair, enclosed in iron partitions, equipped with iron doors which are not self-closing and extending from the roof bulkhead directly to the street and two fire escapes, one at front of the building and one at rear, extending to the roof by stairs and to the street by ladder and to the yard by stairway, with egress to the street from the yard through hallway; and

WHEREAS, the applicant contends that the Board originally modified an order of the fire commissioner, to permit the building to be maintained with a dry standpipe system, on condition the floors above the 2nd story were not occupied; that an application was made to the Department of Housing and Buildings for use of the lower 6 floors for storage purposes and approved; that however, the fire commissioner under date of January 25, 1945, directed that the temporary storage of merchandise above the 2nd floor be discontinued; that the appeal is taken from this order of the fire commissioner; that the ceiling of the 6th floor is less than 85 ft. above the street floor; that the decision of the Board should be modified to permit the use of the basement and 2nd, 3rd, 4th, 5th and 6th stories for storage purposes, without the installation of a standpipe system and that the dry standpipe system is in operation and has not been removed.

Resolved, that the order of the fire commissioner, acting on Order 33095-LF, Item 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied* for use of the upper stories as proposed, contrary to resolution previously adopted under this calendar number.

516-44-A

APPLICANT—657 5th Avenue Corporation, owner.
SUBJECT—Appeal from an order and a decision of the fire commissioner.
PREMISES AFFECTED—240-246 19th street and 657-661 5th avenue, southeast corner (Block 885, Lot 8), Borough of Brooklyn.
APPEARANCES—
For Applicant: Jerome Voletsky.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal denied.
THE VOTE TO GRANT—
Affirmative: 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

THE RESOLUTION (516-44-A)

WHEREAS, 657 5th Avenue Corporation, owner, filed September 5, 1944, an appeal from an order and a decision of the fire commissioner, affecting premises 240-246 19th street, and 657-661 5th avenue, southeast corner (Block 885, Lot 8), Borough of Brooklyn; and

WHEREAS, Order 12917-LF issued by the fire commissioner June 13, 1944 and referred to in a decision of the fire commissioner dated August 3, 1944 reads:

"1. Provide through-out building a fixed fire extinguishing system or other means for the extinguishment of fire satisfactory to the Fire Commissioner. Section C19-161.0 Adm. Code."

and

WHEREAS, the applicant states that the building is 3 stories (60 ft.) in height, 40 ft. by 85 ft. in area, of class 3 construction, erected in 1882, located in a business use, B area class 1½ height district and used and occupied since 1920 as follows: cellar—department store; 1st floor—department store; 2nd floor—loft—vacant; 3rd floor—loft—vacant; proposed to be used and occupied: cellar—same; 1st floor—same; 2nd floor—same; that the building is equipped with three interior stairs of wood construction and two fire escapes and a ladder and scuttle to the roof is provided; and

WHEREAS, the applicant contends that the order is a clear abuse of discretion, since no necessity exists which would require the directions therein contained; that the order is vague and not susceptible of reasonable interpretation in the use of the alternative method designated "other means for the extinguishment of fire satisfactory to the Fire Commissioner"; that the recommendation or order for a fixed fire extinguishing system *throughout* the building, is clearly

neither necessary nor proper, since the most that the present use would require, might be some fire control in the cellar and first floor of the building, the only parts thereof in use; that the order should be rescinded in its entirety, or in the alternative, a simple clear direction made of the minimum means required by the fire commissioner for the extinguishment of fire; and

WHEREAS, Order 10790-LF issued by the fire commissioner June 22, 1943, which is not the subject of this appeal, reads:

"1. Install an adequate interior electric fire alarm system in accordance with the rules of the Board of Standards and Appeals, and the enclosed approved layout. Section 279 of the Labor Law."

and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the order of the fire commissioner, acting on Order 12917-LF, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

703-44-A

APPLICANT—American Safety Razor Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—305-317 Jay street, 80-94 Johnson street, southeast corner, 60-88 Lawrence street and 77-89 Myrtle avenue (Block 142, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Mr. A. Roche and C. H. Higginson.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (703-44-A)

WHEREAS, American Safety Razor Corporation, owner, filed November 30, 1944, an appeal from a decision of the borough superintendent, affecting premises 305-317 Jay street, 80-94 Johnson street, southeast corner, 60-88 Lawrence street and 77-89 Myrtle avenue (Block 142, Lot 1), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated November 13, 1944, on P.A. Applic. 669-44, reads:

"1. Exits inadequate for 331 persons as per Section 278 of the Labor Law."

and

WHEREAS, the applicant has filed a decision of the borough superintendent, dated April 23, 1945, which reads as follows:

"Your letter of April 10th states that the Board of Standards and Appeals requests a statement from this department as to the capacity of the present exits.

Your Mr. McKeown states that the cafeteria use will be confined to the third floor of Building E, as designated on your plan, and will not extend into Building F, as previously shown.

The exits can accommodate 153 persons in the lunchroom based on the following:

(a) The main stairway which is 5′ 6″ in width and fireproof enclosed is jointly used for egress from Building E, which is not a factory building, and Building F, which is a factory building. The capacity of this stairway, as computed on the basis of Section 278 of the Labor Law, allowing 100% increase for the sprinkler system and deducting 10 persons now occupying the 3rd floor of Building F, is 125 persons.

(b) The 3′ 8″ fire escape has a capacity of 28 persons on the basis of Sec. 278 of the Labor Law. No allowance is made for the sprinkler system, as same does not improve a fire escape exit.

(c) No credit as to capacity is given for the 10′ 0″ stairway which leads through Building C and Buildings B, as this stairway does not have a continuous enclosure to street."

and

WHEREAS, the applicant states that the premises are located in an unrestricted and business use, B area and class 2 height district; that Building A, which was erected in 1938 is 8 stories and basement (113 ft.) in height, 123 ft. by 142 ft. in area at 1st floor, 123 ft. by 142 ft. in area at typical floor, of class 1 construction; that Building B, which was erected in 1920 is 8 stories (117 ft.) in height, 140 ft. by 75 ft. in area, of class 1 construction; Building C, which was erected in 1938, is 2 stories (27 ft.) in height, 74 ft. by 42 ft. in area, of class 1 construction; Building E, erected in 1925 is 5 stories and basement (60 ft.) in height, 50 ft. by 96 ft. 6 in. in area, of class 3 construction; that Building F, erected before 1910 is 5 stories and basement (60 ft.) in height, 90 ft. by 60 ft. in area, of class 3 construction; that Building A is used and occupied as follows: basement—storage of raw materials—5 persons; 1st floor—blade manufacturing, storage of finished products—72 persons; 2nd floor—airplane engine manufacturing—142 persons; 3rd floor—munitions manufacturing (no explosives)—200 persons; 4th floor—manufacturing of razors—60 persons; 5th floor—manufacturing of razor blades—80 persons; 6th floor—manufacturing of surgical products and safety razor blades—50 persons; 7th floor—tool and machine shop and engineering and planning—60 persons; 8th floor—brush manufacturing—275 persons; Building B is used and occupied as follows: basement—storage—20 persons; 1st floor—blade packing—15 persons; 2nd floor—buffing and plating—48 persons; 3rd floor—pile wiring—20 persons; 4th floor—safety razor manufacturing—60 persons; 5th floor—manufacturing of safety razor blades—80 persons; 6th floor—manufacturing of surgical appliances and safety razors—50 persons; 7th floor—tool and machine shop—60 persons; 8th floor—brush manufacturing—60 persons; No change in use is proposed for Buildings A and B, but the occupancy will be 324 persons on each of the 1st to the 8th floors; Building "C" is used and occupied as follows: basement—storage—2 persons; 1st floor—passageway—5 persons; 2nd floor—passageway—4 persons; no change in use or occupancy is proposed; Building E is used and occupied as follows: 1st floor—shipping and receiving—35 persons; 2nd floor—locker room—5 persons; 3rd floor—cafeteria—331 persons; 4th floor—record room—8 persons; 5th floor—accounting—60 persons; proposed to be used without change with number of occupants as follows: 1st floor—123 persons; 2nd floor—123 persons; 3rd floor—331 persons; 4th and 5th floors—123 persons each; Building F is used and occupied as follows: basement—carpenter and pipe shop—25 persons; 1st floor—office, locker room—17 persons; 2nd floor—locker room—3 persons; 3rd floor—cafeteria, soap manufacturing and office—20 persons; 4th floor—office—32 persons; 5th floor—general office—43 persons; proposed to be used without change, number of occupants as follows: 25 persons in the basement and 123 persons on each of the 2nd to 5th floors; and

WHEREAS, the applicant states that the buildings are equipped with a two source sprinkler system, a standpipe system, an interior fire alarm system and that fire drills are maintained; that there are four 5 ft. 6 in. wide fireproof stairs, equipped with kalamein, self-closing doors and leading from the roof bulkhead directly to the street; that one stairway is located in the rear of Building A, two are in Building B and one in Building E; that there are two fire escapes, one at the rear of Building E and one at the rear of Building F; that these fire escapes lead to the roof by stairs and to the street by stairs; that windows and door openings along the course of the fire escapes are fireproof, self-closing; and

WHEREAS, Violation 4973-44, issued October 27, 1944, was for violation of Section C26-1477.0 of the Administrative Code for occupying the third floor as a place of assembly as

a private restaurant with a seating capacity of 323 persons, without a permit; and

WHEREAS, Certificate of Occupancy 88071, issued to premises 77-89 Myrtle avenue, northwest corner of Lawrence street, on June 29, 1938, upon completion of work under Permit 10555-37 and resolution adopted by the Board under Cal. 224-37-BZ, permits the use of such building throughout as a factory with 288 persons on each floor (Building A); and

WHEREAS, Certificate of Occupancy 9246, issued September 12, 1921 to 62-76 Lawrence street, west side, 84 ft. south of Johnson street (Building B), permits its use as a factory; and

WHEREAS, Certificate of Occupancy 90616, issued December 28, 1938 for 80-94 Johnson street, southeast corner of Jay street (Building C) upon completion of Alteration 10553-37, permits the use of this building as follows: basement—storage—2 persons; 1st floor—receiving—5 persons; 2nd floor—office—4 persons; and

WHEREAS, Certificate of Occupancy 7272 issued June 10, 1926 to premises 305-319 Jay street, southeast corner of Johnson street (Buildings D, E and F), permits the use of these buildings as a factory; and

WHEREAS, Certificate of Occupancy 6887 issued February 8, 1926 to 31-33 Jay street, east side, 100 ft. south of Johnson street (Building E), permits the use of this building as follows: 1st floor—shipping; 2nd floor—office; 3rd floor—lunchroom; 4th floor—storage; 5th floor—office; and

WHEREAS, the applicant contends that P. A. Applic. 669-44 was made for a permit for a place of public assembly under Local Law 29 and involves the use of space on the third floor of 305-317 Jay street as indicated on drawing No. 4 filed with this appeal, as a cafeteria for the accommodation of 331 persons; that this space has been used since 1922 as a cafeteria for the owners' employees; that prior to 1937, the only exits provided for the cafeteria were those indicated as stairway #1 and Exit No. 3 on Drawing No. 4 filed with this appeal; that in 1937, it was decided to provide additional exit facilities for the cafeteria and Stairway No. 2 was erected under Alt. Applic. 15934-37; that the decision of the borough superintendent is based on the contention that Stairway No. 2 is not a proper exit for credit in calculating the number of persons who may occupy the cafeteria under section 278 of the Labor Law; that the stairways and exits for the cafeteria as calculated under the permissible occupancy pursuant to Section 278 of the Labor Law by the architect for the owner, is as follows:

Stair #1:
5'-6" wide (Building constructed prior to October 1st, 1913):
14 persons for each 18" or fraction—66/18—3.66 x 14 .....equals 51
100% increase for sprinklers .....equals 51
102

Landings—12 x 11'-10" .....equals 28
5
5'-6" x 5 .....equals 5
5 33
Total 33
135

Stair #2:
10'-8" wide direct through Building B to street:
14 persons for each 22"—128/22—5 x 14 ...equals 70
100% increase for sprinklers .....equals 70
Total 140

Exit #3:
To roof of Building C direct to street (3'-8" wide):
14 persons for each 22"—44/22—2 x 14 .....equals 28
100% increase for sprinklers .....equals 28
56

Stair #1 135
Stair #2 140
Exit #3 56
Total .....331 persons

and

WHEREAS, the applicant further contends that the lunch period is between 11:30 A.M. and 1 P.M. and the cafeteria is also used for the night shift, but the number of occupants is comparatively small; that Stair #2 would automatically be used by the employees in case of fire, since they have been using it daily going to and from the cafeteria for the past seven years; that this stairway leads from the second floor of Building E directly into Building C, which is of reinforced concrete, class 1 construction and sprinklered and from Building C by a steel stair to the first floor of Building B, which is of the same construction and thence into a wide exit 14 ft. clear leading directly to the street; that to comply with the Labor Law it would be necessary to enclose this stairway directly to the street; that a portion of this exit in Building B serves as an exit from Building B; that to enclose this stairway would impair the use of the portion of this exit for Building B proper and consequently impair the use and production of the plant, which is engaged in the manufacture of safety razors and allied products, manufacture of airplane engine and other parts and munitions under contract with government agencies; it is therefore requested that the Board approve the exits as they exist and the use of the cafeteria for 331 persons or in the alternative, grant a variation under the provisions of Section 30 of the Labor Law on the grounds of practical difficulty and unnecessary hardships; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the decision of the borough superintendent, acting on P.A. Applic. 669-44, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the cafeteria shall be restricted to the space marked "E" on the third floor as indicated by cross-hatching on revised plan marked "Received June 15, 1945," on condition that all exits as indicated and on plans marked "Received November 30, 1944" shall be maintained, and in addition that the stair in building section "E" marked No. 2, shall be enclosed on the third floor within the cafeteria, with a partition from floor to ceiling, as approved for one hour construction with fireproof self-closing doors thereto; that there shall be at least two 3 ft. 6 in. doors; that such doors shall open in the direction of exit; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

104-45-A

APPLICANT—Warren E. Green, for William Pick, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—95-20 Northern boulevard, southeast corner of 96th street (2nd floor); (Block 1710, Lot 15), Corona, Borough of Queens.
APPEARANCES—
For Applicant: Warren E. Green and William Pick.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum..... 3
Negative: Deputy Chief Gunn..... 1

THE RESOLUTION (104-45-A)

WHEREAS, Warren E. Green, for William Pick, owner, filed March 1, 1945, an appeal from a decision of the bor-

MINUTES

ough superintendent, affecting premises 95-20 Northern boulevard, southeast corner of 96th street (2nd floor), (Block 1710, Lot 15), Corona, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, dated February 28, 1945, on Alt. Applic. 1597-44, reads:

"1. Proposed conversion of frame dwelling to a factory use is contrary to Sec. 4.2.1.

2. Second floor construction is weak for 120 lbs. live load.

3. Exits from 2nd floor factory to comply with Sec. 271 and 273 of Labor Law."

and

WHEREAS, the applicant states the building is two stories (25 ft. 6 in.) in height, 25 ft. by 50 ft. in area; Class 4 construction; erected in 1900; located in a business use, C. area, Class 1½ height district; used and occupied since 1924 as follows: cellar, ordinary; 1st floor, auto sales, 4 persons; 2nd floor, manufacturing of shoulder pads for coats, 9 persons; that there is no change in use proposed; that the building is equipped with one interior wood stair, 3 ft. wide, with enclosure of wood, plaster and metal, equipped with wood doors, located at the front and leads directly to the street; that one fire escape is proposed on the east side, leading to the yard by stair; that windows and doors on course thereof will be fireproof, self-closing; and

WHEREAS, Violation 3412-44 was issued November 13, 1944, by the Dept. of Housing and Buildings, for using the second floor for factory purposes without providing a secondary means of egress; that a summons was served and the matter is pending in City Magistrate's Court; that Certificate of Occupancy 1914 was issued February 25, 1931, re Alt. No. 3480-30 for use of the building as follows: 1st floor, automobile sales room, garage; 2nd floor, dwellings; and

WHEREAS, the applicant contends that the building has been used as at present for at least twenty years and that plans have been filed with the Building Department, for a fire escape on the east side of the building, with stairs to 96th street; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, on inspection, the Committee found that the building had apparently at no time been occupied for residential purposes on the 2nd floor and were of the opinion that Certificate of Occupancy 1914, issued February 25, 1931, described incorrectly the second floor occupancy.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1597-44, Objections 1 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the existing building, two stories in height, shall not be increased in height or area; that the primary means of exit as indicated on plans filed with this appeal marked "Received March 1, 1945" shall be maintained, leading directly to Northern boulevard; that such stairs shall be enclosed in one hour fire retarded partitions with one hour fireproof, self-closing door; that a second means of exit shall be provided by means of a door from the 2nd floor to the adjoining 96th street garage; that a counter balanced iron ladder shall be maintained from such garage roof, to reach the sidewalk at 96th street; that the number of persons engaged in factory work on the 2nd floor shall at no time exceed 10 persons; and *withdrawn* as to Objection 2, to comply; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, and that a new Certificate of Occupancy superseding 1914 shall be obtained.

129-45-A

APPLICANT—Davis, Polk, Wardwell, Sunderland and Kiendl, for Dry Dock Savings Institution, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—2-4 East 44th street, south side, 105 ft. east of 5th avenue (Block 1278, Lot 67), Borough of Manhattan.

APPEARANCES—

For Applicant: Gerard A. Cartier.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (129-45-A)

WHEREAS, Davis, Polk, Wardwell, Sunderland and Kiendl, for Dry Dock Savings Institution, owner, filed on March 9, 1945, on appeal from a decision of the borough superintendent, affecting premises 2-4 East 44th street, south side, 105 ft. east of 5th avenue (Block 1278, Lot 67), Borough of Manhattan; and

WHEREAS, the decision of the borough superintendent, dated February 5, 1945, reads:

"This will reply to your letter of February 2, 1945, regarding application for certificate of occupancy filed December 29, 1944, for the above premises.

The premises 519-521 Fifth avenue and 2-4 East 44th street, Block 1278, Lots 1 and 67, in accordance with the Building Zone Resolution, Cal. No. 741-27-BZ, should be maintained in conjunction and as part and parcel of this plot. On this condition, a variation of the Zoning Law was granted on November 15, 1927.

In view of the foregoing, your application for a separate certificate of occupancy is denied."

and

WHEREAS, the premises have been sold to the owner of the building at the northeast corner of Fifth avenue and East 43rd street, since the tower privileges of that building are in part dependent upon the lot area of 2-4 East 44th street, as originally approved by the Superintendent of Buildings.

Resolved, that the appeal be and it hereby is *withdrawn.*

156-45-A

APPLICANT—American Nickel Alloy Manufacturing Corp., lessee, for J. S. Gould Son's Co., Inc., owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—318 3rd avenue, west side, 257 ft. south of Carroll street (Block 453, Lot 52), Borough of Brooklyn.

APPEARANCES—

For Applicant: W. B. Lobbenberg.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (156-45-A)

WHEREAS, American Nickel Alloy Manufacturing Corp., lessee, for J. S. Gould Son's Company, Inc., owner filed March 16, 1945, an appeal from an order and a decision of the fire commissioner, affecting premises 318 Third avenue, west side, 257 ft. south of Carroll street (Block 453, Lot 52), Borough of Brooklyn; and

WHEREAS, Order 13115-LF of the fire commissioner, dated July 2, 1944, and referred to in his decision of March 6, 1945, reads:

"1. Arrange wire screens on all windows on 1st story so as to be readily movable or removable from both sides, in such a manner as to afford the free and unobstructed use of such windows for the purposes of egress, as per Sec. 272 of Labor Law."

and

WHEREAS, the applicant states that the building is one story (25 ft. 6 in.) in height, 50 ft. by 300 ft. in area; Class 4 construction; located in an unrestricted use, A area, Class

1½ height district; erected in 1907 and used as a smelting plant since 1940 with an occupancy of twenty (20) persons, for which Certificate of Occupancy 102149 was issued, permitting the use of the first floor for storage, smelting, refining and fabricating of metal, including office and laboratory, such certificate to expire May 13, 1946; that this one story building has three tiers of windows, one at the regular height of a room window, a second about 13 ft. high and a third about 18 ft. high; that the 2nd and 3rd tiers consist of 163 windows, many of them stationary; that in an emergency, the first tier of windows could be used as an exit; that all windows of the second tier open to the Gowanus Canal and under each window of the upper tier, high tension wires are run; that if these screens were movable, it would constitute an extreme danger; that to be required to install locks on every window guard, to be opened in the morning and locked in the evening would not be possible, because most of the windows are inaccessible.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in an order of the fire commissioner, acting on Order 13115-LF, Item 1, and that the appeal be and it hereby is *granted on condition* that no screens shall be maintained on the lowest tier of windows; that screens may be maintained only on the upper two tiers of windows as proposed, on condition that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable therto, other than as modified by the Board under Cal. Nos. 392-41-A and 322-44-A; and on the further condition that an additional exit door to the adjoining premises to the north shall be constructed and maintained.

166-45-A

APPLICANT—Louis Chesir, owner (Congregation Machzike Hadath of Bensonhurst, lessee).
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—7015 20th avenue, east side, 80 ft. north of 71st street (1st floor); (Block 6174, Lot 5), Borough of Brooklyn.
APPEARANCES—
For Applicant: Louis Chesir.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (166-45-A)

WHEREAS, Louis Chesir, owner (Congregation Machzike Hadath of Bensonhurst, lessee), filed March 22, 1945, an appeal from a decision of the borough superintendent, affecting premises 7015 20th avenue, east side, 80 ft. north of 71st street (1st floor); (Block 6174, Lot 5), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated March 12, 1945, re Alt. Applic. 1765-44, reads:

"3: Provide two means of egress from 1st floor to street as per Sect. 6.1.2.2.2 (C26-273.0,b-2) of Building Code."

and

WHEREAS, the applicant states that the building is 2 stories (23 ft.) in height, 20 ft. by 68 ft. in area, of class 3 construction, erected in 1929, located in a business use, D area, class 1 height district and used and occupied since 1930, as follows: cellar—ordinary—no persons; 1st floor—store (actually used as a synagogue); 2nd floor—two family apartments; that there is one interior stair, on north side of building, leading directly to the street; that the stairs are 3 ft. wide, of wood construction, enclosed in wood studs, wire lath and ¾ in. plaster; that the door is not self-closing; that there is a scuttle to the roof; and

WHEREAS, the applicant contends that Certificate of Occupancy 58926 issued December 11, 1929, was for two families on 2nd floor and store on 1st floor; that since erection of building fifteen years ago, the 1st floor had been occupied as a synagogue; that on April 11, 1944, Violation 1469 was placed on premises for the reason that the 1st floor was being occupied as a synagogue; that towards the removal of this violation, Alt. Applic. 1765-44 was filed with the Department of Housing and Buildings, to allow the use of the 1st floor as a synagogue, with a maximum occupancy of 123 persons; that this application was denied; that the area involved (1160 sq. ft.) is used only as a synagogue; that there are two means of egress—one is a door 3 ft. wide, leading directly to the street and the other is a door 2 ft. 8 in. wide, that leads to a yard which is 32 ft. in depth, from which one could reach the street; that the combined width of exit doors at the front and the rear will accommodate a total of 300 persons which is far above the 123 persons for which approval is asked; that the only question involved is the rear exit, which leads to a yard, which connects with the yards of the three abutting buildings to the south and are without any obstructions on lot lines, thus resulting in a common yard area of 32 ft. deep by 80 ft. long; that adjoining the east lot line there is a 5 ft. passageway to 71st street; that the fence on this lot line is 4 ft. high of 1 inch planks nailed to 4 inch uprights; that in an emergency, this fence could easily be eliminated as an obstruction to the passageway leading to 71st street and the owner of this latter plot will not grant any formal consent to use his alley to the street; that the maximum occupancy of 123 persons occurs only during three days a year, i.e., during the Jewish High Holidays, when the Synagogue is well supervised by floor committees; that on all other days of the year there are never more than 50 occupants; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 1765-44, objection 3, be it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the existing rear yard between this building and the adjoining three buildings to the south, shall remain clear and unobstructed as proposed, and as shown on plan marked "Received March 22, 1945"; that the existing exits to 20th avenue and to the rear yard shall be maintained, with doors swinging in the direction of exit; and that there shall at all times be a means of reaching 20th avenue, through the rear yard, through the stores to the south, while the place of public assembly is in session; that the number of persons shall not exceed 123; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

176-45-A

APPLICANT—Timely Modes, Inc., lessee, for Loftgar Holding Corp., owner.
SUBJECT—Appeal from an order of the fire commissioner.
PREMISES AFFECTED—64-70 West 36th street, south side, 125 ft. east of 6th avenue (5th floor); (Block 837, Lot 80), Borough of Manhattan.
APPEARANCES—
For Applicant: L. Benjamin.
For Administration: Peter Maher, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (176-45-A)

WHEREAS, Timely Modes, Incorporated, lessee, for Loftgar Holding Corporation, owner, filed March 20, 1945, an appeal from an order of the fire commissioner, affecting premises 64-70 West 36th street, south side, 125 ft. east of 6th avenue (5th floor); (Block 837, Lot 80), Borough of Manhattan; and

WHEREAS, Order 33514-LF, issued by the fire commissioner March 2, 1945, reads:

"1. Arrange iron bars on windows on east side of loft on 5th story, so as to be readily movable or removable from both sides, in such a manner as to afford the free and unobstructed use of such windows for the purpose of egress. Section 272 of the Labor Law."

and

WHEREAS, the applicant states the building is 16 stories (193 ft.) in height; 100 ft. by 98 ft. in area at 1st floor; 100 ft. by 89 ft. in area at typical floor; of Class 1 construction; erected 1923; located in a retail use B area, Class 2 height district, and used and occupied since 1941: subcellar, boiler room; cellar, restaurant, refrigerator, shipping room for millinery, 4 persons; 1st floor, millinery store, 12 persons, restaurant 318 persons; 2nd floor, stock room for artificial flowers and offices, 21 persons; and stock room for neckwear and offices, 9 persons; third floor, manufacturing hats, 12 persons, stock room and offices, neckwear and blouses, 11 persons; 4th floor, manufacturing dresses, 22 persons; 5th floor, manufacturing blouses and underwear, 69 persons; 6th floor, manufacturing blouses and bath robes, stock room for rhinestones, thread and yarn and offices, 32 persons; 7th floor, manufacturing dresses, 125 persons; 8th floor, manufacturing dresses, hat blocks and blouses, neckwear, stock room and offices, 36 persons; 9th floor, manufacturing, underwear, 65 persons; 10th floor, stock room for blouses and hosiery and offices, 7 persons; manufacturing hat blocks, artificial flowers and dresses, 60 persons; 11th floor, manufacturing underwear, 40 persons; 12th floor, manufacturing veilings and children's wear and stock room and offices, 41 persons; 13th floor, manufacturing blouses and feathers, 55 persons; 14th floor, manufacturing dresses, blouses and pleater, 74 persons; 15th floor, manufacturing neckwear, stockroom for neckwear and offices, 23 persons; 16th floor, manufacturing sportwear and blouses, 47 persons; that no change in use or occupancy is proposed; that Certificate of Occupancy 8803, issued November 13, 1924, on N.B. Applic. 594-23, permits the use of the 1st and mezzanine stories for stores, 80 persons and the 2nd to 16th floors, show rooms and factory, 160 persons each, 120 lb. live load each and limits the area to be used for manufacturing purposes to not more than 25% of the area of the building; and

WHEREAS, the building is equipped with a two source sprinkler system, and an approved standpipe system and two interior stairs 44 in. wide of fireproof construction, from the roof to the street; and

WHEREAS, it is proposed to make two windows comply with the requirements of the Labor Law, as indicated on plans filed with this appeal and to have same distinctly marked "emergency exits" and

WHEREAS, the applicant states that the order involves 11 fireproof double hung windows in the east wall; that it is not necessary to have the bars on all 11 windows adjusted, as the rear door from the space in question (5th floor east) is located in the center of the lofts, 7 ft. from the fireproof stair tower, and adjacent to this door, there are two freight elevators; that the corridor outside this door is 28 ft. long and enters directly into the other half of the loft; that there are also three passenger elevators in front and a staircase alongside, leading directly to the street; that there are also 9 large windows at the front and 9 in the rear of the half of the loft in question, which windows are unobstructed; that at all times, exits are kept free and clear; that the building is sprinklered and it is therefore requested the Board permit the adjustment of bars on two of the windows in question as ample protection.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in an order of the fire commissioner, acting on Order 33514-LF Item 1, and that the appeal be and it hereby is *granted on condition* that at least two side wall windows on the easterly side shall be so arranged as to be readily available for exit to the adjoining roof in the event of fire; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified for under Cal. No. 1033-24-S and 306-23-S.

198-45-A

APPLICANT—Allen A. Blaustein, for Rose Millman, owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—243 Rogers avenue, east side, 27 ft. 9 in. south of President street (1st floor, store); (Block 1282, Lot 11), Borough of Brooklyn.

APPEARANCES—

For Applicant: Allen A. Blaustein and Rose Millman.

For Administration: Thomas A. Larkin, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (198-45-A)

WHEREAS, Allen A. Blaustein, for Rose Millman, owner, filed April 4, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 243 Rogers avenue, east side, 27 ft. 9 in. south of President street (1st floor, store); (Block 1282, Lot 11), Borough of Brooklyn; and

WHEREAS, order 13584-LF, issued by the fire commissioner October 5, 1944 and referred to in a decision of the fire commissioner dated April 4, 1945 reads:

"1. Provide a fixed fire extinguishing system or other means for the extinguishment of fire satisfactory to the Fire Commissioner. Sec. C19-161.0, Adm. Code."

and

WHEREAS, the applicant states that the building is 3 stories (34 ft.) in height, 20 ft. by 53 ft. 6 in. in area, of class 3 construction, erected in 1923, located in a business use, B area, class 1¼ height district and used and occupied since 1935 as follows: cellar—boiler room, mattress picking, sterilizing room, storage bin and ordinary use—no persons; 1st floor—manufacturing and repair of mattresses—3 persons; 2nd floor—dwelling—1 family; 3rd floor—dwelling—1 family; that no change in use or occupancy is proposed; that the building is equipped with one interior wood stairs, 2 ft. 10 in. wide and enclosed in partitions of wood studs, lath and plaster, equipped with wood doors and leading directly to the street; that a ladder and scuttle is provided to the roof; that the cellar doors are self-closing; that the building is also equipped with a fire escape at the rear, leading to the yard by a ladder with egress through the building in question, to the street; and

WHEREAS, Certificate of Occupancy 87665 issued January 7, 1938, permits the use of the cellar for repairing of mattresses and ordinary use; 1st floor—store for sale of mattresses; 2nd floor—dwelling—1 family; 3rd floor—dwelling—1 family; and

WHEREAS, the applicant contends that a new Certificate of Occupancy will be applied for; that the building has an outside street cellar stairs and outside yard stairs, leading to the cellar; that in the cellar there are two inside wooden stairs, enclosed with 4 in. fireproof blocks, equipped with self-closing fire doors at the bottom, one leading to the store with trap cover at 1st tier beams and the other to the public stairhall on 1st story, with egress directly to the street; that egress to the street and yard from the present store at the 1st floor, is by means of doors with an extra door from the store to the public hall; that besides the main interior stairs to upper stories, there is a fire escape at the rear, with a ladder to the yard; that in the rear of the cellar and also in the rear of the first story, there are independent water outlets connected with garden hose for use, should an emergency arise; that portable fire and water pails in the cellar and first story store are in place for instant use; that metal containers with metal covers for loose scrap will

be provided; that there are only three employees in the building and since this business has occupied these premises for ten years and since all precautions are taken to prevent fire, it is requested that the appeal be granted and the present garden hose water supply system be accepted; that only a small amount of mattress felt and materials are kept on the premises; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the order of the fire commissioner, acting on Order 13584-LF, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that an automatic CO_2 extinguishing system, satisfactory to the fire commissioner, shall be installed within the rear half of the basement; that within the 1st floor, sprinkler heads shall be installed and maintained over the portion where the mattresses are repaired or made; that such sprinkler heads may be connected to the house water supply, provided the house water supply is not less than 1½ in. in diameter; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct.

226-45-A

APPLICANT—Stohldrier and Zetsche, for My-R Construction Corp., owner. (872 Gerard Avenue Corporation, lessee).

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—872 Gerard avenue and 81-95 East 161st street, northeast corner (2nd floor); (Block 2476, Lot 56), Borough of The Bronx.

APPEARANCES—

For Applicant: Robert S. Zetsche, H. E. Stohldrier, S. R. Buxbaum and Walter Meyer.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (226-45-A)

WHEREAS, Stohldrier and Zetsche, for My-R Construction Corporation, owner (872 Gerard Avenue Corporation, lessee), filed April 17, 1945, an appeal from a decision of the borough superintendent, affecting premises: 872 Gerard avenue and 81-95 East 161st street, northeast corner (2nd floor); (Block 2476, Lot 56), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated April 13, 1945, re amendment to Alt. Applic. 594-44, reads:

"1. The extension of business in a frame structure is not permitted. Sec. C26-254.0."

2. Show floor framing of first and second floors. Dress Shop must be good for 120 lbs. per sq. ft. and Doctor's Office for 50 lbs. per sq. ft. live load.

3. Stairs must be properly enclosed as per Sec. C26-292. If more than five (5) persons are employed in the Dress Shop, exits must comply with Sec. 271 Labor Law."

and

WHEREAS, the applicant states that the building is three stories (35 ft.) in height, 124.95 (plan shows 128.9 ft.) ft. by 23.41 ft. and 17.39 ft., irregular, in area; of Class 4 construction; located in a business use, B area; Class 1½ height district; erected in 1924 and occupied since 1930 as follows: Cellar, boiler room; 1st floor, stores, 2 persons each store; 2nd floor, vacant and dress shop (2 persons); 3d floor, apartments, 4 persons each; proposed to be occupied: Cellar, same; 1st floor, same; 2nd floor, doctor's office and dress shop, 2 persons each; 3rd floor, apartments, 4 persons each; that there are two interior stairs, located against the rear wall and not extending to the roof, width of same varies from 2 ft. 7 in. to 2 ft. 9 in., of wood construction, enclosed with plaster on stud and equipped with wood doors; that the stairs have a scuttle to the roof and lead directly to the street; and

WHEREAS, the applicant contends that this building is situated in a business zone and is 3-story brick and frame structure (brick walls first floor) with a series of stores on the first floor; that as of August 1944, the second floor was occupied by a dress shop in the Gerard avenue section and a beauty shop in the 161st street section; that the dress shop has removed to the 161st street section and the Gerard avenue section is now vacant; that it is proposed to occupy this section as a dentist's office; that this general type of occupancy has been continuous for fifteen years; that the third floor is occupied by apartments, except the Gerard avenue section; that two rooms of this apartment are now occupied by the Bronx Division of the American Jewish Congress as offices; that they have been notified by the lessee to vacate; that there are two separate entrances to 2nd and 3rd floors, one on Gerard avenue and one on 161st street; that the records of the Dept. of Housing and Buildings indicate that there were originally two 3-story frame buildings, which subsequently were joined by moving one alongside the other; thereafter plans were filed and approved for an alteration; that the plans included the construction of stores on the first floor; that the building was completed in accordance with these plans and Certificate of Occupancy 152, issued August 29, 1924; that a violation (3287-44) was issued by the Dept. of Housing and Building November 14, 1944, for changing the occupancy of building from stores and dwelling to stores and offices, without obtaining a certificate of occupancy for the latter use; that plans were then filed, showing alterations to the second floor, which were subsequently disapproved; that the objections of the borough superintendent would deny them the use of the second floor for the doctor's offices and the continuance of occupancy of remainder of 2nd floor as a dress shop, and require the reconstruction of the floor beams on 2nd floor and the fire-retarding of stairways; that the property in immediate neighborhood is used exclusively for business and there could be no objection by neighbors to the use of the 2nd floor for business; that the floor in question would be of little value as apartments, since light and noise of a busy thoroughfare (161st street) render it undesirable as such; that it should be noted that the first story of the building is enclosed with 12 in. brick walls and a concrete slab on first floor (Class 3 construction) and the structure above is stuccoed; that the rear wall above 2nd floor, the dividing wall between the two sections and the store partitions are all brick-filled, which is superior to the average frame structure; that the floor framing of the 2nd floor is ample for the liveload to which it will be subjected; that there will be but two occupants in both sections; that the certificate of occupancy calls for a liveload of 40 lbs. and for all actual conditions, this should be ample; that the fire-retarding rules were adopted in 1917 and the building approved in 1924 as is; that it is a hardship on the owner to require this fire-retarding now, as there are no additional hazards; that the work contemplated by the owner consists of the installation of stud partitions and three basins in the proposed doctor's office; that in addition, it will be necessary to do such work as required to satisfy objections if they are not removed by the Board's rulings; that the 2nd floor is good for not less than 46 lbs.; that a fire escape for 2nd floor would be installed if deemed advisable; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the decision of the borough superintendent, acting on amendment to Alt. Applic. 594-44, Objections 1, 2 and 3, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

276-45-A

APPLICANT—Henry George Greene, for 454 Eighteenth Street Corporation, owner.

SUBJECT—Appeal from a decision of the fire commissioner.

MINUTES

PREMISES AFFECTED—454-468 18th street, south side, 200 ft. east of 8th avenue and 445-455 19th street (Block 882. Lot 17), Borough of Brooklyn.
APPEARANCES—
For Applicant: Henry George Greene.
For Administration: Thomas A. Larkin, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock and Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (276-45-A)

WHEREAS, Henry George Greene, for 454 Eighteenth Street Corporation, owner, filed May 8, 1945, an appeal from a decision of the fire commissioner, affecting premises 454-468 18th street, south side, 200 ft. east of 8th avenue and 445-455 19th street (Block 882, Lot 17), Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated April 9, 1945, reads:

"This will acknowledge receipt of your letter of April 5th, wherein you request a permit for employees to smoke in the factory building situated at the above mentioned premises.

You are advised that your request must be denied, for the reason that smoking is prohibited by mandatory provisions of the Labor Law and the Rules of the Board of Standards and Appeals.

You may appeal this decision within 30 days to the Board of Standards and Appeals, Room 1015, Municipal Building, Manhattan."

and

WHEREAS, the applicant states that the building is 2 stories (30 ft.) in height, 50 ft. by 200 ft. in area, of class 1 construction, erected in 1904, located in an unrestricted use B area, class 1½ height district and used and occupied since 1945 as follows: cellar—storage—locker room and toilets; 1st floor—manufacturing of drugs; 2nd floor—manufacturing of drugs; proposed to be used and occupied: cellar—stock room and machine shop—50 persons; 1st floor—offices, machine shop and assembling—100 persons; 2nd floor—offices and machine shop—100 persons; that the building is equipped with a one source sprinkler system, three 3 ft. 8 in. wide interior iron stairs, enclosed in terra cotta block partitions, equipped with fireproof, self-closing doors, leading directly to the street and provided with a ladder and scuttle to the roof; and

WHEREAS, the applicant contends that the work carried on throughout the factory portion is for the construction of various hydraulic equipment and is not of too hazardous a nature; that the office partitions are constructed of 4 in. cinder concrete blocks and are entirely separated from the factory area on both floors; that no smoking will be permitted in any other area throughout the plant, except within the confines of the walls of the various offices and the men's toilet and locker room on the cellar floor, as indicated on plans filed with this appeal.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the fire commissioner, dated April 9, 1945 and that the appeal be and it hereby is *granted on condition* that no smoking shall be permitted throughout the building, except in the private offices, which are enclosed in terra cotta partitions on the second floor and the men's toilets and locker room in the cellar, separated from the machine shop by fireproof partitions, and in the ladies' dressing room and offices on the 18th street front of the 1st floor, all as indicated on plans filed with this appeal marked "Received June 13, 1945" (3 sheets), on condition that such signs shall be posted as the fire commissioner shall direct, stating within the spaces where the smoking is hereby permitted; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that the sprinkler system shall be maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 710-26-A, except that the building may be subdivided as now proposed as shown on plans marked "Received June 13, 1945" (3 sheets).

319-45-A

APPLICANT—Voges Manufacturing Co., for E. W. Voges, owner.
SUBJECT—Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—103-12 to 103-20 99th street, west side and 103-11 to 103-15 98th street, east side, 100 ft. south of 103rd avenue (Block 9121, Lots 11, 15, 16, 74, and 75), Ozone Park, Borough of Queens.
APPEARANCES—
For Applicant: J. K. Weickel.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock and Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (319-45-A)

WHEREAS, Voges Manufacturing Co., for F. W. Voges, owner, filed February 16, 1945, an appeal from a decision of the borough superintendent, affecting premises 103-12 to 103-20 99th street, west side and 103-11 to 103-15 98th street, east side, 100 ft. south of 103rd avenue (Block 9121, Lots 11, 15, 16, 74 and 75), Ozone Park, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, acting on Misc. App. 1693-45, dated May 8, 1945, reads:

"1. Screens as shown on plans extending beyond building line 6 ft. 4 in. above grade, is contrary to 2.4.1.4.2. Building Code. This section makes no provision for this type of projection.

2. Metal screens as shown are contrary to 272 of the Labor Law."

and

WHEREAS, Order 12817-LF, issued by the Fire Commissioner May 19, 1944, reads:

"YOU ARE HEREBY ORDERED AND REQUIRED, within 30 days from the date of this order, to:

1. Arrange iron screens on all windows on 1st story so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for the purposes of egress, as per Section 272 of the Labor Law."

and

WHEREAS, Violation 142-45 issued by the Borough Superintendent, January 15, 1945, reads:

"Will you please take notice that there exists a violation of Sec. 2.4.1.1 of the Bldg. Code and C26-216.0 Admin. Code on the premises above described, in that Wire Enclosure of windows project beyond building line."

and

WHEREAS, the applicant states that the building is one story (11 ft.) in height, 147 ft. by 50 ft. in area; Class 3 construction; located in an unrestricted use, A area, Class 1 height district; erected in 1943; used and occupied: Cellar, storage of non-combustible material, 3 persons; 1st floor, manufacturing of small airplane engine parts and non-combustible lastic articles, 40 persons; that the building is equipped with one 4 ft. wide steel and concrete stairs, brick enclosed, equipped with kalamein, self-closing doors; and

WHEREAS, the applicant contends that the screens cover windows in shops that are used exclusively for defense; and

WHEREAS, Certificate of Occupancy 31622, permits the

use of the building for non-combustible storage and light manufacturing; and

WHEREAS, the applicant states there are twenty (20) windows affected on the street level and that the area affected has two regular exit doors and two 12 ft. rolling doors.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1693-45, and that the appeal be and it hereby is *granted,* as to Objection 2, *on condition* that exits shown to 99th street and 98th street shall be maintained, as well as additional exits to the side yard, as indicated on plan filed with this appeal marked "Received May 11, 1945"; that this action may be deemed by the fire commissioner as basis for rescindment of Order 12817-LF; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 581-44-A, and *denied* as to Obj. 1, on the ground that the Board has no jurisdiction to permit the extension of screens beyond the building line.

342-45-A

APPLICANT—Lama and Proskauer, for Frank J. Quigan, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—58-01 Grand avenue, northwest corner of 58th place (2nd floor); (Block 2678, Lots 1 and 9), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama and W. Williman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (342-45-A)

WHEREAS, Lama and Proskauer for Frank J. Quigan, Inc., owner, filed June 5, 1945, an appeal from a decision of the borough superintendent, affecting premises 58-01 Grand avenue, northwest corner of 58th place (2nd floor); (Block 2678, Lots 1 and 9), Maspeth, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, on Alt. Applic. 1003-43, dated May 24, 1945, reads:

"1. The omission of a fireproof brick enclosed stairs from new second floor and the installation of a new iron balcony with sliding counterbalanced drop ladder, is contrary to Sec. 266 of the Labor Law."

and

WHEREAS, the applicant states that the building is two stories (21 ft. 4 in.) in height, 220 ft. by 108 ft. in area at 1st floor, 60 ft. by 78 ft. in area at 2nd floor, of class 3 construction, erected in 1922, located in an unrestricted use, C area, class 1½ height district and used and occupied since 1922: cellar-boiler; 1st floor manufacturing of gun clips—150 persons; proposed to be used and occupied: cellar—same; 1st floor—same; 2nd floor—office—30 persons, that the building is equipped with a two source sprinkler system, an interior fire alarm system and that fire drills are maintained; that there are two interior fireproof stairs from the 2nd floor to the street and a ladder and scuttle is provided to the roof; that stairs are 4 ft. 4 in. and 5 ft. 6 in. in width; that no certificate of occupancy has been issued for the building; and

WHEREAS, the applicant contends that the building as existing, is a one story building, occupying the entire area with the exception of a court facing 58th road; that an application has been filed for the construction of an office on the 2nd floor, 60 ft. by 78 ft. in area, at the corner of Rust street and Grand avenue; that this application was approved, but as two means of exit were required, a fireproof stair was shown, leading from the 2nd floor to Rust street on a strip of land, the title of which is clouded; that the owners have tried to clear up this title without success and therefore request is made to omit the fireproof stair and substitute a 4 ft. iron balcony and counterbalanced sliding drop ladder; that in addition, there is one 4 ft. 4 in. fireproof enclosed iron ladder, which leads directly to Grand avenue and also a 5 ft. 6 in. wide fireproof enclosed iron stairs, leading to the 1st floor of the building; that due to the fact that there are two fireproof enclosed stairs leading to the street and into separate fire areas, it is requested that this appeal be granted.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law as cited in a decision of the borough superintendent on Alt. Applic. 1003-43, and that the appeal be and it hereby is *granted,* as to Objection 1, *on condition* that the two enclosed stairways, one leading directly to Grand avenue and one leading to the rear portion of the building which is separated by a fire wall and from which there is access to the street, shall be maintained as exits from the second story, in addition to the proposed balcony and counterbalanced drop ladder to Rust street, all as indicated on plans filed with this appeal marked "Received June 5, 1945"; that fire doors, separating the two areas, shall be maintained as shown thereon; that the building shall not be increased in height or area; that the sprinkler system shall be maintained in accordance with the requirements therefor, other than as modified under Cal. 353-45-A; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

353-45-A

APPLICANT—Lama and Proskauer, for Frank J. Quigan, Inc., owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—58-01 Grand avenue, northwest corner of 58th place (1st floor); (Block 2678, Lots 1 and 9), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama and W. Williman.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (353-45-A)

WHEREAS, Lama and Proskauer, for Frank J. Quigan, Inc., owner, filed June 5, 1945, an appeal from a decision of the borough superintendent, affecting premises 58-01 Grand avenue, northwest corner of 58th place (1st floor); (Block 2678, Lots 1 and 9), Maspeth, Borough of Queens; and

WHEREAS, the decision of the borough superintendent, on Misc. Applic. 1587-45, dated May 23, 1945, reads:

"2. Provide two 8 in. sources of supply for sprinkler. Art. 15-21.

3. Show full compliance with Art. 15.21 as to all pipe sizes throughout system, many of which are shown overloaded."

and

WHEREAS, the applicant states that the building is two stories (21 ft. 4 in.) in height, 220 ft. by 108 ft. in area, at 1st floor, 60 ft. by 78 ft. in area at 2nd floor, of Class 3 construction, erected in 1922, located in an unrestricted use, C area, Class 1½ height district and used and occupied since 1922: cellar-boiler, 1st floor, manufacturing of gun clips, 150 persons; proposed to be used and occupied: cellar, same, 1st floor, same; 2nd floor, office, 30 persons; that the building is equipped with a two source sprinkler system, an interior fire alarm system and that fire drills are main-

tained; that there are two interior fireproof stairs from the 2nd floor to the street and a ladder and scuttle is provided to the roof; that stairs are 4 ft. 4 in. and 5 ft. 6 in. in width and that no certificate of occupancy has been issued for the building; and

WHEREAS, the applicant contends that this appeal is for permission to use two 6 in. sources of supply for sprinklers and to approve the layout filed with this appeal and as filed with the Department of Housing and Buildings, showing the pipe sizes throughout the system; that the blind space above the ceiling should be considered an entirely separate area, because of its construction; that the main joists of the blind space are laid level and floored over with 1 in. planking with tight joints and no openings; that this construction is identical with other buildings of several stores having only single thickness flooring and open joists and such are accepted as separate areas; that the roof of this building is of built-up construction above this planking, creating an inaccessible air space varying from about 18 in. to 30 in. over the entire ceiling; that this space is too small for a workman to work in; the the sprinklers in this space are fed from the piping below; that consideration has been given to sizing this piping to adequately handle both areas; that one set of sprinkler lines and mains is used to feed both the ceiling and blind spaces above, which arrangements are acceptable to the New York Fire Insurance Exchange and also to the borough superintendent under C26-1355.0, a.g.; that the piping sizes are more than large enough to supply all the sprinklers in either area separately; that permission is also requested to extend the existing two source sprinkler system in the new building, which is a separate fire area for the following reasons: that the existing system is supplied by two 6 in. connections to the water mains in two separate streets; that the water mains in these streets are fed two ways, assuring an adequate volume of water; that the pressure of approximately 45 lbs. will provide an ample supply of water in case of fire; that the existing building is one story in height and the pressure exerted over the entire system and the volume of water available to the system are much greater than that usually found in most sprinklered areas; that the new building area requires an 8 in. supply to feed approximately 400 sprinklers in each area; that by cross-connection of the two 6 in. mains into an 8 in. supply, this new area will be supplied with more than adequate volume and pressure for the operation of the sprinkler system; that by dividing the new system of 400 sprinklers into two separate systems, each supplied by a 6 in. feed main with separate alarm and control valves, a positive, automatic sprinkler system is assured; that the installation as planned, is a practical and logical method for conditions such as are met in this building, and such system as supplied is also acceptable to New York Fire Insurance Exchange; it is therefore requested that the extension of the sprinkler system be accepted as a two source system.

Resolved, that the decision of the borough superintendent on Misc. Application 1587-45, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the two 6 inch sources of supply shall be maintained as proposed and that the sprinkler system shall be classified as a one source system; as to Objection 3, that the appeal be and it hereby is *denied.*

330-20-A

APPLICANT—Irving Cyruli, for Bessie De Veer, owner.

SUBJECT—Application for consideration—reopening and amendment—re Appeal from a decision of the superintendent of buildings (previously granted on condition).

PREMISES AFFECTED—103-15 96th street (formerly Van Wicklin place) east side, 100 ft. south of 103rd avenue (Block 399, Lot 62), Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Irving Cyruli and Bessie De Veer.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (330-20-A)

WHEREAS, this appeal from a decision of superintendent of buildings, affecting premises 103-15 96th street (formerly Van Wicklen place), east side, 100 ft. south of 103rd avenue (Block 399, Lot 62), Ozone Park, Borough of Queens, was granted by the Board on June 1, 1920, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on a decision of the borough superintendent, acting on Alt. Applic. 649-45, dated May 17, 1945, which reads:

"1. The extension of the sanitorium use into the first floor, is contrary to the decision of the Board of Standards and Appeals under Cal. 330-20-A.

2. The increase in the number of patients from 12 to 17, is also contrary to the decision abovementioned."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 1, 1920 by adding thereto:

"that in the event the owner desires to occupy the first floor also as a nursing home, such use may be permitted, provided the building is not increased in height or area; that the number of beds and the 2nd floor shall not exceed ten (10) and the number of beds on the 1st floor shall not exceed eleven (11); that the nursing home shall comply with the requirements of the Department of Hospitals therefor; that such additional toilet facilities on the first floor shall be installed as that department shall require; that the cellar ceiling throughout shall be fire retarded; that the door leading to the cellar shall be made self-closing and tight-fitting; that a sprinkler system shall be installed and maintained within the stair hall and corridors leading thereto on the 1st and 2nd stories and including the kitchen on the first story; that the building shall not be extended in height or area."

710-26-A

APPLICANT—Henry George Greene, for 454 Eighteenth Street Corporation, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—appeal from an order of the fire commissioner.

PREMISES AFFECTED—445-455 19th street, north side, 200 ft. east of 8th avenue (Block 882, Lot 17), Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry George Greene.

For Administration: Thomas A. Larkin Fire Dep't.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (710-26-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 445-455 19th street, north side, 200 ft. east of 8th avenue (Block 882, Lot 17), Borough of Brooklyn, was granted by the Board on November 30, 1926, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 30, 1926, by adding thereto:

. ."* * * that in the event the portion of the building as was submitted is not constructed, the building is constructed as indicated on plans filed with this appeal, No. 276-45-A, that the terms of this resolution adopted November 30, 1926, may still permit the omission of the standpipe, provided such conditions as are set forth under Cal. 276-45-A as shown on plans filed therewith marked "Received June 13, 1945" (3 sheets), are substantially maintained and the building is not increased in height or area and the sprinkler system is maintained in accordance with the requirements therefor and to the satisfaction of the fire commissioner."

337-44-A

APPLICANT—Herbert L. Carpenter, Executor, Estate of Alena F. Carpenter, owner.

SUBJECT—Application for consideration—reopening and amendment of resolution—Appeal from a decision of the borough superintendent (previously granted on condition).

PREMISES AFFECTED—1239-1243 Fulton street, north side, 340 ft. east of Bedford avenue (Block 1842, Lot 50), Borough of Brooklyn.

APPEARANCES—

For Applicant: Herbert L. Carpenter and Eric A. Holmgren.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE TO REOPEN AND AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn..... 3

Negative: Commissioner Savage..... 1

THE RESOLUTION (337-44-A)

WHEREAS, this appeal from a decision of the borough superintendent, affecting premises 1239-1243 Fulton street, north side, 340 ft. east of Bedford avenue (Block 1842, Lot 50), Borough of Brooklyn, was granted by the Board on June 27, 1944, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, based on a decision of the borough superintendent on Alt. Applic. 665-44, dated May 16, 1945, which reads:

"16. The second floor and mezzanine construction should be of sufficient strength to sustain a liveload of 120 lbs. per sq. ft., as required by Sec. 7.3.2.3 of the Building Code and the resolution of the Board of Standards and Appeals, requiring full compliance with the law in all respects, except exits. The construction is weak.

17. The occupancy of "light storage" (furniture material) "no persons" specified in the resolution of the Board of Standards and Appeals, cannot be changed to office, without the consent of the Board.

18. A second means of exit with direct egress to a street should be provided for the large store of first floor."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 27, 1944, by adding thereto:

"that the further objections of the borough superintendent are hereby *modified* as follows: as to objection 16, that the floor load of the second floor shall be maintained to a capacity of not less than 80 lbs. per superficial foot; that the manufacturing work carried on therein shall be solely for the upholstering and repairing of furniture with no heavy machinery or heavy storage; as to objection 17, that the space on the mezzanine, where formerly proposed to be occupied for light storage with no human occupancy, may be used for office occupancy with not more than three (3) persons; as to objection 18, that the rear exit from the first floor store as indicated on plans filed with this appeal marked "Received June 7, 1944" may be accepted as a second means of exit from such first floor store."

712-44-A

APPLICANT—F. W. Voges, for The Voges Manufacturing Co., owner.

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—103-12 to 103-22 99th street, west side, 100 ft. south of 103rd avenue (Block 9121, Lots 11, 15 and 16), (Buildings No. 2 and 3); Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: J. K. Weickel.

For Administration: Thomas A. Larkin, Fire Dep't.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (858-19-BZ)

WHEREAS, this application under section 7g of the zoning resolution, permitting in a business use district, the erection and maintenance of a garage for more than five motor vehicles, affecting premises 1520-1528A Fulton street, south side, 320 ft. west of Albany avenue (Block 1864, Lot 14), Borough of Brooklyn, was granted by the Board on March 2, 1920, on certain conditions; and

WHEREAS, on May 27, 1941, the resolution was amended, permitting the inclusion of a gasoline service station, lubritorium and auto laundry; and

WHEREAS, on April 17, 1942, June 8, 1943 and June 6, 1944, was extended to obtain permits and complete the work; and

WHEREAS, the applicant requested a further extension of time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 2, 1920, as amended through June 6, 1944, only in so far as it has reference to the completion of the work, so that as amended, this portion of the resolution shall read:

"that in view of the statement by the applicant that all permits have been obtained, all work shall be completed within one (1) year from the date of this *amended* resolution and that other than as *amended* herein, the conditions of the resolutions of March 2, 1920 and May 27, 1941, shall be complied with and that a certificate of occupancy shall be obtained."

309-28-BZ

APPLICANT—Richard Shutkind, for Shell Oil Company, Inc., owner.
SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the commissioner of buildings) previously granted on condition, under section 21 of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station.

MINUTES

ACTION OF BOARD—Application reopened and time extended.

THE VOTE TO REOPEN AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (309-28-BZ)

WHEREAS, this application under section 21 of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, affecting premises 2323-2331 Flatbush avenue and 2370-2384 Utica avenue, northeast corner (Block 8510, Lot 1), Borough of Brooklyn, was granted by the Board on October 23, 1928, on certain conditions; and

WHEREAS, the resolution was amended on December 4, 1928, time extended June 25, 1929, resolution further amended on October 1, 1929, September 29, 1936 and June 15, 1943 and time further extended on June 20, 1944; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of October 23, 1928, as amended through June 20, 1944, only in so far as it has reference to obtaining permits and completion of the work, so that as amended, this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within one (1) year from the date of this *amended* resolution and that other than as *amended* herein, the conditions of the resolutions of October 23, 1928, December 4, 1928, October 1, 1929, September 29, 1936 and June 15, 1943, shall be complied with and that a certificate of occupancy shall be obtained."

315-41-BZ

APPLICANT—Anna Rabe, owner (Rabe Bros., lessee).

SUBJECT—Application for consideration—reopening and extension of permit—re Application (decision of the borough superintendent) previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, the maintenance of a garage for three (3) commercial motor vehicles.

PREMISES AFFECTED—164-44 75th road, south side, 96 ft. 7 in. west of 166th street (Block 6967, Lot 43), Flushing, Borough of Queens.

APPEARANCES—
For Applicant: Walter Rabe.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and permit extended.

THE VOTE TO REOPEN AND EXTEND PERMIT—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (315-41-BZ)

WHEREAS, this application under section 7e of the zoning resolution, permitting in a residence use district, the maintenance of a garage for three commercial motor vehicles, affecting premises 164-44 75th road, south side, 96 ft. 7 in. west of 166th street (Block 6967. Lot 43), Flushing, Borough of Queens, was granted by the Board on July 1, 1941, on certain conditions; and

WHEREAS, the permit was extended on July 13, 1943 and the applicant requested a further extension of the permit.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 1, 1941, only in so far as it has reference to the term of the permit, so that as amended, this portion of the resolution shall read:

"Granted under section 7e for a term of two (2) years from the date of this *amended* resolution, to permit the building as proposed to be extended and occupied as proposed, *on condition* that the building shall not be increased in height or area and that during the term of the permit, the lot shall be occupied for no other use other than as herein stated, for the storage of not over three (3) commercial moving vans and light trucks; that no gasoline shall be stored on the premises other than in the tanks of the cars; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto (Alt. Applic. 497-41)."

271-43-BZ

APPLICANT—Lama and Proskauer, for Schrier Trading Corporation, owner.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent) previously granted on condition under section 7f, permitting in a business use district, for a temporary term of two years, the reconstruction and alteration of existing garages (five individual garages).

PREMISES AFFECTED—11-17 (7-17 displayed) Schenectady avenue and 617-627 Herkimer street, northeast corner (Block 1701, Lot 1), Borough of Brooklyn.

APPEARANCES—
For Applicant: Alfred A. Lama.

ACTION OF BOARD—Application reopened, resolution amended and time extended.

THE VOTE TO REOPEN, AMEND RESOLUTION AND EXTEND TIME—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (271-43-BZ)

WHEREAS, this application, under section 7c of the zoning resolution, to permit in a business use district, the maintenance of more than five individual garages, affecting premises 11-17 (1-17 displayed) Schenectady avenue and 617-627 Herkimer street, northeast corner (Block 1701, Lot 1), Borough of Brooklyn, was placed on the reserve calendar on April 4, 1944 and action on zoning deferred on May 23, 1944, but a resolution was adopted, revoking plans, permits and certificate of occupancy; and

WHEREAS, on March 13, 1945, the application was reopened by vote of the Board and granted on certain conditions, under section 7f of the zoning resolution, for a term of ten (10) years; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of May 23, 1944, as amended March 13, 1945, so that the resolution shall read:

"Granted under section 7f, to permit the reconstruction and alteration of existing garages as indicated on revised plans marked "Received March 5, 1945" *on condition* that all open space not covered by the single car garages shall be paved with concrete or with rolled asphalt over a bed of cinders; that existing curb cuts from Herkimer street and Schenectady avenue shall not be increased; that no signs advertising the garage use shall be displayed; that no parking of cars shall be permitted, other than the parking and storage within the garages themselves; that this variance is for a term of ten (10) years from March 13, 1945; that all permits shall be obtained and all work completed within six (6) months from the date of this *amended* resolution."

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4
Negative: 0

THE RESOLUTION (459-44-BZ)

WHEREAS, Arnold W. Lederer, for Mary L. Richardson, owner, filed July 21, 1944, an application under section 7c of the zoning resolution, to permit in a business use, D area district, manufacturing in excess of the permitted area, affecting premises 1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Bath avenue is in a business use, D area and class 1 height district; 18th avenue is in a business and residence use, D area and class 1 height district and Bay 17th street is in a residence and business use, D area and class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated July 12, 1944, on Alt. Applic. 1835-44, reads:

"2. Area proposed to be used for manufacturing exceeds the allowable limits in a business use district as per Art. II, Sec. 4c, of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 39-2/3 ft. frontage by 80 ft. in depth, on which is located a three story class 3 constructed building, 39 ft. 8 in. by 80 ft. in area, occupied: cellar—boiler room and storage; 1st floor—mattress factory; 2nd floor—dress factory; 3rd floor—two families; it is proposed to occupy the 1st and 2nd floors for 100% factory occupancy; and

WHEREAS, the applicant contends that the building was erected in 1919 as a furniture store on cellar, 1st and 2nd floors and with two families above; that the owner of the building conducted his business therein and the applicant eventually took the property over and due to the character of the layout, rented it for factory purposes, not realizing the seriousness of the change of occupancy; that the manufacturing uses are distributed between the 1st and 2nd floors only; that the first floor is occupied by a mattress factory and the second floor by a dress shop; that inasmuch as both floors are used for manufacturing, it would be difficult to limit one of the floors to 25% manufacturing; it is therefore respectfully requested that manufacturing be permitted on both floors; that 2000 sq. ft. are occupied for manufacturing on the 1st floor at the present time and 2400 sq. ft. on the 2nd floor for manufacturing; that the total area permitted is 3200 sq. ft. for manufacturing on this lot and that this application is predicated under section 7c of the zoning resolution; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant a variance under section 7c of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7c thereof, to permit the manufacturing use to be extended to include the second floor of the building, *on condition* that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 460-44-A; that the sprinkler system, required by the order of the fire commissioner, shall be promptly installed; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

576-44-BZ

APPLICANT—Anthony M. De Rose, for Amrul Corporation, owner.

MINUTES

SUBJECT—Application (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use district, the change of occupancy of a club house to a place of public assembly (meeting room, confirmation and wedding parties).

PREMISES AFFECTED—2017 Grand Concourse, northwest corner of Bush street (Block 2808, Lot 90), Borough of The Bronx.

APPEARANCES—

For Applicant: Anthony De Rose, Joseph Gemanhi and Max Freyer.

For Opposition: Isidore Zeff.

For Administration: Fred. Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (576-44-BZ)

WHEREAS, Anthony M. DeRose, for Amrul Corporation, owner, filed October 11, 1944, an application under section 21 of the zoning resolution, to permit in a residence use district, the change of occupancy of a club house to a place of public assembly (meeting rooms, confirmations and wedding parties), affecting premises 2017 Grand Concourse, northwest corner of Bush street (Block 2808, Lot 90), Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals; at its regular meeting, June 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Grand Concourse and Bush street is in a residence use, B area and Class 1½ height district and East Burnside avenue is partly in a residence use and partly in a business use, B area and Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated September 11, 1944, re Alt. Applic. 439-44, reads:

"1. No building in a residence district may be used for business. Section 3, subdivision 2 zoning law."

and

WHEREAS, the applicant states the premises consist of a plot, 36.77 ft. frontage by 98.2 ft. in depth, on which is located a 3 story, 40 ft. high, Class 3 constructed building, 25 ft. by 50 ft. in area; that Certificate of Occupancy 270, issued October 25, 1937, permits the occupancy as follows: basement, private laundry for adjoining hospital; upper floors, club rooms and that it is proposed to occupy the building for meeting rooms, confirmations and weddings; and

WHEREAS, the applicant contends that the building is three stories in height of brick non-fireproof construction and is located in a residence use district; that in 1925, the building was converted into a club house and this occupancy existed for about nine years; that in 1934, the property was purchased by the present owners, and used as a club house for members of the medical profession, without changing its design or arrangement from the previous occupancy; that this occupancy continued until sometime in 1936, when it had to be discontinued, because of adverse economic reasons; that it was then leased by the owners to the present occupant for the use of meetings, parties, weddings, confirmations, etc.; that this use has continued uninterrupted to present date, and for the said use, it was not necessary to change the design or arrangement of the building from that existing when used as a club house by the James F. Brown Association or by members of the medical profession; that the exterior design of the building has never been altered or changed from its original use as a single family residence, during the aforesaid changes in occupancy; that as a single family house, its marketability is affected by traffic conditions, density of area and the numerous multiple family buildings in the neighborhood; that there is no market for this building as a club house within the meaning of Section 3(2) of the zoning resolution; that actually there is not any difference in use from when it was used as a club house, except that presently, the use is conducted as a business and as a club it is assumed to be operated for the benefit of its members; that this non-residential use is not a hazard or a nuisance, and therefore does not adversely effect the desirability of the surrounding property for residential use; that this is in reality, a community building, which by present day planners, is essential in a residential area, and also regarded as a harmonious use; that it is obvious that the present use is regarded as the highest and best use for this property, as the same is assessed for tax purposes for $43,000; that the present use is essential in this community, as it suits the social habits of the people who live in the area; that within the affected area, non-conforming uses now prevail, that were granted by the Board, viz; northwest and the southwest corners of the Grand Concourse and East Burnside avenue; that the presence of the hospital would prevent the use of these premises for residence use; that the occupancy stated in this application is the occupancy now in the building and for which this application is made requesting a variation and that the legal occupancy is that given in Certificate of Occupancy 270; and

WHEREAS, the applicant amended the basis of his application to section 7 subdivision e; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the Committee recommended that the application be denied; and

WHEREAS, the Board deemed that there was no justification for the exercise of its discretion to grant a zoning variance under section 7, subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 439-44, objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

95-45-BZ

APPLICANT—Lama and Proskauer, for Marie Atherton, owner.

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use C area district, the alteration and extension of an existing garage for more than five motor vehicles and gasoline service station, the buildings, as extended, being in excess of the area permitted by the zoning resolution.

PREMISES AFFECTED—87-24 to 87-38 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens.

APPEARANCES—

For Applicant: Alfred Lama.

For Opposition: None.

For Administration: Fred. Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (95-45-BZ)

WHEREAS, Lama and Proskauer, for Marie Atherton, owner, filed February 23, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a business use, C area district, the alteration and extension of an existing garage for more than five motor vehicles and a gasoline service station, the building, as extended, occupying in excess of the area permitted by the zoning resolution, affecting premises 87-24 to 87-38 Lefferts boulevard, west side, 190 ft. south of Jamaica avenue (Block 9328, Lots 16, 18, 20 and 22), Richmond Hill, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meet-

ing June 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Lefferts boulevard and 118th street are in a business use, C area and Class 1½ height district; Jamaica avenue and Myrtle avenue are in a business use, C area, Class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated February 20, 1945, re Alt. Applic. 74-45, reads:

"1. The alteration and extension of a public garage, gasoline service station, lubritorium and repair shop in a business district, is contrary to Art. II, Sec. 4 of the zoning resolution.

2. The area of occupancy in a C area district in excess of 60% of the plot, is contrary to Article IV, Sec. 13 of zoning resolution."

and

WHEREAS, a further decision of the borough superintendent, dated May 31, 1945, superseding the decision of the borough superintendent, dated February 20, 1945, reads:

"1. The alteration and extension of a public garage which includes the five car garage now on premises, gasoline service station, lubritorium, auto laundry and repair shop in a business district, is contrary to Art. II, sec. 4 of the Zoning Resolution and the ruling of the Board of Standards and Appeals per Cal. 482-37-BZ.

2. The area of occupancy in a C area district in excess of 60% of the plot, is contrary to Art. 4, sec. 13 of the Zoning Resolution."

and

WHEREAS, the applicant states the premises consist of a plot 160 ft. frontage by 93 ft. in depth, on which is located two garages for more than five motor vehicles, each with a frontage of 40 ft. and a depth of 93 ft., a one story five car metal garage, 40 ft. by 40 ft. and a one story concrete block building occupied as a repair shop, and a grease lift, tanks and pumps of a gasoline service station; that it is proposed to demolish the buildings and erect a one and two story building, occupying the entire plot, with the exception of the gasoline station at the front, 30 ft. deep by 108 ft. long and that the office portion of building two stories in height, and the second floor are to be used as store room and office; and

WHEREAS, the applicant contends that on December 2, 1944, the regulations relating to height and area were amended by the City Planning Commission; that inasmuch as the use is existing and the reconstruction of this building would improve the general character of this neighborhood, it is respectfully requested that this application be granted; and

WHEREAS, the plot has an area of 14,896 sq. ft.; the building as proposed has an area of 11,656 sq. ft. or 78.3% of area of lot instead of 60%, but with the allowance for starting of rear yard above the first story, would be 9,151 sq. ft.; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise its discretion to grant under sections 7c and 7i of the zoning resolution, and that the applicant had substantiated a basis of appeal under section 21 thereof and was, therefore, entitled to relief on the grounds of practical difficulty and unnecessary hardship, inasmuch as the proposed building is not only a preferable condition, but will cover substantially the same total area as existing buildings of similar use.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution and that the application be and it hereby is *granted* under sections 7c, 7i and 21 thereof, as to objections 1 and 2 of Alt. Applic. 74-45, to permit the building as proposed to cover the area shown on plans filed with this application marked "Received February 23, 1945", replacing existing buildings of substantially similar area, *on condition* that the building shall not exceed one story in height, as proposed, except for a small second story located in the central section for offices, as indicated; that the building shall be of Class 3 construction throughout, with face brick on the portions facing Lefferts boulevard and returning on the side lines for a distance of at least thirty (30) feet; that no windows shall be erected on the side lot lines; that any openings on the rear lot line, shall be filled with glass block approved for exterior walls without openings therein; that any skylights erected shall not be nearer than fifteen (15) feet from the rear lot line; that the space to be left unbuilt upon, shall be cement paved; that a new cement sidewalk and curbing shall be constructed; that all existing curb cuts shall be removed and no new curb cuts constructed, except two as shown, each 40 ft. in width and not nearer than 20 feet to either side lot line; that the gasoline dispensing pumps shall be erected not nearer than 10 feet to the street building line; that the number of gasoline storage tanks shall not exceed six, not over 550 gallons each; that the motor vehicle repairing proposed shall be confined to the alcove at the front, toward the north for brake testing, wheel lining and minor repairs and to a space at the southwest corner, of a size not exceeding 400 sq. ft., sufficient to accommodate two cars under repair; that all such repairs within the building shall be by means of hand tools; that no anvil or forge shall be maintained or any heavy body or collision work done on the premises; that any signs on the building shall be restricted to permanent signs flat against the building at the points indicated on plans; that no roof sign shall be erected, and not over one bracket sign, advertising the brand of gasoline sold, in addition to the illuminated globes of the gasoline pumps; that such bracket sign shall not extend more than five feet beyond the building line; that such sign may be illuminated; that the windows, opening in the front wall of the lubritorium into the brake testing alcoves, shall be filled with glass block approved for exterior walls; that the boilerroom shall be of fireproof construction, enterable only from the exterior and used only as a boilerroom and no storage maintained therein; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits required shall be obtained and all work completed within one year from the date of this resolution.

236-45-BZ

APPLICANT—Goldwater & Flynn, for B. P. Hotel Company, Inc., owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c of the zoning resolution, to permit occupancy of a concert hall in a hotel located partly in a business, partly in a retail and partly in a residence use district, for commercial broadcasting and theatrical purposes, the concert hall being located in the residence use portion of the building.

PREMISES AFFECTED—1421-1429 6th avenue and 101-107 West 58th street, northwest corner and 106 Central Park South (Block 1011, Lot 29), Borough of Manhattan.

APPEARANCES—

For Applicant: M. Goldwater, S. Rosenblum, L. Luier, A. Salkin and E. Turnheim.

For Opposition: None.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (236-45-BZ)

WHEREAS, Goldwater and Flynn, for B. P. Hotel Company, Inc. owner, filed April 21, 1945, an application under section 7c of the zoning resolution, to permit occupancy of

a concert hall in an hotel located partly in a business, partly in a retail and partly in a residence use district, for commercial broadcasting and theatrical purposes the concert hall being located in the residence use portion of the building; affecting premises: 1421-1429 6th avenue, 101-107 West 58th strect, northwest corner and 106 Central Park South (Block 1011, Lot 29), Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 20, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Central Park South is in a residence use, B area and Class 2 height district; West 58th street is in a business and retail use, B area and Class 2 height district; Fifth avenue is in a retail, restricted retail and residence use, B area and Class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated March 28, 1945, re Alt. Applic. 423-45 reads:

"3. Proposed use of concert hall for business purposes is contrary to Article II, Section 3, Zoning Resolution, as concert hall is in a residence district."

and

WHEREAS, the applicant states the premises consist of a plot 125 ft. frontage by 200.10 feet in depth, on which is located a 39 story (410 ft.) in height, Class 1 constructed, hotel 125 ft. by 200 ft. 10 in., irregular in area with a concert hall on the 2nd floor mezzanine and that it is proposed to use this concert hall for commercial broadcasting and theatrical purposes; and

WHEREAS, the applicant contends that the entire building was erected under N.B. Applic. 631-28 for a hotel and is known as the Barbizon Plaza; that at time of erection, it was intended to use this building as an art center and to cater to such a clientele; that for the past decade or so, it served as a center for many groups of artists and clubrooms were provided for that purpose; that as part of accessory use of the hotel, a concert hall was provided for recitals, musicals and a type of inconspicuous entertainment suitable for this type of occupancy; that while the concert hall, which connects directly with the lobby, is situated on the 2nd floor in the rear, there are no advertisements or displays from the Central Park South elevation to indicate this; that the concert hall is not reached from the 59th street portion; that an emergency egress to comply with the Building Code, is located at this point; that the entrance to the concert hall is through the West 58th street lobby, which is located in a business and retail district; that subsequent to the development of radio, this concert hall has been used for broadcasting, admission by ticket only to invited guests; that no price is charged; that this concert hall is not in constant use; that the nature of the entertainment is such as given by private schools or clubs, a graduation ceremony or the like; that the nature of the occupancy is not detrimental to the surrounding property; that the building itself is fireproof and Certificate of Occupancy 18131-32, for the use of the various floors, states that the 2nd floor mezzanine may be used for clubrooms and a concert hall; that no structural changes are proposed; that because of the fact that for some of these entertainments tickets are sold, the use comes under the classification of a business use; however, in view of the general nature and type of such use, it should not be considered other than as accessory to the hotel; that the owner does not intend nor wish to compete with the usual theatrical performances, but desires to conduct these musicals and recitals and occasional broadcasts under such conditions as will safeguard the residential district in the rear; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution, and that the application be and it hereby is *granted* under section 7c thereof, to permit the extension of the business use into the residential area as proposed, *on condition* that such business use shall be restricted to the business use as herein proposed and shall be maintained at all times, as proposed; that no evidence of business use shall appear on the facade of the building on West 59th street; that the exit to West 59th street shall be maintained as stated, for exit purposes only; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

APPEALS FROM ADMINISTRATIVE DECISIONS

450-44-A

APPLICANT—Arnold W. Lederer, for Mary L. Richardson, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn.

APPEARANCES—

For Applicant: Arnold Lederer and Mary L. Richardson.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn 4

Negative: 0

THE RESOLUTION (460-44-A)

WHEREAS, Arnold W. Lederer, for Mary L. Richardson, owner, filed on July 21, 1944, an appeal from a decision of the borough superintendent, affecting premises 1749-1751 (1751-1753 displayed) Bath avenue and 169 Bay 17th street, northeast corner (Block 6402, Lot 9), Borough of Brooklyn; and

WHEREAS, the decision of the borough superintendent, dated July 12, 1944, on Alt. Applic. 1835-44, reads:

"1. Provide two means of egress from each floor complying with Sec. 270 of the Labor Law. Note: Building was erected under permit N.B. 4873-19."

and

WHEREAS, the applicant states the building is 3 stories (36 ft.) in height; 39 ft. 8 in. by 80 ft. in area at 1st floor; 39 ft. 8 in. by 72 ft. in area at typical floor; of Class 3 construction; erected 1919; located in a business use, C area and Class 1 height district, and used and occupied since 1934 as follows: cellar, boiler room and blower room, 2 persons; 1st floor, mattress factory, 8 persons; 2nd floor, dress factory, 50 persons; 3rd floor, dwelling, 2 families; that the building is equipped with an approved interior fire alarm system; that there are two interior wood stairs, enclosed in partitions of plaster board and metal, equipped with kalamein self-closing doors and extending directly to the street: One stairway is 3 ft. 8 in. in width and the other 4 ft. in width; that a ladder and scuttle is provided to the roof; that the building is also equipped with one fire escape on the west side, extending to the roof by a ladder and to the street by a sliding drop ladder; that windows and doors on the course of the fire escape are fireproof, self-closing; and

WHEREAS, Order 9564-LF, issued by the fire commissioner September 16, 1942, reads:

"1. Provide a fixed fire extinguishing system or other means for the extinguishment of fire, satisfactory to the fire commissioner. C19-161.0 Administrative Code."

and

WHEREAS, the applicant states that when the building was erected, it was arranged for occupancy as follows: cellar, storage; 1st and 2nd floors, furniture store; 3rd floor, two families; that egress consists of wood stairs, enclosed in metal covered partitions; that one of these stairways leads to the third floor from whence a ladder and scuttle will be

provided to the roof; that there is also a multiple dwelling fire escape for the 2nd and 3rd floors; that all screens and bars on the windows will be removed; that fire alarm system is provided on the 1st and 2nd floors; that a sprinkler system will be installed in compliance with the order of the fire commissioner; that it is proposed to provide a counterbalanced stairway, 22 in. wide from the existing fire escape and a two ft. wide fireproof door to the same, to comply with the Labor Law; that it is proposed to provide a double rung ladder to a scuttle in the roof from the northerly stairway, provide exit signs and lights and install adequate guards against large show windows to prevent breakage, at least 3 ft. high and enclose the interior cellar stairs with fireproof construction; that new building records on file indicate 120 lb. live load for both floors; that in view of the limited occupancy it is requested this appeal be granted; and

WHEREAS, these premises were inspected by a committee of the Board.

Resolved, the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. Applic. 1835-44 and that the appeal be and it hereby is *granted,* as to objection 1, *on condition* that the means of exit shall be maintained as proposed and shown on plans filed under Cal. 459-44-BZ, marked "Received October 31, 1944"; that the stairway enclosures shall comply with the requirements therefor, with partitions as approved for one-hour test; that an additional means of exit from the cellar shall be provided as may be approved by the borough superintendent; that the third floor, unless continued for residential occupancy for two families, shall be left vacant; that a ladder and scuttle to the roof shall be provided as proposed; that the sprinkler system, required by order 9564-LF of the fire commissioner, shall be properly installed; that there shall be no burning of refuse within the building or on adjacent premises; that refuse shall be promptly removed from the premises and not stored in the cellar; and that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 459-44-BZ.

475-44-A

APPLICANT—Leo H. Schoen, for Reliable Remover and Lacquer Corporation, owner.

SUBJECT—Application reopened and restored to calendar March 20, 1945—re appeal from an order of the fire commissioner re Packaging of Inflammable mixture known as "Reliable Paint, Varnish and Lacquer Remover" in 8 oz., 16 oz., 32 oz. and 128 oz. glass containers (previously withdrawn).

PREMISES AFFECTED—42-56 Crescent street, west side, 84 ft. north of 43rd avenue (1st floor, rear building); (Block 429, Lot 31), Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Leo H. Schoen.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn 3

Negative: Commissioner Savage 1

THE RESOLUTION (475-44-A)

WHEREAS, this appeal from an order of the fire commissioner, affecting premises 42-56 Crescent street, west side, 84 ft. north of 43rd avenue (1st floor, rear building); (Block 429, Lot 31), Long Island City, Borough of Queens, was withdrawn on February 14, 1945; and

WHEREAS, the applicant requested a reopening of the appeal and restoration to the calendar; and

WHEREAS, this case was reopened by vote of the Board on March 20, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, Order 97410-C, issued by the fire commissioner July 12, 1944, reads:

1. "You are hereby notified that Fire Department Permit #B-213069, expiring July 25, 1945, and authorizing the manufacture of inflammable mixtures is revoked until the following is done.

2. Discontinue packaging of inflammable mixtures in glass containers greater than 4 ounce capacity. C19-59.0-c, Admin. Code."

and

WHEREAS, the applicant states that the rear building in question is one story (20 ft.) in height, 25 ft. by 50 ft. in area; Class 4 construction; erected in 1927; located in an unrestricted use district; that the premises are used throughout for the manufacture of paint and varnish remover and lacquer thinnners, for which Certificate of Occupancy 28441 was issued March 11, 1927; and

WHEREAS, the applicant contends that the Reliable Paint, Varnish and Lacquer Remover Co. has received Permit #B96757 issued by the Fire Commissioner, which was superseded by Permit #B213069, expiring July 25, 1945; that the War Production Board has assigned a quota of 150 000 cans of all sizes for use by the applicant; that the applicant was able to obtain only about 10,000 cans in 1944; that to make up the deficiency in packaging, it is proposed to use bottles in gallon, quart, pint and half-pint sizes for the duration of the war, as manufactured by the Gaynor Glass Works, as filed with the Board for approval under Cal. 178-44-SM; that the flashpoint of the material in question is 80 deg. F.; and

WHEREAS, the applicant further states that the new type bottles to be used, known as Boston Round manufactured by Gaynor Glass Works, are definitely stronger than those used at the time of the Board's original action; that although the applicant is entitled to approximately 150 000 cans annually it received only about 10 000 during the last 2 years; that only about 3% of the owner's output is distributed within the City of New York in bottles.

Resolved, that the order of the fire commissioner, acting on Order 97410-C, Item 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the use of glass bottles as proposed for the use of packaging paint and varnish remover and lacquer thinners as proposed, provided the flash point of such material is not less than 80 deg. F., and *on condition* that the bottles used shall be of a make as passed on by the Board under Cal. 178-44-SM; that this variance shall continue for a term of six (6) months from the date of this resolution; that in all other respects, the requirements of the Administrative Code shall be complied with as to packaging and labeling; that such products shall not be distributed in glass bottles for household use in sizes greater than the Administrative Code permits.

633-44-A

APPLICANT—Anthony M. De Rose, for Amrul Corporation, owner.

SUBJECT—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—2017 Grand Concourse, northwest corner of Bush street (Block 2808, Lot 90), Borough of The Bronx.

APPEARANCES—

For Applicant: Anthony De Rose, Joseph Gemanhi and Max Freyer.

For Opposition: Isidore Zeff.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0

Negative: Chairman Murdock Commissioners Savage and Blum and Deputy Chief Gunn.. 4

THE RESOLUTION (633-44-A)

WHEREAS, Anthony M. De Rose, for Amrul Corporation, owner, filed November 8, 1944, an appeal from a decision of

the borough superintendent, affecting premises 2017 Grand Concourse, northwest corner Bush street (Block 2808, Lot 90), Borough of The Bronx; and

WHEREAS, the decision of the borough superintendent, dated September 11, 1944, on Alt. Applic. 439-44, reads:

"2. The means of egress are inadequate. Provide two interior fireproof enclosed stairs from the roof to the street. (Sec. 6.4.1.1.).

3. If use is approved, floors should be good for at least 100 lbs. live load."

and

WHEREAS, the applicant states the building is 3 stories (40 ft.) in height; 25 ft. by 50 ft. in area; of Class 3 construction; erected 1907; located in a residence use, B area, Class 1½ height district and used and occupied since 1936 as follows: subcellar, private laundry for hospital, 8 persons; cellar, 1st and 2nd floor, club rooms, 20 persons in the cellar, 75 persons on the 1st floor and 30 persons on the second floor, and proposed to be used and occupied as follows: subcellar, storage and boiler room; cellar kitchen, meeting rooms, dining rooms, confirmation, meeting rooms, wedding confirmation, dining room, 125 persons; 2nd floor, meeting rooms, 50 persons; and

WHEREAS, Certificate of Occupancy issued October 25, 1937, permitted use and occupancy of the building as follows: cellar, private laundry for hospital, 8 persons; 1st floor, 20 persons; club rooms, 60 pound live load; 2nd floor, club room, 75 persons, 80 lb. live load; 3rd floor, club rooms, 30 persons, 60 lb. live load; and

WHEREAS, the applicant contends the building was erected in 1907 as a single family residence and converted in 1925 to a club house; and

WHEREAS, the applicant further contends as to Objection 2, that it would be a hardship to provide two interior fireproof stairs, as there are now two stairways existing, one an interior stair of wood construction and the other a 3 ft. 4 in. wide iron exterior stairs; that the building is only 1250 sq. ft. in area; and contends as to Objection 3, that a variance is requested because the present live load is adequate for the occupancy and that the occupancy permitted by the present certificate of occupancy is no different than the occupancy as requested on the alteration application in question; and

WHEREAS, the premises were inspected by a committee of the Board and the Committee recommended that the appeal be denied.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 439-44, objections 2 and 3, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied.*

173-45-A

APPLICANT—Saul Goldsmith, for Welbilt Stove Co., Inc., owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—57-18 Flushing avenue, south side, 51.96 ft. west of 59th drive (Block 2649, Lot 86), Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: Saul Goldsmith.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative: 0

THE RESOLUTION (173-45-A)

WHEREAS, Saul Goldsmith, for Welbilt Stove Company, Inc., owner, filed March 19, 1945, an appeal from an order of the fire commissioner, affecting premises 57-18 Flushing avenue, south side, 51.96 ft. west of 59th drive (Block 2649, Lot 86), Maspeth, Borough of Queens; and

WHEREAS, Order 98181-LC, issued by the fire commissioner November 14, 1944 and repeated in a decision of the fire commissioner, dated February 17, 1945, reads:

"You are hereby notified that an inspection of the above premises, used to store and use paints, etc., shows that the following must be done before the permit requested by you can be issued:

FORTHWITH:

1. Provide all dip tanks with hinged metal covers held open by fusible link, such covers to be equipped with an opening to permit automatic flooding of the tank with fire extinguishing media of a type and so located as the fire commissioner shall direct. Rule 4.1. Spray Rules."

and

WHEREAS, the applicant states that the building is 2 and 5 stories (60 ft.) in height, 231 ft. by 227 ft. in area at 1st floor, 231 ft. by 40 ft. in area at typical floor, of class 3 construction, erected in 1937, located in an unrestricted use, C area, class 1½ height district and used and occupied since 1937 as follows: cellar—restaurant and boiler room—50 persons; 1st floor—factory—100 persons; 2nd floor—factory, offices and showroom—50 persons; 3rd, 4th and 5th floors—factory—25 persons each floor; that the entire building is used for the manufacture of gas ranges; that no change in use or occupancy is proposed; that the building is equipped with a partial one source sprinkler system and with a standpipe system in the two story portion only, and two 3 ft. 8 in. steel stairs, enclosed in fireproof block partitions, equipped with kalamein, self-closing doors and leading directly to the street; that the easterly stair leads to the roof bulkhead and the westerly stair is equipped with a ladder and a scuttle to the roof; and

WHEREAS, the applicant contends that the tanks are located at the second floor rear, fireproof portion of the building and form part of a continuous conveyor method of handling, cleaning, paint dipping and drying metal products manufactured for the war effort; that the equipment is designed also for post-war use; that the dip tank is divided in half with 1500 gallons of paint in each half, or a total capacity of 3,000 gallons; that it is impractical to provide metal covers over the dip tanks; that the dip tanks are provided with many safeguards as recommended by the Underwriters'; that a Phomare Chemical Fire Extinguishing system has been installed around the entire dip tank and drip pan; that a quick opening valve has been provided for quick emptying of the paint into a 3,000 gallon storage tank buried below the lowest floor of the building; that portable pressure chemical fire extinguishers are located throughout the floor; it is therefore requested that the Board grant a modification, to permit the tank to be used without covers, but with safeguards as provided herein; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the order of the fire commissioner, acting on Order 98181-LC, Item 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the chemical fire extinguishing system which has been installed, shall be maintained to the satisfaction of the fire commissioner; that a quick opening valve to provide emptying into the paint tanks, shall be fitted with a fusible link to open automatically as proposed and shown on plans filed with this appeal marked "Received June 15, 1945"; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified under Cal. Nos. 78-44-A and 174-45-A; that a sprinkler system complying with the requirements therefor, shall be extended throughout the building, within one year from the date of this action.

174-45-A

APPLICANT—Saul Goldsmith, for Welbilt Stove Co., Inc., owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—57-18 Flushing avenue, south side, 51.96 ft. west of 59th drive (Block 2649, Lot 86), Maspeth, Borough of Queens.

MINUTES

APPEARANCES—
For Applicant: Saul Goldsmith.
For Administration: E. A. Meyer, Fire Dep't.
ACTION OF BOARD—Appeal granted on condition.
THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative: 0

THE RESOLUTION (174-45-A)

WHEREAS, Saul Goldsmith, for Welbilt Stove Company, Inc., owner, filed March 19, 1945 an appeal from an order and decision of the fire commissioner, affecting premises 57-18 Flushing avenue, south side, 51.96 ft. west of 59th drive (Block 2649, Lot 86), Maspeth, Borough of Queens; and

WHEREAS, order 97681-LC, issued by the fire commissioner August 22, 1944 and repeated in a decision of the fire commissioner, dated February 17, 1945, reads:

"Pursuant to the requirements of the rules governing the use of equipment for spraying of paints, varnishes, lacquers and other flammable surface coatings, adopted by the Board of Standards and Appeals, the following must be done:

5. Discontinue the use of unapproved pressure containers which are not approved by the Board of Standards and Appeals. Rule 6.1.7, Spray Rules."

and

WHEREAS, the applicant states that the building is 2 and 5 stories (60 ft.) in height, 231 ft. by 227 ft. in area at 1st floor, 231 ft. by 40 ft. in area at typical floor, of class 3 construction, erected in 1937, located in an unrestricted use, C, area, class 1½ height district and used and occupied since 1937 as follows: cellar—restaurant and boiler room—50 persons; 1st floor—factory—100 persons; 2nd floor—factory, offices and showroom—50 persons; 3rd, 4th and 5th floors—factory—25 persons each floor; that the entire building is used for the manufacture of gas ranges; that no change in use or occupancy is proposed; that the building is equipped with a partial one source sprinkler system and with a standpipe system in the two story portion only, and two 3 ft. 8 in. steel stairs, enclosed in fireproof block partitions, equipped with kalamein, self-closing doors and leading directly to the street; that the easterly stair leads to the roof bulkhead and the westerly stair is equipped with a ladder and a scuttle to the roof; and

WHEREAS, the applicant contends that the pressure containers are located in the rear fireproof building, used for the purpose of transferring paints from a lower to a higher level, from the mixing tank to the dipping tank; that these pressure containers were originally in use in connection with porcelain enamel work operating at a pressure of 35 lbs. per sq. in.; that the pressure containers are now operating at a maximum pressure of 10 lbs, per sq. in.; that the capacity of the containers is 50 gallons; that these containers are constructed of 10 gauge steel, designed for a working pressure of 100 lbs. per sq. in. and it is requested that the Board grant a modification, to permit the continued use of the pressure containers; and

WHEREAS, under Cal. 572-43-A, an appeal was filed from Item 6 of Order 95772-LC, issued by the Fire Commissioner October 5, 1943, reading as follows:

"6. Discontinue the use of pressure feed tanks which are not approved by the Board of Standards and Appeals, Rule 6.1.7, Spray Rules;"

and

WHEREAS, this appeal was withdrawn to comply on March 14, 1944; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board.

Resolved, that the order of the fire commissioner, acting on Order 97681-LC, Item 5, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the number of containers shall not exceed two, as indicated on plans filed with this appeal marked "Received June 15, 1945." the capacity not exceeding 50 gallons; that the tanks shall be maintained to the satisfaction of the fire commissioner, with a working pressure not exceeding 100 lbs. per sq. in., and that a test shall be made to the satisfaction of the fire commissioner and that the tanks are capable of such pressure; that a pressure valve on each tank shall be installed, if required by the fire commissioner; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board under Cal. 78-44-A and 173-45-A; that the sprinkler system within this paint storage room shall be maintained and within a year from the date of this action, the sprinkler system shall be continued through the entire building; that all other items of Order 97681-LC shall be complied with.

RULES

RULES FOR INSPECTION OF APPROVED OPENING PROTECTIVE ASSEMBLIES

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS OCTOBER 20, 1939. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, NOVEMBER 13, 1939 AND AMENDED ON JUNE 8, 1945, EFFECTIVE JULY 2, 1945.

(1139-39-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, *paragraph* 2, *Charter of the City of New York and C*26-189.0 *Administrative Building Code and C*26-610.0 *Administrative Building Code and C*26-660.0, 661.0 *and* 662.0 *Administrative Building Code.*

Note: New matter in italics.

Rule 1—Scope.

1.1 Before any Opening Protective Assembly is used under the provisions of the Administrative Building Code, it shall be tested as required in Section C26-610.0 (10.1.18) and its Fire-Resistive Rating shall be designated as "¾-Hour", "1-Hour", "1½-Hour", or "3-Hour", in accordance with the approval.

1.2 Before engaging in the manufacture of approved Opening Protective Assemblies, the manufacturer shall have an established plant completely equipped with the necessary facilities, machinery and tools for the manufacture of the Opening Protective Assemblies.

1.3 Before applying for approval of plant and permission to manufacture approved Opening Protective Assemblies, the manufacturer shall file a list of his equipment and facilities with the Board of Standards and Appeals, together with a statement of the name, type, specifications and details of the approved door, which he agrees to manufacture in accordance with the rules and regulations of the Board and the requirements of the Administrative Building Code.

1.4 All Opening Protective Assemblies made under any approval issued by the Board of Standards and Appeals for the manufacture of approved Opening Protective Assemblies of "¾-Hour", "1-Hour", "1½-Hour" or "3-Hour" rating shall be rejected on evidence that such Opening Protective Assemblies are not manufactured or labelled in accordance with the approved specifications of the Board.

Rule 2—Inspections.

2.1 No Opening Protective Assemblies shall be installed in any building until such Opening Protective Assemblies have been inspected and labelled either by the Borough Superintendent, or by a recognized testing laboratory or other qualified person or agency approved by the Board as having proper facilities.

2.2 Before issuing any label for the use of an approved Opening Protective Assembly, the authorized inspection agency shall first notify the Borough Superintendent that inspection will be made by him of the materials and construction entering into the assembly of the Opening Protective Assemblies, stating the location of the premises where the Opening Protective Assemblies will be used, the Building Permit number, the name of the approved Opening Protective Assembly and the manufacturer and the number of such units to be manufactured.

Note: Where an Opening Protective Assembly is of fire-proofed wood, such wood shall be submitted to tests for fireproofed wood, as prescribed in the Administrative Building Code, Section C26-331.9.

2.3 After the materials have been cut and inspected, the authorized inspection agency shall inspect the assembly and fabrication of the parts and shall issue an approved label only if the completed Opening Protective Assemblies comply in all respects with the approved specifications on file in the Board of Standards and Appeals.

Rule 3—Labeling Requirements.

3.1 Every approved Opening Protective Assembly before installation in a building under the provisions of the Administrative Building Code, shall have securely attached to it, a metal label of a design approved by the Board, giving the name of the Opening Protective Assembly, the calendar number of the approval of the device, the fire-resistive rating, the serial number of the specific type of door and buck, or window, the year of manufacture and the name of the inspection agency. When opening protective assemblies are manufactured for stock, the inspection agency shall furnish a report to the manufacturer of his inspection of each assembly including all data as is herein required.

3.2 After attachment of the Serial Label to the Opening Protective Assembly, the inspection agency shall advise the Borough Superintendent the serial numbers, the address of the premises and the Building Permit numbers of the approved Opening Protective Assembly. When opening protective assemblies are installed in a building as building maintenance, the manufacturer shall furnish similar data on forms obtained from the Borough Superintendent.

3.3 The manufacturer may also attach to the Opening Protective Assembly, a metal label giving the name and location of the manufacturer. He shall also keep an office record showing the location of each Opening Protective Assembly manufactured by him, its serial label number and the Building Permit number; and this record shall be open for inspection by any authorized representative of the Board of Standards and Appeals and the Department of Housing and Buildings.

3.4 Every labelled Opening Protective Assembly shall be constructed and installed in all essentials as tested and approved and arranged to receive hardware of an equal type, quality and material and requiring no greater cutting away of the wood or metal than on the approved Opening Protective Assembly, as tested.

3.5 Where opening protective assemblies are manufactured up to 25% in excess of the sample as tested and as permissively allowed under C26-610.0a, the permitted increase in area shall not exceed width and height dimensions greater than 15 percent of the sample as tested. In all cases the permissively allowed increase in area of 25% shall apply only to the sample when constructed identically in all respects with the tested sample.

3.6 When opening protective assemblies are manufactured for stock, such assemblies shall be inspected as provided herein. As the doors are shipped, the Borough Superintendent shall be furnished with the data as specified in Rules 3.1 and 3.2. When such opening protective assemblies are shipped to jobbers for stock, the manufacturer shall obtain the data from the jobbers, as required under rules 3.1 and 3.2 and immediately submit such data to the Borough Superintendent.

3.7 Openings for vision purposes and signal bells may be installed in an opening protective assembly when they are of approved type and when installed in accordance with the conditions of approval.

Minutes of Regular Meeting June 26, 1945, at 10 A.M., Affecting Calendar Numbers 504-27-BZ, 575-44-BZ, 159-45-BZ, 596-42-BZ, 122-45-BZ, 132-45-BZ, 290-45-BZ, 133-45-A, 134-45-A, 287-45-A, 371-45-A, 28-38-SM and 315-43-SM.

Minutes of Regular Meeting June 26, 1945, at 2 P.M., Affecting Calendar Numbers 233-45-A, 314-45-A, 321-45-A, 336-45-A, 349-45-A, 363-45-A, 367-45-A, 370-45-A, 187-35-A, 102-42-S, 80-43-A, 430-43-A, 621-44-A, 701-44-A, 172-45-A, 329-45-A, 327-27-BZ, 165-30-BZ, 609-37-BZ, 70-39-BZ, 452-41-BZ, 587-41-BZ, 790-41-BZ, 987-41-BZ, 1029-41-BZ, 1101-41-BZ, 408-44-BZ, 1004-25-BZ, 1236-27-BZ, 280-31-BZ, 241-33-BZ and 217-45-BZ.

Corrections Affecting Calendar Numbers 324-45-A and 280-45-A.

PUBLIC HEARINGS

Tuesdays at 10 a. m. and 2 p. m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building, Borough of Manhattan.

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY MORNING, JUNE 26, 1945

Present: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.

The minutes of the regular meetings of the Board held on Tuesday afternoon, June 19, 1945 and on Wednesday morning, June 20, 1945, were approved as printed in Bulletin No. 26, Volume 30.

ZONING APPLICATIONS

504-27-BZ

APPLICANT—Crisona & Murphy, for Broadway-230th Street Corp., owner (Wallace I. Wolpert, lessee).

SUBJECT—Application reopened June 5, 1945, for consideration as to extension of time to complete work—Application (decision of the borough superintendent) previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the alteration and reconstruction of a gas station, previously granted by the Board, so as to include a lubritorium and auto laundry and also the use of part of the plot for parking and storage of more than five motor vehicles.

PREMISES AFFECTED—200-218 West 230th street and 5485 Broadway, southwest corner (Block 3402, Lot 652), Borough of The Bronx.

APPEARANCES—
For Applicant: Joseph List.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to July 3, 1945 at 10 A.M., at request of applicant's representative.

575-44-BZ

APPLICANT—Martyn M. Weinstein, for Cardinal Mfg. Co., Inc., owner.

SUBJECT—Application (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the maintenance of a storage yard for salvaged materials from ships and for oxygen and acetylene tanks in two portable steel deck houses, for a temporary period of two years.

PREMISES AFFECTED—729-747 Hicks street, east side, from Nelson to Huntington streets, 46-54 Nelson street and 45-53 Huntington street (Block 526, Lots 1 to 12), Borough of Brooklyn.

APPEARANCES—
For Applicant: Martyn M. Weinstein.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustave Goldman, Board of Education.

ACTION OF BOARD—Laid over to July 10, 1945 at 10 A.M., for further consideration. Applicant to submit revised plan.

159-45-BZ

APPLICANT—Lama & Proskauer, for George C. Tilyou and George C. McCullough, owners.

SUBJECT—Application (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a business use district, the parking and storage of more than five motor vehicles for a term of years.

PREMISES AFFECTED—1501-1515 Surf avenue and 2932-2950 West 15th street, northwest corner (Block 7063, part of Lot 21), Borough of Brooklyn.

APPEARANCES—
For Applicant: A. Lama and M. McCullough.
For Opposition: W. J. Sparago and F. Fleminger.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to July 10, 1945 at 10 A.M., for further consideration.

59[illegible]-42-BZ

APPLICANT—Koch & Wagner, for The Roberts Numbering Machine Co., owner.

SUBJECT—Application reopened May 1, 1945 (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the change of occupancy of a garage for five cars of the pleasure car type (granted by the Board) to an office and drafting room, accessory to factory on same plot.

PREMISES AFFECTED—30 Richmond street, west side, 194 ft. 6 in. south of Jamaica avenue and 692-710 Jamaica avenue (Block 4102, Lots 19 and 35), Borough of Brooklyn.

APPEARANCES—
For Applicant: Harry L. Yakel.
For Opposition: H. Anwarter, G. Sherder, Mrs. Anwarter, H. Bauer, A. Dahl and E. Nichol.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—
Affirmative 0
Negative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

MINUTES

THE RESOLUTION (596-42-BZ)

WHEREAS, this application under section 7c of the zoning resolution, permitting in a residence use district, the erection and maintenance of a garage for five motor vehicles (of the pleasure car type) for storage of cars owned by the officers of the owner of the factory buildings on the same plot, affecting premises 30 Richmond street, west side, 194 ft. 6 in. south of Jamaica avenue and 692-710 Jamaica avenue (Block 4102, Lots 19 and 35), Borough of Brooklyn, was granted by the Board on October 20, 1942, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution, to permit the change of occupancy of the five car garage, granted by the Board, to a factory for a temporary term; and

WHEREAS, this application was denied by the Board on November 8, 1944; and

WHEREAS, the applicant requested a further amendment of the resolution, to permit the change of occupancy of the five car garage, granted by the Board, to an office and drafting room, accessory to the factory on the same plot; and

WHEREAS, this case was reopened by vote of the Board on May 1, 1945 and restored to the calendar, subject to usual procedure; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals at its regular meeting, June 26, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Jamaica avenue is in a business use C area and Class 1 height district and Richmond street is in a residence use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated April 10, 1945, re Amendment to N.B. App. 313-42, reads:

"1. Proposed change of occupancy to office use (Drafting Room) in a Residential use district is contrary to Art. II Sec. 3 of the Zoning Resolution.

Note: These premises were the subject of conditional variation of the Board of Stds and Appeals 596-42-BZ Bull. 43 Vol. 27."

and

WHEREAS, the applicant states the premises consist of a plot irregular in area with a frontage of 187 ft. 9¼ in. on Jamaica avenue and a depth of 126 ft. at its westerly lot line, on which are located 1 and 2-story factory buildings, a 1½ story frame dwelling and the building affected, which is a one-story, 27 ft. by 48 ft. 5-car garage building and it is proposed to occupy the latter building for a drafting room and office; and

WHEREAS, the applicant contends that under Cal. 596-42-BZ, a 5-car garage was erected on the premises and on June 13, 1944, the Board granted the reopening of same to change garage use to a factory use, which was denied at hearing held on November 8, 1944; that the owner now requests the change of the garage use to office and drafting room, for the reason that the same will be more isolated and less disturbing than in its present location in the main factory, also that the office and drafting room use will be less offensive as a non-conforming use than the five-car garage; that no certificate of occupancy has been obtained for the garage use; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision c for the change of use proposed.

Resolved, that the decision of the borough superintendent acting on amendment to N.B. Applic. 313-42, Objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

122-45-BZ

APPLICANT—Lama & Proskauer, for East New York Savings Bank, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7c and 21 of the zoning resolution, to permit the extension from a business use district, into a residence use district of a bank and storage building, the building occupying in a C area district in excess of 60% of lot area.

PREMISES AFFECTED—176-180 (178 displayed) New Jersey avenue, east side, 82 ft. 8 in. south of Atlantic avenue, 2644-2654 Atlantic avenue and 91-107 Pennsylvania avenue, southeast corner (Block 3687, Lots 5, 10, 12, 17, 24 and 25), Borough of Brooklyn.

APPEARANCES—

For Applicant: A. Lama and Guy Terhune.

For Opposition: Emanuel Laprezioso.

For Administration: Fred Dahlem, Dep't of Housing and Buildings and Gustave Goldman, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (122-45-BZ)

WHEREAS, Lama & Proskauer, for East New York Savings Bank, owner, filed March 5, 1945, an application under sections 7c and 21 of the zoning resolution, to permit the extension from a business use district into a residence use district of a bank, storage building, the building occupying in a C area district in excess of 60% of lot area, affecting premises 176-180 (178 displayed) New Jersey avenue, east side, 82 ft. 8 in. south of Atlantic avenue, 2644-2654 Atlantic avenue and 91-107 Pennsylvania avenue, southeast corner (Block 3687, Lots 5, 10, 12, 17, 24 and 25), Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 26, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Atlantic avenue and Pennsylvania avenue are in a business use, C area and Class 1 height district; New Jersey avenue is in a business and residence use, C area and Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated February 15, 1945, on Alt. Applic. 3811-44, reads:

"1. Proposed extension of premises to be occupied for business use on lot located partly in a business zone and partly in a residential zone is contrary to Article II Section 3 of the zoning resolution.

2. Proposed extension of premises located in a "C" area resulting in the area of construction exceeding 60% of the lot area is contrary to Article IV, Sec. 13 of the zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot, 50 ft. frontage on New Jersey avenue running through to Pennsylvania avenue with a frontage of 175.1 ft. on Pennsylvania avenue and 105 ft. 4¾ in. on Atlantic avenue, on which are located several brick and frame buildings occupied by a bank and for bank storage and fur storage; and

WHEREAS, the applicant contends that the premises in question is part of a site, housing the East New York Savings Bank; that there are on the site, three buildings, one a 4-story building, housing the main banking room and offices, another a 2½-story frame residence building, and a 2-story brick building, 44 ft. 1½ in. by 95 ft., which is used for storage and for storage vault; that it is proposed to erect at the rear of this building, a one story extension 21 ft. by 31 ft. to be used as a receiving room and to construct a steel bridge from the 2nd floor of the existing bank

building, connecting to the 2nd floor of the building in question; that this floor is to be used for the storage of bank records, etc.; that the building in question was erected under N.B. 5340-1910, for storage and factory use; that the bank purchased this building on July 22, 1943; that the property is presently zoned as a partly business district and partly as a residential district; that the entire plot in question was zoned unrestricted until May 15, 1941; that in view of the fact the property alteration will not affect the general surroundings, and as it is an accessory to the existing bank, it is respectfully requested that the application be granted; and

WHEREAS, a computation has been made of the requirements of the zoning resolution, as affecting this plot, as follows:

Total area of plot—23,277.5 sq. ft.

Actual area covered including new extension—
14,836 sq. ft. or 63.3%

Area of extension—651 sq. ft.—2.8%

Area permitted 75% of 5,000 sq. ft. equals..	3,750 sq. ft.
60% of 18,275 sq. ft. equals..	10,965 sq. ft.
Total.....	14,715 sq. ft.

Total permitted	14,715 sq. ft.
Total covered	14,836 sq. ft.
Excess coverage	121 sq. ft.

and

WHEREAS, these premises and the surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7, subdivision c, and that the applicant had substantiated a basis to grant under section 21 of the zoning resolution as to extension of area of the building and was therefore entitled to relief on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution, and that the application be and it hereby is *granted,* to permit the conversion of the existing building as proposed to be altered and the one story extension and steel bridge across the yard as indicated on plans filed with this application marked "Received March 5, 1945," *on condition* that the building shall not be increased in height or area, and that in all other respects, the building and occupancies shall comply with all laws, rules and regulations applicable thereto; that the use of the building shall be solely in connection with the bank for the use as set forth; that the building shall be made to comply with the requirements for a Class 1 building, and that such fire fighting equipment shall be installed as the fire commissioner shall require; that all permits shall be obtained and all work completed within one (1) year from the date of this resolution.

132-45-BZ

APPLICANT—Kitzler & Nurick, for Beatrice Finkelstein, owner. (Max Finkelstein, lessee).

SUBJECT—Application (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use district, the enclosure of an existing gasoline service station as part of a new building to be occupied for a conforming use.

PREMISES AFFECTED—30-02 to 30-20 Newtown avenue and 29-01 to 29-11 30th street, southwest corner (Block 595, Lots 19 to 26 inc.), Long Island City, Borough of Queens.

APPEARANCES—
For Applicant: H. J. Nurick.
For Opposition: None.
For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—
Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4
Negative 0

THE RESOLUTION (132-45-BZ)

WHEREAS, Kitzler and Nurick, for Beatrice Finkelstein, owner (Max Finkelstein, lessee), filed March 9, 1945, an application under sections 7c and 21 of the zoning resolution, to permit in a business use district, the enclosure of an existing gasoline station as part of a new building to be occupied for conforming use, affecting premises: 30-02 to 30-20 Newtown avenue and 29-01 to 29-11 30th street, southwest corner (Block 595, Lots 19 to 26, inc.), Long Island City, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 26, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Newtown avenue, 30th street and 30th avenue are in a business use, B area and Class 1¼ height district and 31st street is partly in business and partly in residence use, B area and Class 1/14 height districts; and

WHEREAS, the decision of the borough superintendent, dated February 19, 1945, re N.B. Applic. 272-44, reads:

> "1. Existing gasoline service station being part of proposed new building for the storage of wholesale tires, batteries and auto accessories, the alteration of which is more than 50% of the value of the building and located in a business district is in violation of sections 4 and 6 of the Building Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 190 ft. frontage by 92 ft. in depth, on which is located a gasoline service station, 25 ft. by 100 ft., a 2-story building, 25 ft. by 85 ft. 3 in., occupied for auto parts, a 2-story brick building, 22 ft. by 56 ft., the remainder of plot being vacant; that it is proposed to remove the 2-story brick building and erect a new building with a frontage of 165 ft. 2 in. on Newtown avenue and 92 ft. on 30th street, for sale of auto parts and tires, the gasoline service station being enclosed in this building; and

WHEREAS, the applicant contends that the premises involved consist of a gasoline service station on a vacant irregular lot 25 ft. by 100 ft., having two gasoline pumps and two gasoline storage tanks; that these pumps and tanks were installed under approved Fire Dept. plans 1414-22 and 364-27; that the first permit No. 73372 for storage and sale of gasoline was issued October 9, 1922 and permits were issued annually to date; that this gasoline station was bounded on the south by a two-story nonfireproof building, used for the sale and storage of tires and auto accessories and to the north by a 2-story nonfireproof building, 22 ft. wide, also used for storage of auto accessories and tires; that the present owners have owned all this property since 1924; that a one-story fireproof building has been erected under Permit N.B. 272-44, issued by the Dept. of Housing and Building under a priority order from the War Production Board; this new building is to be used for wholesale storage of tires, batteries and auto accessories; that the relief sought is to be permitted to continue the use of the existing gasoline station, to be enclosed by brick walls on three sides, as shown on plans filed with this application and closed by rolling iron shutter at the front, making the entire development appear as one unit; that this will give it a more presentable appearance than the former open-air gasoline service station; that the gasoline station will be closed evenings, Sundays and holidays and hidden

from view by the metal rolling doors; that the operation of this station has been an important part of the present business since 1924 and unnecessary hardships would be created if the owner were not permitted to continue the operation of this station as submitted in this application; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, the Board deemed that this was a proper case in which to exercise discretion to grant under section 7c of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 7c thereof, to permit the area as indicated on plans filed with this application, as revised June 21, 1945, to be occupied for the sale of gasoline, *on condition* that the number of pumps shall not exceed two as shown and the number of gasoline tanks shall not exceed two, each 550 gallons; that the door shown at "A" shall be a fireproof self-closing door; that any curb cut constructed opposite this gasoline space shall not exceed 15 ft.; that no portable gasoline tank shall be used on or from the premises; that no signs shall be erected on the premises advertising the gasoline storage, except there may be a bracket sign attached to the facade of the building, advertising only the brand of gasoline on sale and permitting such sign to be illuminated and to extend beyond the building line for a distance of not more than 4 ft.; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that in all other respects, the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that no cars shall be serviced, except in the gasoline servicing space and not on the sidewalk or at the curb; that all permits shall be obtained and all work completed within 3 months from the date of this resolution.

290-45-BZ

APPLICANT—Simon Cohen, for Isidor Faber, owner.

SUBJECT—Application (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, the parking and storage of motor vehicles for a term of two years.

PREMISES AFFECTED—155 Beach 82nd street, west side, 360.04 ft. south of Rockaway Beach boulevard (Block 618, Lots 49, 54 and 154), Rockaway Beach, Borough of Queens.

APPEARANCES—

For Applicant: Solomon Goldberg, Simon Cohen and Isidore Faber.

For Opposition: A. E. Markowitz, H. Klorfein, Part Dept., M. Weinstock, M. Cohen and G. Cohen.

For Administration: Fred Dahlem, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Savage and Deputy Chief Gunn 2

Negative: Chairman Murdock and Commissioner Blum 2

THE RESOLUTION (290-45-BZ)

WHEREAS, Simon Cohen, for Isidor Faber, owner, filed May 5, 1945, an application under section 7h of the zoning resolution, to permit in a residence use district, the parking and storage of motor vehicles for a term of two years, affecting premises 155 Beach 82nd street, west side, 360.04 ft. south of Rockaway Beach boulevard (Block 618, Lots 49, 54 and 154), Rockaway Beach, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the Board of Standards and Appeals, at its regular meeting, June 26, 1945, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the zoning resolution show that Rockaway Beach parkway, 82nd and 83rd streets are in a residence use, C area, class 1 height district and Rockaway Beach boulevard is in a business use, C area and class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 3, 1945, on Misc. Applic. 490-45, reads:

> "1. The use of a lot in a residence district for the parking and storage of motor vehicles is contrary to Art. 2, Sec. 3, Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 179 ft. frontage by 77.58 ft. and 90.64 ft. in depth, irregular; that the property is now vacant and it is proposed to use this plot for the parking and storage of more than five (5) motor vehicles; and

WHEREAS, the applicant contends that the premises are located within a residence district, fronting on Beach 82nd street and located on the block between Rockaway Beach boulevard and Rockaway Beach parkway; that the summer population of this area increases so greatly over the normal population, that a serious shortage of available parking and garage space has been encountered in this area; that there are no parking spaces within a half dozen streets; that the nearest lot used for a parking space is located on the northwest corner of Beach 79th street and Rockaway Beach boulevard; that permission for the proposed use would aid in lifting the burden of taxes until such time when it would be possible to erect a suitable building on the plot; that in view of these facts, it is requested that the application be granted for a term of two years under such conditions as the Board may require; and

WHEREAS, the Board deemed that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Misc. Applic. 490-45, Objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied.*

APPEALS FROM ADMINISTRATIVE DECISIONS

133-45-A

APPLICANT—Amperex Electronic Corp., lessee, for Gair Realty Corp., owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—21-29 Washington street, 104-122 Plymouth street, southeast corner and 18-26 Adams street (1st and 2nd floors); (Block 28, Lot 5), Borough of Brooklyn.

APPEARANCES—

For Applicant: Nicholas Anton.

For Administration: E. A. Meyer, Fire Dept.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Blum and Deputy Chief Gunn..... 3

Negative: Commissioner Savage 1

THE RESOLUTION (133-45-A)

WHEREAS, Amperex Electronic Corporation, lessee, for Gair Realty Corporation, owner, filed March 7, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 21-29 Washington street, 104-122 Plymouth street, southeast corner and 18-26 Adams street (1st and 2nd floors); (Block 28, Lot 5), Borough of Brooklyn; and

WHEREAS, Order 98542-LC, issued by the fire commissioner, December 30, 1944 and repeated in a decision of the fire commissioner dated February 19, 1945, reads:

"You are hereby notified that an inspection of the above premises, used to store and use hydrogen, etc. shows that the following must be done before the permit requested by you can be issued:

Forthwith:

1. Discontinue the further storage and use of hydrogen on the above premises. C19-11.0, Administrative Code."

and

WHEREAS, the applicant states the building is six stories (82 ft.) in height, 100 ft. by 115 ft. 6 in. and 161 ft. 3 in. in area at 1st floor, 100 ft. by 115 ft. 6 in. in area at typical floor; of Class 3 construction; erected 1902; located in an unrestricted use, A area and Class 2 height district, and used and occupied since 1944 as follows: cellar, manufacturing radio and radar tubes and storage, 10 persons; 1st floor, manufacturing radio and radar tubes and offices, 69 persons; 2nd floor, manufacturing radio and radar tubes and offices, 60 persons; 3rd floor, manufacturing soda straws, 15 persons; 4th floor, knitting factory and machine shop, 35 persons; 5th floor, manufacturing soda straws, 40 persons; 6th floor, manufacturing smoking pipes, 70 persons; that no change in use is proposed; that the maximum number of occupants stated as proposed is 150 persons per floor; that the building is equipped with a one source sprinkler system and a standpipe system; that there are two interior wood stairs, 4 ft. 7 in. wide, enclosed in brick, equipped with kalamein, self-closing doors and extending from the roof bulkhead directly to the street and two fire escapes, one on the north side and one on the west side, extending to the roof by stair and to the street by stair; that window and door openings on the course of the fire escape are fireproof, self-closing; and

WHEREAS, the applicant contends that it manufactures radio and radar tubes for the Armed Forces; that production will be impossible without the use of hydrogen gas; that a 12 cylinder (6 on and 6 off) hydrogen manifold is installed on the first floor in the 2-story fireproof extension at the rear of the main building; that this manifold is of approved type and has individual ball checks; that the main line is protected by dry flash back arrestor with open air discharge; that the piping throughout is one inch non-ferrous tubing; that all joints are silver soldered; that valves are of a non-ferrous body diaphragm type; that each location, where the gas is used is provided with a dry flash back arrestor and a line regulator; that the main line pressure is 20 lbs.; that hydrogen mixed with oxygen in flames for heating or welding high silica glasses is used as a reducing atmosphere and is used as a source of atomic hydrogen for arc-welding; that where hydrogen is used as combustible gas, the line is protected with a wet flash back arrestor; that when hydrogen is used as a reducing atmosphere, the open end bell jars are placed under a metal hood, ventilated to the outside of the building, equipped with a fan so connected that it would be impossible to operate the equipment unless the fan is in motion; that the hoods are so designed that any escaping hydrogen is forced by gravity alone to the outside air; that where hydrogen is used as a reducing atmosphere in high temperature ovens, pilot lights are provided near all openings; that when hydrogen is used as a reducing atmosphere in conjunction with spot welding, it is discharged in minute quantities from ⅛ inch copper tubing and small needle valves directly on the weld; that 40 welding positions consume approximately 60 cu. ft. of hydrogen in an 8 hour shift; that the installation of the spring needle valves will further reduce this 60 cu. ft. to approximately 20 cu. ft.; that the discharge of 20 cu. ft. of hydrogen during an 8 hour shift in a room approximately 264,000 cu. ft. with windows on three sides, is not a hazard; that where ever possible, the applicant is diluting hydrogen with nitrogen and the mixture is normally 92% nitrogen and 8% hydrogen and other mixtures up to 50% hydrogen and 50% of nitrogen; that Order 98542-LC was issued upon the Fire Department's checking up the installation in connection with the application filed for a renewal of the permit.

Resolved, that Order 98542-LC issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to Item 1, *on condition* that the storage and use of hydrogen shall be substantially as set forth and shall be maintained to the satisfaction of the fire commissioner; that a vent shall be carried from the ceiling of the space in which the cylinders of hydrogen are stored, through the second story to the roof; that such shaft shall be not less than 4 sq. ft. and shall be extended to a point approximately 10 ft. above the second story roof and shall be constructed of heavy sheet steel, adequately protected by masonry as requested by the code; that there shall be a wind ventilator placed at the top thereof; that the sprinkler system and standpipe system shall be maintained in accordance with the requirements therefor; that such further portable fire-fighting appliances shall be maintained as the fire commissioner shall direct.

134-45-A

APPLICANT—Amperex Electronic Corp., lessee, for Gair Realty Corp., owner.

SUBJECT—Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—79 Washington street, east side, 127 ft. south of Front street (2nd, 3rd, 4th and 5th floors); (Block 51, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Nicholas Anton.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (134-45-A)

WHEREAS, Amperex Electronic Corporation, lessee, for Gair Realty Corporation, owner, filed March 7, 1945, an appeal from an order and decision of the fire commissioner, affecting premises 79 Washington street, east side, 127 ft. south of Front street (2nd, 3rd, 4th and 5th floors); (Block 51, Lot 1), Borough of Brooklyn; and

WHEREAS, order 98525-LC, issued by the fire commissioner, January 9, 1945 and repeated in a decision of the fire commissioner dated February 19, 1945, reads:

"1. Surrender to Bearer Permit No. B202411 expiring March 22, 1945, permitting storage and use of gases, lacquer, etc., same being revoked pending compliance with the following orders:

4. Discontinue the further storage and use of hydrogen gas as such use creates a great fire hazard and is against the interest of public safety. C19-11.0, Administrative Code."

and

WHEREAS, the applicant states that the building is 5 stories and basement (59 ft. 6 in.) in height, 53 ft. by 107 ft. 6 in. in area at 1st floor, 40 ft. by 107 ft. 6 in. in area at typical floor, of class 3 construction, erected in 1889, located in an unrestricted use, A area and class 2 height district and used and occupied since 1933 as follows: cellar, manufacturing radio and radar tubes and storage, 10 persons; 1st floor, manufacturing radio and radar tubes, machine shop and office, 20 persons; 2nd floor, manufacturing radio and radar tubes and office, 46 persons; 3rd floor, same, 85 persons; 4th floor, same, 70 persons; 5th floor, manufacturing radio and radar tubes, 75 persons; that no change in use is proposed, but the proposed occupancy is stated as 102 persons per floor; that the building is equipped with a one source sprinkler system and a standpipe system; that there is one 3 ft. 7 in. wide wood interior stairs, enclosed in gypsum blocks, equipped with kalamein, self-closing doors and leading directly to the street and provided with a ladder and scuttle to the roof and one fire escape, leading

to the roof by a ladder and to the street by stairs, through Fleet alley; and

WHEREAS, the applicant contends that it manufactures radio transmitting and radar tubes for the Armed Forces; that production would be impossible without the use of hydrogen gas; that to eliminate the hazard of the storage of hydrogen at 79 Washington street, the applicant has purchased a lot at 68 Adams street and built a fireproof structure to house a 24-cylinder hydrogen manifold; that this manifold building has no windows, is constructed with heavy walls and a light metal roof, thoroughly ventilated; that the electrical installation is explosion-proof and the light switch is operated from the exterior; that plans for this building were filed and approved by the borough superintendent; that hydrogen at 20 lbs. pressure is forced through open-air non-ferrous, 1 inch tubing and supplied to the 3rd, 4th and 5th floors at 79 Washington street, as shown on plans filed with this appeal; that the hydrogen manifold room in 79 Washington street has been removed and the use of individual tanks has been discontinued throughout the factory; that the installation will use all non-ferrous piping, silver soldered to permanently avoid leaks with non-ferrous body diaphragm valves and regulators; that hydrogen mixed with oxygen in flames for heating or welding high silica glasses, is used as a reducing atmosphere and is used as a source of atomic hydrogen for arc-welding; that where hydrogen is used as combustible gas, the line is protected with a wet flash back arrestor; that when hydrogen is used as a reducing atmosphere, the open end bell jars are placed under a metal hood, ventilated to the outside of the building, equipped with a fan so connected that it would be impossible to operate the equipment unless the fan is in motion; that the hoods are so designed that any escaping hydrogen is forced by gravity alone to the outside air; that where hydrogen is used as a reducing atmosphere in high temperature ovens, pilot lights are provided near all openings; that when hydrogen is used as a reducing atmosphere in conjunction with spot welding, it is discharged in minute quantities from ⅛ in. copper tubing and small needle valves directly on the weld; that where ever possible, the applicant is diluting hydrogen with nitrogen and the mixture is normally 92% nitrogen and 8% hydrogen and other mixtures up to 50% hydrogen and 50% of nitrogen.

Resolved, that Order 98525-LC issued by the fire commissioner be and it hereby is *modified* and that the appeal be and it hereby is *granted,* as to Item 4, *on condition* that the storage and use of hydrogen shall be maintained substantially as set forth and to the satisfaction of the fire commissioner; that the proposed ventilation by means of a fixed louvre in the door to the fireproof storage room and the ventilator skylights, as shown on plans filed with this appeal marked "Received June 4, 1945" shall be maintained; that the sprinkler system and standpipe system shall be maintained to the satisfaction of the fire commissioner and such portable fire-fighting appliances shall be maintained as he shall direct; that permission shall be obtained for carrying proposed pipes across Fleet alley, which according to the Borough President's records, is a public street.

287-45-A

APPLICANT—Joseph Lau, for Master Printers Building Operating Co., owner (Hammarlund Manufacturing Co., lessee).

SUBJECT—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—460 West 34th street, 406-416 10th avenue, southeast corner and 457 West 33rd street, northeast corner of 10th avenue (8th floor); (Block 731, Lot 1), Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph Lau.

For Administration: E. A. Meyer, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Savage and Blum and Deputy Chief Gunn.. 4

Negative 0

THE RESOLUTION (287-45-A)

WHEREAS, Joseph Lau, for Master Printers Building Operating Company, owner (Hammarlund Manufacturing Company, lessee), filed May 11, 1945, an appeal from an order and decision of the fire commissioner affecting premises 460 West 34th street, 406-416 10th avenue, southeast corner, and 457 West 33rd street, northeast corner of 10th avenue (8th floor), (Block 731, Lot 1), Borough of Manhattan; and

WHEREAS, order 40742-LC, issued by the fire commissioner, March 5, 1945 and repeated in a decision of the fire commissioner, dated April 27, 1945, reads:
